Tank Car Blast Leaves Thousand People Homeless

Two Killed, Score Hurt In Mount Pulaski, Ill.

MOUNT PULASKI, Ill. (AP) —The shattering explosion of a railroad tank car spread devastation through this town of 1,500 persons Sunday, leaving most of 1,000 temporarily homeless.

Two railroad men were killed and one was injured seriously. More than a score of residents were hurt by flying glass and debris.

Damage was estimated by officials at $1,000,000. Officials said a survey indicated two-thirds of the town's some 400 homes were damaged and not immediately habitable.

The explosion and fire evacuated after the tank car filled with a petroleum product exploded and flames threatened two other tank cars filled with liquid chemicals. Cause of the blast was not immediately determined.

DURING SWITCHING

The tank car was one of 43 cars on an Illinois Central Railroad freight train which was switching in the yards. Afterward, the train was moved 500 residents whose homes were not badly damaged were permitted to remain in town.

National Guard troops were ordered into the town to aid in the cleanup and to prevent looting.

Several nearby communities, some 20 miles away, were reported shaken by the blast, which tore a crater about 35 feet across and 20 feet deep where the tank car had been. Chunks of steel, some weighing several hundred pounds, were scattered for a mile.

The shock of the wave shattered windows and tore off doors, porches and sidings of houses as far as the business buildings throughout the town.

West Germany President Will Address House

OTTAWA (CP) — Tall, white-haired Theodor Heuss, president of the federal republic of West Germakny, addresses the Parliament of Canada today, high mark of a week-long visit he is paying to the country.

First German chief of state to visit Canada, the 74-year-old president arrived in Ottawa Sunday after spending Thursday, Friday and Saturday travelling informally in Quebec and Ontario.

Protocol and expanses of red carpet characterized the meticulous proceedings in the Union Station concourse, where Governor - General Massey presented the marshalled chiefs of ministers of Ottawa's diplomatic corps, members of the cabinet and senior governmental officials to the president. Mr. Massey greeted each personally, then introduced each by name to the visitor in a prodigious feat of memory.

In the evening Papa Heuss, as he is known in his homeland, retained among compatriots is the German Embassy.

IMPRESSED BY CANADA

Since reaching Quebec City last Wednesday by air from Bonn, Dr. Heuss has been at Montreal, the Niagara Falls area and Toronto, and has flown over the St. Lawrence Seaway project.

Through an embassy spokesman, the president Sunday night said his four days in Eastern Canada had impressed him with the ingenuity of Canada's engineers in the progress made in the development of the country's future, which he felt lies increasingly in industry.

After the address to the joint houses of Parliament today, Dr. Heuss has a private meeting with Prime Minister Diefenbaker and this afternoon while Dr. Heinrich vod Brentano, West German foreign Minister, is to attend a reance Minister Fleming and Trade Minister Churchill.

There is a formal dinner tonight at Government House, to be followed by a reception.

MORE TALKS TUESDAY

The diplomatic talks continue Tuesday and the party leaves for Washington Wednesday morning.

Dr. Heuss arrived in Toronto Saturday from Niagara Falls and later made a sightseeing tour of the city.

At he entered his hotel, Dr. Heuss was met by a group of German-Canadians from Waterloo. He expressed his gratitude for Winnipeg's help to West Germany after the end of World War.

The president's day concluded with a white-tie-and-decorations dinner and reception given by Lieutenant-Governor Keiller Mackay.

Today's Chuckle

A free advice seeking woman asked a friend what would be good to plant in a spot that gets very little rain and no overhanging eaves, has too much late afternoon sun, has clay soil and is on a rocky knoll.

"Lady," he answered, "how about a nice flagpole?"

THE WEATHER

TORONTO (CP) Synopsis: — The cool air that spread into Ontario late Sunday in the wake of the weekend storm will dominate the entire province. This large area of high pressure will dominate most of the Ontario forecast regions today and Tuesday producing sunny skies, decreasing winds and temperatures a little below normal. Only that part of the province north of Lake Superior will see increasing cloudiness and a few showers Tuesday.

U.S. TO CONSIDER ITS RELATIONSHIP WITH DE GAULLE

Also Study Russia's Nuclear Test Reply

WASHINGTON (AP) — President Eisenhower and Secretary Dulles scheduled a major foreign policy conference today to discuss relations with the de Gaulle government in France and map a new reply to Russia on nuclear test talks.

A White House statement calling for "intimate and friendly relations" with France under to new premiership set the tone of the policy which the United States administration hopes to develop.

But officials said privately that everything depends now on how far de Gaulle is willing to go in dealing with Washington.

On the nuclear test issue the president received a letter from Premier Khrushchev Saturday agreeing to open talks among scientific experts of the U.S., Russia and other countries later this month.

Khrushchev raised several points, concerning place and membership which required a presidential response.

BUSY DAYS AHEAD

The afternoon meeting between Eisenhower and Dulles opens a busy 10 days in foreign policy work.

In mid-week West Germany's President Theodor Heuss arrives for Canada is due here for a visit accompanies by Foreign Minister Heinrich von Brentano.

A week from today British Prime Minister Macmillan will arrive for two days of intensive discussion here before visiting Ottawa. Macmillan will bring French-Allied co-operation, these talks probably will concentrate on the problem of obtaining an international agreement including controls for suspension of nuclear weapons experiments.

Macmillan is to arrive in Washington Friday, fly to De Pauw University in Indianapolis to deliver a June commencement address Saturday, then return to the U.S. capital. Other sources said Sunday that Lady Dorothy Macmillan will accompany her husband to the U.S. and Canada.

The immediate issue on nuclear tests is how to organize a proposed conference of scientific experts. Their task will be to try to work out a system workable to both Russia and the Western countries to detect violations once an agreement to halt testing is ratified.

Khrushchev in a letter to Khrushchev May 24, suggested that the U.S. send its leading experts to Geneva in three weeks to work out the detection system. He proposed including British, French and probably other scientists along with three American physicists.

Khrushchev replied Saturday that he had no objection to the proposed starting time. According to diplomatic sources he also raised the question of including Polish and Czech scientists and possibly having some from neutral countries such as India.

Attempt to End London Strike Breaks Down

LONDON (Reuters) — An attempt to end London's 26-day-old bus strike broke down Sunday night after weekend talks between the Chiefs of the London Transport Commission and strike leaders had discussed a peace formula for seven hours Saturday night and another seven hours Sunday.

Failure of the talks came as a surprise. Hopes had been encouraged widespread hope of a settlement.

Frank Cousins, secretary of the Transport and General Workers Union and a key figure in the talks had been arranged.

Quicksilver Alf Best Jailbreaker Or Else Britain's Jails Poorest

LONDON (AP) — Britain, has one of the best jailbreakers of the century — or some of Europe's best jails.

Alfred (Quicksilver Alf) Hinds, 41, escaped Sunday for the third time in 30 months, plunging Scotland Yard into a massive manhunt and filling the newspapers with banner headlines.

"Escaper extraordinary," says one paper. "The modern Houdini does it again," said another. "Quicksilver Alf for the third time," says still another.

The Daily Express adds that a row is brewing in official circles "about the armed force which persons known to be dangerous broke out of English jails."

Hinds is no average jailbreaker. He says he does it to draw attention to his innocence.

Sentenced to 12 years for his part in a London robbery, Hinds broke out of Nottingham jail in 1952 and remained free for 248 days.

During his months of freedom he flooded members of parliament and newspapers with well-written letters protesting his innocence.

Audaciously, he made a tape recording of a plea for a new trial and sent it to Britain's commercial television network. The TV officials played it in a dramatized program.

Hinds was finally nabbed. He was living in Ireland.

The money-making-guarded law courts he was brought to trial last year on a technical question and sent back to his many appeals.

Walking down a dark corridor of the Nottingham jail, Hinds pushed his guards into a cleaning closet, locked the door, and dashed to freedom.

He was caught five hours later living in a cabin on a plane in Bristol for Ireland.

Sunday afternoon he and another jailbreaker broke out of Chelmsford prison near London.

They were exercising in the prison yard, guarded by a skeleton staff of guards because it's Sunday. They scrambled atop a shed, jumped to a low wall, scrabled their way to a higher wall, ran along this, jumped to the ground and fled through a cemetery to a waiting car.

DRAMA AND COURAGE IN THE PACIFIC

The U.S. destroyer escort Silverstein comes to rescue of crew who line the rail of the sinking submarine Stickleback, after the two vessels collided in mid-Pacific. Despite five and a half hours of pumping, the sub finally sank. All 82 crewmen were safely rescued. Captain of the sub, Lt.-Cmdr. Q. R. Shulz stayed on board with 15 men pumping as sub was towed to Pearl Harbor.

Khrushchev Reproaches PM For Allowing U.S. Planes to Carry Bombs Across Canada

OTTAWA (CP) — Russian Premier Khrushchev says Canada must share some responsibility for the "peace-endangering flights of American planes with atomic and hydrogen bombs to the borders of the Soviet Union."

He makes the statement in a letter dated May 30 delivered to Prime Minister Diefenbaker Saturday by D. S. Chuvahin, Soviet ambassador to Ottawa. Text of the letter was published in today's issue of the Soviet News Bulletin issued here by the Russian embassy.

Premier Khrushchev also reproaches Mr. Diefenbaker for not persuading the United States and Britain to halt nuclear testing.

BRINGS UP PACT

Referring to the flights of American bombers, the Soviet premier said:

"We state with profound regret that the government of Canada has not refrained from sharing with the government of the U.S.A. and Canada on the unification of the command of the air forces of both countries."

Premier Khrushchev was referring to the North American Air Defence Command established by Canada and the U.S. The two countries signed an agreement May 12 formally setting out principles governing the creation of integrated headquarters at Colorado Springs, Colo.

The Soviet premier was replying to a strongly-worded letter he received early in May from Mr. Diefenbaker expressing Canadian disappointment over Russia's United Nations veto of an American proposal for Arctic inspection.

Premier Khrushchev had appealed in a letter to Mr. Diefenbaker early in April for Canada to use her influence to get the U.S. and Britain to stop testing nuclear weapons.

DISTRICT CULTIVATED

The Russian premier said recent discussions and agreements by Mr. Diefenbaker make it difficult "to avoid getting the impression that they are engendered in the last analysis by that distrust toward the Soviet Union which is constantly being cultivated in the North Atlantic Treaty Organization.

"For instance, your premier says openly that he sees it as if the actions of the Soviet government against the peace-endangering flights of American planes with atomic and hydrogen bombs to the borders of the Soviet Union in a way reduce the importance of its (Russia's) decision to stop, from the spring of 1958, testing all types of nuclear weapons.

"Not to mention that those arguments contained a great deal of artificiality since they treat a similar action quite completely different in their nature as the creation of nuclear weapon tests and the clearly provocative practice of the American strategic aviation, the appraisal of the actions of the U.S.A. government in this matter is extremely one-sided."

WAR THREAT INCREASED

It would seem, the letter said, that leading statesmen of Canada, over whose territory the U.S. bombers are making their flights, should not be indifferent to these flights, which also constitute, if the facts are to be faced, a real danger for Canada itself.

"If there were quite a few occasions in the past when countries were drawn into wars contrary to their wishes and intentions then in our times this danger has increased a hundred times.

"You will probably deny the validity of this statement," Premier Khrushchev told Mr. Diefenbaker. "Indeed, you will be able to do this, referring to the good intentions of your people and your government."

"I am not going to question the sincerity of your arguments," Mr. Prime Minister, the logic of things can prove to be stronger than man's logic even if the latter is backed by the best motives."

He asked whether the reasons for the Canadian government would be different if Russia started sending bombers carrying atomic bombs to the frontiers of Canada.

Huge Welcome Being Prepared For De Gaulle

ALGIERS Reuters — French soldiers and settlers Sunday night hailed Gen. Charles de Gaulle's investiture as premier and prepared a huge welcome for the general's visit here.

The will of 10,000,000 Frenchmen of Algeria has triumphed", Algiers radio said.

A spokesman for the Algerian Committee of Public Safety said: "We are happy. It is victory." The committee prepared to spread the welcome mat for de Gaulle, Justice Minister Michel Debre said in Paris the general will leave for Algiers Tuesday.

500,000 UNION MEMBERS WORK WITHOUT ACCORD

Big Three Break Up Bargaining Talks

DETROIT (AP) — The three big American car makers and the United Auto Workers Union held an angry wake today over their dead contracts.

Deadlocked bargaining talks with the union were broken off Sunday midnight at Ford and Chrysler and as they were Friday night at General Motors. The companies and the union blamed each other for the unprecedented situation in automotive labor relations.

For the first time in more than 17 years the UAW goes to work on the big three without contracts.

Some 500,000 UAW members employed by the three are under stern orders from their chief, Walter P. Reuther, not to strike or provoke any incidents that could give the companies an excuse to shut down their plants.

All three firms have stood firm on their proposals to extend 1955 contracts for two years, including the built-in annual wage improvement factor and a new four plus cost-of-living increases. This would amount to at least 16 cents an hour over two years.

VOWS HE'LL WIN

Reuther vowed that he is going to have what he asks for the union or ies if it takes all summer.

After the breakup at Ford early today Reuther told reporters: "We will ultimately get the contract we want. We will sit down with us the way they should. We will get a 1958 contract, whether it takes two weeks, four weeks or eight weeks . . . time is on our side."

Reuther has said it would be insane to strike now when the industry has begun its 1958 model cars.

But in setting their own terms for keeping plants in operation, the companies cut off collecting dues from UAW members and turning the money over to the union. The union will have to collect its own dues. The companies also dropped the union shop.

Index Lower

OTTAWA (CP) — Canada's wholesale price index eased in April to 327.8 from 328.1 the previous month, the first decline in the index since last October, the bureau of statistics reported today. The April figure this year was down from 329.1 in April, 1957.

The index is based on 1935-39 prices equalling 100.

ALDERMAN DIES

NIAGARA FALLS, Ont. (CP) Alderman Hugh G. Brooks, 55, died Sunday. Born in Pelham, N.S., he came here 35 years ago and founded a building contracting firm.

Lived on Grass, Weeds for Week, Rainy River Girl, 11, Found in Bush

RAINY RIVER, Ont. (CP)— Shy, 11-year-old girl, who lived on grass and weeds during the week she was lost in dense bush near her home, sat up in her hospital bed Sunday and tucked into food-stained meals.

Constable Jerri Johnson's first request after she was found Friday by searchers was for ice cream. Apart from that, she was fed only sparingly during the first day back in civilization.

Carol was found five miles from her farm home at Bergland, 18 miles north from this Northwestern Ontario town.

Dr. G. E. S. Fraser, attending the girl, said that apart from running a mild fever, bramble scratches, mosquito and wood-tick bites to her feet and legs, she is in good condition and will be discharged from care by day or two.

Carol was a little overwhelmed by the excitement over her rescue, and talked only to her parents and the doctor.

Mainly by timid nods of her head, she answered questions put to her by her overjoyed mother and father, Mr. and Mrs. Wilfrid Johnson.

Yes, she nodded, she had been cold at nights and she trembled under the blankets at the memory of her week-long trek through the bush.

No, she did not want to eat anything right now.

She told her mother she had said her prayers every night just as she had been taught.

Yes, she had gotten sick on daddy's kettle, Carol said when asked why she wandered away.

The search party which found her when more than 500 searchers started their hunt, returned to the last day of the hunt.

"Oh, I'm so glad you found me," she said when a party, of searchers came upon her, cold and shivering child. She told them: "I wasn't a bit afraid."

Mrs. Fraser, who headed the search party, said Carol had not been any.

She was wearing only a cotton dress and a jumper-type skirt and was barefoot when found. Carol told her mother she was carrying her shoes so as not to lose them.

In raised heavily Friday and temperatures dropped to freezing several nights.

"I was praying constantly and I was answered by God," said the girl's mother Sunday.

French Assembly Vote Endorses Rule By Decree

First Hurdle Is Passed In General's Program

ALGIERS (AP)—Signs of sharp disappointment with the newly-installed government of Gen. de Gaulle increased in this insurgent capital today.

From the streets of Algiers to the back offices of government house, people were talking and acting almost as if they had been betrayed.

After 20 days of pressure applied mainly through mass street demonstrations of ultra-rightist proportions throughout the country, the insurgents reached their declared goal: There are now in power a government headed by de Gaulle.

But, instead of the expected housecleaning in Paris, de Gaulle reached back into the roundly condemned "rule of parties" for the stalwarts of his new cabinet.

BITTER OVER PFLIMLIN

A particular bitter pill was premier Pierre Pflimlin. His effigy had been dragged through streets of Algiers on a rope and shouts of "Pflimlin to the gallows!" rang nightly.

Knots of people expressed bewilderment as to why Gaillard, deputy of Grenoble would be left off the de Gaulle list. The former government leader of Algeria has given political backbone to the insurgent, move since he fled Paris to come here in support of the rebellion.

The Algiers committee of public safety met today in the suburban villa where the revolt was planned six weeks ago. Among other things, they discussed proposals for de Gaulle's expected arrival here Tuesday or Wednesday.

After the meeting committee members declined comment.

Reuters news agency reported Leon Delecque, vice-president of the all-Algerian committee of public safety, flew to Paris Sunday night. It was believed he had gone to express "some reserve" to de Gaulle about some members of his new cabinet.

Four Juveniles Face 28 Charges After Rampage

TORONTO (CP)—Police are holding four juveniles today on the charges of malicious damage and theft in connection with a destructive rampage through an east-end section of Toronto's property Sunday.

Four girls — ranging in age from 9 to 13 — were arrested Sunday night while attempting to break into a new construction crane.

Police said damage in the carnage yards will run into thousands of dollars. Vandals apparently "chicken-ed" four trucks — a game in which the driver of the first moving vehicle is let go to see who will be first to grab it. The trucks were damaged.

The instrument panel of another truck was ripped out, a trailer truck was jack-knifed, the fire extinguishers emptied and the telephones torn from the wall, and all keys to the construction yard were stolen.

An officer said the boys told him they "just hated a fun."

He said 15 additional charges may be laid today.

Plunges to Death

NIAGARA FALLS, Ont. (CP) An unidentified man, believed to be in his early 30's, died Sunday night when he plunged 80 feet to his death over the Horseshoe Falls today. Two motorists told Niagara Falls police they saw the cycle up to the railing at the brink of the falls, climb over and jump into the water.

PM MAIN SPEAKER

OTTAWA (CP) — Prime Minister Diefenbaker will be the main speaker at the annual convention of the Canadian Good Roads Association in Montreal Sept. 30-Oct. 3.

Salvation Army Songsters Heard in Several Programs; Civic Welcome Is Extended

A total estimated audience of some 1,500 people heard the musical program presented by the 70-voice Danforth Salvation Army Songsters Brigade over the weekend, stated Capt. Cal Ivany of the Citadel corps.

The famous Toronto choir was brought back to Belleville Saturday to take part in the local corps' 74th anniversary weekend. The choir was the feature attraction at a Musical Festival held Saturday night in Bridge Street United Church, and in a musical program in the same church on Sunday afternoon. In addition, the choir gave concerts at the county jail, County Home and hospital and was heard over CJBQ Sunday morning.

The choir was well received in Belleville and a most successful weekend was held," stated Captain Ivany.

While in Belleville the Songsters Brigade was entertained by the city, a local service club, and many local citizens.

The Brigade was guest of the Kiwanis club at the noon meal on Sunday at the Kiwanis Centre. President Charles Lusk extended greetings to the choir.

On Sunday evening the Brigade was guest of the city at a dinner at the Hotel Quinte.

Mayor Gerald B. Hyde, accompanied by Mrs. Hyde, attended the dinner and extended greetings on the city.

The choir was also tendered a welcoming supper at the Citadel, Saturday night under the direction of Mrs. George Ellantby.

Mayor Hyde was chairman of the Saturday night Musical Festival at which some 400 people attended.

His Worship congratulated the local Salvation Army corps on their 74 years in Belleville and hoped the Citadel corps was the 10th centre to be opened in Canada.

COMPLIMENTED ON WORK

He also complimented the Citadel Corps on the work being carried out in the city today.

Rev. H. M. Davis, of Bridge St. United Church, presided at the Saturday night musical program, and courtesies were extended by S. Asp Gordon.

An estimated 400 attended the musical program held in Bridge St. United Church Sunday afternoon. Chairman and guest speaker was S.A. Field Secretary Lieut.-Col. C. Knaap. Colonel Knaap, who was accompanied by Mrs. Knaap, spoke on devotional topics.

Among those attending the afternoon program were Lee Grills, Conservative M.P., and Alderman Effie McCabe, of the S.A. advisory board.

An evening service was held in St. Andrew's Presbyterian Church on Sunday following an open-air witness on Front St. Rev. R. D. MacLean participated in the service and Mrs. Boyce presided at the organ. An afternoon service was concluded the weekend 74th anniversary program.

CAUGHT RIGHT IN HIS OWN BACK YARD

Thirteen - year - old Norris Scott lives in a fisherman's Utopia. A stream flows through the backyard of his parents' home in St. Catharines, Ont., and Norris has caught three trout over four pounds within a few weeks. Biggest is this eight - pound rainbow which he proudly holds.

Bowling Notes

Local bowlers have made the first trip on the tournament trail and as usual came home with some of the prizes. In fact, one trebles rink of Bill Wright, Gordon Edwards and Gordon Walkin won the journey staged by the Trenton Bowling Club on Saturday. Another rink skipped by Vince, Percy Graham and Davey Davison won one and four two ends while the other, Cecil Hazard, George McGee and Bob Carter failed to win a game. There was a full draw of rinks from the surrounding district and the greens were in exceptionally fine condition. As usual the hospitality of the Trenton Bowlers was of high calibre and the boys all report an enjoyable time.

The jitney will consist of three eight - end games and will start sharply at six thirty. The fee will be one bottle and the bottle prizes have been secured for the winners. The president, Percy Graham, requests that all members make it a point to be out for the first jitney and he intends to make it one of the best for the year.

Remember the games will start at six thirty sharp. Don't be afraid of the mosquitoes because the machine is in working order and will drive them away early.

Obituary

MRS. WILLIAM REYNOLDS
Canniffon and Belleville

Ill failing health for the past six months, Mrs. Ethel May Reynolds of Canniffon and Belleville died in Kingston General Hospital on Saturday. She was in her 73rd year.

Born in Belleville, she was the daughter of the late Mr. and Mrs. Edward, Sine and had lived in the Belleville area all her life.

Her husband, the late William Reynolds, she had operated the general store at Canniffon for 26 years. On the death of her husband in 1942 she moved to Belleville to live with her daughter Mrs. Elmer Leeman, George Street, and at Riviera Beach, Florida.

She was a member of the Bethel Chapel Church.

She is survived by her daughter, Mrs. Elmer (Eileen) Leeman of Florida and two grandchildren, Valerie and Billy Leeman, a sister, Mrs. Gladys Hamilton, died in 1946.

Resting at the Pinkston and Luscombe Funeral Home; the funeral announcement appears elsewhere in this edition.

ROY O. SHAVER
Bellevue

The death of Roy O. Shaver of Holloway occurred very suddenly Saturday morning when he succumbed to a heart seizure shortly after leaving Canadian Canners Ltd. at Tuxboro, where he was a laborer. He was 60.

Mr. Shaver, a native of Little Britain, is survived by his wife, the former Ivy Jamieson; two sons, Kenneth and Cecil of Toronto; one sister (Edith), Mrs. Lloyd Tinney, Manila.

Deceased had resided at Holloway for the past two-and-one-half months after moving there from Toronto. He is a son of the late Mr. and Mrs. Jacob Shaver, Mr. Shaver was a member of Holloway United Church.

The funeral service was held this afternoon at the John R. Bush Funeral Home, the Rev. Robert Darke officiating.

MRS. HELEN MARGUERITE RODGERS

The funeral of Mrs. Helen Marguerite Rodgers took place from the John R. Bush Funeral Home on Saturday afternoon. The service in the chapel was conducted by Rev. H. M. Davis, who also said the committal rites in Belleville Cemetery.

The bearers were George Wintz, Charles Wallace, William Clarke, Michael Downe, John Hodgkisson and Stirling Shandraw.

MRS. WILLIAM CONNORS

The funeral service of Mrs. Anna Elva Connors, Herchimer Ave. South, beloved wife of William Connors, was held Saturday in Grant Funeral Chapel with Rev. A. McDowell officiating. Funeral was from the Grant Funeral Home to Belleville cemetery.

Bearers were: Frank Allin, Richard Parker, Martin Lallie, Lou Hawes, Earl Cousins and Clifford LaRue.

PATRICK BURKETT

Solemn High Mass was celebrated in St. Michael's Church this morning for Patrick Burkett, 36 Hillcrest Ave., who died in a Kingston hospital on Thursday at the age of 52 years.

Mass was celebrated by Very Rev. L. B. Garvin, with the Rev. J. J. Buckley as deacon and the Rev. P. Murphy as sub-deacon. Graveside prayers at St. James' cemetery were said by the Rev. Peter Murphy. Present in the Sanctuary during the service were Flight Lieutenant L. A. Peruse and F/L J. L. Vaillancourt.

Bearers were John Doran, Henry Hatfield, Donald Whalen, Jack Garrett, Michael Nathan and Bertram McQuaid.

MRS. WILLIAM A. KENT

Following an illness of one week Mrs. Mabel Carrie Kent, 104 Canniffon Road, died in the Belleville General Hospital late Sunday evening.

She was born at Stockdale on Frankford, being the daughter of the late Mr. and Mrs. Daniel Roberts and has lived in this community all of her life. Since coming to this city many years ago, she has taken an active part in the work of the Senior Citizens club, the Hospital Auxiliary, the Canadian Legion Auxiliary and the women's division of the Orange Order.

Mrs. Kent helped to organize the Senior Citizens Club under the sponsorship of the Recreation Committee, she also took an active part in the work of Canadian Legion Auxiliary and the Hospital Auxiliary. Mrs. Kent was a charter member of the L.O.B.A. No. 230 and was a Past Mistress of the Lodge. Last year she was made an honorary member of the organization. She was also a member of Crystal Chapter No. 34 and was a Past Senior Preceptress of that order. When the Junior Orange Lodge Victory No. 50 was organized in this city, she took an active part in this work. In politics she was most active in the Conservative party, having gone through many Provincial and Federal elections.

Mrs. Kent was well known and highly respected by a wide circle of friends. She was a kind neighbor and a firm friend. She was a member of College Hill United Church. She predeceased by two daughters, Miss Gertrude Kent of Toronto, and Mrs. Robert Hunter Corbyville. Mrs. Will (Fanny) Stapley and Mrs. Charles (Jane) Wilson of Belleville, Mrs. Archie (Violet) Foster of Kingston, Mrs. Ivan (Jean) Allen and Keith Weeks of Belleville, Grenville Kent of Cleveland, Ohio, Mrs. Lawrence (Ruth) Hubbs of children and nine great grandchildren.

Her first husband was Harry Weeks and her second husband, William A. Kent, died some years ago.

Resting at the John - R. Bush Funeral Home, 80 Highland Avenue. The funeral announcement appears elsewhere in this edition.

WILLIAM CHARLES GREATRIX

William Charles Greatrix, a former resident of this city and district, died at his home in Toronto, near Mountain View, died suddenly at his home, shortly before noon this Monday morning.

He was born in Belleville, 32 years ago, the son of the late Lieutenant Charles Greatrix of the Fire Department and Mrs. Greatrix who has resided in Belleville all of his life until moving to Prince Edward County some months ago. He was educated in the public school and Collegiate Institute and was an all round athlete through his life took an active part in sport. He was a member of junior, intermediate and senior hockey teams of the city and was also active in softball being a valued member of the Mead Johnson team in the Industrial League.

Charlie Greatrix was a fine citizen, a kind person, and he had a wide circle of friends, who will sincerely regret his sudden passing.

Surviving are his wife, the former Monna Hyatt, his parents, Mr. and Mrs. Charles Greatrix of this city, one son, Terry, age three, at home and two sisters, Mrs. Earl (Betty) Simmons of North Patrick (Anna) Foley, both of Belleville. He was a member of Christ Church.

Resting at the John R. Bush Funeral Home, 80 Highland Avenue, later today. Funeral announcement will be made later.

Scouting activities

On Wednesday, May 14th, St. Elizabeth's 3rd Belleville Cubs and Scouts held their annual father and son banquet in the Columbus hall on Front St. Forty-six sat down to table included the following:

Rev. W. McGee, local association representative for Catholic Cubs and Scouts; Rev. J. Buckley, pastor of St. Joseph's parish and Point Anne; Rev. F. Murphy, spiritual director 3rd Belleville Cubs and Scouts; Rev. Sister Mary Annalberta, principal St. Michael's Academy; Rev. Sister Mary Timothy, principal St. Michael's Junior school; Mr. Chris Leggat, president local association; Mr. Jim Hudson, secretary local association; Mr. A. S. Lewis, regional commissioner; Mr. Les Boyle, ADS Scouts; Mrs. L. Ansley, representing the Cubs; Mr. Harry Smith, ADC Scouts; Mr. Jim Lynch, president Parent-Teachers association sponsoring body; Mrs. McCallum, president Cubs' Auxiliary 3rd Belleville; Mr. Terry Tweedle, president group committee, 3rd Belleville.

There were over 120 persons present and after all had taken their places Father Murphy was called upon to say grace. While the waiter attending to them was Ol'Bien rendered the National Anthem.

A hot turkey dinner was served with all the trimmings. Following the meal at least six different kinds of pie.

The responsibility for the excellent meal as well as the many extra jobs that go with such an event fell on Mrs. George O'Bien and her very capable group of women assistants.

A toast to the fathers was given by Cub A. Lenthall and a toast to the mothers by Cub J. Black. Mr. Paul Cleary replied on behalf of the fathers.

During the evening first aid badges were presented by Assistant Cubmaster Boyle to P/L J. MacNamee, P/L Bruce Jarvah, P/L Earl Ward and to Scouts John Lapointe. A preliminary training certificate in Scouting was presented to ASM Bill Jarvah.

WO's, Sergeants Hold Colorful Spring Ball

Warrent officers and senior non-commissioned officers of the Hastings and Prince Edward Regiment lived up to their reputation as fun-loving boys on Friday evening at the Club Canada when they held their 1958 annual Spring Ball.

The event was one of the most colorful affairs in the social life of the mess, active members gathered in mammoth blues showing in colorful contrast to the pretty gowns of the ladies.

Decor of the ballroom from the outlying companies of the regiment in Picton, Madoc and Trenton.

Delightful music for the ball was supplied by Frank Kammer and his orchestra and their tuneful rhythms left nothing to be desired.

There were numerous spot dances and other awards, while many beautiful door prizes were dispensed among the crowd.

One of the highlights of the evening was the delectable buffet luncheon served at midnight by members of the CNRA Ladies' Auxiliary.

Among the special guests present were Lieut. Col. Angus B. Duffy, C.D., commanding officer of the regiment, and Mrs. Duffy; Major and Mrs. A. S. McConnell, and Major and Mrs. G. Scott.

The committee in charge is to be complimented on the success of what was adjudged as the most enjoyable spring ball ever held. Committee members included WO 2 Howard Kokesh; Sergeant Frank Butler; Sergeant Cliff Fraser; Staff Sergt. Mitch Rashotte and WO '2 Hugh Elder.

End Censorship

PARIS (Reuters) — Censorship of French newspapers and radio ended Sunday night, the ministry of information announced. Official censorship began last week when government-appointed officials arrived in all French newspaper, news agencies and radio stations to control news circulating within France.

FISHER HAS ATTACK

HOLLYWOOD (AP) — Singer Eddie Fisher remained under observation in Edars of Lebanon Hospital today after suffering a mild appendicitis attack Sunday night. Doctors said his condition is good and there are no plans now for an operation.

Warner May Than Last Year Statistics Show

Summer, apparently, has arrived. At least dozens of youngsters believe the balmy temps of the summer months have arrived over Belleville. Dozens of young people were seen Sunday swimming in various parts of the Bay of Quinte when the water temperature was 63 degrees.

The filtration plant on the Trent Road reported today that the maximum air temperature here in May was 76 degrees and the minimum, 31.5 degrees. Mean temperature last month was 52.3 degrees and the degree days were 398.1. Rainfall last month was 2.66 inches.

For comparison, here are the statistics for May 1957, as furnished by the filtration plant: max. temperature, 74.8 degrees; min. temp., 29.5; mean temp., 50; degree days, 369.4; rainfall, 2.9 inches.

The mean temperature over a 10-year period has been 54.2 degrees and the rainfall has been 3.08 inches.

So far this year the air temperature was one degree per day cooler than in May of the previous year.

Interested in water temperatures? The maximum temperature of the Bay of Quinte to the end of May, 1958, was 60 degrees and the minimum, 49 degrees. Maximum temperature was 54.6 degrees.

During the same period 1957, the maximum water temperature was 60 degrees and the minimum, 53, resulting in an average of 57.3 degrees.

Pigeon Racing

Bad weather slowed the birds' speed over the weekend but the Quinte Homing Pigeon Club held their sixth race of the season with 44 entries participating.

The birds were released at Cramahe, a distance of 244 miles, at 12:50 on Saturday afternoon and due to bad weather the speeded did not come back to Belleville until 6.10 on Sunday morning.

The winner was a pigeon owned by Mrs. Amy Salmon of Plainfield, who last week had both first and second place birds. Second in Saturday's race was a bird belonging to W. Dereon followed by R. Button's entry in the third position. Birds owned by Tom Woodcock took the fourth and fifth spots.

The next race will be held on Saturday, June 7th, from Gorgana, a flying distance of 318 miles. This will be the longest race of the season to date.

ZONED TO DEATH
PITTSBURGH (AP) — An 83-year-old woman was found dead Sunday in an electric cooking unit in her home. The coroner's office said Mrs. Katherina Kegler had been virtually cooked alive in the tent-like heating unit.

TORONTO STOCKS

TORONTO (CP) — The stock market was firm today in moderate morning trading.

Industrials as a pace setters gained 1¼ points on index. Western oils followed with at three-quarter point increase and base metals were up a quarter. Golds, the only section off on index, eased one-tenth of a decimal point.

Steels led industrials with Algoma, Dominion Steel, Dominion Foundaries and Steel Company of Canada ahead fractions. Most other gains ranged to ½ points. Golds were slightly traded and most changes were small. Hollinger gained ¼ at 22½ to lead base metals.

Steep Rock, adding ⅛ at 10¾, and Noranda climbing 1 at 44¼ were the big winners among base metals. Consolidated Denison was firm in unanimity.

DOLLAR RATE

MONTREAL (CP) — The U.S. dollar was unchanged at 3 21-32 per cent in terms of Canadian funds, the Bank of Canada reported here today. Friday's noon rate was 96 13-32 cents.

Pound sterling $2.71¾, down 3c.

Butter Production Up, Consumption Showing Decline

OTTAWA (CP) — Butter production in Canada in consumption appears to be declining.

March production totalled 18,800,000 pounds, up 1,600,000 from March last year, agriculture department estimated Saturday. Consumption in that month declined medium 17-18; common 15-17; some good stuff cows 18; good to heavy bologna bulls 20.50-21; common and medium 15-20.

Replacement cattle: Good light stockers 24-25 with sales to 26; medium 22-24.

Calves: Good vealers 31-33.50; medium 26-30; common 20-25; horses 120-30.

Hogs: Grade A 34.50; heavy sows 28; all 34.

Sheep and lambs: Good spring lambs 30 a hundredweight; sheep 4-10 with some good light sheep 12.

PRODUCE MARKET

TORONTO (CP) — Churning cream and butter print prices were reported unchanged here today.

The egg market was reported firm on large and medium with other grades steady and receipts adequate for a fair demand.

Country prices are quoted by the federal department of agriculture on graded eggs, delivered Toronto, in fibre cases: A large 41; A medium 36. A small 30; B 28; C 23; cooking eggs, A large 47; A medium 41; A small 35; B 33; C 30.

Butter prices: Canada, first grade: Ontario tenderale 64, 64½; non-tenderable 63½-64½ (nominal); western 63¾-63 (nominal).

NATO Not Affected

TORONTO (CP) — Paul-Henri Spaak of Belgium, secretary-general of the North Atlantic Treaty Organization, said Sunday night the shift in French governments will not affect NATO.

NATO, Mr. Spaak said, deals with whatever government is in power.

Brown Belt Awarded to Don Dalrymple

Don "Pork" Dalrymple was presented with a coveted Brown Belt on Saturday night as the Belleville Judo Club went through its grading paces before a good crowd at the YMCA.

Mr. Frank Hatashita, one of the top men in judo and one of the best fighters in the Blind Belt in Canada, was present from Toronto to grade the members of his Belleville club and to put on some entertaining demonstrations.

The promotion of Dalrymple to the brown belt division was quite an honor for the Belleville club and for the recipient of the belt. The brown belt is one of the higher in the judo field and is held only by those very skilled in the art. Don is one of the stars of this city's fighting club.

Another highlight of the evening was the demonstrations put on by both male and female members of the club. The male members of the club, Rita Poelstra, Shirley Fleming and Stella Vos, flipped their "opponents" Doug Foley, Don Dalrymple and Jim MacLaughlin, around with one hand, much to the enjoyment of the crowd.

Following the grading Frank Hatashita put on a personal demonstration in which all the throws in judo, as they should be used, He also thrilled the crowd with his skillful work and left no doubt that he is a top man in the sport.

Hatashita also presented two judo medals to George H. Carves of the Quinte Intelligencer and Jack Devine of CJBQ for their co-operation and help with the judo group.

All children and adults had to fight their way to gradings and the promotions depended upon the results of the fights.

In the children's division, three members, David Blakely, Stuart Mulford and Larry Doxtee, were promoted to the second degree red belt while in the high-teen belt in the junior division, Eric Dezeon was promoted to second degree blue belt. Peter Radchicich and Rodney Turner to first degree red belts and Larry Doxtee to a red belt.

Other promotions in the junior division were yellow belt to Neil Miles, Richard Ever, Ray Finkle, Allen Lewis, Andrew Haig, Ron Hamilton and Domonic Temava, the latter pair being mentioned as outstanding.

The promotion of the brown belt to Dalrymple was the highlight of the girls' division while Carol Oliver and Jim McLaughlin were promoted to blue belts. Earlier this year Shirley Fleming, Rita Poelstra and Doug Foley were promoted to blue belts for their tournament fighting ability, receiving their grading for this test at various tournaments held in Toronto.

Promotion of green belts on Saturday night were Doctor H. C. Hallett of Trenton and Terry Parker of Belleville. Receiving their orange belts were Len Seifert of the RCAF Trenton and Judo Club and Stella Vos, Bruce Parsons and George Worchhuse of Belleville. Named to the yellow belt division were Fred Smith and Keith Sowden.

Father and Son Had Breezy Ride on Train

It was reported over the weekend that a man and his small son had a breezy and hair-raising ride from Toronto to Belleville on Friday night. However, the report has not been confirmed by the CNR here.

The story is that the two were walking in the CNR freight yards in Toronto, when the little boy accidentally slid to sit him on a flat car, just for the thrill of it. The father complied, almost immediately the train pulled out. Before the father could collect his wits the flatcar carrying his son had made good progress down the track. The father jumped on a boxcar and made his way ahead to the flatcar. The little pair sat huddled and shivering until the freight stopped at Belleville. It was said by the lad's chance of getting off along the way.

It is not known what effect it has had on the pair, but it is reasonable to assume that the father will never again sit his son on a flatcar. How the two returned to Toronto is not known.

SCOTLAND YARD CHIEF

LONDON (Reuters) — Joe Simpson, 48, who has had a meteoric rise in the force, has been appointed chief of Scotland Yard in succession to Sir John Nott-Bower. Simpson will take over from his office 65-year-old chief in August. He has served as Nott-Bower's deputy for two years. Simpson started on a beat in London's vice area, but he was no ordinary policeman. An expert on criminal law, he earned a lawyer's degree and a bachelor of arts diploma at Manchester University.

Traffic Deaths In Memorial Day Weekend 369

CHICAGO (AP) — Traffic deaths in the long United States Memorial Day weekend surpassed the pre-holiday estimate of 350.

Late reports of deaths on the highways were expected to boost the total past the record 361 set in 1956 and reported for a three-day Memorial Day weekend in 1955.

Traffic was early today covering a 78-hour period from 6 p.m. local time Friday to midnight Sunday night which showed 356 killed in motor vehicle accidents.

In other violent deaths during the holiday weekend, drownings in the first of the summer season, 124 persons were drowned and 87 others killed in miscellaneous accidents for an over-all total of 567.

The National Safety Council, which had made an all-out public appeal to stop traffic deaths, termed the heavy toll proof that "impatience, intemperance and indifference bring death on the highways, especially on holidays."

TRENTON NEWS ALTON GEORGESON Phone EX 2-3929

Four People Injured Over Weekend in Cars

TRENTON — Accidents on Trenton streets over the weekend caused injury to four persons and damage to cars and damage to cars and property which amounted to nearly $2,000.

It was the "busiest" weekend in accidents the police department has had in the past several months.

The mishap causing the largest amount of damage to property happened late Friday afternoon when a car driven by a Brighton woman went out of control and smashed through the glass doors of Lange and Peter service station after bouncing off the rear bumper of a new car which was parked there.

Irene Murphy of Brighton was driving west along Dundas East when she lost control of the car. It swerved off the road, struck the service station and narrowly missed the gasoline pumps, hit the rear bumper of a large car and then crashed through the glass doors sending the front end of the car about six feet into the garage.

It was also reported the car may have only inches from hitting a woman, who was walking past the service station at the time.

The Murphy car suffered damage to both front fenders, headlights and bumper and was estimated at $250. Damage to the garage doors was over $1,000 and the bumper and estimated at $75.

Damage to the garage doors was estimated at $1,200 when the car smashed into them. Large plate glass windows, the framework and the doors. Even the cement work below the doors was damaged.

Constable Sid Vickers investigated the mishap.

PEDESTRIANS INJURED

Jeanette M. Brant, 8-year-old daughter of Mrs. Annie Brant, Store Street, and William Beatty, 49, of 67 Front Street were both injured on the crossed Front Street together and were knocked down by a car driven by Earl R. Utley, 128 McLellan Avenue.

The young girl suffered a small cut on the head and Mr. Beatty suffered bruises to his back and left leg as they were struck at the same leg. The accident happened at 9:50 p.m. Saturday in the intersection of Front and Nicholas Streets. It was raining at the time and the streets were reported wet and slippery.

The two were walking west across the street and had just about gained the curb when they were hit by the south-bound car. Mr. Beatty told police that he saw the car coming.

The driver of the car also told police he did not see the two until he was almost upon them and was unable to stop in time as they came into his view. The car was reported to have left skid marks for 16 paces and was almost stopped when it hit the pedestrians.

The accident was investigated by Staff Sergeant Walter Yeomans and Constable R. E. Miller.

HITS PARKED CAR

William Morchat of R. R. 2 Consecon, is said to have "sideswiped" a parked car Saturday at 12:30 p.m. on Dundas East West. Damage to both cars was estimated at $75.

The owner of the parked car was Len J. Donis of the Motor Station Trenton. Damage to his car was to the left front fender and door, which was estimated at $50.

The second car suffered damage to the right front door and fender. It was going west on Dundas West at the time. The accident was investigated by Constable Fred Nokes.

MAKES WRONG SIGNAL

David A. Davidson, 27 Albert Street, was reported to have made a signal for a right turn, then turned left and backed into another car smash into his left door, causing damage estimated at $60.

The second vehicle was driven by Mrs. Ethel Hall, 201 Front Street, and was proceeding west on Dundas Street.

It is said Davidson was driving behind the Davidson car when it signaled for a right turn prior to Division Street. He said he pulled out to pass and the other car started to turn left in front of his vehicle. Damage was caused to his right front fender and door estimated $25.

The accident was investigated by Staff Sergeant Walter Yeomans and Constable Dave Campbell.

TWO INJURED

Two persons were injured slightly and damage amounting to $600, was done when a car failed to stop for the red light at 12:30 p.m. Sunday at the corner of Dundas Street west, and Dufferin Ave.

Douglas A. Millis, 134 King St., suffered a sprained right wrist and a passenger in the car

NEW DEPUTY

John Hascall English, 56, a native of Edmonton, has been appointed deputy minister of trade and commerce. He succeeds Mitchell W. Sharp who resigned to enter private business. Mr. English has served the department for 33 years and has held many appointments abroad. He headed the trade commissioner service from 1953 to 1956. (CP Photo) 1958.

Town Briefs

COUNCIL MEETING

TRENTON — Town council's will meet tonight in regular session at the council room of the municipal building at 8 p.m. Usual town business will be handled in the routine way with no key items expected to come up for debate. Town council members, it is said, have been kept lively, with debates at previous meetings, over matters of the purchase of a new aerial ladder truck for the fire department.

TO ATTEND CONVENTION

Town Clerk O. W. Larry will not be present at tonight's council meeting as he is attending the convention in Niagara Falls. The two-day meeting is sponsored by the housing branch of the Department of Planning and Development. The convention is for lower and lowermen and Mr. Larry will be the official representative of the local planning committee. He is the secretary-manager of this group.

PAPER DRIVE

The First Trenton Troop of the Boy Scouts have plans to hold another paper drive on the Saturday, June 7 weekend. The drive will include streets west of Queen and south of Wilkins Streets. It will also include Fairview Crescent. Residents in this area are asked to have the paper ready and, if possible, tied and on the front lawn by the South side by 10:00 up easily and quickly. The Scouts will have their trucks out to sell the newsprint to Jack Zigmas, owner of the Reliable Waste Paper Stock. The money will be usee for Scout purposes.

FILL IN HOLE

Several volunteers of Canadian Legion Trenton turned out Saturday to till the excavation left when the old Canadian Legion hall was torn down. A bulldozer and several dump trucks were among the units which helped fill in the large hole and will now enable the landscaping to be done.

Two cars driving, Connie Birt, 13, R.R. 4, Trenton, suffered bruises to her head when slammed together in the accident at the collision.

Police reported a car driven by Terence V. LeGrand of the RCAF Station, Trenton, was proceeding west along Dundas St. West, when it failed to stop for the red light on that intersection.

Tilo Mintz' car was proceeding south on the green light when the car driven by LeGrand, pulled out from the side of the other vehicle. Damage to the entire front end of the car was estimated at $300.

Damage to the LeGrand car was estimated at $200 and was to left rear door, rocker panel, window in front door and door panel.

A witness to the accident was Mrs. Graham of Fairview Crescent. The mishap was investigated by Constable Dave Campbell of the OPP force.

Robert Bireau, 97 Scott St., failed to make a turn and the vehicle went out of control, struck a sign post, travelled back across the road and the sidewalk on the right side of the street, and smashed into a fence on the lawn at the home of Mrs. Ethel Hall, 89 Scott Street, before he was able to get it stopped.

The accident occurred at 1.40 p.m. yesterday.

MOIRA BRIDGE

The town bridge across the Trent River was again the scene of an accident when a car driven by Lawrence R. Bigg, RR 1, Picton, slammed into the rear of another car driven by Mrs. Ermer Bednarski, 2712 Livingston Avenue, Niagara Falls, N.Y., at 4.30 p.m. yesterday.

Investigation revealed that the car driven by Bigg was proceeding east on the bridge in a line of traffic and the Bigg car, travelling too fast, was unable to stop in time and rammed into the rear of it.

Damage to the front end of the Bigg car was estimated at $45 and to the trunk lid of the Bednarski car at $40.

The accident was investigated by Constable Dave Camp.

It was noted that all accidents reported during the weekend, with the exception of one, occurred on either Dundas Street East, of Dundas Street West.

Motorist Hit Blows on Head

TORONTO (CP) — A motorist told police Saturday he stopped an auto with blinding lights and wound up with a lump on his head and a collection of smashed windows.

John Dall, 38, said he and his brother, William, were driving in suburban Scarborough when an oncoming car failed to dim its lights. They swung into the left lane and stopped the car.

Dall said he walked up to the car and the driver stepped out and floored him with a hammer. William ran. The belligerent motorist smashed the window in the Dall car before driving off. William returned and drove John to hospital.

Police Blame Disappearance On Spring Fever

TORONTO (CP) — Six children, who were reported missing from their homes since Friday night, were found Saturday. Police blamed the disappearance on "spring fever."

Peter Lougheed, 11; Serge Le Clair, 8, and Harry Brannon, 8, disappeared together from their homes in west-central Toronto. They were found in the same district.

Two other boys, William Durnin, 7, and Leo Lougheed, 11, were reported missing from their homes in the east end. Police found them in the west end of the city.

The sixth boy, Peter Lougheed, 14, returned home by himself.

Social Democrat Party in Sweden Wins Election

STOCKHOLM Reuters — Sweden's ruling Social Democrat party has squeezed through a general election victory by one seat with the Communists holding the balance of power.

The election Sunday was precipitated by the Social Democrats after they and the Communist old-age pensions was rejected by the lower house of parliament April 25.

Results declared early today showed the Social Democrats picked up six seats, giving them a total of 115 of the 231 lower house seats at stake.

They failed to secure an overall majority but with the Communists, with five seats in the new house for a loss of only one, declared themselves in favor of the pension bill and their support will enable the government to push the plan through.

The bill would set up a compulsory superannuation plan for all working Swedes. Along with the present basic pension, the new plan would assure Swedish citizens of a supplemental allowance amounting to about two-thirds of the income they received in their best earning years.

FOUNDATION REPORTS

TORONTO (CP) — The Atkinson Charitable Foundation last year paid out $654,837 in grants to 62 institutions and 55 new charitable projects, the foundation's annual report showed Saturday. This brought to $4,491,814 the total amount given by the foundation during the 15 years it has been actively operating.

3 Identified As Escapees From Brampton

BLIND RIVER (CP) — Three men arrested Friday night in connection with the shooting of a service station owner, were identified Saturday as escapees from the Brampton training school, 25 miles west of Toronto.

The men were arrested in the vicinity of Dean Lake, 20 miles west of here.

Police said the men gave false names and Fort Erie near Niagara Falls, Ont., addresses after police arrested them at Elly camp on the CPR line between Blind River and Sault Ste. Marie, 65 miles west of here.

Held are John Enns, 18, Jim Barbes, 21, and Robert Baines, 17.

Earl Foy, 56, a service station operator near this mining centre, was wounded in a holdup attempt Thursday. He said three men drove up, asked for gas, then one pulled a gun and demanded money.

WORLD HEALTH ORGANIZATION

"Ten Steps Forward." That is the title of an absorbingly interesting book published by the World Health Organization to mark its tenth anniversary. With a foreword by Dr. Brock Chisholm of Canada, the first director-general, and a forecast by Dr. M. G. Candau, its present head, WHO has here presented its story in ten chapters each headed by a year. These admirably written articles have been supplemented by eye-catching photographs, sometimes dealing with the subject matter of the articles, sometimes with other phases of the work, but all grouped to tell convincing picture stories.

Let us first summarize briefly. Here are the contents: 1948 - - the control of a cholera outbreak in Egypt; 1949 - - the commencement of the provision of nursing services for backward countries; 1950 - - the publication of an international pharmacopoeia, providing universally accepted standards for drugs: 1951 - - rural child health project in India; 1952 - - campaign against tuberculosis; 1953 - - malnutrition in children immediately after weaning; 1954 - - DDT-resistant malarial mosquitoes; 1955 - - atoms-for-peace conference; 1956 - - new anti-rabies centre; 1957 - - drugs and mental conditions. Most of these projects, of course, are continuing ones, with the work of WHO in these fields by no means confined to the year under which the articles appear. Nor, it is evident, do these ten stories do more than cover the highlights of the organization's work.

This summary does not begin to tell of the impact of the book, which is many-sided.

For instance, on days when diplomats appear to be more than usually obtuse, we may find comfort from this sentence in the article on the control of cholera and epidemics: "Nonetheless have no politics and even belligerents can recognize a common enemy," and in the account of the international co-operation given "Epidmations" during and after the Second World War.

Longing for the good old days, for high standards of ethics, for "Noblesse oblige?" Then read the story of the establishment of nursing services in areas where there are deep seated taboos against women undertaking this work. Consider the case of Princess Tsahaj, daughter of Emperor Haile Selassie of Ethiopia, who started children's welfare centres, clinics and hospitals in her country, served as a nurse - - and died at the age of 23. Or reflect on the fact that in Brunei, a Malay state on the north coast of Borneo, the shy Moslem women would not enter a hospital - - until relatives of the Sultan offered their daughters for training as nurses.

International aid is useless? Was it useless to Ede, the five-year-old Nigerian boy, and the 14,999,999 Africans like him who have been treated with penicillin and rid of yaws, a disease whose sores, according to a picture story, disfigure and destroy not only the body but the spirit. Look at Ede's warty face before treatment and his smiling visage ten days later - - and ask if this was worth the cost, the price of an ice-cream sundae.

For those who seek information rather than inspiration, there is food here too. Wonder how flies become resistant to DDT? They don't, really. In the article on malaria, it is explained that: "The insects do not acquire the resistance. In a small minority of insects of any species or strain, there are hereditary factors - - genes - - which make them naturally resistant to insecticides. While the vast majority of the kin-insects die because they do not have this natural immunity to the poison, the very few survive and multiply until their progeny replace the vanished race."

Happy about the Salk vaccine victory over polio? WHO isn't. The Salk vaccine is "inactive," its polioviruses were cultivated and killed.

"The WHO Expert Committee in 1957, however, strongly favored controlled trials of living poliovirus vaccines in man. This, in principle, is likely deliberately introducing the active disease into a person but the virus is 'attenuated' which, means that a special strain has been bred, so mild that it will produce none of the militant effects, or dangers, of the disease. Yet the body, provoked by this mild virus, will engender antibodies in sufficient strength to repel the virulent virus. The views of the Committee have been strengthened by research discoveries of the 'habits' of the polio virus. It had been found that the poliovirus existed, and multiplied, in the human alimentary tract. As long as it remained there it was harmless but if it escaped from the tract into the bloodstream it could be carried into the tissues and nerve system of the body with that havoc which is the tragedy of polio. Moreover, the virus when excreted can spread the disease through a whole community and create the epidemics. The inactivated (or 'dead') virus vaccine, acting through the blood, does not prevent the alimentary infection so that the number of virulent viruses circulating in the population is not reduced and epidemics are still likely to flare up, with the need for a continuing vaccination, at intervals still unmeasured. The attenuated 'living' vaccine, which can be administered by mouth, can multiply in the human alimentary tract and produce there an immunity which can make the individual and the community safe."

A fascinating, thrilling book about a young, but, praise be, strong and growing organization, with 88 countries united in a crusade for all humanity.

Test Russian School Method

Kingston Whig-Standard

Perhaps it was the influence of *Life Magazine* that made the Dennis school in Modesto, California, go to a week-long tryout of Russian educational methods. Whatever sparked the experiment, it was certainly a success.

The seventh grade class of forty-four pupils agreed, too, to do every speck of homework.

At the end of the week, the teacher gave a stiff examination on the week's work. The class average in that examination was B minus — this compared with their average over the past year of D plus.

The results of this experiment point up very much illuminating on the Russian system and its benefits as they are a comment on the present California system. Are we to understand that in Russia all seventh graders do homework only when they feel like it? Do we further understand that they all talk in class and horse around as a normal thing?

Unfortunately, we must so assume since the teacher, though she found it much easier to teach under the simulated Russian system, said that it would curb the individuality of her students if they followed the system always and would deprive them of "the ability to deviate from the pattern."

We may be concerned about our education in Ontario, but we should take some comfort from the fact that never has our system become so demoralized and corrupted as apparently the system is in California. How they get people to teach in California in the light of this report is a mystery to us. It must have a great deal to do with the climate and very little to do with pedagogy.

Pink Chicken Not Uncooked

Brockville Recorder and Times

Every so often when served fowl at a banquet, and this meal customarily is pink, the natural inclination is to assume that the chicken or turkey is not properly cooked — and if any stomach aches occur within the next two days, the fault generally is said to be blamed. But a recent release from the Canada Products Institute of Canada informs us that this is an entirely wrong theory — pinkness is no index of the edibleness of the meat being fowl!

Following research it has been found that poultry meat turns pink during roasting because of certain chemicals which may be in the atmosphere of a heated oven or at Easter season when door fire — and may react chemically with substances in the poultry called "Protein" or skin tissue. This apparently is a similar type of occurrence to that which gives a reddish color to smoked hams and other cured meats.

It is often the meat of younger birds that show the most pink because of the thinness of skin which allow oven gases to penetrate to the flesh underneath.

Another question answered by the Poultry Products bulletin is that of what causes some poultry bones become darkened and red. According to studies conducted it is thought that Easter season sulphating break down the blood cells of the bone marrow to cause a deep reddish color to show. This is more apparent also in young birds.

Neither of these occurrences — pinking of flesh or reddening of bone — affects the eating quality of the poultry. This is a comfortable thought at Easter season when fried chicken and turkey seem to be just about as popular as Hot Cross Buns. Never let anyone becomes ill after eating "pink" chicken it might be a good idea to check some of the other things consumed around the same time — food and drink alike!

THE PACKSACK

By GREGORY CLARK

Our Corgi is a little fat at this season of the year, the idleness of winter on the farm not yet being resolved by the furious activity of summer. She will be a pretty sight in her maternity dress.

I had her out on a leash when a pregnant woman passed to inspect us both. A lady of mature years and a masterful eye.

"You're pregnant," she said sharply.

"You're," I admitted.

"Anybody who would have a female dog spayed," she counciled me, "is a criminal and a monster."

Now, in cases like this you have to decide whether your assailant is a little cracked, or just a spoiled old hoot owl. I took a res.

chance on the latter.

"Ma'am," I asked. "have you had children?"

She glared in astonishment, but obviously she was the kind of lady who would have a fur coat.

"Shame on you," I declared.

On her hat, which was a bunch of ordinary pheasant feathers dyed a rich mauve.

"Madam, do you realize what feathers you are wearing in your hat? Those are feathers of the rare Tr.zon bird, one of the most beautiful creatures of the Brazilian jungles."

Speechless, she backed away and stamped up the street. I saw her menfolk caught the devil that night. Just to get even with my dog.

Strength for The Day

DR. EARL L. DOUGLASS

THE MARVEL OF IT:

Life on this North American continent under free institutions has been a marvel never been offered any generation of human beings.

This, to be sure, we have the atomic and H-bombs, and we have used the former and may use the latter or have it used on us. We have killed more people in battle since the world war than ever before. We still have ravaging diseases, and there is still much injustice in the world, corruption even in these free countries we love, and there is still weeping, and wailing, and gnashing of teeth. There is hunger. There is unhappiness.

But, after all is said and done, to be living today in the United States or Canada constitutes the greatest privilege that the human mind ever conceived of enjoying. Read history and learn what men have had to take at the hands of kings, despots, and nobles. Oh

JUST FOLKS

By EDGAR A. GUEST

THE JUNE BRIDE

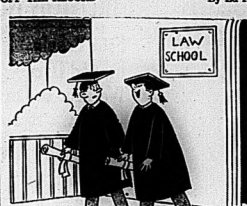
Blessings on thee, bride of June,
Marching to the wedding tune,
Blushing at the altar now,
Happy days or maybe sad.
Taking him for good or bad,
Happy days or maybe sad.
Hand in hand along the years,
You must share his smiles or tears,
Share his fortunes or his losses;
You must help to bear his crosses.

Never cause your heart to ache;
May his true and strong right arm
Ever shelter you from harm;
And, when bitter grows the storm,
May you cheer him on through life.

Blessings on thee, bride of June,
Marching to the wedding tune,
Joyous now you take his ring,
Vowing unto him to cling;
But along the vale of years
Grief may come with bitter tears.
But in love you'll live to find
Sorrows are the tips that bind.

OFF THE RECORD

By Ed Reed



"Enjoy this moment - - - we're lawyers who have never lost a case!"

LOOKING BACKWARDS

GLEANINGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO

June 2nd., 1938

The building permits for the month of May, were 21 in number, were estimated at $5400.

The Rev. R. E. Newman, the Rev. J. D. P. Knox, Mr. Geo. T. Woodley, Mr. J. Hudgins, Mr. H. B. Fetterly from Holloway Street United Church and the Rev. D. T. McClintock, Mrs. McClintock, Mr. G. F. Lent and Mrs. C. I. Lent from the Tabernacle United Church have left to attend the Bay of Quinte Conference at Napanee.

The Rev. W. E. Wright of Montreal paid a short visit on Monday to Miss Isabel and Mrs. McCallum, George Street, on his way home from Newmarket where he was guest preacher on Sunday.

Eight miles of streets will be oiled by the city this year.

The weed crop is very heavy this year on vacant lots and some streets in the city. The city employee will commence next week to harvest weeds and it is the duty of all citizens to get rid of weeds on their own property according to by-law.

Pte. L. G. Fozard and Mrs. J. Marsh were the hostesses at the East Belleville Golf Club this afternoon.

Mrs. J. J. O'Connor left today to visit relatives at Allisten, Sherbrooke, Winnipeg, Manitoba, and Saginaw, Mich.

Mr. M. Johnson, Trent Road, has accepted a position in Tweed.

30 YEARS AGO

June 2nd., 1928

The King's Birthday Tomorrow, June 4th, His Majesty, King George will observe the 63rd. anniversary of his birthday.

Five hundred and sixteen dog licences have been issued here so far this year. Last year there is an increase of 171 over last year at the same time.

Mr. Holton Madill of Frankford was a visitor in town today.

Miss Doris Roe is home on a short visit at her home on Burnham Street.

Mr. George S. Tice motored to Ogdensburg, N. Y. on business on Saturday.

Mr. and Mrs. F. H. Chesher of this city spent the weekend with friends in Acton, Ontario.

Mr. C. A. Cronk has returned home after a motor car trip to Toronto and Hamilton.

40 YEARS AGO

June 2nd., 1918

Mr. Harry Coon, Toronto, is home on a short visit to his parents, Mr. and Mrs. John Coon, West Bridge Street.

Dr. Macaulay of Brockville was in town yesterday.

The Popular Songs. "Can't You Hear me Calling Caroline"? and "Mother Machree", two of the sweetest melodies ever written may now be had on the one record for 45 cents at Lindsay Music Store, Front Street. (Advt.).

Millions of gallons of molasses will be brought here from Cuba this summer and unloaded at the new government dock. The molasses will be used in making alcohol for war munitions purposes and the Corby Distillery which is working on extensive war contracts.

50 YEARS AGO

June 2nd., 1908

Great Excitement in Town. Of all the intensely exciting days in the history of the past forty two years ago today, June 2nd, was one of the most. Promptly at ten o'clock a.m. 400 of our most patriotic citizens were seen to form in front of the Belleville Rifles or of the 15th. Regiment they were expecting every moment to be called to arms. The pent - up feelings of the citizens found vent in the cheering by vast crowds parading the streets, singing patriotic songs and cheering for Queen, Empire and Canada. The summons came at 4 o'clock a.m. on June 3rd, and by ten o'clock in the morning the members of the First Belleville Rifles were on the way to Cornwall and the members of the 15th Regiment were on the way to Prescott with orders to be ready before nightfall to repel the Fenian invaders.

Odd Reason For Decision

Ottawa Journal

The Ontario government has decided against compulsory fluoridation of water supplies. At present on the ground that 92.9 percent of motorists carry insurance.

An odd reason, we should say. For one thing it would be small consolation to learn after some driver had smashed your car or your children that he was the only one of eight percent who didn't carry insurance!

Actually, the fact that eight percent of motorists don't have insurance is a very good reason for a law compelling them to have it.

And this all the more so seeing that the man who is too shiftless to think what you'd get if you go tourist class.

To Your Good Health

By Joseph G. Molner, M.D.

WHAT HAPPENS WHEN THE BLOOD SUGAR LEVEL DECLINES

Probably all of us were told, years ago, that we should eat fish because "it is brain food." There are plenty of valid reasons for eating fish, but this isn't one of them.

What is "brain food" then? It is blood sugar, the form of sugar which is carried through the body by the blood stream.

It supplies energy and heat for the body, although, of course, there are "building materials" which also are carried by the blood and distributed. But the brain is dependent on sugar for its functioning.

Most of us have no problem with the quantity of blood sugar. It rises after a meal, then gradually falls before the next meal replenishes it.

As a rule, when a meal is postponed, or during the long hours of the night, certain automatic regulating mechanisms in the body are at work to keep the blood sugar level from dropping too low or too high, which is the great storehouse for simple starch from which blood sugar is obtained.

Obviously plain exercise is one of the things governing the supply. The brain doesn't use very much — the brain being such a marvelously efficient organ. But the muscles use large amounts, dependent on the amount of work being done.

Insulin, from the pancreas, has a strong effect on the blood sugar. Too little insulin (as in diabetes) has the effect of making it rise. Too much insulin (as from a tumor in the pancreas) lowers the blood sugar level.

INFLUENCED BY GLANDS

Finally, certain of the endocrine glands (pituitary, thyroid and adrenal) influence the blood sugar level.

Let's stay away from diabetes, which we have discussed so much in the past. Instead, what happens when the blood sugar level declines?

There are many symptoms — weakness, sweating, hunger, listlessness, mental confusion, and in extreme cases, even unconsciousness. This effect is more marked if the sugar level drops suddenly.

I would say that a great many people, especially those of the more nervous type, have experienced touches of some of these symptoms, although without any serious significance. For them, simply knowing what is taking place is sufficient. Being hungry, indeed, is a clear and sensible clue. They've burned up too much blood sugar and need to replenish it!

Tomorrow will discuss the more severe situations.

* * *

"Dear Dr. Molner: I am 63. When I cough or bend over my head pounds very hard for a second or two, then easing off. I also get headaches usually during the night. My doctor says I have an inflamed artery. — I.L.W."

I cut out of your letter some of your previous facts, since they don't apply. The trouble you have is called "temporal arteritis" or "giant cell arteritis." The temple is inflamed. We don't know the cause. It does not occur except in folks over 55, and there is no apparent connection with hardening of the arteries.

The pain, however, can be severe and the artery is swollen and tender.

The effective treatment seems to be rest, with use of the steroid drugs (cortisone, etc.) either by injection or mouth. The treatment must be carefully regulated.

* * *

"Dear Dr. Molner: What do you advise to use on the small cuts and nicks that the children are always getting? — Mrs. R.V.E."

Just soap and water, and, if need be, a sterile bandage, or clean, freshly ironed bit of cloth, or, in these modern days, one of the little stickum bandages.

Avoid strong antiseptics.

* * *

Are you a victim of "vitamin starvation?" To make sure that your diet always contains proper vitamins, write to me in care of this newspaper for my pamphlet, "Vitamins — Secrets of Health," enclosing a large, self-addressed, stamped envelope, and 10 cents in coin to cover handling.

'Old Comrade' Vs. 'My Sin'

Chicago Daily Tribune

Even under communism, when the Peoples." This sounds a bit Russian girl sets out to get a Russian boy she resorts to a liberal application of perfume. In the days of the more rigid Stalinist ideology, Soviet censors observed the party purpose, like everything else.

They banned such fetching names as "Fortieth Anniversary of the Red Army," "First of May," commemorating International Workers' day; "Eighth of March," commemorating International women's day; "Kremlin" and "Anniversary of the Young Communist League."

You can imagine a hero of Soviet labor gingerly removing his lady love and saying: "What's that you've got on tonight, dear?" Naturally, she would reply, "Why, that's Essence of Moscow Subway. Can't you tell?"

Things have eased up a bit lately, and the party pamphlet allows perfumes to bear more intriguing names. For instance, a Soviet babe can now step up to the counter and ask for "Ecstasy and Friendship Among

Synthetic Diets

Hamilton Spectator

A synthetic diet being tested for use by space travellers is described as tasting like "enriched sugar water thickened with shreds of paper towel." We shudder to think what you'd get

Quite Different

Peterborough Examiner

An English toymaker announces cuddly toys which shine in the dark, to comfort nervous children. What a luminous rabbit goes to Uncle Arthur's bedtime after a thick night, is quite another thing.

TODAY'S TALK

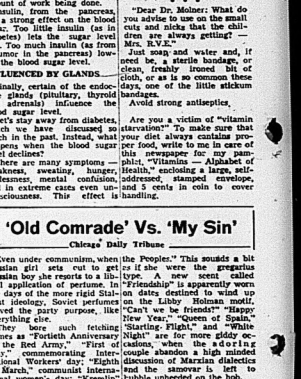
By GEORGE MATTHEW ADAMS

BANISH THE BITTER WORD

I frequently discover one who will team up with me and try to keep the bitter word out of his expressed. I have lived long enough to learn that this bitter word that so many seems to me is essential, and always tears something down that should stand. People should learn that the bitter word is as effective as poison and should never become the key word of a four-square man or woman. There are critics who take delight in finding fault with other words, but they have no literary offerings to hand out to critics of their own production. I try to be as constructive with my criticism as possible.

I have always been delighted and happy when given the opportunity to give a boost to a young person, if that falls into my way. Young people are always so appreciative, and we never know if we happen to turn down a Kipling or a Barrie. I took from the latter twenty years before he was known well enough to have one of his small books of poesis published by a prominent publisher. And that publisher was in England. This poet has almost been smothered with honors and recognitions ever since, and rightly so. All his writings by such people as Robert Frost, Edna St. Vincent Thorsen, and others that are worth while may now be had with appreciation of every one. I could never understand why he remained among writers. It is always such a thrill to give encouragement to the "unknown." Nothing has given me greater joy than this. I recently read of a man who was locked upon as the Dean of bitter talk. He died and left a fortune outside his grave. He died poor!

SCOTT'S SCRAP BOOK
By R. J. SCOTT



Bow and Arrow Fisherman Gets 19-Pound Carp

WINDSOR, Ont. (CP) — Canada's first carp fishing tournament by bow and arrow was held at Cedar Beach, west of here, today.

The provincial government allowed bow and arrow fishing experimentally to see what was caught and the effect on the numbers of coarse fish.

Winner for weight was David Lovell of Windsor who shot a carp weighing 19 pounds, three ounces. Bow fishermen from Toronto, Hamilton, Brantford, Owen Sound and Windsor took part.

Second heaviest fish was shot by Al Rusick of Galt. It weighed 18 pounds, six ounces.

FRENCH

(Continued from page 1)

It was learned, too, the Leon Delbecque, a fiery political leader in the Algerian junta, had come to Paris for secret talks with de Gaulle.

SECOND VICTORY

The assembly vote on powers for de Gaulle was the second parliamentary victory for him in this busy legislative day. Earlier the deputies voted 322 to 189 to continue the government's special emergency powers in Algeria. These powers have been passed on from government to government for the last three years.

The assembly voted the tall, grim-faced wartime leader into office by a vote of 329 to 224 Sunday night after he insisted that he be given a free hand to run France for the next six months.

The general made his sweeping demands in a cold, aloof 15-minute speech to the hushed chamber. He needed the powers, he said, to avert a "breakup and perhaps civil war" in France.

THREE CHIEF REQUESTS

De Gaulle said he was demanding three major things of the assembly:

1. Emergency powers to rule by decree for six months to clear up the constitutional tangle. Parliament would take a vacation in the interim.

2. Authority to revise the constitution to give a stronger executive rather than the parade of weak regimes which have been the country's lot since 1946.

3. Constitutional reform to reorganize relations between France and its overseas territories.

Both constitutional reforms would be submitted directly to the people for approval, rather than the assembly first. But de Gaulle did not spell out in detail the constitutional reforms he plans, saying this would be done in a bill to be submitted soon.

The assembly committee approved, 27 to 17, the request for six months of full power—and all - night session during which vice - premiers Guy Mollet and Felix Pflimlin, leaders of the two general be given a chance to push ahead with plans to revitalize France.

RIOTS IN STREETS

The committee vote followed bitter debate in the assembly and Communist rioting against de Gaulle's return to power in the capital.

The group voted not to take up until later today de Gaulle's request for authority to amend the constitution by decree. The assembly would have launched debate on the full-powers bill.

Another committee voted to extend special - powers measures which de Gaulle's predecessors have had for dealing with the Algerian rebellion.

Thus the general passed his first political hurdles. Observers noted, however, that he did so only with a push from four political parties presenting with shades of non-Communist political opinion. All four have been chosen by de Gaulle as deputy premiers.

Besides Socialist Mollet and Popular Republican Union's Pflimlin, de Gaulle's demands were pressed by Conservative Social League and Pierre Pleven, deputy of the Rally of Algerian People.

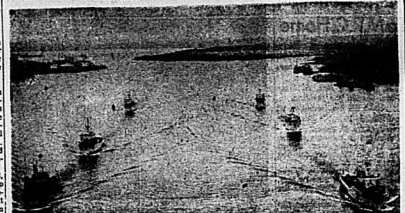
They were called to testify before the committee in a 3 a.m. summons after the body had elected as its chief a man hostile to the general.

SWUNG COMMITTEE

The vote then was 25 to 19, and the committee had swung. The stumble when he had scarcely taken office. If the final committee vote had gone against him the assembly could have reversed its decision.

Sporadic outbreaks of leftist-led violence were seen as an omen of what threatened to be widespread throughout France this morning.

CALM SEA, GOOD SAILING



Six Canadian navy mine-sweepers steam through the calm waters of Halifax harbor toward the Atlantic and a training cruise in the Gulf of St. Lawrence. The ships are the Resolute, Fundy, Chaleur, Chignecto and Thunder. All are based in Halifax. (CP Photo).

'Yield' Signs Should Replace Present 'Stops'

LONDON, Ont. (CP)—Traffic flow would be helped in communities if many "stop" signs were replaced by "yield right of way" signs, a traffic engineer of the Ontario department of highways suggested today.

J. L. Forster of Toronto was addressing 35 traffic policemen and traffic engineers at the opening session of the Ontario Traffic Conference's traffic training course, being held at Huron College.

Mr. Forster said "stop" signs have been vastly overused by some communities in the past because there have been no alternatives. "It is hoped a number will be replaced with 'yield' signs," he said, "where they can do the job better and eliminate unnecessary stops."

He said "yield" signs should be used where the safe approach speed to a corner is over eight miles per hour and traffic flow not heavy enough to warrant a "stop" sign.

Nuclear Power For Paper Mills Is Discussed

QUEBEC (CP) — Nuclear power for the pulp and paper mills was discussed today at opening sessions of the summer conference of the technical section of the Canadian Pulp and Paper Association.

Some 400 technical and research officials from pulp and paper mills in Canada, the United States and Europe are here for the three-day meeting.

Pulp and paper officials are already thinking in terms of nuclear power to produce steam requirements, said R. L. Beck, Canadian General Electric Company, Peterborough. Vast quantities of steam are used directly for heating purposes in the paper-making process and also in the generation of electric power of which the industry is the largest user in Canada.

Napanee Judge Caught Speeding

KINGSTON (CP) — Judge C. F. Smith of Napanee, presiding at the Frontenac County court house here, was a few minutes late in arriving today but he had a good excuse.

"I was caught in a Kingston speed trap for doing 36 miles per hour in a 30-mile zone and waved down by the police," he said. He now awaits a summons.

DUCK CAN RIDE AS WELL AS SWIM

And everywhere that Avryl went, the duck was sure to go. And this applies even to horseback. Lucky, the duck, knows he can't keep up with Avryl Reed aboard Lafdle, so residents of Sprowston, Eng., are given this rare sight of a duck riding pillion.

Two Masked Men Take $12,000 At Old Woodbine

TORONTO (CP)—Two masked men knocked a night watchman unconscious at Old Woodbine racetrack Saturday and escaped with about $12,000 in the safe of Dominion Sportservice Limited, a catering firm.

Police said the men, described as being in their mid-30s, met William Coulter, 67, at the east gate of the track. They spoke to him in a foreign language which he didn't understand. Then they pulled a revolver and struck him on the head. They bound him with light cord.

While Mr. Coulter was unconscious the men entered a padlocked and smashed open the safe.

Says Government Has Grown Away From People

NIAGARA FALLS, Ont (CP) Ontario Liberal Leader John J. Wintermeyer said Saturday night the Frost government has become more interesting in protecting itself rather than the people of the province.

He told the annual meeting of the Southern Ontario Liberal Association, "the government has grown away from the people."

He said 23 government commissions "operate independently of the government" and the personnel of the commissions "isn't responsible to the people."

Mr. Wintermeyer said "it is a sad state of affairs when the premier has to appoint a commission to determine if the various government commissions are going too far away. Certainly they are."

TO IMPROVE POSITION

The commission to look into the activities of government commissions was set up so that the Progressive Conservative government would be in a position to say it had done something about it, he said.

Russell O'Neal of Hamilton was elected president of the association. He succeeds Ben V. Bracher of Brantford.

Other officers elected included Mrs. R. A. Kinnear, Port Colborne, and H. G. Chappell, Erindale, vice-presidents.

Elected to the management committee were Miss Dorothy Porter, Welland; Mrs. Florence Rayner, Brantford; W. H. Eddy, Burlington; Mrs. Elaine Moscoe; and James Osbaldeston, Hamilton.

Wait for Week To Nab Suspects

ORILLIA (CP) — A week-long vigil paid off for provincial police Sunday night with the arrest of two Orillia men on charges of possessing stolen goods.

Eddie Wismer and Kenneth Pye were charged after a truck they were driving was found to be carrying the motor of a car stolen in Keswick. The car was hidden a week ago in bush country north of Orillia.

A nightly police watch was set up over the hidden engine two men will appear in court Tuesday.

Be on Watch For Red Ducks

TORONTO (CP) — Ontario residents couldn't doubt their vision if they see red ducks flying overhead.

The lands and forests department announced today it is expecting the colored ducks and asked to be informed should any be spotted.

The ducks are among a number released on the east coast of Florida during recent months. All species were banded for identification during flights northward, with the Scaup varying receiving a coat of red dye.

Sudbury Man Dies in Crash

SUDBURY (CP)—Yvon L'Anglais of Sudbury was killed today when his car missed a turn on a township road in nearby Blezard Valley, turned a ditch and hit a tree on the property of Hubert Bellile, member of the Ontario legislature for Nickel Belt riding.

STRIKE AVERTED

WASHINGTON (AP) — The Western Union Telegraph Company and the Commercial Telegraphers Union agreed in principle late Saturday on a new contract, averting the threat of a strike. The agreement, still to be formally drawn and ratified by the union, calls for a six-cent-an-hour wage increase effective June 1, an additional 2½ cents an hour, effective Sept. 1.

Mixed Bathing Is Hot Issue In Jerusalem

JERUSALEM (Reuters) — Police have banned a "demonstration in bathing suits" planned for Wednesday as a counter to an extreme religious group's protest meeting against mixed bathing.

Police said they feared "clashes" if the two meetings were held on the same day.

The religious party, Agudat Israel, is campaigning against mixed bathing in a swimming pool now being completed here. The group regards it as a "threat to chastity" and desecration of the holy city.

Alderman Gives Body to Queen's

NIAGARA FALLS, Ont. (CP)— The body of Alderman Hugh Brooks, 53, was sent Sunday night to Queen's University for medical research within 24 hours of his death here in hospital.

Mr. Brooks recently expressed a wish to offer his body for medical research after reading a magazine article on the need for cadavers in Canadian universities.

A memorial service Tuesday will replace funeral rites. Mr. Brooks is survived by his wife, two sons and a daughter, all of Niagara Falls.

Northport Man Given 9 Years As Bank Robber

MILTON (CP) — Walter Malloy, 31, of Northport, was sentenced to nine years in penitentiary when he pleaded guilty today in the Jan. 23 robbery of a bank in Campbellville.

Malloy originally pleaded guilty but reversed his plea in a county court appearance in this Toronto area town.

Earlier two others were sentenced to penitentiary in connection with the $15,375 robbery. Alex Corrie, 27, of Northport drew 10 years and Ronald Portiss of Ottawa eight.

Albert Grads Hold Dinner

Traditional with the closing exercises at Albert College is the graduates' dinner served in Ackerman Hall this year on Saturday evening in honor of the 29 members of the graduating class. The tables were colorfully decorated with lilacs and tulips. Each girl was presented with a corsage and each boy with a white boutonniere. Yellow tulips were used at the graduates table.

President of the class Paul Ancel of Talara, Peru, officiated at the banquet and the interest was heightened for him by the presence of his mother who had made the trip for the graduating exercises. Rev. Dr. Swan, a member of the teaching staff asked the blessing.

A toast to the school was given by Robert Franklin and the response was given by the Headmaster, Rev. Dr. A. E. Mackenzie. Mr. Taylor Franklin, bursar of the school proposed the toast to the graduating class which this year includes his twin children Robert and Carolyn. Douglas Lewington replied for the class. Each member of the graduating class received a pin.

Judge Anderson, the newly appointed chairman of the board, brought greetings from the governors.

An amusing sidelight was the decoration of one wall which contained cartoons of the members of the class drawn of each other with a verse beneath each.

CANCER EXPERT DIES

NEW YORK (AP)—Dr. Daniel Kasnik, 55, internationally known cancer expert who last year headed research which showed how strontium 90 can be eliminated from the human body, died Sunday. His study of strontium 90 were aided by the United States Atomic Energy Commission and public health service.

Ex-Peterborough Man Possessed False Plates

WINDSOR, Ont. (CP) — A former Peterborough man has pleaded guilty to possessing photo plates used in the manufacture of counterfeit money and is awaiting sentence.

He was identified as Earl Squire, 33, who is being held without bail after entering a guilty plea in Detroit Friday.

A second man, John Sachs, 42, of Detroit, formerly of Windsor, was arraigned on a possession warrant and waived examination. He is being held for trial, and bail has been set at $2,500.

United States treasury department agents said the two were arrested Thursday and were in the process of setting up the final stages toward the printing of counterfeit $20 U.S. bills.

The agents seized photographic equipment and two photo prints of $20 bills which were scheduled to be engraved. No date has been set for Sachs and for Squire's sentencing.

Israeli Police Fire on Arabs Near Hospital

JERUSALEM (AP) — The Israeli police fired today on a group of Arabs near the Hadassah hospital compound in the Mount Scopus demilitarized zone. Jordan said one Jordanian was killed and two others injured.

Jordan complained to the United Nations truce organization. Its report said the Arab group was trying to go to Jerusalem and was attacked by five Israeli guards from the hospital.

An Israeli army spokesman said the Arab band of about 120 was carrying knives and sticks.

It was in the hospital area that Lt.-Col. George Flint of Canada, chief UN mediator between Jordan and Israel, was killed May 26 while trying to arrange a cease-fire in an Israeli-Jordanian gunfight.

Lt.-Col. James Earl Rickee of Canada today was appointed chairman of the mixed armistice commission succeeding Flint. Rickee has been a UN truce observer previously at Tiberias, in Galilee.

Belleville Community Concert Association

ANNOUNCES

THE 25th CONCERT SERIES FOR 1958-59 SEASON

HARRY JOHN BROWN and the MANHATTAN CONCERT ORCHESTRA

. . . Associate Conductor of the Boston "Pops" Orchestra. Mr. Brown inspires the 21 members of his Manhattan Concert Orchestra with the buoyancy of the best "promenade" tradition. The programming is music in the lighter vein.

EDWIN STEFFE, BARITONE

. . . A singing-actor who charms an audience with his rare versatility.

THEODORE LETTVIN, PIANIST

. . . A young piano virtuoso, pupil of Rudolph Serkin. Brilliant technique and unusual tonal colorings won him many accolades.

CLARAMAE TURNER, CONTRALTO

. . . A true contralto is a rarity these days. Miss Turner, of the Metropolitan and San Francisco Opera Companies possesses not only a superb voice but a magnetic personality as well.

(Dates for the above concerts will appear on series tickets to be mailed in the fall to all members).

CONCERTS TO BE HELD AT B.C.I.V.S.

Time for Each Concert: 8.30 p.m.

Mr. and Mrs. A. E. Wennerstrom have returned after a holiday visit relatives in the north and south of Scotland.

Sister Mary Norreen, principal of St. John's School, Belleville, and Sister Mary Edmond, Superior of the Convent in Picton, are among those observing the silver anniversaries being held at the Motherhouse in Brentfield on the 7th June. The occasion will be marked by Pontifical Mass in the chapel at which Archbishop O'Sullivan will be celebrant. Father Rev. H. J. Farrell, of Perth, will address the gathering.

COMEDIAN DIES

LONDON (AP) — Harry Green, 65, an American comedian who specialized in Jewish dialect roles, collapsed and died Friday night two hours after appearing in a television play. Green, born in New York, qualified as a lawyer before going to Hollywood to appear in about 60 movies between the two world wars. In the last 10 years he had lived and worked mostly in Britain.

Wedding

ELLIOTT — ASHBURY

White and yellow chrysanthemums and ferns formed a lovely setting on Saturday, May 10th, in Christ Church, Bellevue, for a very pretty wedding when Joy Mae Ashbury of Belleville, daughter of Mr. and Mrs. Percy Ashbury, was united in marriage by Archdeacon J. B. Creighton, rector of the church, to Glenn Bruce Elliott, son of Mrs. Wilbur Elliott, Plainfield, and the late Mr. Elliott. White satin ribbon bows designated the guest pews.

Mr. J. S. Herdman, church organist, rendered the traditional wedding music.

Given in marriage by her father, the bride was radiant in her bridal gown of white, dotted nylon, featuring a fitted bodice with shirred satin waistband. Her shoulder-length veil of nylon tulle was held by a tiara of seed pearls, and she carried a bouquet of red carnations tied with white satin ribbon.

The bride was attended by Mrs. Phyllis Cleary, of Belleville, R. No. 4, as matron of honor. She lively attired in a waltz-length gown of aqua nylon tulle, with matching feather hat, and carrying a nosegay of red roses and mums.

Little Fay MacKenzie, of Shannonville, cousin of the bride, was flower girl, a demure flower girl in flowered nylon with rows of ruffles on the skirt. She wore a matching crinoline, and flower hat, and carried a basket of mixed flowers.

Mr. Howard Elliott, of Plainfield, brother of the bridegroom, was groomsman, while Messrs. Dale Ashbury, of Belleville, brother of the bride, and Ronald Elliott, of Campbellford, brother of the bridegroom, were ushers.

At the reception held in the church parlors, the tables were prettily decorated with yellow chrysanthemums. The bride's table, appointed with white damask, and centred by a three-tier wedding cake and bridal bouquets, was most attractive.

Receiving the guests was the bride's mother, gowned in navy crepe with white lace trim, white accessories, and corsage of pink Briercliffe roses. Mrs. Ashbury helped by the bridegroom's mother who was attired in British tan crepe, lace trim, and navy accessories. Her corsage was of similiar roses.

For the wedding trip to Pennsylvania and other southern points in the United States, the bride wore a Carribean blue ensemble. Upon their return, Mr. and Mrs. Elliott will reside in Belleville.

Guests were present from Texas; Oakville; Toronto; Oshawa; Campbellford; and Stirling.

The bridegroom's gift to his bride was a pearl necklace with matching earrings; to his groomsman and ushers, gold cuff links and tie clips. The bride's gift to her bridesmaid, necklace and earrings and to her flower girl a gold locket.

A shower honoring the bride was held by the staff and coworkers of the Moira Schuster Company; also at the home of Mrs. V. Elliott; and presentations by the Plainfield community in the Plainfield hall.

1st. Belleville Scout Group L.A. Plans Events

The Ladies' Auxiliary of St. Thomas' 1st Belleville Scout group held its recent monthly meeting in the St. Thomas' parish house.

President, Mrs. Fort, presided over a fine attendance of members.

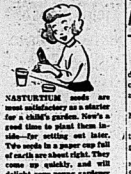
Plans were made to hold a "Come-As-You-Are Coffee Break," and bake sale in early October.

There were 13 members who attended the district meeting held at Christ Church. Reports of committees were read.

Serving convener, Mrs. Fisher, reported that a large number of Scout neckerchiefs were made. She also distributed Cub neckerchiefs to the members.

Following the business meeting, enjoyable evening was spent playing Court Whist. Winners were: Mrs. Summers and Mrs. McMahon.

Refreshments were served by Mrs. Minette and Mrs. Uens.



Ladies Lawn Bowling League Presents Prizes

Thursday afternoon was the opening day for the ladies of the Belleville Lawn Bowling Club. Some 60 women enjoyed the afternoon of sport, tea and bowling.

Prizes for bridge were presented by Mrs. H. Elvidge, convener of bridge, to: high, Mrs. C. Clapp; consolation to Mrs. H. Elliott.

For lawn bowling prizes were presented by Mrs. L. B. Fonger, convener of the Thursday games, to: high rink, Mrs. W. Kyle, Miss Win Smith and Mrs. Wm. Kyle; low, Mrs. Lent, Mrs. G. Vince, Mrs. T. Mascaro and Mrs. Ken Bland.

A short business meeting followed the games and club members were reminded to put their names in for the "Mixed Twilight Tournament" Thursday night.

New bowlers will be instructed this coming Tuesday afternoon. Tuesday club games begin on June 10th.

Mrs. H. Fortune, Mrs. J. Duggan, Mrs. V. M. Muir, Mrs. A. Hamilton, Mrs. L. Lozon, Mrs. W. Elliott, Mrs. A. McGlashon, Mrs. H. Francis, Mrs. F. Chamberlain and Mrs. Lindquist are welcomed by the president, Mrs. Wm. Kyle.

Tea hostesses for the afternoon were: Mrs. George Watkin, Mrs. Charles Hyde, Mrs. William Gilbert and Mrs. Cleo Colling.

Abandons Law Career to Work At Nursing

MONTREAL (CP)—Mrs. Stella Samuels, 30, has abandoned temporarily at least—a promising law career to enter the nursing profession.

A member of the bar of British Columbia, Mrs. Samuels recently graduated from the Jewish General Hospital School of Nursing as top student in a class of 21.

It does seem a bit inconspicuous," she said in an interview when asked why she had switched fields. "That's why I told no one about my law career when I went into nursing. They might have thought I was maladjusted."

A holiday trip to Mexico and several Caribbean islands lured her interest in nursing after she had practised law in her native Vancouver "for a short time."

"While in the tropics I was continually confronted with the great need for medical care. The work of Dr. Albert Schweitzer in Africa had inspired me, too, but it was the trip that did it."

She moved here to attend the school and soon after met Kalman Samuels, a lawyer whom she later married.

Now, with two careers open to her, Mrs. Samuels is uncertain about her next step.

"There are three fields that interest me — medical jurisprudence, hospital administration and practising law with my husband. He likes the last idea best, but I don't know what I'll do."

A quiet, easy - going person who likes to "just take time out and sit and think" now and then, Mrs. Samuels finds time for other interests besides law and nursing.

She loves music and "I've done reams and reams of writing. I've never submitted anything for publication but perhaps someday I will."

Parkdale W.I. Marks Donation To M.R.C. Home

The May meeting of Parkdale W.I. was held in the hall on Wednesday with 49 members and guests present.

The president, Mrs. A. Macmillan, opened the meeting.

A report on the formation of the Parkdale Brownie Pack was given by Mrs. Bell.

Following a business discussion, the meeting was turned over to the entertainment committee, Mrs. L. Street.

The play "Home Is Where the Heart Is," was read by Mrs. E. Lewis. Mrs. C. Cone read the current events.

Mrs. L. Street introduced the guest speaker, Mrs. H. McCabe, who spoke on behalf of the Ontario Home for Mentally Retarded Children at Plainfield. The film, "A Home Of Their Own," was shown and enjoyed by all the members and guests.

A special collection was taken and donated to this home.

The hostesses for the evening, Mrs. F. Rodgers, Mrs. H. Hodgson, Mrs. N. Bonis, Mrs. J. VanAlstine and Mrs. M. Barriage, served refreshments.

Queen's Alumni Elects Officers

On May 28th, the Queen's Alumni held its annual spring dinner in the new banquet room of the Hotel Quinte, with about 70 alumni present.

Mr. Herb Hamilton, secretary-treasurer of the Alumni Association, was the guest speaker. He gave a resume of the alumni situation and changes which have taken place at Queen's during recent years.

Following his talk two films were shown. The first portrayed the campus life 18 years ago and the second was a new color film on the campus life during the past two or three years.

Mr. Hamilton was introduced by Mr. Mac Rankin and thanked by Mr. John Chard.

Prior to the dinner president Ron Moorman conducted a short business meeting. Reports were given by the treasurer, Jean Scott, Mr. Stuart Robb, Mrs. J. H. Fortune and Mrs. Cameron.

The new executive for the coming year was announced by the chairman of the nominating committee, Frank Moore, and will be as follows:

President, G. A. Frost of Bancroft; vice-president, Dr. G. S. Cronk; second vice-president, Dr. W. A. L. McDonald, of Trenton; secretary, Dr. Joan Brookhill; treasurer, Miss Jean Scott; athletic representative, Jack Stinson.

St. Thomas' WA Holds Season's Last Meeting

Last Tuesday the senior members ofo St. Thomas' W. A. held the season's closing meeting in the form of a pot-luck luncheon, with the Girls' Auxiliary members as guests.

Mrs. John Watson welcomed the visitors, following which Rev. Canon A. S. McConnell spoke briefly and congratulated the girls on the excellent work they had accomplished during the year and on bringing such a splendid report for competative work, also the cup for mission work.

On behalf of the girls, Marie Atkins thanked the ladies for an enjoyable afternoon.

With Mrs. Watson presiding, a few items of business were discussed.

It was agreed to send a donation to Camp Hurdon, also to invite the Diocesan Board of the W. A. to hold its September meeting here.

Mrs. Ab Sills offered clothing packed and shipped to the Synod of Prince Albert, Sask.

Business finished, the contents of a "White Elephant Table" were auctioned off, Mrs. Lorne Smith as auctioneer. Her merry left tongued jokes put the strings and a nice little sum was realized.

A cup of tea was served and the ladies said their good-byes till the fall.

QUINTS EXPECT SINGLE BIRTHS

Two of the famous Dionne quintuplets, Cecile (left) and Annette (right), revealed on their 24th birthday, in Montreal, that they are expecting their first babies in a few months. Cecile is Mrs. Philippe Langlois. Annette is Mrs. German Allard. They do not expect multiple births.

Women's Institute

CARMEL W.I.

Mrs. Percy Reynolds was the hostess for the May meeting of Carmel W.I. The meeting was called to order by the president, Mrs. A. Whitmore.

During the business it was decided that Mrs. Rodbery and Mrs. Brintnell be responsible for the fair display this year. Mrs. Allison was chosen for a delegate for the district annual on June 12th.

Mrs. J. Homan reported for agriculture, speaking on farm animals and Mrs. Brintnell gave an early church history of Belleville for historical research.

Mrs. A. Gowthorpe was in charge at this time. A reading, "No Occupation," was given by Mrs. Thompson. Mrs. Gowthorpe gave a splendid report on her trip to Guelph and the conference and closed with a humorous reading, entitled "Men."

SPRINGBROOK W.I.

Mrs. Percy Mumby was hostess for the May meeting of Springbrook W.I., with 22 members and two visitors present.

The president, Mrs. James Spry, conducted the opening exercises of business.

A minute's silence was observed in tribute for a deceased member.

Five contributed birthday tea.

Mrs. P. Mumby and Mrs. C. Burkitt were elected delegates to the branch convention at Eldorado, June 10. All were urged to take old rockers and antiques for display as it is Eldorado's 50th anniversary.

The motto, "The Keynote of Good Citizenship Is Service to Others" was prepared by Mrs. George Williams and read by Mrs. Gideon Welsh.

Mrs. J. Barlow had charge of a questionnaire on "Dropouts" which evoked much interesting discussion.

Mrs. P. Mumby, convener of citizenship, gave the topic, 4-H Clubs. After all took part in current events, the meeting was closed.

Before refreshments were served Mrs. Clayton Burkitt staged a contest on "Canadian Facts and Figures."

STORM HITS CZECHS

FRANKFURT, Germany (AP)—Violent winds and hail have destroyed homes and forests and caused millions of dollars of damage in central Czechoslovakia, the official Czechoslovak news agency reports. It said the storm demolished the hamlet of Zahradiste and destroyed more than 100 buildings in the other communities in southwest Moravia, but no lives were lost.

Coronation Club Stresses Mission Work

The May meeting of the Coronation Club was held recently in Bridge St. United Church.

The meeting opened with the devotional service under the leadership of Barbara Nellis. The theme was read by Peggy Hyde and the meditation given by Barbara Nellis and Lorene Kerr.

The president, Elizabeth Scott conducted a short business session, and announced that plans were being made for a potluck supper at Grace Barker's cottage in June.

This was the first WMS meeting of the Coronation Club and Mrs. Jane Farm of a panel discussion on Japan.

Elizabeth Scott acted as moderator, and Janet Farmer and a vocal group which includes the rare male voice of countertenor, Their first concern was to be devoted to Tudor and Elizabethan music, the second to that of Flanders and Spain.

A musical innovation this year will be the series of morning and afternoon concerts of Folk Music presented by Lavallee Theatre and Emma Castor of Canada, Marais and Miranda from South America and Richard Dyer-Bennet of the United States. With these four phases of Festival, opera, classical, folk and jazz, so adequately represented, it looks as though the Festival Arena Theatre will be a very busy place for the four weeks from July 28th on.

Earlier in the season, the Avon Theatre will be the location of a two week Film Festival which will present fifty films from twenty different countries, several of them world premiere performances. Three new Hollywood productions are to be shown: "The Old Man and the Sea" with Spencer Tracy, "The Kings Go Forth" starring Frank Sinatra, and "The Vikings" with Kirk Douglas. Award winners which have not been seen previously in Canada include the Indian film "Father Panchali," "They Loved Life" from Poland, Japan's "The Harp of Burma" and "Jonah" from Germany. Other outstanding entries include England's "Carve Her Name With Pride," Russia's "Don Quixote" and a Japanese version of "Macbeth" called "The Throne of Blood."

Ballet Theatre Company whose varied repertoire includes dances from India and China, tribal dances, classical and rhythmic versions of dances brought to the country by the conquering Spanish, French and English.

To fill any waking moments that the visitor might have left, the Second Biennial Exhibition of Canadian Painting from Ottawa's National Gallery will be presented in the former court hall; the display will include twenty-seven works of contemporary Canadian artists. Other features in the same location include Canadian ceramics, a book display, the Robert Southern exhibit in the library of the stage, and a display of early motion picture equipment.

Women's Activities

BRIDGE ST. JUBILEE E.A.

The May supper meeting of the Jubilee Evening Auxiliary of Bridge Street Church was served by Mrs. L. Jones and Mrs. C. Leckie's groups, who held in the Sunday School auditorium.

Bridge Street United Church president, Mrs. C. Keech, presided and conducted the business meeting.

Miss Helen Cook gave the treasurer's report which showed that a good proportion is being made towards allocation.

Mrs. S. Lazier was in charge of the program. Mrs. A. MacKeen read the Scripture from Philippians 4. Mrs. S. Lazier gave an inspiring reading from the Scripture lesson.

Miss Joan Kenny, Miss Grace Tucker, Miss Grace Houston and Mrs. Grace Anderson, delighted all with their singing.

The study, book chapter, "Japan Of Yesterday," was dealt with by Miss Mary Thane, who told of the "Cross and Crisis in Japan" Miss Myra Chapman, "The Land of Her People"; Miss Margaret Heagle on, "The Century of Modern Japan," and Miss Olive Elson, "Highlights in Christian Churches in Modern Japan."

Mrs. Lazier and Miss Kenny expressed thanks t all who helped make the evening so interesting.

The meeting closed with silent prayer in memory of Mrs. Hamilton Thompson, a former member.

Stratford Festival—1958

By ROBERT TANNER

PART II

Bandleader Wilbur de Paris, trumpeter Dizzy Gillespie, flautist Moe Koffman and TV singing star Robert Goulet are four of the well-known performers scheduled to appear in this year's Music Festival at Stratford, an event which promises to be richer and more varied than ever before. Bob Goulet is appearing as MacHeath in John Gay's famous "Beggar's Opera," together with a predominantly Canadian cast which includes such figures as Maxine Miller, Robert Christie, Helen Burns and Ann Casson. Equally of rowdy satire and fast-moving action, this gay show might well be called the father of American musical comedy and has an appeal which have proved universal and timeless. The production will be directed by Tom Brown and conducted by Louis Applebaum.

Jazz proved a great drawing card last year, and this year's plans feature Wilbur de Paris with Wilhelmina Grey, Dizzy Gillespie and his new orchestra, Henry "Red" Allen and his All-Stars, Jimmy Rushing, Jimmy Hughes, an all-Canadian production by "Swingin' Shepherd" Moe Koffman and Maynard Ferguson's band, and the trios of Oscar Peterson and Billy Taylor.

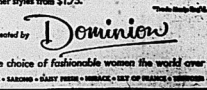
On the more classical side, the Festival Singers, a superb Toronto group directed by Elmer Iseler, will present two concerts in conjunction with the Festival Instrumental Ensemble, while a second pair will be given by the New York Pro Musica, directed by Noah Greenberg. This unusual group of singers and vocalists have been called "the world's finest performers of early music." They feature instruments ranging from "medieval fiddles" to recorders and harpsichords, and a vocal group which includes the rare male voice of countertenor. Their first concert will be devoted to Tudor and Elizabethan music, the second to that of Flanders and Spain.

A musical innovation this year will be the series of morning and afternoon concerts of Folk Music presented by Lavallee Theatre and Emma Castor of Canada, Marais and Miranda from South America and Richard Dyer-Bennet of the United States. With these four phases of Festival, opera, classical, folk and jazz, so adequately represented, it looks as though the Festival Arena Theatre will be a very busy place for the four weeks from July 28th on.

Earlier in the season, the Avon Theatre will be the location of a two week Film Festival which will present fifty films from twenty different countries, several of them world premiere performances. Three new Hollywood productions are to be shown: "The Old Man and the Sea" with Spencer Tracy, "The Kings Go Forth" starring Frank Sinatra, and "The Vikings" with Kirk Douglas. Award winners which have not been seen previously in Canada include the Indian film "Father Panchali," "They Loved Life" from Poland, Japan's "The Harp of Burma" and "Jonah" from Germany. Other outstanding entries include England's "Carve Her Name With Pride," Russia's "Don Quixote" and a Japanese version of "Macbeth" called "The Throne of Blood."

Ballet Theatre Company whose varied repertoire includes dances from India and China, tribal dances, classical and rhythmic versions of dances brought to the country by the conquering Spanish, French and English.

To fill any waking moments that the visitor might have left, the Second Biennial Exhibition of Canadian Painting from Ottawa's National Gallery will be presented in the former court hall; the display will include twenty-seven works of contemporary Canadian artists. Other features in the same location include Canadian ceramics, a book display, the Robert Southern exhibit in the library of the stage, and a display of early motion picture equipment.



A New Dessert: Orange Sunburst Cake

by Mary Moore

Very few of you shirk the work of making a fancy party dessert, but often you scan the recipe to discover the cost of ingredients.

Dinner Menus

by Mary Moore

MONDAY

Roasted Picnic Ham; Sweet Potato Puff; Broccoli; Pine Slaw with Watercress; Pumpkin Tart with Ginger Cream; Coffee.

I have a brand new orange dessert cake for you that cannot be labelled expensive. It has a meringue on the edges and sides which call for the 4 whites left over from making the 4-yolk sponge cake.

. . . and listen to this: it is one of those new streamlined batters that requires the first 3 ingredients to be beaten together under the electric beater for 2 minutes.

Would you like the idea? Shall we go on with the intriguing details? I think so, for I served it to 7 for company tonight, and had enough left over, icy cold, for dessert on Sunday night. Need I add Pete's home?

ORANGE SUNBURST CAKE

Two cups sifted cake flour (or 1 3-4 cups sifted all-purpose flour), 1 1-3 cups sugar, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 1-3 cup shortening, softened, 3-4 cup milk, 1-4 cup fresh orange juice, 4 egg yolks, unbeaten, 2 teaspoons grated orange rind. Sift flour, sugar, baking powder, soda and salt into large mixing bowl. Add softened shortening, milk and orange juice; beat 2 minutes at medium speed with electric mixer, or 200 strokes per minute by hand. Add egg yolks and orange rind, continue beating 2 minutes. Pour batter into 2 greased 9-inch layer cake pans, bake at 375 deg. F.for 20 to 25 minutes. Remove from pans; cool on rack; prepare icing.

ORANGE FILLING

Three tablespoons cornstrech, 1-3 cup sugar, 2 cups oranges peeled and chopped (4 medium oranges), 1 tablespoon each butter or margarine, fresh lemon juice, grated orange rind. Mix cornstarch and sugar in saucepan; blend in chopped orange, cooking until clear and thick, about 10 minutes, stirring constantly. Add butter, lemon juice and orange rind, cool. Since the meringue must be browned, put layers on bread board to make filling. Spread 1-3 of cooled filling over bottom layer, 1-2 over center of top layer, leaving a border of 1 1-2 inches for meringue.

MERINGUE

Four egg whites, 1-4 teaspoon cream of tartar, 1-3 cup sugar. Beat egg whites and cream of tartar until soft peaks form. Add sugar gradually, beating until whites hold in firm glossy peaks. Add meringue to edges of cake with meringue; brown in moderate oven (350 deg. F.) 10 to 15 minutes. Remove carefully to cake plate (I used the "egg" lifter). Decorate with almond halves for flowers, cherries for leaves and grated orange rind-for flower centres.

GOOD MANNERS

By Miss. Beckman

NO DEFINITE RULE ABOUT SENDING WEDDING GIFT

Dear Mrs. Beeckman:

Is there a definite rule as to whether or not one is expected to send a wedding present when it seems a matter of indefiniteness about this, such a variety of opinions. Thank you for any guidance you will give our group about it.—Mrs. L.

Dear Mrs. L.:—There is a definite rule about this . . . it would be so much easier for all those receiving wedding invitations to know whether or not they would be expected to send a present. If you are invited to the reception and for any reason send your regret, you may do so if you please, depending on your inclination and your devotion to the bride-to-be. If you accept the invitation to the reception, it is customary, and natural to do, although not absolutely necessary to send a gift.

Chic Evening Outfit

By TRACY ADRIAN

An evening dress with its own accompanying coat is a glamorous ensemble for night life during the summer season. This versatile twosome can be worn for after-five cocktails, then go on to more formal affairs.

The full, circular, reversible coat is of white warp-printed silk with flowers in blurred tones of red. It is lined with plain white peau de soie which rolls back to form the collar and cuffs. The dress has a short, full skirt of the print and a strapless molded bodice in white on which appliques repeat the flowers of the print.

Leadership Training Held by ~~H-S~~

The annual Workshop and Leadership Training program for executives, especially new executive members of the Home and School Association of the city and district, sponsored by the Belleville Home and School Council, was held on Thursday at Sir Winston Churchill School. The theme of the meeting was "Progress Through Cooperation."

A large number was present to learn how to further the aims of the Home and School and to exchange ideas through discussion.

After registration, Mrs. G. Powell, president of the Home and School Council, welcomed the members and explained the purpose of an annual Leadership Training Program. Representatives from 16 associations were present.

Mrs. A. J. Fort, chairman of the Workshop program, explained the duties and asked the four groups under the leadership of Council personnel to go to the designated classrooms where for 15 minute sessions the methods of Home and School procedure, program planning, and other interests, were explained.

SESSION LEADERS

Session leaders for the groups were: Mrs. R. Jones, "Principles and Procedures"; Mrs. A. Parker, "Publications and Periodicals"; Mrs. J. Pugh, "Programs and Projects" and Mrs. G. Powell, "Parent Education."

By group rotation, the members had an opportunity to learn what the various sessions had to offer. Many favorable comments were heard in the summary period which followed.

Each group - leader gave a brief outline after which refreshments were served by Mrs. W. Soule and her committee.

The Corby Public Library had a most interesting display of books suitable for children's reading. Lists of books were handed around so that the parents could become aware of the vast quantity of good reading offered today.

Mr. T. Stovell, president of the newly organized Retarded Children's Association, was in charge of a table of material and pictures depicting the activities of this organization and making known the necessity of the Belleville Retarded children in the Belleville area.

SUMMER FILM SEMINAR

Mention was made of a summer film seminar sponsored by the Federation of Film Councils of Eastern Ontario, and this year the program is planned for the Home and School Associations and the Parent-Teacher Associations. The one-day sessions are being held on July 25, and July 26. This seminar will be held again at Queen's University, Kingston. Dr. Wake, assistant professor of psychology, Carleton University, will speak on, "Is School the Place for Sex Education?"

Mrs. Kay McLarnon, Ontario provincial president C.P.T.A. of Peterborough will speak on programming (with film) which will be of interest to teachers.

CIVIL SERVANT RETIRES

TORONTO (CP) — Charles J. Foster, a one-time member of the Ontario legislature press gallery who here he represented the Mail and Empire, retired Friday as chairman of the Ontario civil service commission after 32 years of government service. He had been chief arbitrator between the Ontario government and its employees for almost 26 years.

Holy Rosary W.L. Sponsors Lilac Tea

Holy Rosary hall was the setting Thursday afternoon for a delightful "Lilac Tea," held under the auspices of the Women's Catholic League. The bright day and the usual hearty welcome always accorded the genial hostess attracted a number of patrons.

Receiving were the president of the League, Mrs. E. McGuigan, and convener of the tea, Mrs. H. Smith. Mrs. J. Hamilton, tea convener for the afternoon, graciously received and the accustomed duties.

The tea room was a veritable bower of fragrance: baskets of purple and mauve lilacs mingled with yellow tulips in white baskets formed a floral fence, and through a beautiful archway covered with white and mauve lilac spearheads could be seen the little green tables with their white clouds, each one centred by a crystal holder of the same theme flowers and a spray or two of lily-of-the-valley. At strategic intervals about the room were more baskets of the fragrant lilacs.

CHARMING TEA TABLE

The tea table itself, with its white, Madeira cloth, was charmingly arranged with a centre-piece of lilacs, yellow tulips, accented by yellow lace doilies, flanked by tall yellow and pink candles in crystal holders, while the little vis-à-vis sprinkled services added their cheering springtime note.

The tea room hostess was Mrs. J. Burritt, and those replenishing included: Mrs. J. Grady; Mrs. F. Bedford; Mrs. M. Sallatto; Mrs. L. Donavan; Mrs. C. Hurn, and Mrs. V. Baker. Serving were: Mrs. B. McQuaid; Mrs. B. Thompson; Mrs. F. Daly; Mrs. F. Enright; Mrs. L. Farrell; Mrs. P. King; Mrs. K. Fox; Mrs. M. Bateman; Mrs. H. Taylor; Mrs. J. Rathwell; Mrs. L. Meagher; Mrs. E. Reid, and Mrs. W. Mulvihill.

A homecooking table, centred with a pretty bouquet of yellow tulips and mauve lilacs and decorated with mauve and yellow ribbons, was the scene of all sorts of dainty confections with its array of pies; tarts; all kinds of cakes, with fluffy icings of white, others with rich chocolate, and still others with delicious coconut; there were hermits, angel cakes; jellos, and ginger bread, and tea biscuits. These were in charge of Mrs. J. Hagan, assisted by Mrs. J. Mitchell, and Mrs. V. O'Neill.

Convening the delectable candies were: Mrs. G. Schrieder; Mrs. N. Guay, and Mrs. J. Snider, who kept busy packaging the cellophane bags of creams, fudges and chocolates, and nicely arranged boxes of mints, and other delightful mixtures.

Another highlight of the afternoon was the draw on the chicken dinner, complete with a capon chicken: smooth white potatoes; tender young peas; cranberry sauce; tomato juice and fruit dessert. The lucky ticket holder was Mrs. S. Haley.

The convenors of the tea were, Mrs. J. Snider; Mrs. N. Guay and Mrs. F. Daley, to whom appreciative thanks are tendered for a most attractive tea, and to those responsible for the lovely floral arrangements.

Club Activities

ENERGETIC CLUB

The Energetic Club of Holloway Street Church held its last meeting of the season on Wednesday evening, with the Pen-Lucas and Cutlingtrye groups entertaining.

The meeting opened with "Green Pastures" as the theme of the meditation.

The minutes and several letters of thanks were read by the secretary, report of the re union which took place recently, was presented.

Plans are being made for the annual Dominion Day picnic.

After the business, crokinole was played, Keith Laughlin and Margaret Dryden having the highest score. Ben Howell was the winner of the prize for the best "Hard Times" costume.

Refreshments were served and the "Tattler" read.

ST. ANDREW'S F. G.

GILEAD — St. Andrew's Friendship Guild held the May meeting at the home of Mr. and Mrs. Glen Sexton with an attendance of 15.

The president, Mr. Carmichael, presided over the business part of the meeting. It was decided to hold the next meeting on June 20, in the form of a social evening at the school, and the annual picnic in August at Tweed Park.

Roy and Irene Huffman were in charge of the program, consisting of the reading of Psalm 147; readings by Mr. Huffman, "The Church"; by Erma Martin, "Does Your Light Shine?"; by Wilma Huffman, "Mother Has No Occupation"; by George Clare "Old Joe's Milker", and an accordeon selection by Bruce Swan.

A contest was enjoyed, and refreshments served.

CHARGED WITH ARSON

VANCOUVER (CP) — A young Victoria years man has been charged with arson in connection with four fires set on the Canadian Pacific Railway coastal steamship Princess Elizabeth, Warren Pascoll Sumpter, 24, was charged Friday when he appeared in police court on a previous charge of damage after a mirror on the ship was smashed.

Library Corner

(By G. D.)

"Personal Typing in 24 Hours" P. S. Pepe; Self instruction for learning typing from letters to manuscripts.

"Business Letter English," H. Robertson; A concise book on letter writing and oh English usage as required in correspondence.

"Shorthand, Typewriting, and Transcription," Leonard Gregg-stein.

"The Young Woman in Business," B. B. McLean.

IODE Delegates Discuss World Situation at Meet

HALIFAX (CP)—International affairs and Commonwealth relations received a large share of attention in 1957 from members of the Imperial Daughters of the Empire, delegates to the annual meeting were told today.

Mrs. Harry Mills, Simcoe, Ont., committee convener for national, empire and world affairs said the opening session that provincial reports showed an increase in the number of chapters that "gave its rightful place . . . to discussion of world problems and news concerning our British freedom and heritage."

"A notable benefit was experienced by chapters in every province who visited the Canadians' seminar chalets of Girl Guides and Boy Scouts to attend world conferences and jamborees. Older heart glowing accounts of these events," Mrs. Brock reported.

RUSSIA AND U.S.

"In attempt to understand the motives and diplomacy" of both the United States and Russia was made by several chapters, Mrs. Dresses from newspaper men who had been in Russia had increased the value of studies of the Soviet Union.

IODE membership and the number of chapters had increased during 1957, she said, to 31,490 members and 904 chapters, Mrs. G. D. Leggett of Toronto, organizing secretary, told delegates.

Report of the finance committee chairman, Mrs. J. Neil Gordon of Toronto, showed a general fund deficit of $2,182, due to continual increase in expenses, rising costs of supplies, and the fact that the revenue remains practically the same each year.

Mrs. Alfred Mills, Kingston, publicity convener, told members the province's press had been generous.

IODE activities "wonderful education" during 1957.

Tour of the Immediate past president, Mrs. L. B. Smart of Nemaio, from Newfoundland to the Yukon was a highlight of 1957 publicity and brought "widespread knowledge of the work of the order to the people of Canada."

Mrs. R. M. Brophy, Scarborough, Ont., national hospitality convener, reported that IODE members throughout Canada gave a new kind of welcome to overseas students, particularly members of the Victoria League from Commonwealth countries.

PROPOSED SCHOLARSHIP

A proposed $2,000 scholarship to the University College of the West Indies was presented for approval by Mrs. C. M. Scott, Peterborough, Ont., Commonwealth relations convener.

Mrs. Scott reported IODE scholarships at medical colleges in the Indian District of Ludhiana had been received gratefully by two Indian women, and the IODE pediatric ward at the Christian Hospital, Indore, India was being "administered wisely and carefully."

National Secretary Mrs. W. H. Sowerby reported 13 letters and five resolutions had been forwarded to federal government ministers, among them a request to the citizenship and immigration department that a pamphlet be prepared to inform new Canadians of traffic rules in the various Canadian provinces.

Junior chapters of the order had presented flags to schools, awarded bursaries and gifts to "adopted" schools, which they supported with regular financial donations, and distributed nursery bags and stuffed animals to hospitals.

Primary chapters in Newfoundland, Prince Edward Island and the Yukon Territory now numbered 18 and worked enthusiastically in community projects while fully supporting the order, Mrs. Sowrey said.

Peace Villages Topic at Guild Meeting

The Ladies of St. Andrew's Presbyterian Church Women's Guild met Tuesday with Mrs. H. Kingsley presiding.

Letters of thanks were read from Sunday School teachers and officers for the dinner served to Parkdale teachers and Presbyterian Church teachers, also a thank-you card from the Ontario Home for Mentally Retarded Infants for donation sent.

Mrs. Mantle reported that the carpet for the church auditorium was ordered and to be laid in the summer. The Guild will pay for the Sunday school prizes for the annual picnic. The Jobbing Group is having a Plum Tea at Mrs. Graham's home, Trent Road, in June. The welcoming group will have lunch - cooking table at this (and the autumn group's sale) having a strawberry tea at the church in June.

Mrs. Ward introduced Miss Harriett Stevens, radio commentator, reporter and author to the Guild, who spoke on two pet projects and organizations in which she was interested.

One was the "Gift Project' for a library in Hiroshima Japan to replace the library bombed out during the last war. The other organization was the Peace Village in Switzerland for war-orphans and also one in Sumee, Indonesia, for children displaced in education.

These villages are made up of children of many nationalities who are taught understanding and tolerance.

Miss Stevens went on to say the children coming up will be the ones to help bring peace into this troubled world and these children, who are taught how to get along with each other, will be the ones to show others how to look for peace.

The Peace Villages were run by voluntary contributions of money and food. She also described the many ways the money was raised by the villages to carry on and grow.

Mrs. Burns thanked Miss Stevens for her most interesting talk.

THE FAMILY COUNCIL

EDITOR'S NOTE: *The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an actual case history. The Council reports on problems that have been dealt with by responsible agencies and counsellors.*

Leona T. — He doesn't appreciate what I've done.

Michael T. — I want to come home to a good dinner.

* * *

Leona T. — I am terribly confused as to what to do about my marriage, which seems to be going on the rocks after 20 years.

Five years ago I went back to work with the idea of putting our son and daughter through college. Well—in his senior year at high school the boy decided he wanted to get married instead, and now the girl wants to do the same. They just aren't interested in education.

Well, I took the money I saved and went and fixed up my own home. I love a nice home and for the first time I had all the money I needed to make things beautiful.

Instead of appreciating it, my husband hardly said a word about it. Instead of helping me in the house he makes hateful remarks to me, messing up and so on when he has more time at home than I have.

Michael T. — I never wanted Leona to go to work. I can make enough to support my family. I knew the kids would never want to go through college. The arrangement was fine. Then all along it was useless.

Well, now I think it's time for Leona to stay home, anyhow. I work hard all day and I want to come home to a good dinner. I don't like to have to start cooking for myself.

All these new things we've gotten in the house don't make sense. Every time I turn down someplace, Leona says, "Don't sit there." The house is full of don'ts. I can't touch anything. I can't put my feet up. I can't even smoke in the living room. This is kind of life is strictly for the birds as far as I'm concerned.

Leona has talked of divorce and all I can say is-living alone can't be worse than this.

* * *

The Council: Leona and Michael should recognize that they are in a critical period in their lives and they have it in their hands to make the future lonely, drab and miserable, or fill it with warmth and happiness.

Leona had missed forward to many more years of usefulness to her family, but suddenly her children have dashed her hopes and gone off on their own. She is bored to approve disappointment by throwing herself energetically into a new and exciting enterprise — improving her home. Michael could have helped to lift Leona's spirits by showing real appreciation.

Michael's lack of appreciation has been a cruel blow to Leona and has probably given rise to her irritability with him. He should recognize that she needs very much to feel she is useful. She is a healthy young woman and needs more to do than cook for dinner and bake a cake of it to house in order to achieve a sense of satisfaction.

Some women are able to find sufficient outlet for their energies in church and club work. If Leona can do this, it would probably ease the problem somewhat.

But if she can't, Michael should recognize that a job is necessary for Leona to feel she is useful. She is a healthy young woman and needs more to do than cook for dinner and bake a cake of it to house in order to achieve a sense of satisfaction.

Some women are able to find sufficient outlet for their energies in church and club work. If Leona can do this, it would probably ease the problem somewhat.

But if she can't, Michael should recognize that a job is necessary for Leona to feel she is useful. She is a healthy young woman and needs more to do than cook for dinner and bake a cake of it to house in order to achieve a sense of satisfaction.

CAN DE GAULLE RESTORE PEACE?

Pro-Gaullists and leftist demonstrators grapple with each other on Champs Elysees as France's Fourth Republic lay in its death throes. While the Socialist party has not publicly announced its support of De Gaulle, it is expected the wartime general will receive the majority he demands as a condition for taking over the premiership, when he faces National Assembly.

MADOC

Kiwanis Club Hears Talk on Deaf Children

MADOC — The "Care and Education of the Deaf Children of the Province" was the subject of the address by the superintendent of the Ontario School for the Deaf, J. D. Demeza, of Belleville, at the Kiwanis Club meeting.

Mr. Demeza, who is also president of the Belleville Rotary Club, stated there is one deaf child in every eight or nine thousand of population, and increased facilities in the province are necessary. New classrooms and living quarters are under construction in Belleville, and a new school is being built north of Toronto.

The speaker pointed out that new and improved methods of education are greatly assisting the children who commence their studies at the age of four and a half years. Many are now taking an active part in industry and other vocations.

Past president Kel Kincaid introduced the speaker and appreciation was expressed by past president Ken. Nicol.

Three new members were inducted into the club by Kiwanian Dr. S. R. Beatty, namely: Clem Treverton, Paul Jones and Ed. Kramp.

Doug. Thompson Receives Two Scholarships

MADOC — Douglas Thompson, son of Mr. and Mrs. John Thompson of Queensboro, completed his first year at Queen's University, by winning two scholarships and a medal.

Douglas is taking an Arts course majoring in mathematics and science. He was awarded the E. D. Merkly prize in mathematics; the Day Scholarship for Physics and Mathematics; a university scholarship and a medal. In mathematics his marks were 100 per cent and his average mark in all examinations was 98 per cent.

On graduating from Madoc High School last year, Douglas topped his class with seven 1st class honors and one second.

Point Anne

POINT ANNE —Mr. and Mrs. Wesley Reid had supper Sunday evening with their daughter and family, Mr. and Mrs. Jack Andrews, at Rednersville.

The weekly euchre club was held on Tuesday evening at the home of Mrs. James Sero. Winners were: Mrs. Lucille Lloyd, Mrs. Eva Juby and consolation, Mrs. Eva MacKay.

After euchre Mrs. Sero served refreshments and a pleasant evening was spent.

SHOWER OF GIFTS

On Thursday evening at the club house, Point Anne, a miscellaneous shower was held for Miss Diane Whitehead, a bride-to-be.

The evening was spent in playing euchre, favors going to Mrs. Peter Green, Sr., Mrs. Ruth Henderson and low to Mrs. Annie Guay.

After euchre, Miss Whitehead was asked to take the chair of honor. She was presented with many lovely and useful gifts for which she expressed her thanks to the givers, and to those who were so thoughtful and kind to have the shower. They all joined in wishing her and her husband-to-be may happy years together.

Refreshments were served.

Madoc

MADOC — Four Madoc young ladies, who will be among the graduates from the Kingston General Hospital School of Nursing, at Tuesday's graduation ceremonial, will be Elizabeth Jane Atkinson, Donna Sylvia Devolin, Catharine Ruth Hart and Eva Joan Holmes. They are also matriculation graduates of Madoc high school.

STUDENT RECEIVES HIGH HONORS

Ted Burnside of Madoc, a third year student at Ontario Agricultural College, Guelph, was recently appointed agricultural assistant during the summer months to A. O. Dalrymple, the agricultural representative for Durham County with headquarters at Bowmanville. The 21-year-old student has been connected with 4-H Club and Junior Farmer activities for many years.

A few years ago his brother, who is now attending MacDonald College, Montreal, and a sister, who is now a school teacher, were awarded the Grand Championship for their Holstein calves at the Ottawa Winter Fair.

Ted was recently elected president of the Royal, one of the O.A.C.'s highest student honors.

MADOC

H.S. Students Hold Dance at Trinity L. Club

MADOC — A group of high school students from Madoc High School contributed greatly to a highly successful meeting of Trinity Ladies' Club held at the home of Mrs. Ken Holmes. Miss Elaine Rotter, teacher of vocational guidance at the school, arranged a lively panel of teenagers including Betty Lough, Sharon Fox, Marilyn Devolin, Doug McGowan, Robert Howse, Darrel Devolin and Larry Stickwood, with Richard Taylor as moderator.

Many current problems were discussed by the panel, each freely expressing his own opinion on controversial subjects. The project most interesting to parents of teenagers.

To prove further their capabilities, the high school quartet sang three numbers under the direction of Miss L. West accompanying them on the piano.

Others taking part in the program were Mrs. A. Adams, who sang two solos of "Springtime," and Mrs. Rodgers, who prepared a fine worship service on, "The Awareness of Spring."

Jean Lesage New Liberal Leader For Quebec

By GUY RONDEAU
Canadian Press Staff Writer

QUEBEC (CP)—Jean Lesage, a veteran politician in the federal arena, Saturday was chosen leader of Quebec's Liberal party in a smashing first-ballot victory

Mr. Lesage isme mber of Parliament for Montmagny - L'Islet and was minister of northern affairs in the former Liberal federal administration. He succeeds Georges Lapalme as provincial Liberal chief.

It will be the task of the 46-year-old Quebec city lawyer to lead the Liberals from the shadows of Premier Duplessis' Union Nationale party which has held sway in Quebec since 1944. At no time since then have the Liberals been able to win more than 23 of the 93 seats in the Legislative Assembly. They have 17 members now.

EASY WINNER

Mr. Lesage rode routhshed in the voting over the opposition of Montreal lawyer Paul Gerin-Lajoie, Rene Hamel, member of the Legislative Assembly for St. Maurice, and Montreal lawyer Dr. Aime Fauteux.

Mr. Lesage had 630 votes, against 145 for Mr. Gerin-Lajoie, 97 for Mr. Hamel and one for Dr. Fauteux.

The new leader has said he will resign from his federal seat but whether or not he will make an early attempt to gain a seat in the provincial house is still not known.

A by-election has been called for July 2 in the riding of Matane but it is doubtful that Mr. Lesage will enter the race.

SPECULATION ABOUT SEAT

There is some speculation a Liberal member of the legislature may give up his seat to Mr. Lesage.

The possibility also exists he might not try for a seat until the next general election, expected in 1960. It is that event Mr. Lapalme, who retired a few months ago as party head, probably would continue as opposition leader in the Legislative Assembly.

Delegates adopted about 20 resolutions. One re-affirmed that education is exclusively a provincial matter but would leave Quebec universities free to accept or reject federal aid.

The delegates also decided that there should be free education for all students attending primary, secondary and technical schools. Another resolution called for a provincial labor code.

HOLD TRAINING COURSE

LONDON, Ont. (CP) — Police throughout Ontario will register here today for a two-week Ontario traffic policeman training

SEAWAY SCENE

The Iroquois locks and dam lend an impression of the immensity of the St. Lawrence Seaway and Power Project. In the foreground, boats are seen passing through the old, 14-foot-draught Iroquois locks. The new 27-foot locks are out of sight to the right. A dredge is removing cofferdam remains from in front of the now complete Iroquois control dam. (CP Photo).

WELLINGTON

W.I. Entertained By Little Ballet Dancers

WELLINGTON—The regular meeting of the Wellington Women's Institute was held in the town hall on Tuesday evening. Mrs. S. Tripp the new president in the chair. There were about 70 members and guests present, after a number of children who came to help on the program. The president opened the meeting.

Before the business part of the meeting, the many little folk who had come to entertain, gave a wonderful exhibition of dancing. Six little girls of the nursery ballet, wearing frilly mauve costumes, Patti Hoag, Beverley Crook, Janice Istead, Susan Pettingell, Betty Bond and Brenda Wilson, gave a cute little dance; Brenda Burley and Cathy Alyea tapped to "Love Letters in the Sand." They were one-sleeved yellow dresses with silver flowers. For their second number, a military tap, they wore red jackets and white pleated skirts. In shamrock-green dresses, Elaine Bishop, Jeanette MacDonald, Sharon McNeill, Nancy Wight and Gail Allison danced merry hornpipe Irish medley. For their second number the girls wore white blouses and pastel-colored skirts and bonnets.

A beginners' tap was well done by Nancy Foster, Marlene Parks, Dorothy Parks and Norah Hamel, frocked in yellow bestards and long frilly skirts trimmed with mauve.

Ann Foley, Veronica Ross and Cathy Ross were charming in deep blue dresses as they danced to "True Love." Glee Me-Quaid, Nancy Nancy Guernsey, Robert Bailley and Lana Laidley, in rust and green costumes, tapped nicely to "Don't Talk About Me When I'm Gone" and for their second number, "I Want A Girl."

Jackie Bird and Sharon Greatrix, Cathy Parks and Cathy Wright did a charming umbrella dance.

A beginners' tap was well done by Orlinda Bell, Norma Munroe, Kathy Alexander, Millie and Fay Middleton, who wore pastel colored costumes with multi - colored sparkles.

Due to illness, Margaret Bailey and Linda MacDonald were unable to attend.

These little dancers brought a good round of applause from all present. As it was getting late and some of the children had to go home, they all received treats from the W.I.

Bills were moved to be paid. Thank you notes were read from Mr. Bob Upton, Mrs. H. Bryant, Mrs. R. Preston and Mr. F. Harris.

Mrs. Tripp presented the public school awards to Miss Rhoda Cleave and Jimmy Campbell. It was decided that the drivers of cars to Consecon be paid. The days for hospital and blind to be looked after. A speaking was called for Friday night to arrange this year's programs.

The birthday box was replenished by Mrs. H. Dick's donation. Poem of the month was given by Mrs. Tuttle and current events by Miss Edie Ward.

Refreshments were served by the members and a social half hour spent.

2nd Sidney

2ND SIDNEY — Mrs. F. McCormack spent a week at Exeter with her sister, Mrs. D. Sanson.

Mr. and Mrs. Maitland Harder and children spent the weekend with their parents, Mr. and Mrs. Arthur Plumpton, at their hunting camp at Bonisteel.

Mr. and Mrs. Cecil Harry of Foxboro, were callers of Mr. and Mrs. Arnold Harry on Sunday evening.

The Johnstown Women's Association are holding a spring tea and sale of home cooking at the Glen Miller club house on Wednesday afternoon June 4th 2-5 p.m.. All welcome.

Mr. and Mrs. I. Ingram spent the holiday weekend at a cottage at Huntsville.

Linda Holler yowls with pain at Grant Park Zoo, Atlanta, Ga., after a goose named Gus took a nip at her feet. You can bet that the child will be on her toes the next time she decides to pay Gus a visit.

GOOSE NAMED GUS LIKES TOES

HILLIER SOUTH

Township S.S. Holds Convention Elects Officers

HILLIER SOUTH — The Hillier township S.S. convention was held on the evening of May 22nd at Burr's church with president Mr. C. Morris in the chair. The Rev. Parr of St. Andrew's, Wellington, opened the session with reading Psalm 23. Mr. Parr presided at the organ. Mrs. K. Wood, secretary, gave a condensed report of Sunday schools. Buzz session was led by the Rev. A. Poulter; four discussion groups debated upon current questions and findings reported to the assembly.

Mr. Don Parks, superintendent at Burr's, welcomed the group to Burr's church.

A film strip was presented, showing the efficiency of teaching the Bible to boys and girls.

GUEST SPEAKER

Mr. Poulter introduced the guest speaker, Rev. H. Davis of Belleville. His topic was most interesting and timely. Mr. Davis stressed the importance of early impressing young minds with fundamental gospel truths. Good home training was essential to children born into a world when spiritual life has lost its way. Little minds must be saturated with eternal truth and have a real meaning of God as a personal friend and guide.

The president, Mr. Morris, thanked Mr. Davis on behalf of the assembly.

Two musical numbers were enjoyed, contributed by Mrs. O'Brien and Miss Hennessy from the Pentecostal mission.

Mrs. L. Wilbur gave the report of the courtesy committee and Mr. M. Snider the report of the nominating committee.

President, Clare McFaul: first vice-president, Mrs. A. Cruickshank; second vice-president, Mrs. Gray; secretary-treasurer, Mrs. K. Wood; girls' work, Mrs. C. Pritz; boys' work, R. Bailey; teacher training, Rev. A. Poulter; temperance, Mrs. L. McClenan; missionary, Mrs. T. A. Wannamaker; children's, Mrs. R. Burr; home department, Mrs. G. Lloyd; Young People's, Mrs. L. McCartney; adult, Mrs. L. Willse.

The officers were installed with impressive words by Rev. Mr. O'Brien.

The ladies of Burr's church served refreshments.

KEPT DEAD BABY FOR 11 YEARS

Mrs. Rose Powers of Texarkana, Tex., covers her face after her husband discovered a baby's body in a trunk. The infant was reportedly born to Mrs. Powers 11 years ago while she was single and had been in the trunk ever since. Mrs. Powers was held for questioning in connection with the slaying.

JAIL WIDOW 10 YEARS

PARIS (Reuters) — Dolores Bustamente, 51-year-old Spanish Gitane, was sentenced Friday to 10 years hard labor for killing her schoolmaster husband with a champagne bottle.

Frankford

FRANKFORD — Frankford Full Gospel congregation gathered on Thursday evening at the home of Mr. and Mrs. Harold Twigg, Marmora Street, Trenton, to honor them in a surprise farewell party.

The evening activities began with Mrs. Carl Andrews leading in community singing of choruses, and Misses Barbara Curry and Connie Elliott played their accordions. Mrs. Elliott conducted the contests. The Rev. G. Pierce, pastor, then called upon Mr. and Mrs. Twigg and Phyllis and spoke on behalf of the congregation, stating they will be greatly missed from church activities and in the district. Mr. Pierce presented Mr. and Mrs. Twigg with two lovely lamps and Phyllis with a gift. Phyllis also received a gift from her Sunday school classmates.

Refreshments were served, following grace by Rev. Pierce, and a time of fellowship was enjoyed.

FAREWELL PARTY

Mrs. Fenn, of Victoria Street, Frankford, left on Friday for a three months' holiday with her daughter in Saskatchewan and her two grandsons in Vancouver, British Columbia, and other friends out west.

Prior to her leaving her neighbors gathered together and surprised her with a party. A short program followed. Readings were given by Mrs. Plumtree, Mrs. Sinclair, Miss Phyllis Sine, and Mrs. Fred Charlesworth. Mrs. H. Terry conducted a contest.

On behalf of the group, Mrs. Sickle presented Mrs. Fenn with a few gifts from her friends. She responded graciously.

The ladies then served refreshments and a time of fellowship was enjoyed.

Miss Marilyn Spencer and Mrs. Bill McKay, of Toronto, spent the weekend with Mr. and Mrs. George Spencer.

Mrs. Norman Simmons spent Saturday evening with Mr. and Mrs. Fred Charlesworth.

Mr. George Montgomery and son, Dean, went to Toronto on Tuesday.

FIL. Lieut. K. Anderson returned from Turkey and Greece after flying one of the jets 33's, from Trenton RCAF station. He reports a safe and interesting trip. He spent Tuesday with his mother, Mrs. F. Charlesworth, and returned on Wednesday to his home in London.

Mrs. Mike Kaban and daughter, Linda, spent last week with Mr. and Mrs. Clarence Adams.

Miss Henrietta Wood has returned home from her overseas trip where she visited the World Fair in Brussels, Belgium.

The Rev. and Mrs. T. Riddall were Sunday dinner guests of Mr. and Mrs. Walter Morrow.

Several called on Mr. and Mrs. C. D. Powell on Thursday evening to call them on their 57th wedding anniversary.

Mr. and Mrs. Cecil Solmes and son, Cecil, of Penetang, and Mr. W. P. Solmes were Thursday dinner guests of Mrs. C. Patrick.

I was a bundle of nerves

My nerves were that bad the least little thing set me off. I was irritable, tense, easily depressed, and I slept badly. And as if that wasn't enough, I'd get indigestion.

Many people experience unpleasant feelings because their systems are disturbed by ingredients present in everyday beverages. While some people can drink tea, coffee, cocoa and some soft drinks without harm, others cannot.

Postum contains no tannin to interfere with digestion; no caffein, theophylline and theobromine which can cause nervousness, sleeplessness, irritability, palpitations, rapid pulse, followed by depression.

There is no need to endure any of these unpleasant feelings. Switch to Instant Postum which is guaranteed to contain no stimulants or drugs. Postum does not taste or act like ordinary beverages, but has a comforting flavor of its own. Make Postum easily, instantly, right in your cup. Just add freshly boiling water, stir and enjoy.

Try Postum for 30 days. When nerves are soothed, you sleep better, feel better, look better.

Get Instant Postum today. Saves you money. Costs less than 1¢ a cup. A product of General Foods, Limited.

Guide Would Like to See Sportsmen Work for Game

WINNIPEG (CP) — A veteran guide and big-game hunter in the Canadian Rockies says Canada should establish wilderness areas where no roads are allowed and sportsmen should work to get their game.

"They're too lazy now," says Andy Russell, rugged, 43-year-old rancher from Waterton Lakes, Alta., 78 miles southwest of Lethbridge.

He expressed the view in an interview here during a visit to address the Winnipeg Game and Fish Association.

Canada is a paradise right across the land, he said.

TAKEN FOR GRANTED

"The only trouble is, I don't think Canadians appreciate it as much as the United States sportsmen. We take it for granted."

Speaking about his adventures on big-game hunts, Russell said: "I've been a guide for more than 22 years. But you take more chances in Winnipeg traffic every day than I ever took in meeting a grizzly bear or moose."

Andy has had his share of close calls with both in the bush.

On one occasion he shot a 600-pound grizzly and the animal fell to the ground apparently dead.

"When I approached him he reared up and when I shot my last shot and killed him we were looking each other right in the eye."

On another occasion he was raiding a group of zoologists in the mountains when a grizzly blocked a narrow path.

"He looked as if he was going to charge us, but I talked him out of it."

Andy explained that he just kept talking to the bear and the animal listened. "But don't try talking to moose. You can't talk them out of anything."

BORN IN FOOTHILLS

Andy Russell was born in the Alberta foothills and has lived in the mountains all his life. His father, Harold, a retired rancher who now lives in Victoria, was the first boy born in Lethbridge, and Andy's grandfather settled in Alberta in 1882.

Last year Andy gave up his guiding and hunting business and turned to writing and photography. The switch was made without difficulty. He has already written several articles for sportsmen's magazines, made television appearances and given lectures in both Canada and the United States and produced several color films of wild life in their natural habitat. He now is making a photographic study of the elusive big horn sheep.

"They're so used to me, they consider me one of the boys," he said.

Andy is married and has five children. His family lives on a ranch 10 miles west of Waterton Lakes. His hobbies include shooting and fly-casting. He is an authority on rifles.

Thomasburg

THOMASBURY — About 200 Boy Scouts from Trenton area enjoyed a weekend camping on the site set aside by the Moira River Conservation Authority as Col. Roscoe Vanderwater Memorial Park, east of Thomasburg on the land known to local people as "The Flat Rock."

It is understood that Mr. E. E. Carter has had constructed a cottage on his property on the west side of the river and that Mr. Russell Woods has disposed of several lots to be used as cottage sites near what is locally known as the "Robinson's Cove," also on the west bank of the river.

The Conservation area is on the east side of the river and is reached by a road which is being improved, just across the bridge.

The west bank property is reached from a road allowance between the second and third concessions of Hungerford township and just opposite the turn on the county road leading to Moira.

This road, which has been open but very rough, has also been greatly improved by bulldozing out the larger rocks and the steep grade just west of the river.

Years ago this land was the scene of many Sunday school and family picnics and it is a pleasure for residents of this district to know that, at last, this spot of great natural beauty will be easily accessible to the general public.

Mr. and Mrs. George Dyson spent Monday last in Picton, the guests of Captain and Mrs. Ted Boldt and family.

Congratulations are extended to Mr. Ronald Adams, son of Mr. and Mrs. Clifford Adams, who recently graduated from the Ontario College of Art, Toronto University.

Mr. Guy Thompson, son of Mr. and Mrs. [illegible] Thompson, who has successfully completed his year at the Ontario Teachers' College, Peterborough, has accepted a position as principal of Glen Miller public school.

Mrs. Charles Mills of Harlowe, Ontario, is visiting her sister, Mrs. Ed. Thompson, at present.

Mr. and Mrs. H. E. Thompson, Miss Mary Hicks, Mrs. Charles Mills and Mrs. Ed. Thompson were recent guests of Mr. and Mrs. Claude H. Thompson and family at Claudor Villa, Presqu'ile Park, Brighton.

Mr. Ross Robinson, who was injured at Thomasburg Auto Parts recently is somewhat improved, but is still a patient in Belleville hospital.

AWESTRUCK IN PRESENCE OF PRINCESS

Visiting the Moorfields eye hospital in London, Princess Margaret is introduced to a patient in the children's ward. But the girl seems to be overcome with awe at getting this close to royalty.

4th Thurlow

4th THURLOW — Mr. Arnold Ritz had supper Sunday night at the Garrison home.

Mr. and Mrs. Arthur Treverton and family were Saturday evening callers of Mr. and Mrs. Grant Cole.

Mr. and Mrs. Harold Pound and boys were recent callers of Mr. and Mrs. Clem Treverton of Madoc.

Mr. Ken Roe, of Belleville, was Saturday evening supper guests of Mr. Roscoe Garrison.

Mrs. Bruce Hamilton, of Plainfield, is spending Tuesday with Mr. and Mrs. Lewis Cummings.

Mr. and Mrs. Clem Treverton and family, of Madoc, were Sunday supper guests of Mr. and Mrs. Ed Treverton and Mrs. S. S. Cooley.

Mr. Freg Garrison, of Montreal, Quebec, spent the weekend at his home.

Mr. and Mrs. Elgie Drinkwater, of Cannington, and Mrs. Annie Young, of Peterborough, spent Friday afternoon with Mr. and Mrs. Borden Forsyth.

Mr. Thomas Peacock attended the Bronson and Allore wedding at Stoco on Saturday.

Mr. Robert Kincaid, of Shannonville, is spending a couple of weeks with Mr. and Mrs. Lewis Cummings.

Mrs. S. S. Cooley and Mr. and Mrs. Clem Treverton were Sunday afternoon callers at the home of Mr. and Mrs. E. W. Cooley of Belleville.

Miss Mary Victor, of Belleville was a Sunday supper guest of Mr. and Mrs. Lewis Cummings.

Mrs. E. G. Wright, of Canniffton, is spending sometime with her son and family, Mr. and Mrs. Borden Forsyth.

Congratulations to the Rev. R. G. McCrea and Mrs. McCrea on the arrival of a new baby girl.

Mrs. Frank Walker, Belleville, spent Monday with Mrs. Douglas Tummon.

Mr. and Mrs. Gerald Tummon and family, were Saturday dinner guests of Mr. and Mrs. Douglas Tummon.

WORKER LOSING MONEY

NEW YORK (AP)—The Worker weekly communist party newspaper, says in its columns that it is in poor financial condition. The Daily Worker suspended publication several months ago because of lack of funds.

SAVED FROM FLAMING CAR

GALT (CP) — John C. Halliday of Byron, near London, was pulled unconscious Friday from a flaming car on an isolated Waterloo Township road. Bruce MacDonald of Preston and Robert Rhodes of Galt, Bell Telephone Company employees, pulled Halliday from the car.

Six Harassed Arab Nations May Use Lebanon Complaint To Force Nasser Showdown

BENGAZI, Libya (AP) — Six harassed Arab countries are considering Le b a n on's complaint against the United Arab Republic as a possible weapon to force President Nasser to tone down the UAR propaganda campaign throughout the Arab world.

But not all of them are sure they want to take on Nasser.

This arose as Lebanon went before the Arab League Sunday to present her charges that the UAR has been stirring up anti-government riots that have killed nearly 300 persons in the small eastern Mediterranean country. Sporadic shooting was still reported there today.

"Lebanon happens to be the most recent victim but, we all know or in turn may come," one delegate told a reporter. "We may as well lay down the law to the Egyptians now and demand they call off this kind of thing." Lebanon could force some kind of showdown by insisting on an open debate in the United Nations Security Council.

In addition to the Lebanese demands here for a halt in UAR propaganda, the Sudan is also reported favoring a tough line against Nasser's press and radio.

But Libya, Iraq, Jordan and Saudi Arabia are believed to be afraid of antagonizing Nasser by forcing him into a showdown on his propaganda against them.

Informants said the Lebanese delegate presented evidence at Sunday's meeting to show that insurgents in Lebanon got arms from the UAR. Nasser's representatives denied the charge.

New Conservatives Taking Course in House Procedure

OTTAWA (CP) — It's schooltime in Ottawa for almost half the P r o g r e s s Conservative members of Parliament.

A series of parliamentary instruction periods has been developed for such new MPs as one reported to have appeared breathless before the representatives of his local newspaper and said:

"I'm here. I'm elected. Where do I go? What do I do?"

There are 105 Conservatives among the 105 new Commons members. They necessarily have much to learn, both inside and outside the House.

Some sample problems: When do you bow to the Speaker? What does one include in a maiden speech and what matter—there are some pointers about keeping in touch with one's constituents back home?

The schoolmaster charged with helping provide the answers is 43-year-old John B. Hamilton of Toronto, MP for York West, who first entered the Commons in 1954. The Conservatives' assistant House leader, he says the school probably is unique in Canadian custom.

He started his short courses for new Conservative MPs during the second Diefenbaker Parliament and was asked to begin again after the March 31 election which sent 208 Conservatives to the Commons, an all-party record.

Coupled with the 97 new members are others with only one parliamentary session under their belts. Only 81 of the 265 members elected March 31 had sat in the House before the 1957 election.3

The first so-called junior caucus was convened shortly after all hands arrived at Ottawa. The new members fired questions at a panel of six veteran colleagues.

They sent on from there at another meeting to the facts of political life—once-mending in the ridings back home and the available avenues of assistance to constituents.

"You keep track of births, deaths and marriages and that sort of thing," Mr. Hamilton said in an interview.

"Jest a Second"

"Funny that the ref. hasn't told us to break."

The back-home voter is by no means ignored when advice is laid down about speeches.

"We have suggested that members may want to thank certain people in the House and out of it for their election," says Mr. Hamilton.

Most new members have.

Dog Attacks Teenaged Girl

TORONTO (CP) — A 16 - year - old girl screamed and ran as she was attacked and bitten about the legs by a German shepherd dog on a suburban shopping centre today.

A witness said the dog was "frothing at the mouth". A nearby resident said every time the girl tried to move the dog leaped at her.

Scarborough Township canine control officers took the dog to the township pound for a rabies check.

A walking advertisement for the British Columbia centennial is Pat Sullivan, age 17. He left Montreal on June 2 to hoist it to his home in Vancouver, equipped with this billboard, 40 pairs of socks, nine pairs of shoes, numerous bottles of liniment, a gun and a sleeping bag. If he completes the 4,300-mile walkathon he will receive a $400 reward from the B.C. Centennial committee. He expects to reach B.C. by mid-October, averaging 30 miles a day.

JET TAKES OFF WITHOUT A RUNWAY

A U.S. air force F-100D completes the first runway. The zero-length take-off is successful launching in Los Angeles, Calif., of compliished with the aid of a 130,000 pound a supersonic jet plane without benefit of a thrust rocket booster at plane's rear.

Reich, Canada Share Common Heritage, Claim

OTTAWA, (CP) — Theodor Heuss, scholarly 74-year-old president of West Germany, told parliament Canada as a country that "offers immense opportunities for all those who face the future unafraid, and who love freedom."

"This country," he told the Joint Houses of Parliament in an address delivered in the Commons, "will help humanity in its efforts to give prosperity to underprivileged peoples and nations among the nations."

Speaking in German, the president said Canada and Germany share a common spiritual heritage and a great deal in common, both intellectually and culturally. His words subsequently were translated by Heinz Weber, Dr. Heuss's personal interpreter.

The statements were included in a text of the address, released to the press before delivery.

SPLIT BY TWO WARS

"Throughout the centuries preceding our own, which has brought such tragedy to the people of the world, relations between Germany, whatever her form of government, and Canada were of a peaceful nature," he said today.

"Then followed the two World Wars, the first brought about by political misunderstanding and ineptitude, the second by evil and arrogant worship of power-ed.

"Out of these many battles there emerged mutual respect for soldierly gallantry, and then the understanding that it would be better to live with one another, yes! for one another."

Belgian Vote Brings Stalemate Between Groups

BRUSSELS Reuters — Belgium was faced with a political stalemate as a result of official results from Sunday's general election failed to give either major political group a majority in parliament.

A loss of six seats left the out-going Socialist-Liberal coalition with 105 seats in the 212-seat lower house. The right-wing Social Christian Catholic party won 104 seats, the communists two and the Flemish People's party one.

In the Senate, the Liberal-Socialist coalition losts its absolute majority over the 106 seats filled directly by Sunday's balloting.

THREE-WAY SYSTEM

Of the remaining 69 senators, 46 are elected by the provincial councils and 23 are appointed by the Senate as a whole.

The directly elected senators were divided as follows: Social Christian 54, Socialist-Liberal coalition 52, Communist one.

Political experts said the Catholics are sure to obtain an absolute majority in the Senate. The provincial councils will appoint senators from their own number next week and are expected to select about 25 Social Christians.

These senators then would vote with the elected senators to bring another 12 Catholics into the upper house, making the Social Christian representation 91-three more than an absolute majority.

Political observers say a three-party coalition of the Social Christians, Socialists and Liberals could be the outcome of the election stalemate.

Minister Criticizes Motion Of United Church on Alcohol

TORONTO (CP) — A United Church of Canada minister says the Toronto conference's resolution on alcohol is a weak that brewes and distillers will think it means "go ahead and debauch the public."

Rev. J. F. G. Morris of Uno Park, Ont., made the criticism Saturday.

The conference expressed its concern over growing numbers of alcoholics in Ontario and advocated greater compassion toward them and their families.

It then resolved to ask the board of evangelism and social service to set up an institute to train ministers and social workers in counselling alcoholics and their families and to urge all presbyteries and congregations to prepare briefs on the problem to help general council in its study.

Said Mr. Morris:

"When the brewers and distillers see them they'll conclude they can go ahead and debauch the public and the United Church doesn't care. What's wrong with us? Are we lacking courage?"

G. S. Fennel, a layman from Toronto's Wesley United Church, forecast even more frightful prospects for the human race than nuclear destruction.

Mr. Fennel said the problem is one of universal peace, not unclear dangers.

"If we only ask our governments to abolish nuclear weapons they will think of something else."

Mr. Fennel spoke on a resolution put forward by Mrs. P. Bastow, strong of Swastika, which the conference unanimously adopted.

The resolution called for a prayer vigil in all United Churches of Toronto conference between noon and midnight Nov. 11. It proposed that churches of other denominations be invited.

JILTED SUITOR SHOOTS GIRL, SUICIDES

A pool of blood marks the spot where pretty stenographer Marion Agy Spencer, 19, was shot to death by a rejected suitor as she left her office on the 19th floor of a downtown Toronto bank building. Her would-be boy friend, John David Hill, 22, killed her instantly with four bullets, then fired two shots into his own head. He died three hours after the tragedy.

John David Hill, right, waited for an hour outside Miss Spencer's office, holding a brown paper bag containing the .22 automatic. When Miss Spencer, left, came out of the office with a girl friend Hill said something to her, to which she replied "No, no." Then he shot. Police believe Hill, a welder, had dated Miss Spencer about four times. She had a steady boy friend and had refused to po out with Hill again.

Accidents Take Thirty Lives During Weekend

By THE CANADIAN PRESS

Accidents took 30 lives throughout Canada this weekend.

Eighteen persons were killed on the roads, six were drowned, two were hit by trains, one suffocated in a bed, one crushed by a tractor and one killed in a stock car crash.

A Canadian Press survey from 6 p.m. local times Friday to midnight Sunday showed these provincial traffic deaths (in brackets):

Quebec 13 (9), Ontario 9 (5), Nova Scotia 2 (2), Saskatchewan 2 (1), Alberta 2 (1), British Columbia 2.

ONTARIO DEATHS

Thomas Peake was killed in a car crash at Fruitland Friday night.

Ronald Myers, 25, and Peter Bennett of Toronto, were victims of a car crash near North Bay Friday night.

At Port Arthur, Susan Lokki, 2, was drowned in the backyard of her home Friday night when she fell into a barrel containing water a foot of water. Her mother found the girl upside down in the barrel.

Tuffield Joseph Cartier, 60, was found dead Sunday on a farmer's field in his home at Wallaceburg, apparently a victim of natural causes. His mother, Mrs. Louise Cartier, 81, told police she found her son's body lying on a cornfield near their home. A small gas heater that had been used for heat was still lit.

BOY BURNED

At Lindsay, Stephen Wayne Alton, 2, was burned to death in his parents' home in nearby Minden Township, despite the efforts of firemen who fought the blaze for 1½ hours. Firemen said they believe the boy was playing with matches in bed.

At Maxville, Mrs. Ernest Bolsdaire, 40, of Chrysler, was killed Saturday night when the car in which she was a passenger went out of control and crashed into a tree. Her husband, Ernest, 45, driver of the car, is in hospital at Cornwall, 20 miles south of here.

Herbert Howard, 30-year - old London stock car racer, died in the wreckage of his flaming car at the Glendale Raceway near Sarnia Saturday night. He had just overtaken the leader in the eight-car rare when his engine exploded. He crashed to the side of the track and was hit by another car.

Howard had won races in Galt, Seaforth, Clinton, Toronto, St. Thomas and Lindsay.

At Grand Bend, Gardner Horvath, 72, of Grand Bend, was killed Saturday when he crossed the Highway 21. He was hit by a car driven by Robert Passfield, of Mount Clemens, Mich.

READY FOR IT

Army ready for the civilian jet age," Pyle said, "but we're not going to solve this question of collisions overnight. It isn't that simple."

On the subject of poor cockpit visibility—the major complaint of many airline pilots — Pyle explained:

"Comparatively small as it is, the windshield of an airliner weighs about 800 pounds. With an all-glass nose for better visibility, the plane would be so heavy it would be hard to get it off the ground."

Pyle said the windshield glass must be thick for two reasons: (1) To be shatterproof against the impact of birds in flight, and (2) to withstand the terrific pressure of a pressurized cabin on high-altitude flights.

Commercial airline pilots say that greater cockpit visibility isn't the final answer and that as planes fly faster and faster the solution will have to be some kind of automatic anti-collision device.

TOO MUCH SPEED

"Even if the pilot is sitting in a glass bubble, the speed of jets is so fast that he wouldn't be able to see another plane coming head-on in time to take evasive action," said Thomas A. Baghdigian, air safety director of the Air Line Pilots Association.

What about radar?

"The radar we have in airliners today is only good for spotting cloud formations so that pilots can steer it by or avoid storms," Pyle said. "It doesn't have the identifying or 'seeing' approaching aircraft."

Pyle said there is a widespread misunderstanding about plans for air force jet pilots feeling their oats and stunting wildly through so-called protected corridors reserved for passenger airliners.

DEFENDS ACTIONS

Many, he said, they are executing required training maneouvers or perhaps "scrambling" to identify unknown planes flying over sensitive military areas.

And since they must operate under visual flight rules (VFR) in clear weather, the only restriction on them is the same as for all other VFR traffic: They must be able to see and be seen with five-mile visibility as a safeguard against collision.

Officials of the Air Line Pilots Association contend that the old "see and be seen" rule is obsolete as planes fly ever faster. The only alternative, they say, is to put all aircraft under rigidly controlled instrument flying rules (IFR) restrictions, regardless of the weather.

Such an order would require all pilots to file a detailed flight plan with traffic-control authorities and then follow a specific flight course and altitude, with time intervals between planes on the same route.

EXPENSIVE PLAN

On the other side of the argument, private plane owners say most of them simply cannot afford the expensive electronic equipment needed for ground-controlled IFR flying.

General aviation, which includes private business and pleasure aircraft, commands a powerful voice. Last year its 64,000 planes flew 10,000,000 hours compared with 3,000,000 hours by the 2,000 airliners.

Pyle said his agency is training 5,000 experts a year to help run such traffic-control instruments as $400,000 radar units which can "see" a plane flying at more than 80,000 feet 170 miles away....

The agency, now embarked on a five-year $1,000,000,000 -program, plans to spend $471,000,000 for hardware and operations next year. It has 25,000 employees and has taken on 7,000 new workers, mostly traffic controllers, in the last three years.

Russian Fishing Vessels Keep Constant Station

WASHINGTON (AP) — A half-dozen Russian fishing vessels keep a constant station about 100 miles off the east coast of Canada, near an area marked off with buoys by Canadian fishing flags.

A highly-placed United States official pointed out in discussing the situation with reporters that the presence of the fishing ships and buoys does not in itself constitute any violation of law.

The location, in the general region of the Grand Banks is in international waters and the area frequented by fishing fleets of a number of nations.

U.S. naval and air officers look upon the Soviet operation as having military significance.

Regardless of season and of whether fish are present or not, the number of Soviet vessels never seems to vary much. When one ship departs another takes its place.

PHOTO REVEALS NOTHING

U.S. officials have a photograph made of one of the buoys by a Canadian helicopter. A copy was turned over to U.S. officials by Canada. The buoy appears to be a conventional marker, without visible evidence of electronic gear to register ship or aircraft movements.

There seemed a possibility the Russians might be using the buoys to place their vessels in proper location—or perhaps as range points for observation of U.S. and Canadian ship and aircraft movements.

Among other things, planes of the U.S. Navy's Atlantic barrier aircraft warning system fly over the general area in leaving and returning to the U.S. operated air station at Argentia, Newfoundland.

Eisenhower Orders 5-Point Program to Keep Military Jets Away From Civilian Airways

WASHINGTON (AP) — Two weeks ago the Civil Aeronautics Board told Congress a 30-page report, bound in soothing green covers, entitled The Advance in Air Safety.

Few reports have been so ill-timed.

Three days later, in sunny skies 8,000 feet above the picturesque Potomac Valley in Maryland, a military jet collided with a Chicago-to-Baltimore Capital Airlines passenger plane and sent both craft hurtling to the earth in flames.

The toll: 12 killed. The jet pilot, blown clear in his automatic ejection seat, was the only survivor.

Tragically underscoring the dangers in congested airways, it was the third major air collision of the year and the 18th in the last decade with a total of 311 fatalities. Significantly, military jets have figured in three of the last four aerial smashups.

IKE TAKES ACTION

Shocked by the disaster, President Eisenhower promptly ordered a five-point program designed to keep militant jets away from civilian airways. The military services voluntarily agreed to reduce the number of jet flights made below 30,000 feet. Meanwhile, Senate and House committees launched investigations into the whole subject of air safety, with chairman Price Preston of the House approving subcommittee maneuvering grimly:

"Flying today is like playing Russian roulette."

Preston's gloomy contention rests on the Civil Aeronautics Board's own statement that 97% of "solid" near misses — some within less than 100 feet — were reported by pilots in 1957, or an average of more than 2½ a day. Experts say many pilots, unwilling to criticize, never file complaints of near misses.

OTHER VIEW

Counterbalancing the recent spate of tragedies, however, the record is full of reassuring statistics.

"Flying is safe," said the report to Congress of the Civic Aeronautics Board. "It is becoming safer.

"Every day 300,000 or more persons fly safely through the air space over the United States. For the six years in a row the fatality rate (on scheduled airlines) has been less than one per 100 million passenger miles.

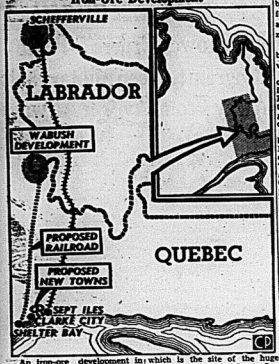
"Put another way, this is a safety rate of more than 99.9894 per cent."

Nevertheless the Maryland crash, coming almost on the threshold of the commercial jet age, set many air travelers to asking questions. A man who didn't like the answers is James T. Pyle, 44, head of the Civil Aeronautic Administration.

Fireman Alex Kirkham holds puppies that were rescued when fire swept through a Hamilton pet store. A dozen puppies were rescued from the smoke-filled establishment but 20 canaries died. (CP Photo).

SAVES PUPPIES

Iron-Ore Development



An iron-ore development in northeastern Quebec involving expenditure of $350,000,000 and the establishment of two towns and ore-handling facilities has been announced by Premier Duplessis.

The premier said the project was outlined to him in an interview with H. G. Hilton, chairman of the Steel Company of Canada, and John Sherwin, president of Wabush Iron Company Limited.

This map shows location of the Wabush ore body astride the Labrador-Quebec border, 120 miles south of Schefferville, which is the site of the huge development of the Iron Ore Company of Canada.

Wabush ore would be brought to the north shore of the St. Lawrence either by the present Iron Ore Company railroad which terminates at Sept Iles or a new line proposed by the Quebec Cartier Mining Company which also is planning a development.

Location of the proposed town sites with ore-concentrating plant, power plant and shipping facilities will be near either Clarke City or Sept Iles, about 300 miles northeast of Quebec City. (CP Newsmap).

Read

READ — Mr. and Mrs. Tom Hanley of Marmora and Mr. Jim Hanley of Bancroft spent Sunday at the home of their parents, Mr. and Mrs. J. V. Hanley.

Rev. Gerald Byrne, Mr. and Mrs. J. J. Byrne and Larry spent Saturday evening with Mr. and Mrs. Joe Walsh of Marysville.

Mr. and Mrs. Edmund Daly and Mr. and Mrs. Joseph Daly spent Sunday evening with Mr. and Mrs. Walsh and family of Metcalfe.

Mr. and Mrs. Joe Walsh attended the funeral of Mr. Joe Feeney in Tweed on Monday.

A successful bingo was held in the parish hall

Grades 8 and 10 St. Mary's school wrote their catechetical examinations on Sunday afternoon.

Mr. Richard Walsh who has been attending university in Ottawa has returned home for the summer.

Birthday greetings are extended to Jim Kehoe who celebrated his birthday on Saturday.

NEW RAILWAY BRIDGE

CLEVELAND, Ohio (AP)—The Chesapeake and Ohio Railway announced Friday construction of a new $750,000 bridge across the Sydenham River at Wallaceburg, Ont., has begun. The railway said the 200-foot swing span will provide a clear navigable opening of 80 feet, compared with 46 feet at present.

Stirling

STIRLING — Mrs. Frank Osborne, Campbellford, spent a few days with her uncle and aunt, Mr. and Mrs. James Menzies, Mill Street.

Mrs. Carleton Wright celebrated her 77th birthday anniversary on Saturday, May 24th. Stirling theatre was filled to capacity on Wednesday evening for the "Dance Recital". Miss Barbara Woodcock is the teacher and the young people gave a good exhibition of dancing.

Mrs. Ed Heasman will be the hostess for the June meeting of River Valley Women's Institute on June 5th at 2 p.m. It will be "Grandmothers' Day" The program is in charge of Mrs. Ernest Carr and Mrs. Jack Bush. A report of the Guelph conference will be given by Mrs. Percy MacMullen.

Mr. Dale Geen is holidaying with his brother, Jack, in Vancouver, B.C.

Thirty-one members of Stirling Horticultural Society enjoyed a delightful bus trip to Ottawa on Saturday, May 24. There were 21 bus loads from the district. The group went with a guide through the grounds of Governor General Massey; they viewed the lovely tulips in the flowers area and at the parliament buildings. It was a well-planned trip and those who strolled themselves of the opportunity were loud in their praise of the scenic views.

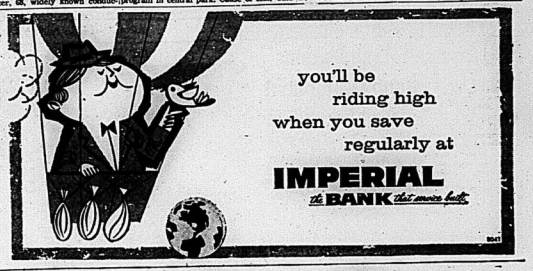
The group left Stirling by chartered bus at seven a.m. and arrived home about 11 p.m.

Mrs. Doug Patterson and baby Melinda spent a few days in Toronto with her parents, Mr. and Mrs. J. R. Evans.

Mrs. Walter Elliott spent some time last week at London, Ontario, a guest of Mr. and Mrs. Alex Green. She also visited Mrs. Arnold Crawford at Dutton. The London district of the Eastern Star Order, held a special meeting in honor of Audrey while she was in that locality.

DIES WHILE CONDUCTING

NEW YORK (AP)—Maximilian Pilzer, 68, widely known conductor, collapsed and died Friday night while leading an orchestral program in central park. Cause of death was not immediately known, but a friend of the musician said he had had a recent heart attack. He had been active as a conductor for more than 30 years.



Custom-Blending Now in Canada!

New thriftier way to buy gasoline

SIX GRADES OF BLUE SUNOCO

FROM THIS ONE MIRACLE PUMP!

Here's what it means: up to now, 3 out of every 5 car owners have been buying the wrong grade of gasoline with either too much or too little octane. With only 2 grades to choose from, motorists whose engines won't perform satisfactorily on "regular" grade gasoline have no choice but to buy a much higher quality "premium" grade costing up to 4¢ a gallon more.

In many cases, engines don't need that much additional octane for top knock-free performance. A thriftier premium grade with "in-between" octane would give excellent results and save money on every tankful. In certain other cases, even higher octane is required by extra high compression engines.

Sunoco Custom Blending solves all of these problems. Six blends of gasoline, each priced according to octane, meet the exact needs of every car on the road at the lowest possible cost!

These blends start with familiar Blue Sunoco 200—Canada's highest octane available at regular gas price, which meets the needs of the majority of cars. The five other grades—ranging upward in octane quality—are Blue Sunoco 210, 220, 230, 240 and 260. Blue Sunoco 260 has the highest octane of any gasoline sold anywhere at any price! Each grade between 200 and 260 ideally suits the needs of certain cars.

Cars of different types, age and compression ratio vary widely in octane requirements today. Even cars of the same make, year and model can vary as much as 8 to 10 octane points in what they need to perform best. You can appreciate, therefore, the advantage of being able to choose a custom blended gasoline at your Blue Sunoco station.

TEAR OUT THIS CHART...IT'S YOUR BLEND SELECTOR GUIDE TO THE RIGHT GASOLINE FOR YOUR CAR

The higher the number, the higher the octane • The lower the number, the lower the price.

Special spark ears may need Blue Sunoco 240 or even 260 • Foreign cars and pre-'54 cars use Blue Sunoco 200.

Baseball Is Hottest Issue In California Elections

LOS ANGELES (AP) — The hottest issue here in Tuesday's California primary election is proposition B. That's B as in baseball.

The issue is:

Shall the Dodgers get 300 wooded acres of city-owned land in Chavez Ravine in which to build a baseball stadium?

Proponents say the site, near the confluence of the metropolis' freeways and about a mile from the city hall, is ideal.

"Giveaway!" cry opponents in return. Oh! city would get Wrigley Field and the 10-acre site on which the former Pacific Coast League park lies.

Feelings are high on both sides. A noisy crowd of several thousand welcomed the Dodgers home Sunday night from a 3½-week road trip as though the National League cellar dwellers were world champions. Fans carried placards marked Vote for Baseball. Traffic jammed airport streets for a half hour.

Movie, sports, night club and TV personalities appeared before television cameras and urged a yes vote. Comedian Al Jr. Brown was master of ceremonies. Actor Ronald Reagan called opposing arguments dishonest.

SUDDENLY IT'S VALUABLE

"Chavez Ravine has been sitting there in the heart of Los Angeles for years and nothing was done with it," he said. "Now that a baseball team is to have it, it's worth a lot of money, we are told.

Star of the show was cigar-puffing Dodger president Walter O'Malley. Answering questions, he said:

The National League could require the Dodgers to move from Los Angeles if proposition ." fails, "but we like it here too much."

Chavez Ravine now provides only $7,500 annual tax revenue from scattered landowners but the Dodgers expect to pay about $350,000 in taxes a year, O'Malley said.

Others on the show included Debbie Reynolds, Dean Martin, Lavaine Day, Tommy Thomas, George Burns, Jack Benny, Jerry Lewis, Ray Bolger and Jeff Chandler.

City council voted 10-4 for the Chavez Ravine contract last fall. But a group led by councilman John Holland got enough signatures on petitions to force Tuesday's referendum.

Cobourg Defeats Frankford 6-2 For Second Spot

The Cobourg Merchants snapped a tie for second place in the Belleville and District softball league on Saturday night by defeating the Frankford Merchants 6-2 under the lights at Cobourg.

The victory gave Cobourg sole possession of second place with three wins and one loss while Frankford dropped to third with a two and two record.

Cobourg opened the scoring with a single run in the first frame but the visiting Merchants came back with a pair in the second. The homesters won the game in the third inning with a four-run rally and wound up the scoring with another run in the fifth.

Ron "Sleepy" Reeve hurled the victory and was never in trouble after Frankford's two-run blast in the second. He scattered six hits while striking out nine and walking a pair.

Bob Hunter tossed his fourth consecutive complete game for Frankford, also was touched for six safeties, but four Frankford errors against Cobourg's pair did little to help Hunter's cause.

Shortstop Dick Turpin sparked the Cobourg attack with a pair of base knocks, Jason Field topped Frankford batters with two hits, one of them a double.

One game is slated for tonight with the loop's two top teams tangling at Cobourg as Merchants visit the undefeated Point Anne Cementmen at Point Anne at 7.00 p.m. The Cementmen inflicted the lone loss on Cobourg's record to date, a 9-4 setback.

Harness Racing

MONTREAL (CP) — Great Adios, driven by Jules Gigure, romped home in 2:11 1-5 Sunday in the mile to win the featured $3,000 invitation pace at Blue Bonnets Raceway.

Champ Volo was second and Chief Maid was third.

Ontario horses which won included Hollycrest Richard from Orono, Hollycrest Richard, driven by MacMcRae, captured an $1,200 C pace stepping the mile in 2:12 1-5.

Wonder Express from Brampton, with Harold McKinley in the silky took first in a $600 D trot. Time for the mile was 2:16 2-5.

Big Four Loop Winds Up 'Secret' Confab

MONTREAL (CP) — The Big Four Football League wind up its semi-annual meeting Sunday, making known what transpired at the closed sessions with almost the same secretiveness that surrounds a team's signals. The meetings began Saturday.

President Ted Workman said representatives of the four clubs — Montreal, Ottawa, Toronto and Hamilton discussed the agenda for the meeting of the Canadian Football League in Winnipeg, scheduled for June 21 and 22. The CFU combines the Big Four and Western Interprovincial Football Union.

Unofficial reports said the question of a television contract came up for discussion. It was reported that, with the present contract having expired at the end of last season, the same TV sponsors would be given the opportunity of matching any other bids.

There was also speculation that an interlocking schedule between

Satin Not Like Silky, Finishes Last

INGLEWOOD, Calif. (AP) Satin Sullivan starts slow from the gate just like his thoroughbred brother, Silky Sullivan.

The comparison ends there. Satin, unlike Silky, who usually finishes a race like an express train, broke from the gate last in a race Saturday at Hollywood Park—and finished last in the nine-horse field.

The Big Four and WIFU—development that has been forecast for 1959 at the earliest — was given consideration.

Workman said only that the business was pretty much routine. He said also that there likely will be a meeting in Toronto next weekend with himself and Jake Gaudaur of Hamilton, representing the Big Four, in talks with CFL commissioner Sid Halter of Winnipeg and vice-chairman Don MacPherson of Regina.

Eighteen Nags To Run in Plate Sections

TORONTO (CP) — Eighteen horses will run in the two divisions of the Queen's Plate Trials when the 36-day summer meeting opens at New Woodbine today. The Canadian-bred three-year-olds will run one mile and one-sixteenth in their final test for next Saturday's 83rd annual renewal of the Queen's Plate.

Foxy Phil and Caledon Beau were entered in the second division but are certain to be scratched since they ran Saturday at Old Woodbine. Foxy Phil won Saturday's $7,500 Marine Stakes while Caledon Beau finished fourth in the same race.

Each division of the trial will carry a purse of $5,000. Saturday's running of the Queen's Plate, North America's oldest stakes race, will have a gross value of approximately $40,000.

The 10 entries in the first division of the trial are: Eskimo Flyer, Dr. Em Jay, Money's Worth, Staffold, Wise Apache, Bossator, Tamarind and Wise Decision.

The eight entries in the second division are: Epic Lad, Agrayable, Johnny Hill, Cheyenne Maid, Bull Pine, Bright Page and Happy Harry.

The notable absentee is the unbeaten filly, Stole the Ring, favorite in the Queen's Plate. Stole the Ring, owned by Miss Blanche Armstrong, won't start until the plate when she will be ridden by the veteran Johnny Longden.

TAKES SINGLES TITLE

PARIS (AP) — Mervyn Rose of Australia won the men's single championship in the French international tennis tournament Saturday by crushing Orlando Atala of Chile 6-3, 6-4, 6-0. On Sunday, Australia's Ashley Cooper and Neale Fraser won the doubles crown defeating Bob Howe of Australia and Ike Segal of South Africa 2-6, 8-6, 6-3, 7-5.

Jean Rochon placed first to win the title of Dentistine and Rehabilitation Trophy. Pierre Brosseau placed second to give the Canadian entry a sweep of the leading spot.

Harness Racing

MONTREAL (CP) — Great Adios, driven by Jules Gigure, romped home in 2:11 1-5 Sunday in the mile to win the featured $3,000 invitation pace at Blue Bonnets Raceway.

Champ Volo was second and Chief Maid was third.

Ontario horses which won included Hollycrest Richard from Orono, Hollycrest Richard, driven by MacMcRae, captured an $1,200 C pace stepping the mile in 2:12 1-5.

Wonder Express from Brampton, with Harold McKinley in the silky took first in a $600 D trot. Time for the mile was 2:16 2-5.

'Bums' Rise From Ashcan; Yankees' Turley Burning Up American Loop

Sport Slices

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, *Sports Editor*

Up from a ten count with Ole Man Hospital, the biggest surprise these reportorial optics received upon glancing over the sports pages of the past two weeks or so, was the announcement that Wally Brabin, Wren Blair's Man Friday for nigh on ten years, has been named manager of the Kingston CKLC's senior "A" hockey club. Of less shock was the report that Bus Gagnon, former playing coach of the Whitby Dunlops would take over a similar capacity with the Kingston club.

Wally Brabin is a personal friend of this department—and we are proud to call Wally just that. For many moons the little fella sat in the press box here, pencil in hand, sometimes tongue in cheek, with never an unkind word remark. In fact Wally was a great admirer of the Belleville clubs down through the years and one of his last remarks made to this department prior to going to Europe with the Dunnies this year was "I hope you fellas follow in our footsteps. Go ahead and take it all."

And there you have a mere thumbnail picture in Canada than Wally when he learned the McFarlands had won the Allan Cup and later picked to represent Canada overseas next year.

But Wally Brabin, nice guy, and all that, a printer of fellows who would do anything for a friend and slightly less for an enemy does not, somehow, fit into this corner's conception of a hockey club business manager. Mayhap Wally has characteristics of which we know nothing. Mild mannered, quiet to the point of modesty, Wally somehow does not measure up to our standards of a hockey club executive who must be able to deal with temperamental players and whatnot, besides other headaches that are usually a managerial lesser.

However, whatever Wally has secreted under his headgear as far as managing a hockey club is concerned, he learned it from a good teacher, Wren Blair who scarcely stepped out of the kitchen unless Wally was breathing down his neck, taught the little guy a lot of the answers. And Wally, apparently, has been an apt pupil. We do not know what experience he has outside of his connections with the Dunlops, but apparently they have satisfied the Kingston club, which is leaving no stone unturned to come up with a strong contender for group honors next season.

Whatever Wally has on the managerial ball, you can bet your last shillalagh, he'll give it all he has got. There is not a more intensely loyal man to a club in senior "A" hockey than Wally Brabin, and if managerial ability can win pennants, and Wally has what it takes, then Kingston is almost as good as in.

To get back to the playing coach rumors, if true and Bus Gagnon takes over the Kingston assignment, the Rodden-ville crew may prove tough babies to beat, providing the brass goes along with the manner of coach and obtains certain personnel. There have been many rumors about Kingston's selection of a playing coach for next semester, but the Gagnon deal appears to be "it". In a season the big winger is through with the Dunlops. As a matter of fact that has been no secret for some time. Even before the Dunnies went overseas.

Trouble first brewed between Blair and Gagnon during the Allister-Whitby series of two seasons ago when the dynamic little mentor relieved Gagnon of his coaching duties and placed him on a strictly playing diet. Blair took over the coaching duties and sat on the bench until the Allan Cup was safe in Whitby. Even last season trouble broke out between the pair and at one time Gagnon was all ready to come to Belleville.

However that is history now, water under the bridge. The fact remains there is a lot of hockey, stickwork, and savvy left in Gagnon, and he could be the answer to the Kingstonian prayers. He is good for a number of goals and what he lacks in legs he makes up for between the ears. Kingston made no mistake in getting Gagnon, if such is the case. The big Frenchy, teaming up with Wally Brabin should make a formidable front pair for the Reddenfiers should Wally come up with some of the characteristics of his former buddy ,pal, and boss, Wren Blair.

* * *

The Belleville branch of the Frank Hatashito Judo Club came up with an outstanding demonstration of the rapidly-becoming-popular sport on Saturday night at the Y. Frank himself was here and presented medals to deserving winners. It was the best exhibition the city branch has given to date and the boys are deserving of accolades. This department extends its grateful appreciation of a handsome silver medal presented by Frank to press and radio in recognition of services. It is so nice to be remembered — the right way.

Rookie Tosses 1-0 Shutout As Giants Hop Back to Top; Big Jim Five-Hits Red Sox

By THE ASSOCIATED PRESS

Maybe Walter O'Malley should let Walter Alston do his Chaves Ravine electioneering. Whatever Alston told the Dodgers behind closed doors the other day must have been a pep talk in the Knute Rockne tradition.

The Dodgers reacted Saturday, after a double defeat Friday, and bombed the Chicago Cubs. Then came Sunday and a two-hit 1-0 shutout by Stan Williams, a 21-year-old rookie.

Although the Dodgers still are buried in the National League cellar, 10 games back, with the big election coming up "nearly" at least they are showing signs of life. Williams probably won more "yes" votes for the Chavez deal than all the campaign harangues from Warren Giles' office.

Williams had pitched only three innings until Alston gave him the call Sunday.

Working in 48-degree weather and a stiff 20-mile wind, Williams allowed only two singles—one for Dick Sisler in the first and one by loser Dick Drott in the third.

GIANTS BACK ON TOP

While the Dodgers were trying to win games and influence voters, San Francisco's Giants climbed back into first place by snapping the Cards four-game winning streak, 7-3. After dropping three straight, the Giants packed up Johnny Antonelli with an 11-hit attack.

Bob Friend, Pittsburgh and the rain combined to drop Milwaukee into second place. Friend held the Braves to five hits while the Pirates built up a 5-1 edge. Rain stopped the game three times and finally forced the umpires to call it off after seven innings. It was Friend's eighth victory.

Cincinnati Bob Purkey won six starts, 5-1 over Philadelphia in the first game. The two clubs struggled to an 11-11 tie in the second game finally stopped by the Sunday curfew after 9½ innings. Philadelphia fired a run in the 10th into the records as a suspended game to be completed later.

Williams, the rookie pitcher, now hope, was with the club in spring training this year. He was sent up to St. Paul of the American Association where he was the strikeout king with a 19-7 won-lost record last year.

LOSES HIS SIXTH

Ray Jablonski was the leading hitter with two hits and three runs batted in for the Giants, who topped Sam Jones with his sixth defeat. Jones struck out seven in six innings but walked five.

Pittsburgh took care of Milwaukee in the first inning with three off Gene Conley on a walk, singles by Dick Groat and Ted Kluszewski and Frank Thomas' triple.

The second game at Philadelphia was a wild affair after a tame opener. Eleven pitchers were used as the Phils overcame a 10-3 Cincinnati lead. Cincinnati was batting in the ninth when curfew rung.

Seven pitchers and four catchers saw action in Chicago Saturday as the Dodgers bombed the Cubs 8-4. It took 13 innings to do it, but the Cardinals came through with a 10-9 victory over the Giants while the visiting Milwaukee Braves were taking Pittsburgh 8-3 and Cincinnati was dropping a close one to Philadelphia, 2-1.

WOMEN'S CHAMP

TORONTO (CP) — Rita Weegar, a 210-average bowler who was persuaded to enter the Ontario women's five-pin bowling championship by alley owner John Martin, Saturday won $250 first prize with a 1,385 five-game total. Miss Weegar of Toronto rolled games of 207, 242, 305, 276 and 254 for a 277 average. She beat out Dorothy Peppin, Toronto, who had 1,320 and won $125 second money.

Leafs' Nelson Tops Pack in Homers, Hits

By THE ASSOCIATED PRESS

Rocky Nelson, who never has been able to stick in the major leagues, is again tearing the International League apart.

In three days the veteran Toronto Leaf first baseman — three times International's most valuable player—connected with four home runs and drove in 12 runs to pull away as the league leader in both departments.

Nelson hit his 19th and 20th home runs among his six hits Sunday, and drove in seven runs to run his RBI total to 59 as the Leafs blasted five Buffalo pitchers for 23 hits and 6-5 and 11-6 victories.

He clouted two home runs and drove in five runs Friday when the Leafs split with the same Bisons. Rain kept the two squads idle Saturday.

Luke Easter also hit a pair of three-run homers for the Bisons Sunday. Four Buffalo errors in the nightcap gave the Leafs their unearned runs and a victory after defeat had seemed certain.

In other Sunday games, Montreal beat Rochester 4-3 and 7-4 in a single game, Miami Marlins swept a doubleheader from Havana Sugar Kings 6-1 and 4-2 and Columbus Jets split with Richmond. Jennings the second 9-2 after dropping the opener 5-2.

SUN HELPS ROYALS

In salvaging their only victory of the three-game with the Red Wings, Montreal Royals were aided by the sun. With the score tied 3-3 in the seventh, and two men on base, Bob Lennon hoisted a long fly to centre where Duke Carmel lost it in the sun. Two runs scored and Lennon crossed the plate when Carmel's error bobbled.

Home runs were a factor in the Miami sweep of two games. Bobby Usher hit a grand slam in the first game and Frank Herrera a three-run homer in the second. Dick Bunker yielded only four hits in chalking up his third victory in the opener.

Rochester Jew Gibson of the Jets pitched a brilliant one-hitter in the nightcap's second game.

In the opener the Virginians scored four runs in the second inning and then coasted the rest of the way. Gale Allie hit a home run in each game for Columbus.

In the three games played Saturday, Rochester beat Montreal 2-1 on three runs in the ninth; Havana edged Miami 3-4 and Columbus walloped Richmond 9-3.

Better action

On Saturday, it took the Yankees 10 innings to dispose of Boston, 2-1, with Ryne Duren, who came in in the ninth, picking up the win. Chicago played the perfect host to Detroit, the visitors picking up a 2-0 victory on Paul Foytack's six - hitter. Baltimore beat Washington 4-3 and Kansas City edged Cleveland 5-4.

Patterson Told to Fight By Sept. 30 or Lose Title

PARIS (AP) — The World Boxing Committee, trying to stimulate activity in the heavyweight division, has ordered champion Floyd Patterson to defend his title before Sept. 30 or lose the championship.

The committee, linking the New York State commission, the British Boxing Board of Control and the European Boxing Union, specified Sunday that Patterson should fight one of four contenders—Eddie Machen, Zora Folley, Willie Pastrano or Roy Harris.

Saturday, the committee had bracketed Harris and Folley as the No. 1 contenders and listed Pastrano and Harris next in line.

"The period in which the world heavyweight title should have been defended has been exceeded by far," the committee report said, taking note that Patterson has not risked his title since his knockout of Pete Radtmacher last Aug. 22.

D'AMATO KEY FIGURE

Patterson's manager, Cus D'Amato, was unavailable for comment in New York. He had said Friday, however, that he was close to signing for two or three title fights but declined to name opponents, dates or sites.

The committee re-elected Julius Helland, chairman of the New York State Athletic Commission as president.

It rejected Sunday the application of the Canadian Boxing and Wrestling Federation for full membership.

The Canadian federation made its request by a letter from its president, L. M. McKenzie, to Helland.

"The committee decided Canada is a member of the Commonwealth and could not be admitted directly," said Helland.

The commonwealth nations are represented through the British board, headed by J. Onslow Fane. He opposed the Canadian application.

The committee Saturday accepted the resignation of the United States National Boxing Association from its ranks.

The world committee charged that the NBA has consistently disregarded committee decisions on world title affairs.

HOAD BACK IN FORM

SANTA BARBARA, Calif. (AP) Apparently recovered from pneurisy in a leg, Lew Hoad returned to the pro tennis tour Sunday and beat Pancho Gonzales 9-7, 7-5 before 3,700 fans. It was Hoad's 35th win against 48 losses to Gonzales.

Asian Games In Tokyo Said Success

TOKYO (AP) — Japan's hopes of being host to the 1964 Olympics boomed today with her hyperactive staging of the Asian Games.

"I am sure Japan is prepared to organize even a greater event than the Olympic Games," Avery Brundage, international Olympic chief, said as the third Asian ended Saturday night in a lavish spectacle of parading athletes, fireworks and massed bands.

Prior to the evening final ceremony, the last three sports titles were settled, in football, basketball and the 163-kilometre bicycle race.

Indonesia won the soccer championship with a 3-2 overtime victory from second-place South Korea. The Philippines retained its basketball crown by beating Japan 90-85. South Korea won both individual and team gold medals in the bicycling race.

Japan won firsts in everything from table tennis to weightlifting and dominated wrestling, swimming, boxing and track and field for 67 of 113 gold medals. The Japanese piled up 1,040 points under the unofficial Olympic scoring system, to 355½ for the Philippines and 250½ for Nationalist China.

Yesterday's Stars

By THE ASSOCIATED PRESS

Batting: Andy Carey, Yankees —boosted average 31 points to .256 with five straight hits including two homers, double and two singles. He drove in four runs and scored three in 10-4 victory over Boston.

Pitching: Stan Williams, Dodgers—shut out Chicago with two singles in first major - league start, for 1-0 victory.

Sarnia Golden Bears Sign Frank Filchock as Coach

SARNIA (CP) — Sarnia Golden Bears of the Ontario Rugby Football Union today announced the signing of Frank Filchock as head coach.—Filchock last season coached Saskatchewan Roughriders of the Western Interprovincial Football Union.

Filchock coached Saskatchewan for five years after spending two years with Edmonton Eskimos as playing - coach. He starred as quarterback with Grey Cup-winning Montreal Alouettes of the Big Four Football Union in 1949.

Filchock came to Canada after seven seasons in the National Football League, with New York Giants and Washington Redskins after he graduated from the University of Indiana.

He succeeds Joe Zaleski who went to Winnipeg Blue Bombers of the WIFU as assistant coach. He was succeeded at Saskatchewan by George Terlep, former assistant coach of Hamilton Tiger-Cats of the Big Four.

Filchock, 41, has been a controversial figure for many years.

NFL SUSPENSION

His career in the NFL came to a abrupt halt after the 1946 season when he was suspended one year for allegedly failing to report a bribe offer. He was later cleared of the charge but declined to return.

Hamilton Tigers signed him but the Big Four opposed his playing. After the Tigers went down to three successive defeats in 1947 the league cleared him to play.

The next season the Tigers went to the ORFU with Filchock as playing-coach. They made it to the Eastern Final where they were drubbed by Ottawa Rough Riders.

Filchock was then lured to Montreal, sparking the team to a win over Calgary Stampeders in the Grey Cup final, the only time the Alouettes won the Canadian championship. He stayed with Montreal one more season before going to Edmonton.

ALWAYS "RUNN" EAST

Filchock succeeded Glenn Dobbs at Saskatchewan and two years ago appear.d to have built a powerful club. Many observers figured the Riders as a championship possibility in 1957. Filchock lost his own confidence to the observation when he wrote an article blasting the East for playing "dumb football."

The season ended, however, as Saskatchewan's worst since Filchock arrived. The club finished last and Filchock received his release during the winter.

Tom Park Out of Swim

GUAYAMAS, Mexico (AP) — Greta Anderson of Denmark Sunday won the second international swimming marathon and 30,000 pesos (about $2,400).

She swam the 42 kilometres (26 miles) in the unofficial time of 10 hours, 25 minutes and 13 seconds.

Tom Park, formerly of Hamilton, Ont., and now living at Atlantic City, swam only three miles before being pulled out. He won the event last year.

Doug Sanders Tops Field in West Tourney

DETROIT (AP) — Youthful Doug Sanders had enough money today to pay doctor bills for the injuries that kept him out of tournament golf for the better part of a year.

The 24-year-old former collegiate swinger from the University of Florida shook off the injury jinx and the challenge of top competitors Sunday to win the 55th Western open tournament.

Back on the tour less than a month after his second injury within the year, Sanders sloshed through a driving rain for a final round 68 and made his four-under-par performance stand up for a one-stroke victory. Sanders was 13 strokes under par for the 72 holes.

Dow Finsterwald finished second for the 18th time in 8½ years and collected $2,500, half the amount Sanders received for winning the $20,000 tournament.

$225 FOR BALDING

Al Balding of Toronto played sound and steady golf for the first three rounds, then went one over par on the final day. His 70-70-70-73—283 put him in a three-way tie for fifth place and $325.

Two other Canadians finished out of the prize money but received $111.11 each for completing 72 holes. They were Jerry Magee of Toronto, 73-75-75-73—296, and Rudy Horvath o' Windsor, 73-76-73-74—296.

Bob Wylie of Calgary and Tony Oulette of Windsor were dropped at the half-way mark.

Sanders fired rounds of 69-68-70 before his fourth straight sub-par showing over the Rei Run Golf Club layout (36-36—72).

The Miami Beach pro had only won $1,209 before he overcame a one-stroke deficit while all three golfers who had shared the 54-hold lead faltered in the final round.

Finsterwald had a 71 and his 72-hole total was 276, one stroke behind Sanders. Dave Ragan and burly Mike Souchak shared the third-round lead with Finsterwald, but both found the soggy greens tough.

Sanders, who won the Canadian Open as an amateur in 1956, rejoined the pro ranks after a four-month absence because of torn ligaments in his right foot.

Late last summer an infected hand kept him idle another four months.

Hearts Win Over Manchester

VANCOUVER (CP) — Heart of Midlothian of the Scottish League defeated Manchester City of the English League 5-2 in an exhibition soccer match here Saturday night.

A crowd of 20,975 saw a solid, unruffled Heart defence hold Manchester scoreless for the first 80 minutes of the game while their forwards rammed home five goals.

Centre - forward Willie Bauld led the scoring with two goals. Outside left John Crawford, inside left John Wardaugh and inside right Alex Young scored one each.

Inside right John Hayes scored both of Manchester City's goals.

Western Ont. Wins Track Field Title

By RON ANDREWS
Canadian Press Staff Writer

ORILLIA (CP) — Led by Walkerville's Dick Rau, Western Ontario Secondary Schools Association Saturday won its second straight title in the annual track and field championships of the Ontario Federation of School Athletic Associations.

Rau scored two victories, both setting records, and finished second in his other event. His 13 points helped WOSSA retain the championship with 87 points, six more than second-place Toronto District Interscholastic Athletic Association.

Third with 55 points was Toronto Secondary Schools Athletic Association, Central Ontario Secondary Schools Association finished fourth with 28 points, Northern Ontario Secondary Schools Association fifth with 20, Southern Ontario Secondary Schools Association sixth with 17 and Central Western Ontario Secondary Schools Associations last with nine.

SEVEN RECORDS SET

Seven records were set and another was tied in the 27 events.

In the senior broad jump, Rau leaped 22 ft. 4¾ in. breaking the former record of 22 ft. 2 in. His other record was in the senior hop, step and jump which he won with a distance of 46 ft. 4 in. The old record was 45 ft. 9¼ in.

Rau placed second in the senior 120-yard hurdles behind Richmond Hill's John Parsmore, whose time of 15.2 seconds tied a record.

Jimmy Irons of Brampton (TDIAA) won the two-mile run, in 9:44.1. 2 seconds faster than the old record.

TDIAA's Port Credit set a record in the 440-yard relay with a time of 45. seconds. The old record was 45.3 seconds.

John Metras of Medway established a mark in the senior javelin of 181 ft. 4 in. Another WOSSA won the intermediate broad jump athlete, Whit Tucker of Forster, in a record 22 ft. 5 in.

The other record was established by Brampton's Bruce Mc-Nague of TDIAA in the intermediate hop, step and jump with a distance of 45 ft. 10 in.

TDIAA won 10 events. WOSSA took seven victories but had an edge in total points from 10 seconds and eight thirds compared with five seconds and four thirds by TDIAA.

Five victories went to TSSAA, while COSSA won three and NOSSA two events.

Dutchies, Oaks Victors in Intercounty

By THE CANADIAN PRESS

Kitchener - Waterloo Dutchmen win big, Oakville Oaks win small. As far as the other seven teams in the Senior Intercounty Baseball League are concerned, both win too much.

The Dutchies and the Oaks each reeled off their sixth straight victory Saturday to move 2½ games ahead of the idle Brantford Red Sox. And the wins are typical of each team's play this season.

The high - powered Dutchies blasted their way to a 19-10 victory over Galt Terriers, almost matching their previous high of 20. Only once this season have the defending champions won by fewer than three runs.

Oakville beat London Majors 10-8 to stay tied for the lead. Only once have the Oaks won by more than two runs ant three of their victories have been by one run.

John Metras of Medway established a mark in the senior javelin of 181 ft. 4 in. Another WOSSA won the intermediate broad jump athlete, Whit Tucker of Forster, in a record 22 ft. 5 in.

The other record was established by Brampton's Bruce McNague of TDIAA in the intermediate hop, step and jump with a distance of 45 ft. 10 in.

TDIAA won 10 events. WOSSA took seven victories but had an edge in total points from 10 seconds and eight thirds compared with five seconds and four thirds by TDIAA.

Five victories went to TSSAA, while COSSA won three and NOSSA two events.

Brampton Nips Peterboro 14-12

BRAMPTON (CP) — Brampton Excelsiors took over first place in the Ontario Lacrosse Association senior series by defeating Peterborough Petes 14-12 Saturday night.

Bill Wanless paced Brampton with four goals. Rev. Bennett scored three times while Harvey Madgett and Ralph McCormick each scored twice. Single goals went to Burt Johnson, Jack Madgett and Bert Russell.

Norm Corcoran of St. Catharines, who signed with the Petes just before the game, tallied five times while playing-coach Curly Mason and Larry Ferguson each counted twice. Dan Quinlan, Billy Floyd and Paul Parnell scored singles.

Bans Dust-off Pitch on 'Next' Batter

MIAMI (AP)—President Frank Shaughnessy of the International League has forbidden pitchers to dust off a batter who follows a home run hitter.

In a bulletin issued to umpires and managers, he said: "It is getting so that now when a player hits a home run, the next player is pretty sure he is going to be knocked down.

"Umpires are hereby instructed that when this occurs times while playing-coach Curly the pitcher will immediately be removed from the game."

Two fights followed "dusting" incidents last week in play between Buffalo and Havana at

Wins $105,000 In Car Race

INDIANAPOLIS (AP) — Jimmy Bryan of Phoenix, Ariz., and car owner George Salih of Whittier, Calif., picked up a record $105,374 for the Arizona cowboy's victory Friday in the 42nd 500-mile auto race.

The total purse of $305,217 was also a record. The previous highs last year were $103,844, won by Sam Hanks, and last year's total purse of $300,252.

Bryan's probable share under the usual driver's contract would be more than $42,000. He also won the pace car, a shelf full of trophies, a $1,000 wardrobe and assorted merchandise and gift certificates.

FLASH Jimmie Bryan won the Indianapolis 500 mile race on May 30th at an average speed of 133.791 mph to become the 35th consecutive winner on Firestone tires.

33 drivers started the race . . . all had a choice of tires from any of the world's manufacturers . . . all chose Firestone tires and paid list price!

The lessons we learn at the Indianapolis Speedway *make you safer on the highway!*

Because the drivers at Indianapolis choose Firestone tires to the exclusion of all others, only Firestone has learned the lessons of heat and speed at this famous outdoor laboratory. The 500 miles of heat, speed and torsion at Indianapolis packs a lifetime of normal driving into a few short hours—and Firestone engineers have used this unique testing ground to apply the safest, longest wearing tires for your family car.

National Hockey League May Restrain Wandering Goalies

MONTREAL (CP) — The National Hockey League opens its annual three-day meeting today with speculation that some drastic plan moves to restrain nomadic goaltenders.

It's a certainty, however, that Montreal Canadiens would squawk loud and long against any proposals to place limitations on goalies of the type that would parallel strafing outside the crease.

Jacques Plante, the Montreal goalie, introduced the wanderlust feature to NHL netminding and was beyond doubt the most nomadic puck-stopper in the league.

Plante often strayed from the set to intercept the puck and on occasions raced almost to the blueline to clear a loose puck from harm's way. Several of the netminders on the other NHL teams have copied his roving style, but to a lesser degree.

The NHL rules committee was also to consider such things as face masks and elbow pads. League president, Clarence Campbell has given his opinion on some types of both.

MIGHT INJURE OPPONENTS

Once he ruled against a type of elbow pad used by the Detroit Red Wings. And during the last Stanley Cup playoffs he turned thumbs down on a face mask Dollard St. Laurent of Canadiens wanted to wear to protect an injured cheek-bone.

In both cases, Campbell took the position that the equipment might injure opposing players because of its bulkiness.

The rules committee, after discussing NHL rules, was to meet with representatives of all pro leagues and the Canadian Amateur Hockey Association in what has become known as the Joint rules committee.

The CAHA was expected to propose international amateur hockey rules for minor leagues for players in the 14-17 age bracket. The rules, limiting body-checking and boarding, are played in world tournaments.

ALTHEA KEEPS TITLE

SURBITON, Eng. (AP) — Althea Gibson of New York, reigning Wimbledon singles champion, Saturday retained her Surrey lawn tennis championship with a 6-1, 6-0 victory over Mimi Arnoold of Redwood City, Calif.

AIR-TO-AIR MISSILE

HOUSTON, Tex. (AP) — The U.S. Air Force has announced development of a new guided air-to-air atomic missile but the details remain secret. Lt.-Gen. Donald L. Putt said Friday the new missile, the GAR-9, would be used on the long-range interceptor now being built, the North American F-108.

On the Tracks

LONDON (CP) — Alcide, odds-on favorite to win the Epsom Derby until he pulled stomach muscle five days ago, was scratched from the race by his trainer Sunday.

Capt. Cecil Boyd-Rochford announced the colt was withdrawn after a warmup canter. "He showed no life at all," the trainer said.

The French-owned Noelor II was the 9 to 2 favorite in pre-race betting Friday night. Alcide was not quoted.

The 1½-mile classic will be run Wednesday. The next eallover will be today.

TORONTO (CP) — Mister Jive, four-year-old owned by J. L. Applebaum of Toronto, regained form as he won the $10,000 Eclipse Stakes at Old Woodbine Saturday. Ridden by Eugenio Rodriguez, Mister Jive set a track record of 1:43 4-5 for the mile and one sixteenth.

A crowd of 18,883 witnessed the closing program of the Old Woodbine spring meeting. The horses see more of the Newcastle Nursery where a 36-day meeting opens today.

Foxy Phil, owned by M. J. Boyden, of Toronto, established himself as one of the favorites for next Saturday's Queen's Plate as he scored in the secondary feature, the $7,200 Marine Stakes. Foxy Phil ran the mile in 1:37 3-5 as he defeated Timmy Mummy by a length while the favored Silver Snip finished third.

HULL, Que. (CP) — Toronto-owned Lady Guy Abbe was edged out twice Saturday in the feature divided 10th of the Connaught Park Derby.

Long - shot Captain Conrad, from Hull went to the front and was never headed in the first heat.

Captain Conrad again took an early lead in the second heat but way to Lady Guy Abbe. Then Sally Sue, owned and driven by Dr. Findley, made a surprise run at Ottawa Ontario winners were Malcolm Volo from Renfrew and Peter G. Dillon from Penetanguishene in two mile D paces.

Sport Briefs

SUCCESSFUL DEFENCE

NEW YORK (CP) — A team of parapsychists from Montreal defended their title in the archery competition of the International Parapsychics Games Saturday.

MOOSE SETS RECORD

ADENAU, Germany (AP)—Britain's Stirling Moss Sunday piloted his English-made Aston Martin to a record-breaking victory in the 1,000 kilometre (621.40 miles) Nuerburgring endurance race for sports cars. The 28-year-old Briton and his Australian co-pilot, Jack Brabham, averaged 82.2 miles an hour in touring the 44 laps in seven hours, 23 minutes and 33 seconds.

ALSTON FINES NEWK

CHICAGO (AP) — Los Angeles pitcher Don Newcombe has decided to pay a $300 fine, rather than accept a three-day suspension, after being charged by manager Walter Alston with training rules violations in Chicago Friday night. The fine was announced and Newcombe made his choice at a clubhouse meeting before Saturday's game with Chicago Cubs.

WINS TENNIS CROWN

OAKVILLE (CP) — Johann Kupfenberger of South Africa Sunday beat Toronto's Don Fontana 6-4, 8-6, 3-6, 2-6, 6-3 to win the Oakville invitation hardcourt tennis championship. The match was postponed Saturday, after twice being interrupted by rain, with Kupfenberger leading 6-4, 5-6, 3-6.

MOON ONLY BRUISED

ST. LOUIS (AP) — Wally Moon of St. Louis Cardinals escaped with a severe bruise when he collided with teammate Joe Cunningham while chasing a fly in Saturday's game against San Francisco Giants. It was not known how long he will be out of action.

Fur, Fin & Campfire

By JACK SOBEL

AT THE PARK — Richard Burton, left, and Curt Jurgens portray commandos on a desperate desert raid in "Bitter Victory" opening tonight at the Park Theatre for its first Belleville showing, Columbia Pictures' CinemaScope drama. Ruth Roman and Raymond Pellegrin also star. On the same program is Technicolor "Paratrooper," starring Alan Ladd, Leo Genn and Susan Stephen.

AT THE BELLE — Neglected by her husband, Anthony Quinn, Anna Magnani turns to Anthony Franciosa. The youngster brought up as a son, in the Hal Wallis-Paramount Vista-Vision drama "Wild is the Wind", starting today at the Belle Theatre.

At The Park

First Showing

"BITTER VICTORY"

One of the Libyan desert battle sequences in Columbia Pictures' "Bitter Victory", Cinema-Scope drama starring Richard Burton, Curt Jurgens, Ruth Roman and Raymond Pellegrin opens at the Park Theatre today, it's night involved more than 1,000 British, French, German and Arab actors and an area of nearly 100 square miles. Three CinemaScope cameras were used to film the fight.

* * *

Second Feature

"PARTROOPER" FIREWORKS

The filming of Columbia Pictures' "Paratrooper", the true story of paratroopers in action in color by Technicolor Second Feature at the Park Theatre, was like a Fourth of July celebration for special-effects expert Cliff Richardson. Starring Alan Ladd and Leo Genn and introducing Susan Stephen, the movie consumed 500 detonators, 4,000 smoke bombs, 2,000 fire bombs, 50 pounds of extra-high explosives, 500 pounds of gunpowder and 6 miles of Cordtex.

CNR Has Deficit

MONTREAL (CP)—The Canadian National Railways Friday reported a net operating deficit of $19,021,000 for the first four months of this year compared with net operating profit of $7,730,000 for the corresponding period in 1957.

For April, a net operating deficit was reported of $3,586,000 against a net operating profit of $2,294,000.

Son of Helen Hayes Says He Was Vegetating at School

By BOB THOMAS

HOLLYWOOD (AP) — Young James MacArthur, who quit college because he was bored, is getting plenty of action in his dramatic career.

He's not one to live on his mother, Helen Hayes, approved. But he quit Harvard, anyway.

"I went back last fall," said Jime, who was entering his sophomore year. "But I just couldn't get engrossed with what I was doing. I was just vegetating."

DROPPED OUT

"I dropped out after two months because I thought it was foolish to continue when I wasn't getting much out of it. I've known too many guys who have done that for four years.

"I haven't given up college entirely. I may go back some day."

It doesn't look too likely. For one thing, he got himself engaged to his school sweetheart, Joyce Bulliant.

Then there is the matter of his career, which is doing nicely. He is here to do a television drama with Franchot Tone and Kim Hunter tonight.

In July he reports to Switzerland to star in Walt Disney's Third Man on the Mountain. Then in the fall he has a Broadway play he would like to do.

That doesn't sound as if he'll be returning to the Ivied halls.

"Some of the most educated people have never been to college," Jim reasoned. He added that his mother never went past high school although she holds 11 degrees (onorary).

One of the reasons he may have left Harvard was that the university has no undergraduate drama courses—not that Jim is the kind of young actor who feels he must constantly be studying to improve his craft.

But he seems able to criticize his own work unassisted. About his second film, Light in the Forest, he commented:

"I wasn't very good in it."

"Nothing Magnani does is ever dull!"

CLYDE GILMOUR . . . Telegram

"Miss Magnani is able to change the mood of a picture from comedy to drama with a flash of her black eyes!"

Astrological Forecast

By CARROLL RIGHTER

Tuesday, June 3

Aries (March 21 to April 19) — Early in the morning, don your nicest finery. Then sally forth for tete-a-etes with those powerful and distinguished persons usually so difficult to approach. Sell them on your ideas. Prosper. P. M. put real estate in order.

Taurus (April 20 to May 20) — You are bubbling over with good spirits, particularly today, hence it behooves you to contact those bigwigs you like and make a fine impression. Get what you go after. Tonight, let sociability reign and be the life of the party.

Gemini (May 21 to June 21) — Meticulously showing members of family and bosses sincere little courtesies today brings fine returns. Be magnanimous, also in your thinking. Then put financial affairs in order. Tonight, be lovable, kind, thoughtful, and have fun.

Moon children (June 22 to July 21) — Be certain you contact partners in industrial or social world today. Use a more profound psychology, a more courteous approach and you come to far better understanding. Be interested and they assist you, you assist them.

Leo (July 22 to Aug. 21) — Let your job provide the key to bigger dividends and real abundance today. Also, put an element of real affection in your dealings with fellow workers, a deeper understanding of their problems. Work with vim and enthusiasm.

Virgo (Aug. 22 to Sept. 23) — If attuned rightly with astrological influences, today you could arise feeling aces. Let us see how industrious and clever you are. This will be inspirational and you will get backing, real cooperation.

Libra (Sept. 24 to Oct. 23) — Concentrate on that sphere of your endeavors today that is not working at all efficiently and straighten it out. Think in terms of far into the future. P.M. get house in order.

Scorpio (Oct. 24 to Nov. 21) — Make it a point to express your thoughts with associates today for increasing harmony and success in your ventures. This will cement relations far into the future. Later, be sure to buy toiletries, other beauty items.

Sagittarius (Nov. 22 to Dec. 21) — Get down to practical facts, bare essentials today that will lead to real security and constructive efforts towards success. Forget those highly complicated ideas. Make simple, charming the modern efficiencies.

Capricorn (Dec. 22 to Jan. 20) — A splendid day for you, since you can express yourself to heart's content and mental happiness. This leads to real popularity and increasing abundance. Restoration of your lagging energies, sparkle. Be joyful, gay.

Aquarius (Jan. 21 to Feb. 19) — Quiet talks in private with those persons who have the data you require fine today. But take a close relative with you for better results and complete enjoyment at today's efforts. Be grateful, generous.

Pisces (Feb. 20 to March 20) — Erudite but very sensible pal today will give you the benefit of years of experience which will mean cementing relations ideally, working in perfect harmony in the future. Also, dig into your own periodicals for information.

If your child is born today... The marvelous child born today will have an irresistible charm that everyone will want to early spoil him or her, and could easily drift through life on favors extended if you do not permit others and your progeny to find the wonderfull latent qualities and talents in this fine youngster. Give tasks to perform quickly, a small stipend and let your child enjoy to the full what has been earned. The greatest gift a parent can bestow is self - sufficiency.

Missing Boy's Body Pulled From River

JOLIETTE, Que. (CP) — The body of frail Andrew Brown, II, who disappeared in the Laurentian wilderness near here two weeks ago was pulled today from the turbulent Assomption River near St. Come, Que.

A group of searchers led by Gerard Lamarche, 35, spotted the body floating in the river six miles from St. Come, 15 miles south of here and 65 miles north of Montreal.

The remains were found near where the boy was last seen when he disappeared May 19 while on his first fishing trip with his father, two brothers and two friends.

His disappearance sparked one of the biggest hunts seen in this rugged area. Some 125 soldiers joined the hunt, together made up of provincial police and volunteers probing the dense forest.

A coroner's jury Sunday returned a verdict of accidental drowning.

Throughout the hunt searchers were hampered by the tangled underbrush, heavy rain squalls and winds. The army pulled out the troops Thursday night but volunteers continued to comb the bush.

RIGORS OF THE RIVER

QUESNEL, B.C. (CP) — The Fraser Brigade—a group of 18 men in three plywood canoes—left here Saturday for Soda Creek, 40 miles due south, after a rainy night and a sodden breakfast around a sputtering campfire. The brigade, is attempting to duplicate Simon Fraser's journey from Prince George to Vancouver on the Fraser River.

DIVORCE NOT FINAL, WEDS 13-YEAR-OLD

Rock 'n' roll singer Jerry Lee Lewis kisses his 13 - year - old bride, Myra, as the couple arrives from London. Lewis, 22, left England after the revelation of his marriage caused cancellation of his theatre engagements. He married Myra before his divorce from his second wife became final.

CHILD DROWNS IN POST-HOLE

Residents of Minden, Ont., are angry but frustrated over the death of Mary Linda Baldwin, age two, who died by drowning in this post hole only 175 yards from her home. Over 150 persons searched for her, covering a radius of five miles, before her feet were noticed in the thick grass. She had fallen into the water - filled hole head down and had quickly drowned. No one knows who dug the hole and left it unfilled.

MOON - STYLE

A really outer - space hair - style, inspired by the moon and featuring a diamond crescent, soars from the head of a model in West Berlin. Created by Cologne hairdresser Heinz Kaminski, the competition of hairdos related to cities of Bavarian Secretary to Berlin composers, it's called "Frau Luna," the name of an operetta by the late Paul Lincke.

HISTORIC MOMENT FOR CANADA, GERMANY

President Theodor Heuss (right) of the Federal Republic of West Germany is greeted at Quebec City by Quebec Lieutenant Governor Onesime Gagnon (left.) The German president's visit marks the first time in history a German chief of state has set foot on North American soil. Hucs met with Canadian Prime Minister John Diefenbaker and other government officials and addressed both Houses of Parliament.

MADOC

Brownie Pack Concludes Successful Year

MADOC — Madoc Brownie Pack will wind up a successful season with an outdoor meeting in the Thompson Memorial Park, this week. Twenty-six meetings have been held in the Armouries, and a hike in May shows that the Brownies have progressed satisfactorily.

At one of the May meetings, Brown Owl Murray and Tawny Owl Love presented the Golden Bar Badge, Service Star and Silver and Seconder stripes to the following: Barbara Lough, Diane Pigden, Patsy Adams, Sharon Storring, Mary Jane Brady, Darlene Hamilton, Nancy Brady, and Sally Downer.

In handicrafts, each Brownie made an Easter egg puppet and a Mother's Day gift.

Many tests have been passed and games, singing and stories are included in the meetings.

MANY WOULD TEACH

TORONTO (CP) — Education Minister Dunlop said Friday he doesn't expect a shortage of teachers in Ontario despite this province. He reported a large enrolment in this summer's emergency teaching courses.

Marysville

MARYSVILLE — Congratulations to Mr. and Mrs. Bernard Walsh (nee Mary Buckley) who were married on Saturday at St. Borromeo's Church, Read.

A number of the young people from the community attended the shower in Erlanville for the newly-weds, Mr. and Mrs. Joseph Lynch.

Mrs. Peter A. Whalen spent a few days recently in Oshawa.

Friends of Mr. James Flynn are pleased to know he is able to be out around again, after his recent illness.

Miss Ana Clairmont attended a teachers' meeting at S. S. No. 4 on Thursday afternoon.

Mr. Sam Hunt, Belleville, spent the weekend in Marysville.

Mr. Bernard McCambridge, Chalk River, spent the weekend at his home in Marysville.

Mr. Martin Doyle and Bernard O'Sullivan attended Knights of Columbus meeting in Brockville on Sunday.

Mr. and Mrs. Leonard Bates spent a weekend recently with their daughter and son-in-law, Mr. and Mrs. Charles Alpine and family.

A gloom was cast over the community last weekend following the accident which took the life of Barbara Hayter. Sincere sympathy is extended to the bereaved family.

Everyone is pleased to know that the three young boys who were involved in the same accident are reported to be doing as well as can be expected.

Miss Maureen Forestell, Port Credit, spent the weekend at her home.

Miss Helen Walsh, Trenton, visited her parents, Mr. and Mrs. J. L. Walsh the past weekend.

Mrs. Mary Doyle, Mr. and Mrs. Michael Walsh and Mr. and Mrs. Kevin Mulrooney, Kingston, attended the Walsh — Buckley wedding in Read.

Guelph Man Heads Library Association

KINGSTON (CP) — J. D. Reid of Guelph was elected president of the Ontario Library Association which ended its three-day 56th annual conference here Friday. He replaces Rev. C. P. Crowley of Windsor.

Councillors include Louise Schryver, Chatham.

MADOC

Town Plans 3rd 'Old Boys' Reunion'

MADOC — The third Old Boys' Re-union program is now being completed. The reunion gets underway on Sunday, June 29th with Masonic Church service in Trinity United Church. A Drum Head service under the Canadian Legion will be held in the afternoon and in the evening a band concert in the park.

Monday will be "back-to-school day," a motor cavalcade will visit Bethlehem Steel Quarries, O'Hara Mill, and to Eldorado where a plaque commerating the First Gold Rush will be unveiled by the Department of Travel and Publicity; dances in the Armouries and Fair Grounds in the evening.

Tuesday will begin with a calithumpian parade, horse show and racing in the afternoon at the Fair Grounds and street dance and carnival in the evening. All hoping for fine weather and fine return of old boys, and girls to their home-town.

New $16,000 Public School To Be Erected

MADOC — On Wednesday morning work of preparing the ground for the new public school at Madoc was started. It is expected footings for the new building will be poured next week.

The expenditure of $163,000 for the school was approved by the Ontario Municipal Board last week and the contract awarded to Hugh Murray of Bellleville, signed by the Madoc board at a meeting on Tuesday night.

The new school will be erected adjacent to the old building but will face on Baldwin Street. Besides eight classrooms, there will be a kindergarten in the new school which is expected to be completed before Christmas.

In Full Control, De Gaulle Holds Algerian Parleys

Talks to Lacoste, Salan After Senate Approval

PARIS (AP)—Gen. de Gaulle firmly and legally assumed personal rule over France today and turned his full attention to rebellious Algeria, now run by the army in his name.

De Gaulle quickly installed himself in the official residence of French premiers, the Hotel Matignon, within minutes of the overwhelming Senate vote which completed legislative action on constitutional changes giving powers.

The French National Assembly suspended its regular sessions until Oct. 7, leaving de Gaulle empowered to rule by decree in the interim.

De Gaulle's first caller was Robert Lacoste, the resident minister in Algeria for the last two years and a man with a tremendous following among the dissident "Colons" (colonials) there who are in revolt.

The French troop commander-in-chief in Algeria, Gen. Raoul Salan, arrived in Paris by air this afternoon for a conference with de Gaulle on the eve of the general's trip to Algiers. It was believed he would tell de Gaulle the French colonists are restless over the inclusion in the new cabinet of politicians suspected of favoring a "sellout" to the rebels.

AFTERNOON SESSION

Although a 23-to-3 Senate committee vote foreshadowed the upper house approval today of the constitutional proposal, de Gaulle appeared personally in the full Senate session this morning. He brought along Vice-Premier Guy Mollet and Justice Minister Gaston Cot crack the whip over their Socialist and Catholic Republican followers if necessary.

No pressure was necessary, however. De Gaulle spoke briefly and affably in support of his demand, and was smiled at and warmly at the packed galleries. There was strong applause when de Gaulle finished, even from the Communist senators.

The Senate debate was brief, confined chiefly to Communist objections, and the final vote was 256 to 49.

That gave the general clean sweeps of both houses of Parliament in less than 48 hours after the National Assembly elected him premier.

BYPASS PARLIAMENT

With his new powers he will be able to bypass the old constitution directly to the voters without parliamentary approval.

France's new leader plans to fly to Algiers Wednesday on a hid den trip to meet with military and ci vilian leaders whose defiance of Paris has driven the nation to the brink of civil war.

Court Considers Duplessis' Part In Liquor Case

OTTAWA (CP) — The part played by Premier Duplessis in the cancellation of Frank Roncarelli's liquor licence for his Montreal restaurant is to get close scrutiny in the Supreme Court of Canada today.

Frank B. Scott, counsel for Mr. Roncarelli, contends that Mr. Duplessis in effect ordered the Quebec liquor commission to cancel the liquor permit in December, 1946.

Mr. Roncarelli, now an employee of the St. Lawrence Seaway Authority, is suing Mr. Duplessis personally for $90,000 in damages.

He originally asked or $118,000 but the Quebec Superior Court awarded him $8,123. The Quebec Court of Appeal later quashed the judgment in a 4-1 decision.

The issue to be argued before the full bench of nine Supreme Court judges opened Monday with Mr. Scott arguing that Mr. Duplessis ordered the liquor licence cancelled as punishment for Mr. Roncarelli's action in posting bond totalling $ bail for members of the Jehovah's Witnesses. The Witnesses were arrested on charges of peddling or distributing pamphlets without a city permit, an offence then punishable by a $40 fine.

CHARGES DROPPED

In all cases, the charges were either dismissed or withdrawn before the liquor licence was cancelled.

Mr. Scott, argued that Mr. Duplessis "issued instructions and entered into agreements" with the then chairman of the Quebec liquor commission, now Senator Judge Edouard Archambault of Montreal, to have the licence cancelled.

"This man was sentenced economic death because he gave bail in recorder's court," he said.

Mr. Scott said that Mr. Duplessis' action of Mr. Roncarelli as "a chief" of the Jehovah's Witnesses, when in fact he was "a simple adherent" who neither distributed nor kept pamphlets of his sect in Mr. Montreal establishment.

He said Mr. Duplessis gave press statements he would not tolerate the "subversive" ideas of the members of the sect or their "accomplices."

Such statements, in effect, related to alleged breaches of the Criminal Code, instead of the charging Mr. Roncarelli the premier had taken administrative action "outside the Criminal Code" and cancel the liquor permit.

Mr. Duplessis, who is the province's attorney-general, is claiming personal liability on the ground that he acted in good faith in his capacity as a minister of the Crown.

BURN PUBLICATIONS

MONTREAL (CP) — Newspaper publishers and restaurant owners in nearby Pointe Calumet, Que., have banned a so-called scandal sheet's black — listed by the Roman Catholic Sacred Heart League, which will make "carrying the publication. The publication were ignited Saturday in a giant bon-fire in the square before the community's church. About 30 Montreal - based publications it contended and announced on Sunday it had revised the list to 25.

Today's Chuckle

She: "You remind me so much of brown sugar."
He: "Why?"
She: "Sweet, but unrefined."

THE WEATHER

TORONTO (CP) Synopsis:

Clear and rather chilly weather is reported throughout eastern and central Ontario. Cloudy weather and a few showers have spread into Northwestern Ontario. Today should be sunny throughout southern and central Ontario. However, the cloudy weather spreading across northern Ontario today is expected to reach Southern Ontario Wednesday.

CNR FORECASTS RECORD DEFICIT SINCE WAR END

$55,000,000 Mark Tabled in House

OTTAWA (CP) — A post-war record deficit of $55,000,000 has been forecast by the Canadian National Railways on 1958 operations, the second straight year of record bookkeeping for the government-owned line.

The estimated deficit, included in the CNR's 1958 capital budget accounts tabled Monday in the Commons, is based on declining revenues and is almost double the $,573,000 deficit of last year.

Only three years ago the CNR reported a surplus of $26,000,000, but in 1956 the operating revenues were some $44,800,000 higher than the anticipated total for 1958 and operating expenses were about $22,900,000 lower than those estimated for this year.

The 1958 estimates placed operating revenues at $730,000,000, down from $753,160,000 last year. Operating expenses were estimated at $727,000,000, a drop from $734,556,000 in 1957.

Last year's deficit was the second largest since one of $42,000,000 in 1949 and also its third consecutive deficit after $28,800,000. The all-time high deficit was believed to be some $60,000,000 incurred during the depression years of the 1930s.

Behind the gloom about the CNR's bleak financial future was given Parliament late last month when President Donald Gordon in submitting his 1957 report said the railway's deficit was largely overlooked by current wage demands which, if implemented, would see the corporation record the biggest deficit in its history.

Mr. Gordon reported a "growing disparity" between the 6 per cent profit rate in ten costs and profit rate in ten costs and implied broadly that the CNR could well have used its $8,000,000-plus share of the 5½ per-cent rate increase disallowed by the federal cabinet in April, 1957. The CNR still plans to go ahead with a huge $253,500,000 capital expenditure program for 1958. This includes $117,294,000 for equipment, $13,500,000 for road improvements and $6,860,000 for hotel renovations.

Also, it plans to lend $45,000,000 to Trans-Canada Air Lines, a subsidiary, for expansion purposes.

The CNR estimates the road operating revenues will increase in 1958 to $156,200,000 from $153,760,000 last year while equipment rentals will drop to $158,900,000 from $161,962,000.

Gets Divorce As Meat Loaf Fit for Dog

CAMBRIDGE, Mass. (AP) — Donald P. Hall's divorce won a divorcee on testimony which included a claim that his wife made a meat loaf fit only for a dog.

The case was before Judge Frederick V. McMenimen and he ruled in favor of Mrs. Patricia, that the meat loaf she served him wasn't fit for a dog.

"Oh, but it is. I know it's edible because . . . I made it myself of dog food."

The judge said that amounted to cruel and abusive treatment.

TO DROP CHALLENGE

NEW YORK (AP)—The $4,000 Challenge will be dropped after the latter part of September. The TV program, which made its debut April 1, 1956, is televised Sunday nights over CBS.

"NATURE GIRL" SURVIVES WEEK IN BUSH

— "Nature Girl" Carol Johnson kept alive for a week in the Highland of Rainy River in Northern Ontario by eating grass and keeping calm. The 11-year-old farm girl is shown with her mother in Red Cross Outpost hospital after she was found by a rescue party, sound asleep but in good condition. Her mother believes it "was the work of the Lord" which kept the child safe from the wild animals in the area. Rescue party of 500, who were exhausted from their work of searching in cold, rainy weather, were amazed at the child's stamina. Her only ill-effects were a few mosquito bites and cuts.

Mexican Airliner Crashes Into Mountain, 45 Killed

MEXICO CITY (AP) — A Mexican airliner with 45 persons aboard crashed against a mountain peak near Guadalajara Monday night. The wreckage, found today, showed no signs of life.

The plane, a Constellation of the Aeronave de Mexico line, was on a flight from Tijuana, at the California border, to Mexico City. Some of the 22 passengers who boarded at Tijuana were Americans. It was not immediately known if any Canadians were aboard.

The wreckage was sighted by search planes carrying officials of the Mexican airline. Ground search parties with ambulances, doctors and nurses moved in on the area. It was expected to take this party several hours to get to the scene.

Trade, NATO and France Underline Heuss Ceremonies

OTTAWA (CP) — Trade, NATO and France have been the themes of Canada-West Germany discussions during the official visit of Dr. Theodor Heuss in Ottawa, reliable sources said today.

German misgivings over Gen. Charles de Gaulle's advent to parliamentary power, evident in the party's first after arriving here Sunday had changed during the ensuing 24 hours to a "relaxed attitude," the sources said. Canadian views had played a part in that development, it was indicated.

While Dr. Heuss, president of the West German Republic, is above politics as chief of state, members of his party have been consulting with cabinet and senior government officials.

The 74-year-old president addressed the joint Houses of Parliament Monday, high mark of his week-long visit to Canada. He leaves Wednesday for Washington in a private plane of President Eisenhower.

Both he and Prime Minister Diefenbaker, who introduced him, spoke of the importance of NATO.

(Continued on page 13)

De Gaulle Giving Priority To Solving African Problem

PARIS (AP) — Premier de Gaulle is giving top priority to finding a solution for France's stormy problem in North Africa, particularly the rebellion in Algeria.

The reason is that to regain a place in the forefront of the Western world France must stop the great North African drain on its economy and reputation.

Meanwhile he has sent messages seeking peace and co-operation to President Habib Bourguiba of Tunisia and King Mohammed V of Morocco.

The necessity for the priority on Algeria is glaringly evident.

It is a source of friction between France and the United States. Washington has wanted a better relationship between the French and North Africa so the West's influence in the Arab world could be built up.

The Algerian war is costing France at least $1,000,000 a day.

The general's plans for Algeria have not been spelled out in detail to political leaders. But they have reported that he wants to reform the Algerian-French relationship first with a close federation bordering on total integration.

Informants say he envisages an autonomous Algeria in which Moslems would have an equal status with the colonists and which would be federated with France. The colonists have violently opposed such a solution.

Dozen Watch Woman Hatch Egg in Bosom

ST. LEONARD'S-ON-SEA, England (AP)—Mrs. Ella Peters reported today that she has become the mother of a chick which she hatched by carrying an egg in her bosom for 21 days.

The chick, which weighs slightly more than an ounce, has been named Said Eagle, after one of the favored colts' in the Epsom Derby.

Mrs. Petry, 48, said the whole thing started as a gag.

"Everyone said I couldn't hatch out an egg, so I went out and bought one from a breeder. I carried it night and day in a cotton-lined wire holder next to my skin.

"Last night while the pub proprietor was saying 'time' the chick began tapping. It made its way out of the egg in the presence of a dozen witnesses."

Mrs. Petry said she will raise the chicken as a household pet.

LIBERALS DEMAND PM CARRY OUT 1957 PROMISES

Want Conference On Tax-Sharing

OTTAWA (CP) — The Liberal Opposition in the Commons is demanding that Prime Minister Diefenbaker carry out his 1957 election promise to solve tax-sharing problems between the federal and provincial governments.

Opposition Leader Pearson presented a non-confidence motion Monday which, in effect, called on the Progressive Conservative government to effect its policy in the matter.

The motion also demanded the reconvening at last November's two-day federal - provincial conference so as to deal with unemployment and other urgent problems.

Finance Minister Fleming in reply gave no indication of when he proposed to meet with the provinces in new tax-sharing talks or what the government might present then.

Mr. Pearson suggested there were "political reasons" for not calling the conference. — perhaps deficiencies in the federal revenues and mounting expenditures.

POINTS AT DIFFERENCES

Paul Martin, former Liberal health minister, hinted at "serious differences" in the cabinet between Mr. Fleming and Prime Minister Diefenbaker which had to be resolved first.

Mr. Fleming said: "When the time is ripe and there is opportunity for resumption of a Dominion-provincial conference, of course one will be held."

J. W. Pickersgill, former Liberal cabinet minister, jibbed: "This year, next year, sometime, never."

The finance minister said the government is not waiting for a conference to deal with unemployment. It had undertaken large public works and natural resources development to provide jobs.

Mr. Martin, however, challenged the government to list the works projects which have been started and to say how many jobs they created.

Harold Argue, CCF House leader, said the delay in calling a federal-provincial conference violates a "clear, definite" election campaign promise by the Conservatives this year and last.

(Continued on page 14)

Tortoise Will Finish Course Says Minister

OTTAWA (CP) — The revenue department is not a racing animal, says Revenue Minister Nowlan.

He took exception Monday in the Commons when H. W. Herridge (CCF—Kootenay West) asked about an extended delay in preparation of a handbook dealing with the tax deductibility of pension plan payments.

"When are these administrative snails expected to reach their destination?" Mr. Herridge asked.

Mr. Nowlan said it involves important problems and therefore he hasn't had time to consider.

"Without undue delay the tortoise will finish the course," he said.

Senators See Russian's Soft Talk As Opening Gambit for Trade War

WASHINGTON (AP) — Two Senate foreign relations committee members say Russia's latest talk of easing tensions may be only the opening gambit in a new cold war trade war.

Senators Hubert Humphrey (Dem., Minn.) and H. Alexander Smith (Rep., N.J.), commented in separate interviews on Soviet Ambassador Georgi Zhukov's news conference.

The two senators said they regard Menshikov's remarks as part of an overall Russian effort to emphasize from military to ward economic competition with the United States.

Menshikov said on an unrehearsed radio broadcast Monday that tight tensions between the East and West have reached a "dangerous" stage. His country would like to see them relaxed.

Mrs. Petry said she will raise the chicken as a household pet.

Stewart Warner Given Contract For $2,000,000

Will Take on Between 100 or 125 New Workers

A two million dollar defence contract has been awarded to the Stewart Warner Corporation of Belleville, it was announced today by Lee Grills M.P. for Hastings-South.

Mr. Grills said he was particularly pleased that a Belleville firm was successful in obtaining the government contract which was awarded on a competitive basis. It is understood the contract is in the electronics field.

Mr. Arthur Young, general manager of Stewart Warner Corporation, said the contract would give employment to between 100 and 125 additional workers who will be taken on the payroll within the next four months. It is expected the contract will take about nine months to complete.

Workers to be taken on at the plant include tool makers, metal workers, electronic operators, engineers and technicians.

According to the terms of the contract all tools and components must be made in Canada.

Hungarians Find Canadian Police Are Real Friends

TORONTO (CP) — Two young Hungarian immigrant couples were with a baby but — looked ahead with new hope today and a warm appreciation of Canadian policemen.

Things weren't bright Monday night when they arrived here after a nine-day job-hunting trek from British Columbia. They had no money, no food and no gas for their worn-out, patch truck.

Mr. and Mrs. Kazmer Gondos and Mr. and Mrs. Feiz Gaspar said they left Gooyong, B.C., with the old truck and $150, to find work. Mr. Gaspar, 27, is an auto electrician, Mr. Gondos his friend is auto mechanic.

BROKE AT BARRIE

They spent their last funds in Barrie, 35 miles north of here, on gas and food.

Toronto welfare authorities told them they couldn't be helped because they were not in need. Desperation they went to a police station.

Officers fed the travellers, then took up a collection and pressed a handful of bills on the workmen's hand. They arranged sleeping accommodation for the night at a Salvation Army hotel.

Mr. Gondos, 22, said he will go back to his job with a garage in Middleport in Southwestern Ontario where his uncle has a farm. He has been in Canada many years . . . I hope he will help them."

Both men fled Hungary after the 1956 revolt. They came to Canada last year a year ago but have only had work for three months since.

ATTLEE LEAVES HOSPITAL

LONDON (Reuters) — Earl Attlee, former Labor prime minister who underwent a hernia operation May 15, left hospital today. Monday. The 75-year-old peer, who as Clement Attlee was prime minister from 1945 to 1951, was said to be "very well."

Marriage Is Sacred But Money To Me Useful Says Strip-Teaser

LONDON (AP) — Three months ago Mrs. Mabel Butler was a pretty housewife who had children.

Today she's a strip-teaser who daily bares all her clothes from 2 till 9 p.m.

"I always wear my wedding ring on stage," she says. "My marriage is sacred to me. But money is useful, too."

She is one of the scores of stenographers, secretaries, and housewives who are working the strip-tease clubs of London.

Five clubs have opened in the last six months. All of them feature beauties without bras in the middle of the afternoon.

Girls who've never stripped outside their bedrooms are earning £10 to £15 weekly.

One strip parlor which opened for seven days has 7,000 members. The membership fee is 30 shillings.

Operating as clubs, the strip joints do not have to conform to the British law that says nothing must appear on the stage —but only in poses and never in motion.

Most of our members are business men who bring in clients for a drink," explained Jack A. Bistoe, manager of one club.

The shows last from 1½ to 2½ hours. During that time there are always at least two nude girls on the stage.

Some wear ribbon—wide G-strings, but bras are unheard of.

Blonde Mrs. Anna Keens said her husband doesn't mind her stripping for a living.

"I'm studying for a degree in elocution—I recite poems nude," she explained.

Order Brockville To Clean up Water at Once

TORONTO (CP) — The Ontario Water Resources Commission today issued an order requiring Brockville to clean up its water supply or face a possible fine of $500 a day.

The mandatory order is the first ever issued by the provincial government agency which has control of all municipal water supplies in Ontario.

In a statement the commission said an analysis of Brockville's water over a period of time have shown "intermittent, heavy bacterial pollution in excess of recognized standards."

Differences of opinion had arisen in discussions with city council and the city's public utilities commission but "the facts of the situation, however, are such as to indicate that action should be taken as soon as possible."

CLEAR WARNINGS

"Indecision arising from the varying opinions could lead to a very undesirable situation. The fact is that warnings clearly indicate that a dangerous situation exists."

The commission said Brockville's water intake is in an unfavorable location and "subject to pollution from various outlets and drainage in an around Brockville."

The mandatory order issued by the commission "requires that the condition which is dangerous to the health and well-being of the citizens of Brockville, should be adequately taken care of."

"The Ontario Water Resources Commission in issuing this order desires to make it plain that it is being done to protect the health of the people of the community. The commission assures the council and the public utilities commission that it will lend every effort and assistance to them in solving the problem."

UAW Bargaining With Independent

DETROIT (AP) — The United Auto Workers Union, lacking contracts with the Big Three automakers, began negotiation today with one of the car industry's smaller independents, American Motors Corporation.

The AMC negotiations, recessed in April, resumed on the heels of the latest offers from Ford and Chrysler and General Motors to agree on new terms.

It was the first time Walter Reuther's union went to the bargaining table with a smaller company in the absence of a contract precedent set by the Big Three.

American Motors, which manufactures the Rambler car, employs about 20,000 persons in its auto and appliance plants and controls about 1,500,000 workers of the Big Three. Studebaker-Packard is the other independent.

COMING EVENTS

W.M.S. CONFERENCE UNDER THE leadership of Miss Dagnes Kydd, Bloomfield, Trenton District, will be held on Friday, June 6, at Holloway Street United Church. Belleville. Theme: "Christ Our Hope."

RESERVE JUNE 25TH FOR THE Swarbeeks Festival Dinner, Holloway Street.

VISITORS' DAY AND EXHIBITION of work by the Adult Training School for the Deaf, tomorrow afternoon and evening, Wednesday, June 4. Classroom Exhibition 2 to 4 and 7 to 9. Tea and Display of Work 3 to 5. Athletic Exhibition 7.30 in the gymnasium. Everyone welcome.

GOVERNOR OF JAIL ADMITTED TO HOSPITAL

Robert Scott, governor of the Hastings County jail, was taken by ambulance to Belleville General Hospital on Monday afternoon, where he was admitted, suffering from pneumonia.

Delegates to UN Hope Tunisian Row Calms Down

UNITED NATIONS, N.Y. (AP) United Nation's delegates generally seemed hopeful today that Charles de Gaulle and Tunisian President Habib Bourguiba might clear up the French-Tunisian dispute now before the Security Council. Only the Tunisians showed skepticism.

The new French premier Monday advised Bourguiba that he had the intention "of settling with you, if you are in agreement, the present difficulties between the two countries."

But an interviewer for the Italian paper Rome Il Tempo quoted Bourguiba Monday night as having said, "De Gaulle or no de Gaulle, French troops must leave Tunisia."

The Security Council Monday held an all-day debate on Tunisia and French complaints, in which each country blamed the other for recent military action on Tunisian soil. Resumption of the debate was postponed until Wednesday to await developments.

ASKS ACTION

Addressing the council, Tunisian delegate Mongi Slim asked that it take "all appropriate measures" to assist in the evacuation of the 22,000 French troops still in Tunisia. He cited UN charter provisions that authorize such action.

ROADEO CHAMP

Doug Uberig, 19, of Elmira, Ont., holds the handsome trophy he received as winner of the regional dressage roadeo championship at St. Catharines, Ont. He will be looking for more silverware when he represents the region at the Canadian finals in Medicine Hat, Alta.

Travel News Carries Story On Belleville

Ontario Travel News, a periodical issued by the Department of Travel and Publicity, Toronto, this month carries a story about the Quinte district in general and Belleville in particular.

The release tells the history of this city and elaborates on the "breath-taking" beauty of the district.

"Since the war an active Industrial Commission influenced other industries to establish in Belleville ... which brought more executives, office personnel and skilled factory workers and their families. The city's population, today, nudges the 25,000 mark," the issue says.

The report lauds Belleville's accommodation for tourists and the city's retail sales outlets. In short, the report provides an intriguing picture of what one finds in

TORONTO STOCKS

TORONTO (CP)—Golds eased lightly but the rest of the stock market moved higher today in moderately morning trading.

Industrials, base metals and western oils recorded at least one-half point index gains while golds dipped a few decimal points.

Abitibi, Brazilian Traction and CPR, each easing ¼ point, kept industrials from moving higher. Steel Company of Canada, gain-adding 25 cents at $6.80.

1 point at 39¾, and Labatt, up ½ at 25½, led the section. Golds were slightly lower and changes small. Hollinger was an exception, adding ¼ point at 22¾. Base metals moved higher to mixed tender mines. Algom and Consolidated Denison were ahead among uranium.

Western oils were attracting interest with the section widely traded. Fargo was a big gainer adding 25 cents at $6.80.

TORONTO LIVESTOCK

TORONTO (CP)—All grades of slaughter cattle met a narrow demand with heavy numbers of steers included in the offerings at the Ontario public stockyards today.

Prices were about steady to Monday's decline on the modest number of steers on sale. Quotations on cows were too few to establish rates and bulls sold 25 cents a hundredweight lower. Veal calf prices were strong. Hog, sheep and lamb prices were steady.

Included in the cattle offering were 800 replacement cattle.

Livestock on offer: Cattle 3,315; calves 300; hogs 631; sheep and lambs 70.

Slaughter cattle: Choice steers 34.50-35; good 32-34.50; medium 22-24; common 20-22; good heifers 27.50-30 with some sales 31-33; medium 20-2; common 18-20; choice fed yearlings 24-25 with sales to 26; good 23-24; good to heavy bologna bulls 20-20.50; common and medium 15-20.

Replacement cattle: Some medium stockers 22-24.

Calves: Good veal calves 31.50-33.50 with choice to a top of 35; medium 28-30; common 20-25; boners 12-20.

Hogs: Grade A 34.50; heavy sows 26; stags 21.

Sheep and lambs: Good spring lambs 30 a hundredweight; sheep 4-10 with some good light sheep 12.

PRODUCE MARKET

TORONTO (CP) — Churning cream and butter print prices were reported unchanged here today.

The egg market was reported firm on large and medium with other grades steady and offerings light for a fair demand.

Country eggs are quoted by the federal department of agriculture on graded eggs, delivered Toronto, in fibre cases: A large 44; A medium 37; A small 28; B 30; C 25. Wholesale to retail: A large 49; A medium 42; A small 33; B 35; C 30.

Butter prices: Canada, first grade: Ontario tenderable 64-64½; non-tenderable 63¾ (nominal); western 63¾-63 (nominal).

SAFE GAS

Helium gas, used for filling airships and large balloons, is non-flammable and non-explosive.

DOLLAR RATE

FI72 seasaxy Noss 2 June3b

MONTREAL (CP) — The U.S. dollar was at a discount of 25-32 per cent in terms of Canadian funds, the Bank of Canada reported today. Canadian funds in day's noon rate was 96 11-32 cents.

Pound sterling $2.71, down 3¼.

500 Attending Quinte Meeting Of United Church

PETERBOROUGH (CP)—The annual Bay of Quinte conference of the United Church of Canada opened today with a service conducted by the conference president, Rev. Dr. W. F. Bassett of Kingston.

The 500 delegates from eastern Ontario immediately began business sessions. The conference ends Friday.

JAIL NEWSPAPER EDITOR ANGERED BY CRITICISM

Fuat Tezer, editor of the official organ of the ruling Democratic Party, Friday was given a prison sentence and fined 2,000 lira ($233) on charges of slandering two editors of a newspaper opposing the government. A special peace court, which previously has devoted most of its attention to government opponents, sentenced Tezer to 14 months.

Soviet Trawlers Off Grand Banks For Four Years

By DAN WARRINGTON
Canadian Press Staff Writer

HALIFAX (CP) — Russian trawlers, recently reported prowling in a suspicious manner off the east coast of Canada and the United States, have been fishing these waters for at least four years.

Defence forces of both countries say they are keeping an eye on them as a matter of course.

On the matter of Russian submarines, Ottawa prefers to put off the same coast for eight years, there is little comment.

In the last year the Royal Canadian Navy investigated scores of reported sub sightings. Whether any of them proved true has never been made public.

Officers at Atlantic headquarters here don't give details but they have made it known they are aware of what is going on and "taking whatever action is necessary for the safety of Canada."

They have said before no direct action would be taken if the ships and submarines visited outside Canadian territorial waters, which extend three miles off shore.

DELEGATES TO COME

Some light on what the Russian ships are up to may be shed next week when Soviet fisheries representatives arrive here for the annual meeting of the North-west Atlantic Fisheries Commission. The Soviet Union joined the commission only last month.

Canada and 10 other countries fishing Labrador to the Atlantic are members. The commission recommends, mediates and investigates but has no power. Russia said last year she would abide by commission resolutions.

Washington reports have said the Soviet fishing fleet is acting as spies and United States defence forces are watching them.

Crew members of Spanish fishing boats first reported Russian trawlers off the Newfoundland Grand Banks in April, 1954. RCAF planes found one modern 1,670-ton ships, about five times the size of most Nova Scotia trawlers.

They have been reported more or less regularly since then. A crew member from a Portuguese ship was questioned in St. John's, Nfld., Monday as saying he saw six Russian trawlers near Greenland recently.

He said the Russians had "market boats" and were out but "did not seem to be interested in fishing."

In 1957 navy officials here said they received about 75 reports of the ships from Labrador coast but most turned out to be false.

Zionists Elect New Officers

TORONTO (CP) — Lawrence Frank of Ottawa was acclaimed president of the Zionist Organizations of Canada Monday night following a constitutional flareup when another candidate withdrew.

Confusion developed at the Zionists' annual convention when candidate Sol D. Granek of St. Catharines announced his withdrawal 10 hours after balloting began.

Mr. Granek said representations intimated influential members would not participate in the organization if he were elected, that financial assistance to Israel would be jeopardized and some other Jewish organizations would not support the movement.

After considering whether Mr. Granek should be allowed to withdraw in the midst of the voting, the convention acclaimed him vice-president.

MEMENTO OF CANADA

A cozy beaver nat is modelled by Dr. Theodor Heuss, as the German community in Toronto welcomed the president of West Germany during his one-day visit to the city. The fur closely was presented to "Papa" Heuss as a memento of his visit to Canada, the first time a German head of state had set foot in Canada.

Forgiving Hubby Gets Back Wife, Part of $7,000

TORONTO (CP) — A couple from North Bergen, N.J., had a tearful reunion in a west-end apartment Monday night a few hours after police had arrested the woman and another man with whom she had run away.

"All is forgiven," the husband told her. Police said they left shortly after for a brief holiday in Montreal en route back to their home.

Left behind was Sime Dundov, 38, also of North Bergen, who was jailed on charges of impersonating the husband. He was held on a warrant issued by Quebec police.

Investigators gave this account of the case:

The woman, unidentified, left home suddenly a few weeks ago with a neighbor. She took her husband's cheque book and made his personal identity papers.

Police traced them to Montreal where they said the man was using the husband's name. The trail led from there to a Toronto apartment where the runaways were arrested. The woman, who had no charges against her, was released.

Police called the woman's husband to Toronto and took $7,000 in the apartment when the wife was packing to leave.

Officers did not reveal how much of the husband's money was recovered.

Wanted Fugitive Arrested in Los Angeles

WASHINGTON (AP) — The justice department Monday night announced the arrest in Los Cleon Kilburn, 34, one of the Federal Bureau of Investigation's 10 most wanted fugitives, in Los Angeles, Calif.

Kilburn, a native of Salt Lake City, was a fugitive from Utah state prison at Draper. He escaped last October by using his "press card" as editor of the prison paper. He said he was going to interview prisoners working on an honor farm outside the wall.

The FBI said that in addition to bank robbery, Kilburn's convictions include fugitive and theft, embezzlement, issuing bad cheques and unauthorized sale of clothing while in the army.

Three Men Named to Study Possibilities of Yacht Club

TRENTON — Councillors Jas. MacDonald, Charles Hilton and Lloyd Worrall were named to a special committee to study the possibilities of a yacht club in Trenton.

They were named by Acting Mayor Vagn Lange following a lengthy discussion on the proposed yacht club at the regular council meeting held in the board room of the municipal building last night.

Councillor Hilton opened the debate when he asked Councillor Worrall to inform council of his recent trip to Ottawa and his discussions there concerning the new club.

Councillor Worrall told council he had visited with members of the federal department of public works, and also talking with them found them very interested in the project. They pledge their fullest aid and co-operation. They will be sending an engineer to Trenton next Monday to look the area over and hold further discussions.

The councillor also praised the assistance he received from Lee Grills, MP, while in Ottawa.

WANT TO START WORK

Councillor Hilton proposed a letter of thanks be extended to Lee Grills for his help. But on the matter of the yacht club the councillor informed the meeting that the water was low in the bay at the present time and the time to get to work on clearing out the debris which now confronts the area they plan to use for a harbor. As for the marine railway he said there was a lot of land available at this point and that the whole matter should be given a great deal of consideration.

He said that today even some outboard motorboats require a marine railway to dock them. He said two he knows of have been forced to sell because of the lack of facilities in Trenton. He reasoned that there must be others in a similar position.

Trenton has to offer more than tennis and baseball for the summer months," Councillor Hilton said.

Mr. Hilton said the entire project would cost the town nothing in cash, only co-operation and with the help of the federal government he does it could form the club here.

He said it was necessary to have a marine railway to get the boats out of the water and into storage for winter months. Also that expensive boats could not be left in the water and had to have the facilities of a railway to get them out.

NOT UNSIGHTLY

Speaking on the matter of a marine railway being unsightly the councillor said it would not be more than 25 feet above the ground and as far as the boats in dock were concerned there is nothing unsightly in their appearance, "in my opinion," he said, "a boat is a thing of beauty. I urge the council to give this project all the support possible to make it a reality."

He said the dredging will have to be done right away, as once the St. Lawrence Seaway is opened it is expected the water in the bay will show a considerable rise and this will make it almost impossible to clear out the debris. This is expected to take place on July 1.

Councillor Gould, speaking on the matter, said he felt boating in Trenton was in its infancy compared with what it will be in the future, especially if there are proper facilities. He said there was no longer any pleasure in cars driving due to the congested highways and it was because of this he felt the waterways would be a way out for those who wished summer enjoyment.

He said he felt the marine railway should perhaps be built farther down the shore line and he would like to see the committee of councillors meet with the local men interested in building the yacht club to discuss it as soon as possible.

"Personally I would like to see it come to Trenton," he said.

Councillor Worrall said he could not find a place in Trenton to build a marine railway and therefore had to take it to other places. He said he believed there was room in Trenton in the same position."

ASK ONLY CO-OPERATION

He said the yacht club would go along with the town and beautify the area and organization will take the greatest part of the entire marine railway. "They are not asking for any help from town," he said, "only co-operation."

Councillor Ray Fox said he agreed with the idea of having councillors meet on the matter and if the club has plans to beautify the area concerned then the town would be glad to go on with it.

Councillor MacDonald said he saw no reason why the marine railway could not go farther out into the bay so as not to be in the way of the yachtsmen. As far as I'm concerned this building is worth a quarter million dollars and I think it should be kept now," he said.

The special committee named by the acting mayor will meet with the persons in Trenton proposing the yacht club this week, with the idea of getting the project underway.

Trenton Council Briefs

TRENTON — In the absence of Mayor Ross Burtt, who is in Toronto, Councillor Vagn Lange took over last night as acting mayor for the council meeting. Town Clerk G.W. Larry was also absent from the meeting, he is attending a conference in Niagara Falls, and his chair was filled by R. G. Allan, Weaver, assistant town clerk. All councillors were present.

REFERRED BACK

Council decided to have the town solicitor look into the matter of putting a light in a parking lot on Quinte Street which one councillor said was hardly used. The lot is a privately owned one and the council was not sure if they could put a street light on it. The request came from the Chamber of Commerce and it was also referred to the traffic committee.

LETTER RECEIVED

A letter from the C.P.R. was received, stating a warning signal on the West Street level crossing and it was planned that matter be turned over to the traffic committee and the public Works Department. The letter asked the town to pay 25 per-cent of the cost of installing the signal and 50 percent of the maintenance. The cost of the signal was not included in the letter and the council recommended the town be informed of the costs as well as an estimate from the town engineer on what it will cost to change the road at the crossing.

WILL INSTALL LIGHT

Councillor Joe Gould recommended that a street light be placed on a post near 363 Dufferin Avenue. This would be near the school and the road leading to Mountain Park. The cost would be small and the council authorized the Public Utilities Commission to have the light installed.

ASKS DATE CHANGE

Councillor Hilton recommended that the date on the tax forms sent out to taxpayers be changed. At present, he said, the form stated taxes are due before May 22. He felt this was being pressed to believe the 22nd was the last date and where they came in on this date they were fined for late payment. He suggested the forms next year read, "taxes due on or before May 21." Tax assessor R. G. Alan Weaver was instructed to look into it and report back to council.

ODDS AND ENDS

Permission was granted to the St. John Ambulance Society to hold a tag day on June 20 and 21. Seven town owned lots of land were sold by the council last night, five of them on Kidd Street, one one West Street and another on Ramsay Street. Town Clerk G.W. Larry and Mayor Ross Burtt were named signing officers for the town's account at the Royal Bank of Canada. The sale of a town lot on West Street was laid over and is to be checked by the town clerk. Accounts amounting to slightly over $50,000 were ordered paid by the council and a three year air conditioning system for the Board Room has not arrived yet. The council meeting opened at 8 p.m. and adjourned at 9.45 p.m.

Driver Injures Nose as Car Hits Building

TRENTON — Peter S. Robbins, 138 Dufferin Street, suffered a nose injury yesterday afternoon when his car went out of control and hit the corner of the Wragge Street and Front Street.

According to a police report Mr. Robbins was driving east on Wragge Street and had stopped for a train at the level crossing. After the train had passed by the motorist had started ahead but the road was turned left onto Division Street. The car went out of control and struck the corner of the building in a workshop owned by Senator W. A. Fraser.

Damage to the car was estimated at $150 and to the building $75. Both front fenders and headlights of the car were damaged as well as the hood and grille.

Constables George French and Jack Spencer investigated.

GOOD MAY REPORT

"The May report of accidents was the best of the year," Police Chief Jack Taylor said yesterday as he released the report for publication.

During the month there were 10 mishaps between cars with damages estimated over $100 in each case. There were also 4 accidents between motor vehicles where the damage was under $100.

Of the total of 27 accidents there were only four persons injured. Of these only three were pedestrians. There were no fatalities.

Four cases of hit-and-run rounded out the report and property damage during the month in motor vehicle mishaps totalled $4,885.

There were no accidents other than between motor vehicles reported during the month.

Khrushchev Letter Shows NORAD Misunderstanding

OTTAWA (CP) — Wilfully or otherwise, Premier Khrushchev of Russia seems to have misunderstood the nature of the North American Air Defence agreement (NORAD) in his latest letter to Prime Minister Diefenbaker.

He appears to refer to NORAD in warning that continued flights over Canada of nuclear-armed bombers from the United States Strategic Air Command constitute a "serious danger to Canada itself."

Canada, he wrote, shares responsibilities for those bomber flights "as indicated by the recent conclusion of a U.S.-Canadian agreement on merging the headquarters of the air forces of both countries."

This is a sweeping exaggeration of NORAD's purely-defensive powers. The headquarters at Colorado Springs, Colo., as provided under the recent agreement, can commit RCAF and U.S. jet interceptors to air defence of the continent in the event of sudden Soviet attack.

NORAD's glance lack nuclear weapons, unlike Strategic Air Command, the continent's offensive deterrent. But the command must obtain Canadian permission for each flight over Canada of its nuclear-armed bombers.

Defence Minister Pearkes told the last Parliament that U.S. bombers with nuclear weapons have occasionally made flights over Canada but only after obtaining prior permission from the Canadian government.

Commenting in the Commons Monday on the letter he received Saturday, Prime Minister Diefenbaker referred to "misrepresentation and allegation."

Opposition Leader Pearson gave notice he would ask a question about Khrushchev's reference to American nuclear-weapons flights over Canada.

Of the general content of the letter — third in a series between Canada and Russia — Mr. Diefenbaker called it "not entirely negative."

Russia still refused to understand Canada's intentions in attempting to promote Arctic inspection. But Russia had indicated willingness to study methods to control the suspension of nuclear tests in line with President Eisenhower's proposal for technical talks on the subject.

CHURCH ELECT HEAD

BOSTON (AP) — Leonard T. Carney of Boston Monday was named president of the mother church, the First Church of Christ, scientist.

"Where are the burglar and fire alarms?"

LIBERALS DEMAND

(Continued from page 1)

Debate continued today on Mr. Pearson's non-confidence motion—an amendment to the first government supply motion of the session.

The Liberal demands for a new federal-provincial conference, spring from the fact that the government, following the two-day conference here last November, announced a $52,000,000 increase in tax-sharing payments to the provinces effective only for this year.

In November the government indicated it would reconvene the conference as soon as possible. In January, in reply to persistent opposition demands, it said the pressures of parliamentary business prevented holding the conference then.

Mr. Pearson said the government should say why the conference has not yet been reconvened.

He referred to the fact that Ontario's Premier Frost had asked for a $100,000,000 increase in his province's share of the tax pie but had received only $52,000,000.

In the 1957 federal election campaign Ontario voters had been led to believe Ontario would get what Mr. Frost demanded only from a Progressive Conservative government at Ottawa. Now, Mr. Pearson said, the Conservatives had a right to know whether Ontario's demands were to be met.

ROSLIN

W.A. Enjoys European Travelogue

ROSLIN — On Wednesday evening the Women's Auxiliary of St. Paul's Church, entertained at a social evening in the parish hall, with guests present from Moneymore Ladies' Guild; Thomasburg Ladies' Guild; St. Paul's Guild; Roslin United Woman's Association, and St. Andrew's W. M. S.

When all had assembled, the president, Miss Phyllis Sills, extended a cordial welcome and presided for the following program:

Opening numbers by the junior choir, "Praise Him" and "Stand Up, Stand Up For Jesus; a piano solo by Barbara Bates; accordion solo by Mrs. Lorne Mumby; reading, Mrs. Ray Vance; musical number Randy Gray, and a solo, Mrs. Middleton.

Miss Sills introduced the guest speaker of the evening, Miss Margaret Hillis, of Belleville who gave a delightful and informative travelogue on her trip last summer by boat to Europe, and showed pictures taken in Holland, France, Belgium, Germany and Italy.

A reading was given by Mrs. White; guitar solo, Lorne Meeks; reading, Mrs. George Goodfellow; tap dance, Randy Gray.

Refreshments were served by the hostesses and a social time enjoyed.

FIND WOMAN'S BODY

ST. THOMAS (CP)—The body of Mrs. G. Arthur Fuller, about 50, was found in a pond in Pinafore Park here Saturday. Two screwdrivers and a coat were found on the bank. There will be no inquest.

U.S. Watching Russian Ships

WASHINGTON (AP) — The state department has notified Russia—in response to a Soviet complaint — that the U. S. Navy is keeping close watch on shipping in the ocean approaches to the United States.

Moscow had protested that U.S. aircraft had bombed Soviet trawlers in international waters near the Grand Banks east of Newfoundland.

State department press officer Lincoln White said the Soviet complaint was made about mid-April and that it received a prompt answer.

The Russian vessels were said to be in waters which are not normally heavily fished. They seem to have a large amount of electronic detection equipment such as radar. The number of vessels is constant, one arriving as another departs.

RAMPAGING DEER SHOT

BELLEVILLE, Ill. (AP) — A wild deer which went on a rampage in the business district of this city of 38,000 Sunday night was killed by police. The 158-pound doe jumped through a plate glass window in a hardware store, damaged some television sets in the store, later smashed windows and two doors of a barber shop and knocked down a metal fence.

13 CANADIANS WIN $945,000 IN SWEEP

Consumer Price Index Declines While Wages Up

Drop in Cost of Living First Since December

OTTAWA (CP)—Canada's consumer price index in April declined one-tenth of a point to 125.1 from 125.2, the first decline this year, the bureau of statistics said today.

The decline in the yardstick of living costs, based on 1949 prices equalling 100, was caused mainly by lower food prices and decreases in prices of domestic coal and fuel oil.

The index rose to a record 125.3 in the beginning of April. The last previous decrease was in December when it dropped to 123.1 from 123.3 in November.

The index of average wages and salaries in March 1.2 ahead of figures available—rose to 162.9 from 161.2 at Feb. 1, based on 1949 prices equalling 100. It was compared with 157.9 at June 1, 1957.

The index represents a quantitative average of total wages paid by employers sharing employing more than 15 persons.

MOSTLY CHEAPER

BEEF PRICES HIGHER

The index figure of 125.1 at the start of May represents an increase of 0.1 over comparable figures with 122.1 on the corresponding date in 1957.

The food subindex eased nevertenths of a point to 131.7 from 132.4. The decline was caused by lower prices for eggs and potatoes along with scattered decreases in meat, other fresh vegetables, oranges, coffee, evaporated milk.

However, beef and pork prices showed an advance in the month, particularly beef. All beef cuts rose from one cents to 6 cents a pound, with sirloin steak reaching 95 cents.

In sharp contrast to lower prices for oranges, prices for grapefruit showed almost 50 cent.

The higher beef and grapefruit prices continued to reflect heavy exports of Canadian livestock and the new grapefruit crop in the United States.

FUEL PRICE DIP

The household operation subindex dropped to 136.7 from 137.1. Lower prices for domestic coal and fuel oil offset moderate increases for a wide range of items including dishes, ice, lawnmowers, household soaps and cleaning month.

A new contract would be necessary to assure both the increases.

UAW Extends Its American Motors Accord

DETROIT (AP) — The United Auto Workers union, holding an extension agreement with American Motors Corporation, set about today to get its contract negotiations back on course with the car industry's Big Three.

Meetings were scheduled with General Motors and Ford, and another with Chrysler was believed in the offing.

American Motors, a smaller manufacturer, agreed with the UAW Tuesday to an indefinite contract extension.

If AMC and the union fail to agree on new terms by the time their present contract expires June 15, their two-year pact will remain in effect for an indefinite period.

The Big Three—employers of 500,000 men compared to AMC's 20,000—refused UAW requests to extend the old contract beyond the expiration date until agreement on new pacts could be reached. The auto firms instead offered to renew the old pacts for two years, but the union refused and the contracts expired.

ADVANTAGE UNCLEAR

It was not clear whether the AMC-UAW extension agreement gave an edge to either party.

American Motors, which makes the Rambler car, has been the only auto firm to show an increase in sales over last year. Its relative market position thus could be hurt more by a union strike to enforce contract demands.

However, in event of a contract extension, AMC employees would not get the annual productivity increase of seven cents an hour which the 1955 agreement calls for.

The company also would hold back a five-cents-an-hour increase based on the rise in the government's cost of living index last month.

Picton Student Gets Scholarship Of $2,500

HALIFAX (CP)—George F. Wirig of Picton, Ont., has been awarded a post-graduate fellowship valued at more than $2,500 by the Law Foundation of Canada.

The scholarship is for study in commercial law at the southwestern legal centre at Southern Methodist University in Dallas, Tex. He is the fourth graduate of Dalhousie University here to win the award, which no-ar has gone to only six Canadians.

Today's Chuckle

"I don't want to scare you," the 8-year-old told his teacher, "but my daddy says if I don't get better grades, somebody's gonna get spanked."

THE WEATHER

TORONTO (CP) Synopsis:
While Southern Ontario's mainly cloudy there are sufficient breaks to let the sunshine through occasionally. Northern Ontario is completely overcast but there is the possibility of scattered east of Fort William.

Precipitation from an area of low pressure west of Lake Superior is expected to move into Southern Ontario today with showers or thunderstorms for Southern Ontario Thursday. Temperatures will remain mainly warm throughout Thursday with increasing humidity.

HOUSE DEFEATS NON-CONFIDENCE LIBERAL MOTION

CCF Party Supports Opposition in Vote

OTTAWA (CP) — Stiff opposition criticisms of the government's record on unemployment and fiscal relations with the provinces have ended—temporarily at least—with defeat of a Liberal non-confidence motion by the big Progressive Conservative majority in the Commons.

The vote Tuesday night climaxed a two-day debate in which opposition speakers worried away at two main points—the government's record in combatting unemployment and the fact that it has not prepared to say yet when a federal - provincial conference on tax-sharing will be held.

Walter Gordon, Liberal transport minister, said the government has contradicted itself on both points.

No major public works program had been started in the first four or five months of this year contrary to Prime Minister Diefenbaker's campaign claims that $270,000,000 would be spent in the first three months of 1958 to counter unemployment.

Fleming Mr. Chevrier said, the sharing conference had not been called. The one last November was "abortive" and lasted 10 minutes to fiscal matters during the election campaign.

REGRETTED "FAILURE"

The defeated non-confidence motion, presented Monday by Opposition Leader Pearson, regretted the government's "failure to call a conference to deal with unemployment or to state its policy on maintaining a central feature of confederation, sharing arrangements with the provinces. The CCF supported the Liberals.

The Commons then passed on to the senate the government proposal to change the Hospital Insurance Act so as to allow the two western provinces and Newfoundland to begin receiving federal payments on July 1.

After the usual playing of the Marseillaise and review of troop units, the show went down the line of military leaders, shaking hands, and Gen. Eisenhower's party were introduced to him.

Tremendous cheers went up from the huge crowd, which broke through police lines at several points. However, the crowds were quickly pushed back.

Thousands awaited him along the Champs Elysees and in the city's streets. The crowds began massing early in the most three hours before his arrival.

Salan headed the official welcoming committee on the airport apron and shook hands with de Gaulle first. But right behind him came Jacques Soustelle, the National Assembly deputy and longtime Gaullist who fled Paris in a plane a leading role in the rebellion in Algiers. Soustelle joined the premier and Salan in receiving the honor guard of paratroopers, sailors and infantry men.

Also in the receiving line for a handshake was Brig.-Gen. Jacques Massu, the leader of the troop commander who first seized control in Algiers after the mob of colonists took over the government headquarters on May 13.

The premier also shook hands with all 72 members of the inaugural Public Safety Committee of Algiers, and with Pascal Arighi, the National Assembly deputy. Costiea who has been suspended by his colleagues for leading the insurrection on his behalf.

The airport ceremonies, broadcast throughout Algeria and France, lasted less than 15 minutes. Then de Gaulle and Salan entered the car and sped into the city. Crowds lining the route set off cheers.

Although the crowd cheered de Gaulle, the man who got the biggest hand from the crowd was Soustelle, at de Gaulle's side. A roaring chant repeated "Soustelle . . . Soustelle" and then "Algeria is French . . . Algeria is French" — a clear indication that the simple appearance of de Gaulle could not quell the sentiments which gave rise to the right-wing revolt of which Soustelle is the political on-the-spot symbol.

Many in the vast crowd were Moslems but the overwhelming majority were Europeans.

TO VISIT JAPAN ON CULTURAL MISSION

Mrs. Helen Tucker, left, will lead a UNESCO party of 20 Canadians across Canada on a cultural mission to Japan early in July. An alternate delegate to UNESCO, Mrs. Tucker is shown with Dr. F. B. Rainsberry and Mrs. Margaret Ashdown, all of Toronto. During their month-long stay in Japan, the group will try to see all aspects of the country's cultural life.

Tumultuous Hero's Welcome Given De Gaulle in Algiers

ALGIERS (AP) — Charles de Gaulle landed in Algiers today for a fateful meeting with the French insurgents who seized control of the vast North African territory from the Paris government de Gaulle himself now heads.

A tumultuous hero's welcome awaited the wartime leader brought back to power by the insurgency of French colonists and military chiefs in Algeria.

Waiting beside the runway were Gen. Raoul Salan, the top insurgent commander, and all the other leading military men and civilians of the public safety committee now ruling Algeria.

A bright sun beat down on the flag-bedecked airport and the massed thousands waiting to cheer de Gaulle. Helicopters hovered overhead as a V-formation of eight fighters escorted the premier's jetliner Caravelle in.

Dressed in a sack-fitting general's uniform, the usually grim de Gaulle beamed as he stepped from the sleek 500-mile-an-hour jetliner.

After the usual playing of the

Car Theft Ring Smashed at Hull

HULL, Que. (CP)—Police said Tuesday they have smashed the biggest car theft ring in the history of the capital area.

Four men have been arrested. Twenty-seven stolen automobiles have been recovered. Value of the cars and parts recovered is estimated at $50,000.

Police said the ring operated in the Ottawa-Hull-Ontario-Quebec border. Richard Tuppin, 32, Hull, Quebec; Lawrence Cain, 31, Ottawa, and Lawrence Therien, 31, and Mike Uriskak, both of Hull, were arrested on charges of receiving stolen goods.

PROTEST ATOMIC ARMS

FRANKFURT (Reuters) —Ten thousand persons held a meeting here Tuesday to protest against the arming of the West German forces and atomic weapon tests throughout the world. Public transportation in Frankfurt stopped during the two - hour meeting.

Kingston Education Director Hits P.S. Girls' Skin-Tight Slim Jims

KINGSTON (CP)—A "ruthless attack on immodest clothes" by worn in elementary schools by some girls in grades seven and eight was urged on Tuesday night by A. C. E. Ritter, Kingston director of education, at a meeting of the health and recreation committee of the board of education.

Short, type uniforms were suggested.

Mr. Ritter said that a number of girls are wearing "skin tight pants of the ivy league style" to physical recreation classes and objected to them on the grounds that they are "totally unfit and impede movement." He said that the apparel is definitely "immodest in view of the development of some of the girls."

Mr. Ritter suggested gym uniforms on the style of those worn by boys. Such classes would be much more preferable for everyday wear since they are inexpensive and allow free movement.

Apart from coming to gym classes in "slim Jims" Mr. Ritter said that the girls are also coming to regular classes in this clothing "and something should be done about it."

INCREASED TRADE WITH U.S. SOUGHT BY KHRUSHCHEV

Note to Eisenhower May Stir Debate

WASHINGTON (AP) — The United States has begun looking into the possibility of increased trade with Russia on the basis of a direct bid from Premier Khrushchev in his letter to Eisenhower.

The legal staff of Western trade policy toward Russia seems likely to come up in top level U.S.-British policy talks in the next few days.

President Theodore Hesse of West Germany and Foreign Minister Heinrich von Brentano began a visit today with Eisenhower and State Secretary Dulles. Prime Minister Macmillan will hold two days of conferences here beginning Monday.

The latest Khrushchev letter possibly was timed with those meetings in mind. The state department said Tuesday, and Tuesday, announced only that "the subject matter" concerns the relations between Russia and the United States.

WANTS EQUIPMENT

But it was believed Khrushchev put before the president his announced desire to purchase amounts of equipment for increasing Russia's industrial capacity. Such items as machinery for synthetic materials and plastics.

Administration officials probably would have no difficulty in buying in the U.S. or other Western industrial countries any machinery not barred from trade with Russia. But the Allies maintain a list of goods denied to Soviet commerce because, in the view of the West, their export would increase Soviet military strength.

The definition of what industrial equipment would contribute to Russia's war potential, how ever, is a controversial problem among the Western powers. And Khrushchev's letter, coupled with a long-time Moscow campaign for trade, is likely to put the control system, may well stir the controversy afresh.

Atlas Missile Thunders Aloft

CAPE CANAVERAL, Fla. (AP) The United States air force launched intercontinental ballistic missile thundered aloft Tuesday on a flight journey of 6,000 miles.

The Atlas, which packs the biggest U.S. ballistic punch, rose steadily from a huge cloud of swirling steam and exhaust gases.

It was reported to be another limited effort test flight of the rocket for the $2,000,000 missile.

One source close to the project said the Atlas launching "will be highly successful but that it would be 24 hours or more before the complete results would be known.

The air force announced the test was part of a routine series being conducted under the long-range ICBM development program.

MAYOR GRABS MAN

KANSAS CITY (AP)—Kansas City's 300-pound mayor clambered on a 20th-floor ledge of the city hall and helped prevent a man from jumping off the ledge Tuesday. Mayor H. Roe Bartle diverted the attention of police officers, firemen, newsmen and spectators long enough to grab the man, who later told police he had needed to preach to the crowd below.

Five Hold Tickets On Hard Ridden, Winner Of Derby

Two on Second Horse And Six on Third

By THE CANADIAN PRESS

Thirteen Canadians won some $945,000 today in the Irish hospitals sweepstakes based on the Derby race, held in Epsom, England.

Five held tickets worth $135,000 on Hard Ridden, who won the race. Two had tickets on Paddy's Point, who came in second to pay them $54,000 each. Six had tickets on Nagami, third-place finisher, for $27,000 each.

The ticket holders on Hard Ridden were listed as:

VBZ 77136, Bison Noire Co.; Lapraire, Que.; VC 93713, Junior, Montreal North; VAX 52846, Clear Reign, South Burnaby, B.C.; WPZ 35973, Helen, South Burnaby, B.C. and WNW 34137, Kitchen Club, Victoria, B.C.

Holders of tickets on Paddy's Point were: WCJ 49140, For Word, Toronto, and WNX 35608, Sunshine, Dunnville, Ont.

Holders of tickets on Nagami were: VBW 03119, Andre Beaury, Verner, Ont.; WPQ 12834, Me, Too, Thessalon, Ont.; WPZ 34781, Still Waiting, Port Colborne, Ont.; VCW 31985, Pat, H a m i l ton, Ont.; WPX 13197, Bucky, Regina; and WPZ 36792, Ron C. Johnson, Moncton, N.B.

AMERICAN AMONG WINNERS

In addition, two Canadians and an American won first, second and third prizes totalling $50,000 in the seven and navy sweepstakes based on the same race.

Lucien Desrocher of Sorel, Que. City won $25,000 with a first-place ticket. Uhi Sato of Patricia Bay, B.C., won $15,000 and Mrs. Mabel White Plains, N.Y., won $10,000.

Fifty-three other Canadians will get about $1,200 each for holding Irish sweepstakes tickets on horses that entered, but either were scratched, did not finish, or did not place.

Child Snatched From Certain Death by Father

NORWALK, Calif. (AP) — A small boy, tied to railway tracks by two teen-agers, was snatched from certain death by his father only seconds before a speeding train roared by.

The harrowing experience was disclosed Tuesday by sheriff's deputies who held the youths.

Michael Richards Evans, 7, and two playmates were playing near the tracks Monday to hunt for rabbits. When they returned to their bikes two other boys, 15, from nearby bushes and threatened them.

The teen-agers let the two playmates go, provided they remained quiet about Michael's captivity. They ran to Michael's father hunted.

The father sprinted to the scene and saw his son tied to the tracks.

The father quickly untied his son. As the train rumbled to his and ran away from the tracks, the train thundered past.

Teacher Claims She Was Called 'Sneak, Liar' by Irate Farmers

PETERBOROUGH (CP) — A two-day holiday for 35 junior pupils at a Bewdley school ended today when their teacher returned home reporting from a meeting of angry parents.

Mrs. Wilson, a schoolteacher for 33 years, returned to class today and said she preferred "to forget the whole unfortunate thing."

Bewdley is 15 miles south of Peterborough.

EPSOM, England (AP) — Hard Ridden today won the 179th Epsom Derby.

Paddy's Point was second.

There was a photo finish between Nagami and Boroco II for third place.

The judges gave third place to Nagami.

Hard Ridden's rider was the veteran jockey Charlie Smirke. The winner is owned by Sir Victor Sassoon, who won last year's Derby with Crepello.

Starting price for Hard Ridden was 18 to 1. Wallaby II, a French horse, was the favorite at 4 to 1.

Second place Paddy's Point started at 100 to 1 and Nagami 10 to 1.

JOCKEY'S FOURTH WIN

This was the fourth Derby win for Smirke, having ridden Windsor Lad in 1934, Mahmoud in.1936 and Tulyar in 1952.

The race was over a mile and a half course. The finish is upset in that it is a real stayer to win.

Hard Ridden's time was two minutes, 41.5 seconds. The course record is 2:33.8 set by Mahmoud.

After two furlongs, Milander took a clear lead over Arctic Gilt-tel, with Boccaccio, Guardlin, Amerigo, Noelor II and Bald Eagle next.

Before a half mile had been covered, Milander was three lengths ahead of Guardlin, Amerigo, Boccaccio, Arctic Gilttel, Bald Eagle, Noelor II and Wallaby II.

CLEAN CHANGEOVER

After passing the top of the first hill, with 5½ furlongs left, Milander, first ground and Guardlin took command from Amerigo, Boccaccio, Bald Eagle, Nagami and Noelor II.

Turning Tattenham Corner, with 2½ furlongs left, Guardlin was caught by Amerigo. At this point Hard Ridden began closing on the leaders.

Smirke, a 51-year-old jockey riding in his 34th Derby, moved Hard Ridden forward. Going up the rising finish, Hard Ridden pulled ahead and won easily.

The Royal Family watched the race. The Queen, dressed in a pink coat, had a horse running—Aureole's Jay—which came close.

Princess Margaret wore a flaring blue coat.

The crowd was estimated at 300,000.

The race was worth £20,000 to the winner.

The weather, which had been threatening during the morning, was bright and blue and not too cool.

COMING EVENTS

BELLEVILLE UNITED APTEAL. Meeting, Thursday, June 5th, 8 p.m. at Y.M.C.A. Full attendance and all committees meeting. 24-2t

City and District News

BRAM HUMPHREYS HIGHLY HONORED IN MASONIC ORDER

A well known business man of Belleville is again the recipient of a well deserved honor. Bram Humphreys has been appointed Grand Steward of the Royal and Select Masters of the Cryptic Rite, the announcement just having been announced by Grand Master Sam J. Sword. Very illustrious Companion Humphreys, as he now ranks, adds this title to that of Knight of the York Rite of Masonry. Congratulations are in order to one who has again brought this city into fraternal prominence.

FIND OLD COINS IN GARDEN

Digging in her garden at 41 Moira Street East, Mrs. Jack Cummins yesterday unearthed a pair of ancient coins.

One was a Dutch coin of 1813 vintage, a half-stiver, the other was a Bank of Canada token halfpenny of 1854.

The Dutch coin is the equivalent of a Canadian five-cent piece. How the coins came to be buried in the Cummins garden is a mystery.

GROUNDHOGS GET CLOSE TO CITY

The city is being invaded at the outskirts.

By groundhogs, that is.

Yesterday City Dog Catcher Charles Vass added to a Wellington Street business place where a groundhog had burrowed beneath the premises. A water hose brought the rodent out into the open where it was despatched by the dog catcher.

BUILDING PERMITS TOTAL $250,000

Building permits for over a quarter of a million dollars in new construction were issued by the township of Thurlow during the month of May. Total permits number 30 in all, which 30 were for new homes, two for gasoline service stations and garages and the balance for one for repairs.

Sixty five per cent of the new homes will be ready for use immediately east of the present city limits, the balance spread about the township. Price range for the new homes is from $7,500 to $13,500.

400 DOG OWNERS FAIL TO GET TAGS

Approximately 400 dog owners in the city have failed this year to get their 1958 dog licences, it was noted today by City Dog Catcher Charles Thorn.

Owners failing to get 1958 tags for their dogs are leaving themselves open to prosecution. Four owners this week have been charged and have paid $5.50 for neglecting to get new licences.

Mr. Thorn is making a door to door check throughout the city checking on whether dog licences have been renewed.

P.M. TO BROADCAST THURSDAY NIGHT

Prime Minister Diefenbaker's address to the 87th annual general meeting of the Canadian Manufacturers' Association, in Montreal, will be broadcast "live" by radio on CBL on Thursday at 9 p.m.

27 BUILDING PERMITS ISSUED

Twenty seven building permits, including permits for the construction of seven new homes, were issued at city hall during May by city building inspector Grant Richards. Total of the month's building list was $96,722 with permits for the construction of new homes and accompanying garages amounting to $84,048.

CAR THIEVES FAIL IN ATTEMPT

Car thieves apparently gave up for a bad job what was said to be an attempted theft of a car on Dyer Street owned by Harold Cates. The vehicle was found nearby Evans Street with the ignition wires cut and taped together with tinfoil.

NAME OMITTED

In the obituary of Mrs. Mabel Carrie Kent, of this city in Monday's issue, which appeared in Intelligencer, the name of her sister, Mrs. James Weller, of Carrying Place, was inadvertently omitted.

OVERHEATED PIPES GIVE FIREMEN RUN

City firemen had two runs last night and this morning.

Shortly before midnight last night the reels were called to a Trent Road cottage for overheated pipes and this morning firemen were called to a residence on Second Street, where smoke from a furnace backed up and filled the basement.

Junior Farmers Attend Church Service Sunday

The annual Hastings County Junior Farmer church service was held in St. Paul's United Church, Stirling, on Sunday evening. Guest speaker was Mr. J. McMurray of Gilmour.

Mr. Griffin Ketcheson, county president was in charge of the service and was assisted by the following: Grant Ketcheson and Frances Tucker who led in prayer; Isabella Bentley who led the responsive reading, and Allan Lott who read the scripture. Ushers for the service were Peter Heasman, Marvin Cooney, Paul Heagle and Harry Daniels.

The Junior Farmer choir under the direction of Grant Richardson and organist Ruth Mumby lended much to the service with two anthems, Glenn Donalda Beach, Stirling, rendered a solo.

Following the service the Rawdon Junior Farmers acted as host at a fireside serving in the Sunday School room of the church. Mrs. Evelyn Burkitt, Frankford gave a reading and was accompanied by Miss Helen Burkitt on the piano. Miss Judy Dafoe and Miss Donna Robinson played a duet on the xylophone and the accordion. Mrs. Pat Merrill, Stirling, gave an interesting monologue.

Following some sing songs the Juniors served refreshments.

Hospital Care Insurance Plan Outlined at Kiwanis

A brief outline of Ontario's new Hospital Care Insurance plan which will become effective January 1, 1959, was given Belleville Kiwanis Club members by G. E. Gordon, district supervisor of the Ontario Hospital Services Commission (Hospital Insurance Division) when he addressed the club Tuesday.

Mr. Gordon, who spent eight years with the RCMP and was district supervisor for Hastings County and Belleville for the following three years prior to taking his new position in April, illustrated his talk with a 25-minute film put out by the Commission.

The film featured well-known personality Charles Templeton, who gives a general outline of the plan and interviews two members of the commission who answer some of the most frequently asked questions regarding commission activities.

Prior to, and following the film, a question and answer period was held during which interested Kiwanians had the opportunity of hearing the speaker on this controversial subject.

Mr. Gordon stated hospitals are becoming big business.

OPERATING COSTS UP

He informed Kiwanians that the total hospital operating costs have increased from $118,000,000 in 1946 to more than twice that amount within ten years.

"The cost of a hospital bed per day increased from $6.70 in 1946 to $14.50 in 1957," he said.

The speaker said the projected total cost of the hospital insurance program for 1959 is $600,000,000 and that mental and tuberculosis hospitals, has been estimated at $210,000,000.

He explained one-third of the cost will be met by the federal treasury, one-third from the provincial treasury and the remaining one-third (approximately $75,000,000) from insurance premiums.

AVERAGE COST TAKEN

In the question and answer period of the film, Templeton asked the cost for all Ontario hospitals was averaged out, to which Mr. Gordon explained each hospital submitted their operation costs, and an average was taken.

Templeton queried whether some hospitals could have padded their operating statements to bring the total up to the average, Mr. Gordon said it was possible, but not probable, since the Commission required a breakdown of costs.

When asked whether hospitals could add on depreciation of say new equipment they may purchase, Mr. Gordon said no depreciation for equipment will be allowed.

He also explained the only criterion for eligibility for hospital insurance protection is Ontario residency.

"It makes no difference whether you work outside the province or be a non-Ontario company," he stated.

When questioned as to the length of time a person must live in Ontario to qualify as a resident, Mr. Gordon said a person will be eligible as long as he registers before January 1, 1959.

The film particularly stressed the fact all persons are participants must register by August 31 and individuals by September 30.

The first premium for group plan participants will be due in December, insuring, the person until the end of March when the second payment will be due.

Individual registrants must pay the first payment when they first register in September and they, too, will be insured until March 31.

The film also urged people to support Red Cross Blue Cross or other Hospital plans to discontinue the standard ward insurance clause after December 31.

The speaker was introduced by Will Mills and thanked by Bob Brain. He was presented with a token of the club's appreciation by president Charles Lusk.

ADVANCE SALE COMPLETED

Kiwanian Lusk announced the advance sale of tickets by circus agents for the Clyde Beatty Circus, which is coming to Belleville June 27, has been completed, and it is now up to local Kiwanians to push the sale of some 2,000 adult tickets within the next three weeks.

Mr. Graham stated the club will receive 50 per cent on each advance sale ticket, compared with only 10 per cent on tickets sold at the box office.

Bowling League Holds Enjoyable Annual Banquet

On Monday, May 26th, the Mixed Commercial "B" Bowling League drew the season to a close with the annual banquet which was held at the CNR recreation hall, where the ladies of the Trinity Church Auxiliary served a delicious turkey dinner.

At the conclusion of the dinner, trophies were presented to the three winning teams, a gift hangs, Mrs. Grace Clapp was the captain. The first place winners were the Smasherooz, Carm Dafoe captain, and the prize consisted of bowling bags for Eggheads, Denton Wessells captain, while was followed by the presentation of the bowling aids and men's trophies for high average, high game, high series, a gift was also given to the lady with the lowest average and a crystal piece also for the lady president of the league, Mrs. Doris Mcallister. The prizes were considered at the first of the 1957-58 season.

Several door prizes were presented.

The nomination of officers for 1958-59 season was held with the following being elected: president, Barbara Ward; vice-president, Dave Balthelor; secretary, Mrs. Grace Clapp; treasurer, Doreen Miller. (re-elected).

Dancing with the music by McAvoy's Orchestra concluded the enjoyable evening, with spot dances, square dancing, Paul Jones dancing waltz and elimination dancing.

Nearing the conclusion of the evening a presentation on of a clock was made to Eleanor and Bill Batchelor on the occasion of their 33th wedding anniversary.

Kingston Artist To Pass Opinion On Paintings

A milestone in the development of art in Belleville will be marked by the first outside exhibition of an art exhibition in this district.

Recognition of the growth of art locally is signified by the arrival this evening of prominent Kingston artist, Ralph Allen, who was selected by the Kingston Art Gallery to express his impartial opinion on the paintings of Quinte. Blue Cross or other Hospital plans to discontinue the standard ward insurance clause after December 31.

The speaker was introduced by Will Mills and thanked by Bob Brain, he was presented with a token of the club's appreciation by president Charles Lusk.

ADVANCE SALE COMPLETED

Kiwanian Lusk announced the advance sale of tickets by circus agents for the Clyde Beatty Circus, which is coming to Belleville June 27, has been completed, and it is now up to local Kiwanians to push the sale of some 2,000 adult tickets within the next three weeks.

Mr. Graham stated the club will receive 50 per cent on each advance sale ticket, compared with only 10 per cent on tickets sold at the box office.

Obituary

JAMES F. CLARK (Trenton)

Funeral services were held for James Frederick Clark, 58, at 106 Division Street at the Weaver Funeral Home yesterday afternoon with burial taking place at Wilhe's cemetery. Rev. A. C. McCallum officiated.

Mr. Clark, who has lived in Trenton for the past 10 years, died suddenly at his home recently. Born in Actinolite he was the son of the late Mr. and Mrs. John Clark.

During his stay in Trenton, he had been employed as a fireman by the Department of National Defence, RCAF Station, Trenton.

He was a member of the LOL No. 28, Trenton. His lodge held memorial services at the funeral home on Tuesday evening.

Besides his wife, Pearl (Smith) Clark, he is survived by one daughter, Mrs. Fay Belwood of Picton; one brother, John of Actinolite, and two grandchildren in Picton.

Bearers were Charles Potts, Frank Dwyer, William Poole, William Weilman, Delbert Groves and Jack Groves.

MRS. JEREMIAH HANES (Flint, Mich.)

A former resident of Bloomfield, Mrs. Jeremiah (Emma Nora) Hanes, died in Flint, Michigan, on Sunday, it was learned today. Mrs. Hanes had moved to Flint from Bloomfield nearly four years ago. She died in her 87th year.

A funeral service was held in Flint this afternoon and interment took place there.

Mrs. Hanes had resided in the Bloomfield district for many years. Mrs. Lorne Thompson. Others surviving are four sons, William and Ernest of Flint, Albert Harvey, of Vancouver, and Morley of Bloomfield; one sister, Mrs. Jesse Shales, Roneo, Mich., and Mrs. Amelia Shields of Flint; a brother, George Lane of Port Hope, Ont.; 20 grandchildren, and 18 great - grandchildren. Her husband predeceased her some time ago.

Mrs. Hanes was a member of the Standard Church of America in Bloomfield. She was the daughter of the late Mr. and Mrs. John Howell Campau.

MRS. WILLIAM REYNOLDS

The funeral of Mrs. Ethel May Reynolds, who died Friday in Pinkston and Luscombe Funeral Home, Picton, Tuesday, to Bethel Chapel for service on Tuesday afternoon. Mr. William Welch conducted the service and also the committal rites at Foxboro cemetery. There was a large number of intimate friends from the Cannilton community in attendance to pay their final respects. The many beautiful floral tributes testified to the esteem in which she was held.

The bearers were Fred Campbell, Clarence Copeland, Archie Currie, Osborne Hales, Earl Elliott and Harry Ritchen.

Abbey Dawn Museum Opens For Summer

Abbey Dawn Museum, opened last year by Canadian poet Wilson MacDonald, this last Sunday afternoon for the official opened for the 1958 season in the brief ceremony the Poet Laro poet, Charles Andrew Tupper, Accompanied by his wife, Mrs. Tupper, and daughter, "Geron-o-ha-we" Gilted With Song." Mr. Tupper took part in the annual inaugural "open season" of this wildlife sanctuary.

The opening peal on Gitchi nagumo, world-famous poets' "Bird-Call Song" was then rendered by the Sagonaska-band with epic poet Wallace Havelock Robinson, and daughter, "Geron-o-ha-we" Gilted With Song." Mr. Tupper took part in the annual inaugural "open season" of this wildlife sanctuary.

The opening peal on Gitchi nagumo, world-famous poets' "Bird-Call Song" was then rendered by the Sagonaska-band with epic poet Wallace Havelock Robinson, and daughter, "Geron-o-ha-we" Gilted With Song."

Beating this spot at "Mandon-ak" marsh (Indian word contracted from meaning "I pick up arrows and carry away") in the year 1615 Champlain was himself wounded after a disastrous battle against the Iroquois in what is now New York State, and at this grove Champlain temporary sanctuary en route back with friendly Hurons, who conveyed him thence in a kind of "stretcher-basket" to the safety of his home base.

IN THE NEWS, THEN AS NOW

Wartime friends, President Eisenhower is shown in 1945 in Paris with Gen. Charles de Gaulle, who is presenting to him the sword of Napoleon Bonaparte.

It is rumored that Eisenhower will invite Premier de Gaulle to take part in the Washington talks next week with Prime Minister Macmillan.

Foster Dulles Buys Jeep From Local Dealer

John Foster Dulles, U.S. Secretary of State, bought a jeep yesterday morning from a Belleville dealer. The deal was made during a lunch hour meeting and conversation between Fred Pottruff, owner of Fred's Sales, 322 Pinnacle St., and Mr. Dulles' secretary in New York.

Mr. Dulles visits his island occasionally to do a bit of duck and deer hunting. It was reported that the terrain is rough and rather rugged and so an ordinary car would not likely do the bill. Mr. Dulles' new jeep is an improved version of the vehicle which made automotive history during World War II.

Former Belleville Resident Honored

Belleville residents will be interested in learning of the retirement of William D. Sinclair as manager of the Stratford and Hanover dairy and poultry plants of Swift Canadian Company Ltd., and the appointment of Harold Ward to succeed him. Both are former Belleville residents.

Mr. Sinclair, who was employed with the company for the past 38 years, was honored at a banquet in Stratford recently by company officials, fellow employees and friends.

He was presented with a slide projector and a flight bag by Swift Canadian president, E. A. Millard, of Toronto, who commissioned Mr. Sinclair on his long service record.

During the past six years, in addition to managerial duties, Mr. Sinclair was in charge of the entire eastern operations of the company, from the head of the lakes to the Maritime provinces.

The new manager, G. A. Izard, was employed with the Belleville branch of Swift Canadian Company for five years, prior to leaving to the Stratford plant in 1946.

Mr. Izard is married, with two children, and lives at 278 Railway Ave., Stratford.

Child Falls Into Cooper Pigpen Cistern, Drowns

Falling into a pigpen cistern while waiting for his father, who was preparing to go to the grocery store, two-year-old Barry Graham, youngest son of Mr. and Mrs. Leonard Graham of Cooper, 10 miles north of Madoc, was drowned this morning.

The lad was in the cistern for only 15 to 20 minutes until he was found by his father. Artificial respiration by members of the Madoc detachment of the Ontario Provincial Police under the direction of Dr. R. S. Beatty, failed to revive the boy.

The boy had gone to the barn with his father and just as they were leaving he fell into a manure truck returned from the factory and Mr. Graham went to assist in dumping the whey.

While Mr. Graham was at the milk room the boy disappeared and after a frantic 15 minute search he was found in the cistern in the pigpen. The father recovered the boy's body from the cistern and called police and the doctor.

BIRTHS

McNEIL — Leroy and Carol McNeil, Brian, Weston, 3rd ward Bridge Street, are happy to announce the birth of a daughter, Tuesday, June 3rd, 1958 at the Belleville General Hospital.

DEATHS

FITZPATRICK, Mrs. Arthur — At Peninsula General Hospital, on Tuesday, June 3rd, 1958, Mary Agnes Fitzpatrick, beloved wife of Arthur Fitzpatrick, Consecon, in her 68th year of Belleville. Resting at the Nobills' Funeral Home, Picton. Funeral Friday, June 6th with High Requiem Mass at St. Andrew's Church, Picton, at 10 a.m. Interment Chapman Cemetery.

GREATRIX, William Charles—Suddenly, at his home, 71 Ivy Lea Ave., Belleville, Picton Road, near Belleville, on Tuesday, June 3rd, 1958, William Charles Greatrix, beloved husband of Mary Greatrix. Resting at the John R. Bush Funeral Home, Belleville. Funeral Service in the chapel on Thursday, June 5th at 2 p.m. Rev. Dr. Gregory, J. H. Greenlaw officiating. Interment Belleville Cemetery. 2-2c

IN MEMORIAM

McNISH. — A tribute of love to our dear mother, Mrs. Jessie McNish, who passed away June 4th, 1956. "And God took her home — it was His will."

Within our hearts she liveth still.
Sadly missed by her son and son-in-law and daughter Harold and Geraldine and Grandchildren.

GRAVES. — In loving memory of Ella Graves, who passed away May 30th, 1957.
Still in memory here without you, dear mother.
I miss you more each day;
Remembered by you, it seems the same.
Since you were taken away.
My heart still aches with sadness,
My eyes still shed tears;
God alone knows how much I miss you dear.
—Lovingly remembered by wife and sons.

BRADSHAW. — In loving memory of our dear mother, daughter and sister, Elizabeth Ann Bradshaw (Nan) who died June 4th, 1952.
We think of you at sunset,
Where loveliness never dies;
We think of you at dawn,
With the blue and gold of the skies.
Your life is a memory dear,
Her absence is sadly missed;
You left us a heritage of love,
A memory of perfect peace.
Too dearly loved to be forgotten.
—Sadly missed by Church Steele, daughter Lena, Dad and Mom, sisters Mary, Ruth and Dorothy and family.

CARDS OF THANKS

We wish to extend our heartfelt thanks and appreciation for the many kind deeds, expressions of sympathy and beautiful floral offerings received during our recent bereavement in the loss of our wife and mother. Our thanks also to the Belleville Fire Department who saved our home, and to all who assisted in any way the afternoon of our house fire. Special thanks for clothing, household articles and furniture received. It is a wonderful feeling to know we have so many kind friends. Again many thanks.
—Mr. and Mrs. Murray Tomlinson and boys, Massassaga Road.

TORONTO STOCKS

TORONTO (CP) — Industrials eased today but the rest of the Toronto stock market remained firm in moderate morning trading.

Volume at 11 a.m. was 53,000 shares, compared with Tuesday's 616,000 at the same hour.

Industrials opened strong but as trading spread across the section they eased in a ½ point range. Slightly ahead were Algoma Steel Corporation and Dominion Senior oils, paced by Bailey Selburn which rose 45 cents at 8.30. were almost all ahead.

Golds, attracting little interest so far this week, were narrowly ahead on the strength of fractional gains by Kerr-Addison and Hollinger.

Senior mines featured trading in a line. However, Bruck Mines Rock remained unchanged. Uranium issues gained slightly but Algom slipped ¼ at 19¾.

DOLLAR RATE

MONTREAL (CP) — The U.S. dollar was at a premium of 23-32 per cent in terms of Canadian funds near noon EDT today, Tuesday's noon was 96 23-32 cents.

Pound sterling $2.71 3-16, up 1-16.

SLOW START

Average speed of the Wright brothers' first airplane flight in 1903 was 31 miles an hour.

COMMERCIAL JETS TRY THEIR WINGS

Streaking over Mt. Rainier in Washington State are two Boeing 707 Stratoliners, America's first commercial jet transports. The top plane is the first production 707, which first flew December 20, 1957. Below is the third production 707, which made its maiden flight May 15, 1958. Deliveries to air lines are expected this fall.

Madoc Minister Named Quinte Conference Head

PETERBOROUGH (CP)—Rev. W. R. Lane of Madoc was elected president of the Bay of Quinte conference of the United Church of Canada, second ballot vote. Mr. Lane succeeds Rev. W. F. Hamilton of Kingston.

Mr. Lane, Rev. N. D. Patterson of Peterborough and Rev. Y. E. Enfield of Belleville were nominated for the presidency.

Dr. Patterson was eliminated on the first ballot.

Other officers elected were: Secretary, Rev. Crawford Gananoque; treasurer, Rev. J. E. Glover, Tweed; statistician, Rev. Frank L. Weldon, Lindsay; Archivist-historian, Rev. D. F. Summers, Carleton Place; press representative, Rev. H. J. McAvoy, Kingston, and the representative elder of the conference and the women workers, Rev. G. S. Maxwell of Peterborough.

Mr. Crawford, Mr. Glover, Mr. Weldon, Mr. Summers and Mr. Maxwell held the same positions last year.

In his address, retiring President Dr. Banister said that the presbyteries have several responsibilities.

"It is up to the presbyteries to further the work of the conference the boys and girls work," he said.

"In most of our presbyterial meetings there is not enough time for business. Presbyteries should meet one more time during the year for recreation and in the hour of the meeting should go towards theological study."

Church Workers Should Carry Word to Homes

PETERBOROUGH, Ont. (CP)— Church workers should be good Christian education in the home, delegates to the 5th annual Bay of Quinte conference of the United Church of Canada were told Tuesday.

Speaking during a Christian education panel discussion, Dr. D. J. Fergyth of Toronto, general secretary of the church's board of Christian education, wondered "if we are really moving into the homes."

"Perhaps lay people should go into homes and bring a listening ear and heart to help," he said.

The four-day conference is being attended by nearly 300 delegates from east-central Ontario.

General Motors Of Canada Faces Union Demands

TORONTO (CP)—The United Automobile Workers union, scheduled to begin negotiations with the auto industry in the United States has started its 1958 Canadian campaign with a series of demands on General Motors of Canada Limited.

The demands, announced on Tuesday, range from wage increases to improvements in the company's pension plan and unemployment benefits.

The demands filed for the 17,000 members of the bargaining unit in the GM chain parallel those originally pressed on the auto industry in the U.S.

GM's contract here expires Aug. 1. The agreement with Chrysler Corporation runs out Aug. 15 and that of Ford Motor Company of Canada Limited, Aug. 31.

Bargaining on the union's proposals is expected to begin next week.

The union seeks a substantial increase to narrow the gap between rates in the Canadian and U.S. plants. The union estimates the gap at 38 cents an hour for production workers and 70 cents an hour for skilled trades.

Other demands include incorporation in the contract of a 17-cent an hour cost of living factor, improvements in the pension program based on $4 a month for each year's service plus $55-a-month until age 70 supplementary unemployment benefits based on 65 per cent of gross pay plus $7 for each dependent up to six; a proposal for the company to assume the full cost of complete hospital and medical care for members and families, increases in shift premiums, and two additional paid statutory holidays.

The union said GM's production workers now earn $2.02 an hour, including the 17-cent cost of living bonus.

FUNDS, MEMBERSHIP UP

MONTREAL (CP)—The Montreal and Ottawa Conference of the United Church of Canada was told Monday membership and fund-raising activities have increased in the past year. Conference secretary Rev. John Horst said total membership in 1957 had increased by 2,956 to 91,343. Funds raised for all purposes during 1957 amounted to $3,646,160, up $294,762.

Boards Believe Yacht Club All Right, But Not Railway

TRENTON — Three town boards met recently to study the possibilities of a yacht club and marine railway. They felt the first a most desirable, but that the railway was not justified. Councillor James J. McDonald presented the report of the meeting to the town council on Monday night. It is as follows:

"The council referred the request of a group of yachtsmen for a piece of the Bay Street area to create a marine railway, to a combined meeting of the Parks Board, Planning Board and the Recreation Commission.

"This meeting was held with the planning consultants to discuss the accommodations to be provided on the bay waterfront for the east and west sides of the river.

"The Project Planning Associates have been commissioned by the three groups; to submit proposals and a report. When approved, a three dimensional plan of such a development. This would be a guide for future development of the waterfront.

"The three groups met to outline to the consultants what they wished done. It was decided in the area so they can incorporate the following: Bathing, sailing were suggested: baseball diamond, softball diamond, tennis courts, outdoor swimming pool, band shell or equivalent, kiddies' playground with sand box, wading pool, sand boxes, swings and slides, shade trees, washroom facilities, club room for athletes, yacht basin and docks with provisions made for boats in winter.

"There may be other things to add to the list as the project progress but the representatives of the three groups were unanimous that the inclusion of a marine railway west of Herchimer Street was undesirable.

"It is recognized that boating is an increasingly popular recreation and that the growing tourist asset Trenton has to offer. For that reason it should be included the yacht basin, dock facilities and for club house in its present location.

"The inclusion of an area of from 6 to four hundred square feet for a marine railway is not in keeping with the plan.

Some of these reasons are:

(1) The number of Trenton and district residents now operating marine railway service are less than 50.

(2) To provide such accommodations as a service to outside boat owners could be warranted, based on the demands for such facilities in the past. Opinions were that two or three visiting boats a year have needed such accommodations.

(3) The suggestion that docks of Trenton could be laid up in Trenton for winter months is speculative, and, if true, the realization seems to be that boats tied up in various stages of maintenance with the necessary boats and equipment would not be desirable to the area nor could be properly supervised.

(4) The number of citizens who would benefit from such accommodations as those benefiting from the yacht basin are classified for it, is not comparable, and we want to give all service possible to the greatest number.

(5) Since one of the objectives of a marine railway is to provide a means of raising funds for future growth of a club, and if this is feasible, they should be able to acquire other than public property.

"In conclusion, the co-operation of the three interests behind this proposed development is a highly desirable one and we are hopeful that the whole area on Trenton a waterfront for the enjoyment, of the citizens, second to none."

SUCCESS

Council Places Town Dump Out Of Bounds

TRENTON — The town dump will be placed out of bounds in the future to all persons, but special area will be set aside for those who wish to take their own garbage down during their day-off or after working hours.

This was decided at the last meeting of the town council held in the municipal building on Monday night.

Councillor Charles Hilton, chairman of the sanitation and waste committee, brought the matter up, saying it had been brought to his attention that persons have been reported to the police for dumping certain items from the dump before it had been covered up by fill.

He said he felt "No Trespassing" signs should be placed at the dump, and anyone other than authorized town employees entering the property should be prosecuted.

He stated that council had prohibited this last year and how it got out of hand was just the opposite things. He said he didn't feel the public should be allowed to rummage through the garbage especially from a health point of view. He recommended it be closed when town men were not at work there.

Eric Alderney, town engineer, said if it were closed entirely then people would dump their garbage anywhere near the entrance and this would be more of a nuisance.

Councillor Hilton felt they would not do it if there was a law against it and it was enforced it. He said, "Belleville does it, and they have no trouble. We can't go far wrong by doing it."

He said the medical health officer should be asked to put the sign up and, if he refused, the by-law should do it.

Acting-mayor Vagn Lange suggested a separate area be roped off for people who wished to use it after hours and that the rest be cut off from the public entirely. Proper signs would be placed there.

Councillors all agreed this would be best and the town engineer was instructed to have this done.

Improvements Planned for Hall

TRENTON — At the last meeting of the Branch No. 110 executive committee, it was revealed that several improvements in the new Trenton legion memorial hall are planned in the next few weeks.

House committee chairman, Orvell C. Smith was authorized to purchase drapes for the west side of the auditorium and club-room. The drapes will be fire-proofed and lined, and will be purchased from a local firm, in keeping with the branch's policy

Town Briefs

TO DEMONSTRATE

TRENTON — A demonstration of an aerial ladder truck will be held on Friday at 1 p.m. It is expected to take place somewhere near the firehall and most of the town's volunteer fighting crew will be on hand. The announcement was made by Councillor Lloyd Worrall at the last meeting of town council. He also announced that arrangements for the police will be held in the town hall on Thursday at 10 p.m.

GOING TO U.S.A.

Fire Chief Clarence Orser and Engineer Percy "Fiber" Ellis will be leaving for Ohio next Monday to look over aerial ladder trucks made by a firm there. They will be gone for three days and their expenses will be paid by the company. They will take a train to Woodstock and from there they will drive to the States, and will return to Trenton late Wednesday night.

VOTE OF THANKS

A vote of thanks was extended to Alex Gilbert by town council at the regular council meeting on Monday night. Mr. Gilbert, who is secretary-manager of the Trenton Chamber of Commerce, will be leaving at the middle of March to take up a new position in Cornwall. The motion was made by Councillor James MacDonald and was unanimously passed by the meeting. A letter will be sent to Mr. Gilbert by the town clerk

NEW MANAGER

The new manager of the Brazilian store, J. Trudeau will arrive sometime today. He will replace Kelly Black who had been transferred to Cornwall to act as manager of the store there. Mr. Black, as it will be remembered, was manager of the Trenton store, H. J. Hudel. Mr. Hudel had been on the staff of the Cornwall store.

QUIET DAYS

No accidents and no fires were reported by the Trenton police department and the fire department yesterday. Only one accident has been reported since Sunday night and no calls have come in to the local fire station.

of always buying in Trenton when possible.

Drapes for all remaining windows will be obtaining as soon as branch finances permit, probably later this year.

Building Committee Chairman J. C. Farrell reported on the cost of permanent type screens for all windows which open, and was instructed to proceed with the purchase of same immediately. This work will be carried out by the Trenton firm of Williams and Wilson. Estimates are expected to be completed within two weeks.

Now that the old foundation has been filled, work will commence on the roof covering the building's main entrances and screens will be constructed at the front doors. This job will be done by James D. Wilson, Trenton, the general contractor for the entire construction and erection of the building.

The exterior of the new memorial hall will then be complete and landscaping will start in the very near future.

Plaque Is Given To Local School

TRENTON — A fine bronze plaque was presented, to Queen Elizabeth School in Trenton by Mr. and Mrs. "Mickey" Walt at the meeting of the school's Home and School Club last Wednesday. The plaque is to be inscribed with the names of the senior, intermediate and junior champions of the annual field day held at the school.

The names of the champions who triumphed last year have already been inscribed on the plaque, together with the names of the donors.

During the meeting, the recent Fun Fair was discussed, and the treasurer W. Bellamy announced that the fair had been a great success.

Mrs. Patterson was in the chair for the meeting, in the absence of Mrs. R. R. Blight. Volunteers were called for the forthcoming field day to be held at the school.

Members later enjoyed a lively game of darts, with Thomas E. Bedford, school principal, as the caller and W. Bellamy and W. Blight assisting.

A lunch was served by Mrs. Lane and her assistants.

The room count was won by Mr. Bedford's room.

Legion Holds Regular Meeting

TRENTON — The regular meeting of the Branch 110 executive committee of the Legion of June was held in the board room of the Trenton Legion memorial hall on Monday evening.

President J. C. Farrell was in the chair and there were 13 Branch officers present. Also in attendance was Dominion Comrade Norman H. Banfield, the branch auditor.

A formal examination of the executive committee on the efficiency of the overall operations of the branch.

Vice - president William T. Lawrence reported three percent of the gala carnival, to be sponsored by the branch, on July 9, 10, 11, and 12, in the town dock area.

The final item on the agenda will be of considerable interest and importance to the members of branch 110. An attendance prize of $50.00 will be offered once each regular branch meeting night, but the person whose name is drawn must be in attendance at the meeting to receive the prize.

Tenders Should Invite Local Bids — Hilton

TRENTON — Councillor Charles Hilton stated emphatically Monday night that as much of the work as possible in the building of the new sewage disposal plant be put up for tender to enable local contractors to be able to bid on it.

He recommended that a committee of councillors meet with the representatives of Gore and Storrie, the town engineers, in this project, and if they plan to call tenders soon make it clear to them what the town wants.

The councillor said this had all been thrashed out in previous council meetings and it had been decided then that local contractors will get a chance to bid on the work. "This is the way it has to be done," said Mr. Hilton, "and I suggest the representatives of Gore and Storrie be called down for a meeting this week.

The recommendations came after a letter had been read to the council by the town engineer which had been sent to the Ontario Water Resources Commission and in our opinion need no comment.

The receipt of estimate for stage one of the disposal scheme is $521,000. This is in excess of $434,000 originally approved by the Ontario Municipal Board for the entire scheme, but as explained in our letter to council, the overall scheme is less costly and in our opinion more satisfactory. We assume you have received a letter from Trenton officials with the purpose of assisting with the necessary application to the Municipal Board for approval of the new estimated cost of the stage one.

"The plans and specifications for the treatment plant located at Herman Street are virtually completed and tenders could be called in a few days."

The other letter to council was not read at the council meeting.

CAR FLATTENED

NEWTON, Mass. (AP)—A Boston motorist escaped without injury Monday night when a heavy trailer truck body overturned behind his car. Donald Mason, 22, kicked out a window to free himself from his wrecked automobile.

CONFESSIONS

Recently Norborne Borins, a prominent barrister, suggested in an address to the Ontario Magistrates' Association that confessions should be excluded entirely from criminal trials.

Mr. Borins' suggestion has been dealt with in sympathetic editorials in at least two Ontario newspapers, the Hamilton Spectator and the Kingston Whig-Standard.

"It is my opinion," said Mr. Borins, "that few confessions, although admitted in evidence, are really made freely, and with an understanding and willing mind born in penitence and remorse. The risk and danger is so great that perhaps the suggestion that confessions be entirely eliminated from evidence is the proper one."

The Hamilton Spectator refers to the fact that "certain public officials, though an infinitesimal number in Canada - - have been known to use force in compelling a suspect to confess," while the Whig-Standards remarks that "there have been some rather disturbing cases lately of policemen dealing brutally with suspected criminals in order to extract confessions from them."

Though we would accept the Spectator's estimate that the number of police officers who resort to such methods is very small, we are not at all certain that the same comforting thought can be accurately applied to cover the number of instances of such abuse. Even a few policemen indicted during a large number of suspects in the course of a year, and for every case of brutality which comes to light there are probably a dozen about which the public hears nothing.

Even one case would be too many.

If a confession is really freely given, then why cannot it be obtained in open court? Are we to believe that in every case where an accused person signs a confession and then endeavors to repudiate it at his trial, it is because he has had a change of heart?

But to regard Mr. Borins' suggestion as a cure-all and a positive safeguard against abuse of suspected criminals by the police would be a serious error. Even if the police cannot use an accused person's confession in court, they can make use of it to search for other facts which would lead to his conviction. Indeed, in the words of the Spectator, "Mr. Borins carefully agreed that police officers should still have the right of interrogation when investigating a crime." There will then still exist the danger that a few misguided police officers will abuse this right. The only real safeguard is unremitting vigilance by all in authority against the spread of this practice.

DREAMS CAN COME TRUE

Are you a dreamer? If you are, there is no need to worry about it, as long as you are a constructive dreamer and not one who dwells in a world of fantasy. The world has known many constructive dreamers. In fact, few of the world's great leaders in business, industry or politics would have reached their celebrated heights without dreaming.

A dream is actually an idea. What the dreamer does with his idea can mean the difference between leading a static life or a rich one. Before we proceed further, permit us to interject here that riches do not necessarily mean financial wealth.

The greatest dreamer of all time was Jesus. He did not amass a great fortune in real estate, money or precious jewels. What He did achieve, though, has never been duplicated. He was the Son of God and, being such, He was perfect, but He was a dreamer. His dreams came true, because He brought Christianity into the world. But Jesus paid the supreme sacrifice - - His life - - for the realization of His dreams. That was, perhaps, man's first inkling that no one can get something without giving or preparing to lose. Jesus never thought of failing, He dreamed only of succeeding.

What is the point behind this discourse? Simply this: If you dream of success, you can be successful. All you need is impetus, faith, courage and stamina and you will succeed in whatever venture you set out on. But remember, you must first dream of success until it becomes an obsession.

DIFFICULT PROBLEM

Solving problems of collisions in the air is doubly difficult because, unlike other traffic difficulties, they can't be written off as the fault of women drivers. (Hamilton Spectator.)

JUST FOLKS

(Copyright 1958, Edgar A. Guest)

By EDGAR A. GUEST

PUNISHMENT

I heard a little fellow
Who was thin and spare of frame
Discussing pugilism
And heroes of the game.
I heard him sneer and chuckle
At the things the papers said
About the fighter's gameness,
Taking blows in ribs and head.

"It is to laugh," he murmured,
"When they talk about his grit,
And marvel at the punches
That he didn't mind a bit.
Our punishment he stood for
Showed his courage to be fine;
Let me tell you, on my honor,
I have made that fellow whine.

"Yes, I've made him beg for mercy,
I have made him shrink in fear;
I have made him howl in anguish,
And I've made him shed a tear.
He's no braver than the others
Nor built on a stronger plan."
"Who are you?" I asked the stranger.
"I'm his dentist," said the man.

De Gaulle—Difficult Man

Montreal Gazette

France will now be led by a difficult man.

"Under an impassive, imperturbable demeanour," wrote Sir Winston Churchill in his war memoirs, "he seemed to me to have considerable capacity for feeling pain."

And President Kennedy, in his comments on France: "I personally liked General de Gaulle, as I presume him many fine qualities. We felt that those qualities were marred by hypersensitiveness and an extraordinary stubbornness in matters which appeared inconsequential to us."

But only to a difficult man would the French turn now in its difficulties.

The government has dissolved itself by its own indecisions. The succession of men who headed the two almost powerless governments of France since the end of the war could not, faced by a difficult men, they had to compromise as best they could to stay in power - - as have all they did.

A nation weary with the dynasty of its own will, has now put its faith in a leader whose temperament has been characterized by a hypersensitive stubbornness on big matters as well as small.

Only a difficult man would have gone against the whole official thinking of the 1930's to see the matter, and would have declared, even to the French cabinet, that "there could never hope to repel a German attack with the help of a French army subordinated officer himself, he had the indignation to resign as a major-general during the General Maurice Gamelin, the supreme commander in the assembly of the German attack was imminent; he advised an alliance with Russia when the attack came and French divisions were destroying Gamelin's successor, General Weygand, raised De Gaulle to the rank of a general.

It was only a difficult man who would refuse to share in the decision that came over France after Dunkerque. "Overwhelmed," De Gaulle said, "but France has not lost the war." And he fought on, with the Free French forces survived. Though Sir Winston, in his assessment, "the Cross of Lorraine a heavy cross to bear, he could also say of De Gaulle that the Cross of Lorraine "flies in the Constable of France."

The allies of France have mostly come to share the opinion of Sir Winston, that there is no alternative to De Gaulle. Allies, and Frenchmen, alike would scarcely be happy with a succession of Governments like those of the past long as they refrained from making decisions.

But difficult men always raise anxieties. For some five years there has been a kind of political silence. But before that time, he was speaking out. Often what he said in his announcements now makes uneasy reading, with the benefit of 1958 AD, and his proposals for direct and solitary French negotiations with Russia.

There has also been his curious way of insisting on France's third person, even calling himself "le Grand Charles."

But he is human, certainly. But he himself has long believed that the difficult man of history, the one who plays in great events have to be difficult. In his book, "The Army of the Future," he said, in 1934, writing in 1934:

"Human nature, the singularity, the self-sufficiency of a man made for great deeds is not popular except in critical times."

It such a temperament that of the dictator? De Gaulle himself recalled that he might have become a dictator. And he has said that no man would seek to become a dictator after the age of 67.

Certainly no better description of how a dictatorship comes about, or how it ultimately fails, could be found than in these words he wrote in The Edge in 1932:

"What is a dictatorship. Doubtless its first steps may seem attractive. Amid the enthusiasm of some and the resignation of others, the will of the order which it imposes and with the help of the spectacular, flagellant sweep of propaganda, its ostentation call up first assume a dynamic aspect which covers agreeably with the anarchy which preceded it.

"Then it is the fate of dictatorship to exaggerate . . . The nation becomes a machine which the regime progressively and frantically operates . . . In the end, the living energy of the whole people declines crumbles in sorrow and blood."

There could be no better description of the conditions under which General de Gaulle came to power, and no better description of the dangers that lie in those conditions.

But there is considerable reassurance in the fact that both descriptions were written by "the Constable of France."

This Wife Really Cruel

Windsor Star

How cruel the female of the species can be is illustrated in a divorce case in England. The husband always had a distaste because his wife refused to help him on with his trousers after he became disabled due to a fractured collar-bone.

One must be able to understand this poor man's plight. There is nothing more demeaning to a man than the indignance of trousers. Furthermore, he is almost entirely immobilized by styles devoid of pants. He can't go to the village pub for his pint of bitters. He can't rev-have his cronies in for a some of darts. And, of course, the benefit of the anonymity of the and crumpets with members of the ladies' group.

Only a female of sadistic cunning could contrive such helpless belt tactics against her spouse.

Should Make Tractors Safe

St. Thomas Times-Journal

Tuesday's papers contained a report of a fatality being recorded to death when a tractor he was driving toppled over as he veered into a roadway. Wednesday's papers cogained a report of a farmer's death crushed to death when a tractor he was driving struck a stump that tires and toppled over upon him. And on the same day the young wife of a farmer, father of two children, was killed in exactly the same way, in these cases the tractors also were in motion. Probably there were other fatalities elsewhere in Canada, since there have been more since.

A tractor is almost indispensable to farm work nowadays as a timesaver, and to replace the horse that is no more. But for the purpose it is very useful, but it is a dangerous vehicle to handle, and has done so since the first other piece of machinery to convert the farm into a dangerous a place as the factory.

The factor has caused more deaths and injuries on farms than ever due to any other kind of machinery, not excepting by a long shot, the automobile. It seems to overturn far too easily. Make a sudden turn, hit a stone or a solid clod—or striking the roots of a tree—and over it goes. One of the unfortunate features about these accidents is that they often happen out in a field, and the victim is not discovered until it is too late to bring aid.

It is high time the designers concentrated their efforts on producing a tractor that will hold the ground much better. To city drivers it never ears appear to go lower and lower as each new model comes out, and tractor driver seems to be perched away up, making the vehicle top heavy.

We throw out the suggestion that the Canadian Department of Agriculture offer a prize for a new design of tractor that will not overturn from any normal hazard of working on the land. Then the best reward of all would be a big business in the new type.

THE PACKSACK

By GREGORY CLARK

At this time of year, the Packsack's custom is to write piece about canoeing, and to clip out and tuck on cottage and boathouse walls.

The Indians who invented the canoe never paddled more than a few yards from shore even on calm days. If an Indian had to get across a lake a mile wide, he would paddle three miles around its shore. The tremendous journeys the Indians and voyageurs made up the St. Lawrence, through the hundreds of miles of the Great Lakes and up through those continuations of the Great Lakes far across the northwest and west, were all made hugging the shore. And they were interrupted for days at a time when the water was too rough along those shores. Champlain's journals and the Jesuit Relations found this fact out.

To this day, Indians and woodsmen can always spot a green horn in the wilds when they see a canoe out in the middle of lake or river.

"Besides," they say, "what is he to see far out from shore? Just water. It is close along the shore that everything of interest is to be found. There is more wisdom in one mile of shore than in ten miles of bush or a hundred miles of water."

So, for all the reasons we can think of, a good canoeman is always along the shore.

OFF THE RECORD

By Ed Reed

"You're sick and tired of living in this dump! We'll make that season for selling - - - illness."

LOOKING BACKWARDS

GLEANINGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO

June 4th., 1938

Mrs. George G. Wright, president of the Women's Canadian Club, Mrs. W. C. Mikel, past president; Mrs. J. W. Kinnear, past president, and Mrs. C. E. Argue, vice president, are attending the Canadian Club Convention at the Windsor Hotel, Montreal. The delegates are to be entertained by the Lieut. Governor of Quebec at his residence, Spencewood, on Saturday afternoon.

Five miles of concrete pavement will be built this year between Cobourg and Grafton, Mr. Frank Pirie in Prince Edward County.

The Tweed Old Home Week, which will be from August 1st to 7th, A. J. Maynes is the secretary of the management committee.

Mrs. Thomas Dack, Miss Ethel Dack and Mrs. Donald McIntosh, Sinclair Street, have left to visit friends in Toronto and London.

Mrs. Thomas C. Thompson, Albert Street, is spending a few days with relatives in Hamilton.

30 YEARS AGO

June 4th., 1928

Mrs. C. T. Coxall, Mr. Stanton Coxall and Mr. and Mrs. J. W. Shier have returned to Tamworth after spending a few days with Mr. and Mrs. George A. Reid, Queen Street.

Miss Hilda Day of St. Catharines is the guest of Mrs. H. A. Singer, Alexander Street.

Mr. and Mrs. John G. Meagher have left for Niagara Falls, N.Y., where they will visit friends.

"From our file copy at this time in 1898: A band of gypsies passed through town this morning. They attracted considerable attention. Mr. H. Corby's fine steam yacht the Skylark took her first sail on the bay this afternoon, since being overhauled.

40 YEARS AGO

June 4th., 1918

The Rev. W. Harris Wallace has assumed his duties as pastor of Victoria Avenue Baptist Church.

Mr. Arthur McGee of Kingston was in town today.

Mr. Arthur H. Brown, with little daughter of Schreiber, Ontario, is visiting her parents, Mr. and Mrs. John B. Harker, West Bridge Street.

Mrs. Wm. Ashley, Dundas, is visiting friends here.

50 YEARS AGO

June 4th., 1908

Messrs. S. T. Vandervoort, B. Hoole and Harry Ketcheson left on Saturday morning, assisted by a barn raising near Port Hope recently.

Mr. J. Carney of Hammond, Indiana, is visiting Mr. Frank P. Carney, Victoria Avenue.

Messrs. Frank Robinson of New York City, William Alderman and Hugh Farrell of Rochester, N.Y., are visiting relatives here.

The Rev. Canon Grout, who is visiting his sister, Mrs. Henry Carew, Albert Street, delivered the sermon in St. Thomas' Church, Sunday morning.

Mr. W. J. Magrath has instructed Mr. J. G. Davison, auctioneer, to sell by public auction on Hillside Street for sale at auction on June 9th.

Strength for The Day

DR. EARL L. DOUGLASS

OPEN-MINDEDNESS

Someone has said that the open mind is like the open mouth — if it doesn't close on something solid, it is pretty silly.

Few may people, open-minded-ness means opening the mind to everything that comes along and assessing all things at about equal value. Anything new is not good, everything old is bad. Any garrulous, empty head who holds forth on anything with his mind open to any idea but to be listened to with deference, gives on the impression that open-mindedness is a virtue. And certainly it is a virtue when utilized with a grain of common sense thrown in. But open-mindedness, stark and unrelieved by human experience a n d knowledge, is far from a virtue.

The open mind that is open at morally sound.

both ends and allows knowledge to fall out again about as fast as it came in, is far from being a virtue. The open mind knows and accepts everything new as good and condemns everything old as bad. The open mind, The open mind that becomes an end in itself, is neither simple nor easy to utilize. It has to be possessed by the already wise, the truly tolerant, the

TODAY'S TALK

By GEORGE MATTHEW ADAMS

TAKE TIME

Take time—to prepare yourself of time is to get a free ride on its coat-tails.

Take time for worship. Time is the only source of power we have.

Take time to think. It is the source of purpose.

Take time to play. It is the secret of perpetual youth.

Take time to read. It is the fountain of wisdom.

Take time to be friendly. It is the road to happiness.

Take time to love and be loved. It is the privilege of the gods.

Take time to look around you. It is too short a day to be selfish.

Take time to laugh. It is the music that helps us dance with life.

Take time—to prepare yourself of time is to get a free ride on its coat-tails.

In the majority of cases people abuse time. They drive it by their worrying, their struggle pains, and their over-wrought nerves. There is always plenty of time, even though you might miss your train or plane. Time was invented to save people from jumping at conclusions, and it owes them to be kind to their bodies and minds. Time is essential—haste is not a wholesome thing.

Men have died on the spot while yelling over a brilliant baseball catch or a home run with the bases filled. Just remember that every action in life has its particular value. And as enthusiasm is it never should be encouraged merely to contest with time. Waiting is often a wise decision!

To Your Good Health

By: Joseph G. Molner, M.D.

RHEUMATIC FEVER IS A SPECIFIC, DANGEROUS DISEASE

"My son, at the age of 13, started to get cramps in his thighs. They were so bad he would yell on the floor. All he could do was rub his thighs and get him up on his feet. These attacks lasted about 10 minutes . . ."

The above is part of one of a number of letters about such pains. These are not "growing pains" because there are no pains associated with the process of growing — with one exception, and it is a bit remote.

However, where there are pains, there are causes. "Rheumatism" is an antiquated general term which doesn't really mean much. It's a catch-all phrase applied to aches when we don't know the cause. How much better it is to find out the real causes if we can.

In the youngster whose joints become painful, always keep rheumatic fever in mind. Rheumatic fever, as opposed to "rheumatism," is a very real and specific disease. It is dangerous. Indeed, it probably is as great a killer and crippler as there is in childhood diseases.

But while one should always suspect rheumatic fever, it follows a fairly definite pattern. It will start with a sore throat by about 10-to 14 days. The child will have at least a fever, a fast pulse, and usually sore, hot or swollen joints. If a condition starts like this, that appears, then it is time, immediately, to have the physician employ the proper laboratory tests to determine definitely whether it is rheumatic fever.

MUSCLE STRAIN

Now as to other pains, remember that children, too, are subject to muscle strains. Young and healthy children may not develop such pains as readily as we old desk-fillers do. On the other hand, if the young ones run hard, play hard, climb things, fall off things, lift things, wrestle, yank and generally subject themselves to all kinds of physical strain.

The aches or cramps that follow a hard, strenuous day usually occur at night and can be very painful to the child as well as distressing to parents. Heat, rest and massage usually relieve them.

Should also suspect mechanical difficulties, especially in the — upper shoes and weak arches. In some children, a low milk intake (calcium deficiency) may be a factor.

Further, in growing children the epiphyses (ends of the bones) may be irritated by over-exertion or over-use. These areas are not solidly joined to the main shaft of the bone until the mid or late teens — these areas, you see, are designed by nature so they permit change and growth until the bones have reached full adult size. Hence they can, in childhood, be a site of soreness or aches if overstrained.

But to go back to the commonest cause of aches and cramps — too much strenuous activity — a little moderation in bowling, bike riding and other sports and pastimes may solve the problem readily. It may take youngsters quite a while to learn how much they can do without absorbing too much punishment.

* * *

"Dear, Dr. Molner: I have a full upper denture and a lower bridge. Can this cause me to have a goiter so much? I've had several dentures before, but I seem to get the same trouble. Or can this be nerves? — G.B."

A poorly fitting denture can cause irritation, and hence nervousness, but that upsets the stomach upset — but since you have had the dentures adjusted I definitely don't think that's the cause of the trouble. Chronic nervousness has a physical effect of one sort or another. The stomach is one area that is very apt to be affected by nervous tension.

Note to M. Mets: No, no danger from taking clear gelatin once a day. It is not a drug. It is food — a food very high in protein.

Tested tips for all types of diabetics are given in my booklet, "Diabetes — The Sneaky Disease." To receive your copy, write to me in care of this newspaper, enclosing a large, self-addressed stamped envelope and 25 cents in coin to cover handling.

HISTORIC BELLEVILLE

(Article thirty-two contributed by members of the Hastings County Historical Society.)

THE VALLEY OF THE TRENT

Books on the history of the Province of Ontario are few and far between.

Undoubtedly the Ontario Government is to be congratulated for making available in pamphlet form a representative selection of the more interesting and significant records of the past".

The volume entitled "The Valley of the Trent" is the first in a series that will eventually deal with all sections of the province. The Ontario Government is contributing the cost of publication and editing of the series, while the Champlain Society is preparing and publishing the series.

The editor of the first volume is Edwin C. Guillet, who is well known for his books and articles on the history of Ontario, including among them "Early Life in Upper Canada", and "The 1798 — 1948".

"The Valley of the Trent" contains five references to Belleville, Hastings County, or to the Bay of Quinte, since a later volume in the series will deal with this area. However, there is much that is of interest to local residents.

(1) Extracts from Samuel de Champlain's account of his journey down the Trent system in 1615;

(2) A petition from settlers at the mouth of the Trent River asking that about 50 acres may be surveyed and laid out in town lots as, in the petitioners opinion, "the increasing wealth of this and the neighboring country stand in need of a village" (1834);

(3) Several descriptions of lumbering on the Trent River and Mirimi;

(4) An account of a meeting at Cobourg in 1836 of mechanics and laborers who require hours of work. This meeting resolved that "the number of hours which we now work is nothing better than domestic slavery, and that therefore its attendance would 'not labor' more than ten hours for a day's work";

(5) An account of a political meeting held in Belleville;

(6) Selections from the writings of W. Desbarats, Belleville sheriff of Hastings County for almost thirty years in the mid-19th century;

(7) Selections from the writings of his wife Susanna Moodie, the author of "Roughing it in the Bush", a pioneer classic. Both Desbarats and Mrs. Moodie lived for many years in Belleville in the stone house at the corner of West Bridge and Sinclair Sts.;

(8) Several illustrations depicting some early industries as the Marlbank Iron Mine at Marmora 1872, the Williams Mine at Marmora, 1872, and the North Hastings Gold Mine, 1866.

Mr. Guillet, the Champlain Society, and the Ontario Government are to be congratulated on this first volume. Subscriptions to the whole series of the Bay of Quinte are eagerly awaited.

"The Valley of the Trent" can be consulted at the Corby Public Library in Belleville).

Five-Year Radio, TV Contract for Bing Crosby

NEW YORK (AP)—The American Broadcasting Company said Tuesday it has signed Bing Crosby to a five-year radio and television contract. The crooner has shied away from regular television for years, making only occasional spot appearances.

The contract, as outlined by ABC, calls for Crosby to appear in a minimum of two 90-minute specials on TV each year.

In addition, Crosby and ABC will be partners in the production and development of 10 new television program series during the five years. Crosby will be available to star in them.

Cubs, Scouts L.A. Sponsors Banquet

DESERONTO — About 30 fathers were present with their sons for the first "Father and Cub" banquet to be held in Deseronto. The Cubs, impeccable and shining in their uniforms, were a credit to their parents as they proudly led their fathers to the banquet table.

The supper was provided by the newly formed Women's Auxiliary of Cubs and Scouts and was a tribute in itself to the culinary proficiency of the ladies. The tables were tastefully decorated in the Cub colors of yellow and green.

At the end table Canon Coleman presided as chairman and was flanked by F. Barnett, district commissioner and Mrs. Grace Martin, Cub leader. Other head table guests were: Earl Brant, Scoutmaster; K. Fraser, Jr., and Thomas Warren of the Lions Club, who sponsor the Cubs and Scouts.

The toast to the fathers was proposed by Cub Freddy Punchard, and was responded to by Charles Gray on behalf of the fathers.

Commissioner Barnett spoke to the gathering on the "Growth of the Cub and Scout Movement in Ontario," and gave the fathers some facts about the benefit of Scouting. He also presented a badge to Cub Freddy Punchard and complimented him on his excellent work.

G. Lott, president of the Lions Club, thanked Mrs. Martin for her untiring efforts as Cub leader and advised her the community was firmly in support. Mrs. Martin, in reply, asked the fathers if they could supply cars to assist in transporting the Cubs to the Cuboree to be held on June 7th.

The meeting was closed with the showing of moving pictures through the courtesy of D. R. Cassie.

HISTORIC HOP

First aerial crossing of the English channel was by Louis Bleriot's monoplane on July 25, 1909.

CONSUMER PRICE

(Continued from page 1)

The price index of 30 basic industrial raw materials at the wholesale level edged lower to 228.6 in the four-week period between April 25 and May 23. This index is based on 1935-39 prices equalling 100.

The April 25-May 23 level of this index was 8.9 per cent below the corresponding figure a year ago. Commodity price declines in the period were led by beef hides, cottonseed oil, raw rubber and raw cotton. Increases were reported for hogs, raw wool, linseed oil and tin.

The index of Canadian farm products prices, also based on 1935-39 equalling 100, rose to 224.8 from 222.2 in the four-week period. The animal products index increased to 292.5 from 281.1 while the field product index declined to 137 from 162.2, reflecting a sharp drop in potat prices on eastern markets.

Canadian Tourist Is Killed in Japan

OKAYAMA, Japan (CP)—Canadian tourist John Ross Markham, 47, of Hamilton, was killed in an automobile accident early today, police reported.

Markham landed in Japan April 19 with a 60-day visa, a spokesman said.

Police said Markham was riding in a Renault with Australian Jon Jesok, 32, through Okayama City, 370 miles southwest of Tokyo, when the small car was struck from the side by a truck. Jezek was gravely injured.

Father Will Hunt For Son Missing In Abitibi Area

MONTREAL (CP) — C. Redman Bouck of Massapequa, N.Y., leaves today by car for Quebec's rugged Abitibi region to continue a search for his son, John, 26, who disappeared in the area April 21.

The father arrived here Tuesday and conferred with Quebec Provincial Police about organizing a large-scale search of the dense bushland near La Sarre, Que., about 350 miles northwest of Montreal.

Farmer Edward Gagnon of Val Paradis, Que., last saw the missing man, a student at the Massachusetts Institute of Technology, Cambridge, Mass., and a 1953 graduate of Yale University, New Haven, Conn.

Gagnon, 57, told police he saw Bouck park a car and head into the woods.

The missing man's father was accompanied here by another son, Ben, 24, a student at New York's Columbia University.

Detective Marc Barbeau said his men heard about the disappearance April 26 but "we thought he was a prospector." He said they later had searched "three or four times but we didn't go deeply into the bush."

FRENCH ATTACHE QUITS

STOCKHOLM (Reuters)—Jean Lemperierre, 34, Tuesday night gave up his post as commercial attache at the French Embassy here, declaring he would not work for a government "characterized by an open, personal dictatorship."

FINISH PIPELINE BY END OF SUMMER

By the end of the summer, the final 853 miles of the $378,-000,000 Trans-Canada Pipe Line system will be laid and by November, Alberta gas will be supplying eastern Canadian markets. Here, air-drills prepare to blast before the 30-inch diameter pipe is put in place. Over 3,000 men are working on the twelve unfinished spreads in northern and central Ontario.

CHASE BUFFALOES

OLD ORCHARD BEACH, Me. (AP) — A local woman awoke the other day to find two strange beasts in her meadow. They were buffaloes which had wandered away from the animal fair. When the keepers arrived to take the animals back, they also found three deer, chased them, but they got away. It was later they learned that no deer were missing.

MEASLES PERSIST

HAMILTON (CP) — A measles epidemic which spread among city children in the winter and declined in March, appears to be persisting. Dr. Lloyd Clarke, medical officer of health, said Friday. About 320 cases are under observation. At the winter high point nearly 6,000 cases were reported in one month.

HIGHWAYMEN GET $5

BRANTFORD (CP) — Two thieves robbed Mrs. Ruth Hanson, 29, of nearby Burford Township, of $5 Saturday night after they stopped her car on Highway 53. Mrs. Hanson told police she was driving alone when one of the men jumped into the car's path and waved her down. The $5 was all she had with her.

SOCIAL and PERSONAL

"AT HOME"

Mr. and Mrs. George Ellarby, 64 St. Charles Street, will be "at home" on the occasion of their 50th wedding anniversary, Saturday, June 7, from 7.30 to 10.30.

* * *

Mrs. Mary Semark, 38 St. Charles St., is a patient in Belleville General Hospital.

* * *

Mr. Walter Jewell, and the Rev. James S. A. Spearman attended the Houghton College board meeting, in Houghton, N.Y., Thursday through Saturday of last week, and were present for the graduating exercises, when two from Belleville Wesleyan Methodist Church, Miss Joan Anglin, and Mr. Edward Dow, received their Bachelor of Arts degrees.

Belleville Nurse Wins Award At Graduation

One Belleville and two Belleville district girls were among the award winners announced by the Kingston General Hospital School of Nursing at graduation exercises held Monday evening.

Student winning the award for kindness to patients and for proficiency in bedside nursing was Barbara Joyce Bennett, of this city, while Catherine Ruth Hart of Madoc, won the obstetrical nursing award, and Miss Annabelle Pearce of Batawa, the medical nursing award.

A former Belleville girl graduating was June Ramsbottom, daughter of OPP Inspector Harry Ramsbottom and Mrs. Ramsbottom, Inspector Ramsbottom was formerly stationed at Belleville, serving here as staff sergeant.

This - and That

By HARRIET STEVENS

Going Shopping?

This is the time of the year when shopping is the special delight of the lovers of the great out-doors, both men and women. Why even Arthur Godfrey couldn't wait the other night to get back to his estate to fry a steak. He fried a steak indoors over an old charcoal fire before millions of viewers. You could smell that special appetizing smell peculiar to outdoors cooking right through the screen.

Our Belleville and Trenton stores are right in step with the season. Everywhere you go you see merchandising to please. Barbecue articles as bone, rakes, spades and tools requiring the master of man are made to be attractive. More leisurely conveniences such as hammocks, swings, comfortable lawn chairs and the like beg to be purchased for future pleasure use on hot days or out-of-doors. Then there are all the gadgets for the summer cook be he a motoring camper, a picnicker or a cottage fan. The lure of these is whetted by lots of tasty looking bulbs that are sure to catch the unsuspecting eye of native fish. If you are arduous outdoor person, you can purchase to your heart's delight in attractive attire and equipment whether it is on the tennis court or the golf links.

Canada's unsurpassed country and lakes call to all North America and nowhere is there to be found gift ground superior in diversity and satisfying pleasure than here in the Bay of Quinte (from beautiful Prince Edward county to beautiful Algonquin Park). Where nature defaults, man challenges by doing it himself and hand in hand they go with our fine stores supplying any and every need to assist in the preparations for the summer months ahead. So to everyone whether he be a prospective camper, tourist or stay at home, T & T recommends that you browse through the Belleville and Trenton stores where you will find anything your need and many things you never dreamed of.

Good shopping!

* * *

T & T is happy anytime to report some outstanding distinction that comes to the local ladies of our community. A friend of yours and of this column has just received notable distinction recently. Mrs. D. I. MacKinnon of Belleville has been invited to address the international congress of Home Economics to be held at the University of Maryland this summer. She is the only Canadian to be asked to be a guest speaker.

Many of you know her as Dorothy Batcheller, because this is her name in the field of home economics. For four years Dorothy has lived in Belleville and she has given generously of her talents and time to community life. She is past president of the Belleville and District University Women's Club, besides many other activities. She is at present provincial director for Eastern Ontario for the Canadian Federation of University Women's Clubs.

When one of our outstanding women has been distinguished by herself, she contributes to the stature of our community, as T & T is proud to salute Mrs. MacKinnon. She is Home Economics director for the Poultry Products Institute of Canada.

* * *

T & T was shown a brochure yesterday published by the Department of Travel and Publicity. The prize winner Belleville is featured. We do not pose as literary critics but we certainly does not think this particular effort is very good publicity for Belleville. It calls the Ontario School for the Deaf and Dumb which has not been used for years. It is a minor quibble, but it is notable because this brochure goes out to thousands of readers. The Belleville cemetery is justifiably extolled for its beauty and its history and is worth. It is suggested that people are just "dying" to see it. We are not certain whether this is corny or distasteful in a serious publicity pamphlet. You cannot help but come to the conclusion after perusal that Belleville has one hotel (Bonnie) and one motel outside. Belleville is one of the most beautiful cities in Ontario and is entitled to more serious and respectful treatment and encouraging tourists is the desired objective.

Mr. and Mrs. Cecil Rhodes Avery are shown signing the register following their recent marriage in Madoc Presbyterian Church. The bride is the former Miss Margaret Anne McCaffrey, daughter of Mr. and Mrs. Robert McCaffrey of Madoc, and her bridegroom is the son of Mrs. Guy McLaughlin, of Hartland, New Brunswick. (Photo by McCormick's Studio, Belleville.)

AVERY — McCAFFREY

A lovely double-ring wedding took place in Madoc Presbyterian church on Saturday, May 17, at 2.30 p.m. in the Presbyterian Church, Madoc, when Margaret Anne McCaffrey, only daughter of Mr. and Mrs. Robert McCaffrey, of Madoc became the bride of Cecil Rhodes Avery, of Hartland, New Brunswick, son of Mrs. Guy McLaughlin. The Rev. Dr. MacLean, of St. Andrew's Presbyterian Church, Belleville, officiated before a background of yellow snapdragons, mauve "mums and ferns. The church pews were designated with quets added a delightful nuptial with white satin bows, centred by a accent. spray of snapdragons.

Mrs. Wesley Hulin, church organist, presided at the console during the nuptial organ, and played a semi-recessade by the bridegroom's mother, as tional program before the ceremony, and the soloist, Mrs. Walter Arm- who sang "The Lord's Prayer" strong of Madoc, who sang "The Voice that Breathed O'er Eden," before the ceremony, and the "Wedding Prayer," during the signing of the register.

Given in marriage by her father, Mr. Robert McCaffrey, the bride was radiant in her wedding gown, fashioned by the bride's mother, with fitted, lace bodice having short lace sleeves, and over skirt of white tulle over taffeta. She wore a coronet of seed pearls and encompassing shoulder length veil of tulle illusion, and long, matching, lace bag with mitts, and carried a semi-cascade bouquet of red garnet roses mingled with white stephanotis. A turn.

The pearl necklace completed her ensemble.

Mrs. William Brenair, of Queenville, Ontario, as matron of honor, was gowned in yellow nylon with long matching nylon gloves, and matching headdress and white shoes. She carried a nosegay of yellow mums centred by yellow roses.

Mrs. Walter Grey, of Hartland, New Brunswick, attended his mixmaster and pieces of crystal.

Mr. and Mrs. George Elvin MacDonald are shown cutting the wedding cake following their marriage in Cannilton United Church. The bride is the former Margaret Ruth Boyd, daughter of Mr. and Mrs. Alden Boyd, of Belleville.

Mr. and Mrs. George C. MacDonald of Corbyville, Ont. (Photo by McCormick's Studio, Belleville, Ont.)

MacDONALD — BOYD

Tall, white standards of white and mauve chrysanthemums, mingled with tulips and baby's breath formed a lovely setting in Canniton United Church, on Saturday, May 17, at 2.00 p.m. for a pretty wedding when the bridegroom, W. R. Merrick, assisted by the Rev. R. J. McCrea, united in marriage, Margaret Ruth Boyd, of Belleville, daughter of Mr. and Mrs. Alden Boyd, of Corbyville, son of Mr. and Mrs. George C. MacDonald. The guest pews were designated by white satin bows.

Mrs. H. Farnham, church organist, provided the wedding music, and, immediately before the ceremony, sang "The Wedding Prayer," before the signing of the register, and "O Perfect Love," during the signing of the register.

The bridal procession, given in marriage by her father, Mr. Alden Boyd, wore a charming bridal gown of white, embroidered net over taffeta, featuring a full bodice with Chantilly lace yoke having a scalloped, sweetheart neckline, and short, Chantilly lace sleeves. The bouffant skirt was in waltz - length. She wore a semi-pillbox headdress of matching lace with finger-tip veil of tulle illusion matching gloves, and carried a white Bible crested with red, Sweetheart roses, and white stephanotis, with trailing, white streamers knotted with rosebuds.

Miss Joan MacDonald, sister of the bridegroom, as maid of honor, was attractively attired in aqua nylon over taffeta with molded bodice and round neckline and tiny, short sleeves. She wore a matching headdress, gloves, and shoes, and carried a nosegay of white and aqua-colored baby 'mums.

Miss Beth Boyd, sister of the bride, as bridesmaid, wore yellow nylon over taffeta similar in style to that of the maid of honor, with matching headdress, shoes, and gloves, and carried a nosegay of yellow and mauve 'mums.

Mr. Bruce Walker, of Sharbot Lake, was groomsman; while Mr. Fred Rumigge, and Mr. Bitchie Philp, both of Corbyville, were ushers.

Following the ceremony, a reception was held in the church parlor, where the bride's table, beneath cascading pink and white streamers and white wedding bell, was prettily appointed with white damask and centred by an all-white three-tier wedding cake topped with white and green beneath a arch of daisies, and misted about the base with white tulle, clusters of sweet peas, and flanked by crystal candelabra, and the bridal bouquet.

The bride's mother received, wearing a sheath style silk print in rose and brown, with beige cluster, and rose and brown lingwith matching cluster and beige hip sash, beige accessories, and corsage of pink and yellow bronze 'mums. The bridegroom's mother assisted in the receiving line, wearing blue printed silk crested with red, Sweetheart roses, and white stephanotis, with matching cluster and corsage of pink and blue carnations.

For travelling to Ottawa and points east, the bride chose a grey wool ensemble with pink hat and gloves, black patent shoes and purse, and white orchid corsage. Upon their return Mr. and Mrs. MacDonald will reside at 66 Charlotte Street, Belleville.

Guests were present from Oshawa, Lindsay, Hamilton, Sharbot Lake, and Belleville.

Prior to her marriage, the bride was entertained at a miscellaneous shower given by Mrs. Bob McMullen at the home of Gordon McPherson; and a personal shower at the home of Mrs. George Boyd, and at a miscellaneous shower at the home of Mrs. Jackie Hultquist, for the girls of the Northern Electric.

BORN WRITER

Marjorie Pickthall, the Canadian poet, died in June, 1922. She wrote her first poems and stories in childhood.

Christ Church Parish Guild Holds Most Attractive Blossom Tea

Cloudless blue skies and brilliant sunshine at noon; watch-perfected pie crusts and meat holders, baby sacques, embroidered pillowslips and quilted cushion covers, also two fine quilts, the "Dutch Girl" and the "Double-Wedding Ring"; tea cloths, doily clothes and some most attractive aprons.

The homecooking table, with its centre of lilacs, was laden with mouth-watering cake rolls, date loaves, cup cakes, chocolate squares, devilled eggs, birch-day cakes adorned with roses, maple creams, lemon-filled cup cakes, mustard pickles, relish, raisin cookies, taffy, and pies of many varieties. The conveners of these confections were: Mrs. George Waldin, Mrs. Charles Bishop, Mrs. M. Nolan, Mrs. H. Thompson, Mrs. D. Bradford, Mrs. F. Lasier, Mrs. A. C. Dack and Mrs. Gist.

NOVELTY TABLE

The novelty table, convened by Mrs. J. R. Sharks, Mrs. A. G. Cooper, Mrs. Mark Vanner and Miss Florence Fitzgerald, with its pretty garlands of interwoven mauve and yellow (as were all the other tables), was accented by lovely baskets of flowers, and had for sale an electric porcelain teapot, silver cream and sugar set, pyrex pie plates, pin holders, and a tray of tiny cacti and other plants; also centred in a mauve and white satin, crocheted lily cozy cover, turquoise jewelry, perfume, necklaces of beads, individual coffee percolator, plastic cup sets in blue, green and yellow; men's grey ties, bottles of Evyan powder and crocheted and knit Peter Rabbits.

Assisting in the tea room were Mesdames James Wright, E. Kolebaugh, G. Lafferty, D. Bylsma, George Diment, Bruce Bottum, W. Ashton, Phil Kyle, E. Schofield, F. Lang, G. Nix, E. Bradshaw, Phillips Till, G. Smith and Wes Green.

"The treasurers for the afternoon were: Mrs. R. Charlton, Mrs. R. Griffiths and Mrs. Clare Hayes.

The most delightful tea, brilliantly convened by Mrs. A. E. Wonnacott and Mrs. J. W. Gannon and successfully culminated.

Wife Preservers

In browning meat for a stew, brown only a few pieces at a time. This keeps the juices from flowing out of the meat.

Engraving Crest Talk Given at Welcome Club

Mrs. R. D. Carrigan presided at the June meeting of the Welcome Wagon Club held Monday evening in Lattimer's dining room.

Reports were read by Mrs. N. Stefan and Mrs. J. B. Secretary and treasurer respectively.

The tentative program for the forthcoming season was outlined by Mrs. D. E. Wick, program chairman.

Mrs. N. G. Beatty reported on the finished plans for the badge sale to be held next week, in Lattimer's store, and plans for a family picnic at Oak Lake on July 5 were enthusiastically received.

Mr. Paul Mercier, a prominent Belleville jeweller, spoke to the group concerning the many varied and interesting facets of his work and experience. Of particular interest was the method Mr. Mercier has perfected for engraving school and college crests on rings, bi-fashion "tools" (for the collegiate crew) and other attractive items. This idea has been developed with the use of the pantograph machine and is the "brain-child" of Mr. Mercier. He added that this method would give better and much faster service on all types of engraving. His display of engraved items, products of his method, showed how exquisite and intricate this work is on such a miniature scale.

Mr. Mercier was introduced and graciously thanked by the president, Mrs. Carrigan.

A rousing get-acquainted game of "Fortune Telling" was conducted by Mrs. D. E. Wick and Mrs. A.J. Fort, the prize winner was Mrs. A. F. Meurling.

During the evening, lucky draw prizes were awarded to Mrs. J. R. McCarthy and Mrs. N. G. Beatty.

For May social hostesses, Mrs. W. Keith and Mrs. J. Clay were the hostesses.

Prizes for the evening were generously donated by local firms and the club executive.

Recent Bride Feted With Many Gifts

A delightful evening was recently spent at the home of Mrs. Cenadine Chin and Mrs. Armstrong, when Mrs. Mary Kidd sponsored a miscellaneous shower in honor of Mrs. Ross Steeves (nee Muriel Leask), a recent bride married.

The Centre was beautifully decorated for the occasion by Mr. Wilbur Revoy, with baskets of lilacs, tulips, and Kiltsby springtime flowers, and a bride's table centred by a two-tier all-white wedding cake adorned with pink rosebuds, white pink and white streamers and white wedding bells added their special accent.

The gayly wrapped packages of gifts were placed upon a side table, also appropriately decorated in bridal theme.

Th evening was spent in a social get-together and the playing of bingo, after which Mrs. Steeves opened her many gifts, thanking each donor most gracefully.

Everything New and Gay In Paris Beachwear Show

By PEGGY MASSIN

PARIS (Reuters)—"Everything under the sun" is new and gay in the Paris beachwear and resort collections.

Shapes are abstract and easy, exuberant colors run the gamut of the rainbow, while fanciful ideas and accessories will be the password for summer.

Jacques Heim, newly - elected president of the Paris Syndicate of Couture Designers, shows one of the most amusing summer collections of holiday clothes. There are short play dresses and pinafores in transparent "camilette" effects, derived from a trapeze inspired silhouette, and worn over matching one-piece bathing suits.

POP-OVERS

"Pop - overs," cut like the Hawaiian covered dress, or cotton printed smock, are sheared off at mid-thigh length, faced under the hem with flounced polka dot ruffles. Other casual slip-ons for beach wear at Heim are sharply stylized, with billowing rounded backs, drawn into a tight bobble pendant binding the legs above the knees.

One-piece play suits or long-legged overalls also feature surprise back treatments with blouson or mock two-piece effects.

Inspiration at other houses is varied, but the homogeneous note is the ex-catching carnival look of costumes, paired with bright colors.

Maggy Rouff sends her bathing belles down the water's edge in high-waisted baby doll silhouettes, with the voluminous skirt divided low and gathered in under the crotch like Zouave trousers.

Jacques Griffe's most outstanding model is a black and white polka dot leotard worn under a full cut baby doll coat in turquoise corduroy.

Madame Mad, designing for Jean Paton, features a harlequin beachcoat in brown linen, with oval giant, two-piece collar made of tiers of "hot orange" petals, matching hat and shoes. Worn around the cone-shaped astronomer's hat in shiny black straw.

Madeleine Rauch, a sportswear specialist, adapts a schoolboy look for beach and resort wear, with three- and four-piece ensembles to mix and match at will. There are brightly-printed chemise shirts, paired with brief shorts and sun tops.

Chinese blue and white totem pole peak stripes are used for a dress with sailor collar in heavy poplin, with matching two-piece bathing suit and tall, skinny, plastic - lined beach bag. One-piece bathing suits stress the trend towards shoulder coverage, with rounded camisole necklines and brief shorts in contrasting bright shades, with short, belted tunics of terry cloth toweling.

Chemise 'n Skirt . . .

Banded overblouse and fully self-lined slim skirt, for a chemise two-piecer, in Pima (Sanforized) cotton, drip-dry.

Colors Melon, Shrimp, Mint, Yellow, Lilac Powder Blue, Royal Navy, Beige, Coffee, Brown, Black.

GOOD MANNERS

By Mrs. Beeckman

RENTAL AGENCY IS BOON FOR MEN IN WEDDING PARTY

Dear Mrs. Beeckman:

I'm a prospective groom, and our large, formal church wedding is to be rather soon. It's to be an afternoon wedding, and of course I want the men in the wedding party to wear formal daytime attire — cutaway coats, striped trousers, and so forth. My fiancee told me she read in your column the other day that nowadays this formal attire is practically always rented. Right? If so, how do I make this clear to my attendants? And am I expected to pay all the rental charges, or does each man pay his own? — Dave

Right . . . today, when most men have no need for formal daytime attire, and no wish to be bothered with the upkeep, practically all formal wedding attire is rented. Very sensible and practical, comparatively inexpensive, and today's authentic rental agencies have the know-how about supplying all the correct accessories. Tell Jerry about making your plan clear to your attendants . . . they will be expecting this practical news. The wise groom-to-be does some inquiring among his friends, perhaps too some "comparative shopping" to find the best rental agency, and makes arrangements for his attendants to go there. And e a c h attendant is expected to pay his own rental charge.

CHOOSING FOODS AT BUFFET PARTY

Dear Mrs. Beeckman:

I'm never quite sure what to do about this: When I go to a buffet party and a man guest offers to go to the buffet table and bring me a plate of food, must I accept his polite offer, or is it permissible that I tell him I'd like to make my own choices?

— Alma H.

It's practically a must that a man guest at a buffet party make this polite offer, but it's not at all a must that you accept his kind suggestion. (Wise women realize that they'd better do their own choosing, not take a chance on being enthusiastically wrought plate loaded with meat of several kinds and perhaps baked beans or macaroni, when t h e y would have been so delighted to have that wonderful salad or that special apple or delicious cheese!) But, lady, be m o s t gracious when you say you'd prefer to choose your own foods: perhaps something like "Thank you, so very much, for your kind offer, but I'm such an enthusiast for buffet party foods that I'd like to go to the table and have a look-see. How about our going up together . . . shall we?"

INCORRECT SIGNATURE ON THIS BIRTH-ANNOUNCEMENT

Dear Mrs. Beeckman:

My husband and I received a birth announcement from my husband's niece and her husband. About this will you please settle a point of etiquet for us? The announcement was on an engraved card, very formal. It was signed "Mr. and Mrs. John Smith." We felt that my husband's niece should have sent us a little personal note telling us of her new baby, or at least have signed the card "Katherine and Bill." We were rather hurt by the formality, and felt it was the sort of card one might send to a mere acquaintance. Are we wrong?

— A.

Certainly you are not wrong. Quite naturally you and your husband would expect a very personal form of announcement of the birth of the child of your husband's niece. Correctly the announcement might have been by telephone or telegram, or, very appropriately, by a little personal note. If the card they sent was a card to be signed, the signature definitely should not have been the formal "Mr. and Mrs." but the informal Sannes, "Katherine and Bill," with a personal message added . . . something like "We're all happy and flourishing. And send our love to you both."

BRIDE'S MOTHER WANTS HER TWO SONS TO ESCORT HER UP THE AISLE

Dear Mrs. Beeckman:

Our daughter is to be married soon. My husband will escort her up the aisle. Our son, eighteen, will be an usher. We also have an 8-year-old son. Would it be correct for me to walk down the aisle with both my sons? I would be so very happy if this would be correct for me to do. We have just these three children.

— Bride's Mother.

When the bride's mother has a son who is an usher, it is customary to give him the honor and privilege of escorting his mother up the aisle (to the first row on the left-hand side of the aisle). And although I've never seen the 3-some escort, I think it might be an effective plan, and I know how happy it would make you. However, when any unusual procedure is being considered, courtesy demands that you consult with the minister who is to perform the ceremony and ask for his approval. I suggest that when you come down the aisle, after the recessional, you plan to be escorted only by your usher-son, you at his right, and your husband following.

ADDRESSING HER HUSBAND'S FRIENDS

Dear Mrs. Beeckman:

We have quite recently b e e n married, and this city where we have come to live is the city where my husband has always lived, and he has many friends here. Of course they all call him by his first name. When I get to know these friends of his a bit, should I call them by their first names, as my husband does?

— M. F.

Since a wife is generally expected to call her husband's (relatives, too) by the names he uses to address them, I'm quite sure that, even if you at first hesitate to do this, his friends will ask you to.

New Shoes

By VERA WINSTON

Smart new footprints are being made by flat shoes that are not quite so flat as they were formerly. Here is one of the new flatties, in yellow suede with slightly higher and narrower curved heel, the heel is of black patent and there is black patent, tasselled strap pulled through tent, tasselled strap pulled through the vamp.

Black patent, too, makes the heel of an attractive gray suede pump. Black bands are at the and vamp of this suit shoe. Back with us once more is the T-strap sandal; this one of black patent is good with suits or dresses.

THE FAMILY COUNCIL

EDITOR'S NOTE: *The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an edited case history. The Council reports on problems that have been dealt with by responsible agencies and counsellors.*

Cynthia S. — Must we be work horses for our children?

John S. — We're no longer high school kids out for a lark.

* * *

Cynthia S. — I am 19 and I've been married two years and have a 1-year-old baby. My husband is a year older than I am.

We realize that we married too young, but I don't see why we have to spoil the rest of our lives because of it. After all, we are still young and we have a right to enjoy life. Johnny feels we have to spend the rest of our lives being work horses for our children. He can't wait to have a second one and he never wants to go out for a good time. I don't want to live if I have nothing to look forward to.

I do my best with the housework, but I really get sick of it and Johnny constantly criticizes, saying what a good housekeeper I took his mother was.

* * *

John S. — I may be young, but at least I am willing to accept the responsibilities I've undertaken. I don't want to be something of the world before I got married, but I gave up all my ambitions when I became a father.

I know Cynthia sometimes tries hard to keep a nice house, but suddenly she gets disgusted a n d won't do anything for a week. With the baby crawling all over the place, it's really a mess. Sometimes I hate to come home. It's very depressing.

Cynthia wants us to eat out a couple of nights a week and then go to movie or out bowling. I can't make her understand that an evening like that is a very expensive proposition. We are no longer high school kids out on a lark.

* * *

The Council: Johnny is to be congratulated on his manly acceptance of his responsibilities, but perhaps he is overdoing things a bit. Becoming a father at the age of 19 must have been somewhat of a shock to him. He decided to put his nose to the grindstone and keep it there.

Yet we do not feel family life should be quite as dreary for parents as Johnny would make it. Cynthia has some justice on her side. Parents have a right to some pleasure. It is good for them and good for their children.

When parents insist upon a total sacrifice of themselves for their children, they are likely to develop an undercurrent of resentment toward the children. The children, in turn, begin to feel they must make things up to their parents.

Johnny admits that Cynthia "sometimes tries hard to keep a nice house." Evidently she is not entirely irresponsible, but at times she gets fed up with housework. That's the time for an evening out — even if it does cost some money. This should be provided for in the family budget as an essential.

Johnny is also wrong to compare his wife's housekeeping with his mother's. He should recognize the difficulties of keeping a house up to snuff with a baby "crawling all over the place."

If he gives Cynthia a helping hand and words of praise whenever they are in order, he will undoubtedly find an improvement in the home.

So, Johnny and Cynthia are no longer "high school kids out for a lark," but they don't have to think in terms of giving up all enjoyment of life.

JUNIOR CLASS

Girls should be at least eight years of age to enrol in the Brownies, the preliminary class for entering the Girl Guides.

The French Have A Better Way

by Mary Moore

A leftover piece of roasted ham weighing a little over a pound was the meat I had for dinner. What would I do with it to make it attractive for 3 of us? Creepettes! Ham Hash? Anything my mind turned to sounded hackneyed, so I reverted to an old favorite — the French ham-custard pie known as Quiche Lorraine.

best quality shortening, ½ tea spoon salt. Cut shortening in with pastry blender, then moisten with exactly 2 tablespoons cold water, stirring with a fork to moisten the flour. Pack together with palms. Then roll out to fit an 8" pie plate. Pour into this a Custard made by beating 2 large eggs, then adding 1 cup milk. Pour this into the unbaked crust and put in oven of 375 deg. Fahr. for 10 minutes. Meanwhile, force cooked ham through grinder. You should have 1½ to 2 cups. Sprinkle this over the hot, but as yet unset, custard. Return it to the oven while you prepare the cheese. I used big ends of process, Gouda and Swiss, and shredded them until I had 1 cup, and distributed it over the entire top of pie, which by now was beginning to firm up and get very full indeed. I gingerly returned it to the oven to finish baking and to brown. It baked one hour in all.

I served it cut into wedges with hot chili sauce, boiled white onions and homegrown asparagus with melted butter.

Pete said if they cook like that in France, he'll find himself a little French girl and bring the bride home o mother! Or how I told you that he and Dan are Europebound this summer?

EVEN BAKED HAM CROQUETTES:

Two cups ground cooked ham, 1 teaspoon grated onion, ¼ tablespoon chopped parsley, ½ teaspoon salt, ¼ teaspoon pepper, ½ teaspoon mustard, few grains cayenne, 2 tablespoons butter, 4 tablespoons flour, 1 cup milk. Add ham seasonings to ham. Make thick white sauce by blending butter and flour then stirring in milk until thick. Add ham. Spread on plate to cool; shape into cylinders or balls. Roll in fine crumbs, egg and crumbs. Place in baking dish and bake in 350 - 375 deg. Fahr. oven for 25 to 30 minutes, turning carefully with egg turner half way through baking, to brown croquettes evenly on all sides.

YULE BABY DIES AT 101

ST. PAUL, Minn. (AP)—A 101-year-old St. Paul man died Monday still bearing the unchallenged title as the world's oldest "Christmas baby." He was Ole Christopherson, who was born Dec. 25, 1856, at Veldre, near Oslo, Norway, and immigrated to the United States when he was

Dinner Menus

by Mary Moore

WEDNESDAY

Chilled Tomato or Vegetable Juice; Beef and Kidney Pie with Potato Topping; Cauliflower with Cheese Sauce; Whole New Carrots; Prune and Toasted Almond Whip with Nutmeg Custard Sauce; Coffee.

Pete has been doing his own cooking and everything I make is "divine" — so use your own judgment about this. All I will say is it is a mighty easy and mighty good way to camouflage a leftover.

EMEM'S GUICHE LORRAINE:

(A ham-custard pie) These amounts will serve 4 adequately — but here Pete eats enough for 2, so it was just enough for 3 of us. Make pastry the usual way: One unsifted flour, 1-3 cup

DERBY DECIDES FUTURE OF ARCHERY FISHING

Her skill with bow and arrow enabled Shirley Irwin of Windsor to bag these two carp. She was one of over 100 fishermen who took part in the carp derby at Cedar Beach on Lake Erie. The derby was held by the Ontario Government to decide if archery fishing should be allowed. Over 400 carp were caught.

Class Leader Standout in Many Fields

VICTORIA (CP)—Pretty Gael Harding Stott, 21, winner of the Governor-General's Gold Medal as class leader of the University of British Columbia this year is a standout in other fields besides education.

She plays grass hockey, has won the individual medley (three kinds of strokes) in Victoria swimming championship contests, and is a talented pianist.

She also learned Latin and German though they were not part of her university courses because she thought they might help in her studies.

According to her father, Arthur Stott, associate editor of the Victoria Times, "she has the most amazing powers of concentration I have ever seen in a person."

Gael's recipe for getting high marks is:

"Keep everyone quiet around the house and be fortunate in your professors as I was."

Now she plans to start work on a Denis toward her master's degree in zoology on the salinity of fish. She hopes to learn how salt and mineral content change in fish when they reach fresh water.

Mother's Helper

FOR A LONG table to seat guests at your youngster's party, use two or three card tables in a row. With cellophane tape, bind adjacent legs together at the top, and the tables will stay steady and close. This is a job Junior can do, with your supervision.

GRANT SCHOLARSHIPS

TORONTO (CP) — An annual grant of $5,000 for three years has been presented to the Royal Conservatory of Music for 20 Canadian children, 11 years and younger, who are studying string instruments. Auditions for the scholarships will be held next September, Conservatory officials declined to identify the foundation which presented the grant.

City Couple to Graduate From SA Training College

TORONTO (CP)—Studying the Bible while looking after an infant is a familiar task for Mrs. Ethel Milton, 24, of New Westminster, B.C., a student at the Salvation Army training college here.

Mrs. Milton and her husband David will both graduate from the college as second lieutenants on June 28. At the ceremony will be their daughter Louise, born in October, a month after the couple began their studies.

The family live in special quarters at the training college. Two houses were converted three years ago into apartments for married couples.

KEEN STUDENTS

Mrs. Milton was absent from studies only two weeks after giving birth to Louise.

"Having the baby during our college year meant a lot of extra work for my husband and I, but looking after her has not affected my school work," said Mrs. Milton.

Married couples must follow the same routine as other students, and this means rising at 6:30 a.m., having the apartment tidied up within half-an-hour and taking part in roll call, devotions and communal breakfast before classes start at 9:15.

With breaks for meals, classes continue until about 9 p.m. Mothers take turns at baby-sitting during the evenings.

A couple with two children at the college is also in the graduating class. Clarence James, 33, and his wife June are from Belleville, Ont. They have daughters Charlene, 4, and Karen, 2, with them, while son Ronnie, 12, is staying in Belleville.

NAVY BANDSMAN

Mr. James, a native of Saint John, N.B., served as a bandsman in the Royal Canadian Navy during the Second World War.

Dorothy Ratcliffe of Victoria says she would not be without her two-year-old daughter Cathy.

"I could not possibly leave her at home in Victoria and then give all my attention to study here," she said. Her husband, Stan, is 22.

Other couples with children at the college are Mr. and Mrs. Edward Amos, Brantford, Ont., who brought daughters Eleanor, 4, and Gloria, 2, and Mr. and Mrs. Don Hilton of Niagara Falls, Ont., with one-year-old Karen.

KEEPS NUTRITION

Baking is said to be the best way of cooking potatoes to preserve their maximum food value.

IODE Members Are Taking Active Part in CD Work

HALIFAX (CP) — Members of the Imperial Order Daughters of the Empire are playing an increasingly active role in Canada's civil defence program, delegates to the annual meeting here were told today.

Mrs. G. Graham Sinclair of Toronto, civil defence convener, said IODE members are volunteering for training in first aid, emergency mass feeding, nursing, radiation monitoring and emergency welfare of all kinds.

"The greatest problem confronting those responsible for civil defence is to rouse and maintain interest and enthusiasm in a prolonged period of cold war when emergencies seem so remote," she warned, urging members to combat community apathy about defence.

PROGRAM LACKING

In some areas, such as Quebec province, members were hampered by lack of an organized civil defence program, but the IODE could "use all in its power to stimulate the growth of interest."

A special tribute was paid Maj.-Gen. F. F. Worthington, retired national civil defence coordinator, who had given "inspiration and leadership deserving of our highest praise and gratitude."

Members contributed 123,720 hours of personal service in 1957, an increase in three years of 46,000 hours, reported Mrs. R. C. Latimer of Toronto, secretary of services at home and abroad.

"In 1956, goods worth $83,375 were sent overseas; in 1957 the amount was $117,067," she said, an amount which included 6½ tons of supplies worth $16,515 to Korea.

Altogether, $503,748 was spent in national services at home and abroad, of which 77 per cent was spent in Canada.

Immigrants from 53 ships were welcomed by IODE members in 1957, and clothing, books and refreshments distributed, Mrs. C. L. Hamilton of Toronto, immigration and citizenship convener told delegates.

Chapters spent $7,508 in this department, of which $2,783 went to the support of Canadian Scene, an organization providing translated Canadians to non-Communist presses.

AID FOR NEWCOMERS

Members privately tutored new Canadians and sponsored English classes. One chapter established a day nursery to allow mothers to attend English classes, Mrs. Hamilton reported.

"Generous amounts of clothing and bedding were given newcomers during the year, especially Hungarian refugees. In some instances homes were completely furnished by chapters," she said.

More than 39,820 naturalization greeting cards were distributed to new Canadians and members in all provinces reported attendance at citizenship courts and assistance at induction ceremonies.

Mrs. Dougarian Little of Toronto, secretary of the IODE quarterly Echoes, said the magazine was operating at a deficit despite efforts to cut expenses.

She urged members to support the products and firms advertised in the journal, to encourage the sale of advertising.

A change in editorial policy to allow more chapter news and fewer fiction stories and features was decided on by the National Echoes Committee, she reported.

GIRL GUIDE, BROWNIE NEWS

The last meeting of the season was held recently by the Local Association of Girl Guides, with President Mrs. D. Stewart in the chair. The meeting was preceded with a report on the annual Guide Tea, which this year was a greater success than ever, the hard work of all concerned was rewarded with a profit of nearly $60. The girls have won an extra large number of badges this year, according to the combined reports of the badge secretaries, and a gratifying number of the religious life emblem, considered the most important badge of all, had been awarded.

District Commissioner Floyd (Belleville and District South East) reported that the skating party held during the Easter holidays had been very much enjoyed. The local association provided chocolate milk and other refreshments for this event. All three commissioners had attended the annual Provincial Association convention in Toronto, which had included many interests. The new Brownie pack and Girl Guide company at Point Anne were doing very well, and the Guides there had already purchased their Union Jack. The Point Anne inhabitants had been most generous with their support and enthusiasm. Brownie Pack 2 had raised enough money to send a babe to the Crawford Institution.

Reporting for Belleville and District West, District Commissioner Settle said that the Cookie Sale had been a great success, and in spite of the unfortunate weather, 729 dozen had been sold. The excellent Church Parade on May 25th had produced an A very large turnout, and had been watched by numerous parents and others. Pack 2 (Christ Church) had held a very successful banquet, and other packs and companies in the district were doing very well, including the O.S.D. Pack at Avondale with 18 Brownies, Carmel with a membership of 11, and the new Parkdale Brownie pack started with the help of the Women's Institute. This group will register next week, at which time the exact membership will be known.

District Commissioner Kuntze of Belleville and District North East reported that a joint meeting of three Guide companies and all the Brownie Packs had been held, at which a most interesting film of the Doe Lake Centenary Camp had been shown.

Camping is very much in the news as summer approaches; nine Belleville Guides are going to Trillium Trail Camp at Doe Lake, and one to Nature Camp. The Local Association will pay half the expense, of a number of Guiders also took camp training courses in early May. The Area Camp at Bass Lake, which is open only to Guides who have passed their 3rd class, and have been to division camp, will be attended by 16 girls from Belleville, while another 24 will go to division camp at the same site immediately afterwards, under the leadership of Miss Marcella Fonzine from Peterborough. In both these cases the Local Association will pay $2 for each girl towards the rental of the camping site.

Division Commissioner Diamantides reported that Mrs. R. D. Arnott had recently received a new honor by her appointment as Area International Adviser; all concerned with Guiding in Belleville will be very pleased indeed that Mrs. Arnott's untiring work has been recognized in this way. At the dinner in Madoc on April the speaker was Miss Metcastle, Provincial Ranger Adviser, who stressed the importance that all girls entering Brownies should regard it as a matter of course that they would in time become Rangers. The Belleville Rangers are doing excellent work every Saturday in the paediatrics ward at the hospital with one girl

STOP THAT HEADACHE

Newsy Neckline

By ALICE ALDEN

Even with waistlines wandering from the bosom to the hipline, necklines manage to attract attention, too. Nat Kaplan has come up with a neckline that features an interesting neckline under his brief, lined jacket. The fabric is silk surah in brilliant green. The slimmed lines are eased with open folds at the waistline. The sleeveless dress manages to achieve a decollete look because the high neckline has a series of cut-outs below the bowed band.

looking after each child. They have also organized a most successful hobby show. Recently, ten Rangers spent a weekend in Ottawa on a Ranger Trail, where they gained a lot of useful experience. Altogether, a great credit is due to Miss Mary Doyle for her assistance with the Rangers this year.

The judging committee for the May Day church parade was composed of Mrs. D. Stewart, Mrs. J. Watson and Mrs. R. Arnott, and their judgments were based on the neatness of appearance, marching, attendance, etc. Among the Brownies the 11th O.S.D. pack was placed 1st; for the Guides, the 7th Company (Queen Mary) gained 1st place with Company 6, OSD, a close 2nd. Special mention was made of the Rangers, who made a very proud showing in a most impressive parade.

Owing to the recent formation of the North Hastings Division, authorization was given to the local association to purchase from North Hastings their share of the miscellaneous camp equipment to a total value of $165 which was previously jointly owned by the former Hastings Division. The tents will be equally divided between the two divisions.

The final item on the agenda, and perhaps the most important, could well affect the whole future of the Guiding movement in Belleville and the vicinity. Commissioner Floyd gave notice of a motion to be presented at the annual meeting in the fall, the effect of which, if adopted, would be the division of the local association into three separate units, one for each Girl Guide district, and having as their leaders the District Commissioners. Mrs. Floyd, on the advice of provincial headquarters, felt that this move would be desirable in view of the tremendous growth of guiding in Belleville and district. The establishment of three smaller associations would provide more direct contact with the Guide Companies and Brownie Packs, and might encourage the participation of more parents. It is to be expected that these three organizations would act in very close collaboration, particularly with regard to such events as the Annual Guide and Brownie Tea, camping activities and so on.

Mature Women Need Clean Cut, Casual Haridos

MONTREAL (CP)—Eddie Sens, makeup and hair - design expert from New York, says mature women often underrate their charm with casual hairdos and indifference to color accent possibilities.

Mr. Sens, here on a visit, said in an interview that a becoming hair style can do as much for the mature woman as it can for her daughter, but he warned against elaborate coiffures.

"Most matrons appear at their best with simple, clean cut hairdos," he said. "The secret lies in the softness that comes from waves, wispy fringy effects on the forehead and brushed up ends."

He said the mature woman can obtain a svelte look by avoiding long bobs with trailing neck curls and anything casual that hangs down her face or neck.

"She needs the lift of the upward line of her hair, but this doesn't mean she should cut her hair so short none is left for curls at the nape of the neck. There is a happy medium for every type and it should be based on the individual's features and appearance generally."

In makeup, Mr. Sens recommends studied use of eye makeup for all women over than 40. This includes eye shadow to harmonize with the eyes, delicate mascara application on the upper lashes only, a blush of color on the cheeks and a "frankly bold emphasis" on the mouth.

"Eyebrows should be treated with great respect and understanding for what they do to accent the features. The natural line should be maintained if it is graceful and it extends to a point just outside the eye. If not, an eyebrow pencil can be used with care.

"Brows should be widest just above the inner end of the eye and gradually thin, with the highest point above the eye centre. No angular or unusual outline should be introduced."

WOOLWORTH'S

244 FRONT STREET BELLEVILLE, ONTARIO

Off-Beat Student Behavior Not Peculiar to Modern Times

NEW YORK (AP)—A couple of decades ago they gulped goldfish and sat on flagpoles. Then they embraced the panty raid with considerable enthusiasm.

Now, U.S. college kids seem to have taken to throwing things at the boss, as witness the Cornell students who recently egg-bombed the university president for lowering the boom on off-campus social life.

All of which might seem to indicate that college students are going from bad to worse. But don't bet on it. If they've changed at all in the last several hundred years, it's been for the better. The rowdiest, most playful lot were those who attended the great universities of Europe during the supposedly drab and studious middle ages.

When medieval students were not huddled, quills poised, at the feet of the master, they were out on the town. Manuscripts weren't the only things illuminated in those gay days. More often than not, the students were well lit themselves.

THE GAY LIFE

In Pavia, Italy, a student with a poetic turn summed up his personal philosophy of college life in these lines:

In the public house to die
Is my resolution;
Let wine to my lips be nigh
At life's dissolution.

About the same time, the University of Leipzig found it necessary to caution its playful students against "interfering with the hangman in the execution of his duty."

A despairing Paris clergyman wrote: "A student's heart is in the mire, fixed on prebends (allowances) and things temporal and how to satisfy his desires. They are so litigious and quarrelsome that there is no peace with them."

The town of Oxford, England, complained officially: "They (the students) sleep all day and all night roam about taverns and houses of ill-fame for opportunity of robbery and homicide."

Demorestville

DEMORESTVILLE — Mr. and Mrs. Haffel Sallans, Billy and Dan, spent Sunday in Manilla, with Mr. and Mrs. Barry Hall.

Mr. and Mrs. Harold Bristow spent Sunday with Mrs. G. Allen and Edward.

Mr. and Mrs. T. Trumble, Bill and Bob and Mrs. Charles Peck spent Saturday evening with Mr. and Mrs. Harry Gorsline.

Mr. and Mrs. Jack Juby and Alex. of Tweed, spent Sunday with Mr. and Mrs. Wes Juby and family.

Mr. Jack Langley spent a few days in Toronto.

Mr. and Mrs. Alfred Gooding and family of Wooler, were Sunday guests of Mr. and Mrs. John Verity.

Wallbridge

WALLBRIDGE — Mr. Olliver Free and family were Sunday guests of Mr. and Mrs. Ed. Spencer.

Mrs. H. Townsend, of Halldale, is spending a few weeks with her brother and his wife, Mr. and Mrs. Harold Garrison.

Mr. and Mrs. T. Smith, of Hamilton, were overnight guests of Mr. and Mrs. D. Reilly and called on a few of their friends in Wallbridge this week-end. They also motored to Napanee on Sunday to visit the latter's brother, Mr. Adam Kiernan.

Master Billie Cole entertained a number of his little friends on Saturday afternoon on the occasion of his 6th birthday.

Mr. and Mrs. Frank Langabeer, Mr. and Mrs. Frank Harris were Tuesday tea hour guests of Mr. and Mrs. Harry Pound.

A number of ladies in the village attended a stork shower for Mrs. D. Reilly on Wednesday evening at the home of Mrs. Norman McGhee. Games were enjoyed by all and refreshments were served. Mrs. Reilly, taken by surprise, thanked all for their kindness.

Miss Lois Spencer is home from Belleville General Hospital following a tonsilectomy.

...RIES ON TRADITION

BRANTFORD (CP) — An old family tradition was carried on Sunday when Rev. Geoffrey Deane Johnston was ordained in the Central Presbyterian Church. He became the fifth member of his family in three generations to become a member of the Presbyterian clergy. He is the son of Rev. Dr. G. Deane Johnston, minister of Central Church.

"THE CRISIS IS FINISHED"

French President Rene Coty (left) and General Charles de Gaulle walk together, smiling, from Elysee palace, following their meeting. As de Gaulle stepped into his car, President Coty turned to newsmen and said: "Gentleman, thank God. The crisis is finished." Later, the assembly named the wartime general as 26th premier of the fourth republic.

CAMPBELLFORD

St. John's United Hi-C. F. Presents Comedy

CAMPBELLFORD — "The Boarding House Reach," was the title of a comedy presented by the Hi-C Fellowship of St. John's United Church in the auditorium on May 29.

The play was thoroughly enjoyed by all, and the plot revealed a thirteen-year-old boy taking advantage of the absence of his parents to turn the home into a boarding house to raise money to buy a bicycle. The climax of the play came in the arrest of bank robbers among the guests, with the boy emerging as the hero of the story.

Following the play the cast met at the home of the president, Doris Robbins, for refreshments, during the social hour the director, Miss Diana Filson, was presented with a lovely chrome tray in appreciation of her valued leadership.

The cast included the following: Judy Hopping, Doris Robins, Eileen McKelvie, Dennis Hopping, Richard Bond, John Johnston, Marilyn McKeown, Jo McDonough, Jim Darrington, Sharon Miller, Dominie Unitt, Shirley Jewell, Dale Miller and Lenna Robertson; director, Miss Diana Filson; prompter, Miss Rose May Chant, and chairman, Rev. Dr. D. M. Smith.

HEALING PLANT

The medicinal value of the bark of the witch hazel plant was known to the Indians in eastern Canada long ago.

GLEN MILLER

Family Reunion Welcomes Pair Home From Reich

GLEN MILLER — The home of Mr. and Mrs. Clinton Gibson was the scene of a happy family reunion last Sunday when eight children and seven grandchildren gathered.

The reunion was primarily a celebration to welcome home a son-in-law and daughter, Corporal and Mrs. Wesley Gilroy (nee Phyllis Gibson) who have been in Germany three years. While there two children were added to their family. Cpl. Gilroy is an airframe technician and comes from Weyburn, Sask. The Gilroy family will be living at Cold Water, Alta., RCAF Station.

Also present at the reunion were Mr. and Mrs. Norman Gibson, Mr. and Mrs. Ralph Gibson, Mr. and Mrs. Allan Gibson, and Mr. and Mrs. Hamilton Sheddon (nee Jean Gibson). One daughter of Mr. and Mrs. Clinton Gibson, Ruth, was unable to attend. She is teaching R.C.A.F. Station, Mount Forest, Ont.

EUCHRE CLUB ENDS SEASON

The Glen Miller Euchre Club held a mammoth turkey supper in Glen Miller community hall last Thursday night to celebrate the end of another successful series of euchre parties. Since last October 35 euchre competitions have been held in Glen Miller hall.

Proceeds from these events will be used this year to purchase new banquet tables. Last year a new piano was added to the hall.

Winners last week were: Jim Lawrence, who took gents' first; Harold Howey, second, and consolation went to Ernest Collier. Audrey Moore won ladies' first; Winnie Knox, second and Dora Barnes won the consolation. Door prize was won by Nancy Knox.

Officials at the euchres this year included Mrs. Alex Nivison, Mrs. Blaine Young and Mrs. James Genereaux. Next euchre party in Glen Miller hall will be held in October.

3rd Hillier

3RD OF HILLIER — Mr. and Mrs. Clifford Panting spent Sunday with Mr. and Mrs. Clifton Ellis.

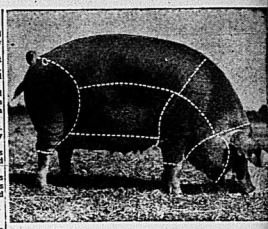
Decoration Day was held at Christ Church, Hillier, on Sunday. Charles Farr, missionary, had charge of the service.

Mr. and Mrs. Will Wright and Miss Evelyn Wright motored on Sunday to Muskoka where Evelyn has a position for the summer.

A kitchen shower was given Mr. and Mrs. Allan Hardy on Friday night, at Hillier Town Hall.

Mrs. Marshall Trumpour is home from Prince Edward County Hospital.

The Holstein Club's annual bus trip was a success again this year. All the tickets were sold early.



HOW "HIGH OFF THE HOG" WILL YOUR FAMILY LIVE?

Whether your family lives on tenderloin or kidneys may depend on how well your estate is handled.

Experienced Estate Officers, like those at Sterling Trusts, can help you plan your estate properly, so that ultimately there will be a minimum of delay, confusion and tax loss.

Why not talk to a Sterling Trust Estate Officer soon . . . or write for our free booklet "Blueprint For Your Family".

Wellington

FAREWELL PARTY

About 16 friends of Mrs. Don Johnston gathered at the home of Mrs. Reith Hubbard on Thursday evening to bid her farewell, as she leaves with her family of three daughters for Germany on Wednesday to join her husband.

The evening was spent playing several quiz games.

A presentation of many lovely personal items was made to Mrs. Johnston on behalf of those present for which she expressed thanks to them all.

Refreshments were served by Mrs. Hubbard and Mrs. Gordon Nelson, co-hostesses for the evening.

Mr. and Mrs. Frank Bell, of Orangeville, were Monday dinner guests last week of Mr. and Mrs. Lewis McFaul.

Several Wellington ladies attended the Rebekah May tea held in Picton last Wednesday afternoon and all report enjoyable time was spent.

Mr. and Mrs. Oscar Parks, Mrs. Henry Dick, Mrs. Russell Campbell and Jean, and Mrs. Ken Wood, and Mrs. Stanley Weedon were among the many who enjoyed the bus trip to Ottawa last week.

Mr. and Mrs. Bob Jones, of Belleville, were Wednesday evening dinner guests of Mr. and Mrs. Alf Ogilvy. Bob also [illegible] on Mr. and Mrs. Robert Jones.

Mr. George Bailley attended a berry growers meeting in Hamilton on Thursday.

Once again the peewee baseball team came out on top when they defeated the Batawa team 7-1 on Thursday evening. This makes three games played and three won.

Mr. and Mrs. Harry Moore and son, Harry, of Dearborn, Michigan, spent the long week-end at their summer home here.

Mr. and Mrs. Doug McCoy and Dougie, of Toronto, spent the weekend at their summer cottage here.

Mr. and Mrs. Arthur Archard, accompanied by Mr. and Mrs. Alfred Adams and Margaret, motored to Malton early Tuesday morning where they met Mr. Percy Adams who arrived from Chepston, England. He will spend some holidays with son and daughter-in-law, and Mrs. Alfred Adams.

Mrs. Sarah Airhart who has been a patient in the Prince Edward County Hospital is now staying at the Thompson Nursing Home.

Mrs. William Sainsbury accompanied Mr. and Mrs. Jack Ogilvy to Kingston on Saturday afternoon where they visited Mr. William Sainsbury, who underwent surgery on his foot in the Military Hospital there last week.

Dr. and Mrs. Ron Buird and Mr. Jon Sarles, of Toronto, were weekend guests of Mrs. R. Sarles and Dr. Sally Sarles.

Mr. and Mrs. Roger Cronk and two daughters were weekend guests of Mr. and Mrs. E. Matthews, Mr. and Mrs. Cronk have motored from Prescott and now reside at 118 Perth Street, Brockville.

Mr. Charles Hegadorn and daughter, Miss Phylis Hegadorn, of Rochester, spent the long weekend with Mr. and Mrs. H. Hegadorn.

Mr. and Mrs. Hugh East enjoyed a motor trip through the central states last week. They spent a day with Mr. and Mrs. Don East in Dayton, Ohio.

Mr. and Mrs. James Barrett and family of Trenton, spent the weekend with her mother Mrs. John Bowerman.

The couples club held their regular meeting in the United Church Sunday school room on Monday evening with 24 present. Mr. and Mrs. Lewis Wight held a devotional period. The program was supervised by Mr. and Mrs. Nelson Smith who showed two interesting films, "Atomic Power" and travelogue of the Gaspe Peninsular which everyone enjoyed.

Refreshments were served by Mr. and Mrs. Ross Pierson and Mr. and Mrs. G. Harris.

Sympathy is extended to the Jinks family in the loss of their mother, Mrs. Marsh Jinks who passed away on Saturday May 31st.

Mr. and Mrs. George H. Carver, of Belleville, were Sunday afternoon callers at the home of Mr. and Mrs. Alf Ogilvy.

Mrs. A. Howard and Mrs. G. Elgie, of Toronto, spent the weekend with their parents, Mr. and Mrs. Charles McHenry. Mr. McHenry will celebrate his 91st birthday June 6th.

Mr. and Mrs. Hiram Hubbs, of Toronto, are spending sometime at their summer home here. On Sunday evening they were dinner guests of Mr. and Mrs. F. Harris.

Mr. and Mrs. Ralph Ellis and Gaile, enjoyed a motor trip to Ottawa during the weekend.

Mr. and Mrs. R. Knox, of Hornby, Mr. and Mrs. M. Knox, Stoneburg, Mr. and Mrs. F. Robinson and Mr. and Mrs. C. Lane, Mrs. Channell, Mrs. Bailley and Mrs. Stoneburg were among the many prize winners.

Mr. and Mrs. G. Stoneburg, Rose and Sharon, and Mr. and Mrs. C. Stoneburg, visited Ottawa during the tulip festival and stayed the weekend with Mr. and Mrs. R. Yardley.

Leaders of Mission Bands, Baby Bands, Explorers and C.G.I.T. groups will be attending the conference with Miss Daphne Rogers at Holloway United Church Belleville this Friday. Several young ladies who are not at present leaders of these groups have been asked to attend in the hopes they may learn of the work and thereby become sufficiently interested to offer their services to these worthwhile groups for the fall term. Handwork will be one of the features of this conference.

Mr. and Mrs. Clayton Stoneburg spent the weekend with Mr. and Mrs. F. Patridge and Carol in Napanee.

Mrs. R. Thompson returned home on Sunday after spending a week with her sister Mrs. E. Stoneburg in Cherry Valley.

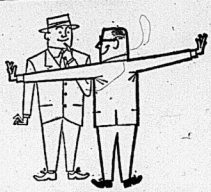
Miss Pamela Franklin, of Picton, spent the weekend with Mr. and Mrs. Keith Hubbard and Scott. On Sunday they were all dinner guests of Mr. and Mrs. Dick Hubbard to celebrate little Scott's birthday.

Mr. and Mrs. Robert Hatton and Robbie, of Stirling, and Mr. and Mrs. Albert Weir were Sunday dinner guests of Mr. and Mrs. Charles Carter.

WANTS PRIVACY, BECOMES TRAFFIC-STOPPER

After a 10-mile swim from the Quebec border across Lake Temiskaming all this young bull moose wanted was a little privacy. Instead, he found he had become a traffic-stopper. A mile-long stream of cars was stopped on the highway near New Liskeard, Ont., as motorists and camera fans strained to catch a glimpse of the animal. After hours of trying, conservation officers finally coaxed the frightened moose out of the water and across the highways to the safety of the bush.

Ready money for small business



"You should've seen the one that got away"

A standing joke with fishermen . . . but not so funny in business when a good plan to improve your business or product wriggles off the line for lack of proper financing.

Many a businessman has learned from experience that the difference between "landing" and "losing" the big one is often the financial counsel and backing he receives from his B of M manager in his day-to-day operations.

That's why it will pay you to discuss your plans with your B of M manager.

You will like his helpful, interested approach to your problems. And you can count on this: *when you ask for a loan at the B of M, you do not ask a favour . . . if your proposition is sound and reasonable, there's money for you at the Bank of Montreal.*

CAMPBELLFORD

Three Brownie Packs Hold 'Flying up' Meet

CAMPBELLFORD — Three Brownie Packs took part in the "Flying Up" ceremony held in St. John's auditorium on Friday evening. District Commissioner Mrs. F. G. DeCarrol was chairman and guest, included Divisional Commander, Mrs. J. B. Harvey, of Trenton, Rev. Dr. D. M. Smith and Mrs. Smith of St. John's; Rev and Mrs A. E. Toombs of St. Andrew's Presbyterian Church, as well as parents and friends of the children.

After welcoming the guests, Mrs. DeCarrol instructed the Brownie leaders to proceed. Mrs. J. Smith, Brown Owl of the 1st Campbellford Pack, called the Brownies into the ring and invited the Divisional Commander to present those who were going into Guides with their Golden Wings. Beverley Stocker, company leader of the 1st Campbellford Guide company challenged each Brownie as she was brought along the tunnel and reached the Gate to Guideland. Lieutenant Mrs. R. Ballard received the new Guides on behalf of Captain Mrs. P. Wilmink and the 1st company.

Brown Owl Mrs. J. Storie of the 2nd Campbellford pack then formed her Fairy Circle and the same procedure followed with company leader Carolyn Newman of the 2nd Campbellford company challenging and Capt. Mrs. L. Unitt and her lieutenant, Mrs. C. Ellis, welcoming on behalf of their company.

Brown Owl Mrs. C. Mechetuck invited the District Commissioner to present her Brownies with their wings, and these girls were received into the 2nd company. Two other Brownies who had got completed their Golden Wing requirements were "flown" into the 2nd company.

Brownies of all packs then entertained the group with action songs and Guides sang campfire songs.

Mrs. DeCarrol then introduced the Brownie and Guide leaders and asked Mrs. G. Dunham, a previous Brownie leader, to come forward together with Mrs. R. D. McDonald, the treasurer of the Local Association, and receive the "Thanks Badge" which is awarded to those who have been of outstanding assistance to the Guide movement. A blue pin is presented to those active within the movement, and a green one to those outside.

A series of prizes was then presented for the best Brownie scrapbooks, and a company certificate for handicraft to the 2nd

Campbellford

CAMPBELLFORD — Cadet Capt. William Tatham has been chosen to represent Campbellford High School at the National Cadet Camp in Banff, Alberta. He is among 60 Canadian boys selected to attend the camp this summer for a three-week period.

Miss Evelyn Oulton, Toronto, is visiting Mr. and Mrs. Henry Bakes of Kent St., and other friends in town.

Mrs. P. Hall, Mrs. B. Connor and Mr. and Mrs C. Johnston visited the latter's son and daughter-in-law, Mr. and Mrs. Alex Johnston, of Ottawa, over the weekend.

Mr. and Mrs. Douglas Nicholas and children of Camrose, Alta., are visiting Mr. Nicholas' father, Mr. William Nicholas. They spent the weekend at Niagara Falls, accompanied by Miss Beryl Nicholas, Hamilton.

Mr. and Mrs. Roy Barnum, Mr. and Mrs. Fred Barnum, Mr. and Mrs. Allan Watson and Mr. and Mrs Ross Taylor, of Campbellford, were guests at the Barnum-Pinsky wedding in Oakville, Ont., on Saturday afternoon.

Mr. and Mrs. Earl Craighead and Helen attended the wedding of their niece, Marilyn Plumpton, in Toronto, on Saturday, followed by a reception at Molloney's Art Gallery.

Mr. and Mrs. J. C. Anderson, Queen Street, spent a few days last week with Mr. and Mrs. E. J. Anderson, Woodville, and Dr. and Mrs. James R. Anderson, Orillia, and also had a trip to Kingston district in blossom time, when they were guests of Mrs. E. J. Anderson's brother, Mr. and Mrs. Ernest Cornell. Mr. Cornell is the inventor of the pump used in heart operations.

Recent visitors with Mr. and Mrs. Ralph Atkinson and Mrs. Charles Waltraim were Mr. and Mrs Bob House and Mrs. Fred Watt of Toronto, also Mr. and Mrs. Fred Rogers of Bronte and Mr. Norman Harren of Brighton.

LEAVE FOR JAPAN

TORONTO (CP) — Twenty-five Canadians leave for Japan July 13 on a cultural mission sponsored by the United Nations, educational, Scientific and Cultural Organization committee of the UN Association of Canada. The mission will present UNESCO gift coupons, good for books and equipment, to the International Peac Library at Hiroshima. It replaces a library destroyed by an atomic bomb in 1945.

BELLEVILLE, ONTARIO, WEDNESDAY, JUNE 4, 1958

Hog Producers' Co-operative Is Found Valid Marketing Scheme, Drover Acquitted

CHATHAM (CP) — Clarence Knights of Blenheim, Ont., acquitted of operating as a hog drover without a licence, was fined today to have 34 other charges dismissed.

Defence counsel B. J. McKinnon served notice on Magistrate F. J. Jasperson after acquittment Tuesday to prevent the magistrate hearing the rest of the charges.

Mr. McKinnon said he will contend to the Ontario Supreme Court that the orders under which the charges were laid have no validity. The charges allege breaches of federal and provincial agricultural and farm products marketing acts.

Magistrate Jasperson, though acquitting Mr. Knights, found the controversial Ontario Hog Producers' co-operative a valid marketing scheme.

"I find that the Ontario hog producers marketing plan is a valid scheme, that the farm products marketing board has been legally set up and the regulations are legal and valid.

"It is relevant to me that the accused enjoys a good reputation. I believe him a credible witness and I don't think it can be charged or said in justice that Farmer Knights is a criminal because he has been made out why he has been classified one," he said.

HAD 1957 LICENCE

Mr. Knights testified that he had a 1957 licence issued under the Farm Products Marketing Act.

He said he read a form letter sent out last September advising him of changes in the act and the fact that a new hog dealer's licence was to be issued.

He said he mailed in an application as requested but heard nothing from the co-operative or the Farm Products Marketing Board until last March, when charges were laid.

Mr. Knights' licence was found valid, another charge said Mr. Knights violated the Marketing Act was withdrawn.

Mr. Knights was originally charged jointly and separately with his brother Gordon. The charges against Gordon were withdrawn when he died after arraignment last May.

Magistrate Jasperson adjourned the case until July 8 for further action by the Supreme Court.

Winters Urges Canada Step up Her Foreign Aid

MONTREAL (CP) — Former works minister Robert Winters called today for Canada to step up its foreign aid program "to take up the increasing tendency toward slackness in our economy and at the same time to benefit peoples elsewhere."

In an address to the annual meeting of the Canadian Manufacturers' Association, he said it is perfectly logical that surpluses which cannot be sold for cash should be made available to needy countries.

Mr. Winters, now president of the Rio Tinto Mining Company of Canada, said:

WENT HAD ADVANTAGE

"The major powers of the world now are locked in a cold war in which each is trying to gain ascendancy over the other in the arena of destruction and defence but the end is economic domination rather than mere short-term military ascendancy.

"In this the impact of the real threat from Russia and other the Communist countries is still to be felt."

Mr. Winters said the Western world still has an advantage of greater productivity when compared with communist countries.

"We should use it more intensively to fight the encroachments of communism in underdeveloped countries rather than as a defence."

DISCUSS U.S. INFLUENCE

In a discussion of American influence in the Canadian economy, President Ron W. Todgham of the Chrysler Corporation of Canada said the achievement of complete autonomy of this country's industry "would become a costly sacrifice on the altar of patriotism."

"We have achieved our present high standard of living largely through riding on the coat-tails of the great free market which exists in the country to the south of us.

"Until such time as we have an enormously larger population, creating an increased domestic market for our products, we will continue to ride these coat-tails."

Mr. Todgham said it is entirely possible for Canadians to be "masters in our own house" and still not forget the vital interests in the development of Canada's resources.

"I am somewhat appalled at recurring outbursts of nationalistic sloganeering . . . scolding those we must look upon as our friends. This random mumbery can only do our country serious harm and damage the reputation that we have long enjoyed as a nation that offers a healthy climate for investors and free enterprise."

Texts of the speeches were released to the press in advance of delivery.

German Leader Praises Canadian Open-Mindedness

OTTAWA (CP) — Dr. Theodor Heuss, president of the Federal German Republic, said today he has left Canada "feeling more strongly than ever the "necessity" of friendship between Canada and his country.

He saw a lasting foundation for this amity in the "mutual respect of the two peoples, the community of their interests and their great ties."

The mild-mannered, 74-year-old president expressed his sentiments in a brief farewell statement before boarding a plane at Uplands Airport on his way to Washington, ending an eight-day visit to Canada, the first by any such visit by a German head of state.

Dr. Heuss and the dozen other members of his party, including Foreign Minister Heinrich von Brentano, flew to Washington in a Supermarine Comet put by President Eisenhower. The plane took off at 10:38 a.m. EDT, about an hour later than originally scheduled.

ENRICHED OPINION

His visit to Canada, which had included commercial talks in Quebec and Ontario as well as the federal capital, had "considerably enriched" his mental picture of a country with which Western Germany maintains close ties.

Similar sentiments were expressed Tuesday night by Mr. von Brentano, who said the Germans met only "open-minded-ness" in Canada.

He spoke at a press conference after a reporter mentioned the statement made by Mr. Heuss' predecessor, Second World War and asked whether he had been sufficient had been forgotten.

"We did not meet any resentment," Mr. von Brentano said. "It would have been understandable but I did not see it. The atmosphere was better than we expected.

"We have a great respect for this country, which is living in the present and thinking in the future."

EXCITES COMMENT

However, there has been some Parliament Hill comment that Liberal circles were slightly upset that Dr. Heuss did not get a warmer welcome. Only small numbers of spectators turned out to public functions in connection with the visit.

Informants said Prime Minister Diefenbaker was the chief cause that when he introduced Dr. Heuss at a session of both Houses of Parliament Monday only 40 of the 264 Commons members and only 10 of the 102 senators were on hand.

Mr. von Brentano, who has had a round of talks with Canadian government officials, expressed satisfaction that West German economy is in "very large measure" based on such important international questions as relations with Russia, NATO and collective security at a summit conference.

Speaking in German, he promised his country will do all in its power to promote expansion on a basis of "faith and confidence" with France's new government, headed by Gen. de Gaulle. He expressed confidence in the "power of the French people" to overcome their difficulties and said France - German friendship had been "sealed" by the two countries.

On trade, he said Germany favors reduced tariffs and liberalization of international trade.

Duncan DeGraw and his niece Sharon Beno drive a team of horses home after a day's work on their farm near St. Thomas, Ontario. With seeding almost completed

END OF THE DAY

Prairie Farmers Plant Crops, Now Awaiting Needed Rain; Grasshoppers Breeding Well

by THE CANADIAN PRESS

With crop seeding virtually complete, prairie farmers were anxiously watching the skies for much-needed rain as June swept in. Other parts of the country had optimistic reports of crop prospects.

From April 1 to the end of May rainfall was 37 per cent below normal in Alberta, 56 per cent below normal in Saskatchewan and 72 per cent below normal in Manitoba.

But the rains do not come soon, some of the crops will definitely deteriorate, especially crops on light soil," a spokesman for the Manitoba agriculture department said a few days ago.

The warm, dry spring had brought dust storms and top-soil breeding conditions for grasshoppers in parts of Manitoba, Saskatchewan and Alberta.

PLANT MORE WHEAT

Manitoba seeding was reported slightly behind the 1957 pace at the end of May, but wheat seeding was practically complete. Manitoba planned some 2,283,000 acres to wheat, compared with 2,114,000 last year. Seeding of coarse grains was about three-quarters finished.

Lack of early rains and severe dust storms held back flax seeding, to about 50 per cent of the intended acreage, and about 4,000 acres of sugar beets had to be reseeded after the storms.

"There has been quite a bit of serious soil drifting," said H. A. Craig, director of publications in the Manitoba agriculture department. "But the actual damage cannot be counted now. Any delay in growing will be overcome with immediate soaking rains.

"Sub-soil moisture is generally satisfactory and a rapid growth of farm crops from now on will help keep the soil moisture rapidly without fresh rains."

SASKATCHEWAN SLOW

In Saskatchewan, the planting season appeared slightly early at first, but winds and soil drifting slowed down operations.

By May 26, about 96 per cent of the wheat crop, 79 per cent of the oat crop and 58 per cent of the barley crop were in the ground. How it developed depended entirely on whether the rains come.

Wheat acreage will be down this year, as much as five per cent at about 2,700,000 acres, compared with last year's 3,385,000.

Saskatchewan's oats acreage also show a decline, to 3,050,000 from 3,214,000 last year. Barley was up about 10 per cent to 4,170,000 from 3,791,600.

ALBERTA PROSPECT

In Alberta, seeding of wheat was almost completed a week before the end of May. About two-thirds of the coarse grains were in the ground at the same time but Alberta was not troubled as much as Manitoba and Saskatchewan by lack of rain. Moisture conditions were generally good in the last half of the month, although high winds and hot weather depleted top-soil moisture in some areas.

There has been little change in the crop pattern this year except for an increase in wheat, of which acreage may be cut by as much as half from the 500,000 acres planted last year.

Surpluses, slow markets and the placing of durum under the quota delivery system have been blamed for the decline in coarse grains and forage crops are expected to be planted instead of wheat.

MARITIMES EARLY

The most enthusiastic seeding reports were from the Atlantic provinces where Newfoundland, Prince Edward Island and Nova Scotia all reported the season about two weeks earlier than normal.

In Newfoundland, where farming is largely restricted to rocky plots along the coast, about 90 per cent of the vegetable supply is imported every in summer. By the end of May, various greens were nearly ready for harvesting and early potatoes, turnips and cabbages—the main crops—will be harvested this month when late crops are planted.

In Prince Edward Island, hay and pasture were reported two weeks ahead of last year, while corn, turnips and potatoes have been in the ground more than a month.

A spokesman for the Nova Scotia agriculture department related that province's crop prospects as "exceedingly good." He expected the total cash value of farm year than the $40,000,000 value in 1956.

Most of Nova Scotia's farm land is used for hay crops. Last year, of 421,000 acres cultivated, 357,000 were in the hay crops and only 48,000 in oats and 11,000 in potatoes, the three main crops.

New Brunswick reports seasonal conditions and seeding programs about average. In the upper Saint John River valley potatoes and grain were about 60 per cent seeded a week before the end of May. Elsewhere the percentage was a little less.

Potatoes are the province's main crop. Last year more than 12,000,000 bushels were produced, making a total of $25,000,000 in cash value of the principal crops.

QUEBEC READY

In Quebec, seeding was almost finished. The department of agriculture said the Montreal area was about three weeks early. In the Gaspe Peninsula, but the farmers were able to get on the ground in the last half of May and seeding was proceeding quickly.

With some 7,900,000 acres under cultivation, it was expected that about 1,258,000 would be sown in oats, 190,000 in mixed grain, 3,497,000 in hay and 97,900 in potatoes. About 2,662,000 acres are set aside for pasture land.

Seeding of Ontario farmlands is "pretty well completed," an agricultural department spokesman said in Toronto. The only exceptions were some parts of eastern the Chrysler plant and the army's Redstone arsenal in Huntsville.

WILL SEND OBSERVERS

OTTAWA (CP) — Canada has accepted a United States offer made at the United Nations for joint observation of suspected American nuclear tests in the Pacific this summer. The personnel Canada will provide has not yet been chosen.

U.S. Bombers Over Canada Do Not Approach Borders Of Russia Says Diefenbaker

OTTAWA (CP) — Nuclear-armed United States bombers flying over Canada do not approach Russia's borders, Prime Minister Diefenbaker told the Commons Tuesday, commenting on his correspondence with Soviet Premier Khrushchev.

The Soviet leader had asserted in a letter delivered to Mr. Diefenbaker last week that such flights were made, and that they constitute a danger to Canada.

Mr. Diefenbaker, replying to a Commons question by Opposition Leader Pearson, said U.S. bombers bearing nuclear weapons occasionally fly over Canada.

Each flight was individually approved first by Canada, there was no blanket authority, and the nuclear weapons were "inactivated" to avoid accident.

DON'T APPROACH BORDER

"I wish to make one thing perfectly clear," the prime minister said, "... in no case have flights to which I have made reference come to approximate the borders of Canada and the U.S.S.R."

Mr. Pearson said the statement should help "clear the air." The statement that no flights go to the border Canadian territory take place without authorization would be very helpful.

Mr. Diefenbaker said proceedures followed in connection with the flights were instituted by the former Liberal government and have not since been changed.

"He said it would not be in the public interest to disclose the frequency of the flights or the numbers of aircraft involved.

It is understood that Defence Minister Pearkes personally investigates each flight report of a pilot over Canada.

Diefenbaker said proceedures are under constant review.

Mr. Diefenbaker said procedures followed in connection with the flights were instituted by the former Liberal government and have not since been changed.

Counsel Argues Duplessis Wrong In His Action

OTTAWA (CP) — Counsel for Frank Roncarelli is expected to conclude today argument in an appeal before the Supreme Court of Canada for $50,000 damages from Premier Duplessis of Quebec.

Frank R. Scott in two days of hearings so far has sought to show that Mr. Duplessis illegally ordered the Quebec Liquor Commission to suspend the former Montreal restaurant owner's liquor permit.

He argued that the liquor licence was exclusively the commission's, Edouard Montpetit became Mr. Roncarelli, an adherent of the Jehovah's Witnesses, used his legal right to post bonds in 393 cases when his co-religionists were charged with distributing pamphlets without a city permit.

The charges were later withdrawn or dismissed at the Montreal city council posting bond three weeks before his licence was cancelled in September, 1946.

OUTSIDE HIS POWERS

Mr. Scott Tuesday argued that Mr. Duplessis could be sued for damages because he acted illegally, outside of the statutory powers of his duties as premier and attorney-general.

The Quebec statues gave him no authority over the commission, an autonomous body, or order its chairman to cancel a licence.

He also contended Mr. Archambault exceeded his parliamentary powers by cancelling the permit without giving reasons and was not acted only to enforce liquor laws.

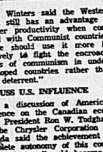
Mr. Roncarelli had not been charged with breaking the liquor laws and the only reason for cancelling his licence was that he had exercised his right to post bond for Jehovah's Witnesses.

Mr. Duplessis' lawyers have contended in the lower courts that the premier acted not by tort because he acted in his capacity as attorney-general of the province.

OPEN NEW PARK

WINDSOR (CP) — The Ontario government has officially taken over a new 262-acre provincial park 25 miles south of here. The property is bounded by Highway 18A on the north, the Lake Erie Country Club on the east and the Big Creek Hunting and Fishing Club on the west.

"Jest a Second"



"When I feel like saying something funny, I count to ten — gives me time to think of something nastier!"

Speech Raises Speculation Of Change in CBC Financing

OTTAWA (CP) — A Commons speech by Revenue Minister Nowlan has raised speculation that the government may be considering financing the CBC directly from the federal treasury.

Mr. Nowlan said Tuesday night he believes the system of meeting the CBC's operating expenses in part from a 15-per-cent excise tax on radio and television sets and parts, in effect since television was inaugurated in Canada in 1952, was an "error and a mistake." Sales of TV sets had declined.

The minister, however, declined to be drawn out in questioning by Z. W. Pickering (PC-Bonavista - Twillingate), who asked whether Mr. Nowlan was anticipating a new policy announcement in the next budget.

Mr. Nowlan, who replied in Parliament for the publicly-owned CBC, said he was expressing his own opinion about the earmarked excise tax. He was "not for one moment suggesting" that intimating or in fact presuming to know anything about what might be contained in the budget with respect to these matters."

But he said it was a mistake to expect the CBC to rely on the tax "because the revenue bears no relationship whatever to the needs of the CBC."

"When everybody was buying TV sets millions of dollars rolled into the CBC, whether or not they needed the money. When the people stopped buying TV sets, the CBC needed still more money which it could not get from the excise tax and therefore had to get from the treasury of Canada . . . would make up the difference."

A government move to finance CBC operations directly from the federal treasury would follow the proposal last year by the Fowler royal commission on broadcasting.

Until 1952 the CBC's radio operations were financed by a licence fee paid by radio owners, supplemented by commercials and sponsorship of broadcasts.

In 1951 Massey royal commission on the arts recommended that the CBC's income tuerage be $1 a year for every person in Canada. In consequence the federal treasury's payment in 1956 and 1957 operated yearly grants of $6,250,000 to supplement its income.

The CBC report in 1956 said that its television operations would require an income averaging $15 a year for every family in Canada.

The federal government, deciding that TV would not be financed through a licence fee, decided on setting aside for the CBC the 15-per-cent excise tax on radio and TV sets and at the same time abolished the licence fee on radio sets.

Won't Convict On Fingerprints

TORONTO (CP) — Magistrate Donald Graham Tuesday dismissed a charge of armed robbery against William Baskur, 32, saying he could not convict on the evidence of fingerprints alone.

"I'm very suspicious and I might well infer accused was the man who committed the fingerprints," his worship said.

Baskur was arrested after two men robbed taxi driver Benjamin Katz of $25 at gunpoint and locked him in the trunk of his cab for an hour.

Katz was unable to identify Baskur. Magistrate Graham ruled evidence showing 12 points of comparison between the fingerprint on the steering wheel and trunk of the cab and Baskur's was insufficient.

OPENS NEW SERVICE

MONTREAL (CP)—The 20,256-ton Canadian passenger liner Ascania of the Greek Line arrived Tuesday to inaugurate a new passenger service between Montreal and Continental Europe. The 37-year-old ship, originally the Monarch of Bermuda, was reconstructed in Hamburg, Germany, to accommodate 1,331 tourist and 50 first class passengers.

PEACE IN ALGERIA IS DE GAULLE'S FIRST GOAL

With legal power to rule France by decree for the next six months, Premier de Gaulle will now attempt to restore peace in Algeria. He is flying to Algiers where he will confer with the military junta which defied ex-Premier Pflimlin on May 13. Two of the leaders with whom he will confer, Gen. Raul Salan, left, and Gen. Jacques Massu, right, are shown as they attended the funeral of one of the rebels who died fighting in Tunis.

De Gaulle Must Find Formula To End Moslem Rebellion

By JOSEPH MacSWEEN
Canadian Press Staff Writer

Gen. Charles de Gaulle's journey to Algeria focuses last attention once again on the warwracked scene that precipitated the French crisis.

Now solidly in power at home, de Gaulle in Algeria faces the task of restoring the authority of Paris and ending the military-civilian insurrection that was launched in his name May 13.

A surprise departure appeared likely B.C. acreage planted in the main crops was: Oats 87,000, barley 67,500 and wheat 45,600.

And he faces the more formidable riddle of finding a formula to end the Moslem rebellion that has drained France of blood and treasure for four years.

As a man of tremendous military prestige, de Gaulle is in a particularly good position to deal with the army men who helped install him in office but against the former regime. He will likely show the same tertic in dealing with the white Algerian colons as he did with the Chamber of Deputies in Paris.

His choice of cabinet, including men known for moderation, and excluding extremists, has caused grumbling among the Algerian French. But it seems to be the only ultra-nationalists really excluded de Gaulle, striving to preserve the forms of legality, would hand out ministerial posts to persons identified with the insurrection.

The name of Gaullist deputy Jacques Soustelle, former resident minister in Algeria, had been prominently mentioned as a high post. But Soustelle, while claiming to speak with de Gaulle's blessing, has long acted like a man with overriding personal ambitions. The general's attitude has been noticeably cool to him.

De Gaulle does not go to Algeria as a politician with political debts to pay. While it is true that the insurgents started the trouble and him to power, he did not act on his bidding but rather used his name to attain their ends.

De Gaulle showed his determination to end the Algerian problem when he threatened to resign unless the generals enforced his program in full. It isn't likely he will pussy-foot in Algiers.

The time has come for the "miracle of Algeria" to be performed. The generals have said the Moslems, who make up the great majority of that country's population, will "miraculously" warmed to France since the Algerians enforced his program in full. It isn't likely he will pussy-foot in Algiers.

The time has come for the "miracle of Algeria" to be performed. The generals have said the Moslems, who make up the great majority of that country's population, will "miraculously" warmed to France since the Algerians enforced his program in full. It isn't likely he will pussy-foot in Algiers.

De Gaulle's messages to President Bourguiba of Tunisia and King Mohammed V of Morocco indicate that he hopes to tackle immediately France's problems in North Africa as a whole, not just Algeria.

It is thought the general envisions some sort of federation among France, Tunisia, Morocco and Algeria. Mohammed and Bourguiba reacted in a guarded way to de Gaulle's messages. The Arabs naturally take a bargaining stance while awaiting specific proposals.

Some months ago, the Arabs put forward their own proposal for a North African federation, without France but including Algeria. This was aimed at preventing a united front to France and also to block the pro-Arab expansionist ambitions of President Nasser and his United Arab Republic.

The two sides thus appear to be thinking along parallel lines, but on past performance the French settlers in Algeria would bitterly oppose any attempt at merging in a federation and giving Moslems equal rights.

It is this scene of conflict within-conflicts that de Gaulle will try to rearrange.

Empress Hotel At Peterborough Opens in Month

PETERBOROUGH (CP) — The Empress Hotel, badly damaged by fire April 26, will be open for business in about a month, owner Cyril Fuller of Toronto said Tuesday.

Twenty-six rooms in a wing which survived the blaze have been refurnished and will be opened as a motor hotel. Plans for a new hotel to replace the main section, now being demolished, are nearing completion.

50 Ministers Attend Seminar

PETERBOROUGH (CP) — A minister nowadays must be a financier as well as a preacher, student, pastor, leader in worship, director of teaching and administrator of a many-sided organization, 50 young United Church ministers were told.

Addressing a one-day seminar held in conjunction with the Bay of Quinte conference, Rev. Victor T. Mooney of Toronto said finance was the most difficult field in the church as ministers usually have not much training or experience in it.

"But the minister should not abdicate his position of responsibility in finance any more than any other field of his duties," Mr. Mooney said.

"The efficiency of his ministry will be judged by financial as well as other results."

Time Near to Spray White Pine Weevil

PARRY SOUND — Ontario foresters advise that it's time now to spray Scotch, white and jack pine plantations for white pine weevil because by the time first indication of damage is visible — usually wilting of the new top shoots in late June — the weevil is in an almost invulnerable position within the terminal shoot. Eggs have hatched by then and the larvae are feeding under the bark.

The white pine weevil will attack other species as well, but not as commonly as Scotch, white and jack pine. With warm weather approaching, the adult bug will emerge from the litter and, with unerring accuracy, will head for the main top shoot of the tree and begin feeding, then soon will lay eggs.

The egg-laying must be prevented and this is done, foresters say, by applying a powerful re-pellent to the terminal shoot only. A strong solution of D.D.T. with a good "spreader-sticker" has given almost 100% control. Spraying is not advised by foresters unless the incidence of weevil last year exceeded two per cent.

It is suggested that plantation owners consult either local Ontario Department of Lands and Forests officers or the office of the district reforestation supervisor.

Man Runs Amok, KO'd by Woman

TORONTO (CP) — A man who ran amok and assaulted women and children was floored with a hard right by a woman when he tried to get her legs in downtown Riverdale Park Monday night.

Police searched the park and arrested John Raymond Le Clair, 34, who was charged with assaulting a nine-year-old girl and a woman.

Police were told a man who had been drinking was molesting children and using bad language.

Frankford

FRANKFORD — Mr. and Mrs. Mac Richardson and family, of Richmond Hill, spent Saturday with Mr. and Mrs. Fred Wannamaker.

Rev. and Mrs. Gordon Pierce are spending a months' holiday with relatives in Winnipeg.

Mrs. Alice Hobbs of Belleville visited her sister, Mrs. Jim Hills on Saturday afternoon.

Mr. and Mrs. Carl Andrews and daughter Linda, spent the weekend with relatives in Toronto.

Master Robert Grant returned home from Trenton Memorial Hospital on Saturday following an appendectomy.

Mrs. Olive Williams and family have taken up residence in Belleville.

Mr. and Mrs. Harry Revoy and Mr. and Mrs. A. Revoy are spending a holiday with Mr. and Mrs. J. Bulger and family in Moncton, New Brunswick.

Mr. and Mrs. R. O'Hara and daughter Ruby, have taken up residence in Brighton.

Master Paul Andrews spent the weekend with Mr. and Mrs. A. Watson and son, Calvin.

The C.A.'s of Frankford Full Gospel Tabernacle Church, met on Friday evening, with vice-president Doug Flood in charge. The meeting opened with Mrs. Len Reilly leading in prayer. Miss Helen Patrick conducted the song service; Mrs. Doug Flood led in prayer; Miss Lois Wright conducted a Bible quiz and Mrs. D. Flood and Miss Doris Donnan rendered a vocal duet.

Announcements were made by the pastor. The offering was collected by ushers J. Curry and C. Wright. Testimonies were led by Mrs. Mary Patrick, Mrs. D. Flood and Miss D. Donnan, rendered another vocal duet. Pastor Robert Donnan led Bible study from Isaiah Ch. 43, speaking on "Keeping on Fire for God". The service closed with prayer.

FIGHTING CONTINUES IN TRIPOLI

Modern automatic weapons are manned by rebels — one a woman — behind barricades in the ancient city of Tripoli in Lebanon. Heavy fighting between government forces and insurgents holding the city continues.

Moose Snarls Traffic 5 Hours

HAILEYBURY (CP) — A young bull moose snarled traffic on Highway 11 for five hours Monday near this Northern Ontario town. Nearly 200 delighted tourists "shot" him with cameras.

The moose apparently swam from the Quebec shore of Lake Timiskaming to the Ontario side —about three miles. As he ambled along cars halted on the highway, which runs along the lakeshore north of here, and occupants lined the guardrail.

Too frightened of the crowd to cross the roadway into the bush and too tired to swim back, the moose scampered up and down the stony shoreline. Cars coming from both directions stopped to watch his antics, blocking the highway for a mile.

Finally police unscrambled the snarl of cars and trucks and ordered the highway cleared. The moose vanished across the empty roadway into the bush.

HUGE PROJECT

The earth - and - rockfill power dam of Australia's Snowy Mountain hydro project is 380 feet high.

Roslin

ROSLIN — Trinity Sunday, marked two special events in the history of St. Paul's Anglican Church, as it was the first service held since the completion of the new ceiling, replacing the old metallic one. It was also the first time the new electric organ, the gift of Mr. Mooney Cockins, a member of the congregation, was used.

Mr. and Mrs. Gary Morgan, who have been living in Belleville, moved recently to Roslin, and have rented what was formerly the Rutherford home from Mr. C. Leslie.

Mr. and Mrs. Doug Reid and boys, of Barrie, were recent guests at the home of her parents, Mr. and Mrs. A. Bates.

Members of the Women's Institute enjoyed a bus trip to Ottawa, recently, to view the tulips and visit a number of places of interest in the capital. They found the day all too short to see all they would have liked.

Places visited were: The Experimental Farm; the Mint; Parliament Buildings; Archives; Laurier House and a scenic drive in and around Ottawa.

On Friday the pupils in the senior grades and their teachers in the South Thurlow school area, went by bus to Ottawa, the last few years these trips to places of interest have become an annual one.

SPECIAL BREED

"Family trees" of all the 100,000 Alsatians, or German shepherd dogs, across the world are maintained at Augsburg, West Germany.

Enter This Wonderful New Contest Today!

Read how easy it is for you to win big cash prizes —

1. REGISTER — Fill in your name, address and phone number ONLY on the simple registration form available free at your Dominion Store. Deposit in the entry box provided. Register each week! The more often you register, the more likely you are to be phoned by the Treasure Title Contest.

2. SOLVE THE PUZZLE — Above is a picture puzzle. Underneath the picture is a list of suggested titles. One title and one alone is the correct title — the Treasure Title that can win you a big cash prize. Decide on the Treasure Title NOW. Write it down and put it beside your telephone. DO NOT mail in or deposit your Treasure Title at Dominion. Keep it beside your telephone.

3. ANSWER "DOMINION" — If your phone rings any Saturday night between 7:00 and 8:00 p.m. Eastern Daylight Time, do not answer "hello." Instead say "Dominion Stores." If you do, and it is the Dominion Treasure Title Contest calling, you automatically win $5000. NEXT, if you can correctly name the Treasure Title of the above puzzle, you win another $5000. NEXT, if you have a Dominion cash register slip dated this week totalling $5.00 or more, your prize is DOUBLED!

4. SAVE REGISTER SLIPS — Shop at Dominion every week and save your cash register slips. One $5.00 slip can be worth $1,000 to you. Put each week's slips AND the Treasure Title of the puzzle beside your telephone.

Employees of Dominion Stores Limited and their families are not eligible for this contest.

BE READY SATURDAY NIGHT!

7 to 8 P.M., E.D.T.

ENTER FREE AT ANY DOMINION STORE IN ONTARIO

CAMPBELLFORD

More Rigid Tourist Resort Licensing Sought by LODA

CAMPBELLFORD — Representatives from many parts of Zone 2 of the Lake Ontario Development Association met in the dining hall at George's Restaurant here with George Coling, of Brighton, chairman of Zone 2 presiding.

Mayor D. R. Maybee of Campbellford, a member of the board of directors of LODA welcomed the group to the town and welcomed the Township of Seymour as a new member of the association.

Among the items discussed was a move toward more rigid licensing of tourists resorts, to make sure the tourist gets fair value for his dollar.

Elmer Banting, president of the LODA, said the association had found a few cases of false advertising on the part of resort owners and that after being attracted to an area, the tourist was disappointed at the lack of suitable accomodation.

He also said the association was working on the idea of having the provincial government make funds available to progressive resort owners so that facilities could be improved. Loans would be paid back out of earnings.

$700 GRANT RECEIVED

Chairman George Coling pointed out that Zone 2 had asked for and received a grant of $200 from the United Counties council. This grant however would be paid on December 15.

Mr. Coling pointed out that the grant could be secured not if the association wished to take a discount, which amounted to the interest on the money the counties would have to borrow from the bank to make the grant. The matter was left with the executive to take the grant whenever it was needed.

Mr. Coling pointed out that operated at sportsmen's shows in Cleveland and Harrisburg this spring. He said a total of 3,100 enquiries were brought back from the two shows and said he believed the association would do further promotion work in the Harrisburg area. He added that more than a quarter of a million people visited the Harrisburg show.

Don Kingdon of Peterborough secretary-manager of LODA outlined a number of projects now under way and said the association had hired Gordon Johnston of Peterborough, a graduate of the U. of T., to assist in the general promotion of the area. He said Mr. Johnston would be visiting the various member municipalities making a survey of facilities.

Mr. Kingdon urged municipalities to forward a list of available buildings, suitable for locating industry, and said the LODA has received several enquiries from firms exporting manufactured articles to Canada, with regard to having plants taking on the manufacture of subsidiary lines to supply the Canadian and American markets.

Membership in LODA now stands at 43 municipalities which is 100 per cent increase in three years.

TRENT CANAL FACILITIES

Regarding an enquiry to the Department of Transport relative to extending facilities and improving existing ones along the Trent Canal, Mr. Kingdon and Mr. Coling reported that the department has announced plans to improve the area. Additional parks and docking and fueling facilities will be provided for boat owners using this system.

Zone 3 of the LODA asked support of Zone 2 with regard to acquiring the use of an abandoned RCAF airfield at Odessa. The executive of Zone 3 are attempting to have the airport licensed for light aircraft.

After some discussion, during which it was pointed out that no financial support would be required from Zone 2, it was decided that Zone 2 would support the idea.

Mayor D. R. Maybee, chairman of the highways committee reported on a recent brief presented to the Department of Highways relative to speeding up construction work, particularly on Highway 401 and 45.

During an election of chairmen, Mayor D. R. Maybee of Campbellford, was re-elected chairman of the highways committee: Mayor J. D. Burnett of Cobourg, was named to head the tourist committee and Reeve R. Budge of Port Hope was elected to head the industrial committee.

Elmer Banting, president of the LODA spoke briefly, saying that 1958 was a crucial year for the association. Municipalities are asking for results, said the speaker, and he assured the group that excellent results had been obtained.

He stressed the importance of individual committees in municipalities working on industrial leads supplied by LODA.

He complimented the executive on the award winning industrial brochure from the U.S. and Canada in a competition held in Atlanta. He said the advertising derived from the award meant a great deal to the LODA.

CRUS COUNTRY TREK

Mr. Coling invited the group to Brighton on June 26th when the Brighton Chamber of Commerce is sponsoring the Antique Auto Club cross-country trek to London through Brighton. About 75 cars will make the trip.

Of these cars about 25 will come from the United States and another 20 cars are expected to make a trip from Montreal to meet the east-bound group in Brighton. A celebration has been arranged for the community.

Mayor D. R. Maybee of Campbellford said that on June 20th, a large flotilla of boats would assemble in Campbellford for a trip through the Trent system starting on June 22nd.

The boats will arrive from Toronto and other cities along Lake Ontario. It is expected the flotilla, when it is assembled in Campbellford, will be the largest single group of boats ever to use the Trent Canal system.

Following the meeting, coffee and sandwiches were served.

The next Zone meeting will be held at Newcastle on June 25th.

LIGHT TIMBER

A cubic foot of wood from eastern cedar trees weighs only about 19 pounds.

WELCOMED BY MASSEY, ASSURED BY DIEFENBAKER

West German President Theodor Heuss, right, stands by as a member of his official party is introduced to Governor General Vincent Massey in Ottawa. Dr. Heuss addressed a joint session of the Senate and House of Commons. Prime Minister Diefenbaker assured him Canada would keep her NATO forces in Europe as long as they are needed.

Petrillo Retires As President Of Music Union

PHILADELPHIA (AP)—James Caesar Petrillo, overlord of musicians for 18 years, made it official and final Tuesday. Melting into tears, he retired as president of the American Federation of Musicians.

The 65-year-old Petrillo drained his own emotions and those of his followers in a 45 - minute goodbye to his era of tumult and triumph.

He closed his speech with a recommendation that the union's annual convention elect Herman D. Kenin, Portland, Ore., lawyer, to succeed him.

Kenin, 56, is the union's west coast representative.

He and Al Manuli, 48, head of the federation's New York local, with a membership of 32,000, were nominated by the convention.

The 1,200 delegates make the choice by secret ballot today.

Petrillo is not making it an absolute swan song. He carries on as head of the 19,000-member Chicago Local 10, at a salary of $26,000 a year, $6,000 more than he got as head of the federation.

AFRICAN MINERS

South Africa's gold mines employed 257,284 native workers in April, 1958, compared with 243,240 in the same month of 1957.

Centenary

CENTENARY — Several in the community enjoyed the pie and ice cream social held in the church hall on Wednesday evening.

Sorry to report Teddy Sargent sufefred a dislocated elbow while playing at school.

Mr. and Mrs. Percy Sutherland called on Mr. and Mrs. Embury Hough on Sunday.

Miss Donna May spent the week-end with her parents. Donna has secured a position at Ajax.

Mrs. R. Hart spent the week with Mr. and Mrs. Clifford Dunn at Coldsprings.

Mr. and Mrs. A. Reid, Belleville, called on Mr. and Mrs. Percy Sutherland on Sunday evening.

Mr. and Mrs. Elwin Hart called on Mr. and Mrs. Roy Thrasher on Sunday evening.

Mis Stella Wellman, Belleville, Mr. and Mrs. Edgar Ray and Mr. and Mrs. Fred Edmondson and family were supper guests of Mr. and Mrs. B. Edmondson on Sunday evening.

EXPLOSION KILLS THREE

BIG SPRING, Tex. (AP)—Gas leaking from a pipeline was blamed for an explosion and fire which killed three fishermen and destroyed two cars Sunday. Police said someone apparently struck a match or started one of the cars and touched off the blast.

NEW LEADER OF QUEBEC LIBERALS

An impressive first ballot majority gave leadership of the Quebec Liberal party to Hon. Jean Lesage, above, former federal minister of northern affairs and natural resources. Retiring leader Georges-Emile Lapalme will remain as legislature opposition leader until the next general election, Mr. Lesage, who will resign his federal seat soon, will seek to unite the divided Liberal party and end the Union-Nationale regime, led by Premier Duplessis.

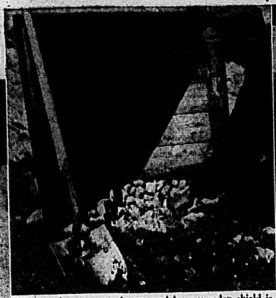
Fish Hatcheries Preserve Canada's Reputation

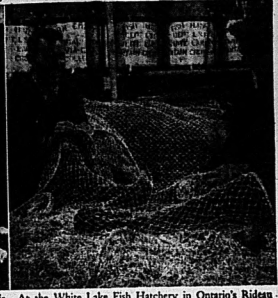
Keep Country Anglers' Paradise

Canada is one of the world's great sport fishing countries and carefully controlled programs of research and preservation are regularly carried out in many parts of the country to maintain her reputation as an angler's paradise.

Restocking lakes by aerial planting of yearlings has proved very successful in recent years; many hitherto inaccessible lakes may now be reached by aircraft.



A nest of coarse gravel protected by a wooden shield is prepared on a pond bed for the female who will enter it to spawn. Male then takes over, guarding the nest and fanning eggs until they are hatched.



At the White Lake Fish Hatchery in Ontario's Rideau Lakes District, Harold Clark (left) and Dale Scott (right) repair dipnets used in recovering yearlings from hatching grounds.

Research into the type of food required by different varieties of fish is carried out at Canada's fish hatcheries. Speckled trout (shown above) formerly fed a diet of ground liver now thrive better on a pelleted seed food.

Speckled trout are placed in specially designed containers for distribution; each can holds about 500 yearlings. Careful handling keeps fish mortality at an absolute minimum.

At White Lake rearing ponds a truck is loaded with its precious cargo. Every year the success of such re-stocking measures pays off in the ever-increasing numbers of sportsmen who are attracted to Canada's lakes and streams. A study of the effects of overcrowding has led to the removal of the size limit on pickerel and bass although the 7" limitation on trout remains in most parts of the country.

National Film Board of Canada Photos by Chris Lund.

Ox Pointers Twist Bobcats' Tails For Fifth Straight Win of Season

By GARRY ALEXANDER

Last season Point Anne did not lose a game in the Belleville and District softball league until the final fixture of the season and then only because they did not have enough players to finish the game. Apparently the Cementmen are out to at least equal their record, picking up their fifth consecutive victory, McDlight, an 11-4 decision over the Belleville Bobcats at CNRA Park before a fair - sized crowd.

Two runs in the opening frame got the Pointers off to a flying start. Bobcats cut the margin with a run in the third but from there on it was a walk - away for Duff's league - leaders. They plated two in the fourth, three in each of the next two innings and finished with a single in the ninth. The Cats picked away with a pair in the fifth and another in the seventh.

Al Carkner pitched the distance for the victors, allowing seven hits. He struck out four, passed four and hit two batters. It was his second victory of the year.

Bob Hull started and took the loss in four innings plus for the Bobcats. He gave up seven runs on five hits, fanned three and walked the same number. Lum Carson retired the side in the fifth but gave way to Stu. Craig with one out in the sixth. Carson was charged with three runs and four hits, two of which should have been easy putouts. Craig allowed one run and no hits in the last 3 2/3 innings, walking three and hitting one.

Carr's triple and two errors gave the Cementmen an early lead. Singles by Russell and Brown, a base on balls and a passed ball opened the locers' scoring but Gary Goyer drove in a pair for Point Anne with a base hit in the fourth. A pair of walks and hits by Wardhaugh and Gilmour chased Hull and led to three more in the fifth. Carkner, Carr, Wardhaugh and Batchelor hit safely in the winners' sixth-inning explosion while a hit batsman, wild pitches and Carkner's groundout gave them their 11th run in the ninth.

Carson's base knock, a ground rule double by Wayne Brown and Crawford's single produced two Bobcat markers in the fifth. Brown's double was a line shot which curved out after passing the foul-line flag in left field but the umpires called it a double, bringing much protest by the Bobcats. Brown had gone all the way but both runners were sent back. Crawford singled them home. Brown walked and scored later on Faulkner's ground ball in the seventh.

Claude Carr with a triple and single and Jackie Wardhaugh with two one-baggers led the way in Point Anne's nine-hit attack. Al Carkner helped his own cause with a double while John Batchelor, Pat Gilmour, Doug Soule and Gary Goyer contributed singles.

Wayne "Wiener" Brown hammered a double and two singles in losing effort. The remaining safeties were divided among Paul Russell, Floyd Crawford, Lum Carson and Stu Craig.

Point Anne — Carr, Wardhaugh, D. Hull, J. Batchelor, Gilmour, Jones, Soule, Goyer, Carkner, Elliott Jr.

Bobcats — Russell, Brown, Crawford, B. Hull, Faulkner, Asselstine, Mallory, Cousins, Carson, Craig, Casey.

Umpires — Tim Williams (P) and "Shorty" Ehlert. Time — 1:40.

Point Anne	200	233	001	11	9	3
Bobcats	001	020	100	4	7	4

Fight Mars Lacrosse Game

BRAMPTON (CP) — Welland Crowland Swifts defeated Brampton Excelsiors 14-9 Tuesday night in a flight-marred Ontario Lacrosse Association senior game.

McNulty led the scoring for Welland with three goals. O'Hearse and Howe each picked up a pair for the winners. Singles went to Teal, Hall, Roy, Baker, D'Amico, McMahon and Carr.

For the Excelsiors, Castator and Hilson both scored three goals while Bennett picked up two and Madgett notched one.

Eighteen penalties were handed out, nine to each team. They included three five-minute majors for fighting to both Welland and Brampton and a match misconduct to Ralph McCormick of the Excelsiors.

Coach Jack Ashby of Brampton was ejected from the contest at the end of the first period.

Bisons Hook Up With Hawks, Rangers

MONTREAL (AP) — The Buffalo hockey Bisons have signed player agreements with both New York Rangers and Chicago Black Hawks of the National Hockey League.

Bisons, who finished last in the American Hockey League this year, will get first pick of both rosters.

Jim Norris, president of the Black Hawks, Murray Patrick, general manager of the Rangers, and Ruby Paxton owned of the Bisons signed the agreement Monday night. They were here for the annual NHL draft and summer meeting.

Bisons broke off a four-year affiliation with the Black Hawks about a month ago. Paxton said he was not able to get enough good players.

Rangers have been hooked up with Providence Reds for the past three seasons.

'Tossup' Battle Forecast for America Cup

NEW YORK (AP) — Harold S. Vanderbilt, the brilliant yachtsman who turned back the last British challenge 21 years ago, forecasts a "tossup" battle in the late summer race famed America's Cup.

"The British should be very formidable this time," said the New York financier Tuesday. "Structurally, there appears little to choose between the British and American boats."

"The race will be won on seamanship and helmsmanship, not on the construction of the boats. The British not only have a fine boat, according to all reports. They are tackling the venture in a very serious and determined way."

Vanderbilt was one of a crowd of some 300—millionaire yachtsmen who attended the launching of the 13-metre yacht Columbia.

The Columbia is one of four American boats being prepared for defence of the trophy against Britain's mystery - shrouded Sceptre off Newport, R.I., Sept. 26.

Miami Wants No Part of 'Bums' Next Year

MIAMI, Fla. (AP) — Lot Angeles Dodgers will not be invited to return to Miami Stadium for next year's spring training, Joe Ryan, general manager of the Miami Marlins of the International League, announced Tuesday.

The Dodgers' training base is at Vero Beach, Fla., but they have been playing a number of games each winter at Miami Beach.

Ryan gave two reasons for ending the nine-year-stay of the Dodgers in Miami:

1. They have moved to the west coast and now are no longer attractive to Miami, which essentially draws eastern people.

2. They are not the top attraction they once were from a player personality standpoint.

The Dodgers drew 80,000 fans for 11 spring games here in 1957, their spring attendance dropped to 50,000.

Trenton Juniors Hit Win Column With 10-4 Victory Over Frankford

Trenton Legion Juniors finally broke into the win column in the Belleville and District softball league last night and they did it with a bang, whipping the Frankford Merchants 10-4 in Trenton.

The loss was the third consecutive for the Merchants after they started by winning their first two games. Trenton's victory was their first in five contests.

A big six - run rally in the fourth frame provided Charlie Drake's crew with the decision. Legion held a narrow 4-3 lead until they broke it wide open when men going to bat in the fourth.

A Frankford error started the rally and from then in the Trenton bats looked after the rest. Pitcher Gord Maroney singled, followed by another Frankford miscue and back to back triples by Guy Austin and Roger Drake. Willy Kennedy and Bill Moxam, whom Trenton acquired from Belleville Bobcats, added doubles and the Merchants committed their third error of the inning to give Trenton a big 10-3 lead.

Singles by Dooher and Field and Hunter's double got one run for Frankford in the seventh but it was far too late and too little. A hit batter and base hits by Beatty, Field and Hunter scored two for the losers in the third while an error, walk and singles by Field and Cosgrove netted their club's first run.

A walk, sacrifice and Alexander's single opened Trenton's scoring in the first. Doubles by Alexander and Moxam plus safeties by Burns and Maroney led to three third-inning tallies.

Gord Maroney toiled the full nine on the Junior's hill, chipped for 12 hits. He whiffed five, walked only one and hit one other batter.

Ironman Bob Hunter went she distance again for Frankford, allowing 13 safeties. He fanned half a dozen while passing four.

Bill Moxam slammed a pair of doubles and a single to spearhead the Legion attack. Guy Austin, Doug Alexander, Willy Kennedy and Gord Maroney each collected two hits with the others going to Roger Drake and Bobby Burns.

Jason Field, Frankford's leading hitter so far this season, had a four - for - five night, all singles. Bob Hunter and John Beatty each stroked two hits while Dean Kemp, Douz Dooher, Mike Cosgrove and Harold Baker split the others.

British Players Come Through In Amateur

ST. ANDREWS, Scotland (CP) Britain's Walker Cup players came through in strength Tuesday in the second round of the British amateur golf championship.

It was a day of confused golf in swirling fog, biting cold and high winds on the St. Andrews Old Course during what Scots observers said was nearly the worst Amateur weather in a decade.

Things were so bad that Frank Strafaci from Miami got lost in the fog and played to the wrong hole. He still managed to win, defeating D. H. Jamieson of Scotland 6 and 5.

Visibility was down to 20 or 30 yards at one time and Jimmy McHale, a Philadelphian, played the wrong ball. He, too, battled through the thick North Sea fog that the Scots call "Haar" and won 3 and 2 over Norman Saul of England. McHale wandered on to an adjoining fairway, played someone else's ball and lost the hole on a penalty.

Leading England's Walker Cup players was Joe Carr of Dublin, the 1953 Amateur winner. He scored a 1 and 1 victory over G. G. Henderson of Scotland.

May Fine Pitchers Who Toss Beanball

PITTSBURGH (AP)—Baseball Commissioner Ford Frick says he expects the National and American leagues to issue directives soon automatically imposing $100 fines against pitchers who have to be warned about deliberately throwing at batters.

In a letter to Judge Samuel A. Weiss of Pittsburgh, Frick said he had discussed the matter of beanballing with National League President Warren Giles eged bean-ball epitode.

Yesterday's Stars

By THE ASSOCIATED PRESS

Hitting: Wes Covington, Hank Aaron, Braves — each hit two home runs, driving in five runs, for 14 victory over Giants that regained National League lead.

Pitching: Johnny Kucks, Yankees—gave up only two hits, both singles by Billy Goodman in the first four innings, for a 13-0 breeze over the White Sox.

on May 28 and added:

"I think you will see a note from the league offices within a few days that hereafter any pitcher who has to be warned will automatically be fined."

Judge Weiss had written Frick about a fracas at Forbes Field recently touched off by an all-

Smythe Horse Favorite in Queen's Plate

TORONTO (CP) — Conn Smythe, a builder of iron mens for hockey, is moulding an iron horse for the Queen's Plate.

The boss of Toronto Maple Leafs of the National Hockey League is the owner of Caledon Beau in Saturday's 86th renewal of the $25,000-added Plate. Caledon Beau is favored at 7-to-5 odds.

Smythe is carrying the reputation he made in hockey on-to-the track — namely, his performers may not always win, but he'll get more mileage out of them than anybody.

Caledon Beau raced in the one-mile Marine Stakes last Saturday at Old Woodbine race track. He got whipped, a fourth-place finisher. He went for a two-mile lumbering-ey exercise Sunday.

Monday? He moved to New Woodbine track in suburban Malton and easily won his Plate Trial race over 1 1-16 miles.

"What does he think he's doing, running a three-year-old in back-to-back races like that?" one rail bird asked.

Smythe scoffed. "They used to tell me hockey players couldn't play on successive days. Now, everybody says so, claim I'm crazy because I started my horse Saturday and again Monday."

TO A FINE EDGE?

Opinion is divided. Some believe Scoop Emmerich's chief obstacles—the unbeaten filly Stole the Blue—was cleared of Tuesday with the announcement that she will—definitely start. She worked a mile in 1:41 and 5 the second choice at 2 to 1.

Stole the Blue, bred by W. F. Morrissey of Toronto and winterbrook favorite to win the Plate, had been kept out of training when she was one of several victims of a coughing up-demic which hit thoroughbreds stabled in Toronto.

NEW BOWLING LEAGUE!

Don't look now, but if a few modern-minded keglers' plans materialize Belleville may see a "national type" bowling league next fall that will play the game "as she should be payed."

In other words a new bowling loop is in the making—one that should raise the quality of bowling to the status it should have enjoyed here several years ago.

An unbiased criticism of the game as it has been played here would reveal that it has been in a state of jumbolum, with the good playing with the not so good, and the beginner being tossed in with the veterans in a flurry to form teams and leagues without regard to quality of play or status of the players.

This effort to put bowling back where it belongs stems from a idea spawned by veteran bowlers after lengthy and sincere discussion. These included Jim McKenzie, Bill Bateman, Ken Peacock and Cec Hardwick. Four tried and true veterans of the alleys.

In short, the idea is to form a new bowling league, a five-pin loop, which will adhere closely to the recognized rules of bowling and would, for instance, observe the foul line rule. An aim of the proposed league is to train bowlers under strict tournament conditions while enjoying keen competition and the company of other good sports. It is the hope of the committee that all top bowlers of the city and district will participate.

Actually, the new league is the first step towards a leveling of sloppiness in the realm of bowling, or,-to separate the boys from the men, so to speak, with no offence meant to anyone.

With this in mind the committee will set a minimum average, a figure which has not yet been decided. The 1957-58 average of the potential member makes him eligible or otherwise.

It is not the intention of the committee to interfere with other leagues. It is hoped, in fact, that many Major and Ladies' bowlers will play in both leagues. Meanwhile, the full support of other loops is anticipated so that a standard to shoot at for the whay up-and-coming bowlers may be set.

The fair-minded bowler will agree that the idea has merit. In the past the city has been addicted to potluck bowling in the main, with players forming leagues regardless of ability, and with more emphasis put on the social and camaraderie side. None of this can be lost under the new set-up which in this corner's opinion is as fair to the novice as it is to the veteran, simply because both are playing in their respective classifications.

It is a known fact a bowler with a 120 average will feel more at home playing with fellows with averages of 123 and 118. The same applies to the veterans with averages of double that number.

It is the intention of the committee to balance the teams prior to the start of the season, so that competition will be close and the prize divisions thus will be fair. Players will be switched from one team to another, if in the opinion of the committee this is warranted to equalize strength. All balancing will be done prior to the start of the season and once a team is declared "acceptable" it will not be interfered with. This will allow a team to improve without fear of intervention so long as it retains its originally approved players. Any additional players will have to be approved by a committee set up for the purpose.

It is also the intention of the original committee to avoid having packed teams and will it is possible to have all eight teams in this category. The league must, and will come first, at all times.

At this writing it is learned that several applications have been received from out-of-town keglers, and this fact alone indicates that the new league will hardly be one of a district nature. It has been suggested that the name of the league be the "Quinte Classic Bowling League."

The new loop intends to introduce a few innovations, some of which are: teams will consist of four men; no handicaps; teams will bowl four games per night; the 2-2-1-2-2 scoring system will be used. It has been proven that it increases averages from five to ten points. Also as mentioned earlier, the foul line rule will be observed.

This department is of the opinion that the formation of such a league is a step in the right direction and will give the popular winter pastime a well-deserved needle. In fact something like this should have been done long ago - and it is hoped bowlers of the city and district will get behind the idea. It is the first time in the bowling history of the city that keglers will have a "national league," something for the young fellows to aim at, and make the vets fight to stay up there. More power to its headpins.

"RASSLIN"

Just about as scrwcy a pair of cusses who ever entered a rassle ring will be seen in action Friday night when Fred Atkins, the Austrylian, teams up with Wild Bill Longson in a tag teamer against the Dhara Singh-Wee Willie Davis combination. These two rassaplers must needs be on their mettle for Wild William and Feerocius Frederick are no sticklers for the rules, and woe betide any who falls foul of them.

Then there is the dashing Indian champion, Dara Singh, reputed to be a colorful big boy from the haunts of the Ganges, who tangles with that old nasty Wee Willie Davis. The Indian wrestler is making his Belleville debut. Starting off the festivities is that pair of roughy toughies, Jan Gotch and Al Krusher Korman. Looks like a big night.

Hawks Buy Habs' Player, Wings Purchase 3 Minors; Champs Draft Charlie Hodge

MONTREAL (CP) — The National Hockey League winds up its annual meeting today with the inter-league draft after pulling off a couple of Montreal-origin AHL deals.

The Leafs have made no bones about their intentions to replace Earl Chidwick and may try to pick up another goalie at today's NHL intra-league draft meeting.

The Leafs passed up a chance to draft goalie Charlie Hodge, No. 2 netminder for Montreal Canadiens, who was on the reserve list of Rochester Americans of the AHL. Canadiens did a fast double-take by drafting Hodge themselves.

LITTLE OUTSTANDING

Otherwise, there was nothing outstanding in the draft choices. On paper, NHL clubs spent $95,000 in picking up minor leaguers, and the American Hockey League with draft privileges over the other two minor circuits spent $82,500. Eddie Shore's Springfield club of the AHL had a field day drafting five players.

Along with the draft, there was considerable talk about trades as a few farm hands from the reserve list of one club to that of another.

Compared with the brisk and smooth business of the draft, joint/relations committees had a rough time.

The NHL and minor pro circuits couldn't get together for another five - year agreement contract. The big snag was th draft.

The AHL and WHL, as leagues most concerned. The Western League doesn't like the idea of having its players drafted by the recognized higher class minor circuit.

WANTS RELAINED

The AHL wants to retain the draft privilege — at $7,500 per player — and would like to see broadly that the major NHL hides players by whisking them down to the AHL without giving the AHL a chance to take them.

Gen. Ahl, outgoing president said: have to may $7,500 to draft a player from the NHL, but also player from a club in our league they offer only $5,000 for the most. It just doesn't make sense.

Chicago, Toronto and New York each took two players in the NHL draft, with Detroit and Montreal one each.

Toronto, as last-place finisher in the NHL last season, had first choice and promptly put the bite on Bower. Chicago took Ed Litzenberger second choices took Autry Erickson, a youngster on Quebec Provincials of the AHL, and Howie Glover, a forward, from Cleveland.

New York took forward Phil Maloney from Providence of the AHL, and Art McGrath from Saskatoon of the WHL.

Boston Bruins took forward Dan Poilvian from Cleveland of the AHL and Detroit, in the controversial deal to reacquire their purchase from Montreal, took Hank Bassen, goalie, and Bill Gadsby, a defenceman, from Chicago.

Montreal Canadiens departed from accepted practice Tuesday by announcing sales before the club owners could scatter to their homes.

Canadiens handed over defenceman Dan Lamport to Chicago Black Hawks for an undisclosed sum and peddled three farm hands to Detroit Red Wings on a strictly cash basis.

St. Laurent's sale was something of a shock to Montreal fans. It came shortly after the NHL clubs had picked up nine minor leaguers in the inter-league draft and the American Hockey League had exercised its draft privileges by grabbing five players from the Quebec Hockey League and the Western Hockey League.

Between these player scrambles, the joint relations committees of the NHL and minors tried to settle their own problems and grievances.

It was much the same when players' representatives of the NHL club owners, although an agreement was expected today.

NWT RECOGNIZED

The owners have never recognized the association, which issued a law suit at the annual last year and later withdrew it. The players agreed to go along on a player's pension council basis.

"We might as well have stayed at home," said Doug Harvey of Montreal Canadiens, vice-president of the Players' Association, but without that status at the meeting.

"We are no further ahead today than when we met with the owners in Florida last winter," said Harvey. "We thought a lot of things were straightened out then, but we have been going through them all over again."

The players' association is included requests for more money for pension funds in the NHL standings — particularly for low-paid clubs — and greater consideration for veterans so that they may be placed on a free-agent basis.

Player representatives from all clubs were present at Tuesday's meetings. They stayed on and debated among themselves long after the owners' representatives had departed.

THINGS YOU DISCUSS

"There are still things to be discussed," said president Walter Brown of Boston Bruins, chairman of the meeting. "We agreed on some things and disagreed on others. We expect to make a statement Wednesday."

Harvey said the players' group probably will sign an agreement but will still keep hammering away for further benefits.

Representing the six NHL clubs were Brown and St. Laurent of Montreal; Ted Lindsay, NHL Players' Association president, and Jim Thomson of Chicago; Dick Duff and Tod Sloan from Toronto; Lynn McKinney and Fern Flaman from Boston; Red Kelly and Marcel Pronovost from Detroit, and Red Sullivar from New York.

In selling St. Laurent to Chicago, Canadiens indicated they are satisfied with Bob Turner and Albert Vanloti Langlois as defenceman along with Doug Harvey, Tom Johnson and Jean-Guy Talbot.

"Why should we let St. Laurent be picked up in Wednesday's draft?" asked managing director Frank Selke. "I think that more than $15,000 was obtained for the French-Canadian defenceman.

"We've got younger players like Turner and Langlois."

St. Laurent was 29 years old last May 12. Turner is 24 and Talbot will be 26 next month.

St. Laurent, a fine guy, has been with the club seven seasons. Before he turned pro he was with Montreal Royals of the old Quebec Senior Hockey League. He has been rated a better-than-average defenceman in the NHL.

HARS SELL THREE

Before the draft meeting got under way Canadiens announced the sale of three farm hands to Detroit. They are Gene Achtymichuk, centre; defencemen Jim Morrison and leftwinger Claude Laforge.

Achtymichuk and Laforge have been with clubs in the Quebec Hockey League and have had brief stints with Canadiens. Mac-Pherson, and on-and-off regular with Canadiens a few seasons ago, was with Cincinnati of the WHL last season and may remain there. It is a Detroit farm club.

The inter - league draft produced one major grab—Toronto Maple Leafs' $.1,000 draft price, took goalie Johnny Bower from Cleveland Barons of the AHL.

Giants Say They Paid $80,000 To Bonus Baby

SAN FRANCISCO (AP)—San Francisco Giants say they paid the highest bonus in the team's history, an estimated $80,000 for 18-year-old schoolboy pitcher Gaylord Perry.

The Giants declined Tuesday night to divulge terms in the signing of the six-foot-four righthander from Williamston, N.C. Perry was assigned to Phoenix of the Pacific Coast League, San Francisco outbid Detroit Tigers, Baltimore Orioles and Philadelphia Phillies for the fastballer.

Perry pitched five no-hitters for the Williamston high school team in 1957 and did not allow an earned run in 100 innings.

Giants Lead in Election For Chavez Ravine Stadium

LOS ANGELES (AP) — The baseball Dodgers' most important contest since they came to Los Angeles was over today, but nobody knew the final score.

The answer was hidden in a vast pile of election returns which will show whether the city's voters have decided to give the baseball club a site for a glamorous stadium in Chavez Ravine.

The last returns announced before counting was stopped for the night put the Dodgers ahead by 174,471 votes to 83,435. With moderate advantage was anything but decisive, since 62.3 per cent of the city's 1,305,427 registered voters cast ballots in the heaviest non-presidential election turnout in Los Angeles' history.

Principals on both sides were wary in their statements. Dodger President Walter O'Malley met with reporters and said only:

"What can I say? It's just too close to say anything."

And from city councilman Patrick McGee, one of the leaders of the opposition to the stadium deal, came this statement:

"It's too soon to tell. But I'm satisfied. The issue has been submitted to the people. And that's what we wanted."

NOTES INTEREST

The extraordinary local interest in the Chavez Ravine issue was typified by O'Malley.

"I was intrigued," he said, "in the interest in the referendum as evidenced by the headlines in the Los Angeles newspapers."

They would take a simple majority for the Dodgers to win the ravine property — located just a mile from the Civic Center.

The deal submitted to the voters Tuesday would convey some 300 acres of Chavez Ravine property to the ball club in exchange for the present Wrigley Field, a former Pacific Coast League park.

The Dodgers would spend up to $12,000,000 on a new four-tiered stadium seating about 52,000.

They also would construct a 40-acre public recreation park in the ravine at a cost of up to $500,000 and would maintain it at a cost of $80,000 a year for 20 years.

The city would spend up to $2,000,000 grading the ravine site for the team, and the country would invest $2,740,000 on access roads.

Buhl Better

MILWAUKEE (AP)—The sore right arm of Bob Buhl has improved and if it continues to show progress he may be able to replace Johnnie Antonelli in the Milwaukee Braves' next week rotation, Manager Fred Haney said Tuesday.

Buhl has been out of the lineup since May 18.

AMERICANS ADVANCE

MANCHESTER, Eng. (AP)—Karol Fageros of Miami, Fla., and Althea Gibson of New York advanced to the third round of the North of England tennis tournament women's singles Tuesday. Miss Fageros eliminated Rita Bentley of Britain, 6-2, 6-2. Miss Gibson won over Pat Ward of Britain, 6-3, 6-1.

HOW'S YOUR I.Q.?
TODAY'S INSURANCE PROBLEMS ANSWERED
QUESTION—
What can the claimant under a property policy do, after notice of loss is given, if he is not satisfied with the amount of the settlement offered by the adjustor? Must he bring suit or hire a lawyer?
ANSWER—
The standard policy has provision whereby in event of disagreement as to amount of loss, each party will select a competent appraiser, and the two appraisers, if they disagree, and the decision of any two will constitute a binding award.
HAVE YOU AN INSURANCE PROBLEM OF YOUR OWN? COME IN OR WRITE US. WE'LL BE GLAD TO HELP YOU WITHOUT CHARGE OR OBLIGATION OF ANY KIND.

Braves Belt 5 Homers; Giants In Second

Covington, Aaron Hit Pair To Salt Away 7-6 Decision; Yankees Clobber Chisox 13-0

BY THE ASSOCIATED PRESS

The American League race is a tight one — behind the New York Yankees, that is:

Only four games separate second-place Kansas City Athletics and last place Baltimore Orioles. But the As are 8½ behind the Yankees.

The Yankees clobbered Chicago 13-0 last night, rapping three home runs in support of Johnny Kuck's two-hit pitching. It we the ninth shutout by the Yankee staff this season.

Washington Senators jumped into a third place tie with Boston, just two games behind Kansas City, by beating the As 5-4 and 10-7.

CLEVELAND LOSES

Boston beat Cleveland 7-3, and Baltimore shut out Detroit 2-0 on Arnie Portocarrero's six-hitter.

The Yankees shelled Dick Donovan before he retired a man in the first inning. Mickey Mantle hit a three-run homer and Bill Skowron socked a solo homer. It was Mantle's sixth, Skowron's fifth. Yogi Berra also hit his sixth home run for the Yankees, who now have won four straight.

Billy St. Clair, out since May 6 with a leg injury, singled for both hits by the Sox, who have been shut out three times in a row.

The Senators scored four in the first game first, then got the clincher on Roy Sievers' ninth home run in the second inning. Ralph Terry (2-5) lost it with Russ Kemmerer winning his second. Dick Hyde relieved in the ninth after Bob Cerv, who hit his 15th home in the fourth, upping his AL lead, singled home two runs.

Herb Plews committed four errors in the nightcap, tying an other tied AL record for third baseman, and booted three in the seventh inning. As scored for the 9-4 lead. But the Senators clinched it with four in the eighth, with Plews doubling home two and scoring the tying run. Albie Pearson scored the clincher on an error. Truman Clevenger (3-3) won it in relief as the Nats gained their longest winning string of the season—four games. Duke Maas (2-3) lost it in relief.

Portocarrero, who blanked Boston 8-0 on four hits in his last start got his second in a row with the help of four double plays. Jim Brumfield got his fifth.

Dick Gernert hit a three - run homer for a 5-0 Boston lead in the fifth against starter-loser Mudcat Grant (4-3). Tom Brewer won.

Leafs Edge Richmond 5-4; Royals Beaten

BY THE ASSOCIATED PRESS

The sun is shining for the seven International League baseball clubs below from - - running Montreal but they're not making too much hay.

The Royals lost their fifth game in eight Tuesday night when to Columbus, 5-4, the second in a row they dropped to the Jets.

Second-place Rochester also lost to Havana 7-1 to remain two games behind the Royals.

In other IL action, third-place Toronto, 2½ games back, edged the Richmond Vees 5-4, while Miami shoved Buffalo deeper into the cellar with a 2-1 victory.

Columbus scored five runs in the first inning off Tom LaSorda and wrapped up their third win in a row. Bill Counsell's two-run, inside-the-park homer was the big blow. Ben Reynolds got the win for Columbus.

Rocky Nelson continued his torrid hitting for Toronto with three hits. Johnny James lost it, a three-run fourth inning featured by Tim Thomson's two-run homer being his downfall.

Richmond scored three runs in the ninth to pull within one of a tie but Toronto used a double play to choke off the rally. Don Johnson won his third in eight decisions, but needed relief help in the ninth.

For Miami, Don Cardwell won his fifth, striking out 13 on a rain-whittled six - two-run fifth gave him his victory. Bud Daley was the Buffalo loser.

Milwaukee Braves have rediscovered the home run, and with it have gained the lead in the National League. They have walloped 12 in their last four games.

The club cannot lose, their best one-game total of the year, and made them good for all but one of their runs in a 7-6 decision at San Francisco Tuesday night that dumped the Giants into second place, .010 percentage points behind.

Wes Covington and Hank Aaron each hit a pair. Covington's second hauled the Braves from behind in the eighth inning and Aaron's second clinched it in the ninth.

There were at least two home runs in every National League game Tuesday — except at Los Angeles. That cozy-corner in the Coliseum gave up just one, a second shot by Duke Snider, as Cincinnati used a bunch of walks to run an 8-3 victory over the Dodgers.

14 FOR BANKS

Ernie Banks defeated Pittsburgh 5-4 on two-run homers by Stan Musial and Joe Cunningham, and Milwaukee moved ahead of Philadelphia 12-4 with Ernie Banks hitting his 14th homer, tops in the league.

The Braves, who set a team record and led the league in homers with 190 as they won the pennant last season, now are averaging less than one a game before the current spurt. Covington, with four in the last four games, hit his first in a two-run fifth inning that tied the Braves 2-2. He, matching Ray Jablonski's two-run homer in the Giants' first, also was hitless.

Aaron, who has hit eight for-homers this season, Del Crandall, Joe Adcock and Felix Mantilla hit consecutive homers for a 4-2 lead in the fifth, but starter Lew Burdette and reliever Gene Conley were touched.

Unbeaten Don McMahon won his fifth in relief, but needed Ernie Johnson's help when the Giants scored with one out in the ninth. Willie Mays' triple and an infield out, Ruben Gomez lost in relief.

Cunningham's second home run of the season junked a four-all tie against losing reliever Curt Raydon (0-2) in the fourth for the Cardinals. Musial slugged his 290th in the majors, ninth this year, in the sixth. He drove in three runs, moving past the 1,000 mark in career RBIs. Larry Jackson won his fourth against allowing 10 hits, including home runs by Bob Skinner and Bill Mazeroski.

KOUFAX WILD

The Redlegs had nine walks, five of them in a six-run third off loser Sandy Koufax, who didn't get out of that while giving five runs. Don Hoak's three-run double was the only hit in the big inning and the ex-Dodger made stole home in the inning. Brooks Lawrence won his first in a month for a 3-3 record, giving five hits in his first complete game in 11 starts since last September, Sadler's homer was his third of the season, first at the Coliseum.

Banks was 4-for-4 for the Cubs, who also had a homer from Ed Neeman as unbeaten Taylor Phillips won his fourth. The young lefty had a five-hit shutout for seven innings. Two of the Phils' three runs unearned. Hurt Dismons lost his sixth, but counted his 1,001st strikeout with three.

Harness Racing

MONTREAL (CP) — Mac's Star, owned by Fe Feldman of Montreal, trotted the mile in the fastest time of the year to win the $2,000 B trot Tuesday night at Blue Bonnets Raceway.

Ted Darley, owned by H. H. Pepper of Selkyville, Ont., and driven by Joe Marks, paced second and Selka Song from Brampton was third.

Horses from Ontario won two races. Counsella from Newton Robinson, driven by Eric Smith was victorious in a $1,300 C pace. Time for the mile was 2:19 2-5. In a D trot for a $900 purse, Homestead Dan from Cobourg and driver was a two-run fifth gave him his victory. Bud Daley was the Buffalo loser.

Color, Glamor of the Mile Likely Be the Drawing Card At British Columbia Games

VANCOUVER (CP) — Take away the big mile from the British Columbia Centennial Games and what have you? Some of the best runners and field stars in the world, and a chance for some of the best times and distances ever recorded in Canada.

The glamor of the mile, with chances far below four - minute performance by several runners, is likely to be the drawing card that will lure up to 25,000 people to Empire Stadium this Saturday.

Once there, they'll have a chance to see international stars competing in such events as the 440 and 880-yard events, plus a dozen other open track and field contests featuring leading Canadian and foreign competitors.

For those who venture out Friday night for the opening of the Games, there'll be some stellar field. The 100 - yard sprint is scheduled for Friday night with an 880-yard event and a series of open contests.

In all there are five invitational events and 25 open contests for men and women.

TAKES CARE OF SELF

It's not that the mile is being pushed. Gale Weston, Miss Games committee: "The mile takes care of itself for publicity, especially if there's a Canadian have."

The lineup includes Derek Ibboston, the Yorkshire salesman whose mile time of 3:57.2 is the fastest in the world although not recognized yet because he was paced; Gerry St. Merr, Lincoln, who has three sub-four-minute mile times; Dave Peterson, Australian Alex Henderson, student at Arizona State College who has a 4:01.4 time; Ron Poland's Stefan Lewandowski who has paced it in slightly under four minutes.

Two Canadians are expected to be well up in the fold. Norman Lloyd, a Vancouver-based runner now at Stanford University, has a 4:05.3 time behind him. Wes McLeod of Toronto and the University of Southern California, is the run the mile in 4:07.8.

Whatever happens, it's almost certain to be the fastest mile run in Canada since the 1954 British Empire Games at which Miracle Mile—when Roger Bannister and John Landy broke the four - minutes, with Bannister winning in 3:58.8.

Despite Ibboston's unofficial world record, Lincoln is given a good chance to win the mile. Ibbotson hasn't beaten four minutes this year, while Lincoln has done it twice.

For Friday night's spring, Roland Harriman, Miracle Mile and the second fastest European at 100 yards, Pierre's Mirville Gesbert of Trinidad and Fresno State College, Dean Smith of Stanford, Keith Young and Ron Phillips of the University of Nebraska, Lieut. Ken Cave of the United States Army and others. Both Foik and Cave have recently broken records of 9.4 seconds. Agostini's best time is 9.6 and Phillips and Young have each run in 9.7.

The three-mile open and invitational race the same night has Gaston Mauroy of Montreal and two of the world's fastest—George Knight of England and Chailaw Krzykowik.

DEVOUT INDIAN

Joseph Brant, chief of the Six Nations Indians who died in 1807, translated the Anglican prayerbook into Mohawk language.

London Whips Ervine for British Title

LONDON (CP)—Brian London won the British heavyweight title Tuesday night when he knocked out Joe Erskine of Wales in the eighth round of a scheduled 15-rounder at White City Stadium. London, from London, weighed 204, Erskine 195½.

It's the same card Mike Holt of South Africa outpointed Henry Cooper of Wanade Pompey in a 10-round clash of light heavyweight contenders; British lightweight champion Dave Charnley outpointed Joey Lopes of Sacramento, Calif., in a 10-rounder and Terry Downes of London outpointed the British middleweight champion Pat McAteer in an eight-round nontitle match.

London, 24, ascended to the heavyweight throne 13 years after his father, Jack, lost the same title.

London dropped titleholder Erskine three times, including the final one, in the eighth. Referee Harry Gibbs then pulled right hand punches from Erskine each time.

ON HIS WAY

Erskine, also 24, had London bleeding from the nose early in the fight but in the seventh London started the big Welshman on his way to defeat when the cuts over the left eye.

Holt outpaced and outpunched Pompey as he stood and exchanged blows, taking all Pompey could throw and hitting hard and often.

The South African punched relentlessly to outpoint Pompey his second successive defeat in recent months. Holt's footwork foiled his opponent's efforts to land a knockout blow.

Charnley, at 135½, one pound heavier than Lopez, dropped the 29-year-old Californian in the sixth round of the bloody bout. He also rocked Lopes with two rights in the second round to win comfortably.

Lopez was cut over both eyes. Charnley, 22, bled from the nose, mouth and from a gash in his right eye.

After his loss to Downes, McAteer announced his retirement from the ring.

PICTON

Second Consecutive Year Aviators Unlucky Fishermen

PICTON — Prince Edward, Flying Club's annual fly-in fishing weekend was a dismal failure from an angler's point of view, but as a social event it was a whopping success.

For the second consecutive year, the aviators were unlucky fishermen. Despite an array of the handsomest prizes, the biggest fish caught tipped the scales at less than two pounds. The smallest could be held in the palm of one hand. W. C. Hearst, publisher of the Picton, Ont., newspapers, took the "championship" for the largest fish entered in the men's division, while Joy Brierly of Belleville was first in the ladies' section. Both landed large-size perch. One of the guides, local boating club member Ormond Reid, caught a seven-pound pike, but he was not eligible for a prize.

Some 50 visitors in 21 aircraft arrived at Picton for this special event. Nine planes were from U.S. points — Clarion, Wilkes-Barre and Wyoming, Pa., Olean and Canastota, N.Y. Ontario clubs represented were Toronto, Oshawa, Hamilton, Guelph and Brampton.

A large crowd of spectators attended the flying club's open house Sunday afternoon. Canadian Power Parachute Club, Sherdy Vatnsdal, thrilled the crowd by dropping 1,000 feet in a sky-dive before opening his parachute. Ten other members of the club were scheduled to demonstrate precision jumping, but this event was called off due to weather conditions.

RECEPTION HELD

Saturday evening, a reception was held at Rickarton Castle for the visiting fliers. A buffet supper was followed by a dance with floor show and presentation of prizes.

Mr. Hearst, the Clarion, Pa., newspaper publisher, was accompanied to Picton by Homer Watson, production superintendent, and George Reeli, printer. They were most favorably impressed by the hospitality of Prince Edward Flying Club members. "This is our first visit to Picton, but it won't be the last!" Mr. Hearst stated. "Your Canadian hospitality cannot be beaten and your scenic beauty is magnificent."

Mr. Hearst publishes two newspapers, the Clarion Democrat and The Clarion Republican. He pilots his own plane, a Stinson Voyager, and made the 400-mile trip in 3½ hours flying time.

Local club member, John Lazarow of Belleville was in charge of arrangements for the special weekend. He was assisted by Percy Clapp, David Taylor and many other members and their wives. Club president Aleq Williams welcomed the guests.

Sorcerers Found Practising Magic Spells in Lonely Italian Villages

ROME (Reuters)—A girl who suspects that her fiance has his eye on other girls should chew a piece of grass and hold it against her body.

Then she should chant: "Leaf of love, if you wish me well, make me a scene. If you wish me evil, make me a sore."

If the juice of the plant only inflames her skin making a red patch instead of an open sore, all is well. Her fiance will be "tied" to her by a friendly spirit whose power he cannot escape.

This is just one of the magic spells collected by a group of Italian students who visited out-of-the-way villages in Lucania, the wild and backward region between the "heel" and the "toe" of Italy.

There, in the poorest part of the country, the team found sorcerers and witch doctors still practising their arts among the peasants, who consult them when they are ill or worried.

The scientists, financed by the Parapsychology Foundation of New York, spent six weeks last year among the magicians as part of a study of the survival of belief in magic.

The scientists found that the peasants' faith in the mystic power of witches and magic healers often was justified by results. Although those who practise this magic are peasants who are often illiterate and have no knowledge of medicine, they frequently rendered valuable psychological first aid to their patients, the scientists found.

Miceli, Fullmer Fight Tonight

WEST JORDAN, Utah (AP)—Young Jay Fullmer could cement red welterweight Joe Miceli of New York battle here tonight for a title fight that marks Fullmer's debut in television and against big time opposition.

Fullmer, 21, has more finesse and speed than his older brother Gene, the former middleweight champion. But homebody Jay Fullmer admits neither will be enough to counter Miceli's experience. The bout will be televised by ABC starting at 10 p.m. EDT.

The 29-year-old Miceli will take a weight and experience advantage into the fight. He expects to weigh around 150. Fullmer will weigh about 142.

Miceli has fought some of the top lightweights and welterweights and has a record of 56 bouts, including seven draws. Fullmer is unbeaten in 13 professional fights. He has fought only one 10-round bout.

Record Entry For Regatta

ST. CATHARINES (CP — A record entry of 400 young oarsmen has been drawn for the annual Canadian Secondary School Rowing Association regatta here Friday and Saturday.

Jim Secord of St. Catharines, president of the association, termed the turnout the biggest entry in the history of the regatta . . . It certainly warranted us turning the affair into a two-day regatta."

Largest entries are from Buffalo, Hamilton and Toronto, each with five schools rowing. Montreal will be one of Blessed Sacrament High School of New Rochelle, N.Y.

THEATRE FEATURE TIMES

AT THE BELLE — Anna Magnani, Anthony Quinn, Anthony Franciosa in "Wild Is The Wind". In VistaVision. 1.50-4.10-6.30-8.50.

AT THE McCARTHY — "Beautiful But Dangerous", Tom Tryon, Gia Scala, Suzanne Pleshette, Robert Alda, Joe Mantell. In CinemaScope and Color. 1.50-4.00-6.10-8.20.

AT THE PARK — "Utter Violence", Richard Basehart, Peter Cushing. 1.30-3.15 — In Technicolor. "Screaming Eagles", Tom Tryon, Jan Merlin. 5.00-6.45-8.30.

AT THE BELLEVILLE DRIVE-IN — "House of Secrets", VistaVision, Technicolor, Bernard Lee, Richard Basehart. "The Rainmaker", VistaVision, Technicolor, Katharine Hepburn, Lancaster. Extra attraction will show starts at dusk.

AT THE QUINTE DRIVE-IN — "Beautiful But Dangerous" with Tom Tryon and Gia Scala in Technicolor, Also Lana Turner and Pier Angeli in "Flame and the Flesh" in Technicolor (adult).

Plans to Sell Bert Olmstead To Maple Leafs

MONTREAL (CP) — General Manager Frank Selke of Montreal Canadiens said today he plans to sell or trade veteran right-winger Bert Olmstead to Toronto Maple Leafs.

Selke said he will discuss a deal later today with Olmstead, and Conn Smythe and Stafford Smythe of the Leafs.

Olmstead, 31, has played nine complete seasons in the National Hockey League, the last seven with Montreal. A better playmaker than scorer, his best season was 1955-56 when he finished fourth in the scoring with 79 points on 14 goals and a record 56 assists.

Last year, he was beset by illness and injuries and played for only 29 of Montreal's 70 scheduled games, scoring nine goals and 28 assists.

Petes Edge Mimico 7-6

TORONTO (CP) — Peterborough Trailermen came from behind a three-goal deficit Tuesday night to defeat Mimico Mountain Rs 7-6 in Ontario Lacrosse Association senior action.

It was the first second win in as many nights over the Mountiies.

Dan Quinlan with four goals, Si Coombes, Paul Parnell and Curly Mason with one each scored for the winners. Mimico was paced by Red McLean, Bob Hannah and Ed Tomchishen, each with two goals, and playing coach Bert Varager with one.

2.00 7.00 9.10 WED. THURS. BELLE SMOKING LOGES

Last Day: Anna Magnani in "WILD IS THE WIND"

AT THE BELLE — Natalie Wood, Claire Trevor and Gene Kelly appear in "Warner Bros." "Marjorie Morningstar". Warnercolor film based on the novel by author that more than any other belongs to the Young Lovers of the Mid-century Crue Thursday at the Belle Theatre.

At the Park

FIRST SHOWINGS

"LET'S ROCK"

Starring Julius La Rosa in his first screen role, Columbia Pictures' "Let's Rock!" will be the next attraction at the Park Theatre Thursday. "Let's Rock!" stars co-stars Phyllis Newman, is in the same exciting vein as Columbia's "Rock Around the Clock" and "Don't Knock the Rock!"

An all-star roster of rock 'n' roll talent is featured in "Let's Rock!" along with Donald Cris and Joy Harman. The stars include sensational Paul Anka, Danny and the Juniors, Roy Hamilton, disc jockey Wink Martindale, sultry songstress Della Reese, the Royal Teens and the Tyrones.

La Rosa, idol of the bobby-soxers, plays a popular crooner who stubbornly resists the stampede to the rock 'n' roll style of singing. Complications hardly begins to disappear and the beautiful Miss Newman, as an aspiring rock 'n' roll composer, persuades him-lip make the switch. Her ingenuity must be noted, is not based solely on the musical merits of the songs, but also on the romantic aura which accompanies their friendship.

La Rosa fans are said to be in for additional entertainment when Columbia releases four songs, La Rosa dances rock 'n' roll in the picture's big musical climax. Paul Janis plays La Rosa's manager, and Miss Harman a night club girl who tries to pick him up.

A Columbia-Foster production "Let's Rock!" was written for the screen by Hal Hackaday and produced and directed by Harry Foster.

SECOND FEATURE

"RETURN TO WARBOW"

Columbia Pictures' "Return to Warbow," Technicolor outdoor action drama starring Phil Carey, is the second feature attraction at the Park Theatre. Also starring are Catherine McLeod, Andrew Duggan and William Leslie, "Return to Warbow" is the story of a range killer who returns to the town that betrayed him. Les Savage, Jr., penned the screen play from his own novel. Ray Nazarro directed and Wallace MacDonald produced the new Western for Columbia Pictures.

In Hollywood

How to Make a Blockbuster Would Solve Many Problems

By BOB THOMAS

HOLLYWOOD (AP) — How do you make a blockbuster?

If Hollywood could find the answer to that question, its problems would be over.

The film business definition of the popular term for an immense explosive: A movie with a tremendous appeal at the boxoffice.

Giant was a blockbuster. So are Around the World in 80 Days, the 10 Commandments, The Bridge on the River Kwai, Peyton Place, Separate Tables, Old Yeller and South Pacific.

There is no rule of thumb for classifying blockbusters, except that they do enormous business. But that can be misleading.

A picture like Rainbree County is a commercial success yet still end up in the red because of its great cost.

BIG DIFFERENCE

On the other hand, films like Old Yeller and Delicate Delinquent can do the same or less business and be blockbusters because they cost a relative pittance.

The impact of blockbusters on a company's economy is notable. As Weekly Variety recently pointed out that five big earners from Columbia made as much money as 41 of the studio's other films. And Columbia would put itself in serious shape except for the present earnings of Serval.

MGM suffered a loss...in a recent earnings report despite a hefty cost cutting. Its pictures had not done poorly, but the studio had failed to produce one big blockbuster.

Twentieth Century - Fox finds itself in the best position because it has been able to come up with a series of blockbusters. Fox now are in release: Peyton Place, The Farewell to Arms, The Long Hot Summer, Young Lions and South Pacific.

Story editors are constantly on the lookout for literary properties that can be big box office winners. One of them told me what he looked for:

"Stories with big emotions. Stories that can be cast importantly. Stories that have fascinating backgrounds that can fill the big screen with spectacle."

The most consistent star in the big-money films appears to be Elizabeth Taylor.

The solution for the film industry appears simple—but make films about biblical wars, directed by Cecil B. DeMille and starring Bing Crosby.

DUTCHES SIGN END KITCHENER (CP) Johnny Lee Crouch, all-American with Texas Christian University in 1955, has signed with Kitchener-Waterloo Dutchmen of Ontario Rugby Football Union. The six-foot, 200-pound player is the second draft choice of the National Football League Green Bay Packers but didn't make the team.

Astrological Forecast

By CARROLL RIGHTER

Thursday, June 5

Aries (March 21 to April 19)—Be sure to have real self-control today in dealings with partners, comrades, or you could easily cause a rift between self and one you really admire. Although matters are difficult, impress all with self-assurance and confidence.

Taurus (April 20 to May 20)—Be careful while conversing with important persons today. While you may be perfectly justified in your thoughts and ideas, remember that you stand to be the loser if by loosening your tongue, the wire and say more. Learn.

Gemini (May 21 to June 21)—A private activity could today keep you away from the sources of learning and activity that would mean much to your future. Put it aside and GO! Also, study your paper and other periodicals for the key to today's opportunities.

Moon children (June 22 to July 21) — Go along with true supporters today, though they may appear to be in strange moods. Also, refrain from getting caught in some expensive situation or deal that is alien to you, or you would regret it for many months on the future.

Leo (July 22 to Aug. 21) — Avoid that argument ensuing between associates and officers, or you get caught in the middle. Stick to your work assiduously, but give an ear to the fine ideas suggested by co - workers which should make your labors less difficult or tiring.

Virgo (Aug. 22 to Sept. 22)— There is much of interest and much value in the data you can today acquire from new friends or from the news paper. But be sure you do not disturb the present even tenor of your job, or the harmony between working pals.

Libra (Sept. 23 to Oct. 22) — Here is the ideal day to put clothing in good condition and get charm supplies without too great an expenditure of money. Also, be certain to show devotion to loved ones. P. M. enjoy yourself.

Scorpio (Oct. 22 to Nov. 21)—Your associates are unable to comprehend the attitudes of clients, or there is already a rift looming large. Stick to your business interests and make peace or see to it that they are kept apart, avoid conflict at all cost.

Sagittarius (Nov. 22 to Dec. 21) — A fine day for dashing about: buying things, visiting, gathering important data. Then do your work in a balanced fashion, or you are apt to have little mishaps that would be detrimental to the present harmonious life.

Capricorn (Dec. 22 to Jan. 20) — It would be the height of wisdom to show others concrete proof of your devotion and affection. Or they may decide that all that interests you is money at the expense of even closest ties. Be wise and alert.

Aquarius (Jan. 21 to Feb. 19) — A good day for putting affairs at household in better working and harmonious tenor, but this requires more gentle and clever handling on your part than has been possible use this. Avoid strife and petty argument leading to it.

Pisces (Feb. 20 to March 20)— Let go of that sorrow or anxiety that has kept you in turmoil and go about your business in a calm and efficient manner. Impress others with savoir faire, intellect and let this day be most productive, even happy, it can be done.

If your child is born today— The intelligent child born today, though early most opinionated, can be taught to accomplish much by using the objective approach and learning that the greatest success comes from earnest and real co-operation. Whatever rare principles are learned during the formative years will be the rungs on the ladder of success which your progeny will climb. Give a fine, combined college course.

Govt. Asking For New Outlays On Public Works

OTTAWA (CP) — The government Monday expanded its proposed unprecedented "spending program for the current fiscal year, asking Parliament for new outlays on public works.

It also agreed to absorb $2,145,000 worth of wheat board losses in marketing Prairie oats at prices less than those paid farmers. It was the first loss of this kind since the board started marketing oats eight years ago.

The new proposals would add another $88,181,000 to the main anticipated expenditures of $5,734,000,000 announced May 13 for the year started April 1. Government requests for additional money are expected to be placed before Parliament later in the year, bringing spending to well over $6,000,000,000.

The largest single sum in the supplementary estimates, $18,000,000, was required by the works department for more public construction programs, including buildings, wharves and harbors.

There was an item of $4,019,800 as an initial federal contribution towards the South Saskatchewan irrigation and power project. Prime Minister Diefenbaker told the House Thursday this item would indicate "the seriousness with which this government views the necessity for commencing this work shortly."

Parliament also was asked to approve a gift of $3,000,000 worth of wheat to the Colombo Plan countries of India, Pakistan and Ceylon, part of $15,000,000 worth of free wheat Canada is giving these countries.

STEADY GROWTH

Australia's population at the end of 1957 was 9,747,471—an increase of 2.25 per cent in 12 months.

PICTON

Causes of War Discussed at Kiwanis Club

PICTON — On Monday evening, the Kiwanis Club observed its support of churches night with inspiring speeches by Rev. R. B. Wright and Rev. Peter Reid. Following a few brief remarks by President Jack Ward in which he introduced the topic for the evening as "What are the fundamental causes of war?", the ministers of the Anglican and Presbyterian churches gave their views on the causes and Christian solution to the problems.

Mr. Wright said that one of the causes was economic. People do not accept reason on an empty stomach, and it is all very well for us to say war is evil only if we are willing to go one step further and provide them with food. Recessions or depressions are one of the greatest causes of war, for people hungry, unemployed and dissatisfied do not know where to turn.

He continued by explaining that a second cause was social. Discrimination of race against race, nationalism that rises up and lives off people's egotism, and over population in which there are too many people to be educated, fed and prepared for their place in the world into which they have been born, all make their contribution to the world problem of war.

Mr. Wright said these problems can be overcome only by sharing our surpluses with those less fortunate than ourselves, and by considering that we are all created in the image of God and that others should be treated as brothers in Christ. The modern translation "Peace on earth to men of good will" is our only hope of solution.

PSYCHOLOGICAL CAUSES

Rev. Peter Reid described the psychological causes of war by discussing fear, greed, insecurity and pride, all of which seem to be more or less dependent upon each other. He explained that Christians are a minority in the world, so what we decree and what we believe may be the very antithesis of what others think. Consequently by putting ourselves in the other fellow's shoes, we can see that many of our disagreements have arisen because of lack of understanding of the other fellow's point of view.

Mr. Reid concluded with a fourth cause of war. He said that while it was rather startling at first glance, it would become quite clear after a little thought that there was a spiritual cause of war. Down through the ages there have been more wars resulting from spiritual differences than from any other cause. "When you deal with the spiritual realities of a man's convictions, you are touching something very deep, something he feels he must defend with his life. Through Salvation there has been a restoration of the relationship between man and his God, but we must strive to exhibit a Christian brotherhood to show a new concept of the relationship of man to man. We must once more try to get the world to say "See how these Christians love one another". Only then can we overcome these basic causes of conflict".

An enthusiastic discussion followed and the two members answered questions directed toward them by the Kiwanians present.

Kiwanians Telford MacKenzie thanked the ministers, and President Jack Ward presented them with a token of appreciation.

Two Arteries Will Be Paved

PICTON — The Ontario Department of Highways has entered into a new agreement with the town, and as a result, Main and Bridge Streets, which are part of Highway 33, will be paved this year, Mayor H. J. McFarland made this announcement last night at town council meeting. A tender was let last year but came too late for anything to be done. Early this spring, the Department decided to wait and include the paving with a stretch planned on Highway 41, running east of the town. Since this would not be done until fall, and possibly not until next year, Mayor McFarland made special representations, and the badly torn up streets will be paved in the near future.

Cost price, shared by province and town, will be $87,576.

De Gaulle Offers Votes To Moslems In Algiers Talk

Rebels Not Satisfied, Colonists Dislike Plan

ALGIERS (AP) — Charles de Gaulle carried his appeal for unity into eastern Algeria today amid indications that the nationalist Moslem rebels are not satisfied with his embracing them as Frenchmen and offering them a role as such.

The new French premier flew to Constantine to address another crowd and to get a first-hand view of the rebel hotbed in mountainous Kabylia.

He told a crowd of about 100,000 in Algiers Wednesday night that all residents of this North African territory are Frenchmen with equal voice with the motherland.

His visit set off an unparalleled emotional display in this capital, but the Moslems who have been fighting for independence from France for 3½ years indicated that he had not offered enough.

DETAILS LACKING

De Gaulle spoke only in generalities, leaving Algerians in the dark on details of his plans for ending the rebellion. But there was no doubt that he captured and fired the imagination of Algeria's residents more than anyone had done in a long time.

"I open my arms to reconciliation," de Gaulle proclaimed in offering a new constitution designed to win back rebels whom he praised as courageous. This was the program:

Within three months the 9,000,000 Arab and Berber Moslem Algerians and the 1,500,000 Algerians of French descent will join with the 45,000,000 residents of France in voting on the constitutional reforms he is pledged to draw up.

At some future date all Algerians will ballot on a single voting list for "representatives to the public administration."

"With these elected representatives we will see how to do what must be done," de Gaulle added, presumably meaning negotiations on Algeria's future relationship with France.

OPEN PATHS

"Ways must be opened which until now have been closed to many. That means that the means of livelihood must be given to those who have not them. That means that dignity must be granted to those dignities which were contested. That means that the motherland must be assured to those who doubted they had one."

But there was no suggestion of an independent Algeria. "In all Algeria there is one category — that of inhabitant—there are only Frenchmen of one sort."

With Moslems largely outnumbering the French settlers, Algerian rights have been weighted to give the French the dominant voice in the territorial government. But apparently by offering the Moslems a chance to intercept a fixed share in the total of votes—a prospect the militant colonists are certain to oppose strongly—

(Continued on Page 5)

VOTE PAY INCREASE

WASHINGTON (CP) — The House of Representatives voted Monday to give 1,000,000 federal employees a 10-per-cent pay increase. The measure, estimated to cost $542,000,000 a year, would be retroactive to January 1 if approved by the Senate and president.

Today's Chuckle

Under separate cover: Twin beds.

THE WEATHER

TORONTO (CP) Synopsis: — Warm humid air entered Southern Ontario this morning. A band of showers and thunderstorms associated with this tropical air, will move eastward across the southern regions today. Cooler air from off Hudson Bay will push into the southern regions tonight, clearing the skies and dropping temperatures to the mid-40s.

Friday will be sunny in the lower Great Lakes area. Warm afternoon temperatures in the mid-60s.

CAIRO (Reuters)—Leaders of the Algerian Moslem insurrection met here today to discuss de Gaulle's "reconciliation" bid, and immediately spiked hopes of a settlement of the 3½-year-old struggle.

A spokesman for the chief Algerian insurgent organization, the National Liberation Front (FLN), said it "categorically rejects" de Gaulle's proposal for complete integration of Algerians with France.

"Algerians demand freedom and independence," the spokesman said after the meeting.

The decision appeared to shatter hopes held by some Arab quarters that the Moslem nationalists of Algeria would reach an understanding with de Gaulle.

Drinking Water In North York Is Contaminated

TORONTO (CP) — Residents of an exclusive section of suburban North York have been warned their drinking water is contaminated and they'll have to boil it until further notice.

Medical Officer of Health Wednesday by Dr. Carl Hill, North York medical officer of health, following a preliminary report from the provincial analyst showing high bacterial contamination in samples of the water.

The area affected is just west of the Rosedale Golf Club, east of Yonge Street and north of Lawrence Ave.

Dr. Hill ordered samples of water to be taken Monday after residents complained of widespread sickness and a peculiar taste and odor from their drinking water.

Dr. Hill said Wednesday implications were that the water was not flowing, however, later in the day the provincial analyst's preliminary report showed the water was contaminated.

Cause of the contamination is not known.

Trying to Fill Swimming Pool With Hose

CORBIN Ky. (AP)—There's a new $150,000 swimming pool at Levi Jackson State Park. But it won't be open for a while.

Park Superintendent R. I. Maxey is filling the 132,000 gallon pool with a garden hose.

He started last Friday and said Wednesday the pool won't be filled for another week, at least.

Little Girl Waiting for Bus Winds up on Grand Opera Stage

MONTREAL (CP) — Marielle Pelletier, a dark-haired seven-year-old school girl, is still wondering how she ended up on the Forum stage here with the Metropolitan Opera Company.

The little girl, her parents, a sister and a brother, were waiting for a bus to take them to where hockey giants normally perform. Suddenly a man burst out of the front door and shouted at her father:

"Don't have one of your children?"

After explanations, her father, Gerard Pelletier, agreed and within minutes little Marielle was clad in a black robe and a yellow wig and was on stage before 7,500 opera lovers.

The explanation is simple. A three-year-old child who was to have taken the role of Butterfly's son in the second and third acts became terrified at the huge throng.

The child screamed, kicked,

CANADIANS NOT LIVING WITHIN MEANS—BAIRD

Deficit Budgeting Shock to Senator

OTTAWA (CP) — Canadians are losing their ancestral trait of living within their means, says Liberal Senator A. B. Baird of Newfoundland.

The federal government, too, has embarked on a program of deficit budgeting alien to the Canadian way, the senator warned in the upper chamber Wednesday.

Putting off paying debts was a sure way to "future grief."

Senator Baird, continuing with the Liberal party's election campaign theme, said Institute a $400,000,000 tax-cut program, accompanied suggestions that Canadian labor should hold the line on wage demands.

Senator Baird said he was shocked that the government is "deliberately" proposing to budget for a deficit.

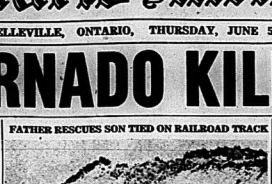
MUST REDUCE COST

The only way to cut taxes was to reduce the cost of government. But there was no sign the government was sincerely trying to do that.

"What stands out in my mind is raising all-round pensions no matter in what field—raising, raising, raising, without reducing the cost by a dollar, now, nor when."

Senator Baird said labor unions are seeking wage increases regardless of the current recession. Higher production costs had almost priced Canada out of the export business.

Senator John J. MacDonald, (PC—Pictou—Edward Island), making his maiden Senate speech concurred that labor would be well advised to hold the line." Most Canadian workers were receiving adequate incomes.



FATHER RESCUES SON TIED ON RAILROAD TRACK

Seven-year-old Michael Evans shows how he was tied to railroad tracks by a pair of teenagers yesterday. His father, summoned by another boy, released his son only seconds before a speeding train roared by. The teenagers fled when the father arrived. (AP Wirephoto.)

Suspend Debate on Tunisia, Consider Lebanon's Charge

UNITED NATIONS, N.Y. (AP) — The United Nations Security Council turned today to the secret Middle Eastern case in two days—Lebanon's complaint that the United Arab Republic has sparked and supplied the continuing revolt against the Lebanese government.

Lebanon claims the UAR-inspired Lebanese rebels in a week to last press and radio campaign to overturn pro-Western President Camille Chamoun. The Egyptian-Syrian union also was accused of sending arms and men to help the rebels.

UAR President Nasser denied the charge of intervention, terming it an attempt to stable him as a dictator. He said the war is really an internal conflict. He accused Lebanon of seeking a pretext to get foreign help against the rebels.

The rebels have been confined to several sections of the country, including parts of Beirut, the capital, and the port of Tripoli, but sporadic fighting continues. An undetermined number of persons were killed during a six-hour clash in Beirut Wednesday.

The Security Council Wednesday called a two-week suspension in its debate on charges by Tunisia and France blaming each other for recent clashes between their troops in Tunisia.

French delegate Guillaume Georges-Picot called attention to the exchange of messages between Premier de Gaulle and Tunisian President Habib Bourguiba, each expressing hope for a peaceful settlement. Georges-Picot suggested direct talks between the two governments and the Tunisian representatives agreed.

Pearkes Confirms Six Squadrons To Lose Jets

OTTAWA (CP) — Defence Minister Pearkes confirmed in the Commons Wednesday that six RCAF auxiliary squadrons are to be switched from jet to light transport aircraft.

He said the move is part of government economy decisions, announced last December, that the auxiliary squadrons should be used in a "less complex and expensive role.

He made his reply to a question from Liberal Leader Pearson who asked comment on reports that Sabre jets in Toronto and 438 at Montreal are to be replaced by Harvard trainers and whether the change will apply to other auxiliary squadrons.

Mr. Pearkes said it was decided that six jet squadrons —two at Vancouver, two in Toronto and two in Montreal — should be retained. Toronto and 438 at Montreal are to be replaced by Harvard trainers of four children in Montreal.

Mr. Phillips, also the father of four children, was asked whether he intends to continue his job as a pipefitter at Burrard drydock company.

"I intend to go back later on, but I have holidays coming and will take them now and see what the score is," he replied.

"There are some things I want to straighten out and get one of them in the mortgage on my brother's house."

Mr. Nikoriak, 43, a toolmaker whose first wage in Canada was six cents an hour, said the first thing he intends to do is pay off the mortgage on his home in Montreal North. His wife said she is anxious to add two rooms to provide for a fast-growing family which now in-

cludes four daughters.

The Nikoriaks moved to their home May 1. Until January he drove a taxi to supplement his income and "keep my head above water."

(Continued on page 28)

Cemetery Maintenance Man Plans to Wed With Winnings

BY THE CANADIAN PRESS

Money begets money, the saying goes, and none of the 18 Canadians who won on the Irish Sweepstakes was richer Thursday than the cemetery maintenance man who plans to wed with the $135,000 top prize money.

Five tickets were held in Canada on winner Hard Ridden, but two of these were owned by groups. The individual winners of top prizes were Sam Guerin, a farmer at St. Constant, Que., near Montreal; Alan E. Hopkins, a bookkeeper in Vancouver, and Steve Nikoriak, a Hungarian-Canadian father of four children in Montreal.

Mr. Phillips, also the father of four children, was asked whether he intends to continue his job as a pipefitter at Burrard drydock company.

"I intend to go back later on, but I have holidays coming and will take them now and see what the score is," he replied.

"There are some things I want to straighten out and get one of them in the mortgage on my brother's house."

Mr. Nikoriak, 43, a toolmaker whose first wage in Canada was six cents an hour, said the first thing he intends to do is pay off the mortgage on his home in Montreal North. His wife said she is anxious to add two rooms to provide for a fast-growing family which now in-

Motorist Fined For Battering Other Autos

MELBOURNE, Australia, (Reuters)—A Melbourne motorist said to have used his automobile as a "battering-ram" against another car which had beaten him to a parking spot was fined £10 Wednesday.

Robert Broadbent, 51, said he was a former member of the traffic committee of the Australian National Safety Council.

A witness told the court Broadbent had rammed the other car three times and then said:

"I have had you smart alecs. See that Volkswagen behind you? He beat me into a spot also. I rammed him, too."

Nine Ministers Are Ordained

PETERBOROUGH (CP)—Nine United Church ministers were ordained and a deaconess admitted to the Church in a ceremony at Trinity United Church Wednesday night as part of the Church's 24th annual conference.

Ordained were Harold Barnes, Rideau-Ferry; Frederick Bayliss, Kingston; Gervys Black, Oakville; Douglas Carnegie, Kingston; James Finlay, Bracebridge; Robert Gay, Oshawa; Gordon Lovering, Enterprise; John Rommel, Kingston, and George Wright, Inverary.

Miss Edith Bolton of Kingston was admitted as a deaconess.

GUIDED MISSILES WILL BE FITTED ON 2 SQUADRONS

U.S. 'Sidewinders' Will Be Equipment

OTTAWA (CP)—The Royal Canadian Navy's two Banshee jet fighter squadrons are to be fitted with air-to-air guided missiles this year, Vice-Admiral Harry DeWolf, chief of naval staff, has disclosed in an interview.

The missile is the United States Navy's Sidewinder, a solid rocket with infrared guidance. It is understood to have a range of four to six miles and it travels at supersonic speed.

The RCN thus becomes the first of the Western air forces to put a guided missile into operational service.

The Canadian navy has purchased the missile out of U.S. production. Main contractor is Philco.

EASY TO LEARN

Admiral De Wolf said the Sidewinder is a simple weapon and that it is fairly simple as missiles go. It is launched from the ground and air crews to become acquainted with its operation quickly.

Equipping of the Banshee jet squadrons will be completed this fall. One squadron normally is carried in the aircraft carrier Bonaventure while the other is based at HMCS Shearwater, the navy air station across the harbor from Halifax.

Admiral De Wolf also said the navy has been and has been studying the possibilities of incorporating other guided missiles into its anti-submarine system.

The navy is keenly interested in the Canso, navy's flat, a device which fires a missile carrier far from a destroyer and then lowers the sub-seeking missile into the water by parachute.

ARMAMENT AS NEEDED

Admiral DeWolf said the Canadian navy has reached the point where its water detection system now has greater range than destroyer mortars which fire depth charges can cover.

While great developments have taken place and are taking place the navy was still searching strenuously for better methods of detection of submarines, he told the marines.

Admiral DeWolf indicated the navy is not convinced an anti-submarine vessel need necessarily be equipped to carry guided missiles. It might be better to accept some risk of attack in order to devote the full capability of small ships of this type to finding and destroying submarines.

The RCAF for eight years has been trying to obtain a suitable air-to-air guided missile for its all-weather fighters but was not successful. Now it has obtained government approval for either.

The Sidewinder, nine feet long, is guided by the infrared ray system, homing on the warmth given off by the target. Every object with a temperature above zero gives off heat.

FAMINE OVER

PARIS (AP)—Emergency shipments from Southwest France have smoothed the potato famine that hit Paris after supplies from Algeria were halted. New taxes imposed by Premier Debre's former premier Felix Gaillard caused the farmers to decide to divert their supplies to England, Spain and Italy.

Over 100 Injured As Funnel Slices 90-Mile Swath

Colfax, Town of 1,000, Half Razed by Storm

MENOMONIE, Wis. (AP) — A one-spulsating tornado cut a 90-mile swath through northwestern Wisconsin Wednesday night, leaving at least 25 persons dead and more than 100 injured.

Full fury of the terrible funnel struck the small community of Colfax where 100 houses were destroyed or badly damaged. Eleven of the known dead were found in Colfax ruins. Rescuers searched the wreckage for more bodies today.

Only debris-littered basements remained in Colfax' residential district. An open field nearby was strewn with storm-wrecked cars, timber from homes and shattered household goods.

"We felt the suction," said Melvin Hendrickson, 38, of Colfax, who fled his wife and three children to the basement of their home.

HOME SWEPT OFF

"The wind was twisting things in the basement. Rain was pouring down on us. The only thing I saw was our water heater standing in the middle of the basement. Then it was gone. Everything around.

"I looked up and the house wasn't there. Wood pieces were flying at us. Then the twister was gone and it was just rain."

Governor Vernon Thomson early today ordered three companies of national guardsmen to duty in the storm area for rescue and rehabilitation work, and planned to visit the stricken area today.

BLOOD NEEDED

Admiral DeWolf said the Canadian navy has reached the point where its water detection system now has greater range than destroyer mortars which fire depth charges can cover.

While great developments have taken place and are taking place the navy was still searching strenuously for better methods of detection of submarines, he told the marines.

Admiral DeWolf indicated the navy is not convinced an anti-submarine vessel need necessarily be equipped to carry guided missiles. It might be better to accept some risk of attack in order to devote the full capability of small ships of this type to finding and destroying submarines.

The RCAF for eight years has been trying to obtain a suitable air-to-air guided missile for its all-weather fighters but was not successful. Now it has obtained government approval for either.

The Sidewinder, nine feet long, is guided by the infrared ray system, homing on the warmth given off by the target. Every object with a temperature above zero gives off heat.

FAMINE OVER

PARIS (AP)—Emergency shipments from Southwest France have smoothed the potato famine that hit Paris after supplies from Algeria were halted. New taxes imposed by Premier Debre's former premier Felix Gaillard caused the farmers to decide to divert their supplies to England, Spain and Italy.

British Labor Leaders Trying To End Strikes

LONDON (Reuters) — Leaders of Britain's biggest single labor union met today to consider three strikes hitting hard at London's food supplies and transportation.

Nearly 30,000 dock workers are on strike, along with 20,000 London bus workers and 8,000 meat handlers and drivers.

The strikers are members of the 1,300,000-strong Transport and General Workers Union. Only the bus drivers have union sanction for their stoppage.

Fresh efforts were made today to get the big double-deck buses back on the streets. Strike leader Frank Cousins held talks with Sir John Elliot, chairman of London Transport, following the refusal of national union leaders to approve proposals for the bus stoppage to power stations and petrol supplies.

118 SHIPS UNMANNED

Meantime the dock strike, indirectly connected with the six-week-old meat strike, continued to spread. The London dock labor board said 19,284 of the 30,000 London dockers were now idle, leaving 118 ships unmanned.

A port of London spokesman said about 25,000 tons of perishable foodstuffs on the ships are affected. Food prices have soared.

The dock strike began after 1,700 drivers at London's main wholesale meat market went on to pay strike. Some 6,000 meat handlers quit work in protest at the stimulus caused by drivers' strike.

A small number of stevedores backed up the meat handlers with a sympathy stoppage. When dock employers brought in non-union labor to do their work, the strike spread to the majority of dock workers.

Suicide Pact Ends With Woman Dead, Man Jailed

TORONTO (CP) — Mrs. Ruth Ann Hall, 30, died Wednesday in a suicide pact with her lover, Ronald Gordon Hall, 32, who was charged with murder.

Police said Hall, who is married, shot Mrs. Hall in the head with a .22 calibre rifle in a room at a rooming house where they had been living. Hall then shot himself in the head but survived.

Hall was charged with murder after Mrs. Hall died in hospital.

Gets Pope's Leave to Wed Childhood Lover, Back From Dead

FLORENCE, Italy (AP)—This is the story of a man who returned from the dead and a nun who obtained the Pope's permission to marry him.

Alba Gaddoni, 18, and Rinaldo Matesini, 16, became engaged.

A year later, in 1939, war came. Rinaldo was called to arms, and before he could wed Alba he was sent off to Greece.

Word came in a few months that Rinaldo was dead. Alba, grief-stricken, entered a nearby Roman Catholic convent and took the vows of a cloistered Benedictine nun.

Rinaldo, however, was not dead. Wounded, he was shuttled from hospital to hospital. Not until 1946 did he return to learn from the dead and a nun.

Eventually he arranged to meet her in the presence of the mother superior of the convent. Alba decided to ask to be released from her vows.

Ten years later, last November, came the word that the Pope had granted the nun release. It was a long time to wait but the Church considers such dispensation a grave matter requiring the fullest study.

A month ago Alba and Rinaldo were married. Early this week their story was known to Italian newspapers, and today Church authorities confirmed the Pope had had the blessing of the Holy See.

BOWLERS TO STAGE MONSTER JITNEY AT LOCAL GREENS

Although the bowling season have been opened for the past week, the first major tournament of the season will be held tonight. This will take the form of a monster jitney, three eights and games to be played commencing as soon after six thirty as possible. The fee has been set at one buck and valuable prizes will be given for this event. This tournament will get the ball members in shape for the Doubles tournament to be held at Kingston on Saturday for which many local pairs have been entered.

POSTPONE METALOUS TRIAL

LACONIA, N.H. (AP) — The superior court trial of two illegality against author Grace Metalious and the publisher of her novel, Peyton Place has been postponed indefinitely because a lawyer in the case is involved in a lawsuit in court action else where. Suits totaling $300,000 were brought by Thomas Makris, principal of the Gilmanton Academy, and his wife, Geraldine. The suits are against Mrs. Metalious and her New York publisher, Julian Messner, Incorporated.

Hugh G. Jones Heads Council Foremen's Club

H. G. Jones of the Northern Electric Company Ltd., a charter member and one of the founders of the Quinte District Foremen's Club, was elected president of the Canadian Council for Foremen's Clubs at a board of directors meeting in Toronto on Saturday.

Other officers elected to the board were: 1st vice-president, Asher Davidson, Niagara Falls; 2nd vice-president, Robert Fraser, Sarnia, and finance chairman, Rupe Lemon of Toronto. Other appointments to the board will be announced later by the president.

The Canadian Council governs at the present time, 24 clubs reaching from Halifax to Vancouver, which are in turn affiliated with the YMCA with a membership of over 3,500. New clubs chartered this year include Quebec City, Valleyfield, Quebec, and Midland. Other clubs in the process of organization are located at Don Mills, Walkerton, Fenelon Falls and Smiths Falls. Interest is also being shown in Shawinigan, North Bay, Sault Ste. Marie, Whitby, Belleville, Sydney, Moncton, N.B., and Estevan, Sask.

Mr. H. G. Jones, better known as "Hughie," has been a tower of strength with the Quinte District Foremen's Club, which was very proud in having him as Canadian Council representative for the past five years also as a director. He has held various offices up to the present office of president. Hughie has been connected with the Foremen's Club movement for the past 15 years. His energetic drive of enthusiasm has had a terrific effect on the progress of the Foremen's Club movement.

Ald. Frank Grandone has been selected to replace Hughie as Canadian Council representative for the Quinte District Foremen's Club.

CITIES SPRAWL

WINNIPEG (CP) — Every city in Canada will have to face the problems of metropolitan government before long, an urban planning authority said Tuesday. Stanley H. Pickett, area redevelopment officer for the Community Planning Association of Canada, said an increase in population since here that new housing in Canada covered 40 square miles each year.

PUBLIC CORDIALLY INVITED

Obituary

SUSAN DELORES REID

The funeral of Susan Delores Reid, daughter of Mr. and Mrs. Sherwood Reid, of Glen Ross, was held at the Rowe Funeral Home, Tyendinaga, on Monday, May 26, with the Rev. A. Packman, of Carmel United Church, officiating.

The baby was born on Wednesday, May 7, at the Belleville General Hospital, and died on May 24.

She is survived by her parents and one sister, Glenna.

Mr. Reid is employed at Central Cheese Factory.

MRS. WILLIAM A. KENT

A funeral service was held Tuesday afternoon in the chapel of the John R. Bush Funeral Home on Highland Ave., for Mabel Carrie Roberts, widow of William A. Kent. The service was conducted by Rev. E. W. Wright, E. G. Dowey and interment was in Belleville cemetery.

Pallbearers were Percy Aker, William Juby, Fred Mitchell, Harold Kent, Ernest Kent and Earl Keene.

Lodge services were held by LOL No. 1, Bay of Quinte and Crystal Chapter 34, Nellis King, Mrs. Edith Mae Kent, Mrs. Mabel Jones, Mrs. Annie Smith and Mrs. Clara Bentley took part in the IODAA lodge services, assisted by Mrs. Mary Caigler, Mrs. Rita Bowerman, Mrs. Lillian Reid and Mrs. Eva Luffman participated in the Crystal Chapter service on the committal.

Mrs. Kent resided at 104 Canniffton East and died on Sunday in Belleville General Hospital.

G.S.M. G. A. PATTERSON

PICTON — Garrison Sergeant Major W.O.1 George Alexander Patterson, 44, died very suddenly Tuesday afternoon. With a complaint, Mr. Patterson, in the small store on the Cherry Valley road where he was taken with a heart seizure and died immediately.

W.O. Alexander had served with the Canadian Army for 26 years and had been stationed with the Royal Canadian School of Artillery (AA) here since December, 1946, during his service he served overseas in England, Europe and Korea. He was a native of Picton as well as an efficient soldier.

Survivors are his wife and three sons, Gunner Guy Patterson, who is stationed with the Army at Whistle, Ont., Gary and Rickey at home.

The funeral, with military honor, is being held Friday morning at ten-thirty o'clock in St. Barbara's Memorial Chapel, Picton Heights, with interment at Cataraqui cemetery.

JOSEPH MILNE OAKES
Sarnia — Belleville

Joseph Milne Oakes, a former resident of this locality, passed away on Wednesday, May twenty-eighth. His funeral took place Friday, May thirtieth, following a requiem mass in Our Lady of Mercy Roman Catholic church, Sarnia, Ontario.

Mr. Oakes was born in Ballyshannon, Ireland and was in his eighty-fourth year. He was superintendent of the provincial fish hatchery at Belleville in the 1890's. He had also served in that capacity at Pointe Edward, Sault Ste. Marie, and Kingsville, Ontario, and Banff, Alberta.

Since his retirement, he had made his home in Sarnia.

BARRY A. GRAHAM

Barry Allan Graham, two-year-old son of Mr. and Mrs. Leonard A. Graham, died suddenly as the result of an accident on Wednesday, June 4, at his parents' home in Cooper, Ont.

Surviving, besides his parents, are one sister, Miss Beverly Anne Graham, of Belleville, and three brothers, Murray, Dale, and Glen, all at home; also three grandparents, Mrs. G. Graham, of Madoc, and Mr. and Mrs. Gibson Bailey, of Madoc township.

Resting at the parental home, Cooper, Ont., the funeral announcement appears elsewhere in this edition.

James Brennan New President Senior Citizens

James Brennan was elected president of the Senior Citizens Club for the coming year at the final meeting held last evening at the Kiwanis Centre. Upwards of eighty members turned out for the meeting, which was the election and to decide where the club will go this summer for their annual picnic.

Mr. Brennan replaces Mr. Fred Cook who was president of the Belleville Senior Citizens Club for the past three years. Mrs. W. Frederick was elected vice-president and Mrs. Drummond was re-elected again as secretary. Mrs. M. Clapp is the new treasurer replacing John Preston, who held the office for two and half years. Entertainment committee office this year are Mrs. Fred Cook, Mrs. Bartlett, Mrs. Bailey, Mrs. White and Mr. Taylor.

The evening program was opened by Mr. Cook with the singing of the Queen. It was followed by the hymn "Where My God be Thee" for the late Mrs. Kent, who passed away and was a member of the Senior Citizens Club. Happy Birthday was sung to members who had birthdays during the month. The election of officers was carried on by director of recreation Lloyd Doran. In bowing out as president Mr. Cook thanked his committee and the many members that helped him in his long term of office and offered assistance for the incoming executive.

GOOD FINANCIAL CONDITION

Mr. Preston in giving up the treasurer's job gave a financial report and reported that the club is in real good financial condition. It was decided that the picnic this year will be held on Saturday August 9. The rest of the meeting was spent in euchre with prizes going to Mrs. J. Thompson, Mrs. Ida Thompson, Mrs. S. Grigg and Mr. James Brennan. Mrs. Bly won the lucky draw. Refreshments were served by conveners Mrs. Fred Cook and Mrs. Barnhart with assistance from other members of the club.

Mr. Cook remarked that an enjoyable evening was spent by all. The Senior Citizens Club is for persons over the age of 60 and is the only one in Belleville and has direct affiliation with all the Senior Citizens Clubs in the province of Ontario. The annual picnic is a good place for new members to get acquainted so if anyone is interested they may have more information by calling the recreation office, City Hall, President James Brennan or Mr. Cook.

AUSSIE FARMERETTE PRAISES OUR CATTLE

"Put them on a farm. That'll cure 'em," is Rosemary Lucas' solution to Canadian juvenile delinquency. The Australian farmerette, 21, is touring Canadian and U. S. dairy centres, part of the world tour she won for being New South Wales' best junior farmer in 1957. Miss Lucas praised Canadian Jerseys but added that our scrub Jerseys are not as good as those in Australia.

Here are the 1958 Belleville Recreational Commission playground supervisors who will have charge of activities at the various city playgrounds this coming summer. Supervisors were called in by Recreational Director Lloyd "Red" Doran, Tuesday evening and are shown above brushing up on details of their work. Front row: Mary Elizabeth Lally, Louise Fisher, Elizabeth McConigle, Carrol Poste, senior supervisor; Connie Stickle, Dianne MacKenzie, Gwendolyn Cavers and Judy Linton. Back row: Elmer Alyea, Mary Agnes Donoghue, Mary Jo Cannon, Jacqueline Watson, Dianne Burley, Pat Olsen, Barbara Payne, Anne Tooth and Carl O'Neill.

Playground Supervisors Meet

City Woman Discovers Old N.Y. Newspaper

The 75-years-ago prediction of an old whalebone captain that the only way to reach the North Pole would be through Bering Strait with its favorably northward currents, is contained in an 1878 edition of the New York Herald found recently by a Belleville resident in the back of a dresser mirror.

The old newspaper, a triple sheet affair which had to be unfolded like a present day road map, was found by Mrs. Anne Little, 223 Charles St.

It was not known whether the newspaper had been placed in the dresser in Belleville or in New York where possibly the piece of furniture originated.

The old newspaper shows a vastly different style makeup as compared with modern day papers, but then as now, news was news. One story devotes almost a full column to an insane witness in a Southern political trial. Another story gave a half page coverage to an epidemic of yellow fever which was currently sweeping through Mississippi almost completely wiping out the populace of one small centre.

Still another story gave a graphic account of a young woman's suicide by leaping from a ferry boat in New York Edmonton.

The editor said Wednesday that 15 to 20 claims, far above normal for the region, have been staked in an area about 30 miles north of McMurray. The gold is reported to be very fine, covered by about 900 feet of rock and would be extremely expensive to mine.

Bush pilot Milt McDougall of McMurray said in an interview that "the whole town of McMurray knows about the find but no formations has been held back so more claims could be staked out by local residents." McDougall said he himself has 12 claims.

Gabs 28 Hours To Win $1,500 Talkathon Prize

FAYETTEVILLE, N. C. (AP) — "Mother," said Mrs. J. C. McCauley's son, "there is a time for you to get something for all that jabbering you do."

So the 49 - year - old grandmother gabbed 28 hours, 44 minutes in station WFLB's talkathon race for $1,500 in prizes and broke the 27½-hour world record claimed by Mrs. Louis Grant, 27 - year - old secretary who quit Tuesday afternoon.

"I can still talk, but I felt like it was time to quit," said Mrs. McCauley Wednesday night after yielding the microphone.

Said McCauley:

"I always knew I had a champion."

15 to 20 Claims Staked After Gold Reported

EDMONTON (CP)—The provincial mining recorder's office here says a gold strike may have been made near the Athabasca River 275 miles northeast of Edmonton.

The office said Wednesday that 15 to 20 claims, far above normal for the region, have been staked in an area about 30 miles north of McMurray. The gold is reported to be very fine, covered by about 900 feet of rock and would be extremely expensive to mine.

Bush pilot Milt McDougall of McMurray said in an interview that "the whole town of McMurray knows about the find but no formations has been held back so more claims could be staked out by local residents." McDougall said he himself has 12 claims.

Depot Lake Dam And Reservoir Open Wednesday

Official opening of the Second Depot Lake Dam and Reservoir on the upper Napanee River will take place on Wednesday afternoon, June 11th, it has been announced by Napanee Valley Conservation Chairman George A. Grant. The Honorable W. M. Nickle, Ontario Minister of Planning and Development will officially open the dam.

Following the opening Department of Lands and Forests personnel will stage a fire fighting display. This will include demonstrations of water bombing and parachuting of equipment.

Signs will be posted on roads leading to the dam site from No. 28 highway two miles north of Verona and from the county road east of Enterprise.

Second Depot Lake Conservation Dam was built by the Napanee Authority to store water from the spring run-off for supplying water to the town of Napanee and other municipalities during the period of low flow. Total cost of the structure was $102,000 with land costs and relocation of roads and other contingencies raising this to $135,000.

BUILD FAST CAR

LONDON (Reuters) — A 500-mile-an-hour jet-propelled car is being built for speed king Donald Campbell, the London Daily Herald reports. The newspaper says Campbell hopes to use the car to break the late John Cobb's land speed record of 394.19 miles an hour set in 1947. "Biggest problem facing the designers is how to stop the car," the paper says.

BIRTHS

WATSON. — Glenn and Marilyn Watson, Consecon, Ont., are pleased to announce the arrival of their son, James Allan, on Wednesday, May 28th, 1958, at Civic Hospital, Belleville, Ont.

PETRIE. — At Belleville General Hospital, on Wednesday, May 4th, 1958, to Mr. and Mrs. Hugh Petrie, R.R. No. 4, Belleville, a daughter, (stillborn). Burial from the Rowe Funeral Home, Tyendinaga, Ontario this Thursday afternoon to St. James' Cemetery.

DEATHS

BLACQUIERE, Joseph. At Belleville General Hospital, on Monday, June 2nd, 1958, Joseph Blacquiere, aged 72 years. Beloved husband of the late Ethel Graham, beloved son of Mr. and Mrs. Leonard A. Graham, age two years.

Resting at the family residence, Cooper, Ontario, the funeral service will be held on Thursday afternoon, June 5th, at 2.30 p.m. with Rev. E. V. C. Lewis officiating. Interment Tyendinaga Cemetery.

GRAHAM, Barry A. — Suddenly, at the residence of his parents, Cooper, Ont., on Wednesday, May 28th, 1958, Barry Allan Graham, beloved son of Mr. and Mrs. Leonard A. Graham, age two years.

Resting at the family residence, Cooper, Ontario, the funeral service will be held on Thursday afternoon, June 5th, at 2.30 p.m. with Rev. E. V. C. Lewis officiating. Interment Tyendinaga Cemetery.

CARDS OF THANKS

To the Foxboro United Church, the Belleville neighbors, thank you for the lovely flowers, food and kindness during my stay in Kingston Hospital.

Lloyd Tinsley.

The O'Coin family wish to thank their friends and neighbors and relatives for their sympathy and assistance during the illness and death of Mrs. Lucinda O'Coin. They especially thank Rev. Father Murphy and Father Murphy for their spiritual assistance and Dr. S. Berry for his services.

We wish to express our sincere thanks to the many friends and neighbors for cards, acts of kindness, flowers, cards, messages of sympathy and assistance during the recent bereavement of our father, also to Father Murphy, Dr. Bruce Cronk and staff of the Belleville General Hospital, also Brotherhood of Railway Trainmen, Local 59.

Joseph Feeney and family.

SEVEN DIE IN CRASH

RANGER, Tex. (AP) — A flaming car-truck crash killed seven persons Saturday—a young couple, four of their five children and the truck driver. The collision occurred on a narrow bridge 10½ miles east of here in north central Texas.

TORONTO STOCKS

TORONTO (CP)—Profit-taking struck the stock market today, sending it down for the first time this week in fairly active morning trading.

Industrials and base metals were the hardest hit, losing almost one-half point on index. Golds were off a few decimal points. Western oils edged ahead.

Industrials eased behind pe-

pers. Consolidated dipped ¼ at 23¼ and Asbibi was off ¼ at 28¼.

Golds eased with Dome, Hollinger and Kerr-Addison off fractions. McIntyre was ahead $1.

Among senior mines, Steep Rock, Noranda and Hudson Bay all were slightly off. Uraniums were strong with small gains by Algom, Pronto, Consolidated Denison and Faraday.

TORONTO LIVESTOCK

TORONTO (CP)—Prices were steady at the Ontario public stock yards today.

Most of the cattle offered were slaughter steers, Calf, hog, sheep and lamb prices were unchanged.

Included in the cattle offering were 800 replacements.

Livestock on offer: Cattle 1,700; calves 30; hogs 1,371, sheep and lambs 11.

Slaughter cattle: Choice steers 26-24.50; good 23.50-24; medium 21-23; common 18-21; a few common heifers 18-20; common cows 14-16; canner and cutter cows 12-14.

Replacement cattle: Medium stockers 22-24.

Calves: Good vealers 31.50-33.50; medium 28-30; common 20-25; bones 13-20.

Hogs: Grade A 34.50; heavy sows 26; stags 18.

Sheep and lambs: Sheep 4-10 with few good light sheep 12.

DOLLAR RATE

MONTREAL (CP) — The U.S. dollar was at a discount of 3 11-16 per cent in terms of Canadian funds near noon today. Wednesday's noon rate was 96 9-32 cents.

Pound sterling $2.71 5-16, up 2-1.

PRODUCE MARKET

TORONTO (CP)— Churning cream and butter print prices were reported unchanged here today.

The egg market was reported unsteady on large with other grades steady. Demand generally adequate for a light demand.

Country dealers are quoted by the federal department of agriculture on graded eggs, delivered Toronto, in these cases: A large 43; A medium 38; A small 33; B 25; C 23. Wholesale to retail: A large 48; A medium 43; A small 35; B 25; C 23.

Butter prices: Canada, first grade: Ontario tenderable 64¼; non-tenderable 63¼-64; cooking trading; western 63 (nominal).

Merchants Complain of Trash, Dust Littering up Streets

TRENTON — "Town streets are in a terrible condition and have been for some time," Councillor Hilton said yesterday. The councillor was referring to the dust and trash which is cluttering them and is bringing protests from many merchants on Front and Dundas Streets.

"I intend to bring it up at the next council meeting," said Mr. Hilton, "because something has to be done about it right away."

"At first," continued Mr. Hilton, "we thought a street sweeping machine would be suitable but we have found out later a flusher would be better, especially on streets where there is no curbing. On these streets a sweeper would cause too much dust behind it, where a flusher would wash them down and send the debris into the ditches, as well as to dampen the shoulders of the roads and to keep the dust from flying during the day.

"Another feature of a flusher would be that in the winter time it could be used on the centre snowplow and help the Public Works department keep the streets free of snow."

Councillor Hilton is apparently not the only one receiving complaints on this matter. Some shopkeepers claim they have called the town about it and others have said they have called other members of the council. Some have taken their complaints to the town engineer.

Last night the town's budget was brought down, money was set aside for the purchase of either a new grading machine or a street sweeper, but not both. The grader machine has been bought. When this was mentioned to one store owner on Dundas Street West, he said, "Then we can get a petition drawn up and signed and give it to Councillor Hilton to show we are behind him and want our streets cleaned."

WASHED DOWN ONCE

Merchants in the streets have only been washed down once this year and this was apparently done by using hose connected to the fire hydrants. At present the men working on keeping the streets clean get the paper and trash but they are unable to get the dust.

It is this dust which is being whipped up by passing cars and deposited on the counters and shelves of the stores. It also settles on the sidewalks and is brought into the store on the feet of customers. Overall it causes the store owners and their staffs a lot of extra work in cleaning up and they are beginning to show their irritation over it.

The possibilities of getting the Belleville street flusher to come to Trenton and wash the streets down once or twice until the town gets one of their own has been suggested. It would, however, have to be arranged between the two councils. Could be a rental basis and at a time when the city is not using it themselves.

Two Highway Workers Hurt in Two Accidents

TRENTON — Two highway workers were injured yesterday in separate accidents with one being admitted to the Trenton Memorial Hospital and the other receiving emergency treatment.

At 6.10 a.m. Fred Denyes of Brighton, was going to work and was near the 401 Highway, when his car collided with one being driven by Delbert Nesbitt. The mishap occurred on a small hill on the short stretch of road which connects the Telephone Road with 401.

Mr. Denyes was taken to the hospital suffering multiple bruises and was admitted to a ward for further treatment. Mr. Nesbitt received a few lacerations but did not go to the hospital.

Both cars were extensively damaged and the combined loss damage was estimated at $2,000 by officers.

Constable H. R. Cook of the Ontario Provincial Police investigated the mishap.

In the second accident yesterday two highway workers, Bert Picbo, 29, of Sturgeon Falls, was injured while operating a grader for the Dufferin Paving Company. The company is in charge of the present work approaches to the 401 bridge over the Trent River.

Mr. Picbo was working at the top of a 20-foot slit with the grader when it tipped over sideways and the huge machine went over the side. The operator jumped clear and rolled down the bank away from the machine and suffered a severed nerve as well as cuts and bruises.

RELEASED AFTER TREATMENT

He was rushed to the Trenton Memorial Hospital by fellow workers, where he was treated and then released.

He has been working for the company about five years and has operated a bulldozer off and on during that time. This paving he was put on the machine full time. It is expected he will be at work for about a week.

Damage to the bulldozer was estimated at about $500 and will be put out of service for one week until repairs can be made.

It was at the 20-foot level into the pit and after workers get it loaded will be driven out.

It is also the contractors who are doing the construction work on the 401 in this district. The Standard Paving have the contract for the stretch of highway from about half-way between Belleville and Trenton to the approaches on the west side of the 401 bridge.

Will Pay $1,000 For Tagged Fish

MAGOG, Que. (CP) — Money still doesn't grow on trees but for a few months this summer it will be flourishing underwater.

The Lake Memphremagog Conservation Club today announced plans to release a tagged landlocked salmon into the lake July 1. Anyone who catches it within 24 hours will get $1,000 for turning in the tag. A Montreal brewery is putting up the money.

Euclide Langlois, member of the conservation club, says he hopes the thought of hooking a $1,000 fish may hook a few tourists for the Magog district, 100 miles southeast of Montreal.

Recover Loot Worth $46,000

CORNWALL (CP) — Loot estimated at $46,000 stolen from a bank at South Mountain Jan. 31 has been recovered, Crown Attorney R. P. Milligan said today.

Recovery of the stolen registered Bonds and securities and documents was confirmed by Inspector J. W. Beavers of provincial police, who said he could not say where or when the loot was recovered.

Three Toronto men charged with the robbery are scheduled to appear in county court here next Monday.

ISLAND LINE

The Prince Edward Island Railway, now part of the CNR system, opened for traffic in 1874.

Liberal Party Heads Will Meet Later in Month

OTTAWA (CP) — Steps are being taken immediately to rebuild the Liberal party, Opposition Leader Pearson told a press conference today.

The Liberal Federation's 30-member national executive is to meet here April 18, to be followed by a conference of the 100-member national advisory committee.

Later, Mr. Pearson said, he will embark on a tour of the West, starting in British Columbia and working east through Alberta, Saskatchewan and Manitoba.

He will deliver speeches and meet with various party organizations.

He envisaged that during the rebuilding period, some changes will take place in the party's executive but he could no say what there will be.

Asked whether he will just confine activities to western provinces—where not a single Liberal member was returned in the March 31 election—Mr. Pearson said he plans to concentrate on the whole country, making trips to the Maritimes later.

As for finance, he plans to attend a Western Ontario Liberal meeting at Lon on next week and receive towards the end of June will join other Liberals at a convention at Bryson Inn.

French Navy Refused to Land Troops on Isle

PARIS (AP)—Pierre Pflimlin resigned as premier and cleared the path for Gen. de Gaulle's return to power after a navy commander refused to land troops on rebellious Corsica, reliable sources said today.

Pflimlin told the story to a group of his fellow Catholic Popular Republican deputies. Deputies who were present confirmed the story.

Pflimlin's naval landing was set for sometime between midnight of the Corsican revolt, May 24, and the night of May 26, when he was objected to by the army and President Rene Coty and offer his resignation.

WAS POWERLESS

He is reported to have told Coty that night that his government no longer could make its orders effective.

Pflimlin told his fellow deputies that after the Corsican insurrection of de Gaulle supporters, he sent a warship with 2,000 police and security troops aboard to recapture the objective port of Ajaccio. The capital was then held by only a handful of paratroops.

"The blow had been kept perfect secret," Pflimlin was quoted as saying. "The landing was to take place in dead of night. The gendarmes could have retake the city without firing a shot.

"At the last moment the commander of the ship refused to enter the port and land the gendarmes."

DIES SAME DAY

NORTH WILKESBORO, N.C. (AP) — A 101-year-old woman died here Wednesday, less than 24 hours after her 99-year-old sister died in Tennessee. Following Mrs. Sarah Bishop's death, relatives attempted to get word to her sister, Mrs. Ann Corum of Mountain City, Tenn., only to hear that Mrs. Corum had died Tuesday night.

Trucking Firms And Union Ask Conciliation

LONDON, Ont. (CP)—Two days of bargaining sessions here this week between the Teamsters Union and representatives of the Ontario trucking industry resulted in a unanimous decision to ask provincial government for a conciliation officer, a spokesman for the trucking companies said today.

The union has demanded a wage increase of 30 cents an hour and fringe benefits which the trucking companies say amount to another 15 cents an hour. The companies countered with an offer to continue the existing contract without wage increases or other alterations for another year.

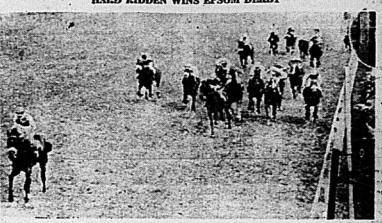
HAED RIDDEN WINS EPSOM DERBY



Hard Ridden, owned by Sir Victor Sassoon, and ridden by Charlie Smirke, wins the 179th Epsom Derby at Epsom, England, yesterday. Rest of field trails far behind. Hard Ridden, at 18 to 1, gave Sir Victor his third Derby win, and gave Jockey Smirke, who is 51, his fourth Derby triumph. Time of the mile and a half race was 2 minutes, 41 3/5 seconds. Nineteen other horses competed. (AP Wirephoto via radio from London.)

Two Ministers Said Locked up During Speech

PARIS (AP) — Three Paris newspapers report right-wing extremists seized two members of Premier de Gaulle's cabinet and kept them from appearing Wednesday when de Gaulle spoke in Algiers.

The papers — Figaro, Aurore and Paris-Journal — say Vice-Premier Louis Jacquinot and Sahara Minister Max Lejeune entered the government building in Algiers with de Gaulle before the rally, but were taken into a separate room and locked in until after de Gaulle finished speaking.

French leaders in Algiers represented de Gaulle's appointment of some ministers regarded as too liberal in Algeria, and none of the leaders of the movement for de Gaulle in Algeria was appointed to de Gaulle's cabinet.

The newspapers say Jacques Soustelle, de Gaulist deputy in the National Assembly who slipped off to Algiers to lead the insurgents, will get some government job.

Want to Stabilize Lead, Zinc Prices

WASHINGTON (AP) — Establishment of a lead and zinc study group to seek stabilization of the industry is being planned, informed sources said today.

The group would seek to agree on methods of stabilizing prices or imports of the two metals and representatives of Canadian, Mexican and Peruvian mining interests.

TAKE BRUSHING CLASSES

TOKYO (Reuters)—More than 70,000 school children marched into the National Athletic Stadium here Wednesday to begin teeth-brushing classes in connection with Japan's annual "keep your teeth clean" week.

FARM COLLEGE

The Ontario Agricultural College at Guelph was opened in 1874 as the Ontario school of agriculture.

Chicken Thieves Get Big Hauls

TORONTO (CP) — Chicken thieves, who have stolen an estimated 1,000 chickens in recent months without waking farmers in nearby communities, took a flock of New Hampshire hens Wednesday night from the King Township farm of Archie Hudson, killing them on the spot.

Police say the thieves strike on Wednesdays and Thursdays, apparently to have the loot ready for marketing on weekends.

SUE GLENN FORD

HOLLYWOOD (AP) — Actor Glenn Ford is being sued for $676,876.02 by Columbia Pictures Corporation for allegedly refusing to play the film The Last Angry Man. The suit, filed Wednesday, said Ford was under contract to Columbia to make a picture a year without the right to approve scripts.

JUNE IS DAIRY MONTH

June, which the song writer tells us has a habit of busting out all over, nowhere makes a better job of this expansionist program than dairy land in the clover on the back forty. Clover and all the rest of June's lush vegetation is grist for the mill of one of the most efficient machines ever subverted by man from its original purpose in the scheme of things. We refer to the cow. Cows were made to mother calves, but they are good for udder things — hmm-m; to the tune of a cool billion bucks in Canada alone. June, which has a wonderful reputation in the field of romance, not only rhyming with moon but being overrun with brides, butters up cows in a different way. It puts them in clover and that each register they carry around as original equipment starts to gush a tune which the dairy farmer insists beats any love song ever turned out in Tin Pan Alley.

This white gold, though, has to be converted into greenbacks and about this time of year the National Dairy Council of Canada declares that June is Dairy Month.

Brides being much too preoccupied with other matters to dispute the issue, June goes by default to the dairy industry and Dairy Month it is.

This is a very good thing for the country, particularly the country hereabouts, where Holsteins outnumber brides by at least a hundred to one, this being a count taken by a man who is much too busy carrying on a thorough scientific investigation into the feeding habits of pickerel to do more than to doff his hat in passing to either a bride or a Holstein.

There is this, though, which must be said for the Holstein, the scientist muses during a lull in his arduous chores - - a bride on a fishing trip would be a damned nuisance, but a Holstein can be comforting if you can reduced her essential ingredients to butter (fresh) or cheese (old) or milk (cold). For the scientific minded, like the pickerel investigator, we must add that a National Dairy Council says that 43 per cent of the milk produced in Canada goes into butter, seven per cent into cheese and 31 per cent is consumed as whole milk and cream. Another nine per cent goes into concentrated milk and ice cream, leaving a mere 10 per cent for use on the farm, where calves, the intended beneficiaries, must compete with an assortment of other livestock for the right to enjoy their birthright.

We suspect that to the calves of this world, this seems like a very sad state of affairs, but it is a most satisfactory one as far as dairy farmers and the dairy industry are concerned. Nutrition experts, too, think very well of the whole affair, although they sadly report that "public attention has to be drawn continually and forcibly to this group of foods which stands second to none in contributing to good nutrition." This the National Dairy Council undertakes to do by spending $5,000,000 a year for advertising. Now if we were in the advertising department we should almost certainly choose the side of cheddar at the mere suggestion that five million is an adequate advertising outlay when merchandising products worth a billion. One half of one per cent of sales for advertising! Why if everybody used that yardstick we would be fishing for food, rather than from a sense of scientific curiosity! That, we fear, would be a fast way to starve to death for also, though Quinte pickerel are as famous, and perhaps as numerous, as Quinte Holsteins, our experience is that they are nowhere near as reliable when it comes to providing the necessities of life. Dairy farming is one of the district's basic industries and much of the growth of and prosperity of Belleville itself and of the surrounding district is the result of its stability and reliability.

OLD PROBLEM RETURNS

Here we go again.

The Canadian National Railways has forecast a $55,000,000 deficit on its 1958 operations.

This is the second straight year in which operations have been at a loss.

There was a time, though, when CNR deficits could be handled as news, back in the pre-war days, when they looked to be permanent and there were those who regarded the railway problem as the major one facing the nation.

Which perhaps proves that there are no new problems, only old ones coming back to roost.

WOULD PROVIDE CLUE

President Eisenhower takes visiting Prime Minister Macmillan golfing their scores are likely to remain a well kept secret. But we might get a clue by watching what happens when Britain next asks for postponement of interest payment on that big loan. (Brantford Expositor.)

JUST FOLKS

(Copyright 1958, Edgar A. Guest)
By EDGAR A. GUEST

NO OFFICE SEEKER

I do not yearn for office,
I do not long to be
The worthy, worthy president
Of some society.
Let others have the glory
And have the titles, too;
I'd rather be the rank and file
And have no tasks to do.

I seek not the distinction
That office gives a man.
I'm quite content to plod along
And cheer what others plan.
Let others have the titles.
And others chairmen be.
I much prefer the rank and file
That's good enough for me.

For presidents are busy,
And chairmen have to work,
And secretaries never
Know a moment they can shirk.

Yes, every one in office
Is kept upon the run;
But members of the rank and file
Get in on all the fun.

Neatest Kind of Humor

—Montreal Gazette

George Barnard Shaw had met Alfred Hitchcock. They were a s dy in contrast, Shaw, never heavier than some odd pounds, was tall and gaunt, like a Don Quixote. Hitchcock, of course, was better than portly.

"You know, you, Mr. Shaw," said Alfred Hitchcock, "and I knew there's famine in the land."

Shaw look at you, Mr. Hitchcock," replied Shaw, "and I know who caused it."

This type of humor is one of the most unappreciated there can be. It is the humor that rises out of the occasion. And it is the neatest and most precise kind of humor, because it takes the very form and cadence of the words just spoken — almost the same number of words — and relates to them as a retort, or riposte.

It turns what has been said back upon the person who has just said it. And because it is the neatest and most precise kind of humor, it rarely admits of a further reply.

The actress, Lilian Braithwaite, was called to the front, a quiet insidious way, one of the greatest wits on the London stage, to play the leading role in "The Vortex," the first notable drama of Noel Coward's career as a playwright).

The drama critic, James Agate, passing by her must until table inside the door of a London restaurant. He paused and remarked:

"My dear Miss Braithwaite, I always go out to the second-best-looking woman in London."

Miss Braithwaite, a most accomplished actress ready for her expected reply: "And who, my dear Agate, is the best-looking woman?"

Agate, who had underestimated the wit of Lillian Braithwaite. She retorted with the precision of the parallel humor: "That's a splendid compliment coming from you, our second-best critic."

This type of humor, usually so adroit, can be simply blunt. It would sometimes take this form, as when Sir Fenks, the professor at the Slade School of Fine Art, London, a man known to generations of students. He gave himself to his work as a teacher with vigorous devotion. But he also cherished those hours of duty, when he might give himself to his own painting.

One of his students did not quite understand this sharp division of time, and called him, as he house and rang the bell. Presently, the door opened. Prof. Tonks appeared, and asked them what they wanted.

"We have come to see you", they answered.

"Well, you've seen me," said Prof. Tonks, and banged the door.

To hurl words back at a person may be effective enough, but it is rarely likely to be worthy of this particular form of humor. Better was the gigantic satire of Artemus Ward, in his lectures in the 1860's, when he would pick up a phrase and almost repeat them, but with a sort of pictorial oddity. It was all too farcical to be really cruel, yet it was effective riddicule in its own fashion.

In one lecture he was telling his audience of an accident that has happened to him, while embarking on a steamer from New York. He was hustling by the crowd against some middle-aged ladies. They, mistaking his character, said, in their indignation: "Base man, leave us, oh, leave us!"

Then, with a pause, Artemus Ward would go on: "And I left them, sir, I left them."

As might be expected, the actor, James Agate, Miss Braithwaite, was expert in the repetition of words, with clever alterations. He could even make a joke at his own words.

Walter Richard Sickert tells of the time he was printing from copperplates in Whistler's presence. He dropped a scraper on the floor. "How like you!" was Whistler's comment.

A few minutes later the improbable happened. Whistler, after picking up the scraper, dropped it. There was a pause. But Whistler was equal to the occasion. "How unlike me", he commented.

But this neat form of humor can never be more neatly employed than when the ridiculous compliment — to ridicule one person and to compliment another, is paid at one time. But this could be done by the artist, Philip Wilson Steer.

He had gone to a tea-party given by Sickert's mother. She was saying sadly that she had been much upset at the unkindness of a woman friend, who called at her studio that morning. This artist had spoken scathingly of her flower-painting, saying they were "just like tin."

The other guests at the tea-party tried to console her. Steer said nothing till, some 20 minutes later, when he got up to go. He walked across to a vase of tulips, beautifully arranged in the window.

"How lovely", he remarked — just like tin".

Car Toll Less Than Horses'

BBC London Letter

"Taking road accidents, the annual number of deaths in Britain has risen to a hundred-dred years ago was 124, all due to horse-drawn vehicles; whereas today it is 5,000. This surprising piece of information about fatal accidents in Britain was given by Dr. Charles Fletcher, senior lecturer in Medicine at Manchester Hospital, in a recent talk in the "World Affairs" broadcast London every week in the BBC's "London Calling Asia" program.

Dr. Fletcher went on to point out that fifty years ago the fatal accident rate in British factories was three times greater than it is today. "The reason for this," he explained, "is that, while scientific technology has introduced new perils, into factories from gasses, fumes, dusts and machinery and from the speed with which we move in and live, it has brought new means of protection for every one likely to be injured to health." Unfortunately history showed that these had been delay in the application of remedial and protective measures, sometimes for centuries, sometimes owing to indifference. Dangers to life and health were avoided in some countries, now passing through their industrial revolutions, if those who had guided them would learn the lessons of the past and not be hamstrung by short financial gain and administrative convenience.

Other examples from Britain's industrial history, Dr. Fletcher pointed out, that the first matches had had heads made from yellow phosphorous, and it was not until many workers had developed a painful disease of the jaw, known as "phossey jaw" that a safe substance had been found, yellow phosphorous made illegal, and the disease finally eliminated. The use of benzene for making rubber was also now prohibited in Britain because its vapor might cause fatal anaemia; and the metal beryllium was no longer used in the manufacture of fluorescent lamps, since it had been found to cause serious lung disease. Grindstones made of sandstone, which might cause silicosis, had been largely replaced by carborundum stones which were equally effective and quite safe.

Many accidents were due to the failure of the individual to take percautions, Dr. Fletcher said, but perhaps the greatest danger of modern times modern hazards was indifference. striking example in Britain was the pollution of the air in cities by smoke from factories, trains and domestic fires. This had been going on for generations, corroding buildings and giving rise to a special kind of unnecessary labor; but it that taken the great London fog of 1952, which killed four thousand people in a week, to stir the conscience of the public and to lead to legislation against air pollution. Determined measures were now from the beginning would have been far better and cheaper.

Modern industry, Dr. Fletcher ploy d many workers on dull, monotonous jobs, requiring little per to the mind and soul as well as the body. Dr. Fletcher said, in the form of industrial neurosis It was essential to find ways of creating interest and variety for its own sake and of making the worker feel that he had a valuable part to play in the industrial community.

As old hazards were overcome, new ones were constantly arising, Dr. Fletcher said, and perhaps the greatest of all was radio-activity. The introduction of nuclear power would mean increasing use of radioactive substance in X-rays and medicine as well as industry. The injury from radioactivity, not only to the individual but possibly in the future, Intensive research was now going on into the dangers from radioactivity and handling X-rays and radioactive substances, and to be considered by on their guard. "Safety first" is sometimes considered to be a cowardly motto, but it must be taken if we are to progress, but a brilliance and concern for the well-being of workmen and of all exposed to modern hazards is the essence of research and prevention may be expensive and be as expensive as the cost of disease, injuries and compensation.

Dramatic Exits

Sherbrooke Record

A casual observer of fashion notes that the trend is toward backless dresses featured in this year's evening gowns. Ideal for designed for women who like to make dramatic exits.

OFF THE RECORD

By Ed Reed

"I'm afraid I'm not making a very good impression on you, Jack."

LOOKING BACKWARDS

GLEANINGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO

June 5th., 1938

Mr. and Mrs. Charles M. Reid have arrived here from St. Petersburg, Florida, where they spent most of the year, and will remain here for some time.

Mr. J. C. Allison has passed the first year examinations in the Faculty of Medicine at Toronto University.

Miss Rose Wilkinson, nurse-in-training at the Niagara Falls, Ontario, General Hospital was home to spend two weeks with her parents, Mr. and Mrs. G. Wilkinson.

Mrs. O. R. Thompson, West Dundas Street, has returned home from Florida where the spent the winter.

Mr. and Mrs. John English and son of Gueldph are visiting Mrs. English's parents, Capt. and Mrs. T. E. Hyland, Coleman Street.

The Belleville Human Society will shortly open a campaign to increase its membership.

From our file copy at this time in 1888: Dr. Elizabeth Emory of Napanee has come to this city to practise her profession and has taken rooms in the Harrison Block.

30 YEARS AGO

June 5th., 1928

Mr. John Elliott is in Montreal to attend the annual meeting of the Canadian Chambers of Commerce.

Mr. and Mrs. S. Turner, Grier Street, will spend the weekend with his sister, Mrs. G. H. Harris, in Rochester, N.Y.

Mrs. John Denmark is spending a few days with friends in Deseronto.

Mr. W. A. Gilroy, reeve of Wellston township, was a visitor in town today.

From our file copy at this time in 1898: Over 200 citizens have been summoned to appear at various days at the county court to answer to the charge of failure to pay dog tax. The teachers and pupils at the D. and D. Institute, Trent Road, will enjoy their annual excursion to Napanee on Thursday next on the steamer Merrill.

40 YEARS AGO

June 5th., 1918

Eddie George — Same Things. One of the queerest finds recorded in some time was made by Eddie George of this city recently. He was enjoying a walk along a country road near the city when much to his surprise he observed a bag actually walking — he be seeing things he wondered, but collecting his forces he advanced upon the bag and discovered that the motive power was supplied by a harmless little pig. It had probably fallen from a conveyance of some kind.

A squadron of six planes from the Deseronto Camp flew over the city this morning and attracted much attention.

Judge Deroche of Pembroke spent the weekend here with relatives.

Personal Notes. From our file copy at this time in 1898: The schooner Lizzie Wells is in port with a cargo of coal for the Rathbun Company. The schooner F. H. Burton is in port with coal for Thomas Sweet's. Mrs. Alexander Mc-McBride cleared today for Trenton to load wood.

50 YEARS AGO

June 5th., 1908

At the adjourned meeting of the Y.M.C.A. Tennis Club the following officers were elected: Hon. president, Mr. H. Corby; president, Dr. McCulloch; vice president, Rev. H. B. Kenny; secretary treasurer, T. Cochrane, jr.; membership committee, Messrs. Carlaw, Lewis, Zinn, and Alford; committee of schedule and regulations, Mr. McCullough and Mr. J. Bone.

Mr. James Wilder, Toronto, an old Belleville boy, is visiting relatives here. He is one of the large number of Belleville boys who learned the printers' craft in this city and then sought larger centres.

Strength for The Day

DR. EARL L. DOUGLASS

BEST OF FALL TICES

We have had occasion to remind ourselves many times in this column and through it, that we live in a spiritual universe and that satisfactory life consists in a right relation to "the" — whatever you want to call earnest and continuous cooperation. In fact, as the writer of this column, I can say that the most important statement ever made to me by thousands of articles that have appeared, is the statement that everything else said.

Of certain things we can be absolutely sure. One is that we continue to exist to the end of time. God does not make personalities to destroy them. We are a part of a living universe as well as of a material universe, and though the forms of life change, life never ceases. If our lives cease, then we can be sure that everything else in the universe would cease with this universe reasonable?

The universe seems to be that we as spiritual beings are part of a never ending universe. In t h i s universe all values are real. Therefore, we must learn how to live. If we do not learn on this planet, then we shall have to learn somewhere else, but only God knows where that somewhere is.

So we might as well go busy now learning to live — to get in gear, in tune with the universe. Remember, God's way is best. Now is the best of all times.

THE PACKSACK

By GREGORY CLARK

Some men, on arriving at the age of 50, decide that they are getting old, and they show it mainly by the conservative elegance of their dress; by the studied correct posture they assume at all times, by the tan that they manage to put on, and by other facets perhaps quite as studiously acquired as any outside recognition of any lady. But most of all, you can tell by the resonant voice.

Men of distinction have resonant voices. You can hear them on the tus, in the street, in the Publman car, in hotel lobbies and in restaurants. A man of distinction does not know how to lower h i s voice. When he speaks, he does not care who hears. Or, perhaps, his distinction is such that he supposes anybody would be glad to hear what he has to say.

At any rate, being a man of distinction appears to be a happy state. The only trouble in this direction arises when two of them, acquainted with each other, g e t together and they see all too close to the Pullman or in a restaurant. If they were roosters, y o u would observe their hackler rise. But all you can see is a decided deepening of their tan as they struggle to outdistinguish each other.

The oddest thing about men of distinction: they don't like one another's company.

To Your Good Health

By Joseph G. Molner, M.D.

REFLEXES ARE INVOLUNTARY REACTIONS TO CERTAIN STIMULATIONS

"Dear Dr. Molner: What reflexes have to do with the health of the body? My husband had a physical examination and the reflex of his knees and elbows was nil. He is 53 and is seemingly good health. He sleeps well, has a good appetite, isn't nervous, and never complains in regard to anything about his health. Is there anything to be done about his reflexes? Is it indicative of a serious ailment? This worries me a lot, although it doesn't seem to worry him at all. — Mrs. K.L."

Stop worrying! That's a short answer; now I'll give you a longer one.

Reflexes are involuntary reactions to certain stimulations. Flashing a light in a dark room will make the pupil of the eye contract — a reflex. Touching something will make you pull your hand away before you have time to think about it. That's another reflex.

When the doctor taps your knee with his rubber mallet, your leg jumps in reflex action. Usually, that is. A normal reflex may be lost, and disappear in short order. Or it may be absent entirely, yet remain within the range of normal health.

This being the care, you may ask, "Why bother to do it, when a high, low, or medium reaction can be normal?" In physical checkups like the one your husband had, you very excellent reason for making the test — simply to get his normal reaction on record. Then, should with a vigorous reaction later on examination, the change might then become significant. Suppose your husband, many years from now, should develop disturbance in which a check of the reflexes might be helpful. Won't it then be important to know what his reflexes were like in normal health? That, of course it will be.

AFFECTED BY TENSENESS

For another consideration, some patients may be a bit tense as they submit themselves suppress the reflex action — yet if you distract their attention, another tap brings a ready "kick."

The reflex, in short, has to be considered in relation to all other findings itself, it doesn't indicate much if anything.

Here are some of the ways these reflexes are useful. In polio, knee reflex jerks at a tendon may be overactive early in the disease, and diminish or disappear sometimes. "Drop reflex" is broken.

In strokes or head injuries the reflex pattern often helps to who o where the brain has been damaged. The tendon jerks may be exaggerated in certain areas, or there may be "pathological reflexes." An example of a pathological reflex is tickling the sole of the foot gently. Normally the toes curve down; in strokes the big toe will curve up and the small toes will fan out.

In sciatica or in a ruptured disk case, an ankle reflex may be absent. In meningitis there are characteristic reflexes, such as the knees bending when the neck is bent forward. And there are others.

So, you see, it makes sense for a doctor to know what his patient's normal reflexes are like. There may come a day when he will want to compare these reflexes. As I said, there's no reason to worry over such a healthy husband. His lack of reflexes is simply a bit of data, and not a symptom.

* * *

"Dear Dr. Molner: Would you give me some information regarding mumps in a man? I have heard they could cause him to become sterile. Is this true? — Mrs. A.O."

It is not always so. In children there is scant chance of this occurring but after the age of puberty the case can attack the reproductive glands. If this happens, the testicles or glands can become shrunken, causing sterility. But if it doesn't attack both glands — usually only one side, sterility will not result. In other words, the adult has mumps, but no symptoms other than the usual swelling in the area, a redness of the jaw, you needn't worry that the victim is necessarily become sterile as a result.

Want to lose weight? It can be done if you follow the advice in this easy paraphlet, "The Lost Secret of Reducing." For a copy, write to me in care of this newspaper, enclosing a large, self-addressed, stamped envelope and 5 cents in coin to cover handling.

Blind Man Pyromaniac

Windsor Star

Crimes take many forms though rarely indeed does one take an unique form. But one in England surely fits the description. A blind man has been convicted of arson.

The man was usually is impelled to set fires because of a desire to see the flames and watch the resultant excitement. But a blind man could not see whish later fires he pulls for this general excitement. Also it might be assumed a blind man would fear being the victim of the fire he lit. Or, at least, fear being caught in the act.

Over in the United Kingdom, however, they have some mighty curious crimes.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

YOUR MAKE-UP

People of the stage are not the only ones who give a great deal of time to a personal makeup. We all want to be attractive to others, and we pay more or our dress, our reading, and o u r personality.

I dare say we all, to a lesser or greater degree, make up for personal satisfaction. We are very sensitive others to our standards, because of their makeup. You are drawn to them instantly.

There are small points of character that we may not realize, but they are important, nevertheless. The makeup of a man or woman is important, for all too soon are the days of such a one over. Their memory, however, lives on. I shall never forget Helen Hayes as Queen Victoria, or Jeffrey Lee as "Bch" Aeres nor Charlie Frank Bacon as "Lightin" Their make-up had everything to do with their art. You just felt that these great actors and actresses had prepared well. That's why their memory remains, even after each one has played his or her last role. There is how, ever, lives forever! Often the make-up is no longer remembered. The theater is a great institution, for it often portrays a lifelike picture of some very well-established traits we like to imagine belong to us, or that we would like might somehow be a part of our own make-up. It's the make-up that inspires the actor to play the part that the writer meant should be made notable.

As individuals, in our many places at work, we also make-up, and are usually rewarded accordingly. Many, through their cheerful makeup, have presented a makeup that inspires others to do the same — and the world is better because of it!

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Mayors Ask for Measures To Solve Jobless Problem

VICTORIA (CP) — Municipal government leaders from across Canada agreed Wednesday to ask Ottawa for measures to solve the unemployment problem and for a clear definition of obligations.

The call came on the final day of the convention of the Canadian Federation of Mayors and Municipalities. Most of the 600 delegates were on their way home today.

A resolution calling for federal action on unemployment was approved unanimously.

It said the public works program outlined in Ottawa to ease the situation would not take care of immediate employment needs, and warned that unemployment insurance benefits are being rapidly exhausted.

Earlier Wednesday the delegates approved a resolution asking the government to amend the Criminal Code and clearly define the word "obscene," thus permitting prosecution of publishers and distributors of obscene literature, photographs and indecent spec. Cartes.

Mayor H. G. R. Mews of St. John's, Nfld., was elected president of the federation.

Regional chairmen include:

Atlantic—Mayor Walter Harry, Sault Ste. Marie (Northwestern Ontario); Mayor Merlin E. Dickerson, North Bay (Northeastern Ontario); Mayor L. G. Lavigne, Hawkesbury (Central Ontario); Mayor Lyman Gifford, Oshawa (Central Ontario); Reeve J. E. Allen, East York (Toronto region); Mayor J. Allan Johnst, Kitchener (Western Ontario); Mayor Dr. M. M. Gowland, Sarnia (Windsor-Sarnia); Mayor W. Smith, Owen Sound (Georgian Bay); Mayor Fred W. Cox, Stratford (Central Western Ontario).

Those elected to the national executive of the federation included: Mayors Nathan Phillips, Toronto; Michael J. Patrick, Windsor, Mrs. E. M. Wishart, Port Arthur, C. M. Hawkins, Niagara Falls, Reeve Chris Tonks, York Township.

States Canada Should Appoint Vatican Envoy

TORONTO (CP) — A Toronto newspaper publisher said today the time has come for Canada to "put aside old and outworn religious prejudices" and appoint diplomatic representatives to the Vatican.

John Bassett, publisher of The Telegram, told a combine, meeting of the Empire and Canadian Clubs:

"At this stage of Canada's growth and importance, it just does not make sense that we are dependent on backstairs gossip or some side door channel for the information we gather from this centre."

A text of his address was issued to the press prior to delivery.

Mr. Bassett, an Anglican, said the issue of Vatican representation "has nothing to do with religion at all." He described it as a tiny temporal state as one of the best diplomatic listening posts in Europe with "connections all over the world, even behind the Iron Curtain."

He added: "I believe the political moment in Canada now has arrived when we have an English - speaking Protestant prime minister, who could in no way be accused of favoring his co-religionists, to make this appointment now."

Mr. Bassett said it was important to make the move before similar action by the United States, the only other major nation not represented at the Vatican, headquarters of the Roman Catholic Church.

The step would be part of "our national process of growing up."

Mr. Bassett also described his experiences on an 11-day trip to Israel last month as a guest of the Israeli government.

Israel, he reported, has emerged as a bulwark of democracy in the tension-ridden Middle East and "deserves all our help."

Viking Ship Leaves Bergen For New York

BERGEN, Norway (Reuters)—A dragon-prowed Viking ship with a determined crew is en route to New York to prove that the Norsemen's spirit still survives.

Departure of the 19-ton replica from the harbor here Wednesday was cheered more than 20,000 persons, many clad in colorful national costume.

The 20th-century repetition of Leif Ericson's transatlantic voyage arose from screen star Kirk Douglas' complaint that there were "no more Vikings left in Norway."

Stuffed in the starboard nostril of the dragon's head at the prow is resting for Douglas, who he invited $5,000 to the Norse Veterans' Wounded Association if the boat reaches New York by June 25.

OPPOSE CHAMOUN

His Beatitude Paul Boustros Meouchi (top), Patriarch of the Maronite Catholic Church, Beirut, Lebanon, has come out openly against President Camille Chamoun. The prelate said the time would soon come for the president to "take a trip" on that army relief Gen. Fuad Shehab (bottom) could assume full power.

DE GAULLE

(Continued from page 1)

Although he said the Algerian would vote equally with French men across the Mediterranean on the constitutional reform, de Gaulle gave no clue to the basis Algiers believe it can be on the same population basis as in France, since that could send a massive bloc of more than 9M Moslem votes to the assembly.

HINTS AMNESTY

The general's speech also contained an implied offer of amnesty to the rebels who have tied down almost 200,000 French troops in the expensive, indecisive guerrilla war. He appealed for cooperation from "those who through despair have thought it right to carry on this civil fight-which I recognize myself was courageous . . . but which is nevertheless cruel and fratricidal."

Frantic bursts of applause interrupted him after almost every sentence. Moslem men in burnooses and veiled women listened in the crowd as de Gaulle spoke from the same balcony where leaders of the military-civilian insurrection had spoken nightly for the last three weeks.

MOVE HEADQUARTERS

CORNWALL (CP) — Ontario Provincial Police District headquarters, covering six counties, will be transferred from Cornwall nine miles west to the new seaway town of Long Sault. It was announced Wednesday. Date for the transfer has not been set.

Identical Beagle Hounds Cause Big Argument

GIRDLER, Ky. (AP)—Orville Root and a neighbor, Willie Smith, had identical beagle hounds.

One wandered away and the other began splitting his time, affection, and meat between the men. Root sued, claiming the dog was his. After a one-day trial, during which 50 witnesses testified, the jury was unable to agree.

Smith waived his claim to the beagle when Root offered to pay $14 court costs. The men went to Smith's car, opened the trunk and discovered the dog had died of suffocation. Tuesday, the first dog came back to town and started the controversy all over again.

"I guess I'll see them both in court again," said Magistrate Sam Jones.

South Ontario Desperately in Need of Rain

TORONTO (CP) — The rain needed to save Southern Ontario's crops, suffering from one of the driest springs on record, was not in sight today.

All the experts can offer anxious farmers is the possibility of a few scattered showers or thundershowers this afternoon or evening.

A predicted high of 75 in the Toronto area and similar temperatures in the southern region will tax what little moisture remains in ground.

Serious drought conditions have been predicted by weather officials unless dry spell is broken by a sustained downpour. Many parts of Ontario have had less than half their normal rainfall so far this spring.

ONE BAD SPOT

One of the most severely affected areas is between Windsor and London where rainfall has been only 40 to 43 per cent of normal.

Crops have been kept from dying by below-normal temperatures for this time of year, weather officials said.

Overnight showers in the Sault Ste. Marie area gave Northern Ontario a break from the drought.

SUCCEEDS PETRILLO

PHILADELPHIA (AP) — Herman D. Kenin, 33-year-old west coast man, Wednesday was elected president of the American Federation of Musicians to succeed James C. Petrillo, who was Petrillo's hand-picked successor.

LARGEST ON LAKES

DETROIT (CP) — The Edmund Fitzgerald, largest vessel ever to be launched on the Great Lakes, will be launched at the River Rouge here Saturday. The 729-foot ship will be capable of the maximum allowed by the U.S. Corps of Engineers to go through the Sault Ste. Marie, Mich., locks.

NOT IN THE SCRIPT

Brownie Peggy Coldhart puts her foot into a solemn ceremony. Guide Diane Chisholm, 15, was receiving her gold cord and all the girls were lined up for the ceremony in Toronto. Everyone was suitably awed—all, that is, except for Peggy who couldn't resist the urge to plant a kick on Guide Joanne Armitage. Photographer Ron Lephon caught the action at its peak. (CP Wirephoto.)

Stranger Solves All Troubles Of Young Boy

CALGARY (CP)—Terry Graham, 11, has had all his troubles solved by a stranger who left $21 for him at a newspaper office. The money replaces two bills Terry accidentally burned in an incinerator.

Ashes from that fire are being studied by experts of the Bank of Canada in Ottawa. If the ashes provide enough evidence $21 will be sent to Terry's parents, residents of nearby Lowness.

The boy accidentally threw the grocery money, a $20 and a $1 bill sealed in an envelope, into an incinerator while helping his mother clean house.

UP TO $2.35

He volunteered to scrub floors and do house chores until he collected enough money to pay back his mother. By Wednesday night he had saved $2.32 from the pennies and nickles his parents paid him.

An unidentified stranger left $21 Wednesday and said: "Just tell that the boy gets it."

Terry did, and wrote a thankyou note that was printed in the newspaper.

Mrs. Graham refused at first to accept the gift but later took it. The Grahams have seven children.

Will Resume Construction Of A-Power Station in July

OTTAWA — (CP)—Construction at the Ottawa River site of Canada's first atomic power station is expected to be reached in July, it was announced here today.

Work at the site, about two miles from Rolphton, Ont., and 130 miles north of Ottawa, was stopped last year to allow important technological advances to be incorporated in the design of the power station's atomic reactor.

Resumption of work on the reactor was announced jointly by Atomic Energy of Canada Limited, Canadian General Electric Company and Ontario Hydro which are sharing costs. The plant is expected to cost in excess of $15,000,000.

It will be known by the code name NPD (nuclear power demonstration) and will produce some 20,000 kilowatts of electricity. This power will be fed into Ontario Hydro's power distribution system when the plant goes into operation in 1961.

The station will not produce power at a cost competitive with that of conventional coal-burning electric power plants. However, it will serve as a test plant for the later designs of competitive stations with outputs of from 150,000 to 300,000 kilowatts of electricity.

Work at the plant site was suspended in April last year. Ground was broken at the site in September, 1956.

The basic design of the experimental station has not been changed. It will use natural uranium as a fuel and heavy water as a control agent, a system pioneered by Canadian atomic scientists.

However, a different type of vessel is to contain the fuel and a new method for loading and unloading the fuel has been designed.

Atomic Energy of Canada said the new system will permit more efficient use of uranium fuel elements. It will be possible to refuel the reactor while it is operating at full power, preventing any disruption in the flow of electricity.

SUSPENDS DEBATE

UNITED NATIONS, N.Y. (AP) The United Nations Security Council Wednesday suspended for two weeks debate on the French-Tunisian dispute to let the two countries seek their own settlement.

Rural Churches Will Be Given More Assistance

PETERBOROUGH (CP) — The rural churches will be given more consideration and help from the presbyteries in which the churches are located.

This and several other points from the home missions committee's report were recommended and approved by delegates to the Bay of Quinte conference of the United Church Wednesday.

The committee recommended that all presbyteries within the conference give more time to the exploration and discussion of the work of the rural church.

This will include realignment or consolidation of the churches or the charges, modernization of church buildings and manses, and relating the church to vital community agencies and needs.

The retiring president of the conference, Rev. W. F. Banister of Kingston, warned that in 20 years churches may not be in existence in the rural parts of the Bay of Quinte conference if new policies are not adopted now.

SOCIAL and PERSONAL

Mr. and Mrs. Harry Murphy left by motor today to attend the marriage of their granddaughter, Barbara Ann Bolton, of Oshawa, to William Jordon, of Oshawa, formerly of Nova Scotia, which takes place this weekend.

Weddings

CASSALMAN — EMPEY

MARMORA — A quiet wedding took place in St. Andrew's Manse on Saturday, May 24th, when Dorcan Joan Empey, youngest daughter of Mr. and Mrs. Henry Empey was united in marriage to Richard Gordon Cassalman son of Mr. and Mrs. Carl Cassalman, of Marmora Township. The marriage was performed by the Rev. E. F. Maddox.

The attendants were Miss Marie Empey, sister of the bride, and Mr. Beverly Pollock, of Havelock, brother-in-law of the bridegroom was best man.

BRONSON — ALLORE

TWEED — St. Edmund's Catholic Church, Stoco, was the scene of a pretty wedding when the Rev. Father Lavelle united in marriage Miss Elizabeth (Betty) Ann Allore, daughter of Mr. and Mrs. Thomas Allore, Landsdowne, and Mr. Robert James Bronson, son of Mr. and Mrs. Robert Bronson, Tweed. The church was prettily decorated with spring flowers.

Miss Clara Mulrooney played the wedding music and Mr. Ronald Cassidy was soloist.

The bride, given in marriage by her father, was lovely in a ballerina-length gown of white nylon and net over taffeta, fashioned with fitted bodice having a scalloped neckline trimmed with sequins. Her finger-tip veil fell from a coronet headdress, and her bouquet was of red roses and stephanotis.

Attending the bride were her two sisters, Carol as maid of honor and Shirley Ann as bridesmaid. Their gowns were fashioned alike in shades of yellow and blue nylon chiffon over taffeta. Their headdresses were feathered bandeaux in shades to match their gowns and they carried bouquets of carnations in pastel shades.

The two flower girls, cousins of the bride, were dressed in pink and carried tiny baskets of baby 'mums.

The bridegroom was attended by Mr. Leo Darrah of Marmora, as best man. The ushers were Mr. A. Edward Allore and Mr. Ivan Bronson.

The reception was held in the banquet room of the Stoco Lake Hotel. Receiving the guests for the dinner was the bride's mother, wearing a two-piece ensemble of beige and brown with white accessories and the bridegroom's mother wore a two-tone blue ensemble with white accessories. Both mothers wore corsages of pink and white carnations.

For her wedding trip, the bride chose a youthful dress of nylon sheer with flocked organdy sculptured in pale blue and navy with navy duster and white accessories. On their return Mr. and Mrs. Bronson will reside in Tweed.

Guests were present from Peterborough, Toronto, Brampton, Kingston, Gananoque, Lansdowne.

Victorian Order Nurses Sponsor 'Blossom Time' Afternoon Tea

Crowds gathered at Bridge Street United Church hall on Wednesday afternoon for the Victorian Order of Nurses annual spring tea and bazaar.

"Blossom Time" seemed to be the theme, as numerous bouquets of spring blossoms were used to transform the hall into a springtime setting. The bazaar area was separated from the "tea-room" by blue and white streamers, and the home-cooking table, set up on the stage, was decorated with VON in large blue letters. A doll, dressed by Mrs. J. Ray Grant, in a navy VON uniform completes with black nurse's bag, was on view at the entrance.

Visitors were welcomed by Mrs. H. Parker, Miss Dorothy Connor, and the treasurer, Mrs. Jay Grant. Hostesses were Mrs. M. E. Bolger and Mrs. H. McCabe and the lucky number was Mrs. J. E. Medill.

The various attractive tables, featuring such items as knitted baby outfits, knick-knacks, potted plants, used records and books, was conveyed by Mrs. W. Bell, Mrs. Cotton, Mrs. H. J. Miles, Mrs. G. Anderson and Miss B. Corbett.

The candy table, featuring all varieties of fudge and maple creams, was conveyed by Mrs. H. M. Francis and Mrs. R. Brain.

Carrying out a brisk business in the home cooking department were Mrs. W. Williamson, Mrs. Fenwick, Mrs. Holborn, Mrs. G. F. Lott, Mrs. W. D. Ponton, Mrs. Fallowfield, Mrs. Mrs. M. Vanner, Here a heavily fox and Mrs. J. Dickerson watering array of pies, cakes, cupcakes, cookies, and other delectable pastries could be found.

Tea-room convener was Mrs. A. E. Miles.

Pouring tea at the two head-tables were Mrs. H. W. Acker-man, Mrs. C. H. Lusk, Mrs. Myles Morton, Mrs. D. Burr (from 3 to 4.15), Mrs. W. S. Northcott, Mrs. E. Finkle, Mrs. G. L. Tripp and Mrs. D. M. Scott (from 4.15 to 5.30).

The head tables were adorned with floral centre-pieces of yellow and white mums, white spirea, and purple irises, interspered with small white candles, and set in silver bowls. White candles with blue bows centred the individual tables.

Servers were: Mrs. R. D. Porter, Mrs. R. S. Gibson, Mrs. J. D. Empson, Mrs. A. Walters, Mrs. H. Bateman, Mrs. W. L. Griffiths, Mrs. J. S. Stock, Mrs. A. G. Allen, Mrs. J. Hart, Mrs. J. E. Boyd, Mrs. F. H. Ross, Mrs. A. C. Locke, Mrs. J. J. Trudeau, Mrs. A. E. Nelles, Miss H. H. Collier, Mrs. T. R. Colden, and student nurses, Miss M. Broadworth, Miss J. Cummins, Miss A. Ivan, Miss J. Holgate, Miss M. Ketcheson, and Miss H. A. Vanderwoert.

Replenishing, Mrs. J. Andrews, Miss M. S. Byers, Mrs. Mae Bonter, and Mrs. A. E. Miles; and replenishing of plates, Mrs. H. H. Warner, Mrs. W. H. McGee, Mrs. N. E. Edwards, and Mrs. G. Barclay.

Kitchen assistants were: Mrs. C. D. Hinman, Mrs. E. Parks, Mrs. H. N. Quinney, Mrs. Neil Sinclair, Mrs. A. Newman, Mrs. H. F. Neal and Mrs. Bowen. In charge of washing up were Mrs. E. Bowers and Mrs. H. Graham. Taylor Tibor assistants were Miss Mary Ann Empey, Miss Jean Empey, Miss Ann Empey, Miss Ann Empey, Miss Ann

GOOD MANNERS

By Mrs. Beeckman

"WEARS" HER HUSBAND'S NAME, HER WEDDING RING

Mrs. Beeckman:

My husband passed on recently. I loved him very dearly, cherish his name, and want so much to continue using it as I did when I was here: Mrs. Thomas Robinson. I am so sure that I have put in your column that it is correct for a widow to continue to use her husband's name. But a cousin, also a recent widow, insists I am wrong, that I should be "Mrs. Mary Robinson," i.e. Mrs. to which she changed when her husband passed on. Is she right, or am I? — R.

You are right. Your cousin is definitely wrong. A widow who loved her husband, cherishes the memory, does not discard the name he gave her or the wedding ring he gave her. She proudly continues to "wear" his name.

Mrs. Thomas Robinson, for example . . . she continues to wear her wedding ring.

PRINTING WITH AN INITIAL OR MONOGRAM

Dear Mrs. Beeckman:

In marking reference lines, what is the real difference between marking with an initial" a n d marking with a given name?

Bride-to-be

"Marking with an initial" means using only one letter "marking with initials" means more than one letter, (each separate). But a "monogram" is two or more letters interwoven, and is, usable into a design.

BEST MAN ASKS ABOUT HIS RESPONSIBILITIES

Dear Mrs. Beeckm.n:

I am to be best man next month at the wedding of a good friend of mine.

(1) Am I supposed to buy the bride's flowers? I've been told it is my responsibility.

(2) Buy the flowers for the maid of honor? (She's the bride's cousin, and I've never met her.)

(3) Any other "responsibilities"? — Best man.

(1) You have absolutely no responsibility about the bride's flowers. The bridegroom should provide the flowers for his bride, naturally.

(2) You do not provide the flowers for the maid of honor or any other bridal attendant. Customarily this is the responsibility of the bride's family, since these flowers are chosen as part of the color-scheme and plan for the wedding.

(3) You, as best man, have only two financial responsibilities: to provide your attire for the wedding, whether you own it, buy it, or rent it; and (b) to send a wedding present to the bride-to-be.

SHOULD HAVE GIVEN HAIRDRESSERS SEPARATE TIPS

Dear Mrs. Beeckman:

Yesterday I went to a hairdressing salon new to me, and I was not familiar with the procedure, as I have been used to having one attendant do the entire process. Here "A" champooed my hair at her station, and "B" set my hair at her station. When "B" finished, I left my tip for both on her dressing-table. Was this right, or should I have tipped each separately? — C. C.

It wasn't really sensible to leave the tip for both "A" and "B" on "B's" dressing-table. Naturally, unless you explained to her that the tip was for both, "B" was right in assuming that the entire tip was for her. You should have handed "A's" t i p directly to her . . . not only to be sure the dot it, but also to say "Thank you" to her.

SHOULD SHE HAVE WEDDING CAKE AT RECEPTION?

Dear Mrs. Beeckman:

I'm a girl in my middle-fifties, soon to be married again. My first wedding was very small and simple, with no reception, and therefore no wedding cake. I know it sounds foolish to say how much I've dreamed about having a wedding cake at my reception, but I do wonder if it would be proper on this second-wedding occasion. We will be married in the chapel of my church, only the families present. But, because we have so many relatives and friends, we'd like to have a large reception, and, if proper, we'd like to have "the" wedding cake. How about this plan, correct or not correct? — Anne.

Correct for you to have a large reception, if you wish and if you keep the plans informal . . . and, I'm most happy to tell you, entirely proper for you to have the wedding cake you've always dreamed of having. Do please plan to have this charming and festive and so-memorable feature at your reception!

Pineapple From Sunny Isles

by Mary Moore

The juicy pineapples that we take for granted used to be only for fabulously wealthy maharajahs shipped in from tropical isles.

But now we can have these lush fruits for as little as 25c each. Come to think about it, per ounce it is one of the cheapest fruits available.

Note to Reducers: Pineapple takes to artificial sweetner perfectly: dissolve 2 or 4 sucaryl tablets in 1 cup boiling water. When sucaryl is dissolved, pour this hot liquid over the shredded or diced pineapple. Cover and chill. This makes a lovely low calorie dessert for plump ones.

PINEAPPLE SERVING CASES

You have seen colorful pictures of pineapple shells used for serving fruit combinations. An exceptionally pretty and tasty mixture is watermelon balls, sliced strawberries, orange sections and pineapple dice. Pile the fruit in the scooped out pineapple shells with pine left on. It desired, pour over a Fruit Cream Dressing or thin sugar syrup flavored with maraschino cherry juice. For a ladies' dessert bridge this is lovely with huge chunks of unsliced angel food.

VEAL CHOPS HAWAIIAN

Broil ¾"-thick veal chops and sugar-sprinkling slices of pineapple together. They require about the same time to cook and should be turned once. When serving, arrange the chops on the pineapple slices and garnish with parsley.

PINEAPPLE AND RHUBARB CONSERVE

Wash 3 pounds red rhubarb and cut in small pieces. There should be 9 cups. Add 4 cups sugar, grated rind and juice of 2 oranges, 1 cup fresh pineapple cut in small pieces, 8 ounces maraschino cherries and 1 cup water, and cook, or to 220 deg. Fahr. on candy thermometer. It will take from 1 to 2 hours. Just before removing from heat add ¾ cup almonds blanched and chopped fine. Mix well, turn into sterilized glasses and when firm cover with melted paraffin. Eleanor and Bruce love this on toasted rye bread for breakfast.

Dinner Menus

by Mary Moore

THURSDAY

(Neighbor Guests)

Pineapple Juice; Quiche Lorraine (a ham-custard pie—we Wednesday) was Monday's leftover ham; Hot Chili Sauce Large Tossed Green Salad; Sponge Cake Strawberry Shortcake with Whipped Cream; Coffee.

SUNDAY

Melon Wedges with Lime Juice; Roast Chicken with Hot Currant Jelly; Stuffing; Green Beans Julienne; Corn on the Cob; Celery Hearts; Olives; Orange Sauerut Cake (see Monday); Coffee.

In this kitchen we have simplified the paring of pineapple by scrubbing it with a brush, then slashing off the plume and a slice from the bottom. Then with a sharp knife, I cut off the circle of skin lengthwise from top to bottom all round. Then with a pointed knife I remove the eyes. If it is shredded pineapple you want, with a strong meat fork over a big bowl begin scraping the surface of the fruit, then go deeper and deeper all around until the juicy pulp is shredded off down to the tough core. Sweeten with about ¼ cup of sugar.

DISTRICT WOMEN'S INSTITUTES

MELROSE W.I.

The regular meeting of the Melrose W.I. was held Thursday night at the home of Mrs. Clare Weese with 30 members and three visitors present. Mrs. K. McMechan, vice-president, took charge of the meeting.

A number of thank-you cards were read and an invitation from Cannilton W.I. to attend a "Rose Tea." It was decided to send $15 to the Salvation Army campaign and to contribute to the CNIB at later meetings. Other matters of business were discussed.

Mrs. Ed Lanier gave an interesting report of the Guelph conference, which she had attended, stressing the theme, "The Challenge of Tomorrow." She spoke of the capabilities of Mrs. Haggerty, and outlined the duties of district directors.

Mrs. John English, convener of historical research, took over the remainder of the meeting and all joined in community singing.

Mrs. Ken McMechan led a lively discussion on the topic, "Are Wives Happier Than Their Grandmothers?" Many agreed that there was more family life in older days, but wives today are blessed with more material things. Every generation must make its own happiness.

Mrs. A. English gave the motto, "Do Not Resent Growing Old, Many Are Denied the Privilege." She stated that it is not age that counts, but what one has done with the years. Friends grow old also, but by taking up new interests one can remain young at heart.

A number of ladies took part in "Parade of Night-wear from 1800 to 1958, with Mrs. J. English commenting on each gown as it was modelled. This proved to be most entertaining.

THE FAMILY COUNCIL

EDITOR'S NOTE: *The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an actual case history. The Council reports on problems that have been dealt with by responsible agencies and counsellors.*

Rose E. — Mother's bossiness is making trouble for me.

Mrs. K. E. — She is childish and naive.

* * *

Rose E. — I am 20 years old and I had been going out with a young man of 23 for the past few months. He asked me to marry him, but I really didn't feel too sure about him — in spite of the fact that I liked him a lot.

I did as my mother told me and how I'm sorry. I haven't seen Burt since. He was really very hurt and angry. He said I was a fool if, at my age, I did everything my mother told me — and I'm beginning to think he was right. My mother's bossiness has certainly made trouble for me.

* * *

Mrs. K. E. — Rose has been crying day and night and complaining I am spoiling her life, but her story is that only a few weeks ago she complained that this Burt was annoying her to death and making her life miserable by constantly trying to get her to accept him.

When I told her to give back the ring it was for her own good. She doesn't understand Burt would have used it to impose himself on her even more than he had been. Rose is naive and childish to think she can accept a gift of her own accord, she might like that without any consequences.

As I see it, Rose is well rid of this Burt. He was really not her type. She is very lively and friendly and likes a lot of people around her. He was always more one and brooding. I told Rose she could never get along with him.

* * *

The Council: Even if Rose were several years younger than she is she would be too old for her mother to control her actions to such a great extent. Rose should know by herself that she should not accept expensive gifts from a man she does not plan to marry.

The fact that she needs a mother to virtually order her to return such a gift indicates that she is very poorly equipped to handle her own life.

The blame for this situation rests essentially on Mrs. K. E. She doesn't seem to understand that her relationship toward her daughter should have become vastly changed over the past five or six years from what it was before.

An adolescent needs plenty of guidance and advice, but the goal must always be toward making him understand for himself how to best manage his affairs.

Rose was apparently completely confused about her relationship with Burt. She evidently liked him and enjoyed his admiration, but didn't want it to go too far. Her mother's warning that he was not "her type" may have confused her further.

She should have been free to figure out for herself what she liked or didn't like about him. Taking it from her parents might help her clarify her mind, but if they impose their judgments too forcefully she becomes even more confused.

It is natural for Rose to now blame her mother. She has taken no responsibility in the whole affair. Too much does not please her. If she hasn't yet read the article on "Too much of our own accord," she might have learned how to hold a man's friendship without involving herself more deeply than she wished.

The only way for her to overcome her childishness and naivete is by taking increasing responsibility for her life.

Europeans who know fashion say they can spot **Easeful American Fashion** anywhere.

1st Belleville Brownie Pack Holds Banquet

The First Belleville Brownie Pack recently held a delightful banquet at St. Margaret's-on-the-Hill, with an attendance of 38 Brownies.

The banquet opened with Nancy Williams at the piano.

The Brownies introduced their mothers and the invocation was given by Tawny Owl, Pringle, followed by a delicious dinner served by the ladies of the church.

An interesting talk was given by Brown Owl Eakins. Mary Hunter gave the toast to the mothers, to which Mrs. Hay replied.

Marylin Lancaster favored with a piano selection and Commissioner Kuntze spoke to the Brownies.

A poem, called "Little Brownies" by Connie Pringle was recited by Edna Pringle and Mrs. D. Stewart, president of the local association, explained the work of the association.

Poems entitled "Fairy Bing" and "Girl Guide Pin" by Connie Pringle, were given by Beverley Hannah.

BADGES PRESENTED

Badges were presented by Commissioner Kuntze, including 14 Golden Bars, 16 Golden Flashes, 4 Proficiency Brownies received badges throughout the year.

Those receiving the golden bars were: Karen Campbell, Bonnie Christopher, Polly De-Carlo, Lorraine Fairman, Lynda Gordon, Cathie Harris, Barbie Fournia, Mary Janitsch, Jane Kerr, Corinne Marlatt, Rona Piget, Sheri Sprague, Vivian Taylor and Lynn Thompson.

Those receiving golden hand badges: Sharon Armstrong, Frances Fothergill, Beverley Hannah, Cynthia Hay, Sally Jones, Linda Kerr, Bertha Krogman, Susan Miller, Lorna McLaughlin, Linda Powell, Edna Pringle, Janice Ronsky, Judith Tribone, Barbara Williams, Susann Walters and Sharon Wilson.

After "Fairy Ring" ceremony the Brownies entertained the mothers with several numbers and closed with "Taps."

HOT STUFF

Natives in Burma use pickled tea prepared as a salad by soaking it in garlic.

Floral Flattery

By ALICE ALDEN

Flower-decked hats are with us in happy profusion, from those wreathed with demure buds or flecked with a bright blossom to hats made entirely of flowers. Becoming and beautiful is this flower-bedecked chemise cloche, created to provide a gala complement to summer costumes. White sander bands with velvet ribbons forms the background for a wreath of pink gardenias.

NEVER AGAIN NEED YOU SUFFER FROM LEG FATIGUE!

Supp-hose by KAYSER

THE FIRST SHEER ALL-NYLON STOCKING DESIGNED TO SUPPORT!

Ever had to sit down in the middle of something . . . just because your legs were too tired? These medically approved Supp-hose are for you . . . the first sheer support nylon that contains no rubber, looks like any other nylon stocking, yet gives you wonderful, uplifting support!

Supp-hose was first tested on the patients of a large clinic . . . new mothers, expectant mothers, various leg sufferers—even the nurses tried Supp-hose! To a woman, they all marvelled at the soothing relief Supp-hose gave—and so will you! If you spend any time on your feet, try "shionable Supp-hose. You'll be delighted with the results!

The Halibut Story

Sprinkle steaks on both sides with salt. Heat ¼ cup of butter and cook celery and onion in it until tender but not brown. Remove pan from heat and add seasonings, bread crumbs, and chopped tomato; mix thoroughly. Place one steak in a well greased baking dish. Heap the stuffing mixture on it then cover with the other steak. Brush the top steak with melted butter. Measure the total thickness of the steaks and stuffing. Place in a hot oven at 450 F. and bake allowing about 10 minutes cooking time for each inch of total thickness. The fish is cooked when the flesh will separate into flakes and is a milky white color throughout. Makes 4 servings.

Cooked halibut offers a wide range of "postscript" possibilities. Like other cooked food it is very perishable. Store it in a covered container in the refrigerator and use it within a day or so after cooking. ¶ It can be used in casserole dishes, creamed mixtures and salads. It is especially good as a filling for grilled luncheon sandwiches.

* * *

A hot and hearty halibut soup makes a delicious supper dish. Here is one which draws its inspiration from French cookery. "Soupe a l'oignon" is one of the most highly esteemed of French soups. This adaption has wonderful flavor and a stick to the ribs quality which is most satisfying."

HALIBUT AND ONION SOUP:

1 pound halibut steaks or fillets, cut in 1 inch pieces, 4 tablespoons butter, 4 medium onions, sliced, 4 cups boiling water, 4 cups thinly sliced potatoes, ¼ cup butter, melted, 2 tablespoons flour, ½ teaspoon salt, dash pepper, 5 or 6 rounds of bread, grated cheese.

Cut fish into bite-sized pieces discarding any skin or bone. Dissolve bouillon cubes in boiling water. Saute onion in butter until tender but not browned. Blend in flour and seasonings. Add bouillon gradually and heat to simmering a temperature, stirring constantly. Add halibut and simmer for 10 minutes. Sprinkle bread with grated cheese and toast in a hot oven. Serve soup in deep bowls placing cheese toast on top just before serving. Additional grated cheese may be passed at the table if desired. Makes 5 or 6 servings.

Tangerine is a popular shade this season. Not everyone can wear it, but everyone will be interested in this eye-catching tangerine-colored sauce to serve on baked halibut steaks. Melt 2 tablespoons of butter. Add 2 teaspoons of lemon juice and 2 tablespoons of chopped, canned pimiento. Mix well, heat, and spoon over 2 pounds of cooked fish arranged on a hot serving platter.

* * *

Delicious discovery: serving-size pieces of halibut dipped in mayonnaise which has been diluted with a little lemon juice, then rolled in crushed cornflakes and baked.

* * *

Barbecued Halibut Sticks is a recipe which picks up the effectiveness of the marinating technique for fish. Cut 2 pounds of halibut into sticks about 1" x ½" x 2". Marinate for 1 or 2 minutes in ½ cup of salad dressing. Drain, then roll in ¼ cup of commercially grated cheese mixed with ¼ cup of fine dry bread crumbs. Bake in hot oven (450 deg. F.) for about 10 minutes.

* * *

Did you know that 1 cup of biscuit mix combined with ½ cup of milk makes a crisp delicious batter for halibut which is to be fried in deep fat?

* * *

Processed cheese slices make a colorful and flavorful topping for baked or broiled halibut steaks. Place a slice of the cheese on each cooked steak before removing from oven. Slip under the broiler and broil until the cheese melts and is flecked with brown.

A delicious tasting fish is not necessarily a handsome fish. For example there is the halibut. Much prized for its firm, meaty, white flesh, the halibut is one of the homeliest of creatures. In shape it resembles a deflated rubber football bladder. One end terminates in a small head displaying such irregular features as a twisted mouth and two prominent eyes close together on the top side. The other end fans out into a powerful whisk-shaped tail. Around each side there is a pleating of fins.

The halibut's life story is quite the reverse of that of the ugly duckling. It starts out life as a normal-looking little fish with swims and drifts at random with the ocean currents. By the time it is six or seven months old, however, marked changes have taken place. For example, it has acquired the habit of resting or swimming on its left side. Its left eye, rather than stare into the middle, has moved across the head until it is beside the right eye. Also, the bottom side of the fish has turned white or grey-white and the upper side has become a dark brown or black . . . colors which blend in the underwater surroundings and make it inconspicuous to its enemies. As a young fish the halibut settles to the bottom in shallow inshore waters. Then, as it increases in age and size it moves into deeper waters.

SLOW GROWTH

Halibut grow slowly and the females are the heavyweights of the species. Sometimes they reach the ripe old age of 35 and up the scales at several hundred pounds. The males seldom live longer than 25 years or reach a weight of more than 60 pounds. When caught, these fish are packed and graded according to size, which commonly ranges from 5 to over 80 pounds.

Because they grow slowly, halibut are especially subject to depletion from overfishing. Fishermen harvest them from the cold waters of the North Pacific, the Arctic and the North Atlantic Oceans. The largest proportion of our supply comes from the North Pacific Ocean where fishing is regulated by the International Pacific Halibut Commission. This Commission divides the Pacific coast into areas and establishes seasons and/or catch limits for each of the areas. When limits are reached, the Pacific halibut fishing season is over. During recent years the total annual catch from all areas has been between 60 and 70 million pounds.

On the Atlantic coast where halibut are taken in smaller quantities there are no special regulations governing the season, size or catch, or fishing areas. As a result, landings are made throughout the year.

* * *

Fresh Pacific halibut is now appearing on the market in good supply, the federal Department of Fisheries reports. This year the main halibut fleet began fishing operations in North Pacific waters on May 4th, although fishing began in the most northerly area somewhat earlier. The main fishing period will possibly cover a period of 8 to 10 weeks and although much of the catch is frozen for them, just follow these e kitchen-tested directions.

HALIBUT DOUBLE-DECKE

2 halibut steaks, (about pound each and 1-2 to 3-4 in es thick); salt; 1-4 cup but 1-4 cup chopped onion; 1-4 diced celery; 1-2 teaspoon s 1-4 teaspoon thyme or sage tarragon; 2 cups soft br crumbs; 1 small tomato, ch ped; melted butter.

Wife Preserves

Preserve yourself, literally, by doing your household chinking in stocking feet rather than high-heeled shoes or loose slippers.

Students of Mrs. E. Veley, R.M.T., Present Sparkling Piano Recital

Amid sparkling silver musical notes on a background of black clefts entering the stage and flanked by colorful spring flowers, the annual piano recital of the pupils of Mrs. E. Veley, R.M.T., was held in the Collegiate auditorium last night.

Annette Horton, on behalf of the pupils and Mrs. Veley, welcomed the large number of people present.

Once again the pupils from the beginners to advanced grades presented their work with a fine display of talent. The pupils played their work by memory showing an excellent performance of expression and platform deportment, and in some cases concert ability.

PRESENTATION

Before the senior work was played, Bonny Lee Faulker presented Mrs. Veley with a bouquet of American Beauty roses. Sharon McDonald, when presenting a basket, gave the following address: "Madam chairman, ladies and gentlemen, girls and boys, I have been accorded the privilege to act on behalf of the Harmony Studio Club at this time. A year has passed since we gathered here last to perform to the delight of our nervous parents and with the sensitive ear of Mrs. Veley in the near wings.

"Since last September, we, the pupils, have been cautioned, criticized, corrected, encouraged and taught, in order that we might enjoy a successful year in our music career. The success of your pupils, Mrs. Veley, both past and present, I am sure, gives you a great deal of satisfaction, and I would like to express how grateful we are for the effort you put forth as our teacher.

"We realize that recently you have worked under a physical handicap, and we sincerely hope that the summer recess will enable you to regain good health. At this time, on behalf of the Harmony Studio Club and your pupils, it gives me great pleasure to present this gift to you."

Lois Bailey also presented a gift on behalf of the pupils and the Harmony Studio Club.

Mrs. Veley tendered appreciative thanks for her gifts, and expressed her appreciation to the pupils, the Harmony Studio, and especially to Mrs. C. Scott, chairman, for her untiring efforts and devotion.

PRIZES AWARDED

After the musical numbers, Mrs. C. Scott introduced Mr. Bob Reid, who, on behalf of the Harmony Studio Club, presented prizes to those pupils, who obtained the most points in their respective grades during the year. A sense of nostalgia crept into the program at this time because Bob was a former pupil of Mrs. Veley. He will be ordained as a minister next year.

Those receiving prizes were: Beginners: 1st group — Susan Sweet, Ellen Terry; 2nd group — Jane Belanger, Karen Johannsen; advanced beginners: Steven Smith, George Pugh; Grade 1 — Jim Noakes, Diane Shorey; Grade 2 — Garfield Smith, Arlene Jones; Grade 3 — Maureen Thompson, Eleanor Millard; Grade 4 — Penny Cavers, Stephen Flindall; Grade 5 — Marilyn Phillips and Patricia Shorey (tie), Carolyn Shorey; Grade 6 — Sandra Burns, Marilyn Huntley; Grade 7 — Karen Flindall and Doreen Rush (tie), Grade 8 — Sharon McDonald, Lois Bailey; Grade 9: Wayne Vance, Eileen Hancock.

The singing of "O Canada," accompanied by Grace Veley, brought a most enjoyable musical to a close.

PROGRAM

Welcome, Jeanette Horton.

BEGINNERS

Bonny Lee Faulker: The Long Trail; Valerie Martin: Halloween; Evelyn Terry: Paper Ships; Susan Sweet: Butterfly; Penney Clay: Galloping; Conny Coney: Lochaber Lullaby; Karen Johannsen: Pretty Polly Oliver; Margaret Chumbley, Flute Song; Heather Sutherland: Are You Sleeping; Susan Halsey: March of the Dwarfs; Carol Kilpatrick: Summertime; Barbara Jane Furm: Evening Song; Diane Belanger: Pussy Willow; Richard Downes: Song of the Boatman; Brian Barlow: Chimes; Steven Downes: The Rain; Bobby Wood: Donkey; Arlene Jones: Oats, Beans and Barley Grew.

ADVANCED BEGINNERS

Linda Waters: The Bee; George Pugh: Robinson Crusoe and His Man Friday; Graydn Flindall: Tower Clock; Stewart Smith: Come Birds.

GRADE ONE

Janice Ronsky: Gossip Joan, Folk Song; *Beverley Loney: Minuet, Teleman; Deborah Carruthers: Cry Is the Rose, Folk tune; *Donna Empson: Caprice from "Aldeste," Gluck; *Diane Shorey: Rigaudon, H. Purcell; Terry Willis: Shepherd's Song, Couperin; *Jim Noakes: Bourree J. S. Bach.

Garfield and Stewart Smith: The Fairies Lullaby, C. Harris.

GRADE TWO

Louise Taylor: Lavender Blue H. Willan; Nancy Faulker, Slumber Song, Schubert; *Victoria Carruthers, Minuet, Mozart; *Karen Terry, Chorale, J. S. Bach; *Arlene Jones, Sea Song, Dunhill; *Stephen Ling, Caprice, Haydn; Frances Harnden, Dance, Beethoven; *David McDonald, Lullaby, T. Kenius; *Garfield Smith, Carol of the Round, R. Berlin.

Roger Ling, Study No. 14, S. Heller.

St. Michael's PTA Elects Officers

A record attendance was on hand for the final meeting of this term of St. Michael's Academy Parent - Teachers Association held on Monday evening.

Prior to meeting, classrooms were opened for inspection with particular attention being focused on industrial arts display under direction of Mr. Jack Penn. The meeting was opened with a prayer by Reverend Sister Mary Andrea, principal. Mr. James Lynch presided.

A grade 8 pupil at the academy, Raymond Smith, was presented with a special prize for being the top ticket salesman in the P.T.A. annual draw.

Mr. James Lynch, president, reported on the year's activities and thanked the executive, principals; Reverend Sisters, Reverend Fathers, teachers and parents for their assistance in making this a most successful year.

Mr. Gordon Powers expressed the group's sincere appreciation to Mr. Lynch for his keen leadership and called on Reverend Father P. Murphy to present the president with a tangible memento for his efforts.

Mr. Maurice Callaghan, president, presented, on behalf of St. Michael's Holy Name Society, prizes awarded to the following students for highest standing in industrial arts during the past year: St. Michael's Academy—Michael Cleary, Peter Randonich, Raymond Finkle, James McNamee, Fernley Power, Gilbert Letellien and Gerald Ribler. St. Joseph's School — James Klasek. Holy Rosary School — Robert Hartin. He was assisted with the presentation by Mr. Jack Ryan.

Reverend Sister Mary Timothy reported on Regional Parent-Teachers Association conference held in Kingston and on phases of the conference held by different diocesan groups in attendance. As part of the program, the Belleville group presented "The Sacrament of Baptism." The religious skit proved of great interest and was again re-enacted at the local meeting with the following cast: Mrs. E. Rashotte, Mr. William Finkle and Mr. Douglas Foley. This was followed by a lively half hour group discussion with Reverend Father P. Murphy acting as moderator.

Mr. Robertson Collins, chairman of the nominating committee, then presented the slate of officers for the coming year — president, Mr. R. K. Barrett, B.A.; vice-president, Mr. Joseph Doyle; secretary, Mrs. Allen Tobin; treasurer, Mrs. Goldie Fitzgibbon; directors: Reverend Sister Mary Evita, Mrs. E. Stanton, and Mrs. A. F. McFadden.

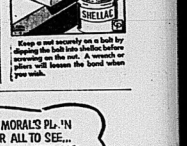
Attendance plaques were won by Reverend Sister Mary Evita (Academy) and Reverend Sister Mary Timothy (Junior School).

MORE MARRIAGES

Australia had 73,696 marriages in 1957, an increase of 1,916 over the previous year.

FINE FUR

The marten, long hunted for its rich brown fur, is an animal smaller than the ordinary house cat.



Keep a nut securely on a bolt by dipping the bolt into shellac before screwing on the nut. A wrench or pliers will loosen the bond when you wish.

Smart Leather Topper

BY TRACY ADRIAN

This handsome leather coat is a fine topping for skirts and dresses and is equally attractive when worn for sports with a blouse and slacks.

Of bright red, the jacket has a gaily printed beige hopsacking front with two large patch pockets. It is interfaced with a non-woven, crease-resistant wonder fabric which lightly but firmly shapes the outer fabric without adding bulk or weight.

Women's Activities

CHRIST CHURCH W.A.

The Evening Branch of the Woman's Auxiliary of Christ Church met on Monday evening for its last business meeting until the fall.

Mrs. A. Bongard, president, was in charge of the worship service found in the "Living Message," with prayers especially for the people of the West Indies, prayers for the missioner, Rev. Dick Rees.

Mrs. S. Beggs read the verses of Scripture and Mrs. J. Hibbard presided at the piano.

Reports were read by Miss F. Reid, secretary, and Mrs. W. Edwards, treasurer, showing a splendid balance.

Mrs. O. Ragsdale reported on the recent Vestry Council meeting.

Notes of appreciation were read from Mrs. T. Clark, who has left to take up residence in Smith's Falls; from Mrs. Grant, the Diocesan Dorcas secretary, and from Mrs. R. Savary, for the beautiful quilt she received and which she will take with her on her return to Japan where she and her husband are doing missionary work.

It was decided to send a donation to the travelling fund for Diocesan officers and $10 to the Upper Canada Bible Society.

A beautiful, crocheted wool afghan, which was presented to the branch by Mrs. N. Dunning, was admired by all.

A bale was packed to be sent to Rupert House, Moosonee, and refreshments were served by Mrs. A. Swain and Mrs. C. Reid.

The final meeting will take the form of a potluck supper next Monday night.

Chic Adjustable Jewels

By TRACY ADRIAN

Ropes of pearls, so right for the unfitted silhouette, take on new guises of elegance this summer. This pearl sautoir, with its pearl-heaped slide, is a shiftable way to high or low necklace clasping.

A huge boraque pearl topped with a cluster of icy rhinestones adds a lavish finishing touch to each end of the strand. Matching rhinestone clusters give mobility to the double-strand bracelet of milky pearls. At the ears, dramatically long pendants of pearls and rhinestones quiver gracefully.

Trapeze Line Survives With Bumps, Dents

LONDON (AP) — The trapeze line survives, but with hints of bumps and dents.

That's the verdict for British fashion given Tuesday in the autumn collection of Christian Dior's London House. It indicated that ladies will soon be correct to define busts and waistlines slightly.

But the trapeze, a little modified and softened, is still the favorite outline.

Winter coats were wide and short, some stopping at the knees. Some had scarf collars. Neck lines of coats were nearly the shoulders.

Suit jackets were short, some belted. They came with straight, pleated or bell-shaped skirts. The scarf collar appeared again on some suits.

Party dresses were short, with straight or bell-bottom skirts. The colors ranged from blacks through greys and browns, lighted up by a few reds and some emerald green.

CAN'T BLOW OWN HORN

KITCHENER (CP) — It's against the law for newly-weds to draw attention to their bliss by honking horns during processions through city streets, Police Chief John Patrick said Tuesday. Such horn blowing is a violation of city Bylaw 1320. Police received several complaints about horn blowing by wedding processions last Saturday.

Woman Judge Likes Welfare Work in Nfld.

By IAN MACDONALD
Canadian Press Staff Writer

ST. JOHN'S, Nfld. (CP) — Sadie Butt, newly - appointed Newfoundland's first woman judge, has to learn to strike a balance between administering the law and helping people with their problems.

Accepting a position as judge of the family court was a difficult decision, said the attractive welfare worker. "I really didn't feel qualified. I am not a lawyer and I was a little worried about public opinion."

But public opinion apparently is in her favor.

She began teaching after receiving a bachelor of arts degree from Acadia University at Wolfville, N.S. After five years she "found classroom routine rather wearing, although I enjoyed the personal contact with students."

FOUND VOCATION

Office work didn't fit the bill either. "I was reading the paper on my way to work this particular morning and saw an advertisement for a family court reporter.

"Something clicked. I had been doing office work and knew that wasn't for me. But until I saw the ad I hadn't realized what I wanted to do."

Miss Butt says she had been "unconsciously seeking a niche" for a number of years before she joined the division of child welfare in 1944.

The next four years provided a "terrific experience in learning. I learned not only my job but about people . . . It meant a great deal to me."

WIDE EXPERIENCE

Her interest in human relations prompted her to begin training as a welfare officer, and she obtained a post at the St. John's mental hospital where she stayed for 15 years. When Newfoundland entered the Canadian Confederation in 1949, she became eligible for a McGill University mental health grant. She spent one year with the University working in a family agency and another year specializing in social psychology.

She returned to her post at the St. John's hospital before the course was completed, and then was interrupted in her career for several years by illness. Returning then to Montreal, she worked in a day nursery and in 1953

Women's Activities

WELLINGTON — The regular May meeting of St. Andrew's W.A. was held at the home of Mrs. R. Blower with the president, Mrs. G. Upton in the chair.

Mrs. S. Tripp gave the Scripture reading from St. John 16: 1-16. Mrs. Blower substituted for the treasurer, Mrs. Upton, who was unable to be present. The corresponding secretary, Miss Betty Peacock read a thank-you note from Mr. R. Upton Sr. She was also asked to send cards to Mrs. McHenry, the Rev. R. Reunison, Mrs. Hare and the Rev. A. J. Grant.

Mrs. A. Ogilvy, Dorcas secretary, reported the bale had been gratefully received. She also reported eight tablecloths still unsold. These will be put on sale at the next bake sale on June 28th.

The J. A. leader, Mrs. Blower, thanked the members for their co-operation at their recent bake sale. The money is to be used to purchase uniforms for the girls.

The president, Mrs. Upton, gave a few highlights of the 72nd annual conference of the Woman's Auxiliary of the Anglican Church of Canada, Diocese of Ontario, which met at Christ Church, Belleville, for three days.

The next meeting will be held in the town hall where a potluck supper will be served.

At the conclusion of the business Mr. Farr spoke to the group on the subject of "Serenity". The art of meditation is always lost and this caused us regained unless we have peace within ourselves, which includes peace of God, peace of mind and peace of soul, he said.

The meeting was closed with prayer by Mr. Farr after which the group adjourned to the dining room where Mrs. Tripp displayed the work of her G. A. Girls, which won the Diocesan Banner. The scrapbooks are to be sent to local hospitals (Picton and Trenton) and the toys, stuffed dolls, etc., to Plainfield Children's Hospital. A social half hour was enjoyed.

FOISED PRINCESS

Poised and pretty, Princess Desiree of Sweden, poses for a 20th birthday portrait in the Royal castle in Stockholm.

Aussie Girl Visiting Top Jersey Herds

TORONTO (CP) — Rosemary Lucas, 22-year - old Australian, has begun a two-week tour of the Ontario farm scene with visits to two of the top Jersey cattle herds in North America.

Miss Lucas, who last year was judged the best junior farmer in New South Wales, Tuesday visited the R. H. Bull and Son farm at Brampton and the Jersey herd of Marrice C. Beaty of Milton.

Miss Lucas assists her father in the management of a Jersey stud herd at Denneras Farm, Armidale, N.S.W. Many Brampton Jerseys have gone to Australia where they have played a large role in the development of the breed.

Her Ontario itinerary includes a visit to New Liskeard June 10, the District of Timiskaming June 11, 12 and the District of Cochrane South June 13. She will fly from Timmins to Ottawa June 14.

earned her degree as bachelor of social science.

Then she came back to Newfoundland and a post in the city welfare office, a job she held until her appointment as a judge.

Of the problems she encounters in court, she says: "All behaviour has meaning, and delinquency is symptomatic of something wrong in the family."

"We just can't condemn the symptom. We must try to find what's caused the trouble."

EXPLORER'S WIFE

Mrs. Robert E. Peary was the first white woman to winter in the Arctic, in 1891-92 and 1893-94.

DESERONTO

H.S. Pupils Visit Ottawa

DESERONTO — The pupils of the Deseronto High School paid a visit to the Capital City on Friday of last week. They were chaperoned on the trip by their teachers, Mr. R. J. Miller, principal, Mr. F. J. Hallewick and Miss I. Lockie of the staff, and Mrs. H. K. Jackson on behalf of the School Board.

Travelling by bus, the pupils left the school at 6.00 a.m. and arrived in Ottawa about 10.00 o'clock. They first visited the Parliament Buildings where they were introduced to Lee Grills, M.P. for the riding, and then proceeded to the spectators gallery where they could watch the House in action. The Prime Minister, Mr. Diefenbaker was to meet the pupils at noon but could not get away from the House. The students visited the Peace Tower and then returned to be presented by the private secretary of Mr. Diefenbaker.

They then journeyed to the Experimental Farm for luncheon and afterwards toured the farm where many interesting features were explained to the group.

After the farm, they were taken to the Chateau Laurier where they enjoyed a swim in the pool. Then they had two hours to do as they pleased before the bus left for home.

They stopped in Smiths Falls on both ways of the trip and arrived back in Deseronto shortly after midnight. Those of the pupils who had made the trip before stated that this year was the most interesting and instructive yet.

Madoc Junction

MADOC JUNCTION — Mr. and Mrs. James Pollock, Virginia and Lyle, of Wellman's, were supper guests on Wednesday night at the home of Mr. and Mrs. Maurice Clancy and Lloyd.

Mr. Harry Clarke spent last Saturday in Peterborough.

Mr. and Mrs. W. Bay visited at Mr. and Mrs. Clarence Fitchett's on Wednesday evening.

Mrs. A. Andrews, who has been quite ill with a cold, is feeling much better.

Mr. and Mrs. Bruce Stapley and Lisa, Mr. and Mrs. Bryce Philp, enjoyed a motor trip to Ottawa last Sunday to see the beautiful tulip gardens.

Mrs. Maurice Clancy and Mrs. Clarence Fitchett were among the officers and members of Stirling L.O.B.A. No. 655 who attended the L.O.B.A. rally held in the Belleville lodge room on Thursday night.

Mrs. A. Shaw and Mr and Mrs. Berry of Joyceville were visitors on Sunday at the home of the former's daughter and husband, Mr. and Mrs. Carl Bridges. Mrs. Shaw remained for a visit.

Mrs. Maurice Clancy, Mission Band secretary for Bellevile Presbyterial, spoke at Union United Church, near Eldorado, on Friday night. There were three Mission Band groups from nearby churches also in attendance.

Mr. A. Cummins, public school inspector, visited the school here, on Friday.

Mr. and Mrs. Frank Stapley of Stirling called on Mrs. A. Andrews on Sunday afternoon.

Mr. and Mrs. Murney Kirkey visited at the home of Mr. and Mrs. Gordon Burrell on Sunday evening.

Mr. David Madill visited friends here during the week-end and attended Sunday School at Eggleton Church on Sunday afternoon.

"What is so rare as a day in June? Then if ever come perfect days." The country is so beautiful now — the green trees and meadows, the blossoming flowers and the promise of fruit and harvest.

Stirling

STIRLING — Mr. and Mrs. Douglas McIntosh and Mr. and Mrs. Raymond Redshaw and daughter, Judith, Ottawa, were weekend guests of Mr. and Mrs. Sheldon McIntosh, Mill Street.

Mrs. Marion Heath, District Deputy president, and several members of Laurel Rebekah Lodge No. 211, attended the birthday party sponsored by Loch Lomond Rebekah Lodge in Campbellford.

Mrs. Heath and a few members of Laurel Lodge also attended Quintena, Bellevile, when they held their lodge birthday party.

Misses Susan Bush and Joyce Carr spent Thursday with Mrs. Roy Bush, Stirling R.R. 4.

Mr. and Mrs. Duncan Montgomery visited their daughters, Mrs. D. E Hawker and Mrs. W. Dawson, in Toronto last week.

Mr. George Post, son of Mr. and Mrs. Elmer Post, has been awarded a Fellowship valued at almost $3,000 from North Western Univerishty, Evanston, Ill.

ANNUAL CONVENTION

West Hastings District Women's Institute is holding its annual convention in Wallbridge United Church on June 11 under the direction of the president, Mrs. Harry Coulter.

Registration begins at 9.15 a.m. and continues for two sessions. Mrs. C. Gillespie, Grafton, Federated Board director, will present her report.

The River Valley Women's Institute has two members on the program; Mrs. Percy MacMillen, district director and press reporter, and Mrs. George Heasman, courtesy convener.

Born to Dr .and Mrs. Ralph R. Vanderwoort, of Stirling, at Bellevile General Hospital, on Friday May 30, a daughter.

Mrs. Walter Elliott gave an address at Adolphustown on Wednesday at the Lennox and Addington W.A. meeting. The group also visited the United Church parsonage at Hay Bay.

Mrs. A. Packman and Mrs. Herb David, of St. Paul's W.A., attended the W.A. meeting at Picton on Thursday

LEADERS' CONFERENCE

Mrs. Jack Bush and Mrs. Ernest Carr, leaders, of River Valley Mission Band in Bellevile Presbyterial, attended a meeting of Cobourg Leaders Conference held at Hoards Uni-

Bonarlaw

Russia Steals Spotlight With Respect to World Trade at CMA Meeting

MONTREAL (CP) — Soviet Russia Wednesday stole the spotlight during the first day of the annual general meeting of the Canadian Manufacturers' Association — Canada's National Association of Industry.

Questions asked during a discussion period following talks on the dynamics of world trade were related almost entirely to the colossus of the Communist world.

W. R. McLachlan, a Canadian industrialist who returned recently from a tour of the Soviet Union, warned that the Western world will have "terrific battles on its hands" to contain Russia's military efforts and her far-reaching world economic offensive.

Mr. McLachlan, the executive vice-president of A. V. Roe (Canada) Limited, said Canadians must make far greater efforts to understand the Soviet Union and Russia developments.

In his report to a combined luncheon and business meeting, retiring CMA president H. S. Leash described Russia as "a new and dramatic challenger."

"We must assume that Russia is ready, as a matter of deliberate policy, to interfere sensitive markets in many goods and materials without concern for cost of production and marketing in order to take up the excess of Russian resource production which was forcefed because of military demands," said Mr. Lash.

Mr. McLachlan said Russia has such "fantastic resources" of her own that it made little difference whether or not she could obtain raw materials from the Western world.

"Today we are not faced with bows and arrows, guns or even hydrogen bombs. In my opinion we are faced with an economic war—a very unique challenge because two ways prevail.

General Alfred Gruenther, former supreme Allied commander in Europe, told a dinner meeting Wednesday night stressed the importance of free world of "establishing contact" with the peoples of Southeast Asia, where 800,000,000 of the world's population of 2,700,000,000 live.

Dismantling of Peace River Bridge Ticklish Costly Job

VANCOUVER, B.C. (CP) — The Peace River Highway bridge is coming down, rivet by rivet.

It's a ticklish, dangerous and costly job that must be done to make room for a new link in the 1,500 - mile Alaska Highway as this river-crossing point, 10 miles south of Fort St. John in Northeastern British Columbia.

Highway traffic now shares a railroad bridge four miles upstream.

"It's a bit tricky still, but the most dangerous phase was when there was still 1,500 tons of concrete on the deck," says Hoerhaired Joe Bowes, foreman for Dominion Bridge, the firm handling the $800,000 dismantling job.

"If it was going to go, that's when it would have happened."

A force of steelworkers are dismantling the bridge's 3,100 tons of steel.

The job began in February, four months after the 465 - foot north span of the $4,000,000 structure collapsed into the Peace River.

The 2,200-foot suspension span was built in 1942 by the United States Army as one of 133 bridges on the Alaska Highway and it fell when steel cables around the 25,000-ton northern anchor shifted.

The 950-foot centre span and the southern section of the bridge remained standing, and removal of these is expected to be completed about the end of August. Tenders for bridge, expected to cost about $6,000,000 have not yet been called.

Expert crews keep a constant check on the shrinking bridge and an alarm system quickly warns men working along the sleeder girders or scrambling over huge suspension towers of impending danger.

A series of long blasts on a steam whistle means prepare to evacuate; a series of short blasts means evacuate.

THEY GROW 'EM BIG IN ACAPULCO

Findlay Adams is dwarfed by this giant sailfish, which weighs in at 110 pounds. Findlay's brother, Don Adams of Picton, Ont., landed the beauty while on a vacation in Acapulco, Mexico. It is among the top catches of the season in Acapulco.

Racial Issue Key to Election In Rhodesia

SALISBURY, Southern Rhodesia (Reuters) — How much progress should be allowed Negroes in this British African colony was the key issue in today's general election, but few Africans were allowed to vote.

About 85,000 Rhodesians were permitted to take part in the election, but most of the voters came from the colony's 178,000 Europeans. Only two per cent of the colony's 2,256,000 African population were enfranchised.

Thirty seats in the self-governing colony's Parliament were contested by 85 candidates. Prime Minister Sir Edgar Whitehead's United Federal party and the ultra-conservative Dominion party had candidates in all of them.

Whitehead's party is rated with the present rate of political progress for the Rhodesian Africans. However, the Dominion party thinks it's too fast.

SAYS TOO SLOW

But the United Rhodesia party of former Premier Sir Roy Welensky Todd thinks the Africans' progress is too fast. Todd's party had 23 candidates in the race.

Todd was hampered in the campaign by having to mold together a new party. The liberal-minded Todd, who derided he is a liberal in race relations, broke away from Rhodesia, left the United Federal party in February.

In an election eve speech he said his United Rhodesia party would follow a policy to avoid racialism and its harvest of bitterness.

Whitehead told a rally that the United Federal party did not believe that anyone except the people of central Africa had the right to determine their franchise.

Ray Stockil, leader of the white supremist Dominion party, said his group would endorse the control of Southern Rhodesia remained in "civilized hands."

Western Dealers Want Rates on Eastern Levels

OTTAWA (CP) — A fight over the freight rates structure in effect in Eastern and Western Canada on the railways' big lumber trade is expected to come today before the board of transport commissioners.

Western producers want their rates lowered to the eastern levels. Eastern operators want the tolls left untouched, and so do the railways.

The board is studying the problem as part of its general inquiry into the rates equalization directed by Parliament in 1956.

Many types of rates already have been equalized, but some including lumber, coal and ores have been singled out by the railways as the major bearers of particular problems connected with them.

EXTENDS DECISION

Before taking up the lumber case Wednesday, the board reserved decision on the principle of equalizing eastern and western tolls on coal, now lower in the East.

In the lumber case, the Canadian Lumbermen's Association—representing the bulk of producers in Ontario and Quebec—opposed equalization.

Ray Halladay of Toronto, past president of the association, said in testimony that if rail rates in the East were increased, "we would have to look around for other transportation for our lumber."

He said eastern lumber operators now are paying as much as 80 per cent above for transportation of their product.

Must Let Dog See World's Evil Sights

PASADENA, Calif. (AP) — King Boy, a German s hepherd, has to face life today just like the rest of us.

Neighbors complained because the dog's owner, Mrs. Nancy Ewing, 58, blindfolded the animal when she took him for walks. Humane officers told her Wednesday "no more blindfolds."

"I just didn't want King Boy to see all the cruelty that is in the world," Mrs. Ewing said. "I didn't want him to see bad people."

DERBY WINNERS PLAN TRIP TO ITALY

Richer by $58,000 after their horse, Paddy's Point, finished second in 179th running of the Epsom Derby at Epsom, England, Mr. and Mrs. Nick Pelech of Downsview, Ont., plan to pay off their mortgage on their home and take a trip to Italy, where Mr. Peleech served during World War II. Thirteen Canadians shared in a total of $980,000 on the Derby. England's racing classic, which saw Hard Ridden booted home the winner.

Durum Wheat Joins Other Varieties as Surplus Grain

LETHBRIDGE, Alta. (CP) — Durum wheat, a bonanza for Alberta farmers for several years, has joined other varieties as a surplus grain.

Southern Alberta's durum wheat acreage, estimated at about 300,000 acres in 1957, is being cut by as much as 50 per cent this year.

Surpluses, slow markets and the threat of durum wheat under the quota delivery system are the reasons for the drop.

Durum is used in producing macaroni and other products of this type.

Alberta farmers swung strongly into durum production in 1956 when rust hit the macaroni-type of wheat crop in Manitoba. The surplus of bread wheat was affecting south ern Alberta's wheat growers and they were searching for an alternative crop that would have a ready market.

Before that, only 15,600 acres of durum was produced in southern Alberta.

Within two years, the durum acreage increased 10 - fold in southern Alberta. Farmers in southwestern Saskatchewan also started production of durum and by 1956 there was a small surplus.

A big crop in almost every durum - producing area of the world last year created a big surplus problem.

On Jan. 1, 1957, the Canadian wheat board announced that because of the surplus, durum wheat would be placed on the same basis in the quota grain delivery system as bread wheat and other cereal grains.

However, durum wheat is still a $2-cent-a-bushel premium over comparable grades of northern wheat. The delivery quota now is eight bushels an acre, considerably better than bread wheat.

These factors have kept the production of durum from falling even lower.

Stratford Festival Is Sued By Actor Seeking $100,000

TORONTO (CP)—The Stratford Festival and its general manager, Michael Langham, are being sued by Montreal-born actor Michael D. Kane for $100,000 in damages for alleged slander, wrongful dismissal and breach of contract.

A writ was obtained Wednesday in the Supreme Court of Ontario by Kane's lawyer, Norman Meakes.

The writ said the actor left the cast of Hamlet in which he had rehearsed the role of Laertes for five weeks, three days before the play opened last year. Kane said he complied with a request from the director to voluntarily resign. This year he was engaged to give a series of poetry readings in the festival, he said, but they were subject to later verbal arrangements had been made before witnesses that he had been cut out of the advance to launch publicity.

The writ said Kane left the cast of Hamlet it was announced the actor had been miscast. Wednesday he said he could have refused to withdraw but Langham would have been unhappy.

Langham when told of the writ said he is sorry Kane should feel that way but not of such action. All accusations of the writ were "untrue and entirely false" except the fact Kane was let out of the play before the opening.

"In my opinion he would have done the Canadian reputation more harm if he had played Laertes," Langham said.

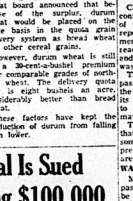
He said payment had been made to the actor to do research on the poetry readings on the understanding final arrangements would be left until the festival's financial position had been studied.

Before coming to Stratford, Kane had worked for the Columbia Broadcasting System of New York and had appeared in several off-Broadway plays.

Kane said he intends to go ahead with the poetry readings on his own, probably opening in a Stratford restaurant June 24.

PIONEER LABORATORY

The first physics laboratory in Canada was established in 1878 by James Loudon at the University of Toronto.



"Jest a Second"

"I'm looking for the sort of dress I wouldn't approve of other women wearing."

Five Strikers At Galt Plant Are Arrested

GALT (CP) — Five strikers at the strikebound Stauffer - Dobbie textile plant here were arrested Wednesday and charged with besetting. All were later released on bail after police declined to give their names.

Police said that the men were picked up during various fracdents in which strikers attempted to stop trucks from entering the plant. One striker, a member of the United Textile Union of America, Local 1441 CLC, was reported to have been injured when a truck ran over his foot.

More than 200 employees walked out of the plant May 26 when union officials said the company, one of the largest towel manufacturers in Canada, tried to increase work loads after workers were awarded a nine-cent-an-hour pay increase by a conciliation board.

Property Bail Of $20,000 Is Forfeited

TORONTO (CP) — Toronto businessman Gerald Bradshaw, 37, said today he "jeopardized my future" by putting up $20,000 property bail for a friend who failed to appear for trial in Sudbury Wednesday.

Tael driver Angus (Pete) Peterson, alias George Patterson, of Spanish, Ont., failed to appear on two breaking and entering charges and the bail was ordered forfeited by Judge J. M. Cooper.

"It's rough when it happens from a friend," Mr. Bradshaw said today. "I've known Peterson for eight or 10 years and I've always known him as a good guy. What's happened now I can't begin to realize."

Mr. Bradshaw said he knew the time he put up the bail that Peterson had skipped bail in Sudbury and had put up by other persons — on other charges. "That's why it was so high this time."

The charges Peterson was to face in Sudbury involved both in connection with breaking at clothing stores in Sturgeon, 75 miles west of Sudbury. There are three other charges outstanding against him.

Mr. Bradshaw said today three houses he owns, "my sole source of income," have been placed in escrow. He said he has offered a $5,000 reward for information leading to Patterson's arrest but "whether they'll take the attitude now if he's caught, I don't know."

Church Meeting Urges Study Of Automation

CHATHAM (CP) — The London conference of the United Church of Canada Wednesday heard a report which described unemployment in Canada as having reached "alarming proportions" and representing heavy economic waste. The report urged that the federal government to enlarge its commission on unemployment and consider the effects of automation on displaced workers.

The conference also warned that workers should be given some help to move from depressed areas to areas of greater employment.

WANT TESTS ENDED

More than 400 delegates also passed a resolution urging steps be taken to avert dangers threatening mankind. They supported the stand of the general council of the United Church for an end to nuclear bomb testing.

Rev. W. L. Armstrong of Windsor said Canada should take an active part in leading the world to total disarmament.

Professor L. H. Cragg of McMaster University in Hamilton said laymen should carry "more of the load" in the government of the United Church in conference and national levels.

Prof. Cragg, chairman of the United Church board of men, said laymen in the Church are "given a big job to do spiritually as lay clergy, in the court of the general assembly and local boards." But the laymen had not upheld this responsibility and needed to be reminded to take a greater part in the government of the United Church.

Holstein Calf Weighed 185 Pounds at Birth

WOODSTOCK (CP) — A six-day-old belt calf will go into the record books as the largest Holstein calf to be born and to live in Canada.

The Holstein Friesian Association of Canada at Brantford has confirmed that the calf, which weighed about 185 pounds at birth, is the largest it knows of. Average weight of a calf at birth is between 90 and 100 pounds.

The calf, still nameless, was born Thursday on the farm of Leen Donker in East Zorro Township, northwest of here. The owner, a purebred Holstein, is also very large. The calf was conceived through artificial insemination.

Largest Holstein calf in the association's records is a 190-pound animal born in Nova Scotia in 1951. Both calf and dam died.

Second largest, 173 pounds, was born in Ingersoll in 1933 and survived.

Mr. Donker said the calf "is thriving and growing daily." But since he runs a dairy farm the animal is of no use to him and he said he will ship it to a slaughter house when it reaches 250 pounds.

14 Years Ago With Canadians In Centre of British Front

Invasion Flotilla Sailed

By DAVE McINTOSH
Canadian Press Staff Writer

"May the Lord be on your shoulder—till we meet again on the Rhine."

That words were Gen. Eisenhower's as he spoke to Canadian troops May 29, 1944.

The next day the move to the marshalling areas in southern England began. By June 3 the 3rd Canadian Division and 2nd Canadian Armored Brigade were embarked in their landing ships in waters about the Isle of Wight.

Then, June 6, the assault flotilla, the Canadians in the centre of the British front, plunged toward the Normandy shore, many of the men sick from nervousness and the heaving seas.

A tremendous naval and air bombardment struck the German Atlantic wall but did not breach it.

The assigned Canadian front was between four and five miles long and the names of French villages in this sector still ring in Canadian Army annals: Courseulles - sur - Mer, Bernieres - sur - Mer, St. Aubin - sur - Mer, Graye-sur-Mer.

The Germans had four main strong points on the Canadian front and their fire could be like new wheat Canadian infantrymen at a rippling in the beaches.

Only the company commander and 26 other units of B Company, Royal Winnipeg Rifles, survived the attack on the western and most strongpoint—three concrete casements and a machine - gun emplacement. But the company carried out its mission.

Other beach defences had to be taken by the costly process of bombing and assault. In some cases, the engineers were delayed and could not clear beach obstacles for the exposed infantry. The 1st Hussars lost eight tanks before they reached shore.

None of the final objectives was reached on D-Day, in the Canadian sector or any other. The Canadians had hoped to get about 10 miles inland by nightfall. Two troops of tank: made it but had to withdraw.

Nearly 14,000 Canadian troops were landed D - Day. Of this force, some 950 officers and men became casualties. Of these, 359 were killed in action or died of wounds. The 1st Canadian Parachute Battalion which dropped into Normandy the previous night had an additional 75 casualties.

The contrast with the Dieppe raid in August, 1942, is remarkable. Of a force of nearly 5,000 Canadians landing at Dieppe more than 3,300 became casualties. More than 900 died.

The Canadians — and the Allies — had learned the Dieppe lesson.

Canadian forces had waited 44½ years to get back to the mainland on Fortress Europe. When the supreme moment came on the beaches of Normandy, they were not found wanting.

For many, it was their first and last battle. For others, it was only the beginning of a fierce attack up a path which led through Caen and Falaise, across the Seine, over the lowlands into the Netherlands and, as Eisenhower had promised, to the Rhine.

Eisenhower and Macmillan Now in Role of Bystanders

By ED SIMON
Canadian Press Staff Writer

The president of the United States and the prime minister of Britain meet in Washington Friday at a time when the decisive events affecting the western alliance leave them in the unprecedented role of bystanders.

The political fate hangs on France and General de Gaulle. The economic future is being decolored by the American recession. And, for the moment, there appears to be nothing concrete that President Eisenhower and Prime Minister Macmillan can hope to do about either.

De Gaulle is busy trying to solve his own problems in Algeria, bidding for the support of the army colonels and right-wing settlers who brought him to power for policies which may not be to his liking. He must assure himself of their loyalty before he can begin to deal with international relationships.

The U.S. slump, unpredictable in its depth and length, is of course, affecting the economies of countries in the American trading orbit. If it had been in Eisenhower's power to end it, it would have done so long ago.

Yet Macmillan and Eisenhower have had to spend all their time together playing golf and speculating about depression and the local business cycle. Their basic problems may have been deferred by the present uncertainty but they have not disappeared.

Their diplomats continued to hammer out the manifold details of the summit before a firm commitment can be made by Khrushchev becomes possible. De Gaulle, if he survives, will have to be consulted before decisive steps can be taken. But the preparatory work can continue.

There need to clarify the position of both Britain and the U.S. in relationship to the European common market remains urgent. Even though France's political turmoil has temporarily halted the market's development.

At the president and prime minister confer, talks are going on in London aimed at commonwealth economic experts, laying the groundwork for the conference of commonwealth finance ministers in Montreal in September. Macmillan hopes the result will be Commonwealth content to Britain's participation in a European free trade area, working in harmony with the six common market powers.

In principle, both the free trade area and the common market aim to lower tariff barriers. Meaning and, with reservations, that of Commonwealth preferences ended. But negotiations have been protracted and many problems remain unsolved.

A more recent addition to the Eisenhower-Macmillan agenda is the renewed pressure by Khrushchev for the lifting of barriers to East-West trade.

Britain has long urged relaxation of the strategic embargo, as the initiative of the U.S., on the export to Iron Curtain countries of goods considered of possible strategic value to the Russians in the event of a new war.

SEE RUSS TV

LIMASSOL, Cyprus (Reuters) Television viewers here Wednesday night pitched up a program from Moscow, more than 1,500 miles away. They saw a soccer game and a film.

SAVES MOTHER FROM RUNAWAY CAR

Mrs. Marie Gleason-Beard escaped death from drowning only inches from the quiet waters of her new home, Cozy Cabin Beard, left, 30, of Army Central Command, Oakville, Ont. He pulled his mother through the open window of their runaway car seconds before it sank in Sixteen Mile Creek, Oakville. Mrs. Gleason-Beard, unable to drive or swim, was alone in the car when her son saw it roll down an incline into the deep creek. After snatching her from the car he swam back to shore with her. He recently recovered from a severe back injury suffered in a plane crash in Manitoba. His wife died a year ago and his brother cares for his children, Robert and Rosemary, whom she holds, right.

WELLINGTON

Explorers Group Entertains Mothers, WMS

WELLINGTON — The members of the Wellington United Church Explorer group entertained their mothers and the members of the W.M.S. at their annual mother and daughter banquet on Monday evening in the Sunday School room.

The tables were attractive with their bouquets of spring flowers and bountifully laden with delectable foods provided by the mothers.

Seated at the head table were Mrs. Ralph Preston, chief councellor and her daughter, Dolores, Mrs. Donald Baxter, Bloomfield, the guest speaker, Mrs. K. Hubbard and Mrs. Nelson Smith, counsellors, Miss June Singleton, chief explorer and her mother Mrs. E. Singleton, Miss Suzanne Roberts, keeper of the treasure chest and special guest, Mrs. E. Bond; Miss Noreen May, keeper of the treasure chest and her mother, Mrs. Harold May and Miss Melinda MacDonald, assistant to the chief explorer and her mother, Mrs. Harry MacDonald. The Rev. and Mrs. Poulter were unable to attend the banquet.

After grace had been sung several toasts were proposed. Councillor Hubbard proposed the toast to the Queen after which God Save The Queen was sung. Susan Alyea proposed the toast to the mothers. The response was given by Mrs. Harold Adams. The toast to the explorers was made by Mrs. John Watt and Ronnie Claire Ross replied. At the completion of the meal the explorer group re-affiliated with the Women's Missionary Society and the treasure chest was dedicated. Taking part in this ceremony were J. Singleton, Suzanne Roberts, Melinda MacDonald, Noreen May and Mrs. Barton Cronk, who received the treasure chest on behalf of Belleville Presbyterial of the W.M.S.

Mrs. Preston introduced the guest speaker, Mrs. Baxter, of Bloomfield, who used a quotation from the Saruin Primer upon which the girls could pattern their lives. She also told of Mary Slessor who, despite great obstacles, became a missionary in Africa. Appreciation for her fine message was expressed to Mrs. Baxter by Mrs. Preston.

The chief counsellor and her two counsellors then made the star awards to the girls. The first star award which an explorer receives is the first red star. This indicates that the girl has learned the explorer motto, purpose and prayer. This award was made to Pauline Burt, Connie Allison, Judy Roberts, Patsy Allison, Linda Laver, Brenda Jandrews and Faye Middleton. To achieve their second red star the explorers must learn the first verses of their opening and closing hymns. Brenda Adams, Marilyn Monroe, Carolyn Pettingell, Linda Laver, and Janet Watt, received this star. The first Blue Star requires that the explorer learn the three verses of the opening and closing hymns and be regular in attending expeditions and Church and Sunday School. Brenda Marshall and Nancy MacDonald were presented with their first blue star, Linda Thompson, Linda Denard, Ronnie Claire Ross, Catherine Smith, Susan Alyea, Linda Smith, Suzanne Roberts, Linda Gibson learned the Ten Commandments to be eligible for their second blue star.

The first gold star is awarded when an explorer proves she has been trying to live up to the purpose and understands the work of the explorer group. This award had been previously given to Margaret Watt.

The girls who receive the second gold star have proven to be good explorers and have completed their explorers and will be ready to go into C.G.I.T. in the fall. Their final achievement is winning of the Beatitudes. Jane Singleton Margaret Wett, Melinda MacDonald, Gloria Tuttle and Noreen May received their second gold star.

The purpose of the explorer group is to provide girls between the ages of nine to twelve with the meaning of a Christian life and an understanding of other people of the world. Their missionary expeditions this year took them to Japan.

On behalf of the W.M.S. and the mothers, Mrs. W. Hamel expressed sincere thanks to Mrs. Preston, Mrs. Smith and Mrs. Hubbard, for the splendid manner in which they have provided leadership for such a fine group of girls.

REFUSES TO ACCEPT

LONDON (Reuters) — Britain Tuesday night refused to accept Iceland's decision to extend the fisher's offshore fishing limits to 12 miles from four Sept. 1. A government declaration said it would be Britain's duty to prevent any "unlawful attempt to interfere with British fishing vessels on the high seas."

Gore

GORE — A number of neighbors gathered at the home of Mr. and Mrs. Smith Brown, 2nd concession, and gave them a kitchen shower, on Friday evening.

Mr. and Mrs. Brown lost their home and contents by fire in January and now have rebuilt and are living in their new home. A pleasant evening was enjoyed seeing the house and visiting.

All are glad that Mr. Brickman has recovered from pneumonia and is able to be out again.

Mr. Bonter and daughter, of California, were recent callers on Mr. and Mrs. A. H. Pulver.

Mr. Don Spencer and Mr. Winston Pulver enjoyed the Holstein bus trip on Saturday.

Mr. Anabel Townsend, Toronto, spent several days with his parents, Mr. and Mrs. Frank Townsend.

Mrs. and Merrett Daboll and son Chr: spent a week with her parents, Mr. and Mrs. Ralph Redner.

The community was well represented at the music festival held at the town hall, Amelisburg. Three schools took part, Centre, Victoria and Huff's Island, under the supervision of their music teacher, Mr. Long.

Miss Betty Redner, of Port Credit, little Miss Elizabeth Gerrits and brother, Douglas, of Ottawa, spent the weekend with Mr. and Mrs. D. K. Redner.

Members of the Girls' Club, the Misses Patsy Townsend, Sandra Green, Beverly Pulver and Donna Spencer, attended Achievement Day in Picton on Saturday.

Mr. and Mrs. Everett Price of Selby spent Wednesday with Mr. and Mrs. Melvin Pulver.

Mr. and Mrs. Gerald Trounce and family are enjoying a motor trip to the United States.

Centre W.I. catered to a teachers' banquet in Belleville, Friday evening.

Mr. and Mrs. Winston Pulver, Beverly and Howard, spent Sunday with her mother, Mrs. Humphrey, and John.

HIT BY BALL

ST. LOUIS (AP) — The St. Louis Cardinals lost a customer for Tuesday night's baseball game. He was hit by a batted ball before he could buy a ticket. Louis Scher, 75, was nearing the Busch Stadium ticket office when he was hit on the left hip by a ball knocked out of the park in pre-game batting practice. He was treated for minor cuts at a hospital.

Thomasburg

THOMASBURG — A delightful "Mother and Daughter" banquet took place in the vestry of the United Church last Wednesday evening, when the members of the Thomasburg C.G.I.T. group entertained their mothers.

Members of the W. A. served the dainty repast and the mothers of the girls were each presented with a corsage as a memento of the occasion.

Mrs. Charles Mills, of Harrowsmith, Ontario, who has been visiting her sister, Mrs. Ed. Thompson for the past two weeks, returned home on Friday last. Mrs. Thompson accompanied her home.

Mr. Jack Vance, son of Mr. and Mrs. W. R. Vance of Perth, and former resident of Thomasburg, graduated on May 29, in the honor B.A. course at Toronto University. He is also a prizewinning graduate in history.

Mrs. Marion Gray is also to be congratulated as she received her B.A. Degree, also from Queen's University, Kingston, at the recent convocation in Grant Hall.

Mr. and Mrs. Lorne Mumby, of Moira, have purchased the home in the village owned by Mr. Earl Adams and vacant since the death of his mother, Ellen Adams, some months ago.

It is understood that Mr. Adams, who is an employee of Morton's Garage, Carrying Place, will dispose of the household articles at an auction sale in the near future.

Mrs. Mumby is the former Merle Carleton and she and her husband and family are expected to be moving to the village about July 1st.

Captain and Mrs. Ted Boldt and family, of Picton, were weekend guests of Mrs. Boldt's parents, Mr. and Mrs. George Dyson at the parsonage, here.

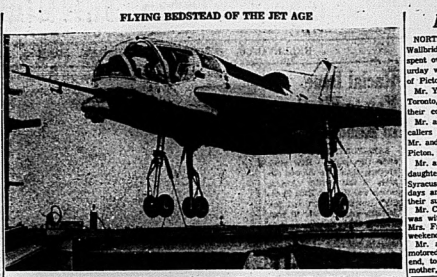
FLYING BEDSTEAD OF THE JET AGE



Tethered in a special gantry for safety, the short SC-1 vertical takeoff jet plane makes its first successful flight from Belfast, Ireland, with chief test pilot Tom Brooke-Smith at the controls. The SC-1 is a direct development of the "Flying Bedstead." It has five Rolls-Royce RB 108 jet engines, four of which are in the centre of the fuselage. The fifth engine is in the tail of the fuselage to provide forward flight.

Northport

NORTHPORT — Miss Ruth Wallbridge and Miss Marie Foster spent over Friday night and Saturday with Miss Florence Welsh, of Picton.

Mr. Y. B. Geddis and Byron, of Picton, spent the weekend at their cottage, here.

Mr. and Mrs. H. S. Smith were callers on Sunday afternoon of Mr. and Mrs. W. Hughes, Route 1 Picton.

Mr. and Mrs. Leo P. Reedy and daughter, Kathleen, and Pat, of Syracuse, N.Y., spent several days and over the weekend at their summer home, here.

Mr. Colin Kotchapaw of Toronto, was with his parents, Mr. and Mrs. Fred Kotchapaw over the weekend.

Mr. and Mrs. Robt. Greenwell motored to Toronto for the weekend, to be with Mr. Greenwell's mother, who is ill.

The girls prepared the food, assisted by the leader, Mrs. E. E. Carter and they deserved the whole hearted support of the community as the training in social graces as well the religious training that they receive will be much appreciated in later life.

Mrs. W. H. Elliott is spending some time with her mother, Mrs. Fred Laverner of Napanee, who is in poor health at present.

YOUR NEWSPAPER SERVES

The story behind the headlines and the copy in a newspaper is spelled S-E-R-V-I-C-E! This newspaper, and every other paper in the country is a "public service" — it is informative, educational, humanitarian and civic-minded. Dad turns first to the news and editorials; Mom likes fashion stories and recipes; the kids like the comics. There's something for everybody in every phase of everyday life! Fundamentally, your newspaper serves you with information — whether in the news columns, or in the ads! Truly your paper is a "service centre" . . . the meeting place and the marketplace of the community.

KHRUSHCHEV BLASTS TITO

Soviet Premier Nikita Khrushchev (right) waves as he leads a Soviet delegation from their plane after arrival in Sofia, Bulgaria. They are attending the annual convention of the Bulgarian Communist party, noted for its loyalty to Moscow. Khrushchev criticized the "splitting activities" of Yugoslav Communists in a fresh blast against the national communism of Marshal Tito.

RAWDON

Bride-to-Be Feted With Linen Shower

RAWDON — On last Wednesday evening Mrs. Clarence Scott entertained 35 ladies in honor of Miss Marilyn McConnell, a bride of this week.

Mrs. Herbert Smith and her daughter, Miss Eleanor Smith, were co-hostesses. Guests were in attendance from Belleville and Wellmans.

Mrs. Milford Wrightman was mistress of ceremonies for a short program and spoke briefly.

The sing-song of favorite tunes was led by Mrs. Marguerite McMullen with Mrs. Mac Sharp as pianist. Mrs. Herbert Smith read a humorous article. Romantic contests were conducted by Mrs. Garth Joslin and Mrs. Percy MacMullen.

Guests signed their names on a pretty pink organdy band apron and each contributed their favorite recipe. Miss Gail Scott read the story of "The Wishing Well" in Virginia.

Miss Eleanor Smith read an appreciative address to Marilyn after which Marilyn opened the lovely gifts drawn from a decorated "well" by a old oaken bucket. Gifts included lace tablecloth, cotton sheets, flannelette sheets, pillow cases, and towels.

Marilyn expressed thanks for the party and gifts and invited the group to visit her in Belleville.

Refreshments were served by the hostesses.

NOVELIST SHOOTS SELF

YOUNG HARRIS, Ga. (AP)—Byron Herbert Reece, 40 - year-old Georgia poet and novelist, was found dead of a gunshot wound Tuesday in his camous apartment at Young Harris College. Dr. C. R. Clegg, college president, said the writer had been in poor health for years and recently had become despondent. Reece was author of The Ballad of the Gones, a book of poems, and of two novels, Better a Dinner of Herbs and The Hawk and the Sun.

Wooler

WOOLER — Mrs. Paul Newman of Sault Ste. Marie, is spending a few days with the Rev. and Mrs. Newman and family.

Mr. and Mrs. L. Taylor, of Pontiac, Michigan, are visiting her father, Mr. Arthur Rutton, also her mother who was taken to Toronto hospital on Saturday. All hope for her a speedy recovery.

Mr. and Mrs. Robert Read and Mr. and Mrs. Terrance Read motored to Montreal Friday to meet Mr. Robert Read's brother, from England, whom he has not seen for 50 years.

Mrs. A. G. Austin left Monday to spend a few days with her daughter, Mrs. Russ Wilkins and Mr. Wilkins and family in Renfrew.

Mrs. E. M. Wessels of Bowmanville, is visiting Mr. and Mrs. Herb Wessels.

Mrs. Alma Dawson of Trenton, was a guest of her mother, Mrs. L. N. Easterly on Sunday evening.

Mr. and Mrs. Swan and little son of North Bay, spent a few days with her mother, Mrs. D. Bull.

Wooler Mission Band held its June meeting Sunday morning during the morning service. Mrs. J. Putnam and Mrs. N. Crosby were in charge. Christine Crosby took the roll call and Jimmy Nelson took the offering. Slides were shown on life in Japan.

The Wooler Scouts with their leader, Jack May, attended the Scout Jamboree at Presqu'ile Point during the weekend.

Rylstone

RYLSTONE — The Women's Association of Rylstone United Church catered to Williams' community sale at Hoard's Station on Monday night.

Mr. William A. Stewart is spending some time with his daughter and her husband, Mr. and Mrs. Gerald Barnum, and children, at Pethrick's Corners.

Richie Meikleiohn is a patient at Sunnybrook Hospital in Toronto, where he is taking treatments.

Mr. and Mrs. Fred Barnum spent a few days last week in Toronto where they attended the wedding of their grandson.

Mr. and Mrs. Earl Trumble, Tommy, Peter and Christy were Sunday visitors with her brother and his wife, Mr. and Mrs. Russell King at Lakefield.

Mr. and Mrs. Clarence Thomson and family were Sunday supper guests of his sister and husband, Mr. and Mrs. Floyd Anderson and Beth.

Mr. and Mrs. Wilfred Spencer, Patsy and Sherry were Sunday supper guests of Mr. and Mrs. Phillip Sheaff, Campbellford.

Lorne Anderson of Peterborough, spent the weekend with his mother and brother, Mrs. Lily Anderson and Edon.

Mr. and Mrs. Gerald Chaplin and children of Indian River, were Sunday visitors with her parents, Mr. and Mrs. Wesley McGrath.

Wayne Miller of Trenton, is visiting his grandparents, Mr. and Mrs. James Stewart.

Mr. and Mrs. Chester Meikle-john called on Mr. and Mrs. E. Jones on Sunday evening.

SYRIANS, EGYPTIANS CLASH

AMMAN, Jordan (AP) — The Jordan government radio Monday said an Egyptian army officer named Mustafa Alaw was killed and several others hurt during a clash with Syrian officers in a border town near Aleppo. The clash, date not reported, occurred after the Syrians criticized President Nasser of the United Arab Republic, the broadcast said.

SATELLITES PLUNGE

CAMBRIDGE, Mass. (AP)—Explorer III, the second U.S. army satellite, is losing about 15 miles altitude daily and is expected to plunge to its end late this month, the Smithsonian Astrophysical Observatory estimated Monday. Astronomer Jack Slowey of the Smithsonian estimates the rocket-Russia's big sputnik III may plunge to its end in November.

Marmora

MARMORA — Mr. and Mrs. Charles Buskard, of Deloro, left last week for a trip abroad. They expect to visit England, Holland, France, Germany and Belgium.

The "Ten Commandments" shown at the Plaza Theatre all week was well attended, showing to a full house at practically every show.

Mrs. Clarence McCoy and Mrs. Kea Empey, of Marmora, attended the convocation exercises held at the University of Toronto, on Wednesday, when their brother, Douglas Leach, of Peterborough, received his degree of Bachelor of Applied Science in Civil Engineering.

Mr. Cecil Mah, manager of Richard's Restaurant, here, has returned home from Elliot Lake where he opened a new restaurant a few weeks ago. He states he is well pleased with its progress.

Miss Carol Campion has joined the office staff of A. M. Rayburn Insurance, in Tweed. Miss Campion will work on a part-time basis until the closing of Tweed High School where she is a student in the commercial class.

Mr. and Mrs. H. D. McManus and family, of Scarborough, spent the weekend with her parents, Mr. and Mrs. L. B. Green.

Mr. and Mrs. Charles Calcarski, of Geneva, Ohio, spent last week with Mrs. H. Auger and other friends, here.

Little Miss Susanne and Gail Meehan, of Peterborough, spent the week with their grandparents, here.

Mr. and Mrs. Fred Cole spent a few days the past week with their son, and wife, Mr. and Mrs. Chester Cole, and Helen, of Vanzickle.

Mr. and Mrs. Ron McGarvey spent last weekend in Toronto.

Dr. Robert and Mrs. Shatford spent the weekend in Montreal.

Mr. Thomas Pearce and Mr. Reg. Pearce spent the weekend with relatives in Toronto.

Marmora Cub Pack, under the leadership of Mrs. Gil March, attended a district field day in Norwood on Saturday and received their athletic badges.

...Ponds

...(CNS) — The Cana... ... of Rivers and ... public ... round up its ... year, ending Wed. after a ... Tuesday that ... calling for tax ... for interest on mem... ... bers ... ...

Pained sergeants must have moaned over these crooked lines of palace guards. The sergeants' only consolation is that the wavering lines were in rehearsal and not the real thing. The guards are preparing for the full dress parade on June 12th when the Queen will review them in London.

Former Chaplain In RCAF Heads Presbyterians

TORONTO (CP) — The new Moderator of the Presbyterian Church in Canada is a soft-spoken, Irish born minister who at 71 has been an editor, author and RCAF chaplain.

Rev. John McNab of Toronto was unanimously elected Wednesday night at the church's general assembly. He succeeds Right Rev. A. D. MacKinnon, Gaelic-speaking minister from Cape Breton.

Dr. McNab is retiring this year as editor of The Presbyterian Record, the Church's monthly magazine which has grown from a circulation of 23,000 to 82,000 since he took office in 1946.

Early in 1940, Dr. McNab became an RCAF chaplain and was the first principal chaplain appointed in that branch of the services. He was made chief chaplain overseas in 1942.

He interrupted his studies at Queen's University to serve overseas in the First World War. At the end of the Second World War, Queen's conferred on him the honorary degree of doctor of divinity.

Dr. McNab holds the degrees of master of arts (Columbia), bachelor of sacred theology (Union) and bachelor of divinity (Queen's).

SERVED AT MIDLAND

He has served as a minister of Knox Church, Midland, Ont., and High Park Church, Toronto, and has been a frequent contributor to secular and religious journals, and is the author of several books.

Thanking the assembly for electing him by acclamation, Dr. McNab said:

"One of the things that gratified me most, whether the nomination had been accepted or not, was that every presbytery that I have ever lived in was kind enough to nominate me for this office."

Dr. MacKinnon told the 400 persons at the induction ceremonies that fear is the "supreme sign of the times in which we live" and Christianity the world's supreme hope.

He said the church needs more trained and consecrated men and women to lead its work.

HISTORIC LAKE

Ontario's Lake Simcoe was discovered by Champlain in 1615, but named after Governor Simcoe who died in 1806.

Financial Aid Abroad Totals $4,300,000,000

OTTAWA (CP)—Canada's post-war financial assistance abroad has passed $4,300,000,000, the external affairs department said Wednesday.

More than half this amount was in outright grants, the remainder loans which have been partly repaid.

The figure of $4,300,000,000 covers the period up to March 31, 1958, and does not include many scores of millions of dollars for foreign aid in the current fiscal year.

It also excludes contributions for membership assessments in international agencies and programs. Omitted, for instance, is an amount of $310,000 for Canada's contribution to the United Egypt for the 1957 and 1958 calendar years.

Biggest single amount—$1,567,000,000—represents military aid for Canada's European partners in the North Atlantic alliance. Largest single loan, $1,185,000,000, went to the United Kingdom soon after the Second World War.

Other reconstruction loans were made to Belgium, Nationalist China, Czechoslovakia, the Netherlands, France, Indonesia, Norway and Russia. The Soviet Union is among countries which have fully repaid loans from Canada.

LOFTY SCHEME TO BEAT RECESSION

A Toronto car dealer has come up with a novel wrinkle to sell cars during the You Auto Buy Now campaign. He has hired a flagpole sitter who is armed with 10 mystery words. Anyone talking to the sitter who happens to mention one of these words will get $200 off on the price of a new car.

Softball Scores

Two games were played in the peewee section of the Belleville Minor Softball Association last night with one-sided victories recorded in both fixtures.

Lee Grills Dairy whipped the Rotary Club by a 19-6 score in one game. In another Mott's Lumber thumped the visiting Shannonville boys 18-2.

South Hastings Baseball League

Latta pounded out 13 hits on their home diamond last night in a six-inning affair to defeat Read 8-3 in a South Hastings Baseball League fixture.

The winners plated three in the first, two in the second and wrapped it up with four in the fourth frame. Read tallied three times in the second and added singletons in the third and sixth.

Stan Reid hurled the victory, limiting the Read nine to five hits. He blazed third strikes by eleven batters, while walking four.

Hanley handled the Read mound chore, tagged for 13 hits, while fanning four and walking five.

Gary Little led Latta at the plate with three base hits, while Gary Grove had a double and a single. Frank Ray and Parks each singled twice. Stan Reid doubled while O. Glass, Rollins and Carlton helped with singles.

Callery topped the Read batters, slamming a bases-empty homer in the sixth after singling in an earlier frame. G. Brennan, H. McMann and K. Brennan also hit safely.

Pontiacs Whip Hamilton 14-8

TORONTO (CP) Lonz Brazier Pontiacs defeated Hamilton Tuscaroras 14-8 Wednesday night in an Ontario Lacrosse Association senior game.

Hamilton played the game under protest, claiming Lonz Branch dressed three players who are the property of the Hamilton club.

The players are Baldy Main, Art Brazier and Jim McKinnon, all of whom live in Dundas and joined the Long Branch club when it appeared Hamilton would not have a senior entry this year.

Bruce Sears scored three goals for Long Branch and Daune Owen and Jake Rawson each scored twice. Morley Kells, Bill Allen, George Kapasky, Main, Brazier and Fleurie Tomchishen scored the others. Ross Powless scored three times for Hamilton, Bill Loran twice and Garry Smith, Roy Smith and Jake Bonberry once each.

Hearts Whip Alberta 13-2

EDMONTON (CP) — Heart of Midlothian walloped Alberta All-Stars 13-2 Wednesday night in an exhibition soccer game before 4,200 fans.

It was the sixth straight victory for Hearts, champions of the Scottish League First Division.

Hearts led 4-0 at halftime.

John Hamilton, Hearts outside right, scored three times.

Angler Hooks 41-Pound Salmon

CAMPBELLTON, N. B. (CP)— Rod fisherman Ken Adams of Campbellton battled 80 minutes but came up with the fish—a 41-pound Atlantic salmon.

Veteran anglers of the Restigouche River say the salmon, which was 45 inches long and 23 inches in girth, is the biggest landed there in the last 10 years.

Adams hooked the fish with a silver grey fly.

The world record is 79 pounds, two ounces, set at Tanselv, Norway, in 1928. The Canadian record is 55 pounds, set at Grand Cascapedia River, Que., in 1939.

Two Anglers Learn Hard Way Not to Bother Moose Calf

William W. Bittle, fish and wildlife officer of the Department of Lands and Forests, stated in the latest district report that two Toronto anglers learned the hard way on May 4 not to cuddle a newborn wild animal.

The men were trout fishing in Bear Creek in Effingham township when they spotted a newly-born moose calf. When they walked over to pet the calf they were intercepted by the angry mother, who promptly charged. Dropping their fishing equipment the men took flight, one shinnied up a tree but the other man ran headlong into a bull moose which was watching the proceedings.

The cow stared up on her hind legs and tried to shake the man out of the tree. Where the other man found safety is not known. Other than receiving a good scare, the men were not injured.

CLAIMS 10th TITLE

TORONTO (CP) — A veteran lady golfer, Miss Ada Mackenzie won her 10th Toronto and district ladies golf championship Wednesday with a 36-hole score of 168. In record place was Norren Laing, 1955 winner, who tied Miss Mackenzie with an 80 Tuesday but slipped to 82 Wednesday.

Leafs Win Two From Richmond; Royals Beaten

By THE ASSOCIATED PRESS

Toronto Maple Leafs are driving hard for top place in the International League, a spot now held by their arch rivals, Montreal Royals.

The Royals Wednesday night lost their sixth game in seven starts, bowing 3-1 to Columbus while Toronto took a double bill from Richmond, 1-0 and 6-5 in 10 innings. The results left Toronto one game behind Montreal. Third-place Rochester stayed two games out, losing to Havana 7-4. Last-place Buffalo edged Miami 9-8 in 11 innings.

Whammy Douglas held Montreal to four hits, three by Sandy Amoros, who bagged a single, double and triple. Columbus is only four games out of first place, having won five of their last six games. The win was the ninth this year for Douglas.

Hector Rodrigues' two - run, bases-loaded single in the 10th inning of the nightcap provided Toronto's winning margin. An unearned run in the fourth inning made the Leafs' Jack Crimian a winner over Bill Bethel in the opener. Cletis Boyer's 4th homer for Richmond in the ninth helped force the extra inning.

TWICE IN TENTH

Toronto scored twice in the 10th and the Vees, who have lost five straight, notched one off Sonny Dixon and Crimian in the 10th before the latter retired the last two men with the bases loaded. Bobby Dalgreco's error on Rocky Nelson's single allowed Nelson to go to third and he scored on Archie Wilson's single to end up matters in the first game.

Rochester blew an opportunity to tie Toronto for second place. The Sugar Kings pummelled Lynn Lovegrush for 10 hits, including home runs by Borrego Alvarez, his 11th, Julio Davalillo and Lois Ysrael in eight innings. Alvarez batted in four runs, with a two-run triple finishing Lovegrush.

George Risley's pinch-hit single with the bases loaded in the 11th inning gave Miami's Satchel Paige a loss. Buffalo's John Taitouris was the winner.

SETS CANADIAN MARK

VANCOUVER (CP) — Paul Enoch of Toronto set a Canadian record in the 4,000-metre pursuit at the British Empire Games cycling trials Wednesday night to establish himself as a leading contender for one of the two vacant positions on the team. Enoch's time of five minutes, 12.4 seconds was one-tenth of a second better than the mark he set Monday night.

Fans Charge Soccer Referee

TORONTO (CP) — A local police officer was sent to restore order at a Metropolitan Toronto League soccer match Wednesday night after an estimated 300 fans charged referee Kelly Haupt at St. Clair Stadium.

The fans became incensed when Haupt awarded a penalty kick to Belfast United in the last minute of a hotly - contested match against Udinese. The shot was converted to give Belfast a 4-3 win.

The referee was escorted safely to his dressing room by league officials. The fans left the park after a police officer appeared on the scene.

TO SPONSOR TRACK MEET

WATERLOO (CP) — The Waterloo Legion has announced it will sponsor the Eastern Canadian track and field championships at Waterloo College's stadium Aug. 30.

Manager Shows Team How; Walks in Run

By THE CANADIAN PRESS

Playing - manager Dan Lewandowski of Hamilton Beavers knows how to give his Senior Intercounty Baseball League team a graphic lesson.

The only trouble Wednesday night was that the lesson was: How not to pitch in relief.

Lewandowski came in after Mike Anderson loaded the bases in the bottom of the ninth against Guelph Merchants with the score 5-5 and two out.

He walked pinch - hitter Art O'Conor to force in the winning run and allow the elkrehants to move into a fourth-place tie with St. Thomas Elgins.

MOVE INTO FIRST

In a second game, Oakville Oaks moved into sole possession of first a half-game ahead of the idle Kitchener - Waterloo Dutchmen with their seventh straight victory, 6-5 over Galt Terriers.

John Clark, though tagged for 10 hits, went all the way for Guelph for his second straight victory. Anderson, fourth, Hamilton pitcher, was charged with his first loss.

Hal MacDonald's two - run homer was the big hit for Guelph. Lewandowski had three hits in as many trips for Hamilton.

Oakville's Dan Shepherd came on in the ninth with the tying and winning runs on base and fanned two of three Galt batters to preserve Jack Roberts' third victory in as many decisions.

Charges Umps Get Suspended

CHICAGO (AP) — Shortstop Chico Fernandez of Philadelphia Phils was suspended two days and fined $20 Wednesday for charging into umpire Augie Donatelli during Tuesday's Philadelphia-Chicago Cub game.

The action was taken by National League President Warren Giles.

Fernandez bumped into Donatelli while protesting his being called out on a close play at first in the seventh inning. The Cubs won 12-4.

'Bums' Happy; Get Ravine Deal, Podres Junks Slump, Braves Coming

Sport Slices

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, *Sports Editor*

Times "is" changing. Saw our first softball-till of the season the other night when the Point Anners, who with another pitcher or two and a couple of home run clobberers, could take on the Milwaukee Braves, spot 'em six runs and win going away, trusted Bob Temple's Bobcats tills so soundly they loaded like jaiced-up pretzels on a suds binge.

This Ox Point aggregation flashed enough power, at least the night we saw them play, to launch a Vanguard. They have plenty of balance, have augmented their mound corps with a right-hander, Al Cashaw, a big star, board clearer with a poker face, but who can park the pellet with amazing accuracy across the plate, while their hitting leaves nothing to be desired unless they fall into the well known slump.

Manager Bill Sisk and Coach Phil Lott have built themselves a powerful squad, one that should go a long way down the playdown trail if they are not knocked off in their own league. To date they have won five straight victories and appear to have an edge in all departments on the rest of the loop squads.

It looked like old times in reverse to see the "Ole Clucker" watching the games from the sidelines, instead of whooping it up along a base line in a coaching capacity. The "Ole Clucker" was recognized by his faithful henchman, Micky Mreau, but where, oh where, was La Peever? Somebody said a slight waterfall trickling down the Chaver Ravine out in Los Angeles had its source in the Peever eyeline, but Peever was not available to deny or support the story.

Back in Point Anne for the moment. Bill Shaw is on the move arranging, he hopes, for strong out-o'-town squads to pay exhibition games against the Point Anne Braves. He mentioned Charlie Justice and Norm Bagnall and an Oshawa squad coming here which, in this corner's opinion, would form excellent softball fare for the faithful. On falling that, get the honorable Ike Judd, he of ex-Peterboro rough fame and whose mound duels with the ageless Pat Maracle are softball history. Now there would be a drawing card, if ever there was one.

On the other hand there are roving bands of journeymen softball teams in and around the countryside looking for dates. Some of them are colored squads, others the paleface type. All of them are looking for guarantees and fat cuts at that. Some of the squads are "name" teams, others just starting to crash the barnstorming circuit. In this department's opinion, a hands-off policy would be the best. Fans nowadays never, to our knowledge, went for strange squads in a big way and an extra large crowd would be necessary to satisfy the guarantee likely to be demanded. There are strong softball teams in the nearby districts which could take the Point Anners the opposition they desire, and the fans a highly pleasing round of the popular summer pastime.

* * *

The popular Ballargeon Frees will have their work cut out in Memorial Arena Friday night when they face for the first time the fearsome twosome of Wild William Longson, the Texas longhorn, and Feerosnus Freddie, he of the Australian Atkins clan. Brother, what a pair that duo makes. The Ballargeons will have to be on their best behavior for that it goes without saying. Their opposition will be the "bad boys" of the worst order. Then there is the redoubtable Indian champion, Dara Singh, who makes his Belleville debut against the motion picture $64,000 question star, Wee Willie Davis, while Al Korman opens the show against toughie Jan Gotch.

* * *

R. I. P.

The sports community was shocked to its depths the other day with the untimely passing of Bill Greatrix in his 33rd year. Bill was one of the better sportsmen of the city and as a hockey player always gave his best. He knew he would never be a world beater but Bill put his whole heart and body into the game he loved so well and as a junior player ranked with the best in the city.

He will be specially missed by his old buddies of the Tools Holway Junior squad which has never actually broken ranks and to this date holds annual reunions in Memorial Arena at certain times of the playing season. They get together, guys like Doug Green, Bobby Green, Harry Wardhaugh, Junior Don Barrett, Huck Reeves, Bill Holway and others whose names slip our minds, but not forgetting the old maestros, Tools, himself, who always gets in the swim and dons the blades just to be around with the boys.

Bill was one of the "life's of the party" at the reunion held in the arena last winter and none foresaw at that time the tragedy that was destined to overtake him. He was a likeable chap, one very popular with his teammates and in fact all with whom he was associated. He was an unselfish player, not a "hog" and his play had the sparkle of brilliance in many a hard-earned victory. This department along with the sportsmen of the city extends sincere condolences to the family in the loss of a loving son and father.

Johnny Blanks Redlegs 3-0 For First Shutout of Year; Tigers Lose Harvey Kuenn

By THE ASSOCIATED PRESS

What more can happen to Detroit Tigers? Now they may have lost Harvey Kuenn, their leading hitter, for a spell, and they've plunked back into the American League cellar.

Kuenn's injury and the dip to eighth place came in the same infamy Wednesday night. The one-time all-star shortstop who has switched successfully to centre field this season, suffered severe gashes near his right eye when he crashed into the wire fence in Baltimore on a futile try for a two-run homer by Gus Triandos that gave the Orioles a 6-4 victory.

Kuenn, 27, leading tar injury hobbles Tigers with a .311 batting average, underwent plastic surgery. He appeared to escape injury, but a doctor cautioned to say whether Kuenn would be able to play Wednesday.

Calenge White sox, meanwhile, ended their losing streak, downed Boston, the New York Yankees, 7-2. Second-place Kansas City, 7½ games behind the Chicago leaders, downed Washington 5-4, and Cleveland beat Boston 7-5 in 10 innings.

WRAPPED IT UP

Triandos, who drove in three runs, wrapped it up for the Orioles with an 11 No. 9 homer in the seventh after Kenn had broken a 2-2 tie with a two-run single in the eighth. Triandos' blow came against loser Don Ferrarese and against loser Dick Stuttdivan 1-3 that ended a string of 22 scoreless innings for the White Sox, who haven't had a hit in the last nine. It also cut a string of 24 consecutive innings for the Yankee staff, with Whitey Ford and Bobby Shantz shutting out the Sox Monday and Tuesday.

Yogi Berra and Mickey Mantle homered, the former for eight, for the Yankees, while Don Mueller's two-run pinch single cracked a 2-2 tie in the seventh for the Sox' first victory against New York this season.

DRIVES LAST TWO

Mike Baxes had four singles in four trips and drove in the As's last two runs at Washington. Jack Urban won his fifth, with relief help, while winless Al Cicotte lost his third for the Senators, who had won four in a row.

The Indians ended their losing string at four, overhauling a 3-0 Boston lead and then coasting to the 10th on Billy Harrell's two-run homer, three singles, a wild pitch and an error. Hoyt Wilhelm won his second in relief, although giving up a two-run homer to Dick Gernert in the 10th. Dave Sisler (4-2) lost it in relief.

GETS ZONE FINAL

BUENOS AIRES (AP) — The United States Lawn Tennis Association has agreed to hold the American Zone final of the Davis Cup tennis competition in Buenos Aires, the Argentine Tennis Association said Wednesday. Argentina plays the West Indies June 11-13 and, if victorious, meets Israel June 18-20. The United States must face the Canada-Cuba winner.

Things haven't looked this promising for Los Angeles Dodgers in a long, long time. They've gained voter approval for the Chavez Ravine deal, Johnny Podres has junked his shamp with a three-hit shut - out and those crowd - collecing Milwaukee Braves are coming to town.

The Dodgers are still in the National League cellar, but they're only 4½ games out of third place in the Wednesday night 3-0 victory over Cincinnati. It was the first shutout of the year for Podres, who let the majors with his last season, and gave the Dodgers their first victory over the Redlegs in six tries since last Aug. 21.

It also was the first shutout inning up in the Cincinnati, with its easy corner in left field.

The Braves, again drawing a near - capacity crowd at Seals Stadium, move into a one-game lead over second-place San Francisco with their 9-3 victory over the Giants in 11 innings. St. Louis whipped Pittsburgh 6-3 and gained a virtual tie for third with idle Chicago. The Cubs bombed Philadelphia 13-5, while Ernie Banks belting his 15th and 16th homers, high in the majors.

DRIVES IN TWO

Bob Buhl drove in two Dodger runs with a 420-foot triple to centre and a solo homer, his seventh, highlighted a five-run inning meanwhile, twice retiring Willie Jay and sacking the Redlegs over the last 4 1-3 innings. The young lefty, brazen 3-2 Cincy in the 2nd inning, but struck out seven and walked but one.

Johnny Klippstein (2-2) lost it, giving up four of the Dodgers' seven hits before a crowd of 17,979 that boosted Coliseum attendance to 1,235,235 for dates.

A pinchhit single by pitcher Warren Spahn climbed victory for the Braves of losing pitcher Stu Miller (1-3). Down 7-1 after the Giants got to Lew Burdette in the ninth as Wes Covington belted a three-run homer on the first pitch from Sherry Robertson's slide—who was sold to Phoenix a few hours later.

The clubs swapped two - run spurts in the 10th. The Giants got theirs after two were out on consecutive pinch homers by Hank Sauer and Bob Schmidt off winning reliever Ernie Johnson (2-0).

BANG HOMERS

Stan Musial hit his 10th homer of the season and topped a two-run inside-the - park homer for the Cards against Don Rudolph. Lindy McDaniel won his third straight, with relief help, since coming to the Cards from the Cubs May 20. He yielded seven hits, three by Frank Thomas, who hit his 14th with none on.

Each of Banks' home runs came with a man on for the Cubs, his second an inside-the-park belt as the Phils' Richie Ashburn crashed into the centre field wall. Moe Drabowsky won his third with 6 2/3rds innings, relieving two-run homers by Solly Hemus and Rip Repulski, while Robin Roberts lost his sixth in 11 decisions.

Fights Last Night

By THE ASSOCIATED PRESS

West Jordan, Utah—Joe Miceli, 147, New York, knocked out Jay Fullmer, 140, West Jordan, and Albuquerque, N.M. — Jimmy Martinez, 138, Glendale, Ariz., outpointed Jim Hergerle, 138, St. Paul, 10.

They'll Do It Every Time

By Jimmy Hatlo

Dodgers Get Chavez Ravine But It Was No Landslide

LOS ANGELES (AP) — The Los Angeles Times wrote a happy ending today to one of the zanier cliffhanger tales of modern times: Where will baseball's transplanted Brooklyn *bums* play ball in the West?

Climaxing an incredible hunt for a permanent park in their new home, the Dodgers learned late Wednesday they are headed for the site they dreamed of, Chavez Ravine.

Voters are sending them there by a slim but sufficient approval of a city-Dodgers contract that provides 209 acres in the ravine for a 32,000-seat stadium costing up to $12,000,000.

A slow count of votes from Tuesday's California primary election kept the issue in doubt. But by the time vote counters quit for the night Wednesday there appeared no question that the Dodgers are in.

The latest count: 2,350 of 4,519 precincts: Yes 176,055, No 159,023.

HE'S DELIGHTED

Dodger boss Walter O'Malley, called a press conference and said:

"I'm delighted."

He hoped to be able to start work on the new stadium in a month, he said.

Mayor Norris Poulson commented:

"The integrity of the city has been upheld by the voters."

Comic Joe E. Brown, who led the fight to get a ballot box with for the bonds, said: "It was a hard hard fight, but it was worth it."

Said councilman John Holland, leader of the anti-contract faction:

"The present vote trend is very disappointing. I am not admitting yet that the yes votes will be in the majority."

Might the "anti" faction take the case to the courts? "We have a right to appeal. But I can't say now that this will be done."

The city would spend up to $2,000,000 grading the site and would get Dodger-owned Wrigley Field, former Pacific Coast League park, in return. Opponents call the deal a giveaway.

Champs Play Against Field

TORONTO (CP) — Champion golfers Stan Leonard and Betty Stanhope play against a field of thousands this weekend.

For a dollar golfers can put their skill over 18 holes against the champs on any golf course in Canada. And if their net score is less than the champs' gross they get on I Beat the Champion card from the Royal Canadian Golf Association.

The dollars finance a junior golfers' development program across Canada. Leonard, of Vancouver, the Canadian Professional Golfers Association champion, and Miss Stanhope of Edmonton, Canadian ladies titlist, play their round Saturday on the $50,000 Mayfair course.

This national golf weekend competition begins at dawn Thursday and ends Sunday. Last year in Ontario it raised $3,734 for juniors.

Joe Miceli KO's Fullmer In 3rd Round

WEST JORDAN, Utah (AP)—Joe Miceli gave young welterweight Jay Fullmer a rude welcome to big-time boxing Wednesday night, serving an automatic third-round knockout.

Miceli weighed 147 to Fullmer's 140. It was the first time former 28-26, whom Miceli finished him middleweight champion Gene off. He later blamed nervousness. Fullmer's 21-year-old brother had and Miceli's experience as the lost in his 14 professional starts. main factors for his loss.

Fullmer was wary of Miceli's left hook from the start. He had reason to be. The 29-year-old New Yorker, a veteran of 96 professional fights, calmly waded into Fullmer's brief rushes in the first two rounds, watching for an opening.

He found it in the third and belted Fullmer down three times. Under Utah boxing rules the third knockdown in a round calls for an automatic knockout. The time was 2:09.

Fullmer was ahead on points, 30-27, 29-26, when Miceli finished him.

NEW IMPORTS FOR ARGO

TORONTO (CP) — Two players from New York state's Cortgate University have been signed by Toronto Argonauts of the Four Football League. Gus William Usinger, rated as a tackle at 211 pounds, picked letters in football, track and crosse during his stay at Colgate. Tackle Ralph Antone was captain of the Colgate team last season.

HOW'S YOUR I.Q.?

TODAY'S INSURANCE PROBLEMS ANSWERED

$10,000 = $50,000

QUESTION—

In the case of a $10,000 Blanket Position Bond, and a total personnel of five, what is the maximum liability of the surety?

ANSWER—

Under any conceivable circumstances the amount would be $50,000.

Draft Bites Rangers Deeply, Lewicki, Creighton, Evans 2 Others Go in Weird Deal

MONTREAL (CP) — The Na-ace how it worked out, there were indications they planned to seek further benefits.

In addition to the personnel changes through the draft, there were two sales announced during the three-day affair.

GETS TOD SLOAN

Chicago purchased defencemen Dollard St. Laurent from Montreal and forward Tod Sloan from Toronto. No prices were announced.

The Canadiens, before the draft meeting got under way, announced plans to sell or trade Olmstead to the Leafs, but Toronto acquired the veteran left-winger via the draft.

A mixup developed at the draft meeting concerning Expos Chicago, through a complicated deal, had 10 assign a number to Montreal. The Hawks got swapping material to Expos, but are unable to move him without asking waivers from the other clubs.

And one of the other clubs might want him. The issue was at a stalemate when the meeting closed. But it appeared someone would succeed, forgetting that the defenceman was subject to waivers.

The owners-players agreement provides:

After the NHL schedule opens, exhibition games must be agreed to by the players involved. Profits, apart from those destined for charities, will be shared by the players.

Disputes over contracts will be referred to the league president.

The NHL players Pension Society will benefit by the owners matching player contributions.

No players can become free agents but long-service players can have grievances reviewed.

It also incorporates provisions for expenses involved in training camp living and moves to other clubs.

DUTCHIES SIGN QUARTER

KITCHENER (CP) — Kitchener-Waterloo Dutchmen of the Ontario Rugby Football Union Wednesday announced the signing of quarterback Frank Marenghette, last year with Windsor AKO of the junior ORFU. Marenghette, five - foot 9 11 and 190 pounds, also plays defensive halfback. He now is pitching for Galt Terriers in the Senior International Baseball League.

EXPECT 30 WRESTLERS

TORONTO (CP) — More than 30 wrestlers from Canada and the United States are expected to take part in the first Canadian Greco-Roman wrestling championship here on Saturday, Joseph Enyues, a director of the sponsoring Hungaria Sport Club, said Wednesday competitors are expected from all Canadian provinces and from Ohio.

Champ Ousted From British Amateur Golf

ST. ANDREWS, Scotland (CP) — Defending champion Reid Jack was eliminated from the British amateur golf tournament Wednesday, but Britain's Walker Cuppers continued to play strongly.

Jack, a 34-year-old Scottish stockbroker, was defeated 3 and 2 by John Penrose Jr., of Miami, Fla., in the morning's third-round match. Penrose's win made him a favorite, and a large crowd followed him through his afternoon fourth-round match which he took 3 and 1 from Bob Ross of San Francisco.

Joe Carr of Ireland, Walker Cupper who won this tournament in 1953, also moved into serious contention, defeating J. W. Howard of Kenya 1 and 0 in the third round and stopping James Walker of Scotland 1 up in the fourth.

Other British Walker Cuppers who won their way into today's fifth round were Gerald Micklem, Phil Scrutton, Michael Bonallack and Guy Wolstenholme.

The tournament goes into the quarter - finals this afternoon after the morning's fifth round. The 36-hole semi-finals will be played Friday and the finals Saturday.

POOR U.S. SHOWING

The strong showing of the Walker Cuppers and the generally poor display by United States entries so far have featured the play over the Old Course.

Only one other American — Tim Holland of New York — survived Wednesday's play. Seven were eliminated. Holland played four-under-par golf on the first nine holes in his third-round match to defeat Dr. R. F. Richards of England, 5 and 3.

He pulled a tendon in his afternoon match, but limped through to beat Charles Lawrie of Scotland, 1 up.

DRAFT SWEEPS MINORS UP TO MAJOR LEAGUE

Leaf goalie Ed Chadwick will have someone to share his net-minding duties with this fall following the drafting of Johnny Bowers, above, from the Cleveland Barons at the annual interleague draft now under way in Montreal. The 33-year-old player in the AHL last season, Bowers, voted the most valuable player, had been sought-by Leafs earlier but he declined their offers. A former goal keeper with New York Rangers, it is understood he will be offered a two-year contract with Leafs.

Mays, Musial Get Awards

CINCINNATI (AP) — The National League, starting its player-of-the-month awards, will give two trophies for May — one to Stan Musial of St. Louis Cardinals and one to Willie Mays of San Francisco Giants.

Musial and Mays finished in a tie in the balloting among 39 sports writers and broadcasters who cover the National League teams daily.

Each received 18 votes for the May award. One each went to Frank Thomas of Pittsburgh Pirates, Daryl Spencer of San Francisco Giants and Ken Boyer of St. Louis Cardinals.

On the Tracks

TORONTO (CP) Nearctic, the brilliant sprinter owned by Mr. and Mrs. E. P. Taylor of Toronto, Wednesday set a Canadian record of 1:09 4/5 for six furlongs as he won the $7,500 Jacques Cartier Stakes at Dorval Woodbine.

It was the fourth consecutive stakes victory for the four-year-old colt which hasn't been defeated this season.

The former record of 1:10 was set at Lansdowne Park in Vancouver by Broad Bend on July 1, 1956.

Nearctic was backed off the boards and paid only $2.30 to win. Holiday Ted, a 25-to-1 shot in the five-horse field, finished second. Top Turn was third.

Tim Tam Odds One to Ten In Belmont

NEW YORK (AP) — Tim Tam probably will be one of the shortest priced favorites in the history of the Belmont Stakes when he goes after a triple crown grand slam Saturday. But the Calumet Farm colt isn't getting what happened to Pensive in 1944.

With most of his Kentucky Derby and Preakness rivals scattered far and wide in search of easier pickings, it appears the Calumet colt will have about six opponents in the $100,000-added three-year-old classic.

The early odds listed Tim Tam at 1 to 10 to capture his ninth straight race for Mrs. Gene Markey of Lexington, Ky.

In 1944, however, Calumet's Pensive missed a triple crown as the 1 to 2 favorite.

"You get a lot of rude awakenings in this business," said trainer Jimmy Jones, who finally announced he had decided to stick with jockey Ismael Valenzuela. Valenzuela was selected to ride Tim Tam after his regular booster, Bill Hartack, broke his leg a week before the derby.

ONLY EIGHT

Only eight horses have won the Belmont after a crown. The last was Calumet's Citation in 1948.

Fourteen years ago Conn McCreary guided Pensive to a 4½-length victory over Broadcloth in the Derby. The combination clicked again with a three-quarter length Preakness triumph over Platter.

In the Belmont, William Ziegler, Jr's Bounding Home — who hadn't started in either of the other triple crown events — caught Pensive in the stretch and scored an amazing half-length victory.

Yesterday's Stars

BY THE ASSOCIATED PRESS

Pitching: Johnny Podres, Dodgers — ended his four-game losing slump with a three-hit shutout in 3-0 victory over the Redlegs, striking out seven, walking but two and twice retiring 11 in a row.

Hitting: Mike Baxes, Athletics — hit four singles in four trips scoring in a three-run third and driving across the last two runs in a 5-4 victory over the Senators.

Campy Gets Coaching Job With Dodgers

NEW YORK (AP) Roy Campanella says he has been promised a coaching job with Los Angeles Dodgers by president Walter O'Malley when he recovers from the paralysis which resulted from injuries suffered in an automobile accident in January.

The 36-year-old star catcher, in a television interview Wednesday from his hospital room, said he first discussed a coaching job with O'Malley several years ago.

In a recent visit to the hospital O'Malley renewed the offer, Campanella said.

Campanella said right now all he was interested in was getting well and going home to his family.

He now is able to sit in a wheel chair with the help of a brace that supports his neck, fractured in the accident.

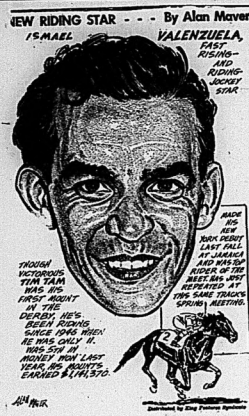
No Down Payment! Many Months To Pay!

NEW RISING STAR - - - By Alan Mayer



At The Park

FIRST SHOWINGS
"LET'S ROCK"

Starring Julius La Rosa in his first screen role, Columbia Pictures' "Let's Rock" opens tonight at the Park Theatre for its first showing. Phyllis Newman, co-stars and Conrad Janis and Joy Harman are featured along with such recording artists as Paul Anka, Danny and the Juniors, Roy Hamilton, Wink Martindale, Della Reese, the Royal Teens and the Tyrones, Written by Hal Hackady, "Let's Rock!" is a Columbia-Foster production produced and directed by Harry Foster.

IN TECHNICOLOR
"RETURN TO WARBOW"

Jay Silverheels, better known as "Tonto," the companion of the Lone Ranger, is to be seen in Columbia Pictures' "Return to Warbow," Technicolor outdoor feature starring Phil Carey the second feature at the Park Theatre. Silverheels plays the role of an Indian blinded by a shot from a stagecoach robber. Born on the Six Nation Reservation near Brantford, Ontario, Silverheels is pure Mohawk. He has appeared in scores of films.

At the Belle

NATALIE WOOD HEADS CAST OF COLOR FILM
"MARJORIE MORNINGSTAR"

Carolyn Jones, who plays Martha, Marjorie's jazzy girl friend in Warner Bros., "Marjorie Morningstar," filmization of the Herman Wouk best selling novel which arrives today at the Belle Theatre, has frequently been mistaken for Bette Davis both in-sofar as her potent screen quality is concerned and as to her appearance which certainly is that of young B. Davis. The comparison has been made so often that when Carolyn met Miss Davis for the first time, the senior actress swayed up to her, wrung her hand firmly and barked, "I'll bet you're tired of it all." Carolyn assured Bette that she wasn't tired of it, simply flattered.

Carolyn has appeared in more than thirty television shows and her film roles also have been notably diversified, as for example, a blackjack dealer in "Three Hours to Kill," the most beautiful woman of her generation in "Saracen Blade," a dipsomaniac in "Shield for Murder" and the most beautiful woman in Paris in "Desiree." The real turning point in her career came when she performed the role of the alluring existentialist in "The Bateleur Party," a performance that immediately compared to the aforementioned Bette Davis' "Of Human Bondage."

"Marjorie Morningstar," produced in WarnerColor by William Sperling also stars, in addition to the Misses Wood and Jones, Gene Kelly, Claire Trevor, Ed Wynn, Everett Sloane and Marty Milner.

With Russia

Bigger the Artist Exchange Brighter the Peace Chances

BY BOB THOMAS

HOLLYWOOD (AP)—Sol Hurok, who qualifies as the Jules Stein of Dullas of show business, came to town plumping for more cultural exchange with Russia.

"The more we exchange artists with the Communists, the better our chances for peace," said the bullet-shaped impresario. "The success of the cultural exchange proves that John Smith and Ivan Speanovich are interested in friendship."

Hurok is the No. 1 man in the new program. At present he is sponsoring the United States tour of the sensational Moiseyev dance troupe. He has sent or is sending his own artists to Russia for tours—such names as Marian Anderson, Jan Peerce, Leonard Bernstein, Isaac Stern, Roberta Peters and Nathan Milstein.

The reception of our performers there is just as sensational as the reaction to the Moiseyev dancers," Hurok declared. "It is a great thing for both countries."

There can be no doubt of the success of the Moiseyev company. It will play to a half a million customers in an 11-week tour, and there is no evidence of any empty seat at any performance.

COULD RUN FOR YEARS

"We could run for six months in the Madison Square Garden or three years in a regular New York theatre," Hurok says.

Hurok has more Russian delights up his voluminous sleeve. On Nov. 5, he brings the Berioska company of 65 women dancers to New York's Broadway Theatre. He is also importing a noted pianist, violinist and Lieder singer from Russia and next spring will see the invasion of the great Bolshoi Ballet.

The Russian-born Hurok, who arrived at Ellis Island in 1906 with a $1.50 stake, has journeyed to his native land four times in the last year to book talent. With his fine eye for potential attractions, he can spot stars that the Russians have underestimated.

Manchester City Wallops Frisco

SAN FRANCISCO (AP)—The Manchester City soccer team of England walloped the San Francisco All - Stars 9-1 Wednesday night before 15,000 fans at Kezar Stadium, winning the fourth game in their tour of the United States and Canada.

Manchester was led by three goals by outside right Colin Barlow.

BACK WITH TICATS

HAMILTON (CP) — End Hal Newton has signed for his second season with Hamilton Tiger-Cats of the Big Four Football Union. The 24-year-old native of Windsor joined the club in 1956 following a season with London Lords of the Ontario Rugby Football Union senior series.

AT THE PARK — Julius La Rosa, left, and Paul Anka, Canada's top rock 'n' roll star, are shown in the new Columbia Pictures release, "Let's Rock," opening tonight at the Park Theatre. Also on the same program is Technicolor "Return to Warbow" starring Phil Carey and Catherine McLeod. Both attractions are first showings.

THEATRE FEATURE TIMES

Record Hops Can Determine If New Song Will Be a Hit

Editor's note: The author of this column is star of the Dick Clark Show and host of American Bandstand on the ABC television network.

BY DICK CLARK

NEW YORK (AP)—Take two round, shiny, black records. Ten weeks from now one will be the biggest hit in the country. The other will be just a sad memory for the artist who made it.

How do you tell which is which?

A musical show becomes known for the quality of music it plays; if you can spot hit material far enough in advance — ideally, before release—and then "give it a price," your audience comes to expect good records of you, and grows.

But you can't make a hit out of a tune that hasn't the potential; all you can do is bring it before a bigger audience and make more people dislike it. And spotting incipient top-tenners is a full-time job.

THREE MAIN SOURCES

Aside from your own fallible intuition, you have three main sources for tips on future hits—mail, personal contact and, most important of all, music. It may seem unusual for a network performer to play local record hops in and around Philadelphia, at scale or gratis.

But I'd willingly pay out my own money to go on running these affairs for teen-agers, and not as a matter of charity, either. May I never get so smug that I stop doing hops; that's where I find out what records are going to do what.

We usually arrange for the 500 to 1,100 teen-agers who will be attending to submit requests in advance. A big chunk of these requests will always be for the current hits. But if I spot a sizable minority requesting a brand new record, one that's only been played on the air once or twice, I know I'm on to something.

Fox Found Rabid

RICHMOND, Ont. (CP)—Farmers in this area southwest of Ottawa were warned Wednesday to keep dogs and cattle under supervision after a fox killed near here was established as rabid.

The baby fox was believed one of a den of foxes some of which may be rabid and loose in the area.

The outbreak is regarded as part of a pattern which originated in the western provinces and now is moving through eastern Ontario.

HOAD WINS

OAKLAND, Calif. (AP)—Australian tennis ace Lew Hoad beat Pancho Gonzales in a rugged 3-5, 12-10, 6-3 pro match Wednesday night.

Hoad trails Gonzales 36-48 in their national tour.

CHOOSE SITE

LUGANO, Switzerland (AP)—The executive committee of the International Skating Union voted Wednesday to hold the 1959 world figure skating championships in Colorado Springs, Colo., Feb. 24-28.

Harness Racing

EXETER (CP) — Valuable Jerry Lee, owned by Reg McGee and Son of Goderich, stepped off the fastest mile of the Western Ontario harness racing season Wednesday in the Exeter Turf Club's first meeting of the year.

Driven by Ron McGee, Valuable Jerry Lee sped around the Exeter oval in 2:08 2-5 in the second heat of the 2.22 event. The time was one second off the track record of 2:07 2-5.

First money in the free-for-all was split between Sharon Council, owned by Dominion Motors of Owen Sound, and States Attorney, belonging to William Harvey of New Hamburg.

In the free-for-all event, Ray Campbell of Allan Craig was fined $10 by track stewards who ruled, he interfered with States Attorney on the first turn while driving Argyel Tommy.

HULL, Que. (CP) — Lusty McKinney, from Owen Sound, driven by Vic Eatman, won the first race, the Mile D trot, at Connaught Park race track Wednesday.

Other Ontario horses won the three harness races except the seventh, taken by a Quebec entry.

The second race went to Peach King from Westboro, Ont., with Dorothy K from Caledonia, Ont., second. The third and fourth went to Ottawa pacers. The fifth was won by Miss Angus from Jasper, also with Vic Eatman driving. Princess Pinkey from Caledonia, Ont., was second and True Pal, Cornwall, third.

The sixth race went to Cindys Lass, Gilford, Ont., the eight to Vogue direct, Haliburton, and the ninth, to Lee Mac, Penetang.

...rological Forecast

By CARROLL RIGHTER

Friday, June 6th

Aries (March 21 to April 19) — A.M. excellent for going on a little jaunt with interesting companion for data, profit and cultural purposes, not possible here this P. M. make plans for the future and spend a quiet evening at own fireside, devoted to others.

Taurus (April 20 to May 20) — An ideal day to contact banking or industrial experts and work out some plan by which to increase your present income, prestige. P.M. fine for having a whale of a time with your interesting comrades and colorful set.

Gemini (May 21 to June 21) — Here to study paper and other printed matter most carefully today in order to pick up some analyzed, amazing idea that you can put in operation to your great early future benefit. A backer will also come into the picture for you.

Moon Children (June 22 to July 21) — Put your practical affairs with others persons in better general condition than they are now. But be sure to give credit where credit is due, plus generosity of spirit. P.M. a great time for relaxation and favorite pleasures. Rejoice.

Leo (July 22 to Aug. 21) — Listen carefully to any ideas for co-operative efforts with associate, husband, wife, boom pal, as they are bound to be very fine. Co-operation instead of radical changes is the keynote today. Then your financial affairs are ameliorated.

Virgo (Aug. 22 to Sept. 22) — One of your closest ties will give you the key to greater security and less hard work today. See that household chores are done early. Then it is possible to deal with friends in such a way that you have a delightful time.

Libra (Sept. 23 to Oct. 22) — Morning is fine for going to hairdresser, barber, tailor or whichever outlet gives you more poise, savoir faire. Then be charming. Go to associate, fellow workers and be magnetic, amorous, sweet.

Scorpio (Oct. 23 to Nov. 21) — This day's activities are best focused at home, putting all in order, getting ideas and suggestions from closest ties. Through real co-operation, plans for a much greater security can be formulated. P.M. have fun, be happy.

Sagittarius Nov. 22 to Dec. 21) — A.M. is excellent for learning, widening your horizons, whether through reading, TV, or conversations with learned persons. Be broadminded, thoughtful. Tonight, enjoy yourself at home and be most entertaining.

Capricorn (Dec. 23 to Jan. 20) — This A.M. is ideal for putting abode in such order that it is wonderfully lovely, bright and cheerful. Also, make repairs of value. Then you can visit, or invite relatives, pals, business people, and be at your ease.

Aquarius (Jan. 21 to Feb. 19) — Fine morn for errands, visits, telephoning. Pick up loose ends, complete what has been started, get information you need, or support. P.M. get budget in order, see that real estate is in good condition. Work happily.

Pisces (Feb. 20 to March 20) — Spend the morning doing those things that are a joy for you, but to which you seldom have time to devote. Then in afternoon, attend to civic or functional matters. P.M. dress to the hilt and do the town.

If your child is born today— The fine and active child born today is the bit puzzling infant. You will never know exactly what he or she is up to in formative years. Be certain your progeny has the benefit of companionship of other youngsters in all walks of life, so that the most suitable profession can be decided upon in due course of time. Give a varied course in college and later part of life will be most successful.

WOULD LIKE TO TOUR

PARIS (AP) — Premier de Gaulle would like to visit all the NATO nations, an aide said Tuesday. He added such a tour is under consideration as an autumn project.

If You're TIRED ALL THE TIME

Now and then everybody gets a "tired-out" feeling, and may be bothered by backaches. Perhaps nothing seriously wrong, just a temporary condition caused by urinary irritations or bladder discomfort. That's the time to take Doan's Pills. Doan's help to stimulate the kidneys to relieve this discomfort and to flush away poisons that add tired feeling. Then you feel like a million. Get Doan's today. Use only as directed. Watch for Backache, Loss of Pep, Nervousness, Leg Pains, Dizziness, Nagging Backache, Rheumatic Pains, Swollen Ankles, Puffiness under the eyes, Burning, Scanty or Too Frequent Urination. Look for the red band at all drug counters and ask for Doan's today.

ASK DROUGHT AID

PEIPING (Reuters) — The Chinese government today urged the 2,000,000 inhabitants of the Shantung Peninsula in North China to join in a battle against an eight-month drought which has prevented peasants from sowing spring crops. An appeal published in the Communist party newspaper People's Daily says that 1,300,000 acres of farmland have been scorched by winds and sun and wells and rivers are running dry.

Didn't Know Her Own Child

... he was so cross, cranky, naive. When she was discharged from hospital, we gave Children's Own Tablets. Made for youngsters only, they have a gentle laxative plus a mild tonic to correct that upset stomach. There are 24 tablets in a package. If child cries because of constipation, ask for Children's Own Tablets today at your druggist.

CANADIAN VACCINE ARRIVES

LONDON (Reuters) — One million doses of Canadian-made Salk anti-polio vaccine have arrived in Britain ahead of schedule, the ministry of health said Tuesday night. The University of Toronto's Connaught Laboratory hurried delivery so Britain's current vaccination program can be completed. The delivery completed a 4,000,000-dose order.

The New Rexair Conditioner & Humidifier

The only machine of its kind on the market today! Ease of purchase of this model demand which gives you the BEST for LESS! Try IMAGINE for Proof.

Humidifier — Vaporizer — Deodorizer Conditioner — Cleaner

Yes, this amazing new machine will trap all the stationary and floating dust in your home in the water. Then it will release it by bringing in CLEAN WATER. And the dirt is then simply poured down the drain. Yes, the perfect home conditioning unit is now on the market for you. Leading health authorities are all for this revolutionary unit. It offers you the ideal way to relieve any dust allergy such as Hay Fever, Asthma, etc.

Fully guaranteed and backed by Rexair of Canada Ltd. and Rexair Inc. of Detroit for your protection.

SUMMER & WINTER

LOOK! A SUMMER HOME AND A WINTER HOME ALL COMBINED. Only a mile from downtown and with a view from the enclosed sunroom for miles each way. Just right for the bar. Three bedrooms, 2-piece bath, large living room, kitchen with 4-piece tiled bath, modern kitchen with built-in cupboards, heavy wiring. There's a large living room with fireplace, and a dining room there's room for the whole family to eat. Not big but not for long. We have the key. Make a bargain at $6,900 call us to see anytime.

ONE HUNDRED ACRES

$1,500. FULL PRICE

WANT TO BE A BIG LAND OWNER ON A SMALL BUDGET? There's pasture land, some bush, and a few acres of cash crop. Has a good 6-room house and is on a paved road. You can even have your own lake if you want it, and there's a river at the property.

RESIDENCE & GARAGE

WE ARE PLEASED TO OFFER a fine home with 4 bedrooms and a den, 4-piece bath, and a fine kitchen in a village close to Belleville. Along with this fine building that could be used for a business, is a large garage and lovely grounds. Priced at $18,000 cash offer the entire package. Call us right away for the first — to have the opportunity. Call us night or day.

EXECUTIVES

WE HAVE TWO HOMES that would be conducive to gracious living and wherein one could live in comfort with a family and have also plenty of area to entertain. One is on the edge of the East Side of Belleville and the other in the West section. We are offering at $28,000 and the other at $24,000. The evenings are best now and we would be pleased to have an appointment to inspect these. Just pick up the phone.

STRANGLES GIRL

YOKOSUKA, Japan (AP) — A 20-year-old American airman has admitted strangling a Japanese bar girl but-claimed she asked him to. Airman James W. Newsmaster told investigators that the 23-year-old girl, Yasuko Wakatsuchi, was despondent because her lover, an American serviceman, had left for the United States. Newsmaster said he asked him to kill her, and he throttled her with a nylon stocking.

Tries to Protect Loyal Workers Says Firm's Head

OTTAWA (CP)—A union-company meeting was held Wednesday night but no settlement reached on a walkout by 75 carpenters that has tied up $20,000,000 in government construction contracts.

Thomas Fuller, president of Fuller Construction Company, told reporters he is being "persecuted" by the carpenters union because he is trying to protect "a few honest and loyal employees" who testified during hearings this year whose jobs he obtained a court injunction prohibiting picketing during a previous strike.

He said the company has not signed an agreement because the union has threatened to fine or take union cards away from union members "who gave evidence unfavorable to their union officials" during last year's strike.

Last June the International Union of Operating Engineers called a strike against the company. Mr. Justice F. H. Barlow of the Ontario Supreme Court granted the company an injunction forbidding union picketing after the company protested picketing was not peaceful.

The carpenter's union decided on strike action Tuesday night.

AGED COUPLE THWARTS THUGS

John Sandford, 87, and his wife, Esther, 85, put up such a fight when two masked men forced their way into their Long Branch, Ont., home that the thugs finally fled, empty-handed. While one man tortured Mr. Sandford by twisting his arm, the other intruder ransacked drawers in the elderly couple's bedroom. But Mrs. Sandford kicked and screamed. The Sandfords, who had little money in the house, believe the men were looking for a large sum and had blundered into the wrong house.

Picketing began Wednesday at six building projects.

Frank Reid of Sudbury, international representatives of the board.

union, said all negotiation with the Fuller Company have failed despite efforts of a conciliation

JAMIESON BONE & COMPANY

161 Front St. Belleville

CEMETERY

(Continued from page 1)

Mr. Guerin maintained silence about his good luck.

Of the two top money tickets that were shared, one was held jointly by Mrs. Frank Stricker of Richmond, B.C., and Chas. Decker of Burnaby.

Mrs. Stricker and Mr. Decker are old friends and agreed to a partnership when she asked him to buy a ticket for him.

"By golly, it was quite a shock," Mr. Decker said. "I've been working for my money since I came to Canada from Germany in 1930. Now I'm going to make my money work for me."

MAY MARRY

He said he will take a holiday and plans to visit two sisters in Germany. "I might consider getting married," he said.

Mrs. Stricker, 36, was so happy she began to cry. Workmen had just started to build the house she and her husband (Fred) had stripped and saved for years to build when the news came through.

She said she "couldn't imagine" what to do with the money other than to help some relatives who "deserve it."

The other group, with the Kitchen Club as a pseudonym, comprised Wilfred Jones, 48, C. W. Paulin, 48, David Kenny, 41, and Enoli Reid, 32, all of Victoria.

They meet regularly at a garage and have been buying tickets together for years.

One of them, Mr. Paulin, said he was not excited, had no plans for the money and didn't intend to quit his job as manager of a finance company.

Two tickets were held on Paddy's Point, which finished second. The win gave N. J. Pelech of Dorchester, Ont., $34,000. Belle O'Hara and V. Wig of Toronto, split the same amount.

GET $38,000

Six held tickets on Nagami, third-place horse for $38,000 each. Two of the third-place winners, one from Port Colborne, and the other from Belgina were identified only by pseudonyms.

The others were: Andre Beauchemin, Montreal; Joe May, Thornbury, Ont.; Ron C. Johnson, Moncton, N.B.; and James Harris, Hamilton.

Mr. Pelech, 44, an oil company employee who listened to the broadcast of the race with his wife, said the first thing he intends to do is visit the graves of service comrades at an Italian battlefield.

Mrs. Pelech said she is going to retire from her job as a hairstenographer, then visit relatives in Scotland.

Also listening to the broadcast was Mr. May, 56, a steelplate installer at a Collingwood shipyard.

He won $38,000 on Nagami. Within minutes of the news he went straight back to work and said: "I'm going to keep on working." Mr. Harris, 25, said he will buy a house and a convertible.

Mr. Beaudry, 63, a service station owner, has lived all his life in Northern Ontario. He said he will spend the money on his children and grandchildren and retire.

SHOOTS 317-POUND BEAR

LIONS HEAD, Ont. (CP)—Leslie Hall shot a 317-pound bear behind his barn near this Bruce Peninsula village. Several bears have been shot in the area this year.

HEADED EDDY SALES

TORONTO (CP) — George Charles Winlow, 80, active in the paper business for more than 50 years, died Wednesday. Mr. Winlow was sales director for the E. B. Eddy Company in Ottawa until his retirement in 1949.

HEADS AUTHORS

MONTREAL (CP) — H. Gordon Green, editor of The Family Herald and Weekly Star, Montreal, Wednesday was named president of the Canadian Author Association meeting here.

(ADVT.)

Even Drink of Water Brought on Indigestion

Caused Awful Gas, Heartburn, Sour, Upset Stomach, Nervous, Always Tired. Woman lauds Syntona for Grand Relief.

"I surely can recommend Syntona after the way it helped my digestion," said Mrs. T. W. Barnard, 33 Aberdeen Avenue, Brantford, Ontario, in a recent report.

"Before I began taking Syntona, I suffered with gas, awful heartburn, sour acid feelings and upset stomach. Even a glass of water gave me trouble. I became subject to dreadful headaches and dizziness and my nerves were on an edge. I was unable to get my proper sleep at night. I felt tired and rundown.

"But, what a relief since I've been taking Syntona. I eat any meals without trouble afterwards, headaches and dizziness are now relieved and my nerves are calmed down. I sleep soundly at night and I am not always tired as I was before. I found Syntona most beneficial."

If you suffer from faulty digestion, sour, upset something more than ordinary alkaline medication to bring relief, Syntona has helped so many people because it stimulates the secretion of digestive juices and gives them tone to the stomach. At the same time it acts as a tonic in rundown condition.

Syntona is sold and recommended in Belleville by Dr. Jones' Drugtist.

Govt. To Ignore Budget Deficits To Provide Jobs

PM Makes Statement At Montreal Meeting

MONTREAL (CP) — Prime Minister Diefenbaker says the government will disregard budget deficits in taking comprehensive action to fight unemployment.

The prime minister Thursday night told the closing session of the annual meeting of the Canadian Manufacturers' Association that many of the government's longer-term plans are partly designed to provide a high level of economic activity with a greater degree of stability.

Mr. Diefenbaker said vigorous action to combat the jobless situation is essential because "the survival of the nations of the free world will be at stake if the free world fails prey to depression."

"We plan to accelerate the declining of projects to enable us to render available the resources of the North, the natural and to facilitate the exploitation of Canada's resources and our aims is to develop when a greater degree of processing within this country."

He said Canadian business has been affected by adverse business conditions in the United States, basically international in character. He emphasized that the fact that the United States now is in the throes of the sharpest recession since the end of the post-war period.

"Growth in other major industrial countries has become increasingly hesitant," he said, the demand for industrial materials, coming at the culmination of a tremendous build-up of capacity in material - producing industries, the world over has resulted in a general weakening of international commodity markets.

The prime minister added the impact of the international market situation had adversely affected the mineral and forest products industries which accounted for about two-thirds of Canada's exports.

"This has, in addition, had a damaging effect upon capital expansion which was previously centred in large measure around the needs of new capacity in resources-based industries."

Mr. Diefenbaker's analysis of the current economic situation that given several months ago 'a most critical report of Governor James E. Coyne of the Bank of Canada.

(Continued on page 5)

Saving Money To Become Rich Said Out of Date

OTTAWA (CP)—Senator Ralph Horner says the principle of saving money to become wealthy is as out of date as the ox cart.

The Saskatchewan Conservative senator made the statement in the Senate throne speech debate Thursday in taking sharp issue with a speech Wednesday by Liberal Senator A. B. Baird of Newfoundland.

Senator Baird said Canadians are losing their ancestral trait of saving and living within their means.

"I can well sympathize with some of the ideas that he (Senator Baird) expressed because we grew up in a time when where you save money to become wealthy."

Senator Horner said.

"But that principle is just as out of date as the oxen in comparison with the automobile today.

"We—most spend more to get rich today."

Henry Ford was the first man to throw a monkey wrench into the idea of saving. Until his day, fathers have said, 'Children, save, bought them a HEEP bank and later opened a bank account.

"But Henry Ford said that he did not want to teach his sons to save money. Ford said that he taught to invest it wisely and that was a departure from the usual procedure."

Wants to Keep Durable Goods Pay as Standard

MONTREAL (CP)—A strike or compulsory arbitration are the only possible actions if the "durable goods industry is not kept as a yardstick for comparing wages and working conditions of railway employees, says union leader Frank Hall.

Mr. Hall, chairman of a union group that represents 130,000 non-operating railway workers, Thursday told a three-man conciliation board the unions are not happy with the standard, but want to stick with it.

"We don't think it's good enough," he said, "but we don't want to see it destroyed."

The conciliation board has held hearings for 27 days on the wage and working conditions dispute between the railways and the non-operating employees — those who do not actually run trains. It is expected to wind up today.

The wages and working conditions of employees should be comparable to those for workers in the durable goods industry, according to the standard the railway now wish to revise, said Mr. Hall.

Today's Chuckle

The teacher had asked the pupils to write a composition on the subject, "Water."

One boy wrote: "Water is a thing we laugh with when tears come when you wash in it."

THE WEATHER

TORONTO (CP) Synopsis:—Cloudies are mainly clear over the Province this morning. Temperatures this afternoon are expected to range in the mid 60s to high seventies and five to 10 degrees lower in the North. Present indications are for fine sunny weather to continue through Saturday in Southern Ontario with slightly warmer temperatures. Northern regions of the province can expect considerable cloudiness Saturday with a few showers.

HOUSE SIDELINES BILL TO CUT DOWN INTEREST RATES

CCF Says Rates Blot 'On Democracy'

OTTAWA (CP) — The Commons has sidelined a private CCF bill designed to curb what its sponsor called "fantastic" interest rates charged by some loan companies and credit-financing firms.

House Leader Hazen Argue of the CCF called the rates a "blot on democracy" in introducing his measure Thursday to day-long debate.

The bill proposed a 12-per-cent interest ceiling on all loans not governed by provincial or federal laws. Debate was adjourned indefinitely after drawing Progressive Conservative reaction ranging from outright opposition to support from Social Credit backbench.

The two Liberal speakers suggested it go to a parliamentary committee, a step proposed by Mr. Argue in the hope that Commons did not wish to adopt the measure now.

Instead the Commons moved on to launch its study of public works spending estimates.

SIMILAR BILLS

Mr. Argue, member for Assiniboia who has sponsored similar bills in the past, said what he called fabulously - high interest rates. An annual rate of 20 per cent a year was "quite common" and some fixed by retail stores ran as high as 36 per cent, he said.

His measure excluded bank rates and finance company loans up to $1,500, already covered by federal law.

Speakers for the Progressive Conservative party and the government whether the bill as worded would achieve its purpose, and expressed reservations about the possibility of tampering with a source of consumer funds at a time when any slackening in purchases might increase unemployment.

Gordon Chown (PC—Winnipeg South) saw it as an attempt to destroy a "healthy enterprise" filling a Canadian need. More than 200 finance company branches across the country provided employment and a source of consumer spending.

He said he believed that interest rates generally were too high, taking into account operating costs and risk involved.

Mr. Argue interrupted to ask whether Mr. Chown was aware that finance c t any losses in 1956 amounted to about one-quarter of one per cent. There was no risk, he said.

LIBERALS COMMENT

Both Chesley W. Carter (L—Burin-Burgeo) and William M. Benidickson (L — Kenora-Rainy River) considered the matter be referred to a committee.

Murdo Martin (CCF — Timiskaming) said there are "ten speed controls on our financial budget" but "not one to help." He said were two c es of exorbitant loan interest rates brought to his attention recently and both were straightened out when wide-spread publicity was given.

Alfred D. Hales (PC—Wellington South) felt...the problem "is not quite as serious as it has been presented to us." A little public relations would allow the problem to "right itself in due time."

Not Extending Fishing Limit

OTTAWA (CP) — External Affairs Minister Smith said Thursday the government is giving serious consideration to extension of the fishing limit to 12 miles off Canada's coasts for foreign trawlers.

He was replying in the Commons to M. J. Coldwell (Rosetown-Biggar) who referred to reports that Canada has taken such unilateral action.

The recent international conference in Geneva on the law of the sea could come to no agreement on fishing limits and the twelve-mile limit therefore still applies generally.

30 Tons of Dynamite Will Set Free St. Lawrence Waters After 4 Years

NEW YORK (AP)—A mighty dynamite blast July 1 will mark the beginning of the initial power phase of the Ontario-New York St. Lawrence power project.

Robert Moses, New York state power authority chairman, said Thursday announced completion of the first stage of the project, which will be ready for operation for four years.

A total of 30 tons of dynamite will blast away a 600-foot earth and rock dam that has been holding back the river waters while generating stations have been constructed. It will mean a potential power pool 25 miles long and 600 feet wide.

The dam being demolished is in the north channel of the St. Lawrence between Barnhart and Sheek Islands, a few miles from Massena, N.Y., and will cut from Cornwall, Ont.

Full operation will be allowed within two miles of the blast.

Moses said it will take about three days for the water pool to fill enough to start testing turbines and generators. Commercial power delivery will not start until September.

The power pool also will provide a navigation channel on the American side near Massena. The present canal on the Canadian side of the river will be closed.

When completed in the spring of 1959, the project will handle ships up to 27-foot draft, almost twice the present size.

TREED CAR

This brand new automobile, with only two miles showing on the speedometer, lay nestled in a tree-while the house in the background is only slightly damaged as a result of a tornado which dipped down on Colfax, Wis., late yesterday. Hundreds were injured and at least 18 persons were killed when the storm swept through the vast central portion of the state. (AP Wirephoto.)

Fight for Recovery Begins After 30 Killed in Tornado

MENOMONIE, Wis. (AP)— While the search for additional dead continued today, the first slow steps toward recovery have been taken in this tornado-ravaged section of Wisconsin.

State, federal and private agencies offered their assistance from headquarters set up in the northwest portion of the state where at least 30 persons died when three twisters ripped a 90-mile swath through the sector Wednesday night. Six persons are still missing.

More than 350 persons were injured, 119 of them requiring hospital attention. All but 20 of the injured remain in grave condition.

Damage will be counted in the millions, said State Governor Vernon Thomson, who inspected the area by plane and car Thursday. The Red Cross said 613 families were affected, more than 100 homes were destroyed, another 165 damaged extensively and another 340 less seriously. An estimated 1,000 head of cattle were killed.

The governor appealed to President Eisenhower for federal aid not.

Reuther Moves to Combat Truce-Breaking With Makers

DETROIT (AP) — Walter P. Reuther moved swiftly today to make certain that incidents involved workers at General Motors and Chrysler plants Thursday did not disrupt the truce in auto industry contract negotiations.

The United Auto Workers union president, after getting reports on the Chrysler and GM situations, accepted his order that the UAW members must keep peace and not bust the contracts can be worked out.

Nearly 200,000 UAW members were been working without a contract since the old three-year pacts expired. GM and Ford and Ford and Chrysler last Sunday.

It marked the first time since 1937 that GM and Chrysler workers had been without a contract. For Ford it was the first time since 1941.

The first incident occurred Wednesday night when pickets ringed the Chrysler Jefferson body plant near Pittsburgh. Leon and Westbrook, two of the union's GM negotiating committee, said the dispute centred on local grievances.

Pickets at the plant were removed Thursday night and production was resumed by the overnight shift.

Chrysler's dispute resulted from company action in handing out 3,000 suspensions to some UAW stewards and committee members in Chrysler plants across the United States. The union later denied UAW charges that it was trying to involve workers into a strike. The company said the only ones disciplined were those who had flatly refused to go to work.

Ford, whose workers have not been involved in any incidents, met with the UAW Thursday and had another session today. A GM. Chrysler as the UAW will meet again Monday.

DE GAULLE SAYS 'PUBLIC SAFETY' GROUPS MUST GO

Must Not Trespass On Legal Authority

ORAN, Algeria (AP) — Gen. Charles de Gaulle today called for an end to the insurgent authority of public safety committees in Algeria and said the committees, which led the drive to bring him to power, must concentrate now on integration of the Moslem and European communities of Algeria.

The new French premier told public safety groups here:

"You must not trespass or substitute yourselves for legal authority. Your mission, I repeat, is to work for a complete integration of Moslems."

De Gaulle made the statement to members of the local committee and delegations from the all Algerian public safety committees.

Earlier he had spoken to the crowd from the balcony of the Oran prefecture.

Today's statement by de Gaulle was aimed at clearing up his attitude on the future of the public safety committee movement, which has spread like wildfire throughout Algeria as well as metropolitan France and parts of the French Army.

On his arrival here this morning de Gaulle was greeted by Algeria's premier of equal French citizenship for Algeria's 9,000,000 Arabs and Berbers. The rebels said they will not negotiate or ask the United Nations General Assembly to support their independence movement and that meanwhile the war would continue and spread to all North Africa.

The battle cry of the settlers against the rebels — "Algeria is French"—was chanted over and over by crowds as 8,000 police and army lines as de Gaulle entered Oran from the airport.

Toronto Leafs' Stadium Roof Damaged by Fire

TORONTO (CP) — For a third time in 1958 it appeared that Toronto's International League baseball team would play its home games on the road.

Flames raced across the roof of lake front Maple Leaf Stadium. Gusts of wind fanned the fire as hour whipped flames across the roof. It took the combined efforts of a half-hour before firemen on aerial ladders brought it under control. One casualty was reported.

It was fortunate rain fell during the conflagration, soaking the tar and wooden roof.

Damage to the roof was estimated at $5,000. Rain loss could go higher if building inspectors declare the roof unsafe for repairs. Some 2,000 seats below would be out of bounds for customers.

Better to Find Another Planet Than Limit Births Says Catholic

WASHINGTON (AP) — A Roman Catholic spokesman said today that Americans may have to find another planet rather than limit its population by birth control.

Msgr. Irving A. Deblane, director of the National Catholic Welfare Conference's family life bureau, made the statement in a statement deploring an often expressed idea that birth control can solve our problems by created by a fast-growing world population.

The Catholic Church has taken a strong position against what it calls artificial methods of birth control, meaning principally the use of contraceptive devices.

Deblanc acknowledged that grave problems will be created as population continues to increase—perhaps to 12,000,000,000 in 100 years, he said, compared with the present 3,000,000,000.

But he contended the answer is not birth control but rather greater scientific and scientific advancement. He went on to say:

"We will have to organize and plan to prevent our good farm land from being gobbled up by the land fanciers; we will have to encourage more world immigration; we will have to lower trade barriers; we will have to have soil study and conservation; we will have to make cheap atomic energy available to foreign countries; we will have to develop vast supplies of nuclear energy at reasonable cost; and we may have to find another planet."

He did not elaborate on his reference to another planet. Most scientists doubt that humans could live on the other planets surrounding the sun, though there is a possibility food could be raised on them.

Pembroke Home Heavily Damaged Cause Unknown

Victims Suffocated In Second-Floor Room

PEMBROKE (CP) — A mother and four of her nine children were suffocated early today when fire heavily damaged their frame cement-block home in this town 100 miles northwest of Ottawa.

The bodies of Mrs. Cuthbert Chaput, in her 50s, and her children, Ruth, 17; Helen, 15; Barbara, 13; and Ricky, 3, were recovered from a second-floor bedroom.

Fire Chief Ira Price said the victims apparently were roused by the smoke and rushed into a front room where they could smash a window.

Today's statement by de Gaulle was aimed at clearing up his attitude on the future of the public safety committee movement, which has spread like wildfire throughout Algeria as well as metropolitan France and parts of the French Army.

On his arrival here this morning de Gaulle was greeted by Algeria's premier of equal French citizenship for Algeria's 9,000,000 Arabs and Berbers. The rebels said they will not negotiate or ask the United Nations General Assembly to support their independence movement and that meanwhile the war would continue and spread to all North Africa.

The battle cry of the settlers against the rebels — "Algeria is French"—was chanted over and over by crowds as 8,000 police and army lines as de Gaulle entered Oran from the airport.

Still Searching For Missing Men

NOTRE-DAME-du-LAC, Que. (CP)—A cap, a hat and a reel have been found floating in waters looking for five men unheard of since their left on a fishing trip Saturday.

Laurent Soucy, police chief of this community of 2,000 miles northeast of Quebec City, said a search party scoured the shore of Lake Temiscouata. The hat was identified as one belonging to Gerard Bergeron, 23, of Notre-Dame-du-Lac.

Others missing are Gerard Beaudoin, 29, of Notre-Dame-du-Lac; Jean-Paul Boudreault, 22, Roger Gagnon, 32, both of Lauzon, Que., and Noel Beaudoin, 20, of Levis, Que.

Chief Soucy said no bodies have been found but a search party is to scour the rugged lake area again today.

Pigs Killed

BROCKVILLE (CP)—Thirteen pigs were killed and 17 injured in a double-decker transport taking 150 pigs to market overturned on Highway 2 five miles east of here Thursday.

FOUR-LEAF CLOVER FOUND IN YARD

Mrs. Rosemarie McPherson, 55½ West Moira St., found a four-leaf clover Thursday afternoon in the yard of the home of her mother, Mrs. Daubour, 185 Mary St.

SIGNALS LEFT, TURNS RIGHT — WHAM!

It's an old saying that it is a woman's privilege to change her mind but changing her mind after signalling a turn while driving a car is quite apt to spell out "accident."

This was just what happened to a female driver at the corner of Bridge and Coleman Streets Thursday afternoon.

The lady signalled a left turn, then abruptly changed her mind and turned right — right in front of another car. Damages to both vehicles was just under $100.

WILL CONVERT HOME INTO APARTMENTS

Robert G. Hamilton, secretary - manager of the Chamber of Commerce, has purchased the residence of the late Dr. R. W. Tennent at 51 Victoria Ave. The purchase price was not disclosed.

Mr. Hamilton said this morning he plans to convert the spacious house into five apartments. He takes possession July 1st.

OFFICERS' TRAINING CENTRE ASSOCIATION TO HOLD REUNION

The annual reunion of Brockville Officers' Training Centre Association is scheduled for Cornwall this year on Saturday and Sunday, August 2 and 3.

The event has been staged annually since 1947 at Brockville on a limited scale. However, this year the reunion is being thrown open to all personnel who served at the OTC in any capacity during World War 2.

One of the highlights of the program planned for the occasion will be a conducted tour by Ontario Hydro of the St. Lawrence power project. This will take place on Sunday, August 3.

Registration will be held at 2 p.m. August 2 at Wonderland Pavilion. There will be banquet and dance in the evening at Wonderland. It is hoped to have a former commandant of the OTC as guest speaker.

For further information and reservations for accommodation, all ex-OTC personnel are requested to contact E. L. Cushman, 860 Giroux Avenue, Cornwall, Ontario.

Arthur Duncan, Bata Official, Hurt in Crash

On his way home to Batawa after attending an accident prevention meeting, Arthur Duncan, public relations officer for Bata Shoe Company, suffered a double leg fracture and head lacerating when his car left the highway and ran into a hydro pole on No. 33 highway between Glen Miller and Batawa turn.

The accident occurred some time after midnight last night and the injured man was found by a city police officer, possibly as much as an hour after the mishap.

Provincial police at Belleville were notified by a hydro employee.

Mr. Duncan was northbound toward Batawa when his car veered across the highway and struck the hydro pole on the west side of the highway. His car was badly wrecked. Only one car is believed to have been involved.

The injured man was taken to Trenton Memorial Hospital.

Learn-to-Swim Classes Start For Children

Under the direction of Jack Bernhardt, physical director, Y.M.C.A., and assisted by the following members of the boys and girls leader corps: Susan Kelly, Glenys Dickie and Bob Doogan, the annual Learn-to-Swim classes for children 7 years and older, commence this week.

On May 22rd, an advertisement was inserted in The Ontario Intelligencer advertising this program, but even before this edition was published, more than half of the total enrolment possible was filled. Mr. D.G.D. Diamantides, general secretary, 141 the Board of Directors that parents who had been turned away for lack of accommodation last year, had registered their children early to avoid similar disappointment. By May 27, the quota of 12 children for each of the six planned classes was filled and in a special effort to assist as many as possible, 6 more classes were added to each class. This makes a total of 84 children learning to swim this week at the Y.M.C.A.

Adult classes are also held for those interested in learning and there are still some openings, particularly for adult men.

Normally, swimming activities cease May 31st; because of this, it is possible to lower the level of the pool so that the water is only 30" deep at the shallow end instead of the pool. This allows the average seven-year-old child to stand in the pool without being over his depth.

Unfortunately, figures are not available for the 1957 Learn-to-Swim classes, but in 1956, of the 81 children and adults registered, 83 passed their beginners' test, which involves swimming two lengths of the pool. 48", 32 persons passed beginners' tests during the annual winter program of the Y.M.C.A.

Sidney Twp. Tax Rate Down From Last Year

A general rate levy of 30.3 mills has been set for residential and farm properties in Sidney township for 1958, a drop of 1.8 mills from the 1957 tax rate.

The general mill rate for commercial and industrial properties is set at 35.6 mills, a reduction of 1.9 mills.

The 1958 mill rate was struck at the June meeting of council following a special budget meeting attended by all members of township auditor.

Council turned down the request of Messrs. Wheeler and Wall of Stittsville who asked for a trailer camp licence.

Road voucher No. 6 for $5,380.90, the relief account for $535 and the June pay sheet were ordered paid.

The by-law to accept the assessment on which the taxes shall be levied for the year 1958 was approved.

Next meeting of council will be Monday evening July 7th.

Vagden Mills Ltd. Name Of New Belleville Firm

A. ROY VAGG

JOHN W. DENTON

Belleville Knitters Co., Ltd., 111 Bay Drive, has been sold to A. Roy Vagg and John W. Denton, both of St. Catharines, who have formed Vagden Mills Ltd.

The announcement was made today by Frank Hrachovec, founder of Belleville Knitters.

The transaction was completed on May 20. Mr. Hrachovec has retired because of ill health.

Vagden Mills Ltd., will continue in the same line of business, but its predecessor, manufacturing men's and boys' hosiery. Messrs. A. Roy Vagg, president, and Mr. Denton, sales manager, hope to expand in the near future, bringing in more machinery and employees. The business currently employs 15 people.

Mr. Hrachovec started in the knitting business in 1949 by opening Belle Crafts on Moira. Donald Ave. As business grew and the need for larger premises and more machinery arose, he built the present building on Bay Drive, in 1952. This plant now houses 18 knitting machines.

Vagden Mills Ltd. will incorporate two shifts daily, beginning June 15.

United Appeal Board Appoints Chairmen of Canvass Division

The Belleville United Appeal board of directors held a meeting at the YMCA on Thursday evening and fixed a tentative date of the first week in October to launch its 1958 campaign. It was also decided that the 1958 Appeal would conduct its campaign in the city proper and in the area to be annexed by the city of Belleville. After some discussion it was decided to also include Point Anne and Corbyville, although no residential canvass will be conducted at either of these two places.

Mr. Archie Lewis, the campaign chairman, gave a report on his work in organizing the campaign. He broke down the canvass into several divisions, and the following people have indicated their willingness to act:

Don Burshaw, division chairman; Arthur Whitehead, Trader and Lenox Council, payroll deduction, also vice-chairman; G. A. Freeman, national corporations, R. H. Bronk, railways; J. N. Yanover, special names; Mrs. Jane Forrester, residential; J. R. Punchard, payroll deduction; Dr. J. Guthridge, public service; Dr. Harold Crabe, professional; H. P. M. Cane, "Business A"; Frank Wills, "Business B"; Jack McArthur, Business C"; and Bryson Leslie, "Business D".

Mr. Lewis pointed out that the division chairmen would be contacting various members of the public to act as team captains and members of canvassing teams and earnestly hoped that the members of the community would give the division chairmen their full support.

It appears that a great deal of work has already been done in organizing the Belleville United Appeal, and everyone at the meeting was optimistic of the chances of success for the 1958 campaign. The board of directors was encouraged by the presence of several interested citizens at the meeting as well as the widespread interest indicated by the people of the city.

CARRION BIRDS

Canada has two species of vultures—the black vulture occasionally times seen in the Maritimes and the turkey vulture of Manitoba and Ontario.

PUBLIC CONDITIONALLY INVITED

YMCA Holding Day Camp at Oak Lake, July 7

Director Bruce G. MacKenzie, chairman of the camp staff committee, announced Wednesday evening, that the Y.M.C.A. would be conducting its first day camp commencing July 7th at Oak Lake, using the property formerly belonging to the United Church. The Y's Men's Club have built on their personal time to fix up the camp site in readiness for the opening date. Bob Bruce, church physical director of the Y.M.C.A., has been named camp director. The camp will be divided into two periods — July 7-18 for boys, and July 21 — August 1st for girls, excluding Saturdays and Sundays. 60 campers can be accommodated during each of the periods and they will be supervised by two qualified directors, one of whom will be responsible for the swimming program and the other for camp activities. In addition, six young men and six young ladies are being sought for positions as counsellors: this will mean one counsellor for each 10 campers. Further supervision will be supplied by volunteer members of the boys' and gir's leader corps.

The cost of the camp will be $25 per child, per two-week period, Tr's fee does not cover in full the cost of bus fare daily from Belleville to Oak Lake and return, insurance, the supply of milk, etc. The camp will include a lot of equipment and supplies, and other costs have been in setting up such a camp. The probable deficit will be assumed by the Y's Men's Club and the local community service work.

The camp activities will stress fun and recreation, instruction, nature lore and camp-craft. A typical day at the camp will include a hike, instruction in outdoor nature, building activities, brief inspirational, rest period, camp games and swimming instruction. Shelter is provided in case of rain and indoor activities will be in the nature of movies, films, games and handicraft activities.

Children are expected to provide their own lunch, exclusive of milk. The bus will leave the Y.M.C.A. at 8:00 a.m. each morning and leave Oak Lake around 4:00 p.m.

Parents wishing to enrol their children at this camp may do so any time at the front desk of the Y.M.C.A.

Marmora Driver Facing Charge

TORONTO (CP) — The six children of Gerald Veley of Marmora were given shelter Thursday night after Veley was arrested and charged with impaired driving following a mishap or accident.

The children, ranging in age from one to 11 years, and Jean Judge, owner of the car Veley was driving, were put up at a hotel by the Salvation Army. Four girls in the car were turned over to the Humane Society.

They were heading for farm work in the St. Catharines area.

Obituary

WILLIAM A. GREATRIX

The funeral of William Arthur Greatrix was held Monday afternoon from the John F. Bush Funeral Home where service in the chapel was conducted by Archdeacon J. B. Creegan of Christ Church.

The funeral was largely attended with members of the Belleville Fire Department forming a guard of honor at the funeral home. Interment was in Belleville Cemetery.

Active bearers were Al Wiseman, Robert Green, Douglas Day, Dennis Rosatti, Jack Twiddy and Jack Cumming.

Forming the guard of honor were Fire Chief Gerald Vance, Deputy Chief Gerald O'Brien, Captain F. Pomeroy, Inspector J. Darvell, Lieut. A. Ramp and Firemen F. Smith, G. Woodhouse, J. Brownlee, Harry Hall, Barney Smith and E. Helm.

Simeon H. Fox, Road Supt., Dies

Former County Road Superintendent and active in the municipal life of Hastings for many years, Simeon Henry Fox, 151 Bridge Street East, died in the Belleville General Hospital late Thursday evening after an illness which had extended for several months.

He was born at Eldorado, 80 years ago, being the son of the late Mr. and Mrs. William Fox and had resided all of his life in the Eldorado area, coming to Belleville twenty four years ago. Mr. Fox was educated in his native community and in early life he had a flare for municipal politics. At an early age he was elected to Sidoc Township council and served for many years, eventually being elected to the post of County Council. He always had a great interest in roads and road building and served on the Roads and Bridges committee of the council. After he was appointed Road Superintendent for the county and for many years served in that capacity, he resigned from council and the ratepayers of the county.

Mr. Fox was highly- regarded by his associates and the firms with which he dealt in his professsion. He was well liked by the men serving under him in the county and was able to maintain a good liaison between his committee and the members of the council. On his retirement after 24 years of service he was signally honored by county council members and associates. In his social life, Mr. Fox was well known and enjoyed a wide circle of friends, who will sincerely regret his death.

He was a member of Bridge Street United Church and when health permitted was an active participant in the work of the congregation. For many years he served as a member of the Official Board. Fraternally he was a life member of Madoc Lodge A. F. and A. M. No. 48 and also of Eldorado Lodge I.O.O.F.

Surviving are one daughter, Mrs. Gerald (Dorothy) Brignell at home, one son, Wilbur Fox of Walker Hardware Complex, Ltd., and one brother, Edward Fox of Oshawa and one sister, Mrs. Willard Reed of Moreland. Another son, Herbert Fox, died last year. His wife, the former Nettie May McCov, died some years ago. Also surviving are six grandchildren.

BUILD SIXTH STATION

LONDON (CP) — The central electricity generating board has announced Britain proposes to build its sixth nuclear station for power production at Dungeness in Kent. The station will produce 1,225,000-volt trafsmission system by cross-sound cable with the French electricity system.

Gerald Boyce New President Of Society

The Hastings County Historical Society held its first annual meeting on Monday evening in Shire Hall, Belleville.

Approximately 30 members and friends of the Society turned out for the meeting, which was largely given over to business.

The Society's constitution was introduced and approved. It states that the organization's objects shall include the investigation of matters of local historical interest; the collection and preservation of objects of archaeological, cultural and historical importance; the dissemination of historical information by publication; and the arousing of interest in the past by holding meetings and by marking or acquiring historic sites and landmarks."

The individual membership fee was set at one dollar per year, and several new members were enrolled.

Also approved was a recommendation that the Society seek affiliation with the Ontario Historical Society. This would bring automatic incorporation and mean that donations to the Society would be allowed for income tax purposes by the donor.

The chairman for the meeting, Mr. T. G. Wrightmeyer, president of the Society, briefly gave a progress report. He noted that in the past seven months, much historical material had been gathered and considerable interest had been aroused in local history. Copies of catalogues listing part of the material collected so far were sent to the Public Archives of Canada at Ottawa, and the Ontario Public Archives at Toronto.

The guest speaker was Mr. Gerald Rodgers, secretary of the Stirling Centennial Committee.

OUTLINES PROGRAM

Mr. Rodgers outlined the program being planned in the village for August 3rd to 9th. He noted that the 100-page Centennial Book covering the history of Stirling and its residents will soon be available. Copies may be obtained each.

Mr. Rodgers was thanked for his informative and interesting talk by Mr. Wrightmeyer.

Mr. Tom Ransom then moved a vote of thanks to Miss Olive Delaney, chief librarian of the Corby Public Library, for the preparation of a list of books in the library pertaining to local history.

To conclude the evening's business, the nominating committee consisting of Mrs. Ponton, Mr. R. M. Bird and Mr. Ransom, "beat the bush in its report', which was adopted by the meeting.

The executive for 1958-59 consists of — past president, Mr. T. G. Wrightmeyer; president, Gerald Boyce; vice-president, Erle Denyes; secretary, Miss Helen Pickett; treasurer, Mrs. Thomas Ransom (all of Belleville); council members, Miss Hazel Farley, Trenton; Mr. J. M. Dafoe, Foxboro; John Haig, R.R. 4, Belleville; Mr. Harold C. Martin of Stirling and L. H. Price of Actinolite. An additional member of the executive is to be appointed from and by the county council.

At the conclusion of the meeting, those present enjoyed a display of early local newspapers, documents, and other historical articles.

BIRTHS

HEDGER—Belleville, Mr. and Mrs. Ronald Hedger, 29 Sidney Street, Belleville are happy to announce the arrival of their son, David Ronald, on June 4th, 1958, at the Belleville General Hospital.

TOBIN — Mr. and Mrs. H. M. Tobin, Napanee, Ontario, Evelyn, Illinois, announce the birth of their son, on June 5th, 1958.

THOMPSON — Dunbar, and Joan (Simpson), (nee Joan Simpson), are happy to announce the birth of their son, on Wednesday, June 4th, 1958, at the Belleville General Hospital.

DEATHS

FOX, Simeon Henry. — At Belleville General Hospital, on Thursday, June 5th, 1958, Simeon Henry Fox, 313 Bridge Street East, in his 81st year. Resting at the Grant Funeral Home, Front St. Direct. Service in the chapel on Monday, June 9th at 2 p.m. Rev. D. M. Grant officiating. Interment Belleville Cemetery. 24-2t

IN MEMORIAM

CURLETTE. — In loving memory of a dear father and grandfather, Leonard Fry, who passed away June 6th, 1953.
Gone is the face we loved so dear,
Silent is the voice we loved to hear;
No fair away for sight or speech,
But too dear to be out of reach.
Sweet is the memory of him we owned,
And what though absent, is just as fond.
—Ever remembered by son Norman, daughter Ruth.

FRY. — In cherished and loving memory of our dear father, Leonard Fry, who passed away June 6th, 1953.
Mother, you are a wonderful part
Of all the things that I think of;
Dear to our hearts,
For the things you were and the things you were
Always a real friend
To help us, to reach us, to patiently defend.
And when you were needed you were always there
To smooth out each problem, each
And every care;
Now you're gone from them, it is still
Hard to believe
There is no one we deserve nor
Love
Lovingly remembered by daughters Hilda and Beasie and son Percy and families.

FRY. — In loving memory of a dear mother, who passed away June 6th, 1953.
Leonard Fry, who passed away
June 6th, 1953.
No morning dawns, no night returns
But memory
Brings back to us
Those left behind are very good,
But not forgotten.
Many a silent tear is shed,
And many a heart is sad
For the one we loved so very much,
The one we shall never
Be lovingly remembered by husband Percy and daughter Beasie and Percy

FRY. — In loving memory of my dear mother, who passed away June 6th, 1953.
Her sweet voice now is silent,
Her gentle hands at rest,
Her kind and loving smile
Is useless in the breast.
Her self denial from earthly things
We shall grieve for her no more;
We'll meet her in the sky,
Yes, dear mother in the glory.
Lovingly remembered by daughters Beasie and Hilda, son Percy and husband.

FRY. — In loving memory of my husband, Jasper Wellington Fry, who passed away June 6th, 1953.
Time has passed and years are flying,
But memories remain
Our hearts were almost broken,
When you left us to rest;
But when we saw you sleeping,
You looked so calm and sweet.
We could not wish you back,
Dear husband and father.
Lovingly remembered by daughter Amy and grandson Jasper.

FRY. — In loving memory of my husband, Jasper Wellington Fry, who passed away June 6th, 1953.
Sadly missed by his wife Florence May.

CARDS OF THANKS

I would like to say "thank you" to Dr. Gordon Ketcheson, Dr. Ross Jarvis, and staff of the Belleville General Hospital, friends who remembered me with cards, flowers and treats during my stay in the Belleville General Hospital.
—Clayton Hall.

TORONTO STOCKS

TORONTO (CP) — The stock market inched ahead today in moderate morning trading.

Industrials, and golds added about a quarter point on index, while base metals were ahead almost a half. Western oils, the only section off, dipped less than a quarter point.

Salada-Sherriff's ½-point gain at 20¾ was about the best for industrials.

Kerr-Addison added ⅛ at 18¾ among golds and East Sullivan and Discovery were ahead a few cents. McIntyre lost ¼ at 84.

Base metals, hardest hit by some good gains, Noranda climbed ⅛ to 41⅛ to lead. Falconbridge dipped ¼ at 36.

Western oils were lower on the strength of Home Oil B's ¼ loss at 17¾.

Weekend Livestock Review

TORONTO (CP) — Steers, heifers and yearlings sold 50 cents a hundredweight lower at the Ontario public stockyards this week.

The bulk of the veal calves sold firm. Cost items declined either further two per cent at 23 per cent and this closed from Tuesday on sold 81 a hundredweight lower. A few ton or near ton dairy kind sold about steady, however, most bulls lost 50 cents a hundredweight. Hog prices were unchanged. Sales or sheep and lambs were steady.

Cattle receipts were some 600 head fewer than last week and about 200 head more than the same week in 1957. Receipts from Western Canada were 708 head as compared with 187 head last week. Shipments to Eastern Canadian slaughterers were 1,000 carloads less than last week at two carloads. There were no exports to the United States.

Prices

Slaughter cattle: Choice steers 24-26.25; good sales to 25; 23.50-24; medium 21.50 - 23.50; common 19-21; good heifers 25-26; choice 22.50 with an odd top at 23; medium 20-22; common 18-20; choice cwt yearlings 24-25 with an odd steer calf at 23.50; good 22-24; good cows generally 17-18.50 with a few light cows at 18; mediums 16-17; common 14-16 canners and cutters 13-14; good heavy sausage bulls 20-22.50 with an odd weighty bull at 21; common and medium 15-20.

Replacement cattle: Good stockers 26-28 with some sales to 26.50; medium 22-24.

Calves: Good veal calves were 31-33.50; with an odd fancy choice selling up to 35; medium 26-30; common 20-25; boners 13-20.

Hogs: Grade A 24.50; heavy sows 16 with numerous light sows at 28; stags 16.

Sheep and lambs: Good spring lambs were 26; spring lambs 24 a hundredweight; sheep 4-10 a hundredweight with some good to light sheep selling at 12 a hundredweight.

DEATHS

FITCHETT, Ethel A. — Suddenly, at Cannington, on Friday, June 6th, 1958, Ethel A. Fitchett, beloved wife of Alden Fitchett, dear mother of Marion Fitchett, Belleville; step-mother of Mrs. Max Burnside, Madoc; Mrs. Harry Meecrecft, Foxboro; Mrs. John Clarke, Consecon; Mrs. Fred Cowan, Cannington, and sister of Mrs. Arthur Morrison, Stirling; age 76 years.

Resting at the Weaver Funeral Home, Trenton, from Saturday p.m. until Monday a.m., then at Bethel Church, Wellman's Corners, where service will be held at 2 p.m. Interment in the family lot. Funeral Memorial service in Bethel Church, Monday, at 2:00 p.m. Interment Bethel Cemetery. 10-21

PRODUCE MARKET

TORONTO (CP) — Churning cream and butter point prices are were reported unchanged today.

The egg market was weak on large with other grades steady. Receipts adequate for a light demand.

Country dealers are quoted by the federal department of agriculture for graded eggs, delivered Toronto, in fibre cases: A Large 41; A medium 38; A small 30; B Large 36; B 35; C 30.

Butter prices: Canada, first grade 64¼; undergrade 64; 64½; non-tenderable 63¾-63 in light trading; western 63 (nominal).

Ontario Liberals Will Hold Parley

OTTAWA (CP) — Ontario Liberals will hold a summer conference at Bigwin Inn in the Muskoka district to chart new party policy.

Provincial Leader John Wintermeyer said Thursday the conference, tentatively set for late July, will be one of several provincial Liberal conferences to be held before the next federal election.

Mr. Wintermeyer also said he has been assured that the path to federal victory lies largely through Ontario, where he fully expects a Liberal government to be called by next spring.

Bowling Notes

Despite the heavy afternoon rain the greens at the Quinte Bowling Club were in excellent condition for the first mixed jitney of the season. There were 48 men and women members out for the tourney and the play was very sharp for so early in the season. At the conclusion of the play the women's section of the club served coffee and sandwiches and a most enjoyable social hour followed. It is the intention of the club to run a series of these monster jitneys during the season.

A. Pordham with Elsie Humphreys and Fre. Blaisd won the three-game high score, closely followed by Bill Hazzard with Bruce Dobbs and Ann Pullman. Claude D. Tice with Thelma Fitzgibbon and Marie Bell won the two-game high score, while Cleo Collins with Betty Vince and Beryl VanTassel won the one-game high. The low score well be Bob Carter with Mary Colling and Bill Murdoch.

The tournament circuit will be getting under way in earnest on Saturday when the McCartney Shield doubles is played at Kingston. It is reported there is a full draw and play will get underway about the first o'clock. A number of rinks from the local club are making the journey to Kingston and will no doubt bring home some of the silverware. It is also interested that the Kingston greens are in excellent condition.

Members of the local club are reminded that the first district touney of the year for this city will be held on Saturday afternoon. The tournament will be a mixed doubles, a tourney that is gaining in popularity throughout the district, the clubs feeling that it is a great test of clability exists when the women are invited to take part. It is hoped this will be a large event, twenty rinks from the local club will take part. It is also requested to put the names of the teams on the bulletin board.

Hydro Service Interrupted by Heavy Storm

A short, vicious rain storm struck the Quinte district Thursday afternoon and interrupted hydro service in various quarters of the city. The power was off for only about 15 minutes.

The filtration station on the Trent Road reported today that the barometer dropped .4 inch between 3 and 4 p.m. yesterday, while the thermometer was doing calisthenics.

Rain started falling lightly at 1:30 p.m. As the sky became dark, the rain increased, until at 2:30 p.m. the storm struck. Precipitation ended by 3:45. During the two-hour period only 0.32 inch of rain fell, but the temperature dropped 20 degrees. At the height of the storm electrical power service was interrupted, but the Ontario Intelligencer was going to press.

High temperature recorded Thursday at the filtration station was 75 degrees and the low, 52 degrees midday.

After the rainfall the humidity increased rapidly, with a fresh breeze from the northwest soon blew the humid air mass over toward Prince Edward County, residents believing that perhaps autumn had preceded summer.

Price of Hogs Remains Steady At $34.50 Cwt.

TORONTO (CP) — The general price of Grade A hogs in Ontario this week remained steady at $34.50 per hundredweight at the marketing points of the Ontario Hog Producers' Marketing Board.

Ontario heavy cows moved all week at $28, bulk cows at $25 to $28 at $16.

Total hog gradings for Ontario May 31 to June 3 were 70,655, down 2,052 from the previous week. The hog co-op handled 29,265.

Brigade Will Give Instruction On Life Saving

During the month of June, St. John Ambulance in Belleville is offering free two-hour classes of instruction in respiration to anyone wishing to learn this life - saving technique.

During this month, those wishing to attend can register by telephoning the brigade. If any men's, women's or young people's groups wish to have a class of their own the Brigade will be glad to supply an instructor.

These classes are especially valuable to parents who are taking their children on a vacation where there is swimming, and to young people who will be camping this summer.

Between 900 and 1,000 Canadians lose their lives each year in drowning accidents. This tragic toll could be reduced if more people knew how to apply artificial respiration. It is something that can be learned by anyone. Any one can be shown how to learn it in advance of the summer boating and swimming season.

No charge is made for these classes, but St. John Ambulance would like to see a large number of citizens as possible take part.

Watch-Squabble Over Contract

OTTAWA (CP) — Defence Production Minister O'Hurley said Thursday his department will watch any developments in demands by two U.S. congressmen for disallowance of a possible contract award by the U.S. government to a Canadian firm.

Mr. O'Hurley thus indicated in the Commons that the government does not plan any action in the case unless the contract is awarded primarily to a Canadian firm and then cancelled by pressure resulting in George McIntyre (L—Ontario—West).

Fleet Manufacturing Limited of Fort Erie, a subsidiary of the company of St. Andrews, Que., have submitted the lowest bid in competitive bidding for a U.S. Air Force contract for radar installation domes.

Senator William Jenner and Representative Charles Halleck, both Indiana Republicans, have protested possible award of the contract to either of the two companies. They contend that the contract should go to an American firm to help alleviate U.S. unemployment.

Consumers Not Always Discriminating Buyers

OTTAWA (CP) — Canadian consumers are not always the most discriminating of buyers, the tariff board says.

In assessing the future of Canada's textile industry the board said in a report issued Thursday that consumers, with the best interests of quality and patterns, make it necessary for clothiers to buy overseas as well as from home producers.

"True, Canadian consumers are not always the most discriminating of buyers; quite often influenced by relatively inferiorities in quality to domestic clothiers appear to have more appeal, to advertisement of the domestic producer."

REVERSE DECISION

BLENHEIM, Ont. (CP) — A month-old decision to hold a vote on a liquor store here was reversed Wednesday by the township council. At a meeting attended by 49 ratepayers the council voted 6 to 3 to throw out a resolution authorizing preparation of the outlet vote.

Arbitration Board Expected To Reach Decision in 10 Days

TRENTON — "We expect to reach a decision in about 10 days," a member of the arbitration board said yesterday in a statement following their day long session in listening to the respective pro and con, concerning wage increases, service pay, hours of work and holidays for the local police department members. Their decision will be final.

The arguments were heard in the town hall on King street under the chairmanship of Mrs. Jane Forrester, former mayor of Belleville. Other members of the arbitration board were A. Roy Willmont, Q. C. of Cobourg and Fred L. Ward of Picton.

Representing the Trenton Police Association (police officers) was Ronald W. Cass, Belleville lawyer, and for the Trenton Police Commission — the municipality — was R. E. Nourse, Q.C., Picton. Both presented the arbitration board with briefs from their respective clients.

During the morning session, which started at 10 a.m., the duties of the police force were aired, as was their rate of pay in comparison with industrial workers in Trenton and with that of other towns in Ontario about the same size as Trenton.

Visitors to the session during the morning were town councillors Fred Bowen and Ray Fox. Fire Chief Clarence Orser also attended briefly. Mrs. Jean Bain, J. P., was also one of both the morning and afternoon sessions.

QUESTION CHIEF

During the afternoon Police Chief Jack Taylor was questioned by both lawyers on the operations of the force, the kind of men who are selected to fill vacancies, the pay structure and the expenditures for police work.

O. W. Larry, town clerk-treasurer was also questioned, questioned on the financial standing of the town and the increases the town has had in expenditures for this year and other costs over the past years.

In summing up, Mr. Cass informed the board they had their work cut out for them and they were all of concern.

He said the only point against the increase asked by the police was the price of living and that there are not sufficient funds to cover it. But it had been pointed out the town has been operating on a surplus for the past four years and that was not been increased and other town employees have been given substantial raises in pay during the past years.

He said the police chief has had trouble recruiting new men for the force, and pay is not attractive enough. They are not allowed to take on part time work and their sole allowance for living is their salary for police work. This is a serious important job which could be a dangerous one at times, he said.

"Every good thing must cost something," he said, "here it is men and not things."

On the 40-hour week issue Mr. Cass said it was something which was coming into the present way of life. When employees work this type of week they go some place else to work.

SERVICE PAY

The service pay gives the men something to work for and a reason to stay with the force, he said. Generally speaking their pay is increased and they are paid for their faithfulness and ability.

The request regarding vacations, Mr. Cass said, is consistent but not a vital issue. It asks that an employee be given three weeks holidays after 10 years of service, rather than the present 12-year ruling.

Mr. Nourse said in his summing up statement that it was not the desire of the council or the board of police commission to deprive the police from a fair remuneration and that the Trenton force is better organized and more efficient than in many Ontario towns.

He said comparison with other towns is a major matter in this issue and there is not another town, near the same size of Trenton, in Ontario, that has as many officers on the police force as Trenton or has the cost per capita Trenton has for police protection.

He said the police have requested a 40-hour week. This will require the hiring of two more men.

LEAVE 21 MEN

"This will mean", he said, "Trenton, with a population of 11,000, will have a police force totalling 21 men. We feel that more men are not required. We requested than are needed."

He listed several fringe benefits the force now has and working in the way of pension, clothing allowances and medical benefits and that it amounts to about another $400 per year.

"What is before the board these arbitration boards," Mr. Nourse told the board, "is that one must be fair to the town and to the police force. Decision and also Soviet acceptance of the U.S. proposal to confer on neutralizing Laos.

Dulles pictured the Soviet Communist bloc as in trouble on a number of points. Moscow, he predicted, will either have to grant more independence to the Eastern European satellite countries or else revert to Stalinist terror "with increased likelihood of violent revolt."

Dulles said that is only one of several "sizable problems" faced by Soviet Premier Nikita Khrushchev and the heart of the Kremlin leadership. He listed the problems as:

1. Economics—The Soviet government has increased education particularly in science so that "minds which can find the ways to penetrate outer space can also accelerate the fallacies of Marxism."

WELFARE TO THE FORE

2. Consumers—The Soviet people are demanding more consumer goods and "the Soviet rulers will have to be permitted fulfillment of their own people."

3. Personal Security—Stalinist police brutality has been put aside and in the more relaxed atmosphere "individualism tends to grow."

4. Satellites—Poland and Hungary have shown that nationalism and individualism "are not extinguished even by massive and sustained pressures." Soviet leadership will have to grant more independence to the satellites or increase police oppression and therefor the chance of revolt.

5. Refugees—Millions of people have fled from Communist-rule areas to free countries and their flight shows that "there is something basically repellent in the Communist rule."

6. Peoples Policy—Since "brute force no longer brings results" in view of free world defenses Russia's rulers have switched to more friendly policies and developed "a revived interest in respectability."

WELCOME NEW TREND

"What is new," Dulles said, "which we welcome and encourage. It may bring nearer the day when Soviet leaders will be primarily interested in improving the welfare of their own people and there will be an end to the unnatural exploitation of the vital peoples by international communism.

"Then our relations may be happily dominated by the mutual goodwill and friendship that has always characterized relations between American and Russian people."

Town Briefs

TRENTON — Local citizens were surprised this morning that Air Force Day will be taking place June 14. Several exploratory flights were made by Sabres practising for the big day by breaking the "sonic barrier." This was confirmed by the air station after several inquiries by worried citizens.

LIGHTNING STRIKES

A heavy "thunder and lightning" storm passed over Trenton this afternoon and at least one house was reported hit by a bolt of lightning. The storm also turned off the power for a short period when it hit main hydro lines in the area.

The house struck was owned by Mr. and Mrs. Earl Bonter of 63 Walter Street. No one was injured, although Mrs. Bonter suffered from shock when the bolt hit. The force of the explosion was such that it blew off the doors and dishes from a kitchen cupboard.

REELS OUT

Firemen were called out yesterday afternoon to the home of Jones' Groceteria on Dufferin street. The alarm came from a buzzer from the door had short-circuited and were beginning to smoke. The smoke was from the partly-dug cellar under the store. Firemen were forced to put on their rubber boots to get at them. The cellar had been in a considerable amount of water following the heavy rain. The water was keyed by the firemen and later electric-

"The man who never smiled," is how Mrs. Anelly Villard of Toronto, describes General Charles de Gaulle, whom she once entertained as a house guest for ten days in Lebanon. Her husband was one of de Gaull's three personal assistants during the war. She remembers de Gaulle as austere, a tireless worker for France, and "easy to please as a house guest. "I would die for him," says Mrs. Villard of her hero. With her daughter she is shown with the Legion of Honor won by her husband who died from war wounds in 1948.

Dulles Pictures Communist Bloc in Trouble on Some Points

WASHINGTON (AP) — Secretary of State Dulles said today he has been encouraged by some recent Soviet foreign policy moves. He said he believes significant agreements between Russia and th Western powers are possible.

"Whether or not a summit conference would lead to results or such agreements remains to be seen," Dulles told the Senate foreign relations committee.

He described as encouraging Soviet agreement to join in a scientific studies of policing an effective inspection and also Soviet acceptance of the U.S. proposal to confer on neutralizing Laos.

Dulles pictured the Soviet Communist bloc as in trouble on a number of points. Moscow, he predicted, will either have to grant more independence to the Eastern European satellite countries or else revert to Stalinist terror "with increased likelihood of violent revolt."

Dulles said that is only one of several "sizable problems" faced by Soviet Premier Nikita Khrushchev and the heart of the Kremlin leadership. He listed the problems as:

1. Economics—The Soviet government has increased education particularly in science so that "minds which can find the ways to penetrate outer space can also accelerate the fallacies of Marxism."

WELFARE TO THE FORE

2. Consumers—The Soviet people are demanding more consumer goods and "the Soviet rulers will have to be permitted fulfillment of their own people."

3. Personal Security—Stalinist police brutality has been put aside and in the more relaxed atmosphere "individualism tends to grow."

4. Satellites—Poland and Hungary have shown that nationalism and individualism "are not extinguished even by massive and sustained pressures." Soviet leadership will have to grant more independence to the satellites or increase police oppression and therefor the chance of revolt.

5. Refugees—Millions of people have fled from Communist-rule areas to free countries and their flight shows that "there is something basically repellent in the Communist rule."

6. Peoples Policy—Since "brute force no longer brings results" in view of free world defenses Russia's rulers have switched to more friendly policies and developed "a revived interest in respectability."

WELCOME NEW TREND

"What is new," Dulles said, "which we welcome and encourage. It may bring nearer the day when Soviet leaders will be primarily interested in improving the welfare of their own people and there will be an end to the unnatural exploitation of the vital peoples by international communism.

"Then our relations may be happily dominated by the mutual goodwill and friendship that has always characterized relations between American and Russian people."

COME TO FRED'S CAR SALES, 322 PINNACLE STREET, BELLEVILLE AND SEE 3 MODELS OF THE

FIAT

THE CAR THAT CAPTURED AMERICA!

First sold in America last year, this Italian made FIAT is already challenging the leaders in Imported Car Registrations. The reasons are easy to see. Here combines the Italian flair for modern design with the double economy of incredible high mileage.

Up To 53 Miles a Gallon

Come in today, test drive this remarkable car, you can expect far more in performance and quality than any car in its class.

NOT ENOUGH PATIENTS

Dr. G. Edward Hall has warned that health insurance is threatening the standard of medical care in Canada.

This is not just another alarmist statement from a doctor opposed to the principle of state hospitalization schemes.

Dr. Hall is president of the University of Western Ontario and his concern is with the limitation of the number of hospital patients available for teaching purposes, as the result of the growth of health insurance.

In the past a certain number of "teaching beds" has been made available to staff and students of medical schools in affiliated hospitals. But, says Dr. Hall, the tremendous growth of health insurance, with more persons seeking private and semi-private hospital accommodation, has already tended to limit the number of patients available for teaching purposes. "With the announced arrival of generalized hospital insurance for everyone this problem of adequate numbers of teaching beds becomes no longer just serious; it has become truly critical."

Dr. Hall was addressing the annual convocation for the conferring of degrees in the faculty of medicine and school of nursing at Queen's University. He said there is "no substitute for bedside teaching in the education of a physician." Nothing can replace this. To expect medical schools to turn out efficient doctors without these students ever having seen patients suffering from the ailments they will be expected to treat is to ask the impossible.

Somehow, then, medical schools must be assured of an ample supply of "teaching beds." In the past, as we understand it, charity patients have largely supplied the need. It has been a good deal for them, and for the rest of us. True, these patients have had to put up with being viewed and discussed by students - - but in return they have received the very best possible medical care, from men outstanding in their fields.

Prosperity and private hospital insurance plans, however, have reduced the number of these cases and now universal hospital insurance threatens to eliminate them entirely.

The burden of providing occupants for "teaching beds," once shouldered by the poor, now falls on all of us alike.

It seems to us there are only four alternatives: we can stop training doctors; we can pay patients to permit students to study them; we can draw lots to determine who shall fill the required roles; public-spirited patients can volunteer for these positions. The first alternative is unthinkable, the second would be much too expensive and of the remaining two we prefer the latter - - if it works.

A DIFFICULT TASK

General de Gaulle is now firmly in the saddle in France. But he is in for a rough ride.

That fact is becoming increasingly plain from comment on the attitude of French colonists in Algeria. The General must not only devise some means of providing France with a stable form of government once he relinquishes the extraordinary powers granted him by the National Assembly, but he must also find some solution to the Algerian nationalists' demand for independence. Neither task is going to be easy in itself, but what makes de Gaulle's assignment doubly difficult is that it is questionable whether he can settle either issue without settling the other.

Joseph McSween, Canadian Press writer, says that de Gaulle has stated his domination in the French Assembly, when he threatened to resign unless the deputies endorsed his program in full, and that "it isn't likely he will pussy-foot in Algiers." The situation certainly demands a resolute man - - but determination alone will not be enough. Compromise is essential if there is to be peace in Algeria - - and the very people who sparked the demand that de Gaulle assume power seem adamantly opposed to compromise. De Gaulle's biggest problems are thus posed by his friends, rather than by his enemies.

Technically, every step which de Gaulle made in his return to power was legal. But the original cause for the ascendancy of his star was the illegal seizure of power by the armed forces and the French colonists in Algeria. If he is to achieve his announced objective of providing France with a stable, democratic government, he must make certain that such insurrection against the civil powers in Paris is never again possible.

JUST FOLKS

(Copyright 1958, Edgar A. Guest)

By EDGAR A. GUEST

THE CHEERFUL MAN

I saw his smiling face
In the office as I strolled,
And I thought he's won his race,
He has made his pile of gold.
Oh, so cheerful now he seems,
He has conquered in his fight;
And has realized his dreams;
All the world to him is bright.

As he neared me I could see
That his eye was bright and clear,
His head not a thing to fear.
Then it wondered, can it be
That he'll recognize me here
And will come and tell to me
What has happened so to cheer?

Then his hand reached out to mine
And he shouted: "Howdy do!
Now I trust you're feeling fine
And your skies are bright and blue;
Just this morning I was out
In the garden with my pup,
And for joy I had to shout,
For my radishes are up."

Laziness Asset on Farm

By John Gould in the Christian Science Monitor

Just to show you how enslaved we have become to this great modern cult of the equation and the fact-cult, the slide-rule and the orbit, notice this story in a "natural history" column by the local oratory scientist in Norwich, New York, who runs a 40-acre farm with "intelligent laziness." I wonder they didn't call it so "agricultural" or "conservation," at least a plantation or estate, but I suppose liberty shorter words for headlines.

Anyway, on this vast 40-acre farm he supplements his laboratory activity by a well-ordered program of doing things the easy way, arriving methodically so a feature writer singles him out as a phenomenon. Yet his contribution is simply that he (1) is a laboratory scientist in the full up-stream surge of modern thrust and push, and (2) he operates a farm lazily.

My contention is abrupt, viz.: that this lazy farmer did not receive this attention because he was a lazy farmer, but because he is a laboratory scientist, and in this day and age laboratory scientists are not, whereas lazy farmers are not. This is a severe rebuke to our way of thinking, and goes to show.

If somebody had wanted a really good lazy farmer, without emphasis on his status as a scientist, nobody might could have been provided 100 years ago and it would have been a natural. But today it is an obloquy to conclude that journalism has a responsibility to entertain pointedly, and is trying to be popular with the ascending physicists and chemists of the push-button world in a new era. A lazy farmer who is also a scientist would carry a flagpole, and she would steer it into the side door of the range (2) in the event of a cold wave (you're an Ivy lance into ye ringe on ye string to edify ye cheering throng.

Then Mrs. Dolluff would rest the rubber tip, at the end of the eight-foot stick on a chair, and as fast as he did later Lazy-ed she would move the stick and the chair nearer the stove. You know how it is. The time came when the chair how near done the stove. Then Mrs. Dolluff knew she was no laboratory researchist, was never interviewed for the press, and his numerous instances of intellectual disinclination to labor were of purely local fame.

This man in Norwich, N.Y., has a special hopper for his hogs and gets same in the paper because he fills it only once a week, proving that laziness pays off. Another man we did a story on Charlie Foster and his hog-chute which was born of equal aversion to effort but which had no scholarship or degrees to embellish it.

Charlie cut a hole in the kitchen sink shelf and built a chute out through the wall to the pigpen. He would then lift the lid on the shelf, dump her kitchen orts in the chute, slide everything along with some hot water and skimmed milk, on the pig dish in the receiving end was fed lazily in a manner acceptable to Charlie, who was fastidious and personally tired. It was just as good a rig as anybody ever had in Norwich.

Indeed, Charlie's is a much better story, because the pig soon fathomed the source of his benefaction, and would clamber up in the chute to meet Mrs. Foster more than halfway. She would hoist the cover, and before she could contribute the pig would run his snout up into the kitchen and speak at some length about his approbation of the arrangement. Mrs. Foster would bang him on the proboscis with a skillet and he would retreat.

People who attend certain social occasions at Mrs. Foster home, such as the Friday Circle or the Moon Valley Extension Association meeting, come away discussing the Foster pig chute with some reverence, but not enough so word got-out to an editor somewhere. Besides, Charlie was not an astronomer or anything like that.

The time naturally came when one of Charlie's pigs just was big enough to get in but too big to get out, stuck in the chute. The poor creature called attention to its predicament at once, but was too well in for Mrs. Foster to help him by larruping him on the snout with her plate. For three hours she did her housework in this din. I suppose editors and labor-saving authorities would not know what it is like to have an unhappy pig wedged under your kitchen sink shelf while you're ironing shirts and applying the frosting to a cake, I suppose only that Norwich, N.Y., understands such things.

When Charlie came up from the field he dismantled the contraption and recovered his pig, but the attendant porcine bulk-shaloo was such that for three months Charlie said "Hey!" whenever anybody spoke to him. However, now there is a story about intelligent laziness on Charlie's farm.

Farmers are the world's finest practitioners of research and expedition and they do it themselves. They frequently have so many labor-saving ideas they hesitate to use. They figure things out soonest. They are past masters at "rigging a scheme" to get a certain job, and each will figure out his ways to do it. Intelligent laziness is a farmer's best asset, I mean, an urge, a drive. No other class of people is so practiced and intelligent laziness with such success as farmers. Lazy farmers was never news until a laboratory scientists tried it, and then the researchers came around and said "Oh" and "Ah".

This is a great injustice.

Cause of Suspicion

Vancouver Province

Our suspicions of other people are usually based on an accurate knowledge of ourselves.

Our Sun One Of 40 Billion

Cornwall Standard Freeholder

Most persons believe that the earth and the sun are important in the universe, and there is no wonder this: We are 3,000 light years from the centre of our galaxy which is just one of some 40 billion other stars in the Milky Way, some of which are millions of miles larger in diameter than our sun. Our own galaxy, the Milky Way, is just a speck among billions of other galaxies scattered throughout the incredible reaches of outer space.

Our own galaxy, the Milky Way, is just to be almost 100,000 light years in diameter. A light year is the distance that travels in one year at some six million million miles. The nearest star to earth is a little over four light years away.

Some of the nebulae visible in the 200-inch telescope at Mt. Palomar are as far as two billion light years away. They are speeding away from us all the time, which brings up another point.

Astronomers are not sure how large the universe may be, but many accept the theory that it is constantly expanding. How it happened was guessed by a Belgian prelate named Lamaitre. He suggested that all the matter in the universe was concentrated in a single primordial atom. Then it exploded, hurling chunks and pieces in all directions throughout the vast emptiness of space. Gravity, through eons of time, these pieces have been pulled into the universe of galaxies, suns, and planets.

The theory has it that all the galaxies are rushing away from each other at incredible speeds. Some galaxies are retreating from us as fast as 38,000 miles a second. To get a mental picture, one may imagine a balloon covered with pea-shaped pieces of paper glued to the outer surface. Start blowing up the balloon and you will see each paper galaxy retreating from every other one.

As far as adherents of the expanding universe theory know, this expansion has been going on since the big explosion. This tendency to make a one feel rather insignificant, doesn't it?

A Step Ahead

Edmonton Journal

A Russian newspaper complains that tipping has not yet been stamped out in the Soviet Union. It says that tipping would be the first attractive feature of life under Communism.

By Ed Reed

"It's such a nice day I thought I'd take my top down."

LOOKING BACKWARDS

GLEANINGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO

June 6th., 1938

Mr. John W. Carmichael, who received the degree Bachelor of Science from Queen's University, has gone to Toronto where he has accepted a position.

At the Ladies' Lawn Bowling Club Thursday afternoon the hostesses were Mrs. A. E. Wonnacott, Mrs. Mark Vanner, and Mrs. Frank Whittle. The winners at bridge were: Mrs. Fred Jobson and Mrs. B. J. Black.

At the Collegiate Institute and Vocational School last evening the officers and members of the Cadet Corps entertained at a very enjoyable dance. Dr. J. W. Howard and Mrs. Howard received the guests. Bud Haines and his Commodore Orchestra furnished an excellent dance program. Refreshments were served at midnight after which dancing was resumed. The following composed the committee in charge of the evening's affair: Boss Cizer, Ray Reid and Jack Dickens.

The renovation of Bridge St. United Church will commence the last week in June. The work will cost approximately $12,000.00. The church will be closed for six weeks commencement of where services will be held will be announced later.

30 YEARS AGO

June 6th., 1928

Salaman's Collection Agency is now located at 143½ Front Street.

Mr. Russell G. Cole has passed his third year in arts at Toronto University.

Miss Dora Chowe, Reg. N., Albany, N.Y., is visiting her parents, Mr. and Mrs. O. Crowe, Evans Street.

Mr. C. J. Mikel has returned home after a business trip to Toronto and Buffalo.

Mrs. F. R. Mather, New Haven, Conn., is visiting her sister, Mrs. P. H. Tilley, Bridge St.

Mrs. George Meadows, Vancouver, B. C., is here on a visit to his sisters, Mrs. J. E. Campbell and Mrs. Isaac Sills.

40 YEARS AGO

June 6th., 1918

The Albert College Dramatic Club under the direction of Miss Jessie Tuite, presented the play "Down in Maine" at the opera house in Madoc last evening. The entertainment was given under the auspices of the Madoc branch of the IODE and was much enjoyed.

Mrs. A. Laine and Mrs. H. Crossen of Roseneath are visiting Mrs. Edward Dearon, Murney Street.

The members of the cast of "The Girl from Kokomo" presented this humorous musical comedy in the opera house at Brighton last evening before a large audience.

50 YEARS AGO

June 6th., 1908

Mr. B. L. Welsh of Detroit, Mich., and Mrs. Walter Slack of Brockville are visiting their mother, Mrs. G. Backus, South John Street.

Mr. and Mrs. David Harrison will leave shortly to spend the summer at Elgin, N. B., where they will enjoy the ocean breezes.

Some of the roadways in this city are a good three inches thick with dust. If cleaned after the next rain, conditions would be much improved and citizens pleased.

Mr. Hers inspected the camping grounds on Prespoint Ile and Oak Hill Pond to see which is the most suitable for the YMCA boys' camp. No decision has as yet been made.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

LIKES AND DISLIKES

Likes and dislikes add a great deal to the complexion of things. You like this and you don't. You admire certain works of art or you don't. We live in certain likes and intervening dislikes because of some "like" that grips us. And here in free America we can say "likes" and "dislikes" as long as we violate no law nor take from another what does not belong to us.

What a funny world this would be if we had to adopt the ideas of another. It would squeeze originality and inventive right out of us all! The "likes" and "unlikes" in life are what create personality and wide variety. In a democracy the humblest citizen has a voice, for he can demonstrate it at will. It would be a strange world in which to live if we could never think excepting as someone else thought and no fresh opinion could force to the world. The likes and dislikes keep good fellowship and spark the ideas about. From fellowship leave upon an extended trip without the least book or so in my pocket so as to stimulate interesting talk.

Likes and dislikes stimulate thought and expression. I like to read what most intrigues the features in a newspaper — the letters from readers. You get both sides of a question from them. Letters, however, should be limited to the type printed because in the likes and dislikes of eaters. People "who know their food" are usually those who know a great deal about themselves.

THE PACKSACK

By GREGORY CLARK

There are more sport cars than there are sport cars. I know, for I myself clear. A sport car, by the usual definition, is a car that is smallish, often foreign cars designed for the sheer sport of driving more than for the purposes of transportation.

In Europe, for many years past, car driving has been pursued as a sport on a par with skiing, sailing and other swift, exhilarating pastimes. Britain, France, Germany and other countries are criss-crossed with ancient roads, some of them Roman style highways laid out as a string for miles, others winding through picturesque country of mountains, forests and moors. To scoot around them in a small, nimble sort of a sport car, even has been the sport that called for the sport car.

But, because the Canadian and American cars are capable of doing a little freight or passenger hauling for the purposes, or seven passengers does not rule them out of the realm of sport. The more you look at traffic today, not only on the summer highways but even in the heart of our cities, the more you have to conclude that it is the sport of driving that induces motorists to get behind the wheel.

But in this country, it is less like skiing, sailing or scooting than like driving.

Shinny on wheels.

To Your Good Health

By Joseph G. Molner, M.D.

UMBILICAL CORD CARRIES BLOOD FOR BABIES BEFORE BIRTH

"Dear Dr. Molner: Would you please discuss the cause when the cord wraps around the baby at birth, causing the loss of the baby. Why should this happen in just some cases?"

The umbilical cord carries blood vessels (two arteries and one vein) which circulate blood for the baby before birth. One end of the cord is attached to the placenta, and thus is in fetal position. The other end, of course, is attached to the baby at the umbilicus or "belly button," and the baby distinctly is not in fixed position. He moves around quite a bit, as any mother will confirm.

There is an enormous variation in the length of the cord, but the average is about 22 inches. Trouble as a rule does not come from cords of average length — the extremely short or extremely long ones can carry risks.

To show the amazing extremes, some cords are as short as one inch or less. Long ones have been reported up to 70 inches — nearly six feet!

Since the fetus, or forming baby, moves rather much, it sometimes manages to twist the cord or get it wrapped around him in various ways, perhaps around the trunk of the body, or around an arm or leg, or even around the neck.

As a usual thing it is wrapped rather loosely and does harm is done; if, in some instances, the encirclement is rather tight, it may not loosen as the infant grows. In rare instances this can cause loss of the baby, primarily by shutting off the circulation. But as I say, it must be remembered that this is an uncommon thing.

What I have in mind, of course, is the fact that women, not to have babies, may magnify the risk all out of proportion, and I don't want them to worry pointlessly from anything I have said. It does happen, but not often enough to be a reasonable cause for alarm.

SHORT IS MORE SERIOUS

If you're going to be adamant and insist on worrying, then worry about the cord being too short rather than too long. The excessively short cord can cause an umbilical hernia, which is more common after such a hernia does occur, and does not correct itself naturally, though of course it can be corrected surgically.

"Dear Dr. Molner: I am 84 years old and have bowel trouble. I still get my exercise as I'm unsteady on my legs and can't walk much at a time. I have to take pills. For breakfast I have milk toast, four prunes, a small glass of orange juice, and one cup of black coffee. Then I don't eat anything until supper time. Please advise on the proper diet for bowel movement. — C. A. G."

Being inactive, you don't burn up much "fuel" or food. You don't need a lot of calories. But if you don't eat enough, fluid, or left-over ash from your food, there's nothing much for the bowels to move. Therefore, the answer to your problem is to eat more food that will provide some bulk, without adding a lot of calories you don't need. My advice: Eat low-calorie foods, containing bulk, like vegetables (cabbage, lettuce, carrots, etc.) and fruits. Drink plenty of water, too, which is a "secret" that so many people of your age forget. I am willing to predict that, while it may not totally solve your problem, you'll notice enough difference to make it well worth your while.

"Dear Dr. Molner: What can cause pain around the heart? I had a cardiogram and there was nothing wrong with my heart, but I am very nervous. — R. R."

Most common causes of "pain around the heart" when the heart is normal, is simply something to worry about, then why not believe him? After all, you don't like to tell you the truth and be did.

Why suffer from sinus trouble? Much can be done to help you and it is explained in my booklet, "You Can Stop Sinus Trouble." To receive your copy, write to me in care of this newspaper, enclosing a large, self-addressed, stamped envelope and 20c in coin to cover handling.

Too Many MP's Play Hooky

Ottawa Journal

Only 70 MP's out of 265 were in the House of Commons to welcome the President of West Germany, and 195 MP's finally turned up to hear his speech.

Where were the other 137 ?

If they were sick and re-elected to be present, they were guilty of grossly bad manners. If they were not in the House they were guilty of truancy, of not doing the job for which they were elected and are paid.

There is too much of the last. And an MP, it is said, is now a fulltime job. It may not need to be. But that is the way round, but it should be a reasonably fulltime job when Parliament is in session.

The business of leaving Ottawa on a Friday afternoon and returning until the following Monday evening or Tuesday is not good enough.

MP's doing that should be told it must stop by whoever it is that has the authority to tell hem.

Strength for The Day

DR. EARL L. DOUGLASS

UNFETTERED

A friend of mine on routine check-up was told by his physician that he should give up smoking. As the doctor talked to him, my friend was packing his pipe with tobacco. When the doctor had finished speaking, my friend tamped the pipe, lit it with care, and, to his coat pocket. Upon arising, I filled my own pipe and the top shelf of his book case. There, for twenty years, it has remained. I still enjoy it, but tobacco he packed into it while in the presence of a friend.

How should we break our bad, or disadvantageous, h a b i t s? Should we do it right off the bat, as this man did? Or is it better to taper off?

This all depends on the temper-

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Bloomfield Library Ladies Hold Lilac Tea

PICTON — The lilac tea held Wednesday afternoon at Bloomfield town hall by the ladies of Bloomfield Library Board was delightful event.

The ladies were welcomed at the door by Mrs. Robert Alexander, librarian, and Miss Marjorie Gould. Miss Kate Smith, assistant librarian, accepted the fees.

The food table, supervised by Mrs. Lee Allison and Mrs. George Thompson, also the touch and take table and sale of books under the direction of Mrs. C. J. Greatrix, proved popular with the ladies.

The head table was prettily decorated with an arrangement of double white lilacs, red tulips and silver tea services at each end. Mrs. Ralph Clinton and Mrs. Arthur Wrightsmyer poured tea.

The guests' tables looked lovely with bouquets of purple and white lilacs, lillies-of-the-valley and red and gold tulips, and the delicious food was much appreciated by the guests.

Ladies assisting in serving were Mrs. Stephen DeMille, Mrs. John Mitchell, Mrs. Mitchael Holt, Mrs. Hubert Mann, Mrs. Morley Hicks, Mrs. Barnaby, Mrs. Douglas Hand and Mrs. William Dunning.

The following hostesses made reservations: Mrs. Jack Stenning, Mrs. Harold Kiilip; ladies of Picton Library Staff; Mrs. Waring Rabble, Mrs. J. N. Jackson, Mrs. Dunham Foster, Mrs. Hitchings, Mrs. Peter Cave, Miss Ruth Bowerman, of Bloomfield; and Mrs. Roy Herman.

The refreshment committee consisted of the following ladies: Mrs. Croft, Mrs. Maurice Pike, Mrs. Hazel Moore, Mrs. Charles Fralick, Mrs. Gus Turpin, Mrs. Clementine McQuaid, Mrs. Ross Piper, Mrs. George Atkinson and Mrs. Lee Thompson.

Crystal Chapter Holds Tea, Bake Sale

PICTON — The Orange Hall looked festive with spring flowers Wednesday afternoon when the ladies of the Crystal Chapter of the L. O. L. held their annual tea and food sale.

Mrs. May Thompson, the senior Preceptress, welcomed the guests.

Mrs. Lillian Pitt received the fees, and Mrs. Beatrice Rolston escorted the ladies to their tables.

The fancy work table, with Mrs. Catherine McCabe in charge, and the home baking table supervised by Mrs. Nina Jones, were well stocked with useful and delicious wares, and well patronized by the guests.

The color scheme of the head table was white and gold and looked charming with white linen cloth an arrangement of white lilacs and gold and white tulips, and silver tea services. Mrs. Florence Reid and Mrs. Grace May poured.

The small tables were prettily arranged with bouquets of lily-of-the-valley and golden buttercups.

SERVING

Those serving were: Mrs. Edith Pendelton; Mrs. Lillian Young; Mrs. May Whittard, and Mrs. Viola Lewis.

Mrs. Hagen made the tea.

The following hostesses entertained: Mrs. Mabel Blackburn, with party of Rebekah ladies; Mrs. Malcolm Rorabeck, Mrs. Rose Way, Mrs. W. H. Hylott, and Mrs. Dougherty, Belleville; Mrs. Charles Howard, Bloomfield, and Mrs. Rex Rolston.

TRUCK KNOCKS DOWN STRIKER TO SPARK FRACAS

Four pickets, including two officials of the Textile Workers' Union, were arrested after a fracas at the strikebound Stauffer-Dobble textile plant in Galt, Ont. Charged with being assembled to commit a breach of the peace, they were released on bail. The trouble occurred when a striker was knocked down by a truck. Strikers charge that the non-union driver speeded up, giving pickets trying to stop it no chance to disperse. Police say the driver tried to stop. The week-long strike is over work hours, which the men claim the company has refused to discuss.

DE GAULLE SAYS

(Continued from page 1)

As in Constantine and Bone Thursday, villagers from the surrounding area streamed into the city to see the new premier—some on trucks supplied by the army.

"France is here," de Gaulle told the cheering thousands massed in the Forum. "France is here in you, men and women of Algeria! She is here 'n her army which goes about its magnificent goal of security and unity with loyalty and honesty.

"It's up to the government to take note of what is going on here and to hope that the movement which sprang up here will embrace all Frenchmen everywhere."

ALL WILL VOTE

De Gaulle went on to repeat that a national referendum would be held in three months on the constitutional reforms he will propose and that all Algerians—French and Moslem—would vote in it.

He amplified slightly his previous announcement, saying, that from the referendum would emerge "a national institutions (presumably a parliament and a central executive for France) within which Algeria, like other parts of France, will have representatives."

"It is with these new institutions that we will see what has to be done."

But once more de Gaulle did not specify whether Algerians would be admitted to the French parliament on an equal population basis with the rest of France or how much self-government he would be willing to grant Algeria in the future negotiations with its representatives.

DEVELOP "HEAT" PLANE

LONDON (Reuters) — A stainless steel research plane to smash the "heat barrier" and fly at three times the speed of sound may result in development today. The 2,000 - mile-an-hour craft may be the prototype of future supersonic jet airliners, newspapers report. They say it is being built by the Bristol Aeroplane Company.

NEW WATER PERIL

COEUR d'ALENE, Idaho (AP) — A dog bit water skier John Secaur, 10, as a boat towed the boy close to shore Monday. The mutt, paddling around in the water, leaped up and caught the boy's right arm as John planed past. The bite wasn't serious.

Prince Edward Brucellosis Above Limit

TORONTO (CP) — Brucellosis testing has begun in Dundas County with no trace of the disease yet encountered, Ontario Livestock Commissioner W. P. Watson reported today.

Brucellosis, a disease inducing abortion in cows, has led some areas of the United States to prohibit cattle imports from areas not certified as free of the disease.

Mr. Watson said testing in Haliburton County has started but no report is available. Testing in Oxford and Prince Edward Counties was nearly finished, with both areas showing more reactors than permitted.

The figures in Oxford were 1.2 per cent of cattle and 15.7 per cent of herds, in Prince Edward 2 per cent of cattle and 6.4 per cent of herds. Infected herds are expected to be tested a second time in an effort to provide the counties with brucellosis-free certificates.

HUNTERS' CAMOUFLAGE

Eskimo seal-hunters often wear white cover-alls to make themselves invisible on the ice.

GOVT. TO IGNORE

(Continued from page 1)

Mr. Diefenbaker said the government is making strenuous efforts to expand and diversify trade. One of the ways in which it hoped to achieve its trade objectives was through the Commonwealth trade and economic conference in September.

He stressed that despite Canada's vulnerability to adverse market influences from abroad, over-all production and employment have declined less here than in the United States.

He attributed this partly to the vigorous measures taken to offset the current easing off in business activity." The government has attempted to adapt to Canada the remedies for unemployment prescribed by the world's leading economists, he said.

Among these were monetary policies designed to stimulate investment and consumption, measures aimed at maintaining a high level of personal income, steps to stimulate housing and public investment, provision of larger fiscal payments to the provinces and the launching of a public works program.

He expressed concern over the fact that prices are still rising and said this is a major deterrent to spending.

Plant Addition Means New And Longer Market Periods

PICTON — "Controlled atmospheric storage" provided for in an $100,000 addition now being made to Prince Edward County fruit growers' cold storage plant here, will mean new and longer market periods, according to George Lovell, manager.

This new type of storage, through balanced use of carbon dioxide and oxygen, puts apples to 'sleep'. In other words, it keeps the fruit dormant, without spoilage or wastage, so that the apple marketing season is extended several months. Too, apples coming from this controlled storage have better keeping qualities, it is stated.

According to manager Lovell, chains and large groceries are not much interested in purchasing apples from regular storage after the first of March. But they are interested in the extra quality apples coming from controlled atmospheric storage during the spring and early summer months. Only the best apples are put into this special storage and they command a premium of up to two dollars a bushel over apples from ordinary storage.

The new addition will provide storage of a unique type, the first-of-its-kind in Canada, except for a small Federal test plant at Smithfield. While apples are 'put to sleep' in some areas, the atmosphere here is new and different and may be used by the government for further tests. It is new from the standpoint that the two storage rooms, about 44 x 50 feet, have walls within walls with an insulating space between the outer and the plywood inner wall. This space is also used for the circulation of the gasses which put the apples to sleep.

As a result of the new addition, the local cold storage plant capacity is expanded from 60,000 to 80,000 bushels, and also available when needed is the H. Leavens' storage building nearby, holding 20,000 bushels.

Construction is expected to be completed by the McFarland Co. the first of August. The special refrigeration equipment, comprising compressor, two condensers and blower refrigerators, will be installed by the Canadian Ice Machine Co., by Sept. 1st., it is expected.

IRISH MATERIAL

The government building at St. John's, Nfld., was constructed of stone from Ireland in 1850.

Black as Crow, Catlike Animal Seen Near Galt

KITCHENER (CP) — A cat — like animal "that doesn't belong in this neck of the woods" was seen today in the nearby Willow Lake area by Harold Lawis of Galt.

He said he was working on a cottage on the Grand River near Doon when he saw an animal "as big as five of the biggest house cats I ever saw" and "as black as a crow." The animal was on a branch about 10 feet up a cedar tree.

It had a head like a cat "about six inches in diameter."

Other workers arrived to view it and one man approached to within 20 feet of the animal. He tossed a stone and it disappeared into the bush.

Residents in the area said they heard weird noises and district dogs barked all night. Waterloo Township police and department of lands and forests officials searched the area but found no sign of the animal.

Petition Asks For New Election In Deseronto

DESERONTO, Ont. (CP) — A petition calling for a new municipal election was circulated Thursday. Two mayors and two councillors have resigned successively this spring.

The petition is sponsored by Donald Browning, a salesman, who said he hopes to have 600 of the town's 960 voters support it.

Browning said he started the petition because he does not think the town has proper municipal representation.

The resignations followed a dispute over a proposal to ban the community's controversial speed trap.

Plane Spotters Will Hold Test

PETERBOROUGH, Onl. (CP) RCAF ground observers in Ontario and western Quebec will hold one of their largest aircraft spotting tests this weekend if weather permits.

"Operation Can Do," delayed a week ago by poor weather, will channel reports from 14,000 sky-watchers to ground observer corps centres in Peterborough, North Bay and Brockville.

The corps, a volunteer organization, will be searching for 60 RCAF aircraft operating out of North Bay, Ottawa and Trenton. The test is to see how closely the spotters' reports can map the planes' movements.

ENGAGEMENT NOTICE

Mr. and Mrs. Elgin R. Taylor, Enniskillen, Ontario, announce the engagement of their daughter, Evelyn Grace, to the Reverend Robert Franklin Sherwin, Belleville, son of Mrs. Frank Sherwin, Cobourg, and the late Mr. Sherwin. The marriage will take place on Saturday, July 5, 1958, at 3 o'clock, in Ridal United Church, Sollna, Ontario.

• • •

ENGAGEMENT NOTICE

Mr. and Mrs. Peter Mjolid, Leinan, Saskatchewan, wish to announce the engagement of their youngest daughter, Gertrud Randi, to Dr. Hedley James Barlow, son of Mr. and Mrs. John Morley Barlow, Bonarlaw, Ontario. The wedding to take place July 5th, St. Olaf's Lutheran Church, Swift Current, Saskatchewan.

• • •

Mr. Frank (Fessie) Sager of Belleville, a former resident of Tweed, and brother of Mrs. W. A. Beatty, Mrs. C. B. Mumford and John O. Sager, is seriously ill in Belleville General Hospital.

• • •

Capt. Douglas R. Carr, Kingston, was recently presented with the Canadian decoration for 12 years service in the Canadian Army. This is the second long service medal Captain Carr has received. A native of Belleville, Captain Carr is being transferred to Calgary, Alberta, in the near future.

• • •

Dr. J. C. Allison has joined the secretariat of the Ontario Medical Association. His duties as assistant secretary commenced June 1st. Dr. Allison is a son of Mr. and Mrs. C. J. Allison, Herchimer Avenue.

EUCHRE

At the regular weekly euchre party of the Ladies' Auxiliary to the Canadian Legion held in the Legion hall, Pinnacle Street, there were eight tables in play. The winners were: ladies, Mrs. N. Shaw; Mrs. J. Chapman, Mrs. W. Gray; men, W. Gray, Mrs. B. Bowes and Mrs. W. Hoseman.

Wedding

WICKENS — DICKENS

Before an altar banked with white mums, pink gladioli, apple blossoms, and tulips, interspersed with ferns, a lovely spring wedding was solemnized on Saturday, May 17, at 2:00 p.m. in Plainfield United Church, by the Reverend R. W. T. Middleton, when Doreen Adelle Dickens, of Plainfield, daughter of Mr. and Mrs. Charles Dickens, became the bride of William Milford Wickens, of Ivanhoe, son of Mr. and Mrs. Charles Wickens.

Mrs. Harry Harrison, of Plainfield, rendered the wedding music, and accompanied the soloist, Mr. Boyd Moorcroft, of Belleville, as he sang, "I Walk Beside You", before the ceremony, and "Because" during the signing of the register.

Given in marriage by her father, the bride was charming in her bridal gown of white nylon net over satin, accented with handkerchief lace, and fashioned with molded bodice, having short-sleeves, and full length skirt of net over satin. She wore three-quarter length, finger-tip gloves, a coronet studded with seed pearls, and finger-tip veil of nylon tulle. Her bouquet was of red roses mingled with button mums. A single strand of pearls with matching earrings, completed her ensemble.

Miss Betty Dickens, sister of the bride, as maid of honor, was gowned in rose green nylon chiffon over satin with matching feather headdress. She wore three-quarter length gloves and matching shoes, and carried a bouquet of orchid-colored mums tied with yellow lace and satin ribbons.

Miss Beverly Clapp, cousin of the bride, as senior bridesmaid, wore pastel yellow nylon crystalette over net and satin with matching feathered headdress, gloves and shoes, and carried yellow mums tied with green lace and satin ribbons.

Miss Sharon Wickens, sister of the bridegroom, as junior bridesmaid, was attired in pastel pink nylon crystalette over net and satin, with matching feather headdress, gloves and shoes, and carried a bouquet of white, silver-brocaded ballerina shoes. She carried a bouquet of white mums tied with pink lace and satin ribbons. All attendants wore single strands of pearls with matching earrings.

Mr. Mark Kelly, of Crookston, attended the bridegroom, while Messrs. Ray Dickens, of Plainfield, brother of the bride, and Bonnie LaChappelle, of Ivanhoe, were ushers.

Following the ceremony, the reception was held at Plainfield Orange Hall, where the bride's table was prettily appointed with white damask, and centred by a three-tier, pedestal wedding cake, topped by a miniature bride and bridegroom, and flanked by tall, pink candles in crystal holders. The bridal bouquets lent a lovely musical accent.

Those serving included eight cousins of the bride: those at the bridal table were, Yvonne King and Joyce Gray; while Rita and Joyce Jenkins, Sharon Dickens, Myrna Dickens, Gloria Sherwin and Marlene Clapp were in charge of the guest tables. The Plainfield Couples' Club catered.

Receiving the numerous guests were the bride's mother, wearing dusky-rose chiffon over taffeta fashioned in sheath style with navy blue accessories, and corsage of yellow roses. The bridegroom's mother assisted gowned in sateen pink with pink flowered hat, white accessories, and corsage of red roses.

For the wedding trip to Niagara Falls and the United States, the bride chose a green and white polka dot poplin dress with boat neckline; pink accessories, matching three-quarter gloves, and corsage of pink roses.

Mr. and Mrs. Wickens are residing at 74 Pine Street, Belleville.

Guests were present from Niagara Falls; Belleville; Trenton; Pickering; Ivanhoe; Crookston; Bolin; Marmora; Peterborough; Stirling and Plainfield.

Previous to her marriage, the bride was the honored guest at a miscellaneous shower held at the home of Mrs. Clarence Parker, and at a community shower held at Plainfield Orange Hall for the young couple, when a purse of money was presented.

Front Road Y.P. Group Makes Presentation

Last Monday evening, after the regular ball practice, the Front Road Young People's group met at the home of Mr. and Mrs. Roy Clazie for a brief business meeting.

Following the meeting, Bob Reid gave a brief address thanking Miss June Reid, bride-to-be, for her untiring work in the group, and on behalf of the group members, presented her with a clock.

Miss Reid, though greatly surprised, expressed her appreciation to the group for their gift and their gracious kindness to her.

During a sing-song of popular songs, the hostess prepared a delightful tea table centred with a three-tier cake appropriately decorated. A social hour was enjoyed by all.

Named Advertising Woman of the Year

TORONTO (CP) — Mrs. Grace McGuiness of Brantford has been named advertising woman of the year, it was learned Thursday night.

Mrs. McGuiness is a director of the Association of Canadian Advertisers and advertising and sales promotion manager of S. C. Johnson of Son Ltd., Brantford.

Art Critic Lauds Work Of Local Artist

"A strong sense of design," "A tremendous amount of atmosphere" were descriptive phases flowing from the lips of Kingston art critic Ralph Allen in appraising the Dolly Cain "one man show" at the McCarthy Theatre Wednesday night.

Mr. Allen, who drove from Kingston with Mrs. Allen and Mrs. F. M. Smith to pass judgment on the local artist's efforts, commented: "Mrs. Cain has succeeded in expressing a strong emotional impact with spontaneity and sincerity. This inspirational force is most pronounced in her landscapes."

FINE SENSE OF DESIGN

"Reflection XII" has a fine sense of design and atmosphere. The subtle blending and shading of deep colors is most pleasing."

"Spring II captures the feathery lightness of early spring growth in a delicate flame of color archoried just in the strong river shadows," Mr. Allen commented.

"Summer III is daring in design, arresting in tone and symmetry portraying the artist's strong sense of vertical lines."

"Winter" and the "Bay of Quinte" bespeak the spontaneous, impressionistic touch which is so much of the successful artist. These are two paintings I would like to have in my own home."

"The emotional force so definitely expressed in Mrs. Cain's landscaping has apparently not been similarly evoked by the inanimate objects of still life and, she has consequently not quite succeeded in expressing the same spiritual freedom and skill in this sphere."

"Her portraits are good but require more character emphasis. Of this group, I would say "A Girl" is definitely her best. Its impact and penetration are striking.

WORK PROMISING

In observing the sketches of youngsters instructed by Dolly Cain, Mr. Allen commented: "Art gives children a wonderful opportunity to express a latent creativeness and to explore things within themselves".

Among the junior efforts scething Mr. Allen's discerning eye were "Shooting Rapids" by David Lane, a "Wigwam" by Paul Serven, 8, and "Rooster" by Janis Dawson, 8.

Mrs. Allen and Mrs. Smith also observed the show keenly, confirming Mr. Allen's impressions.

Mrs. Smith emphasized the need for a permanent art gallery in Belleville. She stated that "Permanent art galleries are now been established at Queen's, Guelph, and McMaster Universities and in the public libraries of Peterborough, Oshawa and St. Catharines. It ran be expected that the new addition to the Corby Public Library will perhaps offer a similar opportunity for an art gallery in Belleville."

EXPECT RECORD CROWDS AT STRATFORD

Engrossed in studying for her role in "The Winter's Tale" in this summer's Stratford Festival, Saskatchewan-born Frances Hyland finds son Evan a distraction. With advance sales at a record high, festival officials are expecting 210,000 visitors, more than the "island paradise" of Hawaii draws all year. The curtain goes up at Stratford on June 23 and will continue until Sept. 13.

Hard to Remember

Traditional Names for Fish Often Perplex Housewives

LONDON (CP) — If Madam talks to the right fishmonger, she can pick up a few pounds of dog's teeth, piper, tope or atherine for dinner.

At the next stall she may be offered the same choice, going under the names of old wife, latchet, nurse and silversides.

All of these, a recent arrival from Canada, she may be confronted with a string of additional aliases without having the faintest idea what she'll find in her frying pan.

The names, most of them hallowed by long-standing local tradition, have been compiled and published by the ministry of food and the National Federation of Fishmongers as a guide to the perplexed housewife.

A few examples of aquatic synonyms:

Flake, nurse, larger spotted dogfish, rough dog, blackmouthed dogfish, tope, smoothround, picked codfish, spur dog.

Smelt, atherine, silversides, sand-smelt, sea smelt.

Gurnard red, cuckoo, grey, streaked, lanthorn, armed or sapphirine), piper, tub, latchet.

Sea - bream, dog's tech, old wife.

Municipal authorities are engaged in negotiations with the ministry and the federation in the hope of producing a list of standard names.

A London fish trader said he wouldn't like to see all the old names disappear. But he added: "I find it hard to remember all the names myself."

Underselling Perhaps Better Part of Wisdom

MONTEAL (CP) — A housewife has told Canada's industrial leaders that business may have reached the moment when "underselling may be the better part of wisdom."

"For successful selling has a reverse side and the naked truth might be quite exciting after the fancy clothes it has worn so long," Mrs. H. E. Vautelet, immediate past president of the Canadian Association of Consumers, said Thursday. She was addressing the public relations conference during the annual general meeting of the Canadian Manufacturers' Association.

She said the country may be entering a new economic pattern characterized by "a vocal consumer consciousness." This would create headaches for those who sell, but would also open new avenues of communication.

"Selling at all costs—by all means—is a dangerous narrowing of your sights that tends to reduce consumers in your eyes to the status of sheep to be sheared, but not necessarily served."

Mrs. Vautelet said high fashions, over-fancy packaging and streamlined household tools that

Career Girls Must Observe 2 Cardinal Rules

By DOROTHY ROE

NEW YORK (AP) — The sky's the limit for girls seeking careers in television—if they observe two-ness—if they observe two cardinal rules:

1. Never let men feel you are competing with them.

2. Always make the boss look good.

The authority for this advice is a blonde dynamo named Rose Tobias, who holds down one of the most important jobs in television. As casting director for one of New York's biggest producing firms, she chooses the casts for major TV and Broadway shows and the movies.

"It's a man's world—and thank goodness it is!" says the glamorous Rose. "But there's plenty of opportunity in it for women, too, if they don't go around making noises like feminists and carrying a constant chip on the shoulder.

"I never try to make a man think I'm smarter than he is, and I always believe in making the men I work with look good."

In the Talent Associates firm of which Rose is an executive there are 18 girls and seven men. Currently Rose is working on the TV production of Member of the Wedding.

To the thousands of college girls who will ask her, or their mother, diplomas in hand, looking for jobs in television, Rose has some more specific advice:

"The way to get your toe in the door is to start as a secretary," says she. "That's the easiest and quickest way for a girl to start a career in any field. Every business always needs competent secretaries. But when you're in that job, you can pick up knowledge.

"I think in my business the bosses would rather give a break to a bright girl already working in the organization than hire someone cold from outside.

"So whatever kind of career you have your eye on, you'll find it easier if you start out with your stenographer's notebook in hand, do your best job you can with the old typewriter, and watch your chance to get the specialized kind of work you want."

ISOLATION WARD IS GRADUATE'S REWARD

A week in isolation ward in Margaret Wardell's reward for graduating from General hospital in Hamilton, Ont. Looking forward to the graduation ceremonies, the 20-year-old children's nurse couldn't contain her tears when a case of chicken pox "isolated" her from attending graduation.

Women's Activities

MADOC-ELDORADO WMS

ELDORADO — The Madoc and Eldorado Missionary meeting was held on Tuesday evening in the Standard Church, Eldorado, with 17 members present.

The president, Mr. Post, opened the meeting. Scripture reading was taken from Revelations 3.

Mrs. Elgin Post had a reading on the "Life of Joe Chan" and one was read by Mrs. McCann, "Be Careful What You Say."

There were 17 members present. Offering was $10.65.

The Rev. F. Dunning gave an interesting talk on, "Who Is My Neighbor?" Prayer was offered by Mr. Root for the missionary in the foreign field.

The Experts Say

Pattern of Family Life Changing in Changing World

by EDNA USHER
Canadian Press Staff Writer

TORONTO (CP) — Whether we like it or not, the pattern of family life is declining in a changing world, says Miss Mary Clarke, Canadian home economist.

Miss Clarke is chairman of the International Federation committee of the Canadian Home Economics Association, and as such is helping to organize the Canadian side of the ninth international congress on home economics at the University of Maryland, at College Park, Md., from July 28 to Aug. 2.

Just how families are changing, and why, is among topics to be discussed at the congress.

Examples of changes are farming, but not far to seek, said Miss Clarke.

"Increasing industrialization brings some of the same changes to Norway as to New Zealand. Many married women in paid employment outside their homes create similar homemaking problems in Sweden and in the U.S.A., and

MANY COUNTRIES

Among these changes, said Miss Clarke, is the increasing emphasis being placed on managing family cash and on personal relationships within the family.

Community and public services are increasingly providing services formerly carried on within the home.

"In many countries, when women work outside the home to supplement the family income, husbands and children give more assistance with the homemaking tasks," reported Miss Clarke.

The conference will be attended by about 1,000 persons, 75 of them from Canada, and will be followed by a school of home economics projects in Ontario and Quebec.

Home economics services in Canada are run by the federal and provincial governments and home economists are engaged chiefly in teaching about such things as good home management, and in organizing courses to train teachers in handicraft, nutrition, child care and anything connected with a family.

Detailed Suit

By GRACE THORNCLIFFE

Here is a suit that can be worn with or without the curved, down - dipping belt that buttons onto the side front. Curved seaming marks this bright navy novelty — weave wool outfit, extending from under the arm to below the waist in front. This classic collar is cut low enough to show a pretty blouse neckline.

EDITOR'S NOTE: *The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an actual case history. The Council reports on problems that have been dealt with by social agencies and counsellors.*

Arnold F. — I don't like Lla's card playing.

Elizabeth F. — I'm doing nothing wrong.

Arnold F. — My wife and I have been married 11 years and have three young children. About two ago I went into business for myself and then all our troubles started.

My work is mostly night work. I don't get home until nearly midnight. When I get home my dinner is on the table and my baby sitter is there with the kids. My wife is out playing cards. Even Saturday and Sunday, when I am home, she has card games either in our house or in some other woman's home.

I realize it is pretty lonely for her leaving me away every evening, but I think that two nights a week should be enough for card games. Liz is a good player and has made more than she has lost at cards, but I just don't like it.

Elizabeth F. — She says Arnold talks about it; you would think I am committing some terrible crime by playing cards. I am doing nothing wrong. I'm the restless type and I just can't sit still in the evening.

It's not just the cards, it's the sociability and the fact that I go out of the house for a few hours that I really enjoy.

Nobody can accuse me of neglecting my home and family for card games. If I do say it myself, I am an excellent homemaker. I keep my place in top shape and take good care of the children.

Before I leave the house I see that they are in bed. They watch TV until they fall asleep.

It would be different if I lost money, but Arnold himself admits that I am a very shrewd player.

The Council: Both husbands and wives often feel humiliated if their mate shows signs of any obsessive habit. It is rightfully assumed that obsessions indicate some form of emotional, mental or moral ill health.

Card playing every night of the week is certainly an obsession. The restlessness Elizabeth feels is not the normal urge toward varied activity suppressed by any person with surplus time and energy on his hands.

It is really a kind of anxiety, experienced when an addict is deprived of his particular compulsion. Healthy restlessness would express itself in many different forms of activity — handwork, headwork, social life, civic concerns, family planning and many other things.

Elizabeth finds herself when she says "it isn't the cards, it's the sociability." Sociability is doubtless available to her in other forms, but she closes her eyes to these opportunities. She also fools herself when she claims that she is fulfilling her responsibilities. She may feed her children and put them to bed on time, but she has substituted for a parent every evening.

It's a very poor substitute, especially in view of the fact that these children see little of their father. The family dinner firmly finds on the table when he comes home. Also a very poor substitute for a welcome from a wife.

Elizabeth should certainly make an effort to cure herself of the card-playing habit and to find worthwhile activities in her own home for at least five nights a week. The process of throwing herself into other endeavors with real enthusiasm will in itself act as a cure for her obsession.

GOOD MANNERS

By Mrs. Beekman

AVOID MAKING INTRODUCTIONS THAT "GIVE ORDERS"

Dear Mrs. Beekman:

Will you please tell me what is meant by "an introduction that gives orders"? I've never heard this expression until the other day, and I have no idea what it means. Could you identify it by meaning from what I've said?

G. S.

I think I know what this refers to. It is the form of introduction that is a command to the person being introduced. For example, "meet . . . ."; "meet my friend." "meet my wife," or "meet my husband"; or "shake hands with"; "let me make you acquainted with"; "make the acquaintance of"; "let me introduce" or "allow me to introduce." All these "command" introductions should be avoided!

GRACEFUL WAY TO THANK FOR MONEY GIFT

Dear Mrs. Beeckman:

We are to be married soon, and since our plans about setting up housekeeping must be uncertain because of my fiance's military service, some of our relatives and close friends have said that they are planning to give us checks of money as wedding presents, for us to choose what we would like when we do have a home. Some of our own. When I write my thank-you notes for these gifts, do I mention that we are "money," and should I mention the novelty — weave wool outfit, extending from under the arm to below the waist in front. This classic collar is cut low enough to show a pretty blouse neckline.

Don't mention that the gift is a "money gift" or "check," and certainly do not mention the amount. In your thank-you notes refer to the check or the money as "your generous (or very generous) gift. "Perhaps somewhat like this: "You and Bill were so kind to Don and me, and we thank you deeply for your very generous gift and for your very thoughtful plan. When we know when and how we are to have a home of our own, we're going to have such a happy time buying with your gift something that will always remind us two dear friends and your goodness to us."

SEATING TWO COUPLES IN THEATRE

Dear Mrs. Beeckman:

When two married couples go to the theater together, what is the proper seating-arrangement? C. R.

The correct and usual procedure is this: first Husband with goes in the row; next, Wife Brown; then Wife Smith; then Husband Smith. If one of the men is host, he should go in the row last, taking the seat nearest the aisle.

HOST MENTIONS GUEST'S ORDER FIRST

Dear Mrs. Beeckman:

The other day you said in your column that when a couple are dining together in a restaurant, the girl should give her order to the man, her host, and then he gives both orders to the waiter. Is he does this, whose order should be mention first, or doesn't that make any difference?

— Edith K.

When giving the two orders to the waiter, Mr. Host should mention his guest's order first. This is a nice compliment to her.

ANCIENT FLOWER

Carnellias were grown in China and Japan centuries before the flower was brought to Europe in the 17th century.

Readers' Friday Column

As Conducted by Mary Moore

QUESTION:

. . . I'd like a recipe for mayonnaise, much like the commercial type, one made with dried egg powder perhaps, milk powder and condensed milk, plus mustard, vinegar, oil and seasonings. I want to make it in large quantities to mix with meat sandwich spread. Could it be frozen after it is mixed with meat? . . . Mrs. L. G.

ANSWER:

Dinner Menus

by Mary Moore

FRIDAY

Pan-fried Pickerel Fillets; Lemon Butter; Spinach with Slivered Almonds; New Potatoes in Jackets; Fresh Pineapple, Strawberry and Banana Fruit Cup; Cookies; Coffee.

ECONOMY MAYONNAISE

(1 gal.): "A" Part: 5 cups boiling water, 2 oz. salt, 4½ oz. cornstarch, 1 cup cold water. Combine boiling water and salt. Mix cornstarch and cold water to a smooth paste. Add to boiling water. Cook slowly, stirring frequently, until thickened and clear. Leave of raw starch remains. Cool to lukewarm. "B" Part: 4 egg yolks (or 2 oz. egg yolk powder beaten into ½ cup cold water), 2 tablespoons sugar, 1 teaspoon paprika, 1½ tablespoons mustard, 1½ cups vinegar, 3 tablespoons onion juice, 2 quarts (10 cups) cold salad oil. Combine egg yolks (or egg yolk powder and water), paprika, mustard and sugar. Add 1 cup vinegar and onion juice. Mix well. Add oil in a fine stream, beating constantly. Increase rate of flow as emulsion forms. Heat remaining ½ cup of vinegar and add gradually, beating until thoroughly combined. Add cornstarch mixture. Beat well. Store covered. Mayonnaise or mayonnaise mixtures are never frozen.

QUESTION:

What I would like to know. 1) How much raw rice does a person need. When she wants 4 cups, when cooked. 2) How much macaroni raw does a person need when she wants, say 4 cups when cooked. 3) How many raw navy beans, does a person need when you want 4 cups when cooked. This is hard to guess. Always get away too much. 4) How many raw noodles does a person need to have 4 cups when cooked. 5) How do you brown flour for making gravy without burning it . . . Unsigned.

ANSWER:

The numbers are mine to clarify my answer. 1). 1 1-3 cups rice cook to 4 cups. 2). Macaroni doubles in bulk. 1 cup uncooked = 2 cups cook to 4 cups. 3). 2 cups navy beans cook to 4 or 5 cups, differences depending on size. Smaller beans yield smaller amount. 4). 3 cups noodles cook to 4 cups. Noodles swell very little on cooking. 5). Brown flour gently over low heat, stirring constantly until desired shade of tan.

WORKING AUTHOR

Louisa May Alcott, American writer who died in 1888, at various times was a teacher, seamstress and house servant.

If your steam door bumps in a high wind, use fasten it from the outside when you are closing. Simply affix a screw eye to the outside of the door and latch.

Mother's Helper

THAT beautiful long hair can get in a terrible tangle now and then in spite of your best efforts. When this happens, have Mister hold an offending lock tight next to her head. Then hold the same lock a bit farther down, and go to work from the bottom up. It's doubtful it shall feel any pulling.

Do It Yourself

Good Partitions Need Backing at Weak Spots

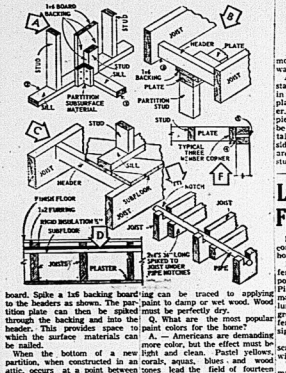
By J. RALPH DALZELL

Author of Books on Home Building and Repair

Many readers have encountered trouble when erecting frame partitions during remodeling because they failed to plan the details of the work correctly. The following suggestions will be helpful.

Some partitions (2 and 3 in picture A) intersect at 90 degrees. Trouble could occur if the backing were not provided as lathing or other surface materials could be applied. To provide the backing, spike a 1x6 board to the back of the intersecting stud. Then, as indicated in the picture, a surface will be provided.

When the top of a frame partition occurs between the joists of a floor or between the rafters of a roof (picture B) headers and backing are required. Toe, spike 2x4 headers between the joists or rafters as shown, spaced sixteen inches on centres. Note at 3 that the bottom of the headers must be above the bottom edges of the joists or rafters a distance equal to the thickness of the backing board. Spike a 1x6 backing board to the headers as shown. The partition plate can then be spiked through the backing and into the header. This provides space to which the surface materials can be nailed.



When the bottom of a new partition, when constructed in an attic, occurs at a point between floor joists. See picture C. The rough flooring alone cannot provide enough support for the partition without risk of sagging. Install 2x4 headers spaced 16 inches on centres as shown to provide the proper support. Note that the headers must be under the subfloor and that the partition plate must be above the subfloor.

Three alternatives be used somewhat as shown in picture F at a corner where two partitions meet. Note the space (S) between two of the studs. This construction provides backing for the surface materials.

When attics are remodeled it is wise to consider floor insulation so that little sound is transmitted to the rooms below. This is expensive, and will not stop all sound transmission, but if extra expense is not a consideration, the insulated floor is worthwhile. The insulation can be placed under the subfloor as shown in picture D. Do not nail the insulation in place. Cut it to fit and make sure it covers all of the subfloor. Use either half or one inch thick rigid insulation. Nail 1-1/2-inch wood furring strip directly over each joist. The dead air space helps reduce sound transmission. Be sure to use high holding power nails long enough (at least 12d) to go through the strips, insulation, subfloor and well into the joists. This is important. Without proper nailing the floor might bounce when walked upon. Apply the finish floor (hardwood or plywood for use with asphalt tile or linoleum) to the furring strips.

When remodeling requires new plumbing and if notches shown in picture E must be cut in the joists, be sure to reinforce the joists as shown in the picture. Use 20d spikes so they can be clinched. Each of the reinforcing 2x8 pieces should have at least five spikes.

QUESTIONS AND ANSWERS

Q. — What causes paint to blister?

A. — Almost all paint blisters or light, solid or open.

Board fences appeal to men with a do-it-yourself yen. Regardless of the design, there are certain basic rules for a board fence. Sturdy posts are essential —such as 4 by 4s — and these should be spaced no more that 8 feet apart.

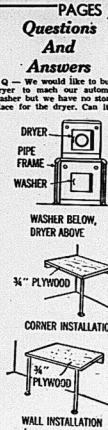
Post holes should not be much larger than the size of the post. Use of a post hole dizzer, which can be rented in many cases, makes this possible. The hole should be about equal to a third of the length of the post. Tamp 2 inches of gravel in the bottom of the hole before sinking the post and then tamp the earth firmly around the post.

Proper nailing is important. Use aluminum or other non-rusting nails. Boards 1-inch thick call for eightpenny nails and each board width of 6 inches or less calls for two nails, widths of 8 inches or more call for three nails.

Questions And Answers

Q — We would like to buy a dryer to mach our automatic washer but we have no storage place for the dryer. Can it be mounted in any way over the washer?

A — The dryer could be installed "piggy back", as shown in the sketch, by building a platform for it above the washer. Legs of one-inch pipe and a piece of 3/4-inch plywood should be strong enough — but be certain the cleats supporting the side or sides against the wall are securely fastened to the wall studs.



Let Fence Style Fit Your Home

Fences, like everything else connected with the modern home, are changing styles.

Picket fences and split rail fences continue to hold their popularity, but the Western Pine Assn., which comprises more than 100 saw mills and lumber producers, reports a growing trend toward board fences of various individual designs.

Woven fences, angled board screens and paneled fences are winning wide favor.

The reasons for a fence are many. It may be designed to keep out intruders, to keep children or pets in, or for backyard privacy. It can be used to add balance to the architecture of the house, such as making a tall, narrow house seem wider. It may serve as a background for flowers or vines, or as a separation between the service area and the yard, the vegetable garden and the flower garden, or the children's play area and the rest of the grounds.

A fence also can screen your yard from objectionable views or it can serve as a windbreak.

Decide on what you want your fence to do before you decide whether to make it sturdy enough to last for many years.

Q. — When is a good time to plant grass seed?

A. — During cool weather. Early spring planting will allow the young grass plenty of growing time before dry summer weather can be traced to applying paint to damp or wet wood. Wood must be perfectly dry.

Q. What are the most popular paint colors for the home?

A. — Americans are demanding more color, but the effect must be light and clean. Pastel yellows, corals, aquas, blues and wood tones lead the field of fourteen best-selling colors for home decoration.

Painting a Ceiling Without Lap Marks

In painting a ceiling you can go to town with a roller if you paint with the first with a two-inch brush. Experts recommend rolling forward and back, overlapping the strip you have painted with a brush. Roll a second and third strip in the same way, overlapping each strip slightly. Then to level the surface, roll across the strips. Continue over the ceiling in this manner, but be sure to do the entire ceiling at one session. This will prevent lap marks from showing.

All the above trays can be fashioned from fir plywood and finished to suit the taste of the recipient.

Your lumber dealer has other good fir plywood ideas. He can supply tips on making and finishing a variety of plywood furniture pieces and toys.

Men handy with tools can work details for trays similar to the ones shown.

Sanding Is Vital To Floor Finish

Smooth sanding is the most important part to good hardwood floor finishing job. Scrape and sand with the grain, lengthwise, using a cushioned hand sanding block or a belt type power sander — never a disc sander. No. 2 or 2 1-2 sandpaper will level off high spots and joints. No. 1 is used for a second cut. The final and most important step is finishing with No. 0 or 00, or both. The finest finish never conceals poor sanding.

COMB PAINT BRUSHES

Even the best paint brushes have a few loose bristles. Run a comb through a new brush before using it and while it against your fingers to release these strays and you won't be annoyed trying to pick bristles off a wet painted surface.

Contemporary Styling

BRICK VENEER makes the exterior of this one-floor home impressive. A planting box with trellis, right of the entry, adds a decorative touch. Two big picture windows flank the entry. Two small high windows are in the master bedroom.

BY JOAN O'SU LIVAN

Brick makes today's one-floor home, Design H-237-KF, look most impressive. It's a charming dwelling designed in the modern manner.

The living-dining area runs from front to back of the house, has an exposed beam ceiling. A wood railing surrounds the basement stairway, located in the dining area.

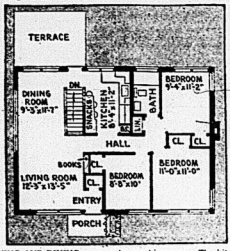
MANY WINDOWS

There's lots of light in this combination room. Picture windows are placed at front and back. On the side wall, in the dining area, there's an unusual window shaped like an inverted L. It provides ventilation but without breaking into valuable wall space.

A terrace adjoins the dining section, so that entertaining can expand outdoors when the weather's nice.

ATTRACTIVE KITCHEN

The kitchen is as attractive as it is efficient. A dowel-type trellis above the snack bar deco-



LIVING AND DINING areas make one big room. The kitchen is at back. Three bedrooms and a large bath are at right.

ratively cuts off a view of the basement stairway. The work centre, arranged in an L, has real step saving plan. Double windows look out on the yard and the kitchen is only a step away from the doorway to the terrace.

Bedrooms are on the right side of the floor plan, reached via a hall which runs from the living room past the kitchen. There are three.

MASTER BEDROOM

The front corner bedroom is the master bedroom. It has good closet space, high corner windows and will accommodate twin beds. The window arrangement provides light and air but without cutting into wall areas needed for furniture placement.

The rear corner bedroom is only slightly smaller. Its three windows overlooking the yard.

The third bedroom's planned to serve as a guest room or den.

A full bath, with adjacent linen closet, has a convenient loca-

Canadian Garden Service

VITAMINS

Most people grow vegetables because they like to eat them. But there are valuable vitamins in these things, too, in case one is interested. Lettuce, for instance, and especially leaf lettuce which is more exposed to the sun than the other kinds, is high vitamin A. Carrots will supply the same vitamin and for a change, eating this vegetable of course will keep well in storage. For vitamins B and B2 as well as A, kale is highly recommended. It contains about twice as much vitamin as ordinary cabbage and it is easier to grow. For the highly prized vitamin C nothing is better than a fresh tomato. The season can be greatly extended by planting an early, a medium, and a late sort.

FRUIT TREES IN THE GARDEN

Most beginners at least will want some fruit trees in the garden no matter how small. There are some disadvantages, however. Trees have a habit of growing very large and fruit trees must be sprayed regularly to avoid injury to foliage and fruit. Fruit may drop in large quantities which makes the garden, and especially a lawn, most untidy and invites flies. Instead of planting full sized trees in the middle of the lawn or garden one is advised to investigate some of the new dwarf fruit trees that have been developed. These make possible production in small areas. Spraying with hand equipment is simplified and these dwarf trees yield the right amount of fruit for the average family.

Another practice is to espalier the trees against the sunny side of a wall or fence. Or they may be grown as low-pruned bushes or hedges with clipped grass, gravel, brick or flagstone walks in between. When grown in this way, dwarf trees should be chosen. Good dwarfing stocks are available for apples and pears but not for other kinds of tree fruits.

Dwarfed trees can also be planted close together in rows and tied to a trellis. If pruned in the form of a bush or a solid hedge the growth can be kept in height and width to a size convenient for care.

One of the big advantages of this methods of culture is that much of the fruit can be protected from birds. Apples and pears can also be gathered for best flavor before there is much bird damage.

Most birds do far more good in the garden than any harm. They will help keep down bugs and unwanted seeds, and they are beautiful and interesting to have around. Shrubs and trees, bird houses, feeding stations and watering or bathing pools, all will help to bring wrens and orioles and robins. But there's one no more than this. There are certain bright flowers that have a special appeal for hummingbirds. There are all sorts of shrubs with bright and edible fruit or seeds that will invite cardinals. There are others that are particularly attractive for the gold finch. It pays well to study the special likes of the birds, to plant things that will produce food and shelter in winter as in summer.

FOR EDGING

A new petite or dwarf annual that will be seen for the first time in gardens this summer is Wee Willie sweet william. This new strain of the old favorite garden annual is truly dwarf, a perfect edging plant. It grows no higher than six inches. Flat, inch long bloom seven to eight weeks after seeding. Individual flowers are three-quarters of an inch across in combinations of crimson, ruby, rose, pink and white.

Here's a Tip on How to Saw Full-Size Fir Plywood Panels

Remodelling an attic or basement room is not difficult if plywood paneling is used. Cutting the 4x8-foot panels of fir plywood can, however, raise a few problems.

If the walls to be panelled can be planned in advance so that studs are spaced 16 inches apart (centre to centre) and height from floor to top plate is approximately 8 feet and 1-2 inch, little cutting of the full size panels will be needed. Panels will meet on studs with nailing surfaces occurring at all edges.

No matter how you plan it, however, some panels will have to be sawn to fit (to let in doors, windows, etcetera). If work is being done with a handsaw it is sometimes difficult to reach across the panel supported on sawhorses to do the cutting.

One good way to overcome this difficulty is illustrated above. Here the panels are supported on 2x4's leaning at an angle to the wall. With the panel thus supported it is not difficult to control a saw cut for the full width of the panel.

Cutting is easier in general if plywood panels are supported on a firm base. One good way is to lay two 2x4's across sawhorses placed about 6 feet apart. The platform thus formed with the 2x4's nailed parallel and about 3 feet apart will be solid and convenient to work on. With the fir plywood solidly supported the saw operates smoother and faster with less chance of splintering at the cut.

Air Conditioning Takes on Star Role In Modern Living

Your air conditioner may soon be as common a factor in everyday living as your refrigerator.

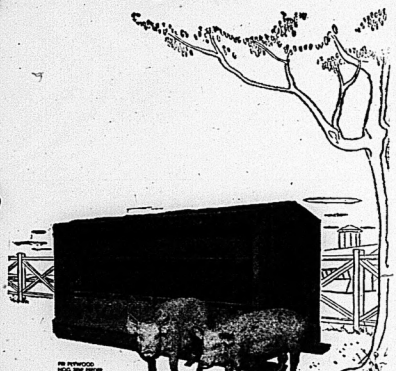
In 1940, only 11,450 room air conditioners were manufactured! In 1953 more than one million were made. Within a few years the non-air conditioned house will be a thing of the past.

Aside from the value to your house, air-cooled living may also make as profound changes in day-to-day living habits as the advent of television.

HARD OR SOFT WOOD

Hardwoods generally come from trees that have broad leaves. Most softwoods come from evergreens.

Hog Self-Feeder



This is a handsome addition to the farm — and it can save a busy farmer time. Prefabricated during the winter months, the feeder can be quickly assembled outside during the spring. The design, incorporating waterproof-glue fir plywood, was prepared by the Plywood Manufacturers Association of B.C. and a step-by-step plan on how to build it may be obtained through your local lumber dealer.

Limit Redwood Use to Contact With the Earth

Don't use redwood unless you need it, says the lumber manufacturers who specialize in this material. That sounds like a strange sales talk from men in business to make sales. But the supply of redwood is limited. Out of every 40 pieces of lumber produced, only one piece is redwood.

The big advantages of redwood are that it does not rot or decay when in the ground or in contact with the ground, and it does not swell or shrink as much as any other kind of wood.

The only three building woods that stand up against rot and decay in tests of the U.S. Department of Agriculture are California redwood, cedar and tide-water red cypress. Other lumber of all kinds must be treated with chlorinated phenols, creosote, copper naphthenate and other preservatives to resist decay.

If you want a mailbox post, of wood for an outdoor flower box, or greenhouse, or cooling tower, go ahead and use redwood. But if you want to be a real conservationist, you'll use other decorative woods for rich and dry interior novelties, such as cupboards or book shelves.

Liability Insurance

Every home owner's insurance program should include comprehensive personal liability insurance. If you are building, you should obtain this coverage as soon as you buy your lot.

Decoration Advice

When planning to decorate your home, remember that attractive rooms are not the result of only money, but good taste as well. A trained decorator can save you money as well as time and will plan a decorating program which will reflect a look of continuity.

Outdoor Man Masters Fire Making Without Smoke, Sweat or Tears

By HUGH A. MULLIGAN
AP Newsfeature Writer

Primitive man is supposed to have discovered fire by tossing a rock at a dinosaur, missing, striking another rock and setting off a huge conflagration with the resulting spark.

Several thousand years later, outdoor man—the civilized fellow tossing matches by the bookload into a barbecue pit—wonders if it ever was that easy.

Starting a fire, a problem that has tried the patience of cavemen, explorers, Boy Scouts and backyard chefs down through the ages, has always been such a formidable task that one wonders whether arsonists aren't the best paid members of the underworld.

Even the Boy Scouts have surrendered to the realities of the situation and rolled back their old Second Class requirement that called for starting a fire with only two matches.

But at last relief is in sight. Inventors have come to the rescue and solved a problem that stone age man is supposed to have disposed of before the dawn of history.

Homemakers who despaired of ever getting a part-time job in a blast furnace because of their ineptitude at starting a fire, can find comfort in a variety of do-it-yourself fire-making aids. Happily, none of them involves rubbing sticks together.

KINDLING NO PROBLEM

For a small investment, a fellow can procure an imposing array of incendiary implements guaranteed to set his hearth to blazing and his barbecue pit to roaring.

First, there's the matter of kindling wood. No need to dash about the backyard picking up twigt, old berry boxes and empty Scotch crates when several manufacturers now offer "concentrated kindling wood" at 49 cents a package. The stuff is guaranteed to go up like a strawberry box, which also sells for about 49 cents, strawberries included.

And forget about old newspapers, too. The Cape Horn fire lighter, in the opinion of its manufacturer, "eliminates the use of paper" and thereby qualifies as the "perfect companion for fireplace and barbecue pit."

Except for its gleaming brass finish, the Cape Horn item looks suspiciously like a locomotive engineer's oil can. It accomplishes its combustible purpose by squirting kerosene on your kindling.

If your fire still refuses to light, it's time to try a soap-stone fire starter, a torch-like affair that looks like the original flaming shaft. The idea is to light the fire starter, hold it aloft for a moment, shishka-bob fashion to get a good flame working, then thrust it into the middle of your kindling.

FLAME COMES TO LIFE

Failing that, you can proceed to an electric fire starter that is supposed to ignite your charcoal briquettes almost on contact.

Now, at last, a spark has been struck and a flame is leaping to life. Or at least we hope so. The next step is to keep it going. Silica chemists define fire as the rapid combination of oxygen with other matter, there is a compelling need to rapidly bring more oxygen into the fireplace.

But no need to blow your brains out or wear out your arm fanning the flames. Again as-several of necessity's ingenious offspring are on hand to help you. There is, for instance, the "blo-poke", a long brass tube resembling a glass blower's rod. You puff gently into the tube and a virtual hurricane whirls out the other end.

If that doesn't do the trick, you replace your own breath with a synthetic product emitting from a battery-operated fire blower, which looks amazingly like a woman's hair dryer, in fact, there's reason why you can't haul out the little woman's hair dryer on a long extension cord or hook up the blower on the vacuum cleaner.

No self respecting backyard chef would ever settle for a plain old fire—not in this age of scientific sublimity. Naturally, you'll want to dress up your blaze with factory-packaged hickory chips, store-bought birch logs and a sprinkling of special fire powder called "chimney sweep."

"Just sprinkle chimney sweep on your fire", the package proclaims, "then, all evening long watch the flames sparkle a brilliant rainbow of colors: glorious blues, greens, reds and yellows". The greens, presumably, are for ceremonial fires on St. Patrick's Day.

GIANT SPATULA NEEDED

By this time, of course, you know more about making a hot time in the old town tonight than Og, son of fire or even Vulcan himself. So you'll want to dress up your outdoor fireside with a genuine, wrought iron log holder; a combination kerosene lamp and bug killer; heavy asbestos chef's gloves for strategically rearranging hot coals, and a giant spatula capable of flipping a whole side of buffalo.

Other gimmicks and gadgets stand ready to help you during the cooking process. Your meat has been succulently cured for a day or more in a electric "Texas Smoker" to give it that old fashioned smoked flavor.

An electric rotisserie keeps it turning, and an unbreakable pin thermometer gives you periodic readings on its progress. Overhead, a tent-sized umbrella keeps the elements from your edibles.

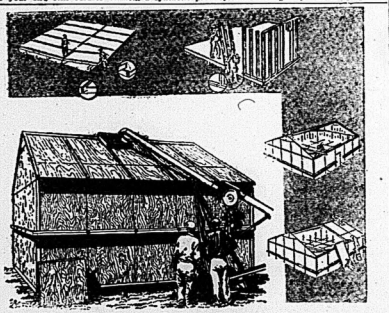
In the background, an electric freezer churns the ice cream and at the same time crushes ice for your drinks. Army surplus mess trays, "odor-proof" wooden spoons and shatterproof tumblers are stacked for your guests.

Even Fido, man's best friend next to fire, has been put to work hauling the groceries in a real, honest-to-gosh dog cart that sells for only $120.

While all this is going on, you settle back comfortably in a genuine Siwa camel seat originally designed, so the tag says, "for the comfort of caravan travelers on desert journeys."

Outdoor eating, thanks to the inventors, has now become almost as scientifically thrilling as indoor eating. In fact, you might want to rough it some day by going back indoors for a summer meal.

"Shall I call Frank Lloyd Wright for a consultation?"



Surplus of grain seems to be a problem that farmers are faced with year after year. Some economical storage bins a farmer can build himself can provide a place to store grain that can't be sold. The bin shown here holds a maximum of 2,500 bushels and can be made by any handyman from a step-by-step plan available free from any lumber or building supply dealer.

Late Starters Can Still Get in on Gardening's Fun

Late-starting gardeners still have time to see flowers like these beautiful nasturtium this summer.

If you have been a little slow to seed your garden this year, don't worry about it. There's still time to beat the Phlox.

For gardening's ten o'clock scholar, nature has provided a string of quick-to-grow, easy-to-plant annual flowers.

By picking the fast sprinters in the flower world, the late-starting gardener will see blossoms in a matter of weeks. The choice of flower types will be narrower than earlier in the season, but the beauty and joys of accomplishment are still there.

In short, it's never too late to get in on gardening's fun.

Late season planting is just as easy as gardening at any other time of the year and, in fact, follows the same simple procedure.

In addition to Phlox, which has already been mentioned, annual flowers which germinate within five to ten days after sowing include:

Sweet Alyssum, Amaranthus, Aster, Calendula, Calliopsis, Candytuft, Celosia, Centaurea, Cheiranthus, Cosmos, Dianthus, California Poppy, Godetia, Linaria, Lobelia, Lupins, Marigolds, Nicotiana (flowering tobacco), Portulaca, Mignonette, Schizanthus, Viola, Zinnia, Nasturtium.

The fastest growing annual is leptosyne Stillmanii, producing yellow daisies, which flowers in five weeks from the time seed is sown. In two more weeks zinnias will begin to bloom. The slowest growers of the quick germinating group are asters and calendulas; but these will begin to flower in late August, and continue through the fall, when cool weather is to their liking.

Giant zinnias are still most popular, with the improved strain leading because of the pastel colors of its blooms. It is only obtainable in a mixture, but all the colors are harmonious, and they are lovely both as cut flowers and in the border. The small, bushy plants of the lilliput and pumila zinnias are growing rapidly in favor. There are pink, red, orange, yellow and lavender varieties.

Marigolds may be obtained in sizes varying from the tiny single flowers, half an inch in diameter, which cover the dwarf bushy plants of the variety lilliput, to the huge six-inch globular flowers of the Sunset Giants variety.

COURT PASSES SENTENCE ON U.S. PACIFIST

Residents of Bahamas Sure Colonial Office Taking Interest in Their Affairs

NASSAU, The Bahamas (Reuters) — Governor Sir Raynor Arthur is expected to return here from London soon with further proposals, for the long-range political an economic development of these troubled British resort islands off the coast of Florida.

Most residents of the islands—hit by a paralyzing general strike in January—are confident the colonial office is taking a continued interest in their affairs. They note their governor flew to London early in May for more talks on Bahamian problems.

Life here is back to normal—on the surface, at least—following the general strike.

The labor trouble brought the British colonial secretary, Alan Lennox-Boyd, here for face-to-face talks with Arthur and political and labor leaders.

The important tourist industry came to a sudden halt when hotel workers walked off their jobs five months ago. Since then it has gained steadily.

However, the visitor count is still below last year's figures. There also has been a corresponding, but not alarming, decline in revenue. Local observers believe much of this is due to the American recession.

Politically, the situation is far less simple, even though Lennox-Boyd's visit went a long way toward easing tensions and restoring hope for acceptable solutions to most of the colony's pressing problems.

When Lennox - Boyd arrived here in April, he found inadequate and antiquated labor legislation which made no provision for machinery to mediate disputes and which withheld official recognition from hotel and agricultural workers' unions.

Lennox-Boyd also took a first-hand look at the Bahamas' ancient electoral system. It limits the franchise to males with property and gives more than half of the colony's population centered on New Providence Island — site of this capital—only eight representatives in the 29 - member House of Assembly.

The other representatives are from sparsely populated outer islands.

Before he left for London Lennox-Boyd urged that before the year's end legislation should be passed to provide:

1. Labor laws in line with modern times.

2. Universal adult male suffrage; he was not satisfied there was sufficient demand for female suffrage.

3. Abolition of the company vote, in which business firms participate in the election.

4. Reduction of the plural vote to two; hitherto a man could vote in all electoral districts where he owned or rented property.

5. Four additional seats in the assembly for New Providence.

Almost immediately, the colonial office sent its chief labor adviser, George Foggo, to Nassau to "doctor" a labor bill sponsored by the dominant United Bahamian party, a white group. Labor leaders had said the bill was designed to put the embryonic trade union movement in a "straight jacket."

The Assembly's constitution committee now is drafting legislation to take care of the proposed electoral changes. The multi-racial Progressive Liberal party, a Negro organization, is agitating for close colonial supervision of the phrase of the work.

The Progressive Liberals and other labor leaders fear the United Bahamian party might remake existing electoral districts to favor their own candidates in byelections next year.

Framed in the portholes of the swinging doors of the federal district court are pacifist Albert Bigelow and Judge John Wiig. Bigelow was sentenced to jail after his second unsuccessful attempt to sail the yacht Golden Rule to Eniwetok, in defiance of U.S. law. Bigelow, who refused bail while awaiting trial, is a crusader against U.S. atom tests.

Ruling Party Wins Election in Rhodesia

SALISBURY, Southern Rhodesia (Reuters) — Prime Minister Sir Edgar Whitehead's governing United Federal party today won an over-all majority following Thursday's general election.

The party, which fought on a platform of maintaining present rate of progress for the territory's Africans, won 17 of the total 30 seats. The Dominion party, its main rival, won nine with four seats still undecided.

Former prime minister R. S. Garfield Todd was defeated in his own constituency. His newly-formed United Rhodesian party won no seats.

Todd's United Rhodesian party was formed after Todd was ousted from the leadership of the Federal party in a dispute over his views on the advance of the 2,500,000 Africans in this self-governing British colony.

Todd is in favor of speeding up Africans' progress while the more cautious Federal party is satisfied with the present rate.

The Dominion party of Ray Stockil wants white leadership of the territory and regards the African's current rate of advancement as too fast.

British Aircraft Sales Set Record

LONDON (CP) — The British aircraft industry sold a record £50,257,246 worth of airliners outside the country during the first six months of this year.

A breakdown by countries was not available, but India took the biggest share at a cost of £6,853,000. Canada was second, the United States third and West Germany fourth.

Total sales represent a 50-per-cent increase over the same period last year.

Coal Industry Asks Curb on U.S. Oil Imports

CHICAGO (AP)—The National Coal Association has called on the United States Congress to immediately restrict imports of foreign crude oil, residual oil and oil products.

The organization of bituminous coal producers charged that imports be limited in line with the 1957 recommendation by the presidential advisory committee on energy supplies and resources policy.

The resolution said imports of foreign oil "continue to be a serious threat to the coal industry" and thereby threaten American security.

Brockville Votes to Build Waterworks

BROCKVILLE (CP) —A motion calling for construction of a waterworks plant was passed unanimously at a special meeting of town council Thursday night.

The meeting was called after the Ontario Water Resources Commission issued an order to Brockville giving Brockville one week to take steps towards cleaning up its water supply.

The commission ordered the action, with a threatened $500 fine for each day beyond the deadline if the town did not comply, after tests showed increasing contamination of the present system.

The motion calling for preparation on a new intake pipe attended months of dispute over the issue. Two previous attempts to authorize the project were defeated by councillors who oppose the new waterworks plan.

The commission said new intake pipes should be located further upstream in the St. Lawrence River. Water at the present intake, in the town limits, was found to be unfit.

Soviet Planes Regularly Fly In Radar Range

ATLANTIC CITY, N.J. (AP) Soviet aircraft regularly fly within range of North America's Arctic radar warning system, a U.S. Air Force operations chief said Thursday.

Lt.-Gen. W. H. Tunner said: "Along the Arctic perimeter we can always count a few daily sightings which can be tracked until they change course and recede beyond radar range.

"Of course, we class these sightings as unknowns at first by main unidentified, although we have no doubts as to whose aircraft they are."

Five Killed Near Calgary

ALDERSYDE, Alta. (CP) — Five persons from Calgary were killed Thursday when their car crashed through a guard rail across a field near this community 21 miles south ct Calgary. A sixth person was injured.

They were returning from a Southern Alberta Baptist convention in Lethbridge.

Dead are Mr. and Mrs. L. D. Regain, Mrs. Clarence Ashton, Mrs. Sam Rodgers and Mrs. B. Ardell Warner.

Police said it is believed the driver, Mrs. Rodgers, suffered a heart attack, causing her to lose control of the car.

ADDICTED TO NARCOTICS

LOS ANGELES (AP) — Barbara Ann Burns, 19 - year - old daughter of the late bazooka playing comedian, Bob Burns, was convicted Thursday of narcotics addiction. She will be sentenced Monday.

Think De Gaulle Facing Trouble With Insurgents

PARIS (AP) — French newspapers say Premier Charles De Gaulle may have trouble controlling the insurgent military-civilian committees of public safety which have ruled Algeria since May 13.

Some commentators interpret his repeated references to the "loyalty, honesty and discipline" of the French army as an attempt to differentiate between the army officers on the committees and their civilian members.

The basis of most stories on de Gaulle's troubles was a reported stormy closed meeting of the Algiers committee Wednesday.

At that time Paris papers agreed that de Gaulle had served notice that he would not make Gaullist firebrand Jacques Soustelle, a committee boss, his minister for Algeria.

It was also reported that de Gaulle had told an interview with Gen. Jacques Massu, from Algiers, that a government commander emerged after three minutes visibly shaken.

INTERPRETATIVE ACCOUNT

Paris-Presse, which supports de Gaulle gives this account:

Shortly after the premier arrived in Algiers Massu demanded in the name of the committees of Public Safety that he:

1. Come out for integration of all inhabitants of Algeria and the Sahara in the French nation with equal rights and duties.

2. Eliminate from his government the habitual politicians, various regimes, whom the army and the colonists in Algeria abhor as responsible for the disasters of party system.

3. Recognize the Committee of Public Safety as the civilian government of Algeria, needed as long as the Algerian rebellion continues.

ANGERS PREMIER

The demands infuriated de Gaulle and the premier summoned the generals concerned but left before going out on the Government House baleony to address the crowd.

No one reported what de Gaulle told Massu, but it must have been quickly, looking upset, and went to Gen. Raoul Salan, the civil and military governor general of Algeria, and complained about de Gaulle.

Then Massu reported that he was called in Salan, who remained five minutes and then went to de Gaulle's office as the premier's personal aide. When the premier went out on the balcony to address the cheered speech, Massu was missing.

De Gaulle in his speech came out for integration of all Moslems and Muslim population in Algeria, but there was no indication he did or would accept the generals' demand. Nor has there been any leaking that he will accede to the other two demands.

14-Horse Field Assured for Queen's Plate

TORONTO (CP) — A 14-horse field for Saturday's Queen's Plate was assured today when nominations closed with owners paying $200 for the right to see.

Stole the Ring, Miss Blanche Armstrong's entry, drew rail position and Caledon Beau, the 7-to-5 favorite, owned by Conn Smythe, will carry number No. 9.

Only two fillies are entered in the $25,000-added, 1¼-mile classic —Stole the Ring and Chomiru, owned by Mrs. Ethel Jones.

There will be a record gross purse of $28,000 for the 99th running of the classic.

Roberts Critical Of High-Speed Police Escorts

GUELPH (CP) — There will be no more high-speed escorts for foreign dignitaries along Ontario highways no matter how far behind schedule they are, Attorney General Roberts said Thursday night.

Mr. Roberts was speaking to Guelph traffic safety officials, police officers, court officials and representatives of a service club who were honoring the city's school boy safety patrol.

Mr. Roberts referred to a hurried trip made by West Germany's president, Dr. Theodor Heuss, who had overstayed his time while sightseeing in Niagara Falls and then made a fast trip with police escort to Toronto to keep a speaking engagement.

"I regret that our provincial police had anything to do with this, no matter what manner of official request was made," Mr. Roberts said. "I don't expect, as long as I am attorney general there will ever be anything like that again."

Canada's Wool Cloth Mills Face Gloomy Future Despite Boost Says Tariff Board

OTTAWA (CP) — Canada's wool cloth mills face a gloomy future even with proposed tariff boosts, says the tariff board. Many mills have shut down and more can be expected to close down in the future.

It made that statement in a 91-page report tabled in the Commons Thursday, proposing a small increase in duties on wool cloth imports from Britain. A like increase in the government will carry out the recommendation may be contained in the next budget, expected in a few weeks.

The board, after a seven-month study, proposed that the present 50-cent-a-pound tariff ceiling on British wool cloth be increased by 10 cents a pound for lightweight cloth used in making suits and by five cents a pound on heavier cloths used for overcoats.

It suggested also that the tariff definition be tightened so that only fabrics containing "substantial" amounts of wool would come under the tariff ceiling. At present any kind of fabric can get the special rate as long as it contains some wool.

The board proposed an increase, which finance minister Fleming said would get careful study, but does not apply on imports from Britain, the main competitor, and not on imports from non-Commonwealth sources such as Italy, another big one. Britain gets special tariff rates under the preferential tariff system.

The Canadian industry wanted the ceiling eliminated completely, contending that the present proposal met only 30 per cent of their request.

But the board suggested that even this small increase would lead to higher consumer prices for clothes. The industry estimated it would mean only an increase of 25 cents in the woollen sale price of cloth used in a suit and 10 cents in the cloth used for an overcoat.

Garment manufacturers, who had opposed any tariff boost, declined to make any comment until they see what the government does with the recommendation.

Any tariff change would have to be renegotiated under the General Agreement on Tariffs and Trade.

Mr. Fleming told the Commons the government has already reserved the right to such renegotiations. The action was taken at a GATT meeting last November when the board was studying the case as part of an over-all textile tariff review which is continuing.

It is known that the next budget will contain a lot of tariff changes and possibly some revisions on textiles may be included.

The board's report, dated March 5, was the second of its kind in the last three years. In 1955, it said the Canadian wool cloth industry's troubles stemmed not so much from foreign competition as from a shrinking market and increasing competition from synthetic cloth.

Mr. Fleming tossed the report back at the board last year with a request for a specific tariff recommendation.

The board now has suggested a small increase would help keep the industry going, but further mortalilties among existing Canadian mills are to be expected.

In the last six years, six wurled and 16 woollen mills shut down. Most of the mills now located in small Ontario and Quebec towns, many of them providing the only industrial employment in the immediate area.

George Hobbs, vice-president of the Canadian Woollen and Knit Goods Manufacturers' Association, said the board's report is clear vindication of the industry's views that present tariffs are inadequate. He urged the government to take immediate action on the "limited" tariff proposal to prevent further ruin in the industry.

United Kingdom exporters have been pressing for cuts on the grounds that it would reduce their sales in Canada and thereby reduce British sales of Canadian dollars. The eventual effect, they have claimed, would be that Britain might cut purchases in Canada.

The whole tariff structure is the responsibility of the progressive conservative administration is that it has come out in favor of boosting imports from Britain. However, the board did not believe the proposed increase would have much effect on British sales.

Professor Believes Sails Best Space Travel Method

NEW YORK (AP)—A sailboat cruise around the sun?

Why not? Sails may become the one of our best ways of getting around in space, suggests a Columbia University physics professor.

The enormous sails would billow with micropowers solar pressure of sunlight instead of wind. There would be no fuel worries either, because space is filled with the rays of the sun.

So reports Dr. Richard L. Garwin in a recent issue of the Columbia University physics technical journal, Tet Propulsion.

The sails that Dr. Garwin suggests would probably be made of carbfound - sailboat. For a 20-pound satellite, Dr. Garwin estimates a sail as large as a football field would be needed.

The sails would be fold worries either, because space is filled with the rays of the sun.

So reports Dr. Richard L. Garwin in a recent issue of the Columbia University physics technical journal, Tet Propulsion.

The sails that Dr. Garwin suggests would probably be made of carbfound - sailboat. For a 20-pound satellite, Dr. Garwin estimates a sail as large as a football field would be needed.

The sails would be made of a plastic film, about one-hundredth of the food wrapping films used in kitchens. One side of the film would be aluminized to reflect the sun's rays.

In the world we live in, where we are constantly pushing our way through resisting atmosphere or air, the pressure of the sun's rays—called photons—is too slight to make itself felt.

So solar power wouldn't help in the earth's atmosphere. But it would propel a satellite—already in orbit—to the speed necessary to escape the earth's gravity and travel to another planet.

In the vacuum of space, even the slightest push is big because there is so little resistance to movement. The longer the push is applied, the faster the speed that builds up.

The only real problem of solar power has one drawback: It is strongest closest to the sun. As you would appreciate if you've ever had a solar system, such as Pluto, you would freeze to death.

For the nearer planets like Mars and Venus, the solar sail would work.

A trip to Venus and back to earth could be made in less than a year with one sail suggested by Dr. Garwin. Mars would take about six months each way.

The solar sailor would travel in a spiral course both to and from the planet he visited — setting his sail at the required angle to carry him in steadily decreasing circles to his destination.

Macmillan Flies West to Meet With Eisenhower

LONDON (CP) — Prime Minister Macmillan flies west tonight for talks with President Eisenhower. He will include Prime Minister Diefenbaker in Ottawa on the transcontinental trip.

The prime minister's wife and nine personal and political aides will accompany him on the chartered airliner scheduled to take off at midnight.

There is no agenda for the talks with Eisenhower, but diplomatic sources say they include relations with Russia, disarmament, a re-examination of France, the Middle East and economic problems.

Macmillan arrives in Washington Saturday for preliminary discussions. Sunday he flies to Greencastle, Ind., to address De Pauw University graduates, and will spend a weekend in Indianapolis returns to Washington for talks with Eisenhower and a speech to the National Press Club.

Tuesday Macmillan will take a helicopter to Baltimore for the Johns Hopkins University commencement. Wednesday he leaves Washington for Ottawa.

In addition to international affairs, the two-day conference with Diefenbaker probably will include preparations for the Commonwealth trade and economic conference to be held in Canada this autumn. Macmillan will address a joint session of Parliament next Friday before flying back to London that night.

SHIPPING MAGNATE DIES

CLEVELAND (AP) — John T. Hutchinson, 62, a Great Lakes shipping executive and five-times president of the Lake Carriers Association here, died today. He was a senior partner in Hutchinson and Company, a lake transportation firm whose major traffic is in iron ore, coal and grain.

SWEEP MONEY IS BOOT OF THEIR JOY

Celebrating his $140,000 loot in the Irish sweepstake with his family in Montreal is Steve Nikoriak, an immigrant who started to work in Canada in 1931 at six cents an hour. A Hungarian-born toolmaker, Nikoriak plans to use part of his wealth to put daughter, Judy 16, through school and pay off the mortgage on his home.

Red Cross Asked To Help Fight Cholera Epidemic

TORONTO (CP) — The Canadian Red Cross received an urgent request Thursday for supplies of vaccine and drugs to combat an epidemic of cholera in Bangkok.

The League of Red Cross Societies in Geneva reported 840 cases with 144 dead in the Thailand city.

Dr. W. S. Stanbury, national commissioner of the Canadian Red Cross, said all supplies of cholera vaccine available in Canada will be forwarded by air immediately.

NEW WEATHER POSTS

WASHINGTON (AP) — More than 100 new hurricane observation posts have been set up along th- Atlantic and Gulf of Mexico coasts, the United States weather bureau said today. The stations, to be manned by unpaid volunteers, will supplement 40 regular weather bureau stations along the 1,000 miles of coastline from Eastport, Me., to Brownsville, Tex.

"Jest a Second"

"Hudist camp indeed! I wonder how you'd look in a nudist camp?"

"Oh — at everything!"

SMILES EASE TENSION, TEMPORARILY

Even the paratrooper assigned to hold back the happy crowd is smiling as these Algerians welcome Gen. Charles de Gaulle. They heard the new French premier promise 9,000,000 Moslems equal rights as French citizens. He praised the courage of the Algerian nationalist rebels and declared: "I open the door to reconciliation."

3 Britons, Lone American Remain in British Amateur

ST. ANDREWS, Scotland (CP)—The British amateur golf championship field has been whittled down to three British Walker Cup players and a lone American for today's semi-finals.

Joe Carr, the jovial Irish bab-erdasher from Dublin who won this tournament in 1953, plays coachbuilder from Essex, in one game.

In the other, 29-year-old Alan Thirwell of Newcastle, meets Tim Holland, a wealthy 37-year-old golfer from Rockville Centre, N.Y.

Carr, Thirwell and Bonallack all were members of the 1957 British Walker Cup team that lost to the United States.

Thursday's fifth round saw the elimination of the last of the other Americans in the tourna-ment. Gerald Micklem, captain of the British Walker Cup team, de-feated Jack Penrose of Miami on the 19th hole. Penrose drew even at the 18th but Micklem canned a winning 15-foot putt on the extra hole.

WINS 3 AND 2

Carr defeated Micklem, 3 and 2, in the afternoon after having disposed of another Walker Cup-per, Phil Scrutton, 1 up.

Thirlwell defeated Michael Lunt of England 7 and 5 and then drew a 14-foot birdie putt on the 18th to beat Bob Charles, the lefthanded New Zealand champion.

Bonallack reached the semi-finals by defeating Guy Wolston-holme, another English Walker Cupper, at the 19th and Dr. James Mahon of Ireland 1 up.

Holland won his morning fifth-round match from Dave Allan, a Scottish bookie from Carnoustie, 2 and 2, and beat Douglas Alex-ander, a 19-year-old Scot, 3 and 1 in the forenoon.

McMullin Tops Dallas Open

DALLAS (AP) — Lanky John McMullin sighted some big money Thursday when he set a course record six-under-par 64 that gave him the first - round lead in the $25,000 Dallas Open.

He banged an eagle with a 12-foot putt on the second hole then strode over the back nine with 12 putts to leave the big names behind as the golf tournament opened in terrific heat with a field of only 94. No Canadians are entered.

McMullin, 23, started out on the tour in January.

Some 30 players bettered par over the 6,669 - yard Oak Cliff Country Club course but none could come any closer than two strokes to the man from Califor-nia.

Sam Snead, the White Sulphur Springs, Va., veteran who entered the tournament favored to repeat with the championship, had a 67. Ken Venturi of San Francisco shot a 68.

Name New Welterweight Champ Tonight

ST. LOUIS (AP) — A new world welterweight boxing cham-pion will be crowned tonight when Virgil Akins, a stiff - punching home - town boy meets clever Vince Martinez of Paterson, N.J., in the 15-round final match of an elimination tournament.

Akins, a 30-year - old - lugger who has come into his own in re-cent months after years of erratic performances, is the 2-to-1 favo-rite.

The bout will be televised by NBC starting at 10 p.m. EDT. The promoters estimate a crowd of 9,000 will pay about $60,000 to see the first world title bout in St. Louis since Archie Moore won the light-heavyweight crown from Joey Maxim in 1952.

Akins and Martinez are the survivors of a six-man elimina-tion tournament set up last year. Akins bypassed the tournament for a time and won the Massa-chusetts version of the world title by knocking out former champ Tony DeMarco. After repeating the job on DeMarco in a re-match, Virgil eliminated Isaac Logart by a sixth-round knockout March 21.

DREW A BYE

Martinez ousted Gil Turner in January and drew a bye into the final with Akins.

On styles, this could be either a good fight or a waltz. Martinez, 29, likes to dance, jab and re-treat. Akins can be smothered by an aggressive opponent but is a dangerous puncher if given time to call his shots.

Martinez has a record of 66 wins and five losses. In his last outing Martinez knocked out Ar-mand Savoie of Montreal May 7. It was little more than a work-out for Vince, Akins has won 47 bouts, lost 17 and fought to one draw.

Lost $1,600 In Senior B

WOODSTOCK (CP) — Wood-stock Athletics, Ontario Hockey Association Senior "B" finalists, operated at a $1,600 deficit last season, it was announced in the club's annual report released Thursday.

The team is operated by 19 Woodstock business men who agreed to share the loss. Two years ago the club was operated by the arena board and lost $8,-000.

A LIGHT FOR THE BOSS

A jubilant Buzzie Bavasi, right, vice-president of the Los Angeles Dodgers, lights a cigar yesterday for his boss—president Walter O'Malley—after returns from the Tuesday election indicat-ed approval for the contract between the Dodgers and the city for the site of a new ball park in Chavez Ravine. O'Malley, who because of closeness of the vote refused for more than 20 hours after polls closed to issue an optimistic statement, finally called a press conference and said: "I'm delighted."

Petes Wallop Long Branch 14-9

PETERBOROUGH (CP) — Cy Coombes continued his torrid scoring spree with five goals Thursday night to spark Peter-borough Petes to a 4-0 win over Long Branch Monarchs in an On-tario Lacrosse Association senior game.

Only two minor penalties were handed out in a clean fast game which saw the Petes take com-mand after being held to a 5-5 score at the end of the first period.

Danny Quinlan scored twice and Norm Corcoran, Paul Par-nell, Gordy Perry, Curly Mason, Larry Ferguson and Roy Wood one each. Long Branch scorers were Moe Kelly and Florie Tom-chishen with two each, Lou Riel, Jack Kapasky, Paul Henderson, Art Brazier and Stan Kapasky one each.

SHOW SHOWS PROFIT

TORONTO (CP) — Net earn-ings of the Canadian National Sportsman's Show were more than $107,000, Frank H. Kortright, president of the show, announced Thursday in his annual report. Mr. Kortright told the annual meeting the show distributed more than $84,000 in conserva-tion grants in the last fiscal year. The next show is to be held March 13-21, 1959.

Detroit Tigers Call First Negro Player to Big Time

DETROIT (AP) — Detroit Ti-gers Thursday promoted their first Negro player to their major league roster.

In a four-player switch the Ti-gers brought up third baseman Ossie Virgil from their Charles-ton, W Va., farm in the Ameri-can Association. Virgil, a Negro, has brief previous major league experience with New York Giants.

The Tigers also promoted Herb Moford, a 29-year-old righthander with a 6-0 record at Charleston. In return the Tigers farmed out pitcher Bob Shaw, 1-2 with the Tigers, and infielder Lou Skizas, obtained during the winter from Kansas City.

The Tigers have had numerous Negro players in their farm sys-tem but have remained with Bos-ton the only two American League teams never to field a Negro.

In recent months the club has been under pressure in Detroit from certain Negro groups to use a Negro player or face a boycott. The boycott threat later collap-sed. A spokesman for the Tigers said Thursday's promotion of Vir-gil had nothing to do with the agitation.

"We have always said we had no bar against Negro players," he said. "We have maintained we would bring one or more up to the Tigers when they could play acceptably for us. Right now we'd do almost anything to help the club."

The Tigers are in seventh place in the American League.

Soccer Players Get Suspensions

HAMILTON (CP) — Assaults on referees has brought suspen-sions totalling three years to two players in the Southern Ontario Soccer League.

Otto Schillegger of Kitchener Victorias was set down for two years for knocking down and then spitting on referee Bill Wil-son of Hamilton during a game with Guelph May 24.

Joseph Paonessa of Niagara Falls received a one-year sus-pension for punching referee R. Clark of Niagara Falls. The inci-dent took place when St. Anne's played Germans. Both are Niag-ara Falls teams.

GONZALES WINS

RENO, Nev. (AP) — Pancho Gonzales moved to within two victories of another world pro-fessional tennis tour title Thurs-day night, beating Lew Hoad 6-3, 8-6.

Gonzales' triumph was his 49th against 36 for Hoad, a stocky Australian who was last year's amateur kingpin. A total of 51 victories will assure the crown again for the Los Angeles play-er.

Leafs Lose To Richmond; Royals Win

By THE ASSOCIATED PRESS

While the Richmond Virginians were cooling off the red-hot Toronto Maple Leafs down south in the International League Thursday night the Bremen were cooling off the Maple Leafs' home stadium which caught fire earlier.

Bob Wiesler spun a neat seven-hitter in winning 6-2 while his mates backed him up with 13 assorted blows at their own to put an end to the Maple Leaf seven-game winning streak. The stylish southpaw was ahead 6-0 before Mike Goliat bonnered in the sixth inning. Bobby Del Greco got three hits for the Virginians. Bob Oldis bonnered in the third and Del Greco in the fourth for the winners.

In the other games Montreal Royals beat Columbus Jets 6-4, Buffalo Bisons blanked Miami Marlins 6-0 and Rochester Red Wings whitewashed Havana Sugar Kings 7-0.

Montreal scored three big markers in the sixth inning off Hugh Pepper before Lou Sleppy could come to the rescue. They feed the victory with singletons in the eighth and ninth.

Glenn Cox of the Bisons scattered seven hits in recording his shutout. He helped his own cause with a home run and a run-scoring single. The Marlins struck out 11 men and none reached third base.

Emilio Cueche faced only 30 Rochester batters in chalking up a neat three-hitter. At one point in the game he retired 16 men in a row.

'Stole the Ring' Does Track In Fast Time

TORONTO (CP) — Stole The Ring, in her final workout for Saturday's Queen's Plate racing classic, blazed over five furlongs at New Woodbine track Thursday in 58 3-5 seconds, only two-fifths seconds slower than the Canadian record for the distance.

The filly, which has yet to start in a race this season, carried 140 pounds in the trial gallop which neared the record held by Nearctic.

Eddie Hall, trainer exercise boy, rode the W. F. Martissey bred filly over a fast track. Stole The Ring did not start from the gate and worked alone.

Veteran Johnny Longden will be in the saddle Saturday, when the horses—14 are eligible so far —go to the post. Then, Stole The Ring will carry 121 pounds, five pounds lighter than colt and gelding entrants. Only other horses allowed the filly allowan:- of five pounds is Frank Sherman's Chemins.

RECORD PURSE

If all 14 eligible horses run there'll be a record gross purse of $38,855 for the 99th running of the plate. Owners have to add $250, besides payments already made, for each horse they enter by deadline time today.

Trainer Gordon McCann gave Windfields Farm candidates Epic Lad and Tamarind speed tests. Both broke from the gate with Epic Lad stepping five furlongs in a minute flat and Tamarind going the distance in 1:01.

Trainer Art Warner sent Lanson Farms' Foxy Phil the same distance in 1:03 2-5.

The field was reduced to 14 when trainer Howard Johnston announced he would scratch Knuckle Duster because the horse was coughing badly.

Girl Rasslers Stage Private Bout Mayor Puts Stop to Shenanigans

BUCKINGHAM, Que. (CP) — Mayor Arthur Latour Thursday night entered the ring to halt a bout between two women wrestlers. He did it with an announcement over the public address system.

Council had decided in Monday to ban appearance of women wrestlers in this town 25 miles northeast of Ottawa. Town authorities sent a telegram to Montreal promoter Claude Desharnais saying the girl grapplers billed for Thursday night's card were not to appear.

Desharnais announced Thursday night the ladies—billed as Gloria Palmer and the Black Panther—would not wrestle. They would be second for Maurice Vachon and Chief Golden Hawk in the all-male main bout.

Early in the men's bout the girls started tangling on the ring apron. They carried the activity onto the floor among the 500 spectators who quarter filled the arena.

At that point the mayor jumped into the ring and announced the girls were not to return to the ring. They didn't. Instead, they broke up their bout and headed for the dressing room.

Council had decided to ban women wrestlers after hearing complaints from four community groups: The Knights of Columbus, Richelieu Club, Sacred Heart League and the Lacordaire, a temperance organization.

Yesterday's Stars

By THE ASSOCIATED PRESS

Pitching: Ralph Terry, Athletics—threw a seven-hit, 13-inning shutout that beat the Senators 2-0 in a duel with Camilo Pascual broken up by Woody Held's two-run homer.

Hitting: Sherm Lollar, White Sox—drove in all of the Sox runs with a homer and single in 3-2 second game victory over Yankees, who took opener 12-3.

League Heads Will Crack Down On Duster Pitch

CHICAGO (AP) — The presidents of the American and National Leagues are expected to crack down today on the so-called "duster" pitch in major league baseball.

Presidents Will Harridge of the American League and Warren Giles of the National League plan to work on a "plan of action," effective immediately, directed against pitchers who deliberately throw at a batter.

The National League particularly has been affected by a wave of "duster" pitching, one incident recently almost precipitating a free-for-all between San Francisco Giants and Pittsburgh Pirates.

Under the present baseball code, Harridge explained, the rule "simply says a pitch should not be thrown at the batter's head."

"We'll talk this thing out and see if we can send instructions to both leagues to ban throwing at a batter in any way—at his feet, knees, arms, or any part of his body," Harridge added.

"As for the penalty for deliberate throwing, we will have to settle on that, too."

At present, an umpire must give warning before taking further action against a pitcher suspected of throwing at a batter's head.

Say Hey Willie Mays Sparkles; Giants Breathe Down Braves' Necks

Sport Slices

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, *Sports Editor*

It will soon be time to spend a lazy summer afternoon as the guest of Larry Eggett at his well-appointed summer cottage in Rossmore and club-wag with a few of the Detroit Red Wing stars.

Under the watchful eye of Mike (Damma dat damma kitty) Phillips, who sees to it that their inner wants are satisfied, some of Jack Adams' boys usually congregate with Larry for a spot of swimming, fishin', or just plain blacksnaking under the warm Bay of Quinte sun each summer.

It is doubtful if the guy we would like to shoot the breeses with in particular will be over yonder this summer. He is Gordie Howe, and Gordie probably at this time is with his family out in his Floral, Saskatchewan, home.

The big backbone of the Red Wings and there are some who will disagree with that, as they will that he is the greatest right-winger in the world today, or any day, won the Hart Trophy for the fourth time in his colorful career, a feat equalled only by the one and only Eddie Shore.

We saw Gordie and his pal of that time, Marty Pavelich, over at Larry's place a few seasons ago. Each had a chicken leg in a huge paw, but Gordie was concentrating on his digestion while the irrepressible Marty was interspersing bites with wittieisms. The chicken eventually won, but not before Marty had not a few of his experiences off his chest.

Gordie is not addicted to reminiscing, especially when it includes his own exploits. He is the naturally modest type, off the ice, and can never be accused of being a soap-box orator.

However, Gordie has passed another milestone with the same easy grace which his smooth skating style takes him past opposing players. He took over during last season, the leadership in that department known as "Most Assists in a Lifetime." He now has 440 while he has hit the rigging with blazing pucks 386 times. He is proud of another feat, too. Last season he graced the sin-bin just forty minutes, a new low in the Howe record of sitting-out sentences.

With his goal record at 386 the big winger should have no trouble setting his sights on the 400 marks next season, then heighe for the noble "500." And if his behavior be a little better than last season, quien sabe? he may be in line for the Lady Byng Trophy. It's only one of the few honors he has not achieved in the National Hockey League to date.

As a Detroit writer puts it: "There are honors Howe can never win, but certainly cannot be voted the rookie of the year but as for the other trophies he has not taken as yet, the Norris and the Vezina, one never knows."

True enough, in his declining years, Gordie could strap on the pads and goalie gear and come up with a trophy-winning season, and if he reads this we're only kidding. He could switch to the defence and quite easily come up as being a contender for the Norris Trophy.

It should be remembered Gordie started his minor hockey career as a goalie and has not forgotten the tricks. However, he is doing mighty well as a winger at the present, thank you, and shows no signs of deterioration nor depreciation, just a guy who like Tennyson's "brook", while players may come and players may go, he goes on forever.

However, if Gordie does not show up at the Eggett summer menage we'll settle for Mike Phillips, Larry, and possibly that flame-thatched, fleet-footed, fun-loving Pamela, a professional dancer in her own right, who taught Larry many intricate steps of the terpsichore had never heard of. But Mrs. Kelly's boy was equal to the occasion. And his performance with the Red Wings last season, seems to bear out the fact that dancing is a good conditioner.

So if Mike da Phillips can get da spaghett ready, and entice Gordie and Red down for a day or so, we can look forward to a couple of days' pleasant relaxation. Not forgetting friend Larry, of course, and his royal family of hospitality.

* * *

Now for the rockin', rollin' grunt-n-groaners, where those two snarlin' toughies, Wild Bill Longson and Feerocious Freddie Atkins tangle with the popular Baillargeon brothers in tonight's main bout in Memorial Arena. Then there is the mysterious Indian wrestler, Dhara Singh, who meets Wee Willie Davis, while Jan Golch flurries with Krusher Norman.

Kuenns' Sight Will Not Be Affected

BALTIMORE (AP) — More X-rays were taken Thursday of Harvey Kuenn, Detroit's batting hitter, who bely missed severe injury to his right eye on the line drive in Baltimore's outfield.

Dr. Bowdoin Davis, a plastic surgeon, took 25 stitches to close a two-inch gash under Kuenn's eye.

"The cut extends from the lower eyelid," reported Dr. Erwin Mayer, physician for the Baltimore Orioles. "Kuenn came very close to severely damaging his eye but his eyesight will not be impaired.

"It will be a week or so before he can expect to get back in action."

Kuenn was hurt trying to prevent a ball hit by Gus Triandos from going over the seven-foot fence.

WINS GOLF TOURNEY

TORONTO (CP)—Norman Neundorf won the Toronto Ladies Golf Club annual invitation tournament Thursday with a 78, beating a field of 91 which included Maureen Stewart Streit, former Canadian and U.S. women's amateur queen. Miss Neundorf edged Noreen Laing, Toronto by one stroke. Tied for third was Mrs. Streit and Mrs. C. Hedstrom, of the Toronto club, with 81.

Outfielder Gets 4-for-5 In Twelve-Inning 5-4 Win; A's Blank Nats in Thirteen

By THE ASSOCIATED PRESS

Stan Musial and Willie Mays are waging a pig of a battle in the National League batting race.

Stan the Man, at 37 the Old Guard who has won four of his seven hitting titles in the last eight seasons, has an average of .426. Willie, the Say Hey Kid who is Musial's junior by 10 years, has picked up 17 points in three days for a .424 average.

The closest to Musial, the defending champion, and Mays is Richie Ashburn of Philadelphia Phillies. He has .355.

Mays was 4-for-5 Thursday as the final of a three-game set with Milwaukee Braves with a 5-4 victory in 13 innings that brought them within .010 percentage point of the first-place Braves.

Musial was blanked against Pittsburgh Pirates, but St. Louis Cardinals swept the three-game set with a 4-3 decision as they reached .500 for the first time and leap-frogged the Pirates into third place.

AVERAGE ASTOUNDS

Mays had 10 for 16, an astounding .625 average against Milwaukee's world champion pitching staff, in three games. Musial was 4-for-11 against the Pirates and tumbled from .431, a five-point skid.

In the other games Thursday, Cincinnati Redlegs beat Los Angeles Dodgers 8-4 and Philadelphia finally stopped Chicago Cubs 7-4.

The Giants took the third consecutive decision in the Milwaukee series on Jim Finigan's double and a single by rookie Orlando Cepeda off losing reliefer Gene Conley, now 6-4. Mays also opened the 11th with his fourth single but was nailed at the plate by Hank Aaron's throw as he tried to score on Finigan's hit to centre.

Jim Constable pitched only the 12th, but gained his first decision.

Southpaw Warren Spahn was the Milwaukee starter. He left in the sixth, when Ray Jablonski, who doubled home two in the fourth, singled home a run and scored on Hank Sauer's single.

UNEARNED RUNS DECISIVE

The Cards scored two unearned runs in the third inning and bagged it with two in the fourth as Gene Green hit a double and scored on Del Ennis's single. Bob Friend, who has won eight, lost his fourth.

Once-beaten Bob Purkey won his seventh and hit his second major-league homer for the Reds with Bob Thurman on base. Purkey erred (and Frank Robinson and Jim Bolger) as Cal Emil lost his third. Gil Hodges hit his eighth homer in the ninth.

Harry Anderson's three - run double and Stan Lopata's following homer gave Phils five in a six-run inning. Lopata's two-run homer, a clinching seventh inning against losing reliefer Don Elston (6-4).

Ray Semproch (5-4) won it in relief.

Ralph Terry of Kansas City Athletics was a long time shaking his slump, but when he finally put it away he won big, pitching a seven-hit, 13 - inning shutout.

Terry, a righthander who had lost five straight, Thursday night won his third game, a 2-0 decision over Washington Senators as Woody Held's two - runner homer scrapped a duel with Camilo Pascual.

The decision pushed the second - place Athletics to within seven games of the American League - leading New York Yankees, who split a doubleheader with Chicago. The White Sox won the second game 3-2 after losing 12-3.

Boston Red Sox defeated Cleveland Indians 5-3 and Detroit Tigers defeated Baltimore Orioles, 6-3, the Tigers' first victory over the Orioles in seven tries this year.

HANKS THREE

Terry, who suffered a hip fracture in a winter car crash, was not Thursday night. The 21-year-old former Yankee walked only three men and fanned seven. He gave up a first-inning single to equal in the 10th, then walked a pair intentionally to load the bases before slugger Roy Sievers to hit into a line-drive double play.

That put Terry over the hump. He didn't allow another hit.

The White Sox won as Sherm Lollar's first - inning homer off loser Bobo Holloman (4 - 2) and ninth-inning single off Sal Maglie drove in the winning run. Ray Moore (3-1) had a four-hit shut out for eight innings in his first complete game in six starts.

Don Larsen (4-0) won the first game and drove in four runs, but couldn't hold a 10-3 lead. Ryne Duren, the Yankees' rookie - of-the - year candidate, gave up a ninth save with 2 2-3 innings of two - run shutout relief. Early Wynn was the loser for a 5-4 record, giving up Mickey Mantle's eighth homer.

SCORES GRAND SLAM

Ray Boone's eighth major league grand-slam homer bagged it in the seventh for the Tigers as Hank Aguirre won his second with a 7-3 decision over Baltimore relief insings. Paul Foytack gave up the Orios runs on two walks, a single and Jim Marshall's two-run double in the first. Billy O'Dell lost his seventh.

Gene Stephens slid home with the winning run on Jackie Jensen's fly ball in a two-run Red Sox sight that broke a 3-3 tie at Boston. Jensen drove in three runs, hitting his 11th homer with a man on base. Ted Gerner cracked his 10th homer for the Sox. Dick Brown hit a three-run homer for the Senators.

Mike Fornieles won his third in relief. Dean Stone was the loser.

Bob Cerv's fly ball in a two-run Red Sox sight that broke a 3-3 tie at Boston. Jensen drove in three runs, hitting his 11th homer with a man on base. Ted Gerner cracked his 10th homer for the Sox. Dick Brown hit a three-run homer for the Senators.

Mike Fornieles won his third in relief. Dean Stone was the loser.

Sports Calendar

SOFTBALL

Girls Force Kisses on Soccer Stars

HALSINGBORG, (AP) — Police of this Swedish city were called out today to control a band of screaming teen - age girls trying to storm their way into training quarters of Argentina's soccer team which is here for the world championship.

The players were surrounded and forcibly kissed.

Police were summoned by leaders of the Argentine squad after about 24 soccer - crazy girls surrounded the camp and clamored for admittance.

Welland Whips Mimico 15-10

WELLAND (CP) — Welland-Crowland Swimmers took over sole possession of first place in the Ontario Lacrosse Association senior series Thursday night as they downed a short-handed Mimico Mountaineer team 15-10.

The seven-man Mimico club depended heavily on goalie Tom Green and he came through with a spectacular performance, blocking 50 shots.

Les Howard paced the winners with three goals. Jim McNulty, Nip O'Hearn, Gary Carlisky Teal and Mike D'Amico had two each. Ted Howe and Don Baker scored singles.

Mimico scorers were Bob Hannah and Ken Lotton with three each while Eddy Tomchuhken, Bill Davenport, Bill Dicks and Bernie Brydson had singles.

HOW'S YOUR I.Q.?

TODAY'S INSURANCE PROBLEMS ANSWERED

QUESTION—

When was Inland Marine Insurance, in its present form, developed?

ANSWER—

Within the past 50 years. Actually, the oldest form of insurance recorded was more strictly Inland Insurance since it concerned loss of goods being carried by caravan between India and Persia.

HAVE YOU AN INSURANCE PROBLEM OF YOUR OWN? COME IN OR WRITE US. WE'LL BE GLAD TO HELP YOU WITHOUT CHARGE OR OBLIGATION OF ANY KIND.

Records Favor Australians In Vancouver's Star Mile

VANCOUVER (CP) — Someone taking a look at the record might be inclined to give Saturday's Centennial Mile here to one of two Australian swimmers.

But no one is making any predictions, particularly the two Australians — Murray Lincoln, Melbourne school teacher, and near-at Arizona State College.

For one thing it would be foolish to discount England's Derek Ibbotson, who has run the fastest mile in history. Lincoln and Henderson were related and "could" deni looking Thursday.

"I'm quite satisfied with my training," said Lincoln of his 7½-mile nightly workout. He has run three sub-four-minute miles. His last clocking was a 4:01 in Los Angeles two weeks ago.

Henderson, at 25 years older than Lincoln, has yet to break four minutes but he admitted that he has been building up all season to pull the feat here.

GO RIGHT OUT

"I intend to go right out from the start," he said. He estimates he has run about 26 races this year, including nine miles and a 4:01.1 time earlier this year.

"I believe I'm just scratching the surface on fitness. I think I can lower my time and Saturday may be it."

Lincoln mentioned Henderson when asked to name what he expected to be the toughest competition.

Ibbotson had a 3:57.2 mile last year but it may not be recognized because he was paced. John Landy's 3:58 is the recognized world record.

Ibbotson says he won't be out to beat the mile record.

"The main thing to do is win," he said. Jack Crump manager of the English team, has said he doesn't care if the winning time is 4:30 as long as his man posts it.

Another entry is Stefan Lewandowski, 27-year - old surgeon who is one of a four-man Polish team entered in the Centennial Games. His best time in the mile is 4:08.8 but he feels he isn't in shape after a rough winter in Poland.

Weightlifters Hold Annual Meet Saturday

The third annual Eastern Ontario Weightlifting championships will be held at the Orange Hall this morning with many of Canada's top amateurs competing.

Lifters will take part from Peterborough, Kingston, Belleville, Smiths Falls and Ottawa as well as representatives from the National Bar-Bell Club of Montreal, one of the top amateur clubs in Canada. One of the Montreal lifters will be Gerald Gratton, the Canadian and Olympic weightlifting champion in the middle heavyweight division. Gratton has a top total of 930 pounds.

Tickets will be on sale at the door.

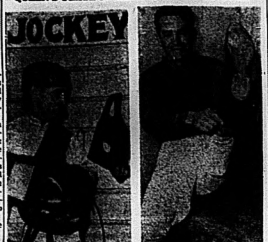
QUEEN'S PLATE RIVALRY REACHES JOCKEYS



While he expects to face stiff opposition from Johnny Longden, the world's winningest jockey, in the 89th running of the Queen's Plate, Dick McLaughlin, at right, isn't losing any sleep over the situation. For, although he has never ridden against the great Longden, at left, who will be aboard the favorite, Stole the Ring, young Dick has competed against Willie Shoemaker and the rest of the saddle greats in the U.S. To him the horse is all-important and he thinks he has the horse to beat in Lanson Farm's Foxy Phil. Having ridden in the Kentucky Derby, the Preakness and the Louisiana Derby in 1954, which he won, Dick figures his greatest thrill will be in booting home a Queen's Plate winner on June 7 in Toronto.

Elgins Defeat Brantford 9-2

By THE CANADIAN PRESS

Ronnie Stead, former Toronto Maple Leaf batboy and farmhand, found the going rough in his debut in the Senior International-Canada baseball League.

The slender southpaw, who's diminutive size kept him out of the International League, was nicked for five runs in the sixth inning Thursday night as St. Thomas Elgins jumped Brantford Red Sox 9-3.

Stead joined the Sox this week after getting his release from Orlando of the Florida State League.

In other action, Galt Terriers pushed across a run in the 10th inning to edge Hamilton Cavaliers 3-2 in a closely-played contest in Hamilton.

TRAPSHOOTERS GATHER

HARROW, Ont. (CP) — Ontario's top shotgunners gather here today in search of six titles and several thousand dollars in prize money at the 1953 Ontario trapshooting championships. Preliminary rounds start today with finals Saturday and Sunday.

Seven Starters Expected in Belmont Stakes

NEW YORK (AP) — Unless some surprise pops up, the names of seven three-year-old colts were to be dropped into the entry box today for the 90th running of the $100,000 - added Belmont Stakes. Six of them will get to put the skids under Tim Tam's rush towards a triple crown.

Tim Tam, from the Calumet Farm of Mrs. Gene Markey, rules as odds-on choice to capture the 1½ - mile Saturday. Others due to make the big try were Joseph E. O'Connell's Cavan, the Wheatley Stable's Nasco, C. V. Whitney's Fi a n i g a, George E. Lewis' Martins Enfilah, Mrs. Anna Cassmil's Chance It, Tony and Mrs. Charles Silvers' Page Seven.

With seven starters, the triple crown finale would have a gross value of $113,600, the winner netting $72,790.

WOULD BOOST EARNINGS

If Tim Tam can get the job done, completing the Kentucky Derby-Preakness - Belmont triple and becoming the 16th horse in history to join that select group, his earnings would be increased by such a standout. Two of great Calumet triple crown winner of 1948, was sent away at 1 to 3, which is more like 1-

Cavan, who came from 15 lengths back to win the Peter Pan at Belmont last week, is the probable second choice. There are many who think his price might be an attractive 6 to 1.

OPEN CRICKET SERIES

EDGBASTON, Eng. (Reuters) New Zealand, which has won only one cricket test in its history, put out a strong England side for 221 in four hours Thursday in the opening contest of their current series. But then the New Zealanders' own batting broke down and by the time of play they had lost three wickets for 41 and were 180 runs behind.

PICTON

Declare Winners In Tracks Meet

PICTON — Prince Edward District Collegiate completed its track and field meet with finals this week. The senior boys' champion was D. Reid, with 17 points; intermediate, D. Proctor, 15; junior, B. Harrington and R. Insley tied with 12 points.

Highest scorers in the girls' section were Liz Kaiser, senior; Peggy Clarke, intermediate; Judy Whitten, junior.

Grades competed for honors with Grade 9D leading with 126 points, followed by 12B with 110 points; Grade 12, 109; 10A, 106; 11B, 91; 9C, 83; 11B, 73; 11A, 72; 9B, 62; 9F and 11D tied with 59; 10C, 44; 9E, 42; 10D, 14; 10E, 9; 10B, 5; 9A, 4.

CAMPBELLFORD

Council Ready To Pick up Property Option

CAMPBELLFORD — The Campbellford Town Council held its regular meeting on Monday when they prepared to gain possession of the Excel Feeds property on Second Street. It passed a motion unanimously to pay $9,309 for it, picking up the option just as soon as the company produces a clear title.

The matter of the disposition of the building was discussed, and the giving of one building to the Boy Scouts and Girl Guides. The balance of the structures are offered for tender and removal, tenders to close June 12th, buildings to be removed by June 21st.

The builders of the factory for the chocolate concern are to be invited to Council on Thursday, June 12th, to iron out details about what Council will do for them in the matter of assistance and services.

Tenders for painting the street markings were considered and Walter Lowe's verbal tender for $1. per hour was accepted. William Buchanan was engaged as timeker for the town offices at $35. per month.

Mr. P. G. O'Sullivan interviewed council requesting sewer, road, water and sidewalks for a subdivision in Bel Air Gardens Block, where a number of brick bungalows under N.H.A. are to be erected. He stated that the down-payments are small and that there will be several houses ready by October 1st this year. Council agreed to cooperate and the legal committee asked to arrange details concerning the installation of the services under Local Improvement debentures.

A letter from Dr. C. M. Horner re the town dump was read, stating that the Health Unit required the site to be closed by June 15, as it is too close to the river.

Council took exception to the request. Deputy-Reeve Free, chairman of the property committee, said the dump is in the best condition it has ever been, and is 100 yards from the river and separated from it by a rise in land which prevents any seepage. It is covered and paper will be placed there for rat control. Signs and fences are placed in position to direct dumping. A motion to file the letter, despite the threat of inspection by the Board of Health if the dump is not closed, was lost. The Mayor voted yes to break a tie vote, when Coun. Bennett sponsored a motion to invite the inspector to come and meet the property committee and make known any objections they have to the site and its maintenance.

The Arena Board requested that their grant be raised and this was carried.

Mayor Maybee congratulated the property committee and the caretaker of the Parks on the beauty of the flower beds and Deputy-Reeve Free stated that the tulips having ceased to bloom, other plants will be placed in the park beds shortly.

The flag pole at the Cenotaph is to be painted.

Mayor Maybee stated that a flotilla of boats will be brought to Campbellford on July 26th or thereabout, and will start a cruise up the Trent Waterway from this town. Arrangements for a camping site and parking of their cars and trailers will be made in the neighborhood of Trent Drive.

AT THE PARK — Popular singer Julius La Rosa makes his film debut in "Let's Rock!" now having its first showing at the Park Theatre. Columbia Pictures' rock 'n roll follow-up to "Rock Around the Clock" and "Don't Knock the Rock!" On the same program in Technicolor fast action outdoor attraction "Return to Warbow". stars Phil Carey and Catherine McLeod. Continuous show Saturday from 1.00. Doors open at 12.30.

Astrological Forecast

By CARROLL RIGHTER

Aries (March 21 to April 19) — Very dynamic, successful pals will today give you the vital data for which you have been yearning. Be certain you express yourself cogently in any confidential dealings you may have, and their successful outcome is assured. P.M. have fun.

Taurus (April 20 to May 20) — By giving your most earnest effort to all matters civic, philanthropic or industrial today, they will prove extremely successful. Endeavor to have a tete-a-tete over the teacups with employer or high executive and be delightfully entertaining.

Gemini (May 21 to June 21) — The stars are with you this day, so it is necessary you get out of dull — depressing routine and go to places of greatest activity where you will gain real opportunities. Study paper well for latest trends, innovations. Adopt the best.

Moon children (June 22 to July 21) — A great day for making necessary adjustments pertinent to financial or property matters, especially bank account. P. M. don't neglect the most important person in your life. Get together and have a glorious evening together.

Leo (July 22 to Aug. 21) — Up-and-at-em associates now give you very free ideas that will help to fill the family coffers. Do not hesitate to sign contracts, make verbal agreements with regard to all matters you are intuitively sure will prove successful.

Virgo (Aug. 22 to Sept. 23) — Make your daily job and dutiful commitments the important tasks of the day. It is possible for to instill efficiencies, find particular increase revenue, work fearfully, and get more co-operation from fellow workers. Be alert.

Libra (Sept. 23 to Oct. 23) — You should arise today in the very finest spirits and ready for having a wonderful time. Get important chores out of the way quickly, then be very social for the possibilities are excellent.

Scorpio (Oct. 23 to Nov. 21) — A perfect day for commencing operations on that new uptrend your mind has been busy figuring out for some time... Also good for putting household in order as suits you. Be sure to look into whatever puzzles you first.

Sagittarius (Nov. 22 to Dec. 21) — Much benefit can be derived today by having meetings with regular associates or contemplated ones. Several relations by improving others with your true and sincere co-operation which can be counted upon indefinitely.

Capricorn (Dec. 22 to Jan. 20) — Learn the newest trends in salesmanship, other outlets today and these will bring about higher returns very soon. A splendid day for voice lessons, recordings, etc. Study well your contacts with sound. Have your feet on the ground.

Aquarius (Jan. 21 to Feb. 19) — An ideal day for increasing your abundance, envisioning wider scopes and putting ideas in operation quickly. Be sure to dress in most elegant and best taste, then put best foot forward with authorities and financiers.

Pisces (Feb. 20 to March 20) — Spend some time in a.m. quietly thinking out a better psychology to use on others that will get you better results. Then in afternoon and evening go after your ambitions and desires by the shortest and best route. Succeed.

Event: A child is born today ... The lucky little child born today is the kind who gets along famously with everyone, and will be almost a challenge to dear parents and relatives because of the talent – loaded mind and fine physique with which he or she is possessed. Encourage this quality of leadership and you will have a most respected politician, executive, or great actor, actress in your menagge.

Sunday School Lessons

Time and God Are Allies

By ROY L. SMITH

It is one of the basic teachings of good religion that Time and God are inseparable allies.

It is a part of the basic philosophy of good religion that there are forces at work in human affairs which will never suffer defeat. Righteousness may suffer delays, and godliness may be set aside for ungodliness in particular situations, but the ultimate victory belongs to the true and the just.

PHILOSOPHY OF HISTORY

A very great deal of the Old Testament consists of literature designed to make it plain that the nation which is devoted to righteousness is destined to endure, while the nation that is dedicated to unrighteousness is doomed.

Over and over again in one book of the Old Testament after another it is said of kings and leaders that they turned Israel to God. And that, in the opinion of the writers, was a sufficient condemnation to be recorded of any man. It was just a little as if they had said "He was a traitor to the nation's cause."

This week's Sunday school lesson is taken from the book of Joshua, one of the completest writings of this class. Its ous writings of this class. Its whole purpose is to sound a warning to the nation: "The people who sin shall surely die. The nation that defies God is doomed." No cleverness could save them.

COLD WAR A LONG ONE

Under the leadership of Joshua the Children of Israel won a spectacular victory at Jericho, and marched over the ruined walls of that border town to take possession of the Land of Promise.

Actually, however, the campaign was by no means as simple as that. When the walls of Jericho "came tumbling down," the first skirmish represented a first victory, but only a victory. After Jericho there was a bitter campaign for the capture of other cities — a struggle that lasted for years.

The test of Joshua's leadership did not appear at Jericho. Rather it emerged years later when the people, wearied with the conflict, found themselves still confronted with untaken cities. And one of the tragedies of the situation, from the standpoint of the nation, developed out of the fact that a long list of cities went unconquered and were to become sources of moral and spiritual infection for hundreds of years.

The Uniform Sunday school lesson for June 8 is "In the Land of Promise," Joshua 4; 11; 16-23; 23 and 24.

A military victory sometimes settles things quickly, and even effectively. The Civil War, for example, settled the matter of slavery. But it did not settle the race problem. Cold wars can be waged for years. Indeed, they must be, for evil always pups up a stubborn resistance and must be dealt with deliberately.

The most hopeful aspect of the case is, however, the assurance the Christian has in the ultimate triumph of righteousness. Evil has never been able to wear God out. He always has time to wait for the victory.

EACH MUST CHOOSE

In nothing did God ever take a greater risk than when He gave man the right to choose. By creating free He put a divine right at the mercy of human judgment.

There are those, of course, who insist that man is not free who choose. Biologists, psychologists, economists, and a considerable list of other scientists may arise to say that life has been thrust upon man without his consent, and that its pattern has been fixed by forces beyond his power to change. And within certain limits they may be right.

As a matter of practical experience, however, we know we do choose. Each of us makes deliberate choices every day upon the outcome of which progress and defeat are determined. The headstrong youth decides he will go to school, that he will live the life of a hoodlum, and that he will defy all law and government. . . And another lad, sometimes from the same family and the same environment, will make a contrary decision to abide by the law of the land, to be frugally and industriously, and render a good account of himself. . . Upon our choices depends the outcome of life.

There is a democratic importance that we keep always in mind that the choices made by a democracy express the average of the choices of the citizens, and every man raises or lowers the average.

6th Sidney

6th SIDNEY — Mr. and Mrs. H. Wallbridge, Mountain View, spent Sunday supper hour with Mr. and Mrs. Charles Carr.

Mr. and Mrs. Andy Carr and children, Glenmiller, were Sunday supper guests of Mr. and Mrs. Merritt Carr.

Mr. and Mrs. Edison Sine and children were Sunday dinner guests of Mr. and Mrs. W. McInroy, Marmora, and also called on Mrs. Lewis Phillips and Mr. and Mrs. Gordon Phillips.

Mr. and Mrs. Goodacres and children, Peterborough, were weekend guests of Mr. and Mrs. Avery Sine.

The Misses Dorothy, Margaret and Isabelle Carr were recent supper guests of Mr. and Mrs. Leon Tripp.

TWEED

Chapman WI Commemorates 8th Birthday

TWEED — A delightful, educational get-together of the Chapman and River Valley Institute members was recently held at the home of Mrs. Harry Coulter with 28 persons in attendance, 24 River Valley members, one local visitor, 27 Chapman home members and seven children. The River Valley Institute members are from west of Stirling.

The new president, Mrs. Mitchell Rannie, presided. Four were paid. A letter was read which invited the Institute members to Cannifton town hall for an afternoon tea and bazaar by the Cannifton Institute on June 18th.

At the district meeting at Rossmin, on June 12, the district director, Mrs. S. Webb, will serve as a delegate.

The meeting was turned over to the leader, Mrs. Wilbur Bateman, who opened with a poem, Eileen Coulter extended a welcome to the River Valley members and other visitors, to which Mrs: Ross Bush, president of the R.V. Institute, responded.

Mrs. McIntosh, leader of their group, opened with singing "The Maple Leaf Forever." She introduced Miss Louise Hardy, of the Girl-Guides, and Dennis Heasman, a Boy Scout, who brought in the flags. The entire program was centred around the "Flags and Empire-ism."

Mrs. McIntosh favored with a reading entitled, "The Flag." Mrs. Ed Heasman gave a reading, "God, My Country and Me, Let Us Live Abundantly," which was composed by her.

Mrs. Ross Bush read a paper on "Empire Day," and here will make a contrary decision to abide by the law of the land, to be frugally and industriously, and render a good account of himself. . . Upon our choices depends the outcome of life.

There is a democratic importance that we keep always in mind that the choices made by a democracy express the average of the choices of the citizens, and every man raises or lowers the average.

Mrs. Bernard Hunt moved a vote of thanks to Mrs. Coulter for opening her home and remarked that the birthday party on the 8th which they were celebrating this day, had already been held at her home, as the Institute was instituted at her home eight years ago. This was seconded by Mrs. Wilbur Bateman, to which Mrs. Coulter responded.

Refreshments were served by the ladies in charge, with a lovely birthday cake marking the eighth anniversary of the Champman Institute.

Bonarlaw

BONARLAW — Miss Milda Mumby, returned to Toronto after spending the past week with friends here.

Mr. Merton Baker left on Sunday for Sudbury, where he has been transferred from Edmundston N.B.

Several from here attended the auction sale held at Wil Prentice's at Trent Bridge, on Saturday.

Miss Roberta Wright, of Belleville, is spending two weeks' holiday with her parents, Mr. and Mrs. B. Wright.

Mr. and Mrs. Gerald McFaul spent the weekend with friends in Sudbury.

Mrs. Bill Burkitt returned home from Conniston on Thursday. She was accompanied by her nephew, Mr. Alf Revard and neice, Mrs. J. Lalonde and baby.

Mr. and Mrs. R. Dickie were supper guests of Mr. and Mrs. H. McMahon on Friday evening.

Mr. and Mrs. M. Baker and Mr. Jason Baker were guests of Mr. and Mrs. Dan D. Cretney of Belleville, on Saturday evening.

Mr. Clarence Wellman of Havelock, visited his mother, Mrs. D. Wellman on Sunday.

Mr. and Mrs. Haslett, of Alberta, visited Mr. and Mrs. Harry Haslett on Sunday evening.

Mr. and Mrs. W. Steinburg and family visited Mr. and Mrs. Bill Hanson on Sunday.

Mr. and Mrs. A. Burkitt visited Mr. and Mrs. J. Measely, at Mt. Anne, on Tuesday.

On Sunday evening Spring-field Lodge held its service in St. Mark's Anglican Church, and the visiting lodge of Tabekahs of Stirling, and other lodge members were present. The Rev. R. G. Fleming was the minister for the occasion.

FRANKFORD

Expect Water For Frankford In November

FRANKFORD — Good progress is being made on the water and sewage systems at Frankford, where for some time, the work of installing mains has been going on.

Carried on under the Ontario Water Resources Commission, the project is expected to be completed in November and chlorinated water users will have service by that time.

AHEAD OF SCHEDULE

According to village clerk, J. E. Finnegan, the program of excavation and installation is well ahead of schedule. Streets where mains are already completed are King, Victoria, Wellington, Albert and Scott. In this area about 75 per cent of the ratepayers have already had pipes installed for home service.

Mill St. and part of Trent St. are yet to be finished. Sewage plant footings are now being installed and an early date construction on the disposal plant will begin.

Work has started on the water storage tank at the west end of town. Test drillings have already assured an adequate supply of pure water for the community.

This first stage of the water sewage system will serve the northern portion of the town.

At an early date village council members will meet with Water Resources Commission officials to discuss further progress of the system.

EARLY COURIERS

An official courier system started in 1721 between Quebec and Montreal carried private mail as well as government dispatches.

Halloway

HALLOWAY — Sincere sympathy is extended to Mrs. Roy Baker in the sudden passing of her husband, Roy Shaver, on Saturday morning, while at work at the Canadian Canners, Foxboro.

Mr. and Mrs. Roscoe Rokeal, were Sunday guests of Mr. and Mrs. Duke Phillips.

Mr. and Mrs. Bill Brown, Miss Dixie Brown, of Colborne, and friend, Miss Pat Hurst, of Toronto, were Sunday afternoon callers with Mr. and Mrs. Coleman Townsend.

Congratulations to Mr. and Mrs. Fred Begley on the arrival of their baby daughter.

Mr. and Mrs. Earl Solder spent Saturday in Wellington, guest of Mr. and Mrs. Milton Solder.

Carmel

CARMEL — Quite a number attended church on Sunday morning Mr. and Mrs. Clarence Roper were in attendance.

The community was sorry on Saturday to hear that Mr. Chatten, who was busy at Mr. Rudder's with others, received severe burns from a blow torch on hands, arms and face. He was rushed to hospital. All wish him a speedy recovery.

Miss Carlyn Thompson, who has succeeded in getting a job at Toronto left for Toronto on Sunday. The community wishes her well.

A pleasant surprise was given her at Mr. and Mrs. M. Robinson's on Saturday night when she was presented with gifts.

Mrs. Edith Gay, Belleville, spent the weekend with her cousin, Mrs. S. Dafoe.

Mr. and Mrs. Bob Patterson, Stirling, also Mr. and Mrs. Gordon Lynn, Stirling, were Sunday visitors of Mr. and Mrs. J. B. Patterson.

Mr. and Mrs. Amos Whitmore spent Sunday at Coe Hill visiting relatives.

READ

H-S Club Elects Officers

READ — The monthly meeting of the Home and School Club was held Monday evening in St. Mary's school with 30 members present.

The president opened the meeting with prayer followed by the treasurer's report. It was adopted.

It was decided to have the school picnic on June 24th.

The officers were then elected for the next term. They were as follows: president, Mrs. James Kehoe; 1st vice - president, Mrs. Pat Mullin; 2nd vice - president, Mrs. Jerry Horrigan; secretary-treasurer, Mrs. William Hanley.

Refreshments were served by Mrs. Adrian Callaghan, Mrs. William Durkin, Mrs. Teresa Mullin and Mrs. Clare Brennan.

Next meeting in September.

West Huntingdon

WEST HUNTINGDON — Mr. and Mrs. Dan Conlin, Mr. and Mrs. John Walace and James, Mr. and Mrs. Lindsay Sills, Mr. and Mrs. David Fargey, Mr. and Mrs. Herold Farmgren, and Mr. and Mrs. Russell Sills, attended the opening of the new Purina plant at Madoc on Saturday.

Mr. and Mrs. Elwin Carr attended the Orange service at Norwood, on Sunday.

Mr. Harry Campion and his daughter, Mrs. L. Lawrence, of Marmora, spent a few days with Mr. and Mrs. Art Mrs. Goldie McInroy.

Mrs. Frank Vice, of Oshawa, is spending this week with Mrs. Melville Reid.

Mr. and Mrs. George Dyson were dinner guests on Sunday of Mr. and Mrs. Moe Sarles.

Dr. and Mrs. Grant Eckert, and family, of Sudbury, were recent guests of Mr. and Mrs. John Moorcroft.

Mr. and Mrs. Ray Hammond and family, of Cobourg, were weekend guests of Mr. and Mrs. Frank Hammond.

FOR A BETTER GARDEN

... AND TIME TO ENJOY IT

— you need a Roto-Hoe

• Eliminates heavy digging and hard manual hoeing. Once over does the job — no compaction and less sweat to buy.

• Revolving teeth break up and aerate the soil, cultivate between rows, destroy weeds, mulch leaves and conserve moisture.

• Has 3 speeds — 1 for each purpose by simple adjustment. 20" Roto-Cutter Attachment, new self-propelled 22" model or 26" Rotary Cutter (for 5½ H.P. Roto-Hoe). Changes from either to cutter in seconds, with one "PRESS-MATIC" latch.

Ladies are particularly enthusiastic about the Roto-Hoe. It's so easy to handle. Roto-Hoe for 1958 offers a choice of 3 models and 6 handy attachments. Ask us for a demonstration.

Before you consider the many imitations, why not find out why, since 1936, tens of thousands of gardeners have bought ROTO-HOE and still own it. ROTO-HOE. *Write for free literature.*

De Gaulle Plans Algerian Town Elections Soon

Moves Rapidly to Give Moslems Equal Rights

PARIS (AP) — Premier Charles De Gaulle summoned today to put his program of equality for Algerian Moslems into effect quickly by calling municipal elections there in about a month.

The cabinet set October 5 as the tentative date for a referendum throughout France, including Algeria, on the constitution-making drive De Gaulle is working on.

Meeting to hear de Gaulle report on this three-day trip to the rebellious territory, the cabinet also agreed that Algerian Moslem, not yet named, should be given a ministerial post.

De Gaulle's spokesman, Andre Malraux, said the General returned from Algeria convinced that the Moslems there accepted his presence as premier of France as a guarantee they will get full equality.

STRESSES SPEED

Malraux said de Gaulle felt it important to get the Algerian elections under way quickly. As de Gaulle promised during his trip, Moslems would be given what will have equal voting rights.

The elections would be to fill the posts of mayors, town councils, and other local administrative bodies.

Local administration in Algeria now is under military control. Many officials are appointed under military authority.

Dr. Jacques Soustelle, other ex-Algerian officials who kept their jobs when the elections in Algeria were cancelled two years ago to give the vote to Moslems.

De Gaulle also reported to his cabinet that the army in Algeria, which supported the May 13 insurrection against the French government, is completely faithful to the government.

De Gaulle confirmed Secretary of State Foster Dulles' personal delegate in Algeria but refused to comment on reports he made clear the insurgent committee should not continue to rule the French African area.

IMPROVE CONTACTS

They should confine themselves, under Salan's direction, to improving relations between the European and Moslem populations, he said.

The committees seemed in no mood, however, to carry out the instructions Delegate de Gaulle had spoken.

Reports of discontent continued to come from Algiers. Committee spokesman Lucien Neuwirth said today there would give de Gaulle its co-operation "without reservation" provided that he refused to say whether the committee approved de Gaulle's cabinet choices, which from out the extreme rightists.

Neuwirth, committee leader, Leon Delbecque, voiced what sounded like an intention to defy de Gaulle if he doesn't do what committee members want.

Just how much control, de Gaulle has established over the committees and army Salan would find it to reassert central authority were questions that would be answered immediately.

SECOND THOUGHTS

After the first wave of enthusiasm, Frenchmen at home seemed to be having second thoughts on the desirability of making Algerians equal citizens.

Left-wing papers reminding each other that government figures show the Algerian Moslem population is more than 90 per cent illiterate.

Fire Sweeps Gore Bay Business Block

GORE BAY (CP) — The worst fire in the history of this little Manitoulin Island town swept through a downtown business block early today and for a time threatened the entire business section.

Firefighters from five other Island communities joined Gore Bay volunteers in an effort to keep the flames confined to the 50-year-old Mohen block of three stores and second-floor apartments.

An official of the Ontario Power Company, main industry in this town of 1,000, said damage could exceed $300,000. No one was injured.

Destroyed were Jack McKenzie's hardware store, the drug store of George McHee, the George Graham food locker, offices of Dr. Fred Strain and several apartments.

"If there had been a wind of any account in the night, the entire whole main street," Mayor Malcolm McQuarrie said.

Costs Department $17,000 Damages For Frost Boil

SUDBURY (CP) — A Sturgeon Falls widow and her children will receive $17,000 from the department of highways in settlement of a damage action arising from a fatal accident caused by a frost boil on Highway 64.

The lawsuit was brought in Supreme Court by Mrs. Florence D. Desgrandchamps, her husband, Joseph, was fatally injured last fall when the light truck in which he was riding overturned on the road near Verner, 30 mile east of here.

Driver Clement Gauthier of Cache Bay said the vehicle went out of control when a wheel hit a hole in the road surface. The plaintiff claimed the department of highways had failed to maintain the road in a safe condition.

Witnesses agreed there were no signs warning drivers of the holes, which caused when frost boils collapsed.

Rail Conciliation Board Finishes Public Hearings

MONTREAL (CP)—The conciliation board dealing with contract disputes between the major railways and 15 unions representing operating workers wound up its public hearings here.

The board is expected to meet privately with representatives of the railways and unions, probably today, in a final attempt to reach agreement before deliberating on evidence submitted since hearings first opened March 3.

Central issue has been the wage standard to be adopted in the basis of new contracts between the railways and the unions. The old contracts were to have expired last Dec. 31.

Today's Chuckle

Usher, passing collection plate at church: "Yes, ma'am, it is unusual, but the father of the bride requested it."

THE WEATHER

TORONTO (CP) Synopsis: Clear skies and light winds in Southern Ontario allowed scores temperatures to drop to the low 30s in Inland regions. Indications extensive frost at the ground level. Central and Northern Ontario had patches of cloud but the steady breeze in these areas did much more to prevent frost by holding temperatures well up in the 40s.

COMMONS DEBATE ON PUBLIC WORKS IS BELLIGERENT

Green Argues With Pearson, Martin

OTTAWA (CP) — Belligerent disagreement marked a Commons debate on public works estimates Friday.

Works Minister Green crossed lances with Opposition Leader Pearson, Paul Martin, former Liberal health minister, and other Liberal members on what the government's public works program had accomplished in easing unemployment.

He refused to withdraw a description of Mr. Pearson as a "political opportunist." Finance Minister Martin were gloating over the unemployment situation, he said.

In other Commons business, Prime Minister Diefenbaker outlined a "tripod" program suggested by economists and initiated by his government to combat the recession.

TURNER PLEADS

Its three phases included expanded consumer spending power public works and tax cuts, none of which is carried to "entirety" and none regarded as a solution in itself.

In the acrimonious start to the debate on public works, Mr. Pearson asked why in view of "amazing" public works activity claimed by the government, jobless were more than 300,000 persons still unemployed.

Maurice Bourget (L — Levis) and former Liberal parliament assistant Turner (L — Ontario) called the government program inadequate in large part a mere extension of Liberal plans and undertakings.

Mr. Green, for $233,000,000, the program was only spending $42,000,000 more than the Liberal one for the 1958-57 fiscal year.

Mr. Green said the program is by far the largest ever sought. It had been accelerated to provide jobs otherwise unavailable this year and "hundreds of thousands" need work.

SEPARATE CHALLENGE

When Mr. Martin repeated challenges to say how many jobs the $42,000,000 meant, Mr. Green retorted that the former minister "would never going to be convinced we put one man to work unless we drag the poor man through the door" in the House of Commons.

Mr. Martin continued in that vein through much of the day's sittings. As a result the Commons never got down to a study of any details.

He asserted Mr. Martin said Mr. Green's approach might result in keeping Parliament in session "beyond September. It has been reported the government hopes to end the session mid-July 31.)

The minister said his department had sought for $233,000,000 in works appropriations in this 1958-59 fiscal year "but the large sum this department has ever sought." It also was undertaking $152,000,000 for other projects.

Additional works debate also raised the cold question of patronage and political favoritism in the department's operations.

Douglas Fisher (CCF — Port Arthur) charged the minister's "sure and honest" approach to give out contracts was a myth.

This should eliminate suspicion of patronage practices in the department, Mr. Green said, noted various reports of defeated Conservative candidates announcing future projects in their ridings.

READY TO SIGN

REGINA (CP)—Saskatchewan will sign a hospital insurance agreement with the federal government this month, Health Minister J. Walter Erb said Friday.

Airport Workers Set Out Smudge Pots to Bring in Crippled Plane

BRANTFORD (CP) — Airport workers scrambled to space flickering smudge pots along a runway Friday afternoon to help land a United States Air Force transport thumped down on a single-engine emergency landing.

Reserve Capt. Wilbur Lewis of Tonawanda, N.Y., dropped his 18-ton C-119 Flying Boxcar on an unlighted strip at Brantford-Norfolk airport after it developed a "runaway propeller" on a training flight back to Niagara Falls, N.Y., from Windsor, Ont.

His seven crew members — five reserves and two regulars — abandoned ship at the 1,200 gallons of fuel still in the tanks, praised the "miraculous" landing. Capt. Lewis tucked his lumbering craft, designed for runways of a minimum 3,000 feet, on to 2,600 feet of tarmac.

Brantford-Norfolk is the only RCAF Station, Mount Hope, Ont. which has lighted runways, but the smudge pots were rapidly and had to drop down here. With the assistance of airport employees, scurried out with the smudge pots.

The four crew members: 1st Lieut. Martin Jarocick, Buffalo, N.Y.; Capt. Frank Brown, Buffalo; Capt. Roman Figler, Niagara Falls; 1st Lieut. Jan Strzelecki, Buffalo; 1st Lieut. Richard Reich, North Tonawanda; Technical Sgt. Fred Mitchell, Calgary, Youngstown, N.Y., and S. Sgt. Paul Klebs, Niagara Falls.

FIRE MARS FREEDOM CELEBRATION

While their parents were at a neighbor's party celebrating the fifth anniversary of their escape from East Germany, three of their children narrowly escaped from a fire which gutted their farm home in Clarksburg, Ont. They moved home from a movie just in time to rescue Heidi Tollner, left, six; Marguerita Rore, four, right, and Reinhardt, 13, not pictured. Helga also saved the family's four dogs, although most of the family's possessions were lost in the blaze, the cause of which is not known.

Senate Passes Foreign Aid Bill With No Further Cuts

WASHINGTON (AP) — The Senate had approved a $3,712,900,000 foreign aid program after beating back efforts to trim the total and to keep any further assistance to Communist Poland and Yugoslavia.

The measure authorizing continued military and economic help for free nations was passed 51-17 Friday night.

The Senate approved the total recommended by its foreign relations committee which had cut President Eisenhower's request by $229,000,000. The House of Representatives version, passed earlier, is $110,000,000 smaller than the Senate total.

The bill now goes to a Senate-House conference to reconcile differences. Conferees tentatively split their money differences roughly down the middle.

The hottest debate of Friday's long session came when Senator Styles Bridges of New Hampshire, chairman of the Senate Republican policy committee, moved to delete from the bill a congressional pledge to continue aid for India's economic development.

Critics of Prime Minister Nehru called him a Communist and a phoney. But Senator John Sherman Cooper, Kentucky Republican and former U.S. ambassador to India, said the Communist charge was not true.

Bridges contended it would be "a big in the face" to other nations to single out India for special economic aid. The Senate rejected the Indian aid pledge by a 47-35 vote.

The Senate rejected 54-32, a move by Bridges to write into the bill a ban on further help to Poland and Yugoslavia.

Untreated Golf Club Water Illegally Linked to Mains

TORONTO (CP) — The illegal connection of a golf club's water line to public service mains has been blamed for pollution of part of suburban North York's water supply.

Reeve Vernon Singer Friday night said that the Bendale Golf Club's private system for watering greens was connected to the public system contrary to township by-laws and untreated Don River water was drawn into the public mains.

Mr. Singer said the township was not aware of the connection which was made more than nine years ago.

Township water commission employees prevented the connection Thursday after water test reports showed a dangerous degree of contamination.

Area residents have been instructed by health authorities to boil drinking water until Monday. Residents in an exclusive section of the township had complained the water was discolored and some persons reported it made them ill.

The two streets in the section affected are served by a U-shaped tap-off from the main that runs below the golf club. The public main was flushed and chlorinated to remove the contamination.

Club President W. O. Twaits said the club had been drawing Don River water for green sprinkling for more than 25 years.

"There apparently was a connection there before I became a member but I never knew it," he said. "What I now understand, is how this should happen now and not years back."

Ontario Water Resources Commission engineers said low pressure in the public mains caused by high consumption of water by residents resulted in the pressure of river water flowing into the public main, through Bendale Drive and Glen Crescent Road.

Mr. Singer said any legal action in the matter would be up to Harold Amer, township by-law enforcement officer.

Mr. Amer said he was waiting on reports from the health department and the township water commission before considering the case.

TORY MP SAYS CANADA BEHIND IN PRISON REFORM

Would Abolish Corporal Punishment

OTTAWA (CP) — A government supporter versed in the subject says Canada is "woefully behind in prison reform."

Heward Grafftey (PC—Brome-Missisquoi), a new Commons member and a director of the John Howard Society of Montreal, expressed his view Friday in debate on a private CCF bill to abolish corporal punishment in prison sentences.

The measure proposed by Harold Winch (CCF — Vancouver East) drew support in principle from all three parties. Conservative speakers including a former RCMP officer, felt it was indefensible to tie the bottom of the pile of private members' bills.

Mr. Grafftey said: "The degradation" of corporal punishment—applied in Canada by the strap and lash—was at odds with recent progress in penal reform.

Mr. Winch's bill—on one of his favorite subjects—would abolish strictest corporal punishment to a prison disciplinary measure. He said it had been proven conclusively that the deterrent value was nil but the brutalizing effect was better than nothing.

Prisoners became even more antagonistic—and the degradation of the lash and strap.

Mr. Winch said maximum prison sentences had been recommended unanimously by a joint Senate-Commons committee ago.

Support came from F. J. Bigg (PC—Okanagan-Revelstoke), member of the RCMP, and lawyer Gerald W. Baldwin (PC—Peace River), who said corporal punishment is "useless and obsolete" in Canada's criminal code.

Mr. Bigg said that in 23 years as a police officer he had found most violent crimes a result committed by victims of broken homes. No use of the "engines of torture" involved in corporal punishment could offset the lack of love and affection which he believed to be the root cause of crime in most cases.

Macmillan's Plane Delayed By Faulty Engine

WASHINGTON (AP)—Prime Minister Harold Macmillan arrived back in Britain for a brief campus speechmaking, three days of consultations with President Eisenhower, and a visit to Prime Minister John Diefenbaker.

Macmillan originally planned to spend a full day in Washington, but at airport early this morning. But engine trouble forced his plane to turn around and land at this set back his arrival time by about four hours.

In addition to his talks with Eisenhower, beginning Monday, Macmillan will visit two U.S. colleges. He will confer with Diefenbaker while there, after leaving Washington Wednesday.

Canada's new economic offensive is expected to get top billing in the discussions with Eisenhower. However, British and American officials said Macmillan will cover a wide range of current world problems.

WILL DEBATE NORAD

OTTAWA (CP) — The Commons Friday will debate the Canada-United States agreement on the air defence of North America. Health Minister Monteith, acting government House leader, announced Friday.

Toronto Woman Held For Murder In Knife Slaying

Man Stripped to Waist Found Dead in Hallway

TORONTO (CP) — Mrs. Ann Ritchie, 37, was charged with murder today in the bloody knife-slaying of Stanley Mitchell, about 45, in a downtown rooming house Friday night.

Police said Mitchell was stabbed in the chest after an argument in which he struck Mrs. Ritchie and Mrs. Florence Lallister, 43. He was found on the back in-a-second-floor hallway, stripped to the waist. Mitchell had no known relatives.

Mrs. Ritchie has two young sons, believed to be living on an Indian reservation near Owen Sound.

Fellow roomers said they heard no disturbance in the house before the body was discovered. Police said a butcher knife was found in a downstairs drawer in a second-floor room.

Missing Student Found in Bush, Bullet in Head

La SARRE, Que. (CP) — An inquest was to be held today into the death of John R. Bond, 26-year-old American student, whose decomposed body was found in the bush country where it had lain for seven weeks.

Police said the young man died of a bullet wound in the head. They found a .22-calibre rifle beside the body. There was no suspicion of foul play, they said.

George Bouck, of Massapequa, N.Y., and his son, Ben, 24, instigated a 50-man search party which finally led to the discovery of the body a mile inside the bush. Bringing out Mr. Bond's remains, a bee village, 165 miles south of James Bay.

The Massachusetts Institute of Technology student drove here April 19 from Boston, parked his convertible on a lonely road and walked into the bush. There was a windbreaker over city clothes.

GUNSHOTS HEARD

Detective Marc Barbeau, one of three police officers on the case, said the body was "lying on its side in thick bush." There was a .22 calibre pistol through the head from right to left." He said it looked like a case of suicide.

The body was found at 7.15 p.m. Thursday by Mr. and Mrs. Bouck and their son, Ben, Jr., Bushmen attempted to follow Bond's footsteps from camp. The men then fanned out and combed the area.

The Bouck party arrived here Wednesday to organize the search. Bond had been doing post-graduate work at M.I.T. and was said to be over-worked on studies. His disappearance was reported to police when a resident grew suspicious about the abandoned car.

Provincial police said they questioned "three or four" searches after hearing reports of gunshots in the area, but said they did not have enough money to finance a large search.

PRESIDENT'S CHOICE

WASHINGTON (AP)—John A. McCone, Los Angeles businessman was nominated Friday by President Eisenhower to succeed Lewis L. Strauss as a member of the Atomic Energy Commission.

Australian Emu After 24 Years Of Waiting Finally Finds Mate

CHICAGO (AP) — There's joy in the house of Amanda, a patient bird who's finally got. It made.

After 24 years of waiting and 184 weeks of courting, she's become a father.

The father, by ball bird was brought to Chicago with three females from Australia by the Brookfield Zoo opened in 1934. For eight weeks each year thereafter Amanda sat on her eggs and by his mates. And each year there was nothing but disappointment.

Two more females were added to Auzzie's harem in 1954, but only meant more eggs for him to sit on. None hatched.

It seemed like the same old story last March 25. Keepers gathered the eggs scattered about the floor of Amanda's pasture, put together on a straw pallet, and Auzzie, undaunted, went into his eight weeks sitting routine.

Weeks passed. On May 25 Auzzie left the nest to feed. Keepers rushed up. Two little black and white chicks were bobbling around.

The newcomers now are in the zoo's nursery section, but it's a little hard to know which mother is proud of Auzzie's harem co-congratulate.

In the emu way of doing things, all females have become protectors. Auzzie's five mates respond to a booming cry of alarm whenever keepers appear.

Meanwhile, Auzzie is back sitting on three eggs that were laid later. ...

Given 14 Years For Killing Child Aged Two

MONTREAL (CP)—Ian Gray, 27, of St. Basil le Grand, Que., has been sentenced to 14 years in penitentiary for manslaughter in the death of a two-year-old baby placed in his care by a social agency. He pleaded guilty.

Joseph Cohen, defence, attorney, said Friday his client had thrown the baby to the floor "in a moment of aberration" and without premeditated intention of causing bodily harm.

Mr. Justice Wilfrid Lazure said he accepted evidence that there was a temporary ill-treatment of the child. There was no doubt Gray "banged the victim's head on the floor twice," he said.

Israeli Forces Intercept Armed Group

TEL AVIV, Israel (Reuters) Israeli forces intercepted an armed group on its way from Syria to Lebanon, killing one and captured 13, an Israeli army spokesman announced today.

The spokesman said the clash took place Friday night in a part of the Israeli-Syrian border, 40 miles northward between Syria and Lebanon. The band had crossed back into Syria.

The spokesman quoted the prisoners as saying they were on their way to Lebanon with arms and ammunition. Documents found on them showed they were Metualli Moslems from south Lebanon, he said.

Lebanon charged in a United Nations security council debate Friday that the United Arab Republic of Egypt and Syria was increasing its interference in Lebanese affairs.

Libel Action Against Globe Is Dismissed

TORONTO (CP) — A libel action against The Globe and Mail by an unsuccessful candidate in the 1957 federal election was dismissed with costs in the Supreme Court of Ontario Friday.

Mr. Justice W. F. Spence ruled in a written judgment that there was no case of libel for the jury to consider in the case brought by Arthur Bell, Independent Conservative candidate in the Parkdale riding, against a editorial.

Mr. Boland sought $50,000 damages.

Mr. Justice Spence said in his judgment:

"I have come to the conclusion that a federal election is classed with occasions when a newspaper has a public duty to comment on the candidates, their campaigns and their platforms."

Total offering of cheese was 9,583 boxes, including 5,100 white. Of the white cheese, 4,533 were left for the producers with 569 boxes being held. Of the 3,481 colored cheese, 1,778 boxes were left for the producers and 1,703 boxes were held. Price asked at 35c.

Wins $56,000 On Horse In Derby

The telephone rang in the home of Mrs. Fred H. Deacon, William Street on Thursday. The operator asked: "This is France calling".

Strange thoughts raced through the mind of Mrs. Deacon as she awaiting the connection. She had a son, Mrs. W. J. Wibberley, wife of Flight Lieut. Wibberley, RCAF stationed at St. Avold, France.

What had happened? Was it a new baby? Was somebody sick, or perhaps on their way to Canada? Nothing like that.

Finally the connection was made. An excited voice at the second end of the line proved to be that of Mrs. Wibberley. She could scarcely talk. Her voice was fraught with infectious born of excitement.

And no wonder. For the Wibberleys had held an Irish Sweepstakes ticket on a horse named Paddy's Point, which in case you don't know finished second in Britain's famous Derby.

The ticket had netted the Wibberleys over $56,000.

No wonder Betty Wibberley, daughter of Mrs. F. J. Barlow, Dufferin Avenue was excited.

Flight Lieut. Wibberley was posted to France last July.

Transport Overturns, Burns, Driver Escapes With Bump

Torn boxes of feminine underwear and dented cans of concrete waterproofing compound were strewn along No. 2 highway for nearly 100 yards early today as a highway transport went out of control just west of the Point Anne Lane.

Driver of the transport, Martin Friesen, 23, of Richmond Hill, escaped from the wrecked transport seconds before the cab burst into flames.

He escaped with a bumped knee and a shaking up.

Belleville firemen confined the blaze to the transport itself but the semi-trailer owned by Reimer Express Lines Ltd., of Toronto, was ripped apart as it jackknifed into two elm trees at the side of the highway.

The tractor and the wrecked trailer ended up at right angles to the highway across the north ditch and span the highway fence.

The big transport went out of control as the driver cut back onto the north lane of the four lane highway where a new bridge is under construction over the north lane. The transport went out of control with the trailer jackknifing into the ditch and then was ripped apart as it bowled over the two elm trees.

Lee Grills, M.P. Named to 3 Committees

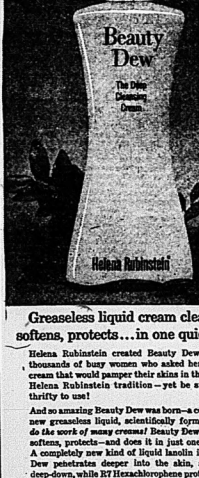
Federal member for Hastings South, Mr. Lee Grills has been named to three Tweed standing committees in the house of commons.

The three committees to which Mr. Grills has been appointed are Agriculture and Colonization; Railways, Canals and Telegraph Lines and Privileges and Elections.

FAMOUS PAINTING

Leonardo da Vinci's painting of "The Last Supper" covers 354 square feet of canvas.

Helena Rubinstein's new BEAUTY DEW



Greaseless liquid cream cleanses, softens, protects...in one quick step!

Helena Rubinstein created Beauty Dew for the thousands of busy women who asked her for one cream that would pamper their skins in the trusted Helena Rubinstein tradition—yet be swift and thrifty to use!

And so amazing Beauty Dew was born—a completely new greaseless liquid, scientifically formulated to do the work of many creams! Beauty Dew cleanses, softens, protects—and does it in just one minute! A completely new kind of liquid lanolin in Beauty Dew penetrates deeper into the skin, softening deep-down, while RI Hexachlorophene protects your skin against bacteria-caused surface blemishes.

If you cherish your complexion—and time and money too, Beauty Dew is the liquid cream for you. Now Helena Rubinstein makes it possible to coddle your skin for about a penny a day—to keep it looking brighter, clearer, dewy-fresh!

Obituary

DR. C. W. BISHOP

GUELPH (CP) — Rev. Dr. Charles Wallace Bishop, 78, retired United Church of Canada clergyman and former lecturer in religious knowledge at Carleton University, Ottawa, died Friday.

Dr. Bishop was general secretary for the National Council of the YMCA from 1912 to 1921. In 1926 he was appointed principal of Albert College, Belleville, a post he held for eight years until taking over the pastoral charge of Melville United Church in Fergus, and later Morrison Street United Church, Niagara Falls, Ont.

In 1946 he became a lecturer at Carleton College and retired from there in 1949.

SANFORD KELLER

CAMPBELLFORD — Funeral services were conducted on Thursday, June 5th, for Sanford Keller, who died suddenly at his home at Healey Falls on Tuesday.

Mr. Keller was born 58 years ago ron of the late Charles and Alfretta Hoard Keller. He lived in this district all his life and operated a tourist resort at Healey Falls for many years.

His wife, the former Minnie Johnston, survives. Also surviving are two daughters, Mrs. Ted Brown (Betty), and Marcia Keller of Campbellford; two grandsons, Jimmy and Rickey Brown; two sisters, Mrs. Harry Abernethy (Ruth) and Miss Grace Keller of town, and one brother, Augustus Keller of Peterborough.

Services were conducted from Bennett's Funeral Home with Rev. H. Bruce Pettigrew, United Church officiating. Bearers were: Carleton Rose, Murray Pecherick, Ton Sanders, Harold Brunton, Frank Abernethy and Clyde Johnston.

Interment was in Keller cemetery at Healey Falls.

Harvards Fly in Perfect Formation

Twenty Harvards spell out the call letters of the Trenton Air Station as they fly over Hanger Number Four in perfect formation during a fly-past yesterday afternoon. The Harvards were leaving the aircraft which put on a thrilling display of skilful flying and gave a taste of what the RCAF in Trenton has prepared for its big day on June 14. In the above photo the RCAF photographer from 6 Repair Depot caught the Harvards as they were backgrounded by the large white cloud. It was only one of the formations the Harvard pilots displayed and they showed outstanding skill in holding their positions despite the heavy winds. (RCAF Photo).

TRENTON NEWS ALTON GEORGESON Phone EX 2-3929

Preview of Air Force Day Held for Press at Trenton

TRENTON — Sleek, fast jets and dignified, proud Harvards played principal roles in a fly past yesterday afternoon at the R.C.A.F. Station Trenton.

The show was put on for the benefit of press members from Ottawa, Toronto and other centres and was a sample of what will be taking place on Air Force Day slated for June 14.

The tour of the entire station in started in the bristling room at No. 6 Repair Depot and was followed by a trip to the various hangars there, where the work of ready the Depot was explained by officers in charge of each department.

The visitors were lcted by the officers of No. 6 Repair Depot with dinner at their mess, after which the entire party shifted over to the South Station for the air demonstration.

Here jets and Harvards joined to put on an amazing, thrilling and new, perfect example of formation flying which was a credit to the flying ability of the pilots, as well as to the magnitude of the efficient training program of the R.C.A.F. station at Trenton.

Besides the formation flying, single aircraft gave demonstrations of aerobatic flying, doing loops and rolls.

Following the air show the members boarded a bus for a trip to Mountain View, a detachment of No. 6 Repair Depot, where air force personnel are engaged in rebuilding some old types of aircraft used during World War One and World War Two. Some of these will be placed on display at Air Force Day.

Here a replica of the Silver Dart, the first aircraft to be flown in Canada is also being built. This also will be exactly the same as one of former years and will be able to be flown when completed.

A Hurricane and Spitfire, both types of planes which made air force history in the last war, are being prepared for demonstration at Air Force Day.

After 4 p.m. the party from Ottawa left the aircraft in the air trip back to their homes and local members of the press entertained at the Sergeants' Mess at 6 Rd for lunch.

Truck Hits Taxi Woman Injured

TRENTON — The first accident on Trenton streets for the past four days caused $90 damage to the cars involved and sent a woman passenger to the Memorial Hospital with injuries yesterday afternoon.

Injured was Mrs. Agnes Masters of 275 Sidney Street. A report on her injuries was not available.

Mrs. Masters was a passenger in a taxi driven by Thomas Colman of 51 Stanley Street.

According to the police report a pick-up truck being driven by Gerald Cresswell, 276 Sidney Street, struck with the rear of the taxi when it had stopped on the town bridge, in the line of traffic, at 5.10 p.m.

The accident was investigated by Constable Sid Vickers of the Trenton Police Department.

Two other accidents were reported last night but damage to the vehicles involved was minor and there were no injuries reported.

Summer Series Band Concerts Opens Sunday

Washed out last week as the result of last Sunday's rain, the opening concert of the summer series to be staged at Victoria Park by three Belleville bands, will be held tomorrow afternoon.

The summer series of concerts will be officially introduced by Mayor Gerald Hyde and Jack Kinsmen, chairman of the Belleville Parks Board, with the program scheduled for last week to be staged this Sunday.

Sunday's concert will be staged by the Belleville Municipal and Kinsmen Band. Other bands offering programs during the summer season are the Salvation Army Band and the Quinte Highland Pipe Band.

All concerts are free.

HUGE FISH

The Pacific sturgeon, found in the Fraser River in British Columbia, may sometimes weigh more than 1,000 pounds.

Senior Knights Honored in Columbus Hall

At a Senior Knights' banquet held in Columbus Hall, approximately 90 members of Belleville Council 1068 paid tribute to the senior members of the order.

During the dinner many members with 25 and more years membership were presented with awards in recognition of their service. These included Brothers Thomas Robinson, Godfrey Donoghue, George O'Brien, Mike Naphan, Patrick Kelly, Bernard Brown, Frank Domenico, Ed Logan, J. J. Flurey, D. P. McIntyre, William J. Lynch, Frank M. Deacon, J. V. Boyle, Stephen Garvin, W. J. Winn, Frank Buckley, Jack Chapelle, William J. Frawley and A. A. McCrory.

The program also included the presentation of a Past Grand Knight emblem to Brother Bernard W. Hurley.

Grand Knight, Robertson Collins, who acted as toastmaster, welcomed members and introduced the visiting guests who included Very Reverend L. B. Garvin, Reverend W. J. McGee, Frank Murphy, Grand Knight of Trenton Council, and Travers Quinn, Grand Knight of Tweed Council.

The Lecturer, Thomas Clancy, introduced the guest speaker of the evening, Reverend V. J. Driscoll, S. J. Vice Rector of Regiopolis College at Kingston, Ont., who was appropriately thanked by the Past Grand Knight, A. W. Hurley.

Following the dinner meeting, the honorary and ceremonial was held. Brother William Lynch was then introduced by Brother R. E. Barrett, received his honorary life membership and honorary memberships were conferred upon Brothers Charles Deacon, W. H. Doran, Morris Callaghan, S. J. Harris, Peter Melchoir, J. C. Baker, William V. Hogan, Terry R. Dolan and Charles Funnell.

This impressive ceremonial was conducted by the Grand Knight, Robertson Collins, with the assistance of Brothers Chapelle, Boyle, Morrison, Deacon, Flurey, O'Brien and J. P. Howe.

Belleville Council was established in 1903 and in addition to the honorary membership recently conferred, honorary memberships have been received by Past Grand Knight J. V. Trusiach, Past State Deputy A. B. Collins, J. J. Block, F. E. McMahon, John Yome and W. N. Belair, who is the only surviving charter member of the Council.

IN MEMORIAM

FITZGIBBON. — In loving memory of our father, Arthur Fitzgibbon, who passed away June 7th, 1954. Loving and kind in all his ways, Upright and just to the end of his days. Sadly missed and mourned by his son and daughter. What a beautiful memory he left behind. —Ever remembered by son Edward, Sarah, Gaida, Wilfred and Martin.

COLLINS. — In loving memory of James Frederick Collins, who passed away June 8th, 1951. More and more each day we miss him. Friends may think the wound is healed, But they little know what is concealed. Lies within our hearts concealed. —Ever remembered by wife Lillian and daughter Frida and son-in-law Harry.

WATKINS. — In loving memory of Gladis Cora Watkins, who passed away six years ago today, June 7th, 1952. God knew how much we loved her, He saw how hard to climb; He lit the path with tears and pain, And whispered, "Peace be thine." Away in the heavenly halls of God, By the valley of rest so fair; Some time, some day, we know not when, We will meet our loved one there. —Ever remembered by Mother and Dad.

BRADSHAW. — In loving memory of a dear son and brother, Vernon Bradshaw, who passed away June 8th, 1950. There is a home and soon by hands, Prepared by golden doors, Where the one who is now away, Not lost, just gone before. In that land of love made by hands The Lord will prepare A place for you and when He calls Will meet our loved ones there. Loved by wife and children. Our farewell was never said; But what a glorious morning, When we say hello instead. —Lovingly remembered and sadly missed by Mom, Dad, brothers and sisters.

CARDS OF THANKS

We wish to extend our heartfelt thanks for kindness shown us during our many relatives, friends and neighbors who helped us during these days of sorrow with beautiful flowers, words of sympathy and deeds of infinite kindness. We also wish to thank Dr. L. Smith, Dr. F. J. Ross and Sist. Noel Joan and Sist. Mary Ann of St. Vincent de Paul. W. E. Donovan, Funeral Director, consoling words in the loss of our beloved son.

—The family of the late Mabel Carrie Kent.

Opening of School Planned for Sept.

A local school for retarded children will likely be opened in Belleville if plans prepared as well as they have so far, it was reported at a meeting of the recently-formed Quinte Association for Retarded Children, held Tuesday in Prince Charles School.

It was also reported the results of the first bingo game were excellent, and thanks were extended Belleville firemen for their co-operation in this venture.

Guest speaker was L. A. Kells, superintendent of public schools who gave an address concerning the slow learner, and afterwards, answered many questions on this subject.

BIRTHS

WILSON. — Murray and Joyce Wilson, (nee Smith), of Bellrose are happy to announce the birth of a son, Stephen Murray, a fine strong baby, born June 5th at the Belleville General Hospital. Weight 8 lbs. 15½ ozs.

McLEAN. — Mr. and Mrs. Doug. McLean, Elmwood Drive, R. R. 3, Belleville, happily announce the birth of a daughter in the Belleville General Hospital on Wednesday, June 4th, 1958. Sister for David, Ricky and Donald.

DEATHS

FITCHETT, Ethel A. Suddenly at her residence on Friday, June 6th, 1958, Ethel A. Fitchett, wife of Albert E. Fitchett, R. R. 3, Bancroft, beloved mother of Maurice Heath, Belleville; son-in-law of Mrs. Max Burnside, Madoc; Mrs. Ray Burnside, Bancroft; Mrs. Ernest Hall, Belleville; Mrs. Gerald Fitchett, Campbellford, and sister of Mrs. Arthur Morrison, Stirling; age 70 years.

Resting at the Weaver Funeral Home, Trenton, from Saturday p.m. until Monday a.m. when it will be taken to Bancroft. Funeral service will remain open until time of service on Monday, June 9, in Bethel Church, Monday, at 2.00 p.m. Interment Bethel Cemetery. 24-26

FOX, Simeon Henry. — At Belleville "General Hospital, on Thursday, June 5th, 1958, Simeon Henry Fox, 313 Bridge Street East, in his 81st year. Resting at the Grant Funeral Home, 257 Bridge Street East, Belleville. Funeral service will be held from the chapel at 2.00 p.m., on Sunday, June 8th. Interment Belleville Cemetery. 24-26

Presbyterians To Extend in New Urban Areas

TORONTO (CP) — The Presbyterian Church in Canada has been urged to give top priority to church extension in new urban areas.

Rev. Dr. J. A. Munro of Toronto Friday told the general assembly that Canada's large cities can be expected to double in population during the next 10 years.

Dr. Munro said synod corporations formed to raise funds are the mainstay of church extensions.

A Lift for Living

Pettiness and Bigness in Men

By DR. RALPH W. SOCKMAN

It has been rather generally assumed that personal character, istic pervades one's whole nature.

That is, if a person is neat he would be neat in all things; if generous, he would be generous in every phase of his living and thinking.

But not so. For instance, t h spelling papers of a schoolboy may be scrupulously neat while his arithmetic papers are slovenly. Or a man might be tenderly sympathetic to the physical sufferings of a member of his household or a pet animal, and yet be heartlessly cruel in his struggle with business competitors. Or a man may be strictly honest in his business dealings and yet dishonor his vows in affairs of t h e heart.

Also a person may be broad and tolerant in his religious views and yet very partisan, even bigoted in his political convictions.

Some of us who may call ourselves Christians have to confess we are not equally Christianized in all compartments of our living. Some of us are big in some things, petty in others.

Heinrich Heine, who was rated as the greatest lyric poet of modern Germany next to Goethe, was so emancipated from narrow nationalism that he retained his admiration for Napoleon even when his own country was fighting the French war lord.

Heine deplored that his countrymen were ceasing to be citizens of the world and becoming narrowly German.

Yet he once confessed h i s dream of happiness was to have a cottage in the country surrounded by flowers and trees and then added, "If the good God wants to make me supremely happy He would have a half-dozen of my enemies hanging from the trees!"

Heine could be generously tolerant in his national outlook and yet narrowly jealous in some of his personal circles.

About 30 years ago the Thames River overflowed its banks. Hundreds of tenement dwellers awoke to find a torrent swirling around their beds.

Hugh Redwood, the night editor of a London paper, was prompted to go out and see the devastation for himself. There among the flood victims he found the Salvation Army at work. After what he saw he was moved to write a book under the title "God in the Slums."

Writing from the viewpoint of the pressroom, the city pulpit, Hugh Redwood told eloquently that the spirit of Christ was a factor which brought comfort into the midst of misery, cleanliness in the midst of dirt and the reality of hope as a cure for maddening remorse.

Another form of pettiness is jealousy. One may have the grace to get along with those who are stronger or weaker than he is, and yet not be able to get along with his equals because jealousy creeps in.

Jealousy has been described as the sin which can get into the cracks of life. That is why it shows so often in the same school, the same office, the same social circle.

But let us turn now and think of the big natures we find in unexpected places.

Could we not all tell of the bigness and nobility we have come across in inconspicuous persons? I think of the tact man or h o delves me frequently; of a teacher who never wrote a book himself because he has been so busy helping his students get degrees and write their books; of a businessman who did not go to college because he looked after his family and sent his brothers, two of whom rose to distinction while he died unknown to the public.

Wherever God touches a person to bigness of nature, making him generous and magnanimous, sympathetic and noble, that place is holy ground, however small it is.

Christ lifts men out of their littleness. He humbles their pride of opinion by revealing the vastness of truth. He tries to make His followers feel kinship with His other sheep not of their fold.

As Saint Paul put it: "There is neither Jew nor Greek, there is neither slave nor free, there is neither male nor female, for you are all one in Jesus Christ."

NATURAL GAS AND SAFETY

Belleville is not the only community in Eastern Canada which now, for the first time, has natural gas. Down in Montreal, The Gazette gave Russell Gilliece the assignment of comparing natural gas with manufactured gas from the safety angle. Mr. Gilliece found that natural gas was much safer from all angles except one -- it is more dangerous if anybody wants to commit suicide.

Manufactured gas contains about 53 per cent hydrogen - - you know, that bomb stuff - - 31 per cent methane and 6.3 per cent carbon monoxide, which is a deadly poison. Natural gas, on the other hend, is 93 per cent pure methane and contains no hydrogen or carbon monoxide. A good dose of natural gas will make a person stick his head in the oven, but will do no further harm. An equal dose of manufactured gas would make a person unconscious, with death following if help did not arrive. Natural gas will ignite only when it is concentrated in a gas-air ratio ranging between four and 15 per cent. Manufactured gas will ignite if concentrated in an air-gas ratio of five to 40 per cent. Thus, there is, says Mr. Gilliece, an additional safety factor when using natural gas.

Why, then, is natural gas a more dangerous weapon in the hands of the would-be suicide? Because, asphyxiation being impossible, the only way to do a job is to turn on the gas, wait until the right air-gas ratio is reached, and light a match. And that produces an explosion which not only rocks the joint but the surrounding neighborhood, too.

Nobody would be crazy enough to commit suicide that way? Oh, yes they would. Armand Boiscair of Verdun was the first to try the experiment. It worked! Mr. Boisclair died. But three neighbors were injured.

Seems like the gas company might be required by law to loan rope or shotgun, free of charge, to all would-be suicides.

NOT QUITE SO SIMPLE

Robert Winters, former minister of public works in the Liberal regime at Ottawa, has suggested that Canada step up its foreign aid program. Mr. Winters, addressing the Canadian Manufacturers' Association, intimated such a program would pay a double dividend - - it would "take up the increasing tendency toward slackness in our economy" and at the same time "benefit peoples elsewhere." Mr. Winters added that the real threat from Russia and other Communist countries is economic, rather than military, domination." The Western world, he said, still has an advantage of greater productivity and "should use it more intensively to fight the encroachment of Communism in underdeveloped countries."

All this makes excellent sense, but despite that it is necessary to sound a note of caution. Increasing foreign aid is not quite so simple a matter as some may infer from Mr. Winters' remarks.

It is true that it is logical that surpluses which cannot be sold for cash should be made available to needy countries, but if these countries cannot pay for them, somebody will have to do so. That somebody, we may be sure, will be the Canadian taxpayer.

Secondly, while providing foreign aid could stimulate the economy, it is rather doubtful whether this would be most effectively done by the taxpayers purchasing and giving away goods which are already produced. By putting money into the pockets of the producers, this would have some stimulating effect, but the same amount of the taxpayers' money would, we suggest, produce a much greater effect if it were used for the production of manufactured goods, which would require manufacturers to increase their payrolls.

The difficulty with this course of action is that the objection would almost certainly be raised that, if Canada was going to give away anything it should be goods already possessed in abundance.

JUST FOLKS

By EDGAR A. GUEST

FATHERHOOD

Plain perhaps have all gone wrong,
Men have worried me all day,
Business cares have crushed the song
From my heart, and burdens weigh
Heavy on my shoulders while Home I tread; but when I see The youngsters coming with a smile
All the world looks good to me.

Nothing seems to matter then; I've forgotten all my woes,
Quite dismissed the hate of men,
Trouble from me quickly goes,

First a kiss and then a squeeze,
Then a merry shout of glee;
When they meet me, if you please,
All the world looks good to me.

My men hate and men may plot,
Men may struggle through the mire
When the battle wages hot
For the thing called "right of prayer;
But when twilight stills the drum,
Silences the musketry,
And the little youngsters come,
All the world looks good to me.

But Did He Catch Fish?

Ottawa Citizen

A claim made in print, in a recent issue of the eminently reliable Atlantic Salmon Journal, caused even anglers to raise a skeptical eyebrow. It was made by Major W. G. Greenaway, of Bedford, Nova Scotia, that he had made a record catch of 950 feet— which is to be compared with an ordinary fly rod cast of about 90, or at most, 60 feet.

The claim was completely correct, as a later issue of the journal explained. Major Greenaway's cast was made on August 23, 1957, at tournament held at Mohegan Lake, N.S., in the presence of a committee of judges and 300 other spectators. It was done with a one-and-a-half ounce weight attached to a line (called "Angel's Hair") two one-thousands of an inch in diameter, plus a leader stepped up to 50 pounds to take the initial strain. He lofted it with a 10-foot rod from a raft in the centre of the lake. It is also reported that Major Greenaway has managed well over 900 feet in practices.

Baby's Care Now a Cinch

Des Moines Register

A Texas pediatrician has concluded that it isn't necessary in front cases to wash baby's bottle. The doctor switched 150 babies from warm bottles to cool and even cold formula and found 89 percent of the babies handled about as well or better.

This may be unsettling news for the bottle warmer industry, but its another bit of happy news for the mother of babies. Eliminated are the nervous "Where is the warm water while baby wails. Gone is the messy splattering of milk on wrist to test the formula's temperature.

The finding is another contribution to the convenience infant care which has been easing the job of raising babies. Formula-canning itself is the becoming old hat. Pre-mixed formula needing only cold water now comes prepared in cans. A number of doctors recommend that baby's water straight from the tap without bothering to boil. Likewise, fruits, vegetables, meats and puddings are available in cans to supplement a breakfast-cereal-egg-cocoa-bible variety and consistency.

Babies still cry, and they still need their diapers changed. But sedatives for infants calm the former and the latest vacuum jet mits baby's body to be dry and comfortable even with a sopping wet diaper

No one to our knowledge has scored a breakthrough as yet on the really crucial problem: the baby himself. But we have supreme confidence in man's ability to master the infant. If scientists can conquer the worm bottle problem, can all-night sleeping be far behind?

THE PACKSACK

By GREGORY CLARK

Nature, free of human interference, never looks for a bumper crop of anything in particular. She plays no favorites. All she is interested in is in the preserving of life. Life in any form. The unreasonable fruit that wipes out thousands of people in a hundred miles of square miles is wonderful for the bacteriologist if it meets their needs. The low water that made the spawning of certain tribes of fish impossible and caused their failure is perfect for the regeneration of plant life in the shallows. Gales that blow the drifting sand dunes to bury thousands of acres of plant life also carry millions of millions of a hundred varieties of plant seed hundreds of miles to fresh expectant soils. In nature, nothing comes amiss. The old bull moose flies down with a full forty kinds of guests come to the feast.

A spruce forest reaches its prime and can do no more. So its lowest branches become dry tinder. Then comes the fire and ruining. The fire comes. The thick prime forest is destroyed in ashes sink into the soil. The rampikes are blown down to make a home for birds. Spring arrives. It flourishes like weeds; and presently the berry crops are rising. In eighty years, there will be another mature spruce forest, gathering ready its tinder.

All nature is interested in is new life. Any kind.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

THE COUNTRY OF THE MIND

When the creator finally finished off human beings he waited until the last to give to each one of us what we know as the mind. It is the most truly great creation we would be no greater than the beasts of the field, if it were not one of us we can visit every country in the world and meet every race. Even through written books, we can unfold the world right before us in our home, and gain knowledge that is possible to change our entire life and living. Many of my books are so real I feel like saluting as I take them from my shelves to read, which reminds me of a tribute by J. M. Barrie to Sir W. Robertson Nicoll, famous editor of the British Weekly. He said of Nicoll: "He was so fond of books that I am sure he would have a study in heaven wanting to pat it, and give it sixpence. In the country of the mind there is no limit to the most beautiful and inspiring. From books and from the written number of great books lies the immunity of the poorest to gain knowledge of books and lies the opportunity of the poorest to gain knowledge of books and lies with books that in time will light the entire country of the mind for earth a cue, scattering his endless life with joy and satisfaction. The country of the mind takes in a greater territory than any that is surveyed by man and marked with the substance of the good earth! It is the inheritance at birth of every citizen entitled to this endless country of the mind.

OFF THE RECORD

By Ed Reed

"No, it didn't put up much of a fight but Grace sure did when I tried to take it in the house just now!"

LOOKING BACKWARDS

GLEANNGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO

June 7th., 1938

Sunday ball playing and fishing must be stopped. From our city files we find that in 1888: Seven Sunday ball players were before the police magistrate this morning and four of them were fined. The police are determined to stamp out Sunday ball playing. Sunday fishing and other indulgences which are violations of the Lord's Day Act. A young man was fined $1, recently for fishing on Sunday.

Mr. Bowen, our file copy at this time in 1888: The schooner Freeman cleared for Oswego last night. The Bullock arrived in port today with coal for the Bullock Company. The door of Clark's butcher shop was found open last night with the keys in the door. The Belleville Golf Club Saturday afternoon.

Mr. and Mrs. C. Huril of Toronto were weekend guests of Dr. and Mrs. G. A. Morton.

30 YEARS AGO

June 7th., 1928

Eggs on the market today advanced from 25 cents to 28 cents per dozen; butter also 28 cents per pound; chickens sold at $1. each and up; potatoes brought $1. per bag.

Mr. and Mrs. H. E. Payne are spending a few days in Lakefield.

Mrs. Connors of Toronto is the guest of Mr. and Mrs. T. Alexander, Bleecker Avenue.

The members of Salem Church presented a handsome table recently to Mr. and Mrs. Ervin Hall. The address was assigned on behalf of the congregation by Mrs. Milligan, Mrs. Sparrow and Mrs. George Baldsley.

Miss Helen Hurley, Queen Street, is spending a few days in Kingston.

From our file copy at this time in 1888: Mr. Alex. Ray, magnetic, has made extensive alterations and added improvements to his store and now has one of the most attractive business places in town. The Rev. R. W. Watch will be the new pastor of Holloway Street Methodist Church. Mr. James Wallace has returned home after spending some time in California.

40 YEARS AGO

June 7th., 1918

The police department is out after citizens who have failed to register their dogs and pay the dog tax.

The following ministers and laymen of the Bay of Quinte Methodist Conference will attend the General Conference of the church in Hamilton this coming fall: The Rev. S. C. Moore, Dr. E. N. Baker, Enos Farnsworth, A. J. Terrill, H. B. Kenny, S.S.P. Shoesy, Capt. John Garnett, W. Elliott, B. Greatrix, R. A. Whattam, A. M. Irvin, W. B. Tucker, S. T. Bartlett, G. E. Clare, H. C. Spence; Reserve, W. P. Roeers; Alternate, C. H. Coon, Dr. C. T. Scott, C. W. DeMill; Laymen, H. K. Denyes, J. McBogart, R. H. Ponton, Dr. W. Mackenzie, T. F. Harrison, M. A. James, J. Stonehouse, W. C. Lattimer, James Reaman, Dr. McEdelson. A. C. Denike, G. R. Jones, W. J. Sills, Dr. Clare, H. C. Mills, S. Mardole; Reserve, J. A. Holgate; Alternate, G. W. Gibbard, J. C. Powell, W. V. Payne.

50-YEARS AGO

June 7th., 1908

The steamer Ella Ross, for some time on the Bay of Quinte route, has been purchased by Mr. Wm. Donaldson, of Lake Superior, and in future she will be engaged in the Georgian Bay trade. Mr. Donaldson is a brother-in-law of Capt. Ella Ross. It is understood that he and Mr. Chapman of Deseronto have purchased the Chapman steamer on the bay route formerly owned by the Ella Ross. It is desired to obtain a speedier and roomier boat.

Mr. E. Bruce Frazier, who has been manager of the Star Theatre here for some time, has been appointed district manager and in future will reside in Kingston where he will supervise the company's theatre as well as the Star Theatre in Belleville. Mr. Eenie Smith will be the local manager of the Star.

10 THOUGHTFUL TIPS

Iace Triange

Speak to people. There is nothing as nice as a cheerful word of greeting.

Smile at people. It takes 72 muscles to frown, only 14 to smile. Call people by name. The sweetest music to anyone's ears is the sound of his own name.

Be friendly and helpful. If you would have friends be friendly.

Be cordial. Speak and act as if everything you do were a genuine pleasure.

Be genuinely interested in people. You can like everybody if you try.

Be generous with praise — cautious with criticism.

Be considerate with the feelings of others. It will be appreciated.

Be thoughtful of the opinions of others. There are three sides to a controversy — yours — the other fellow's, and the right one.

Be alert to give help. What counts most in life is what we do for others.

Apartheid For Indians?

Brantford Expositor

A report in the London Free Press says that a young woman, described as a full-blooded Indian of the Curve Lake Reserve near Peterborough, has been fined $10 and costs for trespassing on the Mohawk Reserve west of London, despite a vote of the Muncey Council granting her permission to be there.

The report goes on to say that this woman is not allowed on any reserve because she married a white man. It adds that even if she were single the Indian Act also decrees that it is not permissible for a member of one reserve to visit another. This explanation comes, apparently, through a spokesman for the Royal Canadian Mounted Police in the latter jurisdiction, who is quoted as stating that all non-Indians are barred from reserves and that Indians who marry off reserves may not visit them or even sell their relatives without first getting a special dispensation from the Indian Affairs Branch of Indian Act.

This explanation comes, apparently, through a spokesman for the Royal Canadian Mounted Police in the latter jurisdiction, who is quoted as stating that all non-Indians are barred from reserves and that Indians who marry off reserves may not visit them or even sell their relatives without first getting a special dispensation from the Indian Affairs Branch of Indian Act.

This explanation comes, apparently, through a spokesman for the Royal Canadian Mounted Police in the latter jurisdiction, who is quoted as stating that all non-Indians are barred from reserves and that Indians who marry off reserves may not visit them or even sell their relatives without first getting a special dispensation from the Indian Affairs Branch of Indian Act.

In this case the woman was charged, under the Indian Act, after she had accepted a job as a clerk and interpreter for a herbalist who lives on the reserve. She does not speak Indian dialects. Despite her lawyer's arguments, the court held that the permission granted her by the Indian Affairs Branch was void under the Indian Act.

This is the correct interpretation, surely it is time the Act was drastically modified. Indians should not be treated in this manner as second-rate citizens. Not only discriminatory, it imposes rules comparable to those once governing European ghettos. It has a habit, too, of segregation statutes in South Africa and the Deep South on the statute books of Canada.

The police and the court were no doubt right, according to the law; it is the law that is wrong. The appropriate Federal authorities should make full and immediate enquiry into this case and then move to introduce amendments to bring the Indian Act more into line with the liberties about which we so proudly boast.

Frobisher As an Airport

Montreal Star

Recently Northern Affairs Minister Hamilton called short a visit to Frobisher Bay by Prime Minister Bay area because drifting snow was making the inspection tour difficult. Drifting snow in May is just one idea of how inhospitable the country in the far north.

The Bay itself is ice covered until July and then is fills again in October. And it is only in July and August that the temperature gets above 32 degrees, with an average maximum of about 52 for a period of about 30 days.

But settlement of Frobisher is going ahead. It is impossible to tell whether the development will ever be as successful as its proponents hope unless the mineral discoveries in the Precambrian coast of Baffin Island turn out to be workable.

Meanwhile, land and lead have all been found. For the moment, the main use for the base is going for aircraft flying the great circle route from the west coast to Europe. But a road is now completed township exists primarily.

There are as many as 80 takeoffs and landings daily at the airport, which is now the busiest one north of Montreal. TWA and BOAC fly their planes into the base regularly. Canadian Pacific and Scandinavian Airlines are planning to begin using it shortly.

The importance in over-the-top aviation is that it is precisely midway between San Francisco and Tokyo and between Los Angeles and Paris. Its value was established during the war as a point on the ferrying route between Montreal and Iceland for delivered aircraft.

One of the uncertainties of a permanent development at Frobisher based on mining and economy is the advent of giant jet aircraft, however, as long as the major carriers are using conventional aircraft they must remain. But the new jets are designed to take giant steps not only possible, but probable might find itself as merely another emergency stopping point.

This would make the present airstrip and terminal facilities inadequate for military purposes. If it is the eastern anchor of the D.E.W. line) is obvious, however.

ALCOHOL IN MODERATION WON'T HURT MOST CASES OF HIGH BLOOD PRESSURE

"Dear Dr. Molner: Can a person with high blood pressure occasionally drink Scotch or whisky with safety, and how much? It is my understanding that one or the other dilates blood vessels and rye whiskey contracts them.

"Second, is it advisable to use Scotch or bourbon in case of heart attack before the doctor comes? — L. W."

While there may be some minor differences between the different types of liquors, remember that in all of them the important drug is alcohol. There has also been some discussion of the organ branches as dilators of the blood vessels, but this doesn't change my view to any great extent.

Alcoholic beverages have a dulling, sedative effect. While they have this effect in common, we know from observation that individuals react to it variously. There isn't any hard and fast rule, so if one usually doesn't yet been able to define it. (This, of course, is true of the Indian Affairs Branch of Indian Act.

This explanation comes, apparently, through a spokesman for the Royal Canadian Mounted Police in the latter jurisdiction, who is quoted as stating that all non-Indians are barred from reserves and that Indians who marry off reserves may not visit them or even sell their relatives without first getting a special dispensation from the Indian Affairs Branch of Indian Act.

The police and the court were no doubt right, according to the law; it is the law that is wrong. The appropriate Federal authorities should make full and immediate enquiry into this case and then move to introduce amendments to bring the Indian Act more into line with the liberties about which we so proudly boast.

Strength for the Day

DR. EARL L. DOUGLASS

"KNOW THEN THYSELF"

A used-car dealer was speaking of his pricing policy. "I always price my cars several hundred dollars over what they're worth," he said, "and then allow my customers several hundred dollars off on their old cars. That way they think they're getting a new car cheaper on both sides selling their old car for a higher price."

It seems strange that intelligent citizens who can hold jobs, maintain bank accounts, and fill out federal income tax forms could be deceived by so transparent a scheme. But apparently they are. Not only is this dealer successful, but his methods are widely used.

Such tricks, however, are not confined to automobile dealers, though many people get the better of us by deceiving us about ourselves. By flattery, by appealing to our vanity, by puffing us full of pride, they overcome us for their own selfish ends.

Winston begins at home: we are the easiest people ourselves before we can get wise about others. Our weaknesses are best protected when we know them. Our strength is most effective when we do not overestimate it. This is what Alexander Pope meant when he wrote:

"Know then thyself, presume not God to scan;
The proper study of mankind is man.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Vancouver Festival 1958

By ROBERT TANNER

Stratford is not Canada's only Festival city this year, for very soon now, on July 5th to be exact, Vancouver, British Columbia, will stir with the first excitement of an international Festival of the arts, which will run three theatres, two auditoria, and a ballroom, will contain for four weeks and employ a total of 400 actors, musicians and dancers.

Vancouver has long been recognized as a top show town all over North America. The Empress Theatre, now demolished and succeeded by a supermarket had the largest and most elegant stage west of Chicago. Its magnificent plush curtain rose for the first time on June 29th, 1908 and, except for a period during World War I, remained open until 1940 when that same curtain rolled down for the last time on a final performance of "Abe Lincoln in Illinois" starring Raymond Massey. When the wrecking crews knocked down the sturdy walls of the theatre they discovered a faded pink powder puff among the debris, hustled on its ivory back was the dim signature of "Pavlova". A reminder that in the days when Vancouver played host to some of the world's greatest performers.

MANY THEATRES FLOURISHED

Other theatres flourished in those days including the Vancouver Opera House, The Alhambra, The Savoy, The Avenue, and The Imperial. The star who appeared in these houses, not on years occasionally but frequently, included Charlie Chaplin, John McCormack, Gallo Curci, George Arliss, Helen Hayes, Victor Herbert, Meiba, Albani, Patti, Madame Schumann Heink, Maud Adams and Anna Held, The list runs into the hundreds and there was an era when the legitimate theatre reigned supreme. Top admission to these performances was a fifty cent and the opening night were spectacles of color, high stepping horses, ostrich plumes, and gentlemen in belled shirts escorting the ladies in the choice of the best boxes where they contributed to the theatrical display.

Vancouver was an exciting theatre town in those days and now, fifty years later, it has swung full cycle and is preparing for an international event that promises to focus the eyes of the entertainment world on this area.

EVENTS FEATURED

It is not possible to list in detail all of the events that will be featured during the four-week Festival. A detailed brochure can be obtained from the Vancouver Festival Society, Hotel Vancouver, Vancouver. However, some indication of the scope of the event can be gathered from a mention of some of the performers and program items. Bruno Walter, generally considered to be the greatest living conductor, will open the Festival with a symphony concert featuring the noted contralto, Maureen Forrester. A few evenings later on July 21st the world premiere of the Canadian opera, "The World of the Wonderful Dark," will be given by Boris Volkoff and Audrey Morton. Written by Canadian playwright Lister Sinclair, the libretto has a cast of 45 and is set on the Pacific Coast of British Columbia before the arrival of the white man. The play contains much spectacular music and dance, but it is basically a drama of powerful and moving proportions.

A full scale production of Mozart's "Don Giovanni" starring George London and directed by Europe's foremost opera producer, Dr. Gunther Rennert, will play for six performances. Marcel Marceau, the great French mime actor, will appear with members of his troupe. Eugene Ormandy, President of the Pittsburgh Symphony Orchestra, will conduct several concerts including a performance of the Verdi Requiem and the world premiere of Ralph Vaughan Williams' Ninth Symphony.

FINE ARRAY OF SOLOISTS

There will be a splendid array of soloists, including Glenn Gould, Lois Marshall, George London, Von Vickers, William Primrose, Herrold Alaria, Ingrid Bjoner Leopold Simoneau and Vronsky and Babin. The ballet will be composed of Victor Babin, Saymon Goldbert; Vera Volkoff, Celia Franca and Grauduan, will play several concerts and will give a series of classes at the University of British Columbia under the auspices of the Summer School of the Arts. The Native Sons of B.C. Ceylon, rated among the best and most spectacular dancers in the world, will give eight performances crowned by their colorful pageantry and moving to the sound of native instruments. There will be a Film Festival of major proportions, with films from more than twenty countries.

It may not be Vancouver's first taste of culture, but certainly it will be the biggest and most internationally important event of its kind ever to take place in this area. British Columbia's centennial year is indeed a most appropriate time to launch a festival of this kind, which is expected to become an annual event.

Nine Quinte Students Pass Year at OAC

Nine Belleville and district students were among those successful in passing final examinations at the Ontario Agricultural College and Macdonald Institute, Guelph. The results are as follows:

O. A. C. first year degree — J. F. Olivera, Napanee; and L. F. Maunpirie, Trenton.

O. A. C. second year degree — H. G. Babbitt, Belleville; W. K. Wright, Hillier, Ont.

O. A. C. third year degree — J. M. Barber, Belleville; and E. B. Burnside, Madoc.

Second year Macdonald Institute, degree — N. J. Dick, Bloomfield.

Third year Macdonald Institute degree — M. L. Wheeler, Tweed; and P. M. Reynolds, Picton.

Lions Install New Officers

At a meeting of the Lions Club on Friday, International Councellor Thurston Sprague of Trenton installed the club's officers for 1958-59. President is Jack Dyble; 1st vice-president, Harvey Fridj; 2nd vice-president, Bill Ross, and 3rd vice-president, Bill Lown.

Al Bryant is the tail twister and Bob Knox the Lion tamer.

During the meeting a draw was made on a $500 bill. It was won by J. Bennett, a travelling freight agent for the CNR, Toronto.

Director Al Bryant announced that the "scotchlighting" of children's bicycles for safety at the city will be completed within a week. Total cost of the project will amount to $380.

City Market

Fresh vegetables, flowers and small fruits were displayed at the market this morning, although nothing new was displayed. Asparagus growers were numerous.

Large eggs were priced at 35 cents per dozen; large, 47, and medium, 45.

Potatoes were $2 a hamper or 50 cents a basket; radishes were a nickel a bunch, green onions, three bunches for a quarter; lettuce, two bunches for 25 cents; asparagus, two bunches for 35 cents.

Rhubarb was priced at 25 cents for three bunches; strawberry plants were 50 cents for 25, and $2 per 100; raspberry sets were 50 cents a dozen, and $3 per hundred.

Whitefish were 45 and 50 cents a pound; turkeys were 55 cents per pound.

Police Blotter

Theft of a portable sewing machine from a table in the kitchen while the owner was in another room, was reported to city police Friday evening.

Mrs. W. S. Northcott, 240 Pinnacle Street, told officers that her sewing machine had disappeared from her kitchen. She had heard no one in the house.

A hydro pole at the corner of Pine and Ashbrook Ave. came to grief early today when it was struck by a car and the driver failed to remain at the scene. Cost of replacing the pole will be about $250 police said.

Russian Trade Offensive Causing U.S. Govt. Concern

By GEORGE KITCHEN

Canadian Press Staff Writer

The newly - launched Russian trade and economic offensive is causing U.S. government circles more concern than Soviet sputniks and missiles.

Government officials, from President Eisenhower down, are voiced apprehension over Nikita Khrushchev's declaration of war against the U.S. in the field of trade and his assertion that the U.S.S.R. will "bury" the U.S. through peaceful competition in consumer goods.

On the surface, Khrushchev's statements sound boastful, especially when you consider that the Unified States today produces almost three times as much as the Soviet Union.

REAL THREAT

But official Washington, aware of some sobering facts lying in the economic background of the Soviet statements, considers them so and is convinced that, outstrike and missiles notwithstanding, Soviet economic and offensive now constitutes the real Communist threat to the West.

State Secretary John Foster Dulles underlined fact No. 1 yesterday when discussing the perils of the trade war before the Senate foreign affairs committee. He noted that Western capitalism, to survive, must make a profit.

The Russians have no profit motive. That is fact no. 2 said director Allen Dulles of the Central Intelligence Agency pointed out recently when he said the Russians will "buy anything, they are surprised and dump anything if it advances communism and helps destroy the influence of the West."

MARKET GRAB

Allen Dulles is the state secretary's brother and, as director of the far-flung Central Intelligence Agency, is responsible for knowing, as well as anyone can, what the Russians are up to militarily, politically and economically.

The statements by the brothers Dulles underscored one of Washington's big worries — that the Russians will use their trade offensive to grab markets in the noncommunist countries, undermine Western influence, draw those nations into the Soviet orbit and weaken Western defensive alliances.

This fear is one of the driving forces behind Eisenhower's request to Congress for a five-year extension in the U.S. trade agreements act and for $1,200,000,000 for foreign economic aid.

Failure to provide such aid,

It's never too late to call your preferred funeral director. In emergencies, someone else may make the choice, calling a funeral home regardless of reputation on family preference. But always remember it's never too late to call THOMPSON'S, your preferred funeral director.

Your Car

Engine Timing Ruined by Faulty Spark Advance

By EUGENE MILMOE

No thorough engine tune up can be complete without a check of the spark advance. This distributor mechanism is usually controlled by centrifugal weights and engine vacuum, although some cars employ either a vacuum or centrifugal advance only.

Regardless of system, the function is the same. It causes the spark to it's delivered to ignite the fuel mixture at the precisely correct moment. In each case, timing must automatically vary with engine speeds and loads.

Troubles in the spark advance are most often traced to dirt, vacuum leakage, burnt springs, wear or no lubrication. The results show up in poor economy and performance. Specific symptoms include high gas consumption, overheating, roughness, missing, weak acceleration and excessive ping.

S. C. writes: "Our daughter's 35 Pontiac has been giving us two pistons froze in their cylinders. Engine has been rebuilt but we've still not clear on what caused this trouble."

(A) Excessive heat and or no lubrication can cause a piston to expand and seize in the cylinder.

From M. C.: "My 1954 engine has been overheating, but only under certain circumstances. If I drive it at a moderate speed there's no trouble — at high speeds, the temperature rises very quickly, too."

(A) A weak or deteriorated lower radiator hose will cause this. It collapses at high speeds, choking water circulation.

D. F. asks: "When I suddenly step down on the gas pedal, the engine seems to hit a flat spot and responds too slowly. My theory is that the carburetor is not feeding enough gas at such times. Am I on the right track?"

(A) You probably are. The carburetor accelerating pump is supposed to furnish extra fuel for such conditions, and if it's not working properly, the fuel mixture will be too lean.

R. U. writes: "Our new '58 is the second car we've owned with power steering. My wife and I agree that the steering on this one seems too sensitive. What's wrong with the power system to cause this?"

(A) Excessive hydraulic pump pressure or a sticking control valve could be responsible. But a first make certain your tires are not overinflated.

THIS WEEK'S SAFETY REMINDER

At any time of year, rainy weather increases the accident danger. Always adjust your speed to allow for poor visibility and traction.

VISIT MOSCOW

MOSCOW (AP) — King Mahendra I and Queen Ratna Rajya Lakshmi Devi of Nepal flew into Moscow Wednesday in a Soviet Tu-104 jet airliner escorted by nine jet fighters. They were welcomed by President Klementi Voroshilov and received a full red-carpet treatment at the airport after their arrival to tour Russia.

PUBLIC CORDIALLY INVITED

THE GOLDEN YEARS

Retired City People Take Gamble When They Move to the Suburbs

By THOMAS COLLINS

By moving from the city to the suburbs when you retire, you can grow grass, weeds, tomatoes, potunias and dandelions.

But unless you discover a kind of fertilizer nobody has heard of yet, you'll not grow many Golden Years.

A businessman, afflicted with the same little-snackle-box disease as many retired people are catching now, would like to argue about this.

"I have lived in the city all my life," he explains, "and my wife, along with me, longs for a neat, trim little house that can give a minimum of work and about 6 feet of front-lawn.

"That's what we want, w h y wouldn't it be good for us? There will be work to do. Sure. New people to get acquainted with, new ways to adopt. This won't be a problem but an adventure. A s we have no doubt we'll fit in.

"We also are assured economy. We own our house in the city, worth $21,000. We will have no income a total of $400. We'll buy the suburban house with what we get out of our city house. We'll save money out of our $357 a month.

FACTS AND FIGURES — BUBURBS

Now businessman — and you — should have a few facts about suburbia's mirage:

1. The house you own in the city is not likely to bring that much money in the suburbs. But sentiment has priced it at. I have been told by two retired people who sold their city houses for what they thought they would. On top of that they had to pay commissions to the real estate agents.

2. While you'll need city house is bringing you, net a mere $16,500, the $21,000 suburban dream house you're going to $22,500. You wanted a garbage disposal unit, a freezer, a breezeway, asphalt driveway, and four electrical outlet, plugs in the living room, didn't you? Don't forget the cost of moving your furniture from the iceman. And carpet, you'll be out. Old Couple? Sure, your neighbors are young, which they probably will be, and you'll be the oldest couple on the street as an upstart. If your neighbors happen to be old settlers, Suburbia is always courteous. But cool.

3. If there are any kids in the family, you'll be expected to board of directors of a good company, have membership in a country club, or know somebody worth knowing, you will get attention in suburbia. And if you're less, your neighbors learn you pretend to have some of these sterling qualities. Because suburbia, in the main, is in a hurry to e r tense. A hurry to succeed. To get a title. To make $15,000 a year. And get a lower lawn mower. If you can help, fine. If you can't, well, "It was so sweet of you to try, Mrs. Smith, and we'd just love to see your house, but we are going out tonight. But we'll be calling you soon. . . ."

5. An income of $400 or so a month is a good one for house, is ample for a reasonably good life in most suburbia.

6. If you will make a careful study of any suburb you will find that the little ranch houses of retired couples are the neatest houses in the block. Always. That is not because they are neater people than their neighbors. It is usually because they have nothing to do all day but manicure the lawn.

7. Suburbia isn't very stable. The young families move in a bethat is when they get a $15 raise. The old people die. One retired couple who tried suburbia reported recently that eight of the twelve neighbors in their block had moved out in the four years since they moved in.

8. Suburbia, as a general rule, offers cocktail parties, children, dogs, weekend lawn mowing, shorts, flooded basements, schools, constantly increasing taxes, charity drives, ambitious young couples, crab grass. Do you fit in?

9. Suburbia's civic, cultural and "betterment" projects — which is where retired people have about their only chance to find worthwhile activities in their declining years — are the things that get into the local newspaper. And sometimes in the Sunday parts in the city. The young people, therefore, break out over city house. Then while the "old couple" types the envelopes.

Everything that has come to this column in the last ten years indicates a terrible failure in gamble in trying to whip the loneliness and isolation that come to them in suburbia in retirement. Try it if you insist. But could you break out your city house, then lease a suburban house, and test it first?

First voyage from Atlantic to Pacific by the Northwest Passage was made by the Norwegian explorer Roald Amundsen in 1903-06.

22 Stations Across Canada To Observe Day

OTTAWA — RCAF Stations across Canada, in addition to carrying out normal duties are preparing for Canada's 12th annual Air Force Day, which will be observed this year Saturday, June 14.

Air Force Day will be celebrated by 22 stations in Canada which will open their gates and invite the public to see its Air Force in action.

"Open House", the main feature of the day, will be marked by ground displays of modern RCAF equipment and, where feasible, by flying displays of jet fighters and interceptors, anti-submarine and transport aircraft as well as training planes which will form a large part of the afternoon programs at most of the RCAF bases.

First held in 1947, Air Force Day was noted by a relatively small number of Canadians because "Open House" was limited to a handful of stations. This year, RCAF authorities expects hundreds of thousands of Canadians, as well as visitors from other countries, will take advantage of the opportunity to see the RCAF at first hand.

The RCAF feels the annual occasion provides the public with a better understanding of the Air Force, and promotes an even closer relationship between the public and the RCAF.

CRASHES NEAR NUDISTS

VIENNA (Reuters) — An amateur flier died in hospital Monday after crashing while on a low-level flight over a local nudist colony. The flier was thrown over the treetops and crashed into the water within a few yards of a group of nudists sunning themselves on the beach. Two others in the plane died instantly.

'Shangri La Shadow' to Be Shown Here

"Perhaps the most sensational mission field in the world today is Burma, formerly the most dramatic missionary entry into a new field was the invasion of the Salween Valley by airplane in March 1954. That land which time forgot and its primitive tribal inhabitants are vividly portrayed in the extraordinary film, "Shadow of Shangri La" which will have its premiere showing at the Sunday evening service at the Alliance Tabernacle.

"Shangri La is a place of dark shadows, shadows of ignorance, superstition, ignorance, death and sin. It means literally that any region inhabited by human beings for so many centuries and yet unknown to the world and unconquered. This film gives a down-to-earth contrast of natural beauty and its terror, and also man's intelligence and his degradation."

The witch doctors' mysterious incantations, heathen ignorance and fear; bodies crippled by cruel mutilations in mourning for the dead; open sores and disfiguring disease; and eye-witness reports of human sacrifices mingle startlingly the afflicted, teaching the ignorant, evangelizing pagans and rebuking the converts, where hundreds of believers, and a whole new generation of transformed children are to be seen in the beautiful 35 minute color sound film.

Conservative Member Weds West Hill Girl

TORONTO (CP) — Eileen Jane Thompson of nearby, West Hill and Charles A. Best, Progressive Conservative member of Parliament for Hastings, were married Friday in the chapel of Knox College, University of Toronto.

Miss Thompson is the daughter of Mr. and Mrs. Arthur Edmund Thompson and is assistant editor of The Presbyterian Record. Officiating at the ceremony was Rev. John McNab of Toronto, newly elected moderator of the general assembly of the Presbyterian Church in Canada.

Mr. Best is the son of Dr. and Mrs. Charles Herbert Best of Georgetown, Ont.

Two brothers, John Pa'lett, Conservative member for Peel, and Wallace Nesbitt, Conservative member for Oxford, served as ushers.

Among guests at the reception in the university's Craven Library were Lieutenant-Governor and Mrs. Michael of Ontario and Senator Cairine Wilson.

Mr. and Mrs. Best are to live in Georgetown and Ottawa.

One Nurse For 18,000 in Some Countries

VICTORIA (CP) — In some countries there is only one nurse to 18,000 people, a nurses' convention in Victoria was told by Miss Lyle Creelman, nursing division chief of the World Health Organization of the United Nations.

Miss Creelman, who recently returned from a tour of health organizations and hospitals in Africa, said she had found the great need for nurses from Labrador to the Rocky Mountains to Florida and around the Great Lakes region. Apart from Labrador to flower, has many shades of colour.

Pitcher Plant-Newfoundland

by Livonia Stockelbach

Of all the remarkable plants of this world, the pitcher plant family is the most amazing. The family name is Nepenthes, from the Greek meaning a drug that takes away grief. At a grand party given by the husband of the immortal Helen, when everybody was in a tearful mood because the father of one of the guests, Telemachus, was feared lost on his travels, she had a happy thought and placed in their bowls of wine a drug that had the power of robbing grief and anger of their sting and banishing all painful memories.

No one that swallowed this dissolved in wine could shed a single tear that day.

Then by an Egyptian lady, for in ancient times the Egyptians left the secret of the world far behind in medical knowledge. That drug was named Nepenthes.

The plant named after Nepenthes is a native of tropical Asia, North Australia, and Madagascar. The Australian species was named Saccracenia, about 1700, in honor of Michael Sarracin (1659 - 1734), a Quebec doctor in the time of Louis GIV and friend of the great French botanist, Tournefort. What an enchanting connection with the past this plant has! this Botanical names give us!

The purple pitcher plant of Canada is named that, but, in attempting to paint it, the painter chose the yellow hue of its names, sidesaddle flower, may have been suggested by the wide saddle-like leaf curved over the greenish yellow style. It is found from Labrador to Florida and around the Great Lakes region.

Another pitcher plant, the huntsman's horn, has many shades of colour.

(Continued on page 9)

TRAPS INSECTS

The handsome flower lifts its head high above the basal leaves, three to ten inches long, which give the plant its name, for they form into a sort of lidded trumpet-vase holding the rain water in its depths and the insects that so easily slide down on the lining of pointed hairs but cannot work up against those down-pointed hairs. The chemical dissolves the little corpses, and it is thought that the resulting liquid nourishes the leaves. The French Canadians name them "Little Pigs" or "Pig's Ears," and the Indians, "Toad Weed", for the pitcher plant and toads both like moisture.

One does not easily forget the first sight of this oddly astonishing beauty of this plant nor forget the weirdness of the bogs where it is most frequently found. In Newfoundland where I live, in the high, the first one found was just a little way out of St. John's, but there are many of them now, where. These were by the roadside and were such a beautiful as those growing in the peat bogs.

They keep fresh for a long time when brough into the house, with a little of the wet earth around them. For ten days I was able to study and draw specimens I found after walking through mud above the ankles. The curious leaves surrounding the long stemmed flower are five to twelve and radiate irregularly from the root. The thin lines shown in the figure are veins that run lengthwise of the leafy fine. Ruskin wrote: "If you can paint one leaf you can paint every leaf, one of his many exaggerated truths, and perhaps few ever saw our old pitcher plant leaf. The nodding flower was more orthodox to look at, but the vivid green of the inside quite as difficult to capture. My attempt to draw the plant was a rewarding summertime occupation.

The choice for this plant as floral emblem was made by Lieutenant-Governor when the island was still a crown colony, but I have not yet been able to trace any correspondence in connection with it.

Another article will be published next Saturday.

Arthritic Aux. Organized, Officers Named

Recently a group of women met at the home of Mrs. Enos Davis, their purpose was to form a Women's Auxiliary to assist the Physiotherapist of the Canadian Arthritics and Rheumatism Society in her work of bringing relief and happiness to the victims of a disease that affects all ages, infants as well as adults are subject to various forms of rheumatic diseases.

Mrs. Enos David was named president; Mrs. A. Greenwell, vice-president; Mrs. J. A. Jarvis Secretary-treasurer; Mrs. A. F. McFadden, Corresponding Secretary; Mrs. Don Williams to be assisted by Mrs. Arthur Wynn and Mrs. A. A. Gemmell as convener of drives for patients; Mrs. Robert Carmichael assisted by Mrs. Ponton and Miss Hilda Collier as convener of visits to patients; Mrs. S. S. Kostashuk assisted by Mrs. J. S. Stock and Mrs. J. Morrell as social convener.

Miss Williams, the Quinte Unit's Physiotherapist graphically described the loneliness of many of her patients in their isolation from normal social contacts and activities and the consequent mental depression that in many cases, hampered their recovery from the disease that, though not fatal in itself, in the different forms of arthritis, is among the chief causes of suffering and economic loss in the community.

In accordance with her wishes, the group decided to have a Valentine's Party and Tea Party to be held on June 11th in the Christ Church parish hall.

The incredibly swift response to the appeal for numerous and volunteer help at the first meeting indicates how pleased there are people interested in this work.

Dry Cleaner Will Retire After 59 Years

WINDSOR, Ont. (CP) — Mrs. Florence Wilson is "moving to a cottage, buying a dog and watching the fish in the pond."

This is her way of saying she is retiring from the dry cleaning business, a job she started 59 years ago when she worked as an errand girl in a shop in London, England.

Now 72, she was already married when she came to Canada in 1910. She first worked in Chatham and London, Ont., and has been working for dry cleaners in Windsor for 40 years.

This - and That

By HARRIET STEVENS

You will recall that about a year ago we reported our intriguing interview with Miss Mary Tennison-Woods of Australia who is head of the Status of Women division of the United Nations. This week our copy of the monthly bulletin issued by the Department of External Affairs came to hand. The twelfth annual session of the commission on the Status of Women was held in Geneva recently. Canada was represented by Mrs. Harry Quart of Quebec City, Miss Marion Royce, director of the Women's Bureau, Department of Labour, and Mr. Neil Currie, Department of External Affairs.

A suggestion had been advanced that the commission meet every two years, but it was decided that the work was too urgent as unalmough it was agreed the members should meet annually. There are 18 member countries and each country is elected for three years. Canada will be a member until 1960.

Many topics were covered during the three-week session, but the principle subjects concerning women throughout the world were: Political rights of women; access of women to education; the status of women in private law; economic opportunities for women; the legal liability of married women; equal pay for equal work, technical assistance and advisory services programs in relation to the status of women; and the question of the formation of the sessions of the commission.

It is noted that although women had the right to vote and to be elected to legislative bodies in about 70 countries, only 41 had actually voted in a poll and ratified or acceded to the UN convention on the political right; of women and only 30 had ratified it. Signed a year ago last January, Indonesia was the latest country governments have been delinquent is to be sought.

It is hoped this brief reference because it points to the fact that Canada is taking a leading on behind the scenes of the glass front of the UN building in New York, it says editorially in your Ontario Intelligencer vividly portrayed this important fact. The status of women is vital to women in the particular but to assess the work of the UN in all its world-wide ramifications it must be view-

ed from the all embracing angle mentioned in the editorial.

Reading government pamphlets like the bulletin from the Department of External Affairs drags my attention to a question raising concern to some quarters and support in others. In general it has to do with language and, in this instance, with spelling. We observe that in the bulletin the spelling we were all taught in school as English is adhered to. You notice it in such words as "labour" and "programme." The American usage, as Professor Bergen Evans describes it, has come to be "labor" and "program." A young Canadian author refuses to use the American version even in his newspaper work. Others maintain that it is a waste of printer's ink, ugly and unimportant to quibble. The two schools meet head-on and there are rational arguments on both sides.

Listening to a nationally recognized communicator, a young university professor one day, we heard him state categorically that we should never use the term "American." He claims the American is a national weakness. Glenn Gould, pianist of Canadians are just as much American as citizens of our great neighbor. Some would consider it a secret weapon by means of which our traditions and heritage are being infiltrated. We know a woman who was interviewed once about some articles she had written. Her interviewer was editor of a national woman's (Canadian) magazine (now defunct) who stated that the articles were well written, warm, friendly, but in view of American competition for one thing, the magazine couldn't publish the articles. Could it be that it might be a case of "Canadiens concerned about being Americanized" by maintaining its Canadian identity and individualism, it might be still extinct. Perhaps it is not so difficult to change from our American spelling habits and training. We wonder what our readers think! Now they feel? Or do they feel silent, for the most part, argument goes on.

• • •

A weekend thought: "Powerful habits are the emblem of a habit." These seven words were written before the birth of Christ so the power of habit does not seem to be either new, modern or original.

Franchise for All Indians Motion to Women's Council

VANCOUVER (CP)—A recommendation that all Indians be granted the right to vote as a result of enfranchisement given into Canadian life has been put before the National Council of Women at its annual convention.

A report Friday night by the council's citizenship and immigration committee said the vote is "not essential to the establishment of an independent life and citizenship of Indian people."

It added that franchise for Indians should be followed by a full revision of the "paternal" Indian Act. The recommendation has to be put before the convention today in the form of a resolution.

Committee chairman Mrs. J. P. Hoag of Regina said Indians should be placed in a position to plan their own future should they eventually no longer need the reservation.

NOT AGGRESSIVE

"We must also remember that the Indian is not an aggressive individual . . . He will not deem himself entirely qualified to vote for what he considers the doubtful privilege of voting."

Mrs. Hoag said Indians on reservations are "well aware of the problems facing those who have sought the enfranchised life of freedom but have been a bitter disillusionment to many."

A great need for extended vocational training facilities for women was emphasized by President Mrs. Rex Eaton. She said in a report that young women today spend 12 per cent of their adult years in paid employment.

"Women comprise slightly more than 25 per cent of Canada's labor force and they remaking an outstanding contribution to the growth of Canada.

"One of the most striking changes in the composition of Canada's labor force over the last 20 years has been the increasing participation of married women in paid employment."

Going Places

Americans Have Big Influence But Jamaica Is Still Jamaica

By SHIRLEY AND BOB SLOANE

Montego Bay, Jamaica, B. W. I.

The first road sign the visitor sees on leaving the airport for town reads, "Drive Left Side." Drive on the left in Jamaica."

Scarcely ten years ago this admonition would have been as gratuitous as advising army officers to carry swagger sticks as the colonial governor to take tea at 5 o'clock. But today cab drivers sound their horns at every curve and hill for the benefit of any backsliding — or sideslipping — American tourists that may be coming round the bend. Usually there are enough of them loose to warrant the effort.

For most of the 453 years since the English chased Columbus' ships from Runaway Bay (it probably didn't happen that way but it makes a good local story) until Pan American's clipper ships started crashing in the first American tourists, shortly after World War II, the British had this lush colonial gem in the heart of the Americas pretty much to themselves.

But Rule Britannia! Have the Americans in one short decade taken over?

Not any things British we could find in the Montego Beach Hotel, for example, were a decided improvement on the standard manager keeping a stiff and brittly upper lip while fighting the invasion in the streets and in the hotels; and, on the hotel's lavish buffets based on the Indian adage, "Bombay curry, the guests' sad neglect of which would have started Major Grey doing pushups in his grave had he known.

The apartment in the tourist-oriented night clubs sites is, at least, only neo-Elizabethan. But look for the real thing in native joints up in the hills, and guess what? It's rock 'n' roll exclusively.

Sixty miles down the road from here at the plush new Arawak Hotel there's a menu in the form of a little booklet that all billing and transactions are in American dollars. Breakfast, lunch and dinner is offered in the card room between 4 and 5 o'clock and between 7 and 8 o'clock. Of course, interferes with the cocktail hour and the business of Jamaica in general.

This hotel, incidentally, is about the best place we've found for children. Accepted all year round for only an additional $5 a day. And including three meals, they can be cared for by a full-time uniformed nurse-maid at the rate of $1 per, dollar-an-hour babysitters at home — in a hotel that has a pool, a patio area large enough to consume the energy of any reasonable group of children and a beach.

But even this ultra-modern resort is unmistakably Jamaica in its isolated seaside setting, incredibly British staff and its fantastic native decor. When we registered first night it would take a greater force than invading American tourists to change this last mark.

Jamaica is the gay sister of the Greater Antilles, despite the superficial overlay of British formality. Peopled by the most hard-working and independent natives in the Caribbean, it is a light little island — a light-hearted spirit and a bright distinctive charm.

Blessed by a rolling landscape of mountain jungles, white beaches and sparkling blue waters bathed daily in breeze-swept sunshine, it is another unique representation of the Caribbean's most magical appeal — that of seeming to be in another world a bit farther away from North America than a couple of hours' flying time.

Tourists may come and go, but Jamaica's precise and captivating style of civilization is a weathered four and a half centuries. Anyway, how can anything radically affect a country where the legend on a roll of hotel toilet tissue reads, "The World's Most Civilized Tissue"?

As with the rest of the Indies, Jamaica's music is the key to its character. Here the ubiquitous merengue takes the form of the calypso song. Neither plaintive as in Haiti nor sensuous as in the Spanish countries, it is usually happy and always gentle. Before War II, the British had this lush colonial gem in the heart of the Americas pretty much to themselves.

But Rule Britannia! Have the Americans in one short decade taken over?

Not any things British we could find in the Montego Beach Hotel, for example, were a decided improvement on the standard manager keeping a stiff and brittly upper lip while fighting the invasion in the streets and in the hotels; and, on the hotel's lavish buffets based on the Indian adage, "Bombay curry, the guests' sad neglect of which would have started Major Grey doing pushups in his grave had he known.

The apartment in the tourist-oriented night clubs sites is, at least, only neo-Elizabethan. But look for the real thing in native joints up in the hills, and guess what? It's rock 'n' roll exclusively.

Sixty miles down the road from here at the plush new Arawak Hotel there's a menu in the form of a little booklet that all billing and transactions are in American dollars. Breakfast, lunch and dinner is offered in the card room between 4 and 5 o'clock and between 7 and 8 o'clock. Of course, interferes with the cocktail hour and the business of Jamaica in general.

This hotel, incidentally, is about the best place we've found for children. Accepted all year round for only an additional $5 a day. And including three meals, they can be cared for by a full-time uniformed nurse-maid at the rate of $1 per, dollar-an-hour babysitters at home — in a hotel that has a pool, a patio area large enough to consume the energy of any reasonable group of children and a beach.

But even this ultra-modern resort is unmistakably Jamaica in its isolated seaside setting, incredibly British staff and its fantastic native decor. When we registered first night it would take a greater force than invading American tourists to change this last mark.

Jamaica is the gay sister of the Greater Antilles, despite the superficial overlay of British formality. Peopled by the most hard-working and independent natives in the Caribbean, it is a light little island — a light-hearted spirit and a bright distinctive charm.

Sea Cadets LA Elects Officers, Holds Euchre

The Ladies' Auxiliary of the Sea Cadets held their June meeting at the H.M.S. Quinte, South Front Street on Thursday evening.

The business portion of the meeting was in charge of officers, and euchre and bridge to be held in June 19th.

Installed were: president — Ada Donaldson, re-elected; vice-president — Mrs. Lorne Greene; secretary — Cecelia Horn ,re-elected; secretary — Mrs. Lorne Greene.

Refreshments were served bringing another enjoyable evening to a close.

The Sea Cadets L. A. also report that a euchre party was held 22 tables in play, with the following winners: Ladies Mrs. P. McKeown, Mrs. Doyle; consolation — Mrs. E. Hoard; lone hands — Mrs. Hoard, man's — Charlie Ealon, Dick Terry; consolation — Kathleen DeCote; lone hand — Charlie Ealon; door prize — Dorothy Cook, groceries — John Haisler.

Albert College Conservatory Students Present Variety Recital

At Memorial Chapel on Friday evening the students from the Albert College Conservatory of music presented in a recital of piano, violin and vocal numbers. The program was planned to give variety to the listeners and provided a fine evening of music.

Yellow and purple baskets of iris with ferns were placed on the platform on each side of the grand piano. The young performers sharing the result of careful coaching and faithful practice, and were a credit to their teachers.

Several of those performing were prize winners from the festival at Stirling. Of particular note was the vocal duet by two young boy sopranos, Francis Rose, and Hugh Bondy, who won first prize at Stirling for the class of duets under sixteen years.

The Rev. Dr. A. E. MacKenzie, headmaster of the school, welcomed the guests to the annual recital stating that it gave encouragement to the young musicians to have a responsive audience. Dr. MacKenzie expressed appreciation on behalf of Albert College to the teachers of the Conservatory.

The two pupils were taught by Miss Bessie Handley; the violin pupils by Barnett Taylor and the piano and vocal students by Kegston Boyce.

Mr. Boyce announced that a scholarship of $50, donated by Mrs. Gordon Dance of Toronto with the most promise had been won by Francis Rose.

Miss Lorna Rose was the accompanist for Raymond Taylor's violin solo Mr. E. Boyce accompanied the vocalists, and Raymond Taylor was pianist for the violin presentations.

The audience joined in singing hymn 'Fairest of the Immortal' while Miss Lucinda Pierce played it.

The program, which was well-paced, continued without further introduction as follows:

Violin, June Days (Aubry), Stuart Nemkin.

Piano, Squirrels at Play (Beslin), Anne Clark.

Vocal, Come Unto Him (Messiah) (Handel), Hugh Bondy.

Piano, Gavotte (Corelli), Jane McCullough.

Vocal, Angels Ever Bright and Fair (Theodora) (Handel), Francis Rose.

Violin and piano, Two Folk Songs: (a) Home on the Range, (b) Santa Lucia, John and Bill Morton.

Piano, March, Opus 65, No. 10 (Prokofieff), Francis Rose.

Vocal, Be Thou My Shepherd (Greene), Peter Lipes.

Piano, Waltz in A flat (Brahms), Catherine Burr.

Vocal duet, Like as the Hart, (Mendelssohn) Francis Rose and Hugh Bondy.

Vocal, O Saviour Hear Me (Gluck), Tammy (Livingston and Evans), Dorothy Scovell.

Piano, Prelude in C major, No. 1 (Well Tempered Clavier, Vol. 1), Claire de Lune (Debussy); (Bach), Carol Dickinson.

Violin, Sonata (Handel), Reginaldo (Fiddler-Hamana), Raymond Taylor. Accompanist, Miss Leona Riggs.

Stories of Famous Hymns

by HORACE B. POWELL

Forty or fifty years ago, when evangelists of a new century were calling for gospel hymns to stir the hearts of men and women in their audiences, Charles H. Gabriel was turning out many of the best revival songs and tunes of his era.

Some of those verses and musical settings are still to be found in the hymnals of our day and are widely used . . . songs like "Brighten The Corner Where You Are" and "More Like The Master". Mr. Gabriel wrote only the music for the first of these but for the second he was both author and composer.

The mid-twentieth century church has no finer or more popular consecration hymn than "More Like The Master". It is sung regularly today in prayer services and mission meetings, at young people's devotions and summer conferences, and in services of worship everywhere. Only one who was very close to the Master could have written it and Mr. Gabriel probably was expressing his own spiritual yearnings when he wrote:

MORE LIKE THE MASTER

More like the Master I would ever be,
More of His meekness, more humility;
More zeal to labor, more courage to be true;
More consecration for work He bids me do.

More like the Master is my daily prayer,
More strength to carry crosses I must bear,
More earnest effort to bring His kingdom in,
More of His Spirit, the wanderer to win.

More like the Master I would live and grow,
More of His love to others I would show;
More self-denial, like His in Galilee,
More like the Master I long to ever be.

Chorus:

Take Thou my heart, I would be Thine alone,
Take Thou my heart and make it all Thine own;
Purge me from sin, O Lord I now implore,
Wash me and keep me Thine forevermore.

"More Like The Master" was held responsible by a coroner's jury for the death by strangulation. Police testified a knotted cord was around her neck.

GOOD MANNERS

By Mrs. Beeckman

"MR. AND MRS." INFORMALS, OR ONLY "MRS"?

Dear Mrs. Beeckman:

Is it correct for my husband and me to have informal, with both our names: "Mr. and Mrs. Walter Brown"? We would like this, but I've been told I should order them with only "Mrs. Walter Brown." Which is correct?

— B.

Both are correct. If you and your husband will find the "Mr. and Mrs." cards useful to many occasions, you may order these. But since most wives use the informals for many more occasions, usually they choose the "Mrs." cards, and when the cards are to be sent out jointly, add "Mr. and" before the "Mrs. Walter Brown."

CHARGE HUSBAND

MONTREAL (CP) — Franz Hoepfner, 50, a landslape gardener who came here from Dortmund, Germany, about a year ago, Thursday was ordered for preliminary hearing on a charge of murdering his 43-year-old wife, Elizabeth, last Tuesday. Hoepfner earlier Thursday was held responsible by a coroner's jury of the death by strangulation. Police testified a knotted cord was around her neck.

THE FAMILY COUNCIL

EDITOR'S NOTE: *The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an actual case history. The Council reports on problems that have been dealt with by responsible agencies and counsellors.*

Jack M. — Myrna is best off away from home.

Helen M. — It wasn't her fault — she shouldn't have to run away.

• • •

Jack M. — My wife and I are in serious disagreement as a result of a tragic occurrence a few months ago.

Our 12-year-old daughter, Myrna, was the victim of a sexual attack. Afterwards, some people recommended that we send her right back to school as though nothing had happened. I didn't feel she should be forced to face her old friends under these conditions. I sent her to her grandmother's home, about 100 miles from here.

My wife wants her to come back home, but I think things would be very hard for her here. She has a great sense of shame about what has happened. Eventually I hope we can move out of this community, but it will take time — maybe a year or two. Meantime she is best off with my mother.

• • •

Helen M. — I have explained to Myrna that she was not at fault and has nothing to be ashamed of. Every decent person in our community has the greatest sympathy and respect for her. She should not have to run away because of something that was not her fault.

I feel Myrna misses us and her brothers and sister. She hasn't made many new friends in her grandmother's community and she is not doing as well in school there. She complains her grandmother watches her every step and doesn't give her any peace.

I can't help but worry about Myrna when she is so far from home. Her grandmother is a well-meaning woman, but quite old, and I'm afraid she isn't the right person to understand a young girl of today.

The Council: Jack and Helen had a difficult decision to make. Unfortunately, they did not choose the best way.

Myrna very much needs her parents at this time. The fact that they sent her away indicates to her they shun her and are ashamed of her. She has virtually been placed in exile or in quarantine — in a place where she can't contaminate her brothers and sister and her old friends.

Of course, Jack and Helen have told her it is for her own good but Myrna will nevertheless feel that in action her parents scorn her. She needs reassurance of their love and of their protection. It would be particularly helpful to her to receive reassurance of her father's gentle and protective affection.

Myrna could not be sent back to school "as though nothing had happened." There would undoubtedly be some repercussions, but she would be able to face this with good grace if her parents showed their confidence in her ability to surmount the problem.

Myrna should come back to her parents as quickly as possible and she should be encouraged to throw herself into her school and club activities with all the enthusiasm she can muster. If problems arise, the M's should try to get some guidance from a psychiatrist or social worker attached to a family agency.

Days and Customs of All Faiths

Friday Has a Bad Reputation

By DR. HOWARD V. HARPER

Friday, June 13th. Friday has a bad reputation. Besides having been the day of the Lord's crucifixion, it is traditionally the day on which Adam and Eve ate the apple and were expelled from the Garden of Eden.

Also, some say the Judgment Day will be Friday — a further reason to be apprehensive about the day, for it might be any Friday, perhaps even today.

Friday was named for Freya, or Frigga, the Norse goddess of love. When the north countries became Christian, Freya was banished along with all other pagan deities, but for some reason the day dedicated to her suffered more than those dedicated to the other Norse gods: Woden and Thor. Friday became known as "the witches' Sabbath," the day each week when 12 witches met with the devil — note the 13 motif.

It is bad to be born on a Friday, or to be married, or to take a new job, or visit the sick, or — and how this got into it we can't imagine — to cut your nails.

English 17th century slang had the expression "Friday face," which meant a sad and gloomy countenance.

Friday is a bad day, too, for criminals. Those who are sentenced on this day expect the worst from the judge. Executions all used to be held on Fridays — in fact it was called "Hangman's Day."

The number 13 has just as bad a reputation as Friday does. It is not hard to see why when the two coincide, as they do today, the omen is especially fearful.

In searching for whatever it is that gives 13 such a bad name, the mind jumps at once to the Last Supper, when Jesus and His 12 Apostles ate their last meal together. What followed that gathering of thirteen was the most tragic event in human history. And the tragedy, mark you, happened on Friday.

But the fear of 13 at dinner comes from a far earlier time. In Norse mythology it is said that there was once a banquet in Valhalla, a mansion in the Norse heaven, to which after the 12 who were supposed to be there had been seated, an intruder appeared, making 13.

The uninvited guest was Loki, the god of strife and spirit of evil. And it was at this dinner that Balder, god of light, was slain. Hostesses have been avoiding 13 at tables ever since that time, long before the Last Supper in Jerusalem.

The prejudice against 13 is widespread and shows no sign of abating. In Italy the number is never used in the national lottery — no one would buy it. In Paris no house is numbered 13 — no one would live in it.

And in enlightened, sensible, Christian America most hotels and many office buildings find it expedient to omit 13 from their floor numbering and go from 12 to 14. This seems a strange subterfuge.

Anyone who really took this foolish business seriously would certainly know the 14th floor was actually the 13th and would refuse to engage a room or an office on it. But you can't expect superstitions to make sense.

Sailors, always a superstitious lot, have a strong objection to leaving port on the 13th day of any month, and if that 13th is also Friday it is almost impossible to budge them.

Readers' Saturday Column

As Conducted by Mary Moore

Question: Could you tell me the approximate amount of potato salad for 150 guests? I am planning on one large turkey about 25 or 30 pounds (cold) and the balance in boiled dinner ham. I would like to have a recipe for pickled eggs. — Ev. P.

Dinner Menus

by Mary Moore

SATURDAY

Veal Chops Hawaiian (see Thursday); Halved Stuffed Baked Potatoes; New Beets; New Lettuce, Radish and Cucumber Salad with Roquefort Dressing; Apple Crumb with Pouring Cream; Coffee.

Answer: Thirty pounds dressed turkey yields approximately 19 pounds of turkey which serves about 38 people. 5 gallons potato salad will yield 160 5-oz. servings.

PICKLED EGGS

Forty-eight cloves, 12 hard-cooked eggs, 4 cups vinegar, 1 teaspoon each salt, pepper, dry mustard. Shell the eggs and stick 4 cloves into each. Heat the vinegar and when boiling add the salt, pepper and mustard mixed with a little cold vinegar. Put the eggs in a glass fruit jar and pour the boiling vinegar over them. Cover and let stand 2 weeks before using. Often served with broiled steak or as a hor d'oeuvre.

Question: I am using the following pastry recipe, which can be rolled out at almost a moment's notice and with no trouble. The finished results — except for a baked shell. Though I line the plate generously and am liberal with the "fork pricks" it shrinks terribly. One pound lard and 1 teaspoon salt, softened in 1 cup boiling water. Add of flour (all-purpose) and 1 teaspoon baking powder. (Store in refrig.) What am I doing wrong? I read and enjoy your column daily. Use your pineapple bread recipe often . . . K.Y.

Answer: The water content in hot water pastry is far too high for baked pastry shells. The water evaporates and the remaining ingredients shrink proportionately. Use standard pastry recipe for shells: For 2 9" shells, use 2 cups sifted but not sifted flour, 3-4 teaspoon salt, 2-3 cup best quality shortening and 4 tablespoons ice cold water.

Question: We are planning a wedding reception July 5th for about 150 guests. Would it prove too expensive to serve bouchees filled with turkey, salad mixture? How much filling would be needed and could you send recipe for the ingredients to use, also could it be made about 2 or 3 weeks in advance and frozen? Also will we serving small fancy sandwiches and cookies, etc. If you have any other suggestions I would greatly appreciate them. — T.W.

Answer: Using these proportions of Turkey Salad you will have a yield of 288 ounces: 18 cups cooked diced turkey, 6 cups chopped celery, 1 tablespoon salt, 1 teaspoon pepper, 2 cups French dressing, 8 cups mayonnaise, 8 hard cooked eggs. Use a measured one ounce for each bouchee. Make a trial batch of bouchees to be sure size is correct for amount of filling. May be made one day in advance and stored in refrigerator. Do not freeze. I am mailing wedding food releases.

WEST HUNTINGDON

'A Day With the Bible' Theme At Sunday School Convention

WEST HUNTINGDON—Hunt-ingdon township held its recent Sunday school convention in the United Church, Holloway. Both morning and afternoon sessions were presided over by the pres-ident, Mr. Donald McIlroy of Moira.

The theme for the convention was "A Day With the Bible." The guest speaker was the Rev. J. S. Spearman of Belleville, who brought two fine addresses based on the theme.

Mrs. William Donnan led in a lively sing-song.

At the morning session, Mr. Cecil Geen of Thomasburg, was the leader of the morning wor-ship service. Mr. George Dy-son gave the welcome address.

In the business period Mr. Alex McCurdy read the minutes of the last convention.

REPORTS HEARD

Reports were heard from some of the departmental sup-erintendents and committees were appointed. Messrs. John Holden and Arthur Wilson were named a resolution committee; Mr. Cecil Geen was named the banner; Mr. Blake Ketcheson, Mrs. Barton Haggerty and Mr. Kenneth Holland were the nom-inating committee.

Mrs. Earl Wannamaker fav-ored with a solo.

In the three discussion groups, Mr. John Holden led Group No. 1, "Clearing the Ground"; Mr. Earl Wannamaker, Group No. 2, "Bible Study by Effective Meth-ods; the Rev. W. H. Slobbart, Group 3, "How You Make the Bible Live." These group dis-cussions proved most interest-ing.

Following the benediction din-ner was served in the adjoin-ing hall by members of the W. A.

In the afternoon Mrs. George Wood led in a fine sing-song, and members of the Beulah Sunday school furnished the worship period. Those assist-ing were: Mrs. Keith Bray, Mrs. Hugh McMillen.

In the roll call it was reveal-ed that a goodly number were present from each Sunday school.

OFFICERS ELECTED

Mr. Kenneth Holland read the nominating committee's report, and those elected to office were: Secretary, Cecil Geen; vice-pre-sident, Alex McCurdy; secre-tary-treasurer, Mrs. William Donnan; children's work superin-tendent, Mrs. Wesley Farrell; girls' work superintendent, Mrs. Frank Hammond; boys' work superintendent, Alex McCurdy; young people's superintendent, Mrs. Keith Bray; temperance su-perintendent, Mrs. Elvin Hol-land; missionary superintendent, John Holden; adult superintend-ent, Arthur Wilson; leadership training superintendent, Mrs. J. Wallace.

Mr. George Dyson installed the officers in a most effective manner.

Mrs. George Wood, Mrs. Roy Denille and Mrs. W. Barnard favored with a trio with Mrs. William Grant as pianist.

The next convention will be held at the Beulah United Church.

The Rev. J. S. Spearman gave the closing address and Mr. and Mrs. Gordon Foster rendered a pleasing duet.

FELL THROUGH CEILING

LOUISVILLE, Ky. (AP) — A jury awarded Mrs. Mettie R. Fer-guson $6,275 Thursday because a man fell through a ceiling and landed on her two years ago. Mrs. Ferguson, 29, claimed she was knocked from her chair to the floor and injured when Wat-erly Waters was inspecting a sprinkler system and the roof gave way. He wasn't hurt.

4th Sidney

4th SIDNEY — Mrs. George Rowland, of Windsor, and Mrs. J. Eastwood of Peterborough, were Tuesday afternoon callers at the former's aunt, Mrs. S. W. Lloyd.

Mrs. Stone Church Women's Missionary Society and Wo-men's Association held the May meeting at the home of Mrs. George Tucker, on Wed-nesday afternoon.

Mr. and Mrs. Charles Keeble and Johnny of Parkdale spent Friday evening with Mr. and Mrs. W. J. Tufts.

Mr. and Mrs. K. Denyes and family called on Mr. and Mrs. F. Jeffrey, Sunday night.

Mr. and Mrs. H. McKee and family, of Belleville, were Mon-day evening guests of Mr. and Mrs. G. Lane.

Mr. and Mrs. Elmer Tufts and family, of Hallowy, spent Sunday evening with Mr. and Mrs. W. Tufts.

A few of the Sidney Junior Farmers attended a wiener roast at Picton on Wednesday night, sponsored by a Prince Edward club.

The Rev. R. McMullin atten-ded the Bay of Quinte confer-ence at Peterborough last week.

Mr. C. R. Fisher spent Tues-day in Toronto.

Campbellford

CAMPBELLFORD — Mr. and Mrs. H. T. Smith, of town, vis-ited recently with friends in Toronto.

Mr. and Mrs. William Monk and daughter, Margaret, of To-ronto, were weekend guests of Mr. and Mrs. Robert Anderson and children, Elmore Street.

Mr. and Mrs. Cecil E. Willis-son and daughter Gail, of To-ronto, were weekend visitors of Mrs. Willisson's parents, Mr. and Will Hall, of Second Street.

Master Glenn Shillingford has returned to his home in Peter-borough after visiting for the last two weeks with his grand-parents, Mr. and Mrs. Ross Wynn, of Campbellford.

Barbara S. Fox, daughter of Mr. and Mrs. R. E. Fox, was one of the 47 nurses who grad-uated from Kingston General Hospital.

Miss Gladys Morrin of Tor-onto was the guest of Mrs. Winnifred Hay over the week-end.

OLD FAITHFUL

The "Old Faithful" geyser at Yellowstone Park in Wyoming has missed its hourly display since 1870.

Raydon

RAWDON — Master Eric Smith, Ottawa, spent the week-end with Mr. and Mrs. Ira David and family.

Mrs. Lloyd Cooney, Mrs. Harry McAdam, Misses Diane McAdam, Judy Cooney, Carol Sharpe and Pauline Johnson, of Mount Pleasant - Rawdon, at-tended a special Guide meeting at Madoc on Wednesday even-ing.

Mr. Charles Sharpe, Coun-cillor, spent some time with Mr. and Mrs. Blake Sharpe. He also visited Mr. and Mrs. Frank Smith, Mr. and Mrs. Leonard Sharpe entertained to supper one evening. Messrs Charles Sharpe, Claude Sharpe and Blake Sharpe.

Mr. and Mrs. Mac Watson and Cheryl, Orillia, were recent guests of Mr. and Mrs. Thomas Sarles, and visited other rela-tives in this area.

Mrs. Harry McAdam attended as L.O.B.A. rally at Lydia Lodge, Belleville, last Thursday evening.

Mount Pleasant friends ex-tend congratulations to Francis Rose, Belleville, who won the Albert College bursary at the Stirling Festival of Praise. Francis is a son of Mr. and Mrs. Don Rose, Belleville. His mo-ther is the former Olive Mc-Connell of Mount Pleasant-Rawdon, whose lovely voice was heard many times in this area.

Born, at the Sine Maternity Home, Harold, Ont., on Tues-day, June 3, 1958, to Mr. and Mrs. Eddie Bateman Jr., a son.

Rawdon Y.P.U. and Alkens Y.P.U. played softball at Well-man Monday evening. The score was 21-3 in favor of Raw-don.

Mr. and Mrs. George Carlisle spent Wednesday and Thursday in Peterborough and attended the sessions of the Bay of Quinte Conference. They also visited relatives in the city.

CORRECTION

In 1956 Mrs. Burton Morton, Harold, Ont., a member of the Festival committee, donated a religious picture to the Sunday School averaging the best in Bible memory; in order to be in the competition, there must be at least five members tak-ing part. The donor donated the picture with the hope that next Christmas would be in-terested in Bible memory for their Sunday School pupils.

In 1956 King Street, Trenton, had the highest average and Mount Pleasant - Rawdon was the only other group with a minimum number of Athens.

In 1957 Mount Pleasant had the highest average with King Street, Trenton, coming second.

Again in 1958 there were only two Sunday Schools having the minimum number of speakers on the day of the Festival. This time it was Mount Pleasant and Frankford.

Mount Pleasant - Rawdon had seven speakers at the Festival with a total of 815 points and an average of 97.35. The contes-tants in class 8 were: Joyce Cooney and Barbara Williams, who tied with 85 points each. Judy Cooney participated in 10 classes 14 and 21 and won 170 points. In class 21, Gail Scott, Carol Sharpe, and Allen Pet-cher totalled 269 points. The high honors for the Scripture in class No. 5 and 17, went to Trenton and those two girls, Sharon Lange and Shiela Dy-mond, were in "The Stars of the Festival." However King Street, Trenton only had four speakers in the Scripture class and their total was 346 points The rulling, however, stipulates a minimum of five entries.

It is hoped more Sunday Schools will take part in the future.

Ivanhoe

IVANHOE — Mrs. Joseph Rollins is a patient in the Alex-ander Nursing Home, at Queens-boro.

Miss Gladys Rollins, Reg. N. who has been with her mother for the past three weeks, return-ed to Toronto on Wednesday.

Mr. and Mrs. Clarence Ritt-wage Jr., and children, of Pic-ton, visited Mrs. Burton Reid on Sunday.

Mr. Keith Bray is a patient in St. Catharines hospital.

Mr. and Mrs. Earl McMaster and family visited Mr. and Mrs. Lee McKeown, Mountain View, on Sunday.

Safety FIRST!
Here's a pretty smart little fellow. He evidently believes that accidents can be prevented . . . and he's so right.
However, there is no short cut to safety! That's why we make safety a word of distinction.
Our program ranges from safety glasses to a well-equipped dispensary . . . from safety shoes to guards on equipment.
"Off-the-job" safety is mighty important too. It's a fact that the average person is safer on the job than he is at home or on the highway. That's one very good reason why "off-the-job" safety should be important to us all. Let's make safety a part of our everyday living—at work, home, school or play.

The Week's News

By JOSEPH MacSWEEN
Canadian Press Staff Writer

Gen. Charles de Gaulle wrested full power Saturday, unveiling plans to assembly but he appeared to run into some trouble in his subsequent visits to Algeria.

Armed with powers to rule by decree, de Gaulle received a carnival welcome when he arrived at Algiers. He called for integration of the Algeria of European and Moslem population to keep the west North Africa territory French.

"We are all French citizens starting today," said de Gaulle.

But there were signs that the French military and civilian insurgents — although they had launched their move of insurrection in the name of de Gaulle — were not completely happy about the general's program.

And the crowds were notably warmer to the local leaders, Massu, than to the chief. There were also murmurs of dissontent at de Gaulle's choice of a cabinet, including three former premiers who are unpopular in reaction Algeria.

TORNADO DISASTER

Triplet tornadoes brought disaster to four Wisconsin counties, killing 30 persons along a 90-mile path of destruction. The Red Cross said 350 were injured.

The three tornado tunnels twisted out of a boiling cloud and swept over the countryside, dealing the worst blow at Codell where 12 persons were killed out of a total population of 1,000.

"It's horrible," said Wisconsin Governor. Vernon Thomson after touring the area where damage was estimated at $1,500,000.

AIR ACCIDENT

Forty-five persons, including a Canadian couple, were killed when a Mexican airliner crashed into a mountain peak shortly after taking off from Guadalajara airport en route to Mexico City.

Fifteen American dead and the Canadian couple were listed by T. V. Griffiths, formerly of Vancouver, as passengers on the U.S. west coast. Pilot error was thought to be the cause of the crash.

Adding to the tragedy was the fact that the belongings of the victims were looted before the bodies could be removed.

RUSSIAN SUBS

The news came out that Russian trawlers on the Grand Banks off Newfoundland have been causing a stir in Washington and Moscow.

The state department announced it has told Russia in answer to a protest that the U.S. intends to keep right on with "routine surveillance" of the waters.

Russia had complained that U.S. planes buzzed the vessels at masthead height in international waters.

There was no question that the Russians have a right to fish on the banks, but the U.S. Navy is suspicious because the number of trawlers never seems to vary: when one goes, another comes. Offices wonder whether the Russians are interested only in fishing.

ELECTION NEWS

Prime Minister Sir Edgar Whitehead's governing United Federal party won in the overall majority in Southern Rhodesia's general election.

Whitehead favors the current rate of progress for the Negroes in the colony, seeking dominion status in federation with Northern Rhodesia and Nyasaland. Former prime minister R. S. Garfield Todd, favoring faster Progress for the natives, suffered a personal defeat.

In another election, Sweden's ruling Social Democrat party squeezed through to victory—with the Communists holding the balance of power in the new parliament.

And in Portugal, the hottest campaign in many years came to an end, with voting scheduled for Sunday. Indications are that Premier Antonio Salazar, dictator since 1926, will remain in power.

GERMAN VISITOR

Dr. Theodor Heuss, 74-year-old president of West Germany addressed both houses of the Canadian Parliament and the U.S. Congress in his visit to North America.

In Ottawa, ties of friendship between Canada and Germany were honored in ceremonies and speeches.

Introduced by Prime Minister Diefenbaker as an outstanding and respected statesman, the German head of state declared in sorrow that two world wars could not be ignored.

But out of the battle emerged the "understanding that it would be better to live with one another, yes! For one another."

RUSSIAN LETTER

Rising in the House of Commons, Prime Minister Diefenbaker spoke with restraint about a letter he had received on disarmament from Premier Khrushchev of Russia.

He accused Khrushchev of refusing to understand Canada's good intentions regarding Arctic inspection, but added that the letter indicated Soviet willingness to study methods of controlling the suspension of atomic tests. Said Diefenbaker:

"Mr. Goodwill and a spirit of forbearance are required on all sides. For this reason, therefore, I am refraining from taking issue with Mr. Khrushchev over the misrepresentation and allegations in his letter and emphasize rather the more hopeful aspect of his message."

HERE AND THERE

Canada's first baby yak—a girl—was born on a farm near Ottawa . . . Mayor Arthur Latour of Buckingham, Que., entered a ruling that a strumpet, and ordered a halt to a bout between two women strippers, who were struggling outside the ring at the time . . . In Denville, N.J., the Rev. Alton J. Moody, member of a scribed a portable rocket unit that, it is said, will enable a man to run like a racehorse.

Sir Victor Sassoon won his second big victory when Hard Ridden, an outsider, beat Ribocco by a head in the Derby. The state department said Dr. Milton S. Eisenhower, the president's brother, will play his scheduled trip to Central America . . . A Trans-Canada Air Lines Super Constellation landed safely in Shannon, Ireland, on three engines after having lost trouble over the Atlantic.

CAMPBELLFORD

Rotarians Honor R.D. McDonald

CAMPBELLFORD—Members of Rotary Club held a surprise party for R. D. McDonald on Monday night at the summer home of Mr. and Mrs. Don Bingham, Mr. McDonald, who has been manager of the Bank of Montreal here for some time is leaving to manage the bank in Trenton.

The members gathered during the evening and enjoyed a buffet luncheon. Rotarian Gordon Whitehorne gave an amusing address of presentation and presidentelect Grant Gilmour presented "Mac" with an electric shaver.

The guest of honor thanked the members of the club sincerely stating that his stay in Campbellford had been a happy one.

SHOOT BEAR POACHER

ELY, Minn. (AP) — A 250-pound black bear described as one of the worst poachers in the area was shot and killed Thursday. Andrew Tulla said he counted 134 northern pike skeletons along a creek north of here, so he lay in wait for the poachers, who did his fishing with a flip of the tail.

C.W.L. Makes Donations

CAMPBELLFORD —The regular meeting of the Catholic Women's League was held this week with the president, Mrs. A. Carey presiding. Secretary Mrs. William Masterson read the "Pax" notes and correspondence and an account of an executive meeting held in the treasurer, Mrs. H. Smith gave her report and a report on the "Citizenship Tea" held recently, which proved a successful affair.

Convenors of the different committees appointed were: spiritual, Mrs. F. Freemin; education, Mrs. J. Carey; legislations, Mrs. C. W. Long; press and publicity, Mrs. J. Smith; social action and social welfare, Mrs. F. McEvoy and Mrs. A. Coveney, with Mrs. McAvoy, Mrs. J. Smith, Mrs. A. Clark and Mrs. D. Kelleher to notify the convenors of anyone sick in the parish; immigration, Mrs. Wm. Masterson; organization, Mrs. A. Clarke; finance and Girl Guides, Mrs. J. Smith; radio, TV and films, Mrs. L. Doherty, Mrs. F. Long and Mrs. A. Clark were to have charge of bingo nights in June. Mrs. Long was named bingo convenor.

DONATES $100

It was moved and adopted to donate $100 to St. Mary's School to assist in purchasing a new geotetmer machine. The CWL also recently donated the new flag which the IODE has donated.

The CWL this year will again donate a prize of $100 to the student in Grade VIII receiving the highest standing in entrance examinations and to be second highest.

Mrs. A. Clark was named delegate to the annual diocesan convention in Peterborough on Wednesday.

At the conclusion of the business part of the meeting, Mrs. Clark presented the retiring president, Mrs. P. Monoghan with a beautiful black patent handbag for her work during the past two years as president. Mrs. Monoghan was pleasantly surprised and thanked the ladies.

This is the last regular meeting until September.

WELLINGTON

Many Nurses Receive Awards

WELLINGTON — Numerous scholarships, prizes and awards were presented at the graduation exercises of the Kingston General Hospital School of Nursing at Grant Hall, Queen's University.

Helen Evelina Foster gave the valedictory and received the Medical Nursing Award, given and presented by Ayerst, McKenna and Harrison Ltd., pharmaceutical manufacturing arts instructor.

Miss Foster, in the conclusion of her address, presented the retiring superintendent, Miss Louise D. Hamilton, with a bouquet of red roses.

Grant Hall was filled to capacity with parents (registered in cottages and boutonnieres) relatives and interested friends.

Later a reception was held at the Anne Bailey residence. which included a memorable evening for the guests.

Miss Helen Foster is the daughter of Mr. and Mrs. Norman Foster, Wellington, who were present for this occasion. Others present were: her sister, Miss Kathryn Foster; Mr. and Mrs. Frank Harrison, Wellington; Mr. and Mrs. Harold Hiram Hubbs, Toronto; Mrs. Arnold Post, Wellington; Mrs. Sherman Foster and Mr. Richard Foster, Hillier; Mrs. Norman Foster, last surviving member of the late Mr. and Mrs. Foster, Wellington; Mrs. Wellington Foster and Miss Miriam

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, *Sports Editor*

The McFarlands will crash the society pages come Monday with additional comment in this pillar.

HARVEY McFARLAND

The Allan Cup champions are going Knob Hill for the season this afternoon when they with their good ladies till be the guests of His Worship Mayor H. J. McArland and Mrs. McFarland at a tea party in Hizzoner's spacious summer home over Picton way.

Actually the party is being held in honor of young Master Malcolm McFarland, who today marks his 13th or is it 14th birthday, and the Macs and their better halves have been invited to help observe the young fellow's natal day.

This column's son and heir has been invited to bring his bathing suit and baseball shirt to the celebration will be marked with a definite sports touch. They say Hizzoner has a swimmble pool some eighty feet in length. That might be an idea for any of the Olympic-minded Macs to go in some swimming antics in addition to their already well-ordered baseball, softball, golfing and other summer conditionera.

The Macs will be all dolled up in their Sunday best and a detailed description of their summery finery will be given here come Monday. It should be interesting to watch risk their carefully creased trousers chasing or hitting softballs or baseballs or even swinging a golf club but the majority of them curi a graceful finger when quaffing oolong from a delicate tea-cup. They swing a mean mitt when it comes to crunching fra biscuits and they all will be in championship form when it comes to the social amenities.

Missing will be Russ Kowalchuk and his brood who are at the moment in Edmonton (remember Russ and the Eskimos?), while Jean-Paul Payette and Mrs. Payette will not make the trip due to job commitments. Bart Bradley is home with the misses in his native Port Arthur at the head of the lakes, but the greater majority of the rest of the championship club will be on hand to avail themselves of the hospitality of their genial host and his lovely lady.

* * *

GOLF ITEMS

Here are some golfing facts that this department never knew and we're passing them on to you.

Ben Hogan started to play golf lefthanded. The difference between a golf links and a golf course is the links refers to a seaside club and the course to an inland club.

A scientific Scot observed that an old golf ball would fly truer than a new ball. This oddity was correctly attributed to nicks and scratches on the surface of the ball. The present rough-surfaced balls were produced as a result of this observation.

Today and tomorrow is your last chance to "Beat the Champion". For a buck you can match clubs with Stan Leonard and the lady champion, at the Bay of Quinte Golf and Country Club. A buck will help boost junior golf, also a good score will put you on "I Beat the Champion" gimmick.

The odds of scoring a hole in one are 1500 to 2000 to one against any single player making an ace during a year of playing. Odds against holing out on any particular shot where there is a chance to do it are about 10,000 to one. Joe E. Lewis, asked if he ever played golf, replied, "I went around once in the 70's but quit when the weather got colder."

How to keep your golf balls warm when playing in cool weather? Bounce a cold ball and a warm one together and see the difference.

They say curling is for those between nine and ninety. In Glenelgies, Scotland, there are four caddies each over 80 years of age who think nothing of doing two rounds a day. On the links, that is.

Sam Snead opines: "Putting is 70 per cent of the game and in the U.S. Open it is won by the six and seven-foot putts, the ones that go in for the pars." What about Ma's?

Frank Stranahan, the millionaires golfer invited Porky Oliver to spend a weekend at the Stranahan residence, saying as a special inducement, "Porky you can have the key to the icehou." Porky retorted, "Give me the key to your safe deposit vault, and I'll buy my own icehou."

Joe Kirkwood, the trick golfer, once made a 268-yard, hole-in-one driving off the face of a watch.

* * *

A round trip to Prague, Czechoslovakia — or one thousand dollars in cash. That's what two lucky so-and-so's will win come next Belleville Fair time.

The trip, naturally is that for the world amateur hockey tournament which the McFarlands hope to tuck away in their gunny sacks come the right moment.

In any event the tickets will go on sale next Wednesday for the price of one buck apiece. Books of six will be distributed. Salesmen can sell five and keep the odd buck, or turn in the ticket himself. They will be on sale at all prominent stores along Front and other streets.

Better get 'em while they're hot. A lot of money has to be raised to help send the Macs overseas, and this is the way you can add your slight contribution.

The draw for the tickets or cash will be made on August 16, the final day of the Belleville Fair.

Zimmer's Homer Settles It As Redlegs Nudge Giants 5-4; Turley First to Win Nine

By THE ASSOCIATED PRESS

Holy smoke Lookit Willie. There's just ONE "Willie" in the majors—the San Francisco Giants' amazin' Willie Mays, who has whipped into the lead in the National League bat race at .423 with a .564 average in his last four games.

Moody's been able to get Willie—put in his last eight at-bats. He ran his consecutive hit streak to seven Friday night with his 14th home run and a pair of singles that just missed getting the job done for the Giants.

One big inning gave Cincinnati a 3-4 victory over San Francisco, but the Giants stayed within .009 percentage points of first-place Milwaukee, besies 4-3 at Los Angeles.

Don Zimmer's leadoff home run in the ninth—the first ever off Milwaukee relief ace Don McMahon in the majors—gave it to the Dodgers, whose last - place pitching staff cooled off the Braves' hot homer streak.

TAKES LEAD

Mays took the bat lead from Stan Musial (now .420), who was 0-for-5 as his St. Louis Cardinals won their fourth in a row with a 5-4 decision over the Chicago Cubs beat Pittsburgh 6-1.

Mays, the 1954 batting champ with a .345 average, hit his first home run in 12 games in the first inning against rookie pitcher Dick Haddix. He singled to start a two-run fourth, walked in the sixth when he picked up his 10th base on balls, also tops in the NL, and singled in an eighth-inning rally attempt.

The Giants took their fourth defeat in five games, all by one run, as the Reds socked Ray Narleski for his fourth win in five-run sixth. A single and two walks loaded the bases with two out. Don Hoak's clutch single two runs home and Jerry Lynch then clouted a three-run homer, his fourth.

COME FROM BEHIND

The Dodgers twice hustled from behind to tie the count against the Braves' starter, Bob Rush. Carl Furillo, batting for Sandy Koufax, drove in a run in the sixth, and a two-run triple by Dick Gray, who had singled in both the sprint, caught the Braves again at 3-3 in the eighth.

Clem Labine won his second, pitching only the ninth after following starter Don Drysdale and Johnny Podres. The Braves, who had hit homer crazy in their last six games, had nine hits and got the leadoff man on base in five innings.

Righthander Sam Jones took the major league scoring lead with his 6th win by fanning 12 Phils, a one-game high for the NL season. He whiffed 10 in the first five innings as the Cards took a 3-0 lead against Robin Roberts.

Righthander Dick Drott won his third with a four-hitter for the Cubs as the Pirates dropped their fourth in a row. He blanked the Bucs on two hits after a first inning run.

If there's something wrong with Mickey Mantle's swing, he ought to patent it. He's had only eight hits in his last six games—but six of them have been home runs.

The Mick pickled a pair Friday night, driving in the first four runs as New York Yankees defeated Cleveland Indians 6-5. It was a two-run, bases - loaded single by Bill Skowron that got the job done in the seventh, however, as Bob Turley became the first to win nine in the majors.

Second-place Kansas City sideled 8½ games behind the Yankees in a 3-1 and 3-1 twi-night loss at Baltimore. Boston defeated Chicago 3-2 and Detroit belted Washington 11-2.

Mantle, who had hit only four home runs in his first 37 games, has nine in his last eight. The pair of losing southpaw Dick Tomanek gave him a two-in-one-game performance for the first time since last June 12. He also singled in a perfect - game - raising his average to .300, and was walked intentionally to load the bases ahead of Skowron's clincher.

GAVE UP SEVEN

Turley gave up seven hits, one in the seventh inning by Tomanek, his first in the majors, and had to get out of a bases - loaded jam in the ninth. The once-beaten righthander fanned nine, for a 67 total which has reclaimed the AL lead from Chicago's Billy Pierce, who was victim.

Connie Johnson won his second for the Orioles in the opener, singling ahead of Billy Gardner's triple that cracked a 1-1 tie in the eighth and pulled Baltimore. Dick Williams, 5-for-6 in the pair, had tied it 1-all with a two-run, tenth-inning double after Harry Chiti's third homer had given the A's a fifth-inning lead. In the nightcap, Milt Pappas, a 19-year-old righthander beset by arm trouble recently, gained his second victory and first major league complete game, a five-hitter. He had a one-hit shutout for six.

BERRERET COUNTS

Lou Berberet singled home a run in the sixth for the Red Sox, then set off a clincher with a triple ahead of Marty Keough's punch-hit sacrifice fly in a two-run eighth. Frank Sullivan opened the inning with a home run for Boston's relieved Jerry Staley, but lost his fourth. He Delock was the second in relief.

Billy Hoeft, who hadn't beaten Washington since 1956, gained a 4-3 victory over Detroit Starter losing four straight. The Tigers had 16 hits, including homers by chuny Boyd and Gus Zernial. Grath, subbing for the injured Harvey Kuenn, tripled and also singled twice, collecting his 1,000th hit in the majors. Pete Virgil, Detroit's first Negro, made his AL debut with a double in five trips and an errorless game at third base.

On the Tracks

TORONTO (CP) — Yummy Mummy, owned by W. R. Maxwell of Toronto, won $10,000 Woodbine Oaks at New Woodbine Friday defeating Bill Lee second Windy Answer by slightly more than one length after a nip-and-tuck race for one mile and one sixteenth.

Jimmy Cute finished a fairly distant third while Irene's Orphan was fourth. Irene's Orphan was owned by Johnny Longden who arrived from England in the morning.

The Oaks, Canada's richester event for Canadian-bred three-year-old fillies had a gross value of $14,975. Yummy Mummy's share was $9,790.

Spring Bowling Title Won by Seven-Uppers

The Seven-Up Mixers won the Spring Bowling League championship in the Bowl-O-Drome Thursday night and were presented with the Seven-Up Trophy and individual awards. The presentations were made by the manager of Seven-Up Beverages here.

Members of the championship team are Ted Lennox, Joe Lecault, Art Atkin, Graham Seeley, Art Lalonde and Jim McKenzie.

The "Bowl Dogs" finished in second place while the Campbellford T.P.'s wound up in third position. Consolation prizes were won by the Alley Cats, Trenton Guays and Hes Reens. Other teams in the league were Lloyd's Cleaners, Vagrants, Buzzers and Gang Busters.

The high average award went to Art Lalonde with a 255.8 while Jim McKenzie won the high triple with a 1068, High single was won by Art Atkins with a 408.

Cash scores on the final night included: Mixers 2760; D. Moon, 978; H. Ormshaw, 861; A. Lalonde, 858; W. Dewey, 812; L. Lennox, 809; R. Jones, 806; R. LaDeur 781; J. Lloyd, 775; L. Turner, 769; J. Lincfola, 766; D. Thurston, 763; J. Miller, 760; E Phillips, 748; A. Wilchon, 746; J. Levick, 727; D. Holmes, 718; J. Begley, 712.

Weatherman Jolts Prospects For Vancouver Record Mile

VANCOUVER (CP) — Prospects for a record mile today in the British Columbia Centennial Games were given a disturbing jolt by the weather.

The games opened Friday night in an intermittent drizzle that generally held race times below record levels. Today there was a chance of scattered showers and gusty east winds across Empire Stadium to soften an already heavy track. The mile was scheduled to go at 6:30 p.m. EDT.

Merv Lincoln and Alex Henderson of Australia, England's Derek Ibbotson, Stefan Swandowski of Poland and Canada's Wes McLeod and Norman Lloyd were among the entries in today's mile run.

Ibbotson, although still in the early stages of this season's training, has run four such miles, including the world's fastest in 3:57.2. That time hasn't been ratified because Ibbotson was paced.

OTHER EVENTS

In other events today, there was the 440-yard race featuring Charlie Jenkins of Villanova, a Jamaican twins Mal and Mel Spence, Dr. John Wrighton of England and Terry Perkins of Cumberland, B.C.

A 220-yard event had entries from Mike Agostini of Trinidad, Lennox Kay Kaye of Washington, D.C., and Marian Foik of Poland.

Two members of Poland's fourman team turned in record times Friday night. They drew applause from the small crowd of about 2,000 as they ran away in the three-mile and 880-yard events.

Edmund Szyszkowski, 28, had the home stretch all to himself in the three-mile race. His time of 13 minutes, 34.8 seconds was fourtenths of a second faster than the Canadian record set in 1954's British Empire Games by Chris Chataway of England. It was only 8.4 seconds slower than the world record of Russia's Vladimir Kuts.

George Knight of England was second and Lloyd Percival of the host city of Calgary, whose 13:57.8 time was six seconds faster than his previous native record.

Another Canadian native record fell in the invitational 880, won by Poland's Zbigniew Makomaski. He's from Kaye of Washington, D.C., and Marian Foik of Poland.

Akins Wins World Welter Crown With Fourth Round KO Of Martinez

Barrage of Fierce Smashes Floors Loser Seven Times Before Referee Halts Fight

ST. LOUIS (AP) — Virgil Akins (Honeyboy) Akins, a savage puncher from Los Angeles, destroyed Vince Martinez with a barrage of fierce blows Friday night to win the vacant world's welterweight boxing championship in a fourth round technical knockout.

Martinez was down seven times before referee Harry Kessler stopped it with the Paterson, N.J., boxer flat on his back. Kessler could have counted 30.

It was a brutal beating that the 28-year-old Akins handed the hand-some stylist. Almost before the battle was under way, Martinez was on the deck when he jabbed and Akins crossed a solid right to the jaw. Vince bounced up but it was apparent he was badly hurt.

Twice more in that wf'd first round Martinez was dropped, and twice he fell or was pushed to the apron.

Martinez' legs were wobbly and his face was bloody in the second round as Akins opened him off disaster. Only in the final second of that round did he get his vaunted left into action.

The third round had Martinez jabbing and moving away with some of the style he has shown in previous bouts, but Akins, impeding somewhat with abandon, landed a clubbing right to the head as Martinez backed off balance and was starting to fall under his own momentum. The crowd counted him to another count of three.

A revealing left to the jaw up-ended Martinez again just before the bell as Akins headed home at a fierce 30 straight punches.

In the midst of that barrage Martinez hit his opponent low. He was backed against the ropes and hammered without returning a punch.

Martinez obviously could not take much more. Akins, realizing the finisher, slipped down off his left and he hit a slippery spot in mid-ring.

Then Akins cranked up his finishing attack and drove Vince along the ring and dropped him with a right and a left after a lengthy barrage. Vince just made it this time, taking the nine count. Then came the finisher, a crushing left hook to the jaw, and down went Martinez once more.

Referee Kessler took one look and stopped the slaughter. It went on a technical knockout because he didn't bother to count out.

Akins had been a 3-to-1 favorite on his punching power but there were Martinez supporters expecting such a performance. After the opening bell it was clear that was equal about the two fighters was their weight. Each weighed 146¾ pounds.

This could have very well been the first successful defense in welterweight title history for Vince was only just able to make it back to his corner after the bell.

Akins now is eager for a big payday fight with former title-holder Carmen Basilio.

"That fight would be ideal," Akins said when asked about a match with Basilio. His manager, Eddie Yawitz, echoed: "We definitely want Basilio next. He's the big one. Of course, wherever we can draw the most money."

But Basilio, a spectator Friday night, said his plans are indefinite and he doesn't whether he'd get a third fight with middleweight champion Sugar Ray Robinson.

He admitted, though, that Martinez "looked amazing to the 167-pound class if the money is right.

"He had a ton of guts," Akins said. "But I've fought several times before and I'm ready for one."

Martinez said Martinez had been making a "big mistake" in every fight he had seen him in—that of backing up to the ropes.

"I was able to get in with the left hook and right to the body.

A crowd of 9,777 paid $62,810 and that the fight was worth $31,000 to each man.

Leafs Notch Eight in Nine As Royals Lose

By THE ASSOCIATED PRESS

Montreal's one-time big margin at the top of the International League stood at only one game today chiefly because Toronto Maple Leafs have been on a winning streak while Royals were losing their touch.

The Leafs chalked up their eighth victory in nine games Friday night with an 8-3 decision over the Columbus Jets. At the same time Royals dropped a 10-4 game to Richmond Virginians for their second setback in their last eight outings.

In other games Friday Miami edged Rochester 1-0 and Buffalo and Havana played a 6-6 tie in a game in which the start was delayed by bad weather. The Bisons' plane was unable to land at Moncton, Cuba, where the game was played. Instead it put down at Saint John's airport and the boys soon finished the trip by bus. It was called by curfew with the game tied 6-6 after nine innings and ruled a suspended game. It will be completed later.

Jim Bunning, Detroit's rookie pitcher in the league with an 8-1 record, gave up nine hits and walked six as Leafs turned back the Jets. But he struck out 11 and was never in serious trouble.

Southpaw rookie Joe Gibbon of Buffalo breezed to a one-hit shutout through three innings and leading 3-0 as the result of Bill Cissell's two-run homer and a run-producing triple. But in the fourth Gibbon fell apart as the Leafs scored four times. And he left for the showers when Stan Lee hit a single without the bases loaded.

Baby Del Greco drove in three runs with a homer and Bob Oldis two with an inside-the-park homer as Miami pacing Richmond's 10-hit attack. Four Virginians came around Montreal four runs.

Johnny Bucha's pinch single with two out scored Woody Smith, from third in the ninth inning as Rochester's Red Sox edged Rochester's Dick Ricketts in a pitchers' duel.

Trailing 6-5 going into the seventh inning, the Sugar Kings scored a six-run rally without the benefit of a hit to send 6,340 Cuban fans home happy.

Baillargeon Awarded Bout After Official Knocked Out

By GEO. H. CARVER
Sports Editor

Wrestling fans consensus is that outside of wedding bells in a monastery the most useless thing extant is a referee.

Be that as it may, the much maligned arbiter has some rights. Big hogs of wrestlers can't go around poking referees in the chops and get away with it, and Bert Maxwell has anything to say about it.

That's what happened late night in Memorial Arena when Wild Bill Longson and Fernando Freddie (Armband) Atkins were busy giving Montreal Baillargeon Freres the well-known works.

The big toughies had the good-looking Tony Baillargeon in a bad way in the third fall. Atkins pushed referee Maxwell over ropes but forgot to note that pudgy Albert of the white-panted fraternity was jammed between his victim and the hemps.

There is a flurry of short-arm punches. Tony who uses his eyes to see, saw a haymaker coming. Instead of ducking, he stuck out and blocked, so when Tony promptly keeled over in 2.30, he was fair game, a sitting duck.

Albert took it squarely on the button. His knees sagged. He crumpled and fell slowly forward on Maxwell, pinning the referee's chimes on his rotundity then dropped into blissful if brief bye-bye. Maxwell was counted out and recalled his dignity had been offended so he promptly swabbed his hot feet and awarded the fall and main bout to the agile Baillargeon.

Wild William and Feerushus Freddie did everything in their bag of tricks to subdue the pouting Frenchmen. They gouged, poked, strangled, used strings in fact everything but a headsman's axe in an effort to cop the nod.

Freddie won the first fall 14 minutes after subjecting Tony B to terrific punishment aided and abetted by balding Wild Willie, in the first fall. The youngsters turned the tables and Adrian had Freddie flatter than pea-soup on a platter when Wild Willie hopped into the ring and snatched the opportunity from slop his fallen pal.

But he didn't cost the Montrealer Albert saw him coming and quickly eyed the three-count to make it fit, then promptly awarded the fall to the brothers. Atkins was so incensed he took a shot at his benefactor but peace was declared when he realized his mistake.

The Australian kept wiping the sweat from brothers with his arm bandage without the courtesy of asking them to "blow". When he did they threw him across the ring.

Baron Singh, Hindu wrestler made his debut here against huge Wee Willie Davis spotting the monster 30 pounds. He's a handsome, colorful Hindu after taking punishment that clamped a "sleeper" on Willie that put him there for. The Hindu had to revive his monster opponent.

Jan Gotch and Krusher Korman wrestled to a draw after thirty minutes of fast action.

Injunction Will Block Transfer Chavez Ravine

LOS ANGELES (AP)—A judge Friday issued a preliminary injunction blocking the transfer of 300 acres in Chavez Ravine to the Dodgers for a baseball stadium.

Superior Judge Kenneth C. Newell in nearby Pasadena acted on a taxpayer's suit brought last April 10 by Louis Kirschbaum, Los Angeles, to halt the city from making the transfer. The court's action extends a temporary restraining order in effect since April 28. Voters approved the transfer in a plebiscite Tuesday.

Kirschbaum's suit alleges the contract is illegal because the deed conveying Chavez Ravine land from the city housing authority to the city some three years ago contained a clause restricting its use to "public purposes."

Bobcats Belt Frankford Merchants To Climb Into Loop's Third Spot

FRANKFORD (Special) — With southpaw Bobby Green hurling great ball and his mates backing him with a 14-hit attack, the Belleville Bobcats whipped Frankford Merchants 16-5 here last night in a Belleville and District softball league fixture. Bobcats took over third place from the losers.

The Cats jumped into a 2-1 lead in the first frame and were never in trouble as Frankford's lone pitcher, Bobby Hunter, was ejected from the game in the second frame. Hunter was tossed out by plate umpire Bob Hunt for "quick pitching." Shortstop Bill Rankin took the mound and he was relieved by Bert Hallinan after a third inning shellacking. Wiener Brown, Earl Cousins and Doug Bone rounded out the attack with one-baggers.

Jason Field picked up half of the Frankford base-knocks with the others going to Doug Doo-little and Rankin.

Errors were plentiful with the Merchants kicking the ball around in the field while the winners had three miscues.

Bobcats got 3 runs in the 14 3
Frankford 100 001 200 5 4 6

Batteries: Green and Bone; Hunter, Hallinan (2), Rankin (3) and Wickson, Foshay (7).

Umpires: Bob Hunter (P) and Woody Reid. Scorer: Selbourne Sharpe.

Fights Last Night

By THE ASSOCIATED PRESS

St. Louis — Virgil Akins, 146¾, St. Louis, stopped Vince Martinez, 146¾, Paterson, N.J., (Akins wins world welterweight title).

San Diego, Calif. — Kid Anabuac, 127½, Mexico City, knocked out Jimmy Mezer, 125½, Los Angeles 6.

Tim Tam Could Be Ninth Nag To Win Triple Crown Series

NEW YORK (AP) — Tim Tam answers the big question today in the Belmont Stakes, completing the triple crown series for three-year-olds. There was a general belief he would have a work cut out for him by an Irish colt named Gallant Man.

The question was whether the Calumet Farm colt would be the ninth horse to win the triple crown.

Off the record, especially in a study of the Jersey Stakes results, Tim Tam seems to have worried Tim Tam or trainer Jimmy Jones much as they attempted to add the 1½ miles event to their Kentucky Derby and Preakness victories.

Last Saturday, however, Cavan won the 1¼-mile Peter Pan Handicap by five lengths, drawing away easily at the end after trailing the early leader by 14 lengths.

DOMINATE EIGHT

Eight three-year-olds, all that survived the rigors of racing from an original list of 132 horses nominated for the 1958 crop, $100,000 - added classic, were named to start.

With eight going in the 90th Belmont, the gross value would be $114,600. The net, estimated $73,440. Mild, sunny weather was promised, assuring a fast track.

Tim Tam was an overwhelming favorite, an early odds line showing 2-5 to 1 to win.

The race to start between 4:30 and 4:45 p.m. EDT, will be carried by CBC-TV.

Queen's Plate Facts, Figures

TORONTO (CP) — Facts and figures for the 99th running of the Queen's Plate at Woodbine:

Place—New Woodbine.
Post time—3:37 p.m. EDT.
Number of starters—14.
Purse—$25,000 added to nomination and starting fees.
Total value—If it start, $28,895.
Value to winner—If 14 start, $26,395.
Trophy—Presented by Eric Phillips.
Trophy value—$1,000.
Prehakle odds—7 to 5.
Jockey to ride winner—E. P. Taylor's Lyford Cay.
Distance — Mile and one-quarter.
Record time—2:02 3-5, Lyford Cay, 1957.
Crowd—About 25,000.
Broadcast — Radio and television 3:15 EDT, CBC TV and radio network and CBC's Trans-Canada radio network.
Weather—Sunny and warm.
Track—Fast.

BIG TACKLE FOR B.C.

VANCOUVER (CP) — B.C. Lions have announced the signing of Alvin (Bootsy) Tolbert, 250-pound tackle, from the University of Alabama. He graduated in 1956 and signed with Philadelphia Eagles of the National Football I ague, then was drafted into the army.

'Stole the Ring' Favorite For Queen's Plate Classic

TORONTO (CP) — Fourteen three-year-olds were to canter to the post at New Woodbine Track today, seeking racing fame and the largest purse in the 99-year history of the Queen's Plate.

The purse was worth $28,895 approach $40,000—$25,000 plus nomination and starting fees and $3 (about $600) granted from the Queen.

The number of entries became official Friday when owners deposited their final $250 nomination fee with the Toronto Jockey Club for the 1½-mile stakes race. Original nominations Dec. 1, 1956, totalled 212 but the field was narrowed to 39 May 1 this year and then to 14 Friday.

Track observers said the winner would be ridden by second Blanch Armstrong's Stole the Ring. Conn Smythe's Caledon Beau and Eamon Farm's one-two combination of Foxy Phil and Dr. Em Jet.

Stole the Ring, unbeaten in five starts as a two-year-old, is a question mark until this week when it was announced the horse had recovered from a coughing ailment.

FAVORITE COMES BACK

Subsequent trials this week, one of them two-fifths of a second off the Canadian record for five-eighths of a mile, restored her as the favorite.

Caledon Beau, robust son of the post, fourth in the Marine Stakes last week but caught back 68 horses late in the second division of the Plate Trial going away.

Foxy Phil, a willing worker, scored a victory in the Marine Stakes.

Dr. Em Jay, the other half of the Lennox brothers combination, raised her stock with a startling win in the first division of the Plate Trial.

DEVELOPS CRACK

For a time Friday it appeared the only horse from outside Ontario, Jeanne, owned by Herbie Desnoyers of Montreal, would be scratched. Trainer Frank Mann's horse came up with a quarter crack, something akin to a broken thumb nail, in the left forefoot.

Upon examination, Mann declared Jeanen a starter and said the horse would be fitted with a bar shoe to protect the crack. The last horse known to wear a bar shoe in the plate was Watch Wrack, also trained by Mann, which finished third in the 1947 classic.

Post time was 3:37 p.m. EDT. The race was to be televised and broadcast over the CBC's network.

Elgins Snap Dutchies String

ST. THOMAS (CP) — Kitchener - Waterloo Dutchmen's six-game winning streak was stopped by St. Thomas Elgins Friday night when John Ambrose pitched seven-hit ball for a 4-2 victory.

Victory gave the Elgins sole possession of tprd place in the Intercounty Senior baseball circuit.

Ambrose, who evened his season record at 2-2, started a double play when he nipped Dutchie threat in the sixth.

Bruce Thomson, unbeaten previously, got their runs on circuit clouts by Joe Yosurak and Artie Wright.

St. Thomas wrapped up its third straight win with two runs in the seventh, the winning marker coming home on an error by losing pitcher Ogden Allan. Ambrose drove home the final run with a single.

Brampton Nips Hamilton 10-9

HAMILTON (CP) — Brampton Excelsiors were hard pressed all the way but came from behind to squeeze out a 10-9 overtime baseball victory over Hamilton Friday night in an Ontario Lacrosse Association senior game.

Harvey Madgett's goal at 2.29 of tre overtime period sewed it up for Brampton which is tied back on even terms.

The game perfed saw tempers flare as referee Lou Vipond ejected Hamilton trainer Steve Bogdan.

Long Branch Nips Brampton

BRAMPTON (CP) — Long Branch Pontiacs edged Brampton Excelsiors 7-6 in an Ontario Lacrosse Association senior game Friday night.

Vlasic and Sitarski had three goals each for Long Branch and Webb scored the other.

Brampton and Sitarski had three goals each for Long Branch and Webb scored the other.

Vlasic and Sitarski had three goals each for Long Branch and Webb scored the other.

Italy, Britain In Davis Cup Semi-Finals

LONDON (AP) — Italy and Great Britain as expected, have grabbed semi - final berths in European zone Davis Cup tennis competition.

But Sweden and Mexico, the two unseeded Davis Cup favorites, ran into trouble Friday with France and Australia respectively, in the opening singles matches at Warsaw and Paris.

Italians Nicola Pietrangeli and Orlando Sirola cut down Kurt Nielsen and Jorgen Ulrich of Denmark, 6-2, 3-6, 6-3, 6-2 in doubles at Copenhagen. The triumph gave Italy a 3-0 lead and clinched the semi - final berth against either Poland or Mexico.

Andrzej Licis, of Poland mastered Mexico's Pancho Contreras, 6-3, 6-4, 6-4, and Wieslaw Skoneckl held a 7-5, 6-8, 6-3, 3-2 lead over Rafael Osuna when darkness fell.

Britons Mike Davies and Bobby Wilson made short work of West Germans Rupert Huber and Peter Kuhnke, 6-3, 6-3, 6-3, to make it 3-0 and clinch a semi-final berth for British against either France or Sweden.

Sweden faced a crisis after the opening singles at Paris, when its highly-rated Sven Davidson was upset 6-4, 6-4, 6-4 by young Pierre Darmon. Frenchman Robert Haillet followed with a 6-3, 6-3 verdict over Ulf Schmidt.

Jimmy Simpson Is Named Tri-Cat Trainer

HAMILTON (CP) — Jimmy Simpson, long one of the most colorful and controversial figures in the football refereeing businesss, will take on a new role this season.

Hamilton Tiger - Cat football club president Jake Gaudaur has announced he will be the club's assistant trainer this year. Jake said Norman (Pinky) Lewis will continue as the team's head trainer.

Simpson starred for a long while as an outside wing with the Tigers. He and Seymour Wilson, still an active referee, were considered the best part of "reds" in the business.

Simpson then left football and handled many Big Four games.

TV NOTEBOOK

By JOHN WETTLAUFER

As we have said before, the condition of your antenna is vitally important to good TV reception. Aside from the antenna itself, it is also important to periodically inspect all of the outdoor receiving system which is subject to the ravages of weather.

Transmission lines should be inspected, also the lightning arrestor (if you have one) and insulators. When plastic insulating materials crack — and they will in time — TV signals leak off, particularly during damp weather. Cracked or checked insulation should be replaced. It's wise, also to check on the position of leads, to determine that they are away from rain gutters and walls.

AT THE BELLE — Natalie Wood as the heroine of Herman Wouk's "Marjorie Morningstar", has the principal role in this really big motion picture. Gene Kelly, Claire Trevor, Ed Wynn and Carolyn Jones and other top stars also appear in the picture, playing an extended engagement at the Belle Theatre.

THEATRE FEATURE TIMES

AT THE BELLE — "Marjorie Morningstar", Gene Kelly, Natalie Wood, Claire Trevor, Ed Wynn, in Warner-Color. 2.05-7.10-9.35.

AT THE McCARTHY — "Jet Attack", John Agar, Audrey Totter. 1.35-3.50 — "Suicide Battalion", Michael Connors, John Ashley. 5.15-9.24.

AT THE PARK — First Showings — "Left Hand", Julius La Rosa, Paul Anka. 4.20-7.15-10.10 — "Forbidden", Technicolor "Return to Warbow", Phil Carey. 5.50-9.45.

AT THE BELLEVILLE DRIVE-IN — "Tall T", Randolph Scott, Maureen O'Sullivan — "Rock Around the Clock", The Platters, Bill Haley — Show starts at dusk.

AT THE QUINTE DRIVE IN—"Royal African Rifles", Technicolor, Louis Hayward and Veronica Hurst — "Young Guns" (Adult), Russ Tamblyn (Star of Fyvie Finch) — "Young Guns" (Adult).

Movie Column

Bachelor Father Is Happy Survivor of Big Turnover

By BOB THOMAS

HOLLYWOOD (AP)—Bachelor Father is a happy survivor of the wreckage from one of the biggest season turnovers in television history.

Seldom have there been as many casualties among TV shows. Bachelor Father, which alternates with Jack Benny on CBS Sunday nights, is one of few new shows to be renewed for next season. Star John Forsythe, offered this explanation:

"I think we've been pretty lucky in drawing a fine line on a family show. We don't go as far in comedy as I Love Lucy and we're not as sentimental as Father Knows Best or The Danny Thomas Show.

"And I think we've got a good the sound track when the humor cast. Sammee Tong is a great character; he's not an actor, but he has a way of making any line seem funny. The girl, Noreen Corcoran, is a good choice because she's natural and not precocious.

"As for myself, there's one quality I've seemed to retain throughout my career. People seem to be able to identify themselves with me. That's an asset for a TV show."

Forsythe, handsome veteran of stage (Caboose of the August Moon) and screen (The Ambassador's Daughter), keeps a close eye on production, down to and including the laugh track.

Many a comedy show has been ruined by boisterous laughter on

Harness Racing

HAMBURG, N. Y. (CP)—Eleven-year-old Lord Steward became the top money - winning trotter of all time by finishing fourth Friday night in the $20,000 Buffalo Raceway trotting derby finale, a race in which Egyptian Princess pulled off a surprise victory.

Lord Steward, owned by Ralph K. Kraus of Milwaukee, has earned $1,600 for his effort and it pushed his earnings to $333,367. The former record was $332,365, held by Pronto Don.

MONTREAL (CP) — Frisky Prince, with Joe Adamo at the reins, won the $2,500 a pace at Blue Bonnets raceway Friday night, paying $7.20, $3.90 and $2.90.

The four-year-old brown horse, owned by Louis Grasso of Scarsdale, N.Y., did the mile in 2:08 1-5.

Legal Prince, a Collingwood, Ont. entry reined at Clint Galbraith, won the $600 second race and paid $13.80, $7.20 and $4.

In the fifth race, Bradry's Best from Leamington was second and Brooklyn Gal from Lakefield was third.

Astrological Forecast

By CARROLL RIGHTER

Sunday, June 8

Aries (March 21 to April 19) — If you do not apply the wisdom of looking at your problems objectively, they will surely depress you today. Deep faith will be the bulwark to which to cling all this day and evening. Make it a habit. P. M. go to bed early.

Taurus (April 20 to May 20) — Better put a bridle on your tongue today, for your dissatisfaction with conditions at home could get you on the warpath. Also, be patient with a comrade who drops in and is fraught with worry, too, and be kind on the Lord's Day.

Gemini (May 21 to June 21) — Take care to do nothing today that will reflect upon your good name or the esteem in which others hold you. Spend some time reading great works, the classics. An authority later tries your patience. Remain calm throughout.

Moon children (June 22 to July 21) — This is a funny day when you arise wondering if your beliefs are as accurate as you have deemed them. If you are convinced how being misled, both spiritually, and physically. Remain steadfast to great Truths. Aspects are not good, and you feel strange.

Leo (July 22 to Aug. 21) — Your solution here to settle the real discord between yourself and associate is very bad, so do not follow it. Simply live the Golden Rule yourself and conquer by good example. All will be well very soon now.

Virgo (Aug. 22 to Sept. 21) — It bothers you somewhat today to feel that your associates are not being as loyal as you prefer them to be. But after, your ruling planet soon dispels this feeling and you show appreciation. They are soon back on right track.

Libra (Sept. 22 to Oct. 22) — Remain poised, quiet and strong all the day and through the night. This is easy for you, being ruled by Venus. Don't endeavor to follow lunch to adjust matters between you and mate now.

Scorpio (Oct. 23 to Nov. 21) — Be very sure today to avoid that battle that is brewing between family tie and an associate. Be neutral, happy and cheerful. An attitude of levity and gaiety throughout keeps you in the clear, to use the vernacular.

Sagittaries (Nov. 22 to Dec. 21) — It is up to you to put a stop to all the talk and bickering at home and impress everyone by action that you desire and intend to have harmony at abode, as you do at business. Be fair but firm.

Capricorn (Dec. 22 to Jan. 20) — Without involving others prepare your worst secret worry straightforwardly. It behooves you to get cned out today. Seek the wisdom of that professional personal advisor or your pastor and you will be led correctly.

Aquarius (Jan. 21 to Feb. 19) — If you retain your own mental equilibrium today, you can deal successfully with the totally unexpected behavior of another. The Golden Rule may be pretty much worn out seemingly, but its still functions wonderfully when used.

Pisces (Feb. 20 to March 20) — Being wrapped up as you usually are with your own worries and wants, toil for security, you miss a great deal by not helping other individuals occasionally. This will give you a boost today if you try it, and bring benefits later.

If your child is born today — The strange yet wonderful child born today is the type who seems to thrive on argument, providing he is never happier than when having to solve them, even his own arguments better quickly teach the beauty of harmony and co-operation for sake of economy and energies. Then the chart is a natural one for the big, miracle-working lawyer, or the reformer and the inventor.

Monday, June 9

Aries (March 21 to April 19) — You are extremely annoyed in the morning because of the dull chores you must attend to when you want to get out to greener pastures. Be patient and in afternoon you find you are very inspired and have marvelous ideas. Succeed.

Taurus (April 20 to May 20) — A. M. is rather difficult since nothing seems to be in harmony, which it concerns family affairs, business ties, social amenities, etc. After lunch however, you are inspired just how to restore order. Don't sit! Act!

Gemini (May 21 to June 21) — Problems and work with associates and civic duties are less pressing in early morning. Early afternoon, however, brings respite and some letter, word which gives the key how best to blend all duties and have a flourishing day.

Moon children (June 22 to July 21) — Refrain from voicing displeasure with the working methods of a partner, grumbling that you are doing the lion's share of the work. Remember that only you are to blame if you are being made the goat, so assert yourself and gain respect, too.

Leo (July 22 to Aug. 21) — Get out of the habit of making a mountain out of a little molehill of bills, little loans, etc. Look on the brighter side of life and concentrate on spending a sunny P.M. a successful oal gives you most valuable advice tonight.

Virgo (Aug. 22 to Sept. 22) — An unhappy pal truly gives your closer ties a rough time of it today. Realize that it is only worry that causes this behavior and give the friendship the brief ill still P.M. attend to civic matters: they are important now.

Libra (Sept. 23 to Oct. 23) — A. M. romance with strange significance. Be cooperative with friends, but control the emotions and don't overdo. Act and assume you touch turns to gold or is very favorable. Work diligently.

Scorpio (Oct. 24 to Nov. 21) — You really are eager to get off for a game of golf, driving in the countryside, or other enjoyable outlet, but it is best you get important matters attended to first. Then there is still time for pleasure. Be happy.

Sagittaries (Nov. 22 to Dec. 21) — Be careful you do not use harsh languages at abode today, for the conditions here is pretty much your responsibility, too. After lunch and early evening something nice occurs to give you a tremendous uplift.

Capricorn (Dec. 22 to Jan. 20) — Here is a day when much caution must be exercised on the road, also in your speech, if you want to keep out of harm's way. Late afternoon is fine for any financial dealings or property matters. Success is certain.

Aquarius (Jan. 21 to Feb. 19) — Money matters are never interesting to you and particularly so today. But impress all with your truly fine acumen and adherence to principle. Twilight hour is then wonderful for inspired time with admirable pal.

Pisces (Feb. 20 to March 20) — All morning long you are so depressed you literally make everyone around you most unhappy. But after lunch, all seems bright and you make real headway in matters of policy and finance, both at home and at business.

If your child is born today — The interesting child born today will during earliest youth have a rather gloomy outlook on life, but as the years progress the attitude changes to a brighter one, and all things are done in efficient manner. Educate very broadly in both business and the aesthetic realms, for the later life will be a remarkable one, taking your progeny to far - off lands to some novel vocation or avocation.

OLD CITY

Bristol, England, received its first town charter from Henry II in 1171.

Making Quilts Brings Woman Many Friends

KITCHENER, Ont. (CP) — An 83-year-old great-grandmother at Marshall near here finds that making quilts brings her many friends.

Mrs. Helen Brohman is hostess three days a week to 11 members of the Ladies Aid Society who "drop in" for a chat and to stitch quilts for the Canadian Red Cross Society.

The group started making quilts in 1942, but after two years of working in a school moved its stitching to Mrs. Brohman's and Mrs. Brohman's home.

Mrs. Brohman, who learned quilting when she was 66, says: "I should be lost without my sewing friends."

Stirling

STIRLING — Last Monday Mrs. Roy Bush, R.R. 4, Stirling, gave a special address at Havelock W.I. on the theme "Historical Research."

The program was convened by Mrs. Norman Rossbush and Mrs. Bush chose "Searching the Records" as the main thought. She gave a vivid picture of this phase of research work. The address accompanied by Mrs. Glenn Bush and Eleghen Bush, Mrs. Roy Bush, and Mrs. Sheldon McIntosh, all members of River Valley Institute.

The group was a luncheon and dinner guest at the home of Mr. and Mrs. Norman Rossbush.

Approximately 36 Girl Guides from Stirling, with their leaders and mothers, were guests of Mabee Guides on Wednesday evening.

The group enjoyed a film on "The World Camp" and the Stirling guides entertained with a fashion show. Refreshments were served and a social time enjoyed.

There were 90 guides in attendance and included guests from Havelock also.

Mrs. Douglas Smith and son Eric, Ottawa, and Miss Pryllis David, Toronto, visited over the end with their mother, Mrs. H. C. David.

Miss Janet Fletcher was ill last week and was unable to attend the Festival of Music Friday.

Born on Monday, May 26 at Penetang General Hospital, to Mr. and Mrs. John Rossbush, a son.

Mrs. Claude Trumble is a patient in Belleville General Hospital. She underwent surgery last Wednesday.

RIVER VALLEY W.I.

On May 27 approximately 40 members of River Valley Women's Institute, and their friends, gathered at the home of Mrs. Harry Coulter, Tweed, and presented their patriotic program. The program, planned by Mrs. Coulter of Mrs. Sheldon McIntosh, Stirling, was in connection with the birthday meeting of Chapenan - Tweed W.I., who were celebrating their eighth birthday.

Mrs. Phil Conley was pianist, and the flags were carried by Louise Harding, a Girl Guide, and Dennis Heasman, a Boy Scout, both in uniform. Mrs. Ken Kent, District Commissioner of the Girl Guides, gave an address on that theme and also read a message written by Lord Baden-Powell. The community sang a special poem entitled, "The Flag."

Mrs. Ed. Heasman gave an address on the motto, "God, My Country and Me, Let Me Live Abundantly." She also introduced Mrs. Kent who readies in the River Valley community.

Mrs. Ernest Carr...read "The Flag on the Fence" and Mrs. Ross Bush read an article on "Empire Day." Miss Marie Heasman played piano for "God Save the King," and Mrs. George Heasman played "Land of Hope Glory." A paper on "Empire Day and Citizenship" was prepared by Mrs. Don McIntosh and read by Mrs. Roy Bush.

The hostess group served refreshments and all enjoyed a delightful afternoon of friendship.

4th Thurlow

4th THURLOW — Master Richard Sheffield of Picton, spent Friday and Saturday with his grandparents, Mr. and Mrs. Walter Sheffield and Mr. and Mrs. Carl Sheffield and Sharon, of Picton, were Saturday evening guests of Mr. and Mrs. Bonnie Sprague.

Garden Notes

Crabgrass Is an Annual Nuisance

By FLORA M. SAVILLE

Crabgrass is an annual and while the plants die in the fall they leave behind thousands of seeds to carry on the infestation. It flourishes in hot dry areas then dies out in the fall to leave bare dead spots in the lawn.

If you are not well acquainted with this pest examine your lawn closely for small plants with light quarter-inch-wide leaves. The two blades are opposite each other and curve out and down. The crabgrass which grows much lighter than your good perennial grasses. As the plant progresses each joint forms roots which take hold and send out new tufts to spread seed.

Begin to fight it before the seed germinates in late May. Then, spray at three week intervals through June and July to catch any that were missed in earlier sprays. Finally, hand weed any stray plants which have escaped. The chemical used is a mixture of phenoxethyl sulphate is sold under the trade name of Weedone. This is only effective before the seed has sprouted. It is safer and easier to spray for two or three years since the seeds are long lived and will stay alive through several winters, even though they may be buried in soil. Only the seed that have been worked up to the surface they will sprout.

This herbicide seldom injures lawn grasses if mixed according to directions on package. It is damage if any is slight and the lawn soon recovers. Do not use crag on bent grass. When making a new lawn delay seeding until at least four weeks after spray has been applied.

A well fed lawn which receives sufficient moisture will develop into a thick turf. Crabgrass cannot get started here. It needs open soil and direct sunlight. Crabgrass cannot grow in shade. If you have been troubled with it sow your mower blades to cut the lawn three inches long all through the warm months. The grass will then provide enough shade to discourage germination. Hand weed any crabgrass which may appear in thin spots or along the edge of the lawn. Be sure to burn the plants and see that they are gathered before the seed ripens and spread.

If the crabgrass does get ahead of you in the warm weather remove the mower blades and the grass one inch long. By this time the plants will have developed several tufts of five to nine branches each carrying a seed head. Dig or hoe it out and kill at the cuttings. Rake with an iron rake to loosen the decreased stems and cut again, working from opposite directions. Repeat this twice more the same day. Dry and burn the clippings, clean the mower and the basket. In two weeks repeat the same procedure. Through the remainder of the season hand weed any stragglers. This should make the crabgrass battle much easier for the following year.

Keep the lawn growing vigorously with applications of plant food every six weeks and a thorough soaking every week when dry spells come along.

Will Give Tests To All Grade 9 Ontario Pupils

EDMONTON (CP) — The Atkinson Foundation study on Ontario education will be expanded to include special tests of every Grade 9 student in the province—about 90,000 of them.

Dr. R. W. B. Jackson, director of educational research for the University of Toronto, announced the new step in an address Thursday to the annual meeting of the National Conference of Canadian Universities.

The 90,000 students will be followed through high school for the five years until they—or at least the survivors among them—enrol in Grade 13.

"Our greatest wastage of talent undoubtedly occurs during the high school years, and this new study would give us the essential information needed, not only to measure but also to overcome this wastage," Dr. Jackson said.

The Atkinson Foundation study began by making a "follow-up study of a complete grade 9 group—the students in Grade 13 in Ontario schools in 1955-56. It involved a total of 9,573 students, with special tests given to 8,852 of them.

Dr. Jackson said other foundation studies indicate that 80 to 85 per cent of students "with the intelligence necessary to succeed in post-secondary education never complete their secondary school course."

Common Training For Services Said Big Asset

EDMONTON (CP) — Common military education in the Commonwealth countries is one of the West's most important defences, says history Professor Richard A. Preston of Royal Military College in Kingston.

Addressing the Canadian Historical Association Thursday, Prof. Preston noted that the new joint services college in Toronto includes officers from all three services in the various Commonwealth countries.

On the other hand, each country like its own staff college and Canada has even a high-level national defence college.

"What remains uncertain is whether these new trends toward decentralization of military education will . . . help to pull the armed forces of the member countries on separate paths," Prof. Preston said.

"The evidence at present seems to show that the degree of co-operation between the various staff colleges is strong and growing and that uniformity is being largely preserved. The number of officers interchanged between British and Canadian units and regiments recently has been increased."

Scoharie

SCOHARIE — Mrs. Walter Taylor spent Thursday with her daughter, Mrs. Ross Wight, Mr. Wight and family, Wellington.

Miss Louise Huff has accepted a position at Shaw's Business College, Toronto.

Mr. Theodore Foster and Miss Norma Foster, Mrs. Blaine Foster, Darlene and Carol and Mrs. Harry Foster spent Sunday afternoon with Mr. and Mrs. Norman Kerr, Rhonda and Kathy, on the occasion of Kathy's birthday.

Mr. and Mrs. Sam Mulholland entertained guests at the supper hour on Sunday.

Mr. and Mrs. Reg Scott and family, Foxboro, were Sunday supper guests of Mr. and Mrs. Alan Baxter, Lindley and Jean.

Mrs. Walter Scott and Douglas were guests at the same home the previous Sunday.

The Misses Ann and Catharine Leavitt and Mrs. Lewis Peterson were among those who enjoyed the bus trip to Ottawa for the "Tulip Time".

Farmers are busily engaged getting their corn and tomatoes planted.

Grassland Field Day at Kemptville

KEMPTVILLE — Ten years have elapsed since the first Grassland Field Day was held in Eastern Ontario at the Kemptville Agricultural School. This year, on June 11th, another big event will be held to demonstrate the latest models of haying and silage making machinery. The program starts at 10.00 a.m. with a demonstration and discussion of some modern farm practices by J. A. Dalrymple. These will include plastic silo construction, self - feeding forage wagons, and pallet handling of baled hay.

At 11.00 a.m. there will be an opportunity to view the newest machines of grasses and legumes in rows, in pure stands and in mixtures. D. L. Parks will be on hand to discuss the various forage tests.

At 12.00 o'clock the Kemptville Women's Institute will start serving lunch. During the lunch hour there will be an opportunity to visit the more than 20 Machinery Company exhibits.

The field demonstrations will start at 1.30 p.m. and carry through until 4.00 p.m. The latest models of mowers, rakes, swathers, balers, forage harvesters, and elevators will all be demonstrated in the field. Possibly of greatest interest this year will be the various models of hay conditioners or stem crushers.

Church Drops Plan to Print A-Test Protest

CHATHAM (CP) A rural parson warned the London conference of the United Church Thursday not to "align itself with subversive elements" by printing and distributing its stand against nuclear testing.

At the annual conference continues, Rev. Carl Crewe, of Belgrave said there is not a person in Canada who does not agree with the stand of the church on atom tests. The opposition "is an accepted fact." Mr. Crewe said.

Yet, he added, for the church to publish and distribute its stand would "follow too closely the tactics of subversive elements who are calling for the end of testing to satisfy their own ends."

Following Mr. Crewe's statement, the conference dropped its plan to circulate its resolution which was to be printed and sent to church members, members of. Parliament and provincial legislators.

The conference passed a resolution Thursday backing the stand of the church's general council ir support of halting nuclear testing.

A second approval resolution called for the government to use its influence in world councils to protect the interest of world safety.

Inflation Fears Still Rising In United States

NEW YORK (AP) — Fear of more inflation is rising today in spite of industrial recession.

Some businessmen are calling another rise in basic prices inevitable even if the slump hangs around. Their views and these are particularly numerous in the stock market — think that the business upturn, when it comes, will start off a fresh and perhaps vigorous inflation revival.

Here are some of the factors they see keeping the inflation issue alive today:

Wages of many workers are rising or, even though their industries may have idle production facilities. Some of these wage increases are written into existing contracts and some are in progress of negotiation.

Steel executives are saying that the automatic wage rise July 1 calls for a price rise to meet it. How much of a price increase steel mills can make stick until demand improves more than it has of late is the big question.

STEEL OUTPUT RISING

But enough steel users believe a price rise is coming to have increased their orders this year to beat it and this has caused steel output to bounce back from the July pinch.

A wage increase of around 25 cents an hour is coming Aug. 1 in the aluminum industry. And some executives are warning that this cannot be met without a price increase too.

Here also there is a question of making a price rise stick.

Whatever new auto workers' contract is finally negotiated it seems most likely that some new increase will be included. And what happens to car prices then?

Crofton

CROFTON — Mr. and Mrs. Leo Lefort and family, of Belleville, were dinner guests of their mother, Mrs. W. J. Gray, on Wednesday.

Mrs. W. J. Gray, in company with Mrs. Harold Noxon, of Christian Street, attended the convention at Picton, on Thursday.

Mrs. D. B. Munro called on Mrs. Jas. Gordon Gilbert and Mrs. Gilbert, Sr., at Jericho, on Saturday.

Mr. and Mrs. Hugh Weese, also Mr. and Mrs. Clifford Peck and Pauline, of Albury; Mr. and Mrs. Harry Adams, of Redeersville, and Mrs. E. Crook spent Thursday with Mr. and Mrs. Ross Arnold Crook and Mr. and Mrs. Malcolm Allan in honor of Mr. Ronald Crook's birthday.

Mr. and Mrs. Leo Lefort and family, of Belleville and Mr. and Mrs. John Gray and family, of Jericho, spent Sunday with Mrs. W. J. Gray in honor of Mrs. Lefort's birthday.

Mr. and Mrs. M. M. Allan and Mr. and Mrs. R. Crook were guests of Mr. and Mrs. Theran Allan and family, at Peterborough on, Sunday.

Miss Elsie Latchford, of Mountain View, called on Mrs. E. Crook, on Wednesday.

6th Tyendinaga

6th TYENDINAGA — Mr. and Mrs. Clare Cockins and family, Roslin, spent Saturday evening with Mr. and Mrs. Alton Goodman and children.

Mr. and Mrs. Earl Boldrick spent the weekend at Mr. and Mrs. Roy Boldrick's home.

Mr. and Mrs. Grant Kerr visited on Wednesday last with Mr. and Mrs. Charles Treverton.

Mr. and Mrs. Lorne McKenzie spent the dinner hour recently with Mrs. Ella Bleasdell, Belleville.

Mr. and Mrs. Roy Boldrick spent Saturday evening with Mr. and Mrs. Charles Bird and boys, Belleville.

Mrs. Arthur Treverton and boys visited with Mrs. C. Treverton on Thursday.

Mr. and Mrs. Alton Goodman and children were dinner guests on Sunday of Mr. and Mrs. Fred Gray's and Joannie, Thomasburg.

Mr. and Mrs. Charles Treverton and Clare, also Mr. and Mrs. Roy Boldrick attended the opening of the new Purina Mill at Whitby on Saturday. They also called on the Rev. and Mrs. E. J. Kersey and children, at Toronto.

Mr. and Mrs. A. Beaudrie, Belleville, spent Sunday evening with Mr. and Mrs. Arthur Boldrick.

Mr. and Mrs. Harold Treverton, Mr. Charles Treverton and Clare visited with Mr. and Mrs. J. Jones, Sunday.

Mr. and Mrs. Glen Elliott and Darlene; also Mr. and Mrs. Earl Boldrick spent Sunday with Mr. and Mrs. Roy Boldrick and Eileen.

Rawdon

RAWDON — Last Sunday Mr. and Mrs. Jack Sharpe entertained at a birthday dinner party in honor of their son, Paul's, second birthday. A decorated birthday cake made a pretty centrepiece. Guests included Mr. and Mrs. Sharpe, Wellmans, Mr. and Mrs. Harry Keating, Marguerite and Harry, of Marmora.

Several Rawdonians spent Saturday at Whitby and enjoyed Purina hospitality.

Born at the Zine Maternity Home, Harold, Ont., on Saturday, May 31, 1958, to Mr. and Mrs. Gunter Lahmann, R. R. No. 3, Frankford, a son Ralph Ernest.

Mr. and Mrs. Burton Morton and family entertained to dinner on Thursday evening, Mr. and Mrs. Douglas McIntosh, Mr. and Mrs. Raymond Redshaw and Judith, of Ottawa.

Mrs. Carleton Potts, Mrs. Frank Zufelt, Mrs. Kenneth Weaver and Mrs. Gordon Linn, of Mount Pleasant, attended the W.A. Presbytery meeting at Picton on Thursday.

Mr. and Mrs. G. Fletcher and Mr. Ross Hoard are representing Rawdon circuit at the sessions of the Quinte Conference at Peterborough.

Mrs. Norman McConnell, of Mount Pleasant, and her sister, Mrs. Fred Stollery, of Hoards, attended a shower on Tuesday evening, May 27, at the home of Mrs. C. Stephens, Campbellford in honor of Miss Marilyn McConnell, a June bride.

Mrs. Kenneth Potts, Trenton, spent a day last week with Mrs. Blake Sharpe.

Mr. and Mrs. Gale Moore and family visited relatives at Bartlee over the weekend.

Mount Pleasant Rawdon Women's Missionary Society will convene one day earlier on Tuesday, June 10, at the home of Mrs. Milford Wrightman. The program will be under the direction of Mrs. Percy MacMillan and Mrs. Oscar Merrick on the theme of "mission".

The Rev. and Mrs. T. R. Bontstel and children, of Bethany, Ont., spent a day last week visiting friends at Mount Pleasant.

Mr. and Mrs. Gerald Clancy recently entertained Mr. Ray Sharp, Tuscola, and Miss Joan Seeery, of Round Lake.

Mrs. Eric Summers and children spent the weekend with her parents, Mr. and Mrs. O. Scrivener, Keene. Her father spent last week at Pump Street, Mount Pleasant, Rawdon, with the Summers family.

Mrs. Craig Watson, Wellmans, Mrs. Don Rose and Miss Judy Rose, of Belleville, attended a shower last Wednesday evening at the home of Mrs. Clarence Scott in honor of Miss Marilyn McConnell, a bride of this week.

Mrs. Rose Hoard who has been a patient in Belleville General Hospital, is spending some time with Mr. and Mrs. Harry Ketcheson, Bethel-Zoin.

W.M.S. 60th ANNIVERSARY

Wellman Women's Missionary Society are entertaining on Friday, June 13, at their 60th anniversary.

The first W.M.S. was organized on Rawdon circuit in 1898 and the meetings were held at

Frankford

FRANKFORD — Mr. and Mrs. Jack Bailey of Oshawa, spent the weekend with Mr. and Mrs. G. Wannamaker.

Mr. and Mrs. Keith Shannik spent a few days last week at their cottage near Bancroft.

Mr. and Mrs. Ralph McMullen and family spent Sunday with Mr. and Mrs. Percy Bronsen in Madoc.

Mr. Gordon Edwards, of Pickering, spent the weekend with Mr. and Mrs. Harry Hearns and sons.

Mrs. Alice Molleson underwent an appendectomy in The Mon Memorial Hospital, this week.

Mr. and Mrs. R. Goss and family, of Wallbridge, spent Saturday with Mr. and Mrs. H. Hearns and son, Randy.

Mr. and Mrs. C. Pearson and family have taken up residence in the home formerly occupied by Mrs. Olive Williams.

Mrs. Fred Miller, Mr. and Mrs. Elgin Payne spent Sunday afternoon with Mr. F. Miller in Kingston General Hospital.

Miss Carole Wood, of Toronto; Miss Jean Wood and Mr. Grant Parks of Belleville, spent the weekend with Mr. and Mrs. Fred Wood.

Mrs. Martin Shannik's sister, Buffalo, New York, is spending a holiday in the village.

Miss Winnifred Deuel, has returned home from the hospital and is progressing favorably.

The Rev. and Mrs. Jim Pierce and son, Terry, are conducting services in the Frankford Full Gospel Tabernacle for the month of June.

Miss Alice Molleson underwent an appendectomy in The Mon Memorial Hospital, this week.

Mr. and Mrs. R. Goss and family, of Wallbridge, spent Saturday with Mr. and Mrs. H. Hearns and son, Randy.

YOUR HERD SIRE

Pabst Sir Leader Rag Apple

With a Gold Medal rated sire (Wis Leader—Excellent) and a Gold Medal rated dam (Pabst Ramble Rag Apple Dekol—Excellent), with 2 VG. top re-cord maternal sisters and 2 Gold Medal maternal brothers, he is the greatest young sire to come to the Quinte District in some time.

YES...He Can Be Your Herd Sire!

DON'T DELAY! IMPROVE YOUR HERD BY JOINING YOUR ARTIFICIAL INSEMINATION ASSOCIATION.

Five RCMP Men Drown In Waters Of Lake Simcoe

Said Accident Caused By Too Many in Boat

JACKSON'S POINT, Ont. (CP)—Five RCMP officers were drowned in the storm-tossed waters of Lake Simcoe during the weekend when their outboard motorboat capsized off the shore of Georgina Island.

RCMP divisional headquarters in Toronto identified the dead as Cpl. Herbert H. Smart, 33, of Toronto; Const. Gordon E. Ransom, 22, of Melville, Sask.; Const. Glen Frederick Plewaski, 22, of Stockton, Man.; Const. Maurice Melnychuk, 22, of Prince George, B.C., and Const. David M. Perry, 20, of Vancouver.

Perry and Farough were stationed at the Orillia detachment. The others were from Toronto.

Chief constable Dr. Senire Lawson of Ontario said Sunday night he will confer with Attorney-General Roberts today to set the date of an inquest and to determine whether he himself should conduct it.

Dr. Lawson said the accident happened "in a very short time in a small boat".

Inspector K. W. Lockwood of the RCMP marine division in Toronto said today, however, that the boat "could be safely in quate" for five officers." It was manufactured for five and was fully preserver for each officer "and very probably more."

The craft in which they have turned over either late Saturday night or early Sunday in the southeast corner of the lake, 40 miles north of Toronto.

Inspector W. F. Fraser said today the men were on a routine patrol in the area not on a search for liquor at the Georgina Island reservation as had been reported earlier. The men, he said, had been making visits to the island's cottages and sights a week for the last two weeks.

Full Employment Comes to End In Great Britain

LONDON (AP) — Britain is suffering from an acute case of industrial jitters. The post-war honeymoon of full employment has come to an end.

With it has come a spate of demands for wage increases to meet the still rising cost of living.

For the first time since V-J Day in 1945 there are more people without jobs than there are vacancies. Until a year ago there were two vacancies for every registered unemployed person.

Th roll of unemployed last week reached 468,000 — 2.1 per cent of the country's work force. Strikes, both official and wildcat walkouts, have aggravated the situation and split the trade union movement.

There are political implications. Caught in the middle of the industrial strife is the Conservative government of Prime Minister Macmillan. In March, his government, to a large extent, set the tempo for wage increases in dealing with workers in nationalized industries.

"MOST SERIOUS CRISIS"

The country's most powerful labor leaders, Frank Cousins of the million - strong Transport and General Workers Union, says the trade union movement is facing its most serious crisis since the 1926 general strike.

Cousins has accused the Tory government of trying to "disrupt and destroy" trade union unity.

His accusation is based on the award by a government commission of a three-per-cent raise to all railwaymen but approval of increases to only 36,000 of London's 47,000 bus drivers.

Both railways and buses in Britain are under government control.

Cousins called the business on the strike six weeks ago but met a rebuff from the Trades Union Congress in saying he favored a shutdown with the government by sympathy walkouts of other workers, particularly those on the subways.

Leaders of the TUC, which embraces all British unions, advised against spreading the strike and appealed to both Cousins and the government - controlled transport commission to try again for a settlement through negotiation.

Storm Threatened

GRAND FALLS, Nfld. (CP)— A wind-blown forest fire, driven through 25 acres of young spruce and threatened the nearby logging town of Badger Tuesday, brought under control Sunday by a 60-man fire fighting crew, but one was injured.

It was central Newfoundland's worst forest fire since June, 1952 when fire wiped out 4,488 acres of timber at Halls Bay.

HAVE GLAD REUNION

MONTREAL (CP) — Thirty Spanish children were re-united with their parents at Montreal airport Saturday, ending a year's separation. The children, ranging in age from 18 months to 13 years, stayed in Spain with relatives while their parents got settled in Montreal.

Today's Chuckle

"He's a psycho-ceramic."
"What's that?"
"A crackpot."

THE WEATHER

TORONTO (CP) Synopsis: A high pressure area centred north of Georgian Bay gives sunny weather to eastern and central Ontario today. However a weak disturbance moving inwards northwestern Ontario, has spread a few showers into that area. Over southwestern Ontario there were showers during the night and some of the cloud remains. Late tonight and Tuesday, as the high pressure area moves east of the province, warm moist air from the U. S. is expected to start spreading back over Ontario. This should bring more cloud and showers.

ROYAL RACING DILEMMA

Britain's Queen Elizabeth II was in the unhappy spot of vainly trying to get her horses into the winner's circle for two days at Ascot, England, race track last week. At left she made a point at the running of the English Derby Wednesday when her entry, Miner's Lamp, also ran. Two days later, the royal brow was furrowed over the racing form, centre and right, when the monarch's brown filly, Persian Wheel, ran out of the money in the Oaks Stakes. (AP Wirephoto.)

Nine U.S. Army Men Being Held By East Germany

BERLIN (AP)—Russia refused today to take responsibility for nine United States army men taken prisoner by East Germany Saturday when their helicopter made a forced landing on East German territory.

Keeping up its campaign to force Western recognition of the East German Communist government, the Russian Embassy in East Berlin declared that the East German regime has jurisdiction over the American prisoners and their aircraft because the helicopter came down more than three Allied air corridors to West Berlin.

Russia guarantees free Allied air traffic through these corridors under a 1949 Big Four agreement.

The United States does not recognize the East German Communist regime and has demanded that the Russians in East Berlin immediately release eight army officers, one sergeant and their aircraft.

RAN INTO STORM

The helicopter belonged to the 3rd Armored Division and had been on a military exercise. U.S. authorities assume the crew craft turned east due to a navigational error in a thunderstorm and ran out of gas.

It came down at Zwickau, 30 miles east of the border. The Soviet army headquarters in East Berlin said all nine men were safe and unharmed.

The East German foreign ministry announced it had sent the U.S. state department a note protesting that East German air space had been violated. The foreign ministry followed up today with a declaration that the fact it had sent its protest direct to the state department showed the East German regime—and not Russia—has jurisdiction in the matter.

The helicopter is the second Allied aircraft held by the Communists. A Belgian jet fighter was forced down in East Germany 12 days ago. The Russians have refused all Belgian queries to the East German.

Two Canadians Reach Singapore In Landrover

SINGAPORE (Reuters) — Two young Canadians have arrived in Singapore after travelling nearly 22,000 miles in a landrover.

They are Robert Bateman and Bristol Foster, biology graduates from the University of Toronto.

Their adventure began last year. They travelled through Central Africa, India, Tibet, Nepal, Burma and Thailand. Their aim is to study and photograph wild life.

Quebec Wrestler Is Wounded in Leg After Found Hiding in Car Trunk

GUELPH (CP)—Police said a Quebec wrestler was shot in the leg during a struggle with knife-wielding police officers who found him in a car trunk while searching for a prowler.

Police said the man was taken into custody after grappling with Const. Donald Knowles. The constable's revolver fell from his holster and a second policeman, Detective Robert McCarron, shot the man in the leg.

Police said they believe the wrestler is the same man who escaped when knife officers

halted a stolen car earlier in the day and took a youth into custody.

The prowler was reported by Mrs. A. H. Barrett, wife of a restaurant owner, who said police when a man tried to break into her home. Three carloads of police were searching the nearby area when constable Knowles discovered the man in the car trunk.

In custody are Frank Eschoh, 29, of Quebec province and Henry Kleiss, 17, of Bradford, Ont.

Police said they have not decided what charges will be laid.

Dictator's Candidate Wins Easy Victory in Portugal

LISBON, Portugal (Reuters)— Premier Antonion Salazar's authoritarian government stood firmly in power today after Portugal's most hectic presidential election campaign in decades.

Salazar's hand-picked candidate, Rear-Admiral Americo Tomaz, swept to a landslide, three-to-one victory in the balloting Sunday after a frantic four-week campaign in which 200 persons were injured in rioting.

Gen. Humberto Delgado, Tomaz's opponent, conceded the Salazar regime in his campaigning. Voting was unusually heavy in the election, the first since 1926 in which candidates had stood against the Salazar government.

No incidents were reported during the voting. About 100 persons were arrested during the month of campaigning.

The election was held to name a successor to Gen. Francisco Craveiro Lopes, who was not nominated to stand again after his first seven-year term.

Another anti-government candidate was also in the race. He was Dr. Arlindo Vicente, a Lisbon lawyer. He said he would give his followers' votes to Delgado for the sake of a united opposition.

The newly-elected president has been navy minister in Salazar's cabinet for 14 years. Delgado is director of civil aviation in the Salazar regime.

Delgado repeatedly stated during the campaign that if elected he would dismiss the 69-year-old Salazar and restore fundamental democratic liberties.

Diefenbaker Calls for Better Economic Relations With U.S.

MIDDLETON, Conn. (CP) — Prime Minister Diefenbaker has called for better economic relations between Canada and the United States and made proposals for bringing them about.

The prime minister said, in an address at Wesleyan University here, that co-operation in defence is not enough. He spoke at ceremonies in which he was made a fellow of Wesleyan College.

He proposed that the two countries set up reciprocal legislative committees to improve relations.

He also recommended joint Canada-U.S. action on unemployment and the setting up of a NATO food bank. The bank would handle surpluses of farm products, ensure a food supply for Europe should war come and help needy "food-deficit" nations.

Information on the proposed committee on Canadian relations would be put forward in a report to the House of Representatives on foreign affairs committee. The report on Canada-U.S. relations had been prepared by Congressmen Brooks Hays and Chester and Frank N. Coffin of Maine.

Commented Mr. Diefenbaker: "I am sure that the British people of Canada would give the fullest consideration to any such study and a similar committee of Canadian parliamentarians who in periodic visits to our capital would enable us would do much to achieve suggested solutions to recurring problems."

He also said the U.S. disposal program for agricultural products "materially hurt" Canada economically. Difficulties in Canada-U.S. trading relations rose from Canada's continuing unfavorable trade balance, he said.

"We are united in our defences both in Europe and North America," Mr. Diefenbaker said. "Such unity of defence is not enough. We must have unity of defence action by economic co-operation."

"The relations between our two countries cannot be taken for granted. They require constructive, continuing and co-operative considerations."

He saw the food bank as a substitute for the "cold war" stockpile created by the U.S. disposal program through barter deals and subsidized sales. "What is in our opinion go beyond what is best and competitive."

The bank would be set up "to remove overhanging surpluses of wheat and other storable farm products . . . and assure that strategic reserves of these commodities will be available should war come." It also could help "food-deficit nations when in need."

"The U.S.S.R. appears now to be directing its major attention to the weakening of the free world on the economic front," he said.

"I believe that the nations of the free world will have to act co-operatively and effectively on economic matters, as they do in defence—that each of the free nations will have to refrain from action which will detrimentally weaken their partners in freedom's quest for freedom's survival anywhere in the world."

On education he said that though the West must encourage science it would be dangerous for its universities "to forsake the encouragement of the spiritual things and enthrone the machine."

Macmillan Asks For Closer Ties With States

INDIANAPOLIS (AP) — Prime Minister Macmillan has called for closer economic ties between Britain and the United States.

In a commencement address at De Pauw many artificial barriers to the free flow of money and trade in the free world."

Now that "we all face a common danger . . . the consequences must be the "keynote of the second half of the 20th century if the progress of humanity is to continue."

The prime minister goes by plane today to Washington for an informal conference with President Eisenhower and State Secretary Dulles.

In a 30-hour sweep through Indiana official and social affairs, Macmillan emphasized these points:

1. He considers Premier Couches de Gaulle of France a friend and believes that great France will solve many of its problems under de Gaulle's leadership.

2. "Prosperity is not indivisible; there are too many artificial barriers to the free flow of money and trade in the free world."

3. Canadians are "very intelligent people (who) will not be content forever with what is called the Canadian dependency."

4. "In the long run, the free world will defend itself and win adherence to itself because the way of life gives a better way of living, a fuller life to the individual, security and hope."

Shocking Total of 66 Persons Die in Accidents

Worst Toll Since Second World War

By THE CANADIAN PRESS

Canada counted the shocking total of 66 persons killed in weekend accidents.

It was one of the worst weekend tolls since the Second World War.

The figure was double last weekend's total of 30 and approached the 84 killed in the Victoria Day holiday three weeks ago.

A Canadian Press survey, covering the 54 hours from 6 p.m. Saturday to Friday to midnight Sunday, found 31 killed in traffic accidents, 26 drowned, one dead in the air and five killed in various other mishaps.

The Victoria Day survey, in comparison, covered 78 deaths.

The toll did not include five RCMP officers drowned when their outboard patrol boat capsized on Lake Simcoe, 40 miles north of Toronto. Persons killed in the course of their work are not counted in the totals.

It did, however, include:

Three men and two women killed at Ste. Germain Station, Que., when their car crashed into a standing tractor-trailer truck;

FOUR DIE IN NFLD.

An elderly couple and their two grandchildren drowned when a motorboat capsized at Grand Pond, near Placentia, Nfld.;

A father and his teen-age son and daughter drowned when their boat capsized on Lake Nipissing, near Sudbury.

Of the weekend's 31 deaths, Six-teen were killed on the roads. Eight were drowned, one was asphyxiated in a fire and three died by other causes.

Ontario had 18 dead—seven in traffic, 10 drowned and a baby suffocated when he pulled a plastic bag over his head.

Saskatchewan has six dead—four in traffic, two drowned and a child crushed under a tractor.

Quebec, Alberta also had six dead—three in traffic and three drowned.

British Columbia totalled three dead — two in traffic and one drowned. Manitoba has two—both traffic. Nova Scotia has two, one drowning and New Brunswick one traffic death.

Ontario deaths

Thomas Bethune, 48, his son Donald, 16 and daughter, Judy, 14, all of Falconbridge, a mining town, northeast of Sudbury, after a boat capsized on Lake Wahnapitae, near Sudbury.

Provincial police at Orillia reported the drowning of Beverly Green of Toronto who was swimming Saturday while fishing at Morrison Lake, 10 miles north of Orillia. Police said Graham Green, 12, also in the boat, had found overturned. The dog swam ashore.

(Continued on page 15)

THEY FELT GYPPED

BEVERLY HILLS, Calif. (AP)— Two Greenwich, Conn., residents, the three-bedroom, three-bath hilltop home with swimming pool and view of the Los Angeles area for $1,000 a month. Only the ad in the newspaper failed to say that "What a weekend." he sighed Monday. "When I built them the rent is $1,000 a month they're impudent. They seem to feel they've been gypped out of a bargain."

Lifebelts Float Three to Shore But Only One of Them Still Alive

SUDBURY (CP) — A 15-foot boat he had built during the winter capsized in high winds Saturday, drowning Thomas Bethune, 52, of nearby Falconbridge, and two of his three children.

A fourth person in the boat, John Fewell, 16, also of Falconbridge, was pulled to safety by a rescue party after four fishermen on Lake Wahnipitae, near Sudbury, saw the boat overturn.

Jewell said the outboard motor boat was about a half-mile from shore when it began to capsize. He said he and the Bethune children were all sitting on one side of the boat for a time before huge waves tore loose their grip. The boat, with only the outboard motor, was found later lodged on a sandbar about 200 feet from shore. The Bethune family dog, which had been in the boat, is not been found.

Mr. Bethune, a safety engineer at the Falconbridge mine, is survived by his wife, recently released from hospital after a serious illness, and a daughter, Dianna, 9.

Falconbridge Nickel Mine's first aid team, revived Jewell while one of his companions went for help. Police launched a search on the Bethunes.

Two days later the elder Bethune's body was found a half-mile down the beach in deeper water. He was still in the boat with the four who was not wearing a life jacket.

Jewell said the outboard motor boat was about a half-mile from shore when it began to capsize. He said he and the Bethune children were all sitting on one side of the boat for a time before huge waves tore loose their grip. The boat, with only the outboard motorsower motor, was found later lodged on a sandbar about 200 feet from shore. The Bethune family dog, which had been in the boat, is not been found.

Mr. Bethune, a safety engineer at the Falconbridge mine, is survived by his wife, recently released from hospital after a serious illness, and a daughter, Dianna, 9.

Violence, Worst In History, Hits Island Of Cyprus

Greeks Call General Strike in Protest

NICOSIA, Cyprus (Reuters) — Renewed violence hit this troubled island today after the worst weekend of Greek-Turkish fighting in Cypriot history.

A Turkish-Cypriot and his wife were found shot in the Greek quarter of Nicosia. The wife died later in a hospital, bringing the death toll since Saturday night to five. At least 70 were injured in the weekend riots.

British officials put Nicosia under curfew shortly after an overnight ban was lifted. British troops were in force through-out the island, especially on the dividing line Greek and Turkish communities.

GENERAL STRIKE CALLED

Greek-Cypriot leaders called a three-day general strike to protest the Turkish riots and attacks on the Greeks. The island's second largest city, Limassol, was at a standstill as Greeks observed the strike. Turkish-Cypriots ringed the Turkish quarter.

Greek-Cypriots in this British colony of 500,000 have demanded Turks five to one. The Greek population has been campaigning for political union of the island with Greece.

The Turkish-Cypriots are opposed to "enosis" — union with Greece — and demand partition of the island between the two communities.

In Athens the Greek government announced that it has asked for immediate meeting of the NATO council in Paris to discuss "the new vandalisms," which, it said, "are part of a Turkish plan to exert pressure on the British government at a time when the British declaration on the future of Cyprus is expected."

In Istanbul, Turkish tanks and bayonet-armed troops broke up a mass demonstration of thousands marching toward the Greek and British consulates.

The demonstration took place after 300,000 Turks gathered for a rally to demand that Cyprus be partitioned.

Stevenson Wants United States to Assist France

EAST LANSING, Mich. (AP)— Adlai Stevenson has called for United States aid to France in solving her present crisis.

The Democratic presidential candidate of 1952 and 1956 also urged a Marshall plan approach to free world economic problems, and acceptance of Russia as a world equal of the West.

In the next six months, Stevenson told a Michigan State University audience of businessmen, "France can founder on the economic rocks.

"We can help prevent that," he said in a prepared address. "And we can also help France work out a sensible economic and government system for North Africa—for Morocco, Tunisia and Algeria—and thereby advance orderly progress and peace in an area so vital to our security and so vulnerable to Arab nationalism and Communist influence.

"What we want is a co-operative France. That is what we . . . will give is co-operation, help and encouragement in meeting this crisis, which also is a crisis for all free democratic governments."

RED TRADE ATTACK

Stevenson said the free world's economic growth and Soviet trade onslaught which may have pushed into its last stages "the old worldwide, self-regulating international banking and investment system which the Americas have largely taken for granted."

A committee of experts, comparable to the group that laid the groundwork for the Marshall plan in 1947, should be set up to devise "joint measures to secure sustained free world growth, joint negotiations for a low tariff or free trade area, joint undertaking of a long-term aid and investment program, and joint agreement on adequate working capital for trade and convertibility."

The free world is faced with "a creeping crisis" in that economy from an expanding Soviet trade drive with its new Communist techniques of grants, aid, loans, know-how, technical assistance, raw materials at cut-rate or plain dumping, all best to a "single-minded purpose—the enforcement of Communist power."

Marciano Will Be Co-Partner In Project

PICKERING, Ont. (CP)—Former world heavyweight boxing champion Rocky Marciano announced he will be a co-partner in a real estate development project in this area.

With him will be Canadian television personality Fred Davis in a close friend, and owner of Time Ridge Farms, a 600 acre village five miles east of Toronto.

Marciano gave no details about the development, except that it may involve construction of homes. The Chicago Sunday night bout said he will be in a few days to close the deal.

City and District News

MRS. ERIC HILLBIG WINNER OF CAR

Mrs. Eric Hillbig, 67 Bertram Blvd., was the winner of a 1958 Plymouth 4-door sedan, drawn at Mallon on Saturday. Usually, the draw was sponsored by St. Joseph's Holy Name Society. Incidentally, Mrs. Hillbig was attending the graduation of her husband's nurse in Sudbury at the time of her good fortune.

COOL WEATHER AFFECTS HAY CROP

The cool weather throughout the month of May and early June will result in the hay crop being later this year according to district farmers.

"It just hasn't been good hay growing weather," they say.

And when oil heaters continue to kick on during chill June mornings, their city cousins will be inclined to agree.

GASHED LEG ON PICKET FENCE

James Morgan, 11, son of, Mr. and Mrs. W. P. Morgan, 402 Bleecker Ave., is in Belleville General Hospital today resting comfortably after receiving a deep severely lacerated right leg on Sunday.

Mrs. Morgan said today that her son had told her he was playing on a picket fence, when he slipped and gashed his leg near the hip. Two playmates left him home and his parents hushed him to the emergency clinic at the hospital.

Mrs. Morgan recalled that some time ago James fell on a pile of broken concrete and also had a quite badly.

"That time," she said, "the doctors had to stitch inside the face stitching outside. It seems to me that Jimmie is a mass of scars. He's always getting into something."

FIRST BAND CONCERT GREATLY ENJOYED

Considering the chill weather and threat of rain, the first open air band concert, of the season, held yesterday afternoon at Victoria Park attracted a surprising number of listeners.

Alderman Les Digby, chairman of the city council band committee, said the park area was well lined with cars, while the park benches were well occupied and a few young families enjoyed the concert from the cool comfort of a spot on the grass.

After introductory remarks by Alderman Digby, the concert season was officially opened by Mayor Gerald Ryder after which Bandmaster Al Cooper and his Belleville Municipal and Kinsmen Band took over.

Next week's program will be by the Salvation Army Band.

Rossmore Man Builds Plane, Makes Flight

A young man from Rossmore found a pleasant and adventurous way to spend a winter and an even more exciting and pleasing way to spend the summer, when he built himself an airplane.

William Boulter started work on his "flying machine" early last winter and Sunday it took to the air for the first time with Bill at the controls. He made his first ascent at the Quinte Flying Club, while dozens of people stood on the ground to watch how he made out.

The young man came to The Ontario Intelligencer last year before Christmas and said he was building an airplane in the garage behind his home at Rossmore. He had bought the fuselage of a wrecked Aeronca Chief Plane in Campbellford and, after doing considerable repairs, mounted the engine in his own creation and built a new airframe.

Bill bought the wrecked Cub for "next to nothing" and put money in building his plane. All told, the cost, as told to this newspaper last winter, amounted to under $1,000.

The young man would be held in Toronto at the time of Convocation exercises, but that arrangements had been made to have the school represented.

In introducing the visiting preacher for the occasion, Dr. MacKenzie spoke of remembering with deep affection Dr. Grant, who was minister of his home church, and recalled his eloquent and inspired preaching. From Cape Breton, Dr. Grant was a graduate of Pine Hill Divinity Hall. Dr. MacKenzie considered it an honor and personal delight to welcome the distinguished guest and await with his message with interest and great profit.

Dr. Grant acknowledged the warmth of his welcome and spoke of the affectionate regard in his personal pride of Dr. MacKenzie. Speaking of introductions he mentioned that they were not too overwhelming "if you don't know." The speaker joined in congratulating the students and expressing the hope that their happiness and real success would attend them as they embarked on their chosen roads to pursue further studies or take their place in a disturbing but stimulating world.

Choosing as his text, "Ye that are near unto the Lord," the speaker noted that there is a tendency to softpedal religious distinctions.

CLING TO ENTHUSIASM

"You may work up to a frenzy over a sports event or over patriotism, but not over religion," said Dr. Grant. "There is some wisdom and common sense to that, we do not consider it a paroxysm is an infallible sign N.Y.

Baccalaureate Service For Albert College Students, Staff, Board Impressive

"Each stage of life has its own characteristics and one character-istic that is particularly precious and all too often lost is the quality of enthusiasm. Cling to the enthusiasm of youth and cultivate it. moral enthusiasm, intellectual and religious enthusiasm," Rev. Dr. D. B. Hart of St. Andrew's United Church, Montreal, told the congregation at the Baccalaureate service of Albert College in Bridge Street United church on Sunday morning.

The impressive service marking the one hundred and first year of the founding of Albert College saw the student body enter in procession, preceded by the clergymen, members of the teaching staff with gowns and hoods, representatives from the Board of Governors, the graduating class robed in blue and gray gowns and mortarboards, and the students, who filled the entire centre section of the church.

Below the rostrum two bouquets of spring flowers and two impressive pieces were placed adding to the beauty of the historic old church. With Mr. S. Ash at the piano and at the organ the choir sang the Introit, "The earth is the Lord's and the fullness thereof." The solo part in the anthem, "Father unto Thee we offer" was sung by Miss Mary M. Jamieson. The stirring and triumphant anthem, "Glorious Things of Thee are Spoken" by Haydn gave a standard offering at this service and its presentation was as powerful as anticipated. The organ prelude was "Intermezzo" by Dubois and the postlude was "Toccata in F".

The invocation and prayer were offered by Rev. Dr. J. M. Snyder, minister of the church, and the reading from the Bible, a passage from Job, was given by Judge J. C. Anderson, newly-appointed chairman of the Board of Governors.

EXPRESSES THANKS

Rev. Dr. A. D. MacKenzie, Principal of Albert College, expressed appreciation to the minister of the church for the kindness, courtesy and the kindness and assistance the school had always received from Bridge Street church members as well as the other churches in the city. Mr. MacKenzie mentioned the fact of the passing of Rev. Charles W. Gordon, a former principal of Albert, and said that it was a matter of deep concern to the trustees, when word was received in Toronto at the time of Convocation exercises, but that arrangements had been made to have the school represented.

In introducing the visiting preacher for the occasion, Dr. MacKenzie spoke of remembering with deep affection Dr. Grant, who was minister of his home church, and recalled his eloquent and inspired preaching. From Cape Breton, Dr. Grant was a graduate of Pine Hill Divinity Hall. Dr. MacKenzie considered it an honor and personal delight to welcome the distinguished guest and await with his message with interest and great profit.

Dr. Grant acknowledged the warmth of his welcome and spoke of the affectionate regard in his personal pride of Dr. MacKenzie. Speaking of introductions he mentioned that they were not too overwhelming "if you don't know." The speaker joined in congratulating the students and expressing the hope that their happiness and real success would attend them as they embarked on their chosen roads to pursue further studies or take their place in a disturbing but stimulating world.

Choosing as his text, "Ye that are near unto the Lord," the speaker noted that there is a tendency to softpedal religious distinctions.

CLING TO ENTHUSIASM

"You may work up to a frenzy over a sports event or over patriotism, but not over religion," said Dr. Grant. "There is some wisdom and common sense to that, we do not consider it a paroxysm is an infallible sign of religion, but beware that over-cautiousness does not grow into indifference. Cling to your convictions and cultivate them.

"The world is rocking on its foundations. Your parents never saw, and your grandparents never dreamed of, the things that are happening today, but it is the world in which you have to live.

"The young people of today have a different kind of question to face, a different generation of the whole world. There are some who face it with dread. It is not a question of failing to find work, there is work to be found, it is a factor of a different dimension, they are not sure where they are going. They have in mind a different kind of vision, a schism of the soul. I can understand the bewilderment of young people and their saying, 'Is it worthwhile?' Its very materiality challenges the spirit of youth. The world is good and it is bad. It is rich in untold treasure, rich in the intellectual culture of centuries, rich in material gifts, blessed in cultural opportunities.

"But the modern country piled their unremitting tasks building homes, schools houses and churches and maintaining our faith and our civilization. Their sons and daughters have broken down the barriers of caste, opened the gates of knowledge and made the common man to blossom as a rose. That is your heritage today, not because of anything you have done, and do not belittle what they have done for you. Yours is a new access where they have failed. We have to confess that with all their freedom and all their gifts failed to achieve real peace, contentment and happiness. What have we failed? Not because we lacked skill and knowledge, but because we stressed so much the quality of the mind that we left the heart to belittle thought to spiritual qualities. We must be governed by the heart as well as the mind.

NOT ENOUGH THOUGHT

"We who are older can see that we have been neglecting something. Thought is important, man cannot live by bread alone. Man was made for God and the deepest things in man demand God. We have not given enough Christian emphasis. We have not enough to be a good craftsman. Where man has failed is that man's control of himself has not kept pace with his control of things. Yours is the task to profit by the errors of those who have gone before and succeed where they have failed.

"To serve the Lord cuts right across our self-centred life. It is difficult, not easy. It is a challenge to our manhood and womanhood. It demands all the strength of character we possess. The greatest disgrace in history is yet to be written, and it is up to you to write it for the benefit of the race, human race. Active service in His kingdom is a grand privilege ever to the heart of man. Our greatest hope lies in the brilliant dawning of souls of faith to provide a rich inheritance."

SEES DEATH DUE

LINCOLN, Neb. (AP)—Charles Starkweather, 19-year-old killer who has admitted involvement in 11 slayings, was sentenced Friday to die in the electric chair Dec. 12. District Court Judge Spencer, who presided at Starkweather's trial, fixed the date for the carrying out of the sentence.

PLANE TAKES OFF

BRANTFORD (CP)—A United States Air Force C-119 Flying Boxcar which made an emergency landing at Brantford airport Friday took off Sunday for its home base at Niagara Falls, N.Y.

Watching Handicapped at Work

Mrs. John Clarke, Mrs. J. Slater and Mrs. N. Stringer, of the Belleville Kinsette Club are seen talking with Keith Whalen, one of the handicapped workers at "Operation Reliance," the new factory started by the March of Dimes last January to employ physically handicapped workers. The "open house" was arranged at the end of the annual meeting of the March of Dimes held in Toronto last Monday.

Obituaries

MISS P. A. E. HOWELL
Ameliasburg

A native of Prince Edward County, Miss Phoebe A. E. Howell of Ameliasburg, died this morning in Belleville General Hospital, following an illness which lasted some months.

Daughter of the late Mr. and Mrs. A. Howell, deceased, leaves one brother, Wellington of Amelisburg; four nieces, Mrs. Cassie Pinkerton, Mrs. Mabel Campbell and Mrs. Jessie Hogg, all of Detroit, and Mrs. Gerald Young of Winnipeg.

Miss Howell attended Centre United Church.

Resting at the Thomas C. Thompson Funeral Chapel, the funeral notice appears elsewhere in this edition.

BARRY ALLAN GRAHAM

MADOC — The funeral of Barry Allan Graham, two-year-old son of Mr. and Mrs. Leonard Graham was held on Friday afternoon June 6th from the residence of his parents to Cooper United Church where service was conducted by Rev. Rev. E. V. Gates. The church was filled to overflowing by the many relatives and friends in attendance and there was a profusion of beautiful floral tributes. Interment took place in Cooper Cemetery.

Bearers were: Harold Bailey, Donald Bailey, Douglas Rollins and Robert Chapman. Mr. James Hutchinson and Ross Bailey acting as flower bearers.

MRS. D. S. McISAAC
(St. Andrew's, Nfld.)

Requiem Mass was celebrated this morning in St. Michael's Church for D. S. McIsaac, of St. Andrew's, Newfoundland, who died suddenly on Sunday at the home of her daughter, Mrs. Ronald Rompen, 29 Earl St., Belleville. Father Dean, R. J. Garvin conducted the service. Interment was in Newfoundland. Mrs. McIsaac was 66.

Bearers were Mike Nathan, Clarence Hall, C. E. Dixon, C. L. Coulson, and James Peterborough.

Born Kathleen Lawrence to the late Mr. and Mrs. Henry Lawrence in Placentia, Mrs. McIsaac was the wife of D. S. McIsaac. Besides her husband, Mrs. McIsaac leaves seven daughters, Mrs. Francis (Agnes) McKenzie and Mrs. Eric (Veronica) Coffin of Nova Scotia; Mrs. Leo (Ruth) Bunny and Mrs. Albert (Rose) Corkum of Halifax; Mrs. Robert (Muriel) Paddock of Peterborough; Mrs. Ronald (Mary) Rompen, Belleville, and Mrs. Anthony (Noreen) Mitchell, Glasgow, Scotland; three sons, Archie and Jack of Newfoundland, and Jerry of RCAF Station, Portage La Prairie, Manitoba. Two sisters reside in Halifax.

While in this city, Mrs. McIsaac attended St. Michael's Church.

BERNHARDT A. PIEPER
R. R. 5, Belleville

A native of Germany who came to the Belleville district seven years ago, Bernhardt A. Pieper, R. R. 5, died this morning in Belleville General Hospital at the age of 53 years. Mr. Pieper had been ill for a year.

Son of Mrs. Emilie Pieper and the late Julius Pieper, deceased is survived by his wife, the former Gertrude Hellwig; three sisters, Mrs. Heinz (Melitta) Neumann of Scarboro; one son, Kurt, a student at Queen's University.

Mr. Pieper had been a farmer and attended the United Church. He was born in Danzig, Germany.

Resting at the Grant Funeral Chapel, the funeral announcement appears elsewhere in this edition.

MRS. MICHAEL SULLIVAN

Mrs. Hanora Sullivan, 91, of Frankford, Ont., widow of Michael Sullivan, died on Monday, June 8, at the home of her daughter, Mrs. Earl Baker, of Frankford, following a long illness.

Mrs. Sullivan was born in Peterborough county, daughter of the late Mr. and Mrs. Michael Heffernan. She lived in the Frankford district most of her life, and had been in ill health for some time.

She attended St. Francis' Roman Catholic Church, Frankford, and was a member of the Catholic Women's League and the League of the Sacred Heart.

Surviving are two daughters, Mrs. Earl (Mary) Baker, and Mrs. Catherine Hopkins, both of Frankford; one brother, Harold Sullivan, of Kingston. She was the last of her family.

Resting at the Grant Funeral Home, Frankford; funeral announcement appears elsewhere in this issue.

JOHN ARMSTRONG BROWN
Tweed

TWEED — The funeral of John Armstrong Brown, Tweed's oldest resident, who died on Friday, the W. M. Bush Funeral Home on Thursday, June 5th, with the Rev. J. E. Hunter, rector of St. James' Anglican Church, officiating. Interment took place in the parish cemetery. The bearers were Harold Varty, Earl Varty, Lawrence Albert, Earl Latta, Sam Dafoe and Sam Jones.

Mr. Brown was the son of the late William Brown and Dorothy Armstrong, and was born in Ireland to take up farming in Canada long ago. He was the last remaining member of his family and died at the age of 95 and would have been 96 in December 10th of this year.

He lived in the Belleville General Hospital on June 3rd, after being a patient there since May 12th, and prior to that date Mr. Brown had been very active and maintained his own large dwelling on Arthur Street, looking after his every need himself, was a great gardener and an interesting talker. His wife predeceased him in 1940, and was the former Alice Porter. Farming was a farm known as the Porter farm previous to their moving to Tweed during World War I.

Mr. Brown is survived by two sisters-in-law, a brother-in-law and several nieces and nephews.

Mr. Brown will be greatly missed in the village where he was so well known and had a host of real friends and neighbors.

Police Blotter

Theft of an outboard motor from a boathouse on the bay front was reported to city police over the weekend by Douglas Archer, Newberry Street. The motor and a quantity of gasoline were taken from the boathouse on South George Street.

Also police are investigating the theft of money from Robt. Cook service station on Canniff-ton Road. The money had been placed in a bag and left inside the service station while the attendant waited on a customer. Part of the money was later found to be missing.

Police questioned three youths but they were allowed to go after interrogation.

And a Prec Police boy who ran away from home changed his mind on reaching Belleville and took police to call his mother to come and pick him up.

Police Constable McColl of the local police department is minus a tooth today after a drunk took a swing at him. Police said the man would be charged with assault of a police officer.

Drunks were a common occurrence over the weekend with police reporting close to half a dozen such occurrences.

Liberals Fight Hydro Is Claim Of R. Macaulay

ATHERLEY (CP)—The vice-chairman of the Conservative Hydro Electric Power Commission says Ontario Liberals have been fighting Hydro since the 1930s.

Robert Macaulay told an Ontario Young Progressive Conservative Association leadership conference Saturday the Liberals "have taken every opportunity to criticize" Hydro since the Second World War and "apparently intend to continue to destroy its integrity."

He said the Liberals had been "throwing spittle" at James Duncan. "The spittle never reached us, ever had."

The Hydro remains it is the best hydro organization in Canada and it will continue to be."

HIT AT COP TOO

Mr. Macaulay, a minister without portfolio in Premier Frost's Ontario cabinet, said the CCF Party "represented all sorts of things not on campaign platforms.

Under a CCF government it would no longer be possible for a father to sell property to his children.

"The CCF would destroy one of the greatest drives of man, the urge to save. Capital can only come from somebody's savings and this the CCF would destroy.

"You don't read that on their campaign blotters but it is there nonetheless. They don't tell you they will destroy personal initiative but they will."

DOUGLAS JUNG THERE

More than 100 delegates attended the conference at this Ontario Counties resort. For many, a highlight was meeting national president Douglas Jung, member of Parliament for Vancouver Centre.

Premier Frost, about 50 miles away at home in Lindsay, did not attend. Instead he sent a message that was played on a tape recorder.

John Yaremko, minister without portfolio in the Ontario cabinet, said the convention so soon after two federal victories was significant.

"This gathering indicates an anxiety on the part of the young members to implement the promises made in these campaigns."

BIRTHS

LEWIS. — Mr. and Mrs. V. L. Lewis are happy to announce the birth of a daughter, Deborah Leslie, on June 6th, 1958, at the Belleville General Hospital.

LOUCKS. — Mr. and Mrs. Orie L. Loucks, (nee Elinor Brandt), announce the birth of a son, Douglas Brandt, on May 7th, 1958, at Methodist General Hospital, Madison, Wisconsin.

MOT — Richard Moy, son of Mr. and Mrs. Ernest Moy, of Tweed, are happy to announce the birth of their daughter, Mrs. Ken Hall, on Friday, June 6th, 1958, at the Belleville General Hospital.

DEATHS

McISAAC. Kathleen, — At the residence of her daughter, Mrs. Ronald Rompen, 29 Earl St., Belleville, on Sunday, June 8th, 1958, Kathleen Lawrence, beloved wife of D. S. McIsaac, age 66 years.

Funeral was held from the Thomas C. Thompson Funeral Chapel on Monday, June 9th, at 2.30 p.m. Father Dean, R. J. Garvin officiating. Interment in Newfoundland.

SULLIVAN, Hanora. — At the home of her daughter, Mrs. Earl Baker, Frankford, Ont., Sunday, June 8th, 1958, Hanora Heffernan, widow of Michael Sullivan, aged 91 years.

Resting at the Grant Funeral Home, Frankford, for funeral Wednesday, June 11th at 2.30 p.m. Rev. E. C. Dyer officiating. Interment Belleville Cemetery. 79-21

PIEPER, Bernhardt A. — At Belleville General Hospital, on Monday, June 9th, 1958, Miss Phoebe A. E. Howell, Ameliasburg.

Resting at the Thomas C. Thompson Funeral Chapel, Everett Street, Belleville. Funeral service on Wednesday, June 11th at 2.30 p.m., the Rev. E. C. Dyer officiating. Interment Albury Cemetery. 79-21

IN MEMORIAM

BARLOW. — In loving memory of James and Martha Barlow; died June 11th, 1954. Mother died 1936.
Memory lingers sweet and fond
Of loved ones laid beneath the sod
Dearest ones we loved so well
Left this world and a better.
Sadly missed and remembered by the family.

TORONTO STOCKS

TORONTO (CP) — The stock market, with the exception of western oils, moved ahead today in moderate morning trading.

Industrials, closing at a 1958 high Friday, pushed their index up almost one-half point. Base metals, gaining just under a point, reached a 1958 high, passing a mark of 154.88 set June 4. The index now stands at 153.36. Golds were narrowly ahead while western oil slipped almost a half point.

Volume at 11 a.m. was 644,000 shares, slightly less than Friday's 651,600 at the same hour.

Most industrial gains were with ½ point. Among ½ were Algoma and Imperial Bank.

Hollinger, Brabrone and Giant Yellowknife were higher among golds but most issues were unchanged. Base metals climbed behind Noranda, up 1 at 64.

Western oils slipped off in closing trading Friday, and continued down today. However, Home Oil A and B, the big losers Friday, were stronger.

TORONTO LIVESTOCK

TORONTO (CP)—The demand was improved today on a lighter opening offering of slaughter cattle.

Steer quality was improved with top grades selling 50 cents a hundredweight higher. Heifer and yearling prices were unchanged. Cows were 50 cents a hundredweight higher and bulls were steady. Calf, hog, sheep and lamb prices were unchanged. Sows were $1 lower.

Included in the cattle offering were 1,200 replacements.

Livestock on offer: Cattle 3,800; calves 574; hogs 307; sheep and lambs 133.

Slaughter cattle: Choice steers 24.50-25 with one load at 25.50 and one outstanding load of weighty cattle at 26; good 23.50-24.50, medium 21-23, common 19-21; good heifers 22-22.50 with an odd top to 23; medium 20-22; common 19-21; choice fed yearlings 24-25 with some sales to 25.50; good 22-24; good cows 18 with sales to 18.50, medium 17-18; common 15-17; canner and cutter cows 13-15; good heavy bologna bulls to 20.50; common and medium 15-20.

Replacement cattle: Some medium stockers were 23-26.

Calves: Good vealers 31.50-33.50; medium 26-30; common 20-25; boners 12-20.

Hogs: Grade A 34.50; heavy sows 25; stags 20.

Sheep and lambs: Spring lamb prices ranged from 26-30 according to quality; sheep 4-10 with some good light sheep at 12.

PRODUCE MARKET

TORONTO (CP) — Churning cream and butter against prices were reported unchanged from Friday.

The egg market was reported quiet with receipts adequate for a light demand.

Country dealers are quoted by the federal department of agriculture as follows, delivered Toronto, in fine cases: A large 41; A medium 38; A small 33; B 30; C 25. Wholesale to retail: A large 46; A medium 43; A small 38; B 33; C 28.

Butter prices: Canada, first grade: Ontario tenderable 64-64¼; non-tenderable 62¾ -63 (nominal); western 62 (nominal).

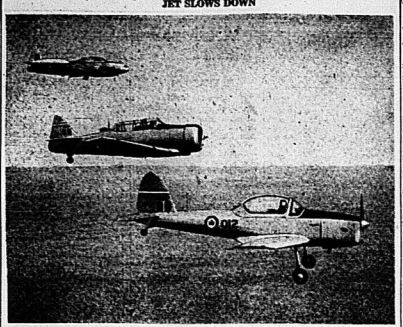
DOLLAR RATE

MONTREAL (CP) — The U.S. dollar was at a discount of 3⅝ per cent in terms of Canadian funds near noon, $2.97, today. Friday's noon rate was 96¼ cents. Pound sterling $2.70⅝, up 1-16.

MOUNTAIN ICE

The Columbia Icefield near Lake Louise in the Canadian Rockies covers 120 square miles.

JET SLOWS DOWN



A T-33 Silver Star jet (above) at Trenton shows it can also fly as slow as the Harvard (centre) and Chipmunk (bottom.) The small flaps seen under the jet help to slow it down and are normally used to break the wind from the wheels when they are being lowered for landing. All three of the above planes will play an important role in the air show which is planned for this Saturday at RCAF Station Trenton when the air force will celebrate its 12th Air Force Day. Display of Two Stations Consolidated for Occasion

Beamish Store Gutted by Fire To Open June 26

TRENTON — The Beamish store in Trenton is slated to open on June 26 in two weeks after a $250,000 fire forced the store to close and almost completely rebuild.

The top floor of the building was gutted and water and smoke damage to the lower floor made redecorating and much rebuilding necessary.

Painters have nearly finished in the main part of store and the clerks have been brought in to clean up the counters and the various racks used for goods display. The electricians have only a few more of the large ceiling lights to install.

Some stock has arrived and will be placed on the counters when they are ready. The store plans a big re-opening sale when it begins operations.

Upstairs the portion of the walls which were saved are gradually being closed in and this will be used for a store room. This will be at the back of the building and here the heat of the fire had not destroyed the brick and cement blocks as much as at the centre and front of the building.

Steel girders have been put into place and workers of the Foley Construction Company, Kingston are nailing down the planks which will see as a base for the roofing material.

The rest of the upstairs section, which formerly housed apartments, has been roofed and it is understood the company does not plan to rebuild apartments above the store next year as had been previously thought.

FIRES ONLY MINOR

The Trenton fire department was called out twice during the weekend but both fires were of a minor nature and no damage was reported in either case.

The first call came in from Canal Street where a grass fire, believed set by children, was burning on what is known as "the island". It is a section near the river bank and just east of Canal Street.

The fire was not a threat to any building but nearby hydro poles could have been damaged if the blaze had not been put out. Children aided the firemen.

Capt. F. Sager and Lt. Gerald Lewis answered the call in the pumper truck and were back in the station shortly after they had made sure there was no further threat from the blaze.

Elmer Stacey, engineman, answered the second call which came in at 8.09 p.m. Saturday from the home of V. Sinclair at 132 Sidney Street. An unruly oil burner was causing trouble but was quickly corrected by the fireman.

Fifty Youths Attack London Police Officer

LONDON, Ont. (CP)—Members of a jeering crowd of more than 50 youths pounded on an Ontario Provincial Police constable in south London Sunday night.

Constable George Dougherty was attacked after he had a milling crowd of youths to "move on". Several grabbed his arm and held pressure on his neck.

Cpl. Bob White, who approached the crowd from the opposite side of the street radioed for more police and went to Dougherty's aid.

As the two policemen fought, more than 100 OPP officers were routed to the scene. Motorcycles, squad cars and paddy wagons jammed the streets and through traffic ground to a halt. A crowd of about 500 appeared on the scene.

After police reinforcements arrived the fighting ceased.

Five Occupants Of Car Killed

STE. GERMAINE, Que. (CP) —Five occupants of a car were killed Sunday night when their vehicle piled into the rear of a parked truck whose driver was apparently with a provincial police officer. The accident occurred near this community 55 miles of Quebec City.

Police identified the victims as Jean Guy Fortier, Jules Fortier and Robert Fortier, of nearby Ste. Justine, and Elizabeth Bilodeau and Lucille Lavallee, of nearby Ste. Rose. All were believed in their twenties.

The car crashed into the truck platform while Constable Joseph Bedard was talking to the truck driver, police said. Bedard and the driver—whose name was not available—escaped injury.

Police said four of the victims were killed instantly and the fifth died while en route to hospital in an ambulance.

Woman's Head Hits Windshield

TRENTON—Mrs. I. J. Dreedale, 39 Wragge Street, was injured Saturday night when her head was driven through the windshield of the car being driven by her husband.

RCMP reported to the police station that he was proceeding through the intersection of Dundas Street West and Front Street when another car passed him and cut him off. He said he was forced to put his brakes on so fast to avoid an accident that his wife was driven forward and into the windshield.

He told police he had obtained the licence number of the other car and that Phillip Kowk of 213 Namao Street, who was driving behind his car, was a witness to the incident.

There was only one other mishap during the weekend and it was of a minor nature with fenders being all to suffer damages.

STOLEN CAR DAMAGED

Early Friday morning a stolen car was involved in a mishap at the corner of Dundas West and Dufferin but the operators of the stolen car has fled before the police arrived at the scene.

Police investigation found that the car belonged to Fred Byres of Port Hope and had been stolen at Welland, Ontario. The left front fender of the car was damaged and estimated at about $35.

The second car, operated by James L. Reilly of Cold Lake, Manitoba, was also damaged to the extent of $35. It reported he had stopped for the red light on the corner and was facing north on Dufferin, the driver of the other car turned right off Dundas in a southerly direction on Dufferin and had collided with on his left front fender.

Constable Fred Stokes of the Trenton Police Force investigated the accident.

Picnic Tables Nearly Ready To Be Placed

TRENTON — Local firemen have completed the construction of 13 new picnic tables for the Bain Memorial Park and they will be taken out after the paint has been applied.

The former tables were destroyed earlier this spring when a grass fire set the barn they were stored in afire and levelled it and all the equipment stored there.

The equipment was covered by insurance and the company recently gave the firemen the okay to replace the tables. The order for the lumber was sent in to the Beaver Lumber Company in Trenton, where it was cut in specific lengths.

Taken to the fire hall the firemen assembled them, taking about two days, and have them piled inside the station ready for painting.

The tables will be given two coats of grey paint and then they will be taken out to the park and set up.

Care of the Bain Memorial Park has been in the hands of the local fire department for the past two years and they have taken it over for a five-year period. Work at the park so far this spring has included the creation of ball diamonds, erection of the backstops for baseball and goal posts for the football field. Brush has also been trimmed and grass cut. The firemen have a small tractor at the park to help them with the heavier work.

Chief, Engineman To Visit Plant In Columbus

TRENTON — Fire Chief Clarence Orser and Engineman Cecil "Jiber" Ellis left early this morning for Columbus, Ohio, where they will visit the plant of the King-Seagrave Company.

It is the first of a series of trips the chief and his men will make to various companies to determine the aerial-ladder and combination pumper which will be purchased for the town.

The next trip will be to Montreal where it is expected the chief will be accompanied by Councillor Lloyd Worrall and Lt. Ger-

Oldest Engineer Dies

MONTREAL (CP)—Louis Stanislas Parizeau, Canada's oldest professional engineer died at his home here Saturday night at the age of 101.

Born at nearby St. Martin in 1856, Mr. Parizeau served with the federal department of railways and canals for 53 years until his retirement in 1930.

Develops New Duct

Mr. McIlquham shown beside new type of heating and air-conditioning unit, which is resting on a conventional type. Chief noticeable differences are the rounded corners and inside locking arrangement.

Develops New Type of Ducts For Heating

A new small industry has come to Belleville in the form of McIlquham Heating Equipment Company, located at 15 North Park Gardens. Head of the company is William A. McIlquham, the man who has developed a new type of ducts for heating and air conditioning systems called "Freeway."

Designed to give smarter appearance, the new type ducts are now being produced and installed in Belleville. The new design by Mr. McIlquham will make installation of hot air ducts easier and give higher efficiency.

Mr. McIlquham was employed in the sheet metal layout and mechanical inspection department of Northern Electric here for four years. His patent on the equipment is pending.

He will be showing a demonstration of "Freeway" equipment on June 11 and 12 at Club Commodore.

Plane Forced To Land on Isle

BRANTFORD (CP) — Two Brantford men escaped injury Sunday when their plane made a forced landing on Christies Island in the Georgian Bay.

Four light planes from the Brant-Norfolk Aero Club flew to Gore Bay for a weekend fishing trip and took off Sunday for home. When they ran into fog they turned back.

Three planes got back safely to Gore Bay but the fourth had to make an emergency landing. Pilot John Clarkson and passenger Gerald Pittit reported their plane came down without damage.

SENTENCE "PLOTTERS"

DAMASCUS, Syria (Reuters)—Asad Ibrahim, a father-in-law of King Saud of Saudi Arabia, and Asad's brother, Mahel Ibrahim, Saturday were sentenced in absentia to life imprisonment with hard labor. They were found guilty of plotting, at the alleged request of King Saud, to assassinate President Gamal Abdel Nasser of the United Arab Republic and to carry out a coup d'etat in Syria to prevent Egyptian-Syrian unity.

BUSINESS AND GOVERNMENT

Senator A. B. Baird of Newfoundland and Robert Winters, late of Ottawa, should be introduced. Both are Liberals.

Senator Baird says the federal government is embarking on a program of deficit budgeting "alien to the Canadian way."

Mr. Winters says: "There is a basic difference between sound administration as practised by business enterprises and good government."

What bothers Senator Baird, we suspect, is that not many businessmen would deliberately expand their expenditures at a time when they knew their revenue would decline. That, we take it, is what he meant by the reference to "deficit budgeting" being "alien to the Canadian way."

For the Canadian way, if there is such a thing, is the belief that sound government demands sound business practices.

This is heard in all levels of government. Sometimes it flows in this theory sheet up. Voters in more than one Canadian town have discovered that, for some strange reason, a prominent and successful businessman does not necessarily make a good alderman or mayor. On the other hand, some "lightweight" whose election to council is generally attributed to be solely the result of his personal popularity often emerges as the real leader, shrewdly balancing the needs of the voters against their ability to pay for their desires.

Mr. Winters, who as head of Rio Tinto must be regarded as a successful businessman, says that "good government must be dynamic and keep before the electors the type of policies that stimulate his imagination." He adds that, "if, for example, the federal government was concerned only with sound business practices, I doubt whether we could visualize such great projects as the proposed railway to Great Slave Lake or the proposed South Saskatchewan dam."

As a prominent Liberal, Mr. Winters certainly has no grounds to grind in this observation. He is merely recognizing the difference between good business and good government.

It is time such a recognition was more widespread.

All of which, of course, does not mean that deficit budgeting is necessarily good government, even in such times as these. It does mean, though, that one should treat with reservation criticism that such a procedure is "alien to the Canadian way."

GOLDEN OPPORTUNITY

This is indeed a land of opportunity.

There are so many fields waiting for the pioneer, for the man who has vision and who is prepared to devote his life to serving his fellow Canadians in ways as yet unexplored.

Consider, for instance, the problem facing poor Angus, MacS., as outlined in a letter to the editor of the Toronto Telegram. Poor Angus has "a long-standing complaint" - - he finds bottles of Scotch whisky always often empty. In his effort to prevent leakage, the thrifty Scots "stopper up their whisky with fancy devices that can be unfastened only after lengthy study and frayed temper."

"Surely this problem is not beyond the genius of Scotland to solve," comments Angus MacS.

Meanwhile, though, what a golden chance for some self-sacrificing person to take on his shoulders the burden of all the lengthy study and strain on the temper involved in opening Scotch bottles for Angus MacS. and others in the same plight - - for the first three fingers off the top of the bottle, of course.

The laborer is worthy of his hire.

TALE WITH A MORAL

California has a wonderful climate, unequalled for the production of oranges and oddballs.

It is probable that most people will place Mrs. Nancy Ewing in the latter category. When she took her shepherd dog for a walk, she blindfolded him. "I just didn't want King Boy to see all the evil there is in the world," explained Mrs. Ewing. "I didn't want him to see bad people."

The Humane Society took a different view. It ordered her to remove the blindfolds.

Most people will agree with the Society's action; and then some of those who endorse the Society's stand will enthusiastically support the latest move for censorship.

Not all the oddballs live in California.

JUST FOLKS

(Copyright 1958, Edgar A. Guest)

By EDGAR A. GUEST

SPOILED THE IMPRESSION

I thought he was a clever man
And would have told him so,
He did what I thought few men can,
And I was glad to know
That he'd achieved success at last.
Until he bragged about it,
I thought him wise, but that is past;
I have begun to doubt it.

I watched another gaining fame
And saw him reach the top,
I felt he'd earned an honored name,
Some nothing could him stop.
His judgment I'd have banked upon,
But I've begun to doubt it.
He conquered, but my faith is gone,
I've heard him brag about it.

And then I knew another, who
Had wealth enough to spare,
A helpful sum he gave unto
A woman bowed by care.
"Ah, there's a kindly man," thought I,
But soon I had to doubt it;
For after a week had journeyed by
I heard him brag about it.

OFF THE RECORD

By Ed Reed

"People who don't know how to drink should learn it alone!"

These Fathers Were Young

Hamilton Spectator

Side-whiskers, frock-coats and a solemnity of expression Victorian artists believed were indispensable to such a great occasion as Confederation, have helped to create the impression that the founders of Canadian nationhood were old men. As the Governor General said in a Dominion Day message a year or two ago: "Our day does not remind us of the clash of arms; it conjures up a picture of some elderly, frock-coated gentlemen around a table . . ."

The time in which they lived, the sombre attire and perhaps the fact that people tended to age in appearance more quickly in those days than they do now is responsible for this impression, But it is not really true. Confederation was the work of men who were quite young. Most of those who gathered around the table in the Quebec Conference to draft the British North America Act, the cornerstone of Confederation, were in the prime of life.

Sir John A. Macdonald was only 49 and had many years of political life ahead of him. D'Arcy McGee was ten years younger than "the chief." Charles Tupper was a mere 42 and still had 37 parliamentary years to go. He was the only one who, when, as the oldest member, the House stood up in his honor and presented him with a bouquet of roses on his birthday. He lived to 84. Tilley and Brown were both 46; Galt was 47; Carter was 50. In spite of the whiskers, none of them was an old man.

Legends grow and no one quite knows how and once they are fully-fledged they are hard to budge. But the one about the "old men of Confederation" deserves to be contradicted by the truth.

THE PACKSACK

By GREGORY CLARK

Thirty years ago, it took us seven hours to drive from the city to our summer cottage 150 miles distant. The pavement ended thirty-five miles north of the city, and from there on there were 115 miles of gravel roads for sixty miles; and thereafter pretty rough third-rate gravel roads, sand tracks a n d backwoods ruts. In our Model T, we bounced and soared a n d soared joyously there and back every summer weekend, and seven hours was the average, though at times, due to wet weather or detours, it might take nine. But we were pretty proud of our performance.

Then, as the years passed, the pavements grew and grew, even on the old backwoods trails; the time of the journey grew less and less; until, fifteen years ago, we could, in our new model cars, swish lightly on to the cottage in three easy hours.

And we looked back in memory and laughed at our seven hours, eight and nine hour trips. Ah, progress!

Last week, we drove home from the cottage.

It took us seven hours.

Now, the pavements of the past are faint memories. There are great four laners, beautifully straightened two laners, everything graded, smoothed, signed, dcfined.

But we get it in the neck. We are cars in a freight train. We are long. And we shunt home in seven hours.

Strength for The Day

DR. EARL L. DOUGLASS

THE FIRMAMENT SHOWETH' HIS HANDIWORK

One hears a great deal these days about the high cost of living, inflation, and the excessive prices that have finally brought down buying power to the point of causing a recession. It is perhaps worthwhile pointing out, as the summer season approaches, that there is one extremely valuable commodity which costs no more than it always has: the beauty of nature.

Nature is beautiful in different ways and that different quite every year around, of course. But in the summer we are likely to be most aware of it. More flowers a n d trees are at their best then; the weather encourages us to be out enjoying them; and more of us travel out into the country on our vacations.

The glory of a sunset over the lakes; the majesty of a great mountain peak rising out of its emerald slopes; the intense and joyous colors of a lovely flower garden; the profound mystery of waves rolling in endlessly across a wide expanse of beach — all these are more than mere visual beauty. They stir emotions deep within us — perhaps arousing a longing to express a u c h beauty in our own lives, perhaps awakening a new spiritual strength with the promise of joy, perhaps inviting a mantle of peace over us.

"The heavens declare the glory of God; and the firmament showeth His handiwork."

TODAY'S TALK

By GEORGE MATTHEW ADAMS

COLLEGE OR NO COLLEGE?

We learn comparatively little in college. Its great function is to get us to think logically for the first a purpose. A secondary value to time in college is that we meet minds that are new to us, and they stimulate us to think. Always when in college the student is being challenged. This is good. If college teaches anything worth while it is that we have to think two feet — and they were made for us to stand upon, without any cases or crutches.

College teaches character and proves the power and usefulness of many contacts that are very useful in after-college days. In college I learned to value the love of books, and to spread the knowledge. Meeting many favorites in many different homes put me in to a fine humor at once, and to be a democratic reader of books is to demonstrate your desire for universal knowledge, and t h e warmth of friendliness, and keen observation.

College days, to me, were very happy, for what I learned outside college walls is what has counted the most, though nothing can be superior to a solid, four-square friend. Something dies within me when one of these old friends is taken out of my everyday life, I treasure the memory of those absentees, nevertheless.

The great college is what we do with life after we leave the scholastic halls. It is there these halls that we are tested, tried and appraised. Some can take the medicine meted out there and some cannot. After all, it is a matter of character, and all to live. Where did Lincoln gain his mastery of words a n d his simplicity of thought? Not in college! He got them by delving inside the human heart.

LOOKING BACKWARDS

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

June 9th., 1938

Mrs. Robert Leishman of Kingston spent the week-end here with Mrs. Bruce Bovis, Ann Street.

Mr. and Mrs. T. E. Barnes of Peterborough spent the week-end with Mr. and Mrs. daughter, Mrs. Gerald Clapp, Ann Street.

Alderman and Mrs. B. F. Jennings have returned home after a two-week trip to New York City and other places in New York State.

The Holy Hours Devotion began on Sunday at the Church of the Sacred Heart of Mary at Marysville. Among the clergy present were the Rev. F. W. Nicholson, V.G., of this city, Very Rev. Thomas Cullinane, Tweed, the Rev. R. Casey of Read, the Rev. E. M. Leacy of Thomasburg, the Rev. J. Hanley of Trenton and the pastor of the church, the Rev. C. O'Connor.

From our file copy at this date we learn that the two hundred children who arrived here at the Marchmont Home on the evening of May 31st were sent to Foymans Street West and Yeomans Street this year, only seven now remain in the home. Another lot of boys from the Old Country will arrive at the home in August. The children are kept at the home until they have found homes for them.

30 YEARS AGO

June 9th., 1928

Mr. and Mrs. Ralph Hutchinson of this city are spending a few days here. Mr. Hutchinson is a former resident in this city and is renewing acquaintances.

Mr. G. A. Weir, manager of the local branch of the Bank of Montreal is spending a few days in Toronto attending her vacation in Rochester, N.Y.

Mr. A. Y. Snider has resumed his duties as manager of the local branch of the Canadian Bank of Commerce after several months' absence due to illness.

Mr. Fred Lee spent yesterday in Toronto on business.

40 YEARS AGO

June 9th., 1918

A successful garden party was held this afternoon on the grounds at St. Agnes School under the auspices of the Belleville branch of the War Contingent Association.

The weather was fine and Tweed Valley Canal draws attention to the great possibilities in the farming area of water sufficient to make Belleville district one of the best manufacturing centres in the world.

The Grand Lodge of Prentice Boys will meet in this city next year.

Mr. William Carnew, County Crown Attorney, of Wooler today on legal business.

Mr. Joseph Hamilton of Muskegron, Mich., if the guest Mr. A. J. Hamilton.

From our file copy at this date we learn that Strawberries were plentiful on the market today and sold at three boxes for 25 cents. The steamer North King will leave here as usual this afternoon for Charlotte and Rochester. This is a popular trip. Mr. Martin O'Brien, the manager of the St. Leon Springs Hotel, has left for that hotel at Massasaga Park for this season and will take possession at once.

50 YEARS AGO

June 9th., 1908

Mr. Fred Adams of Maybrownanka, formerly a popular resident of this city and associated with the paper here for many years, is renewing acquaintances in town.

Mr. Hugh Stevenson of Stratford, formerly of this city, is visiting relatives here.

In the recent Ontario provincial elections the Conservative government with Whitney leadership of the Hon. J. P. Whitney was returned to power with a large majority. In North Hastings Mr. J. W. Pearce, Conservative, defeated Mr. D. A. E. Biddell, Liberal, by a majority of 1,042; in East Hastings, Mr. A. Richardson, Conservative, defeated Mr. D. Ponton, Liberal, by a majority of 400; in West Hastings Mr. J. W. Johnson, Conservative, defeated Mr. Henry Pringle, Liberal, by a majority of 168.

Letters To The Editor

Rural Residents Work 12-Month Year

Editor,
Ontario Intelligencer:

I noted that suggestion in your May 31 editorial columns, crediting Canada's Labor Minister (Hon. L. P. Cecile) as clowning that the automobile industry was in danger to the degree a measure of price maintenance and the payment of unemployment insurance benefits and relief assistance to its workers while they are "either idle or working on short time".

As to the latter, I agree with the above view, this farm readership is in no position to measure it. On the other hand, I was keenly interested in your inclusion of suggestions as to the reasons why persons working five or five-and-a-half days a week, get higher prices for their cars in order to permit such automobile workers to work shorter hours? The answer, we suggest, is in the negative."

Mr. Cecile, you don't need to be assured, the producers around here, limited by the weatherman's pattern, governing the climate of the seasonal but also very fortunate land. At the peak of the farm year we are subject to the whims influence as a mandatory controller of the rural work-week either of the Lord Windsor, a minus quantity; is thrown out of gear. In the busy time 12-hour working day. True, as one of the philosophers, described the farmer as "the man who, who must wait for his crop to grow, but he can't hurry it by nature and not to city watches."

On the other side of this national and labor scene, we submit, three or four times a day in this kind of country we are across the year! The fact remains that only a tiny fraction of Canada's farmers' unemployment insurance benefits for four months in the year. Nor let's call it the winter slowdown. It is my observation, based on long years among these rural citizens, that 90 per cent of them are really never unemployed.

The automobile worker's dream of GAW (guaranteed annual wage) might be realized by the market place, if the people directly concerned would organize for sustained periods of tical twin (guaranteed annual work).

"Munitions of Peace,"
Wroxeter, Ont.

Rocket War Not Feasible

Montreal Gazette

Scientists are giving some words of caution about the "pushbutton war." The possibility of such a war in the future is real, they say. It must be planned for now. But it is still several "scientific breakthroughs" off. It is very doubtful whether such a war could be fought today.

All this is becoming evident in the lauching of rockets. It takes many hours, often many days, to prepare one of the "flying birds" for a launching, and the launching often turns out to be a dud.

Because of weight problems, rockets must be built with very thin walls; so thin, in fact, that they cannot stand up under empty weight, let alone the side bracing platforms, in flight, that must be constructed straight up until the major portion of their fuel is burned off.

If a crosswind causes them to cant to one side, the immense weight of their fuel, compared to their wall-strength, causes them to break apart (ta one American rocket did this winter).

The biggest ones are manufactured in California and fired in Florida. To move them from factory to launching pad requires a convoy of special vehicles, and a route is needed to make the cross-continent journey. (The Russian trip may be shorter, as rockets are manufactured from European Russia to Siberia by train).

Werner von Braun has recalled how during the Second World War, the rockets were the first big military rocket, the V-2, was limited by the transport problem. Between France, Germany and the Holland launching sites, they were limited by the size of railway tunnels, the turns in highways, dictated the embankments of bridges.

And each one that is shot off and it cannot be recovered for further use — costs between one and four million dollars (American) to manufacture.

All these problems are in the process of solution, but right now they still loom very large.

And Paid for It?

Finlandia Pictorial

If it is aking you want, join the Salvation Army. You get paid for doing it. It marks (22 cents or half-a-crown) a day.

To Your Good Health

By Joseph G. Molner, M.D.

ELECTROLYSIS IN THE ONLY PERMANENT WAY TO REMOVE HAIR

Bh negt. I was trying to keep things short and simple. There isn't any danger to the mother, you see, unless she receives a transfusion of the positive blood after she has become sensitized to it at all.

It is a common practice everywhere, of course, to be careful about blood typing now, if a transfusion is to be given, so you can start on that point. In other words, there are ways to handle the problem as it concerns the mother. I oversimplified.

And as to the babies — most Bh negative women have two children before the baby is affected by this situation. Some, of course, may have more before there is any trouble. Therefore, on all counts I suggest that you not be unduly alarmed unless your doctor tells you that there is any reason for alarm. Sorry I didn't make all this clear before — so glad you brought the question up.

"Dear Dr. Molner: Just 10 years ago I had some varicose veins taken out by a good doctor. Now they are becoming bad from the calves of my legs to my ankles. Another doctor suggesting 'stripping' the veins. Do you think this will help me, or would wearing good elastic stockings accomplish the same result?" — Mrs. T. H."

After 10 years of relief, but nobody can guarantee that the trouble won't come again later, but I would say that your doctor it's time for more attention, elastic stockings sometimes do not afford much help, but depends on the severity. In other instances, stripping or removal of the veins, is the only successful course. This must be a matter of judgment by your doctor.

What about constipation? Many can be relieved of it, both mentally and physically, by reading my booklet "Ten Ways To Stop Constipation." For a copy write me in care of this newspaper, enclosing a large, self-addressed, stamped envelope, and 50c in coin to cover handling.

Defends American Autos

Brockville Recorder and Times

The attack on the North American automobile continues. The Ottawa Journal made this comment: "It seems to The Journal that making stock cars capable of going 110 miles an hour for use in a country where a maximum speed for the average cart is 60 miles an hour is an unnecessary extravagance. It is wasteful." We believe this criticism is unjustified because it rests on two wrong assumptions.

In the first place there is no North American car built specifically for Canada or for Canadian speed laws. Every North American car is built principally for the American market, for the United States. A country having very different highways and speed laws. The so-called Canadian car is simply a prototype of the American car.

In the second place the North American car is not built for the purpose of enabling a driver to go 110 miles an hour. The large, high powered engine is not created for that purpose at all. It is designed to permit a driver to go perhaps 70 miles an hour, carrying out his desires, a heavy load in a comfortable vehicle for sustained periods of time, over thousands of miles, without undue engine strain and wear. And when a car is built by North American car performs the purpose for which it was designed for such a task. Certainly you can drive it at 110 miles an hour if you want to. But so can you sit and hit hit yourself over the head with a hammer — if you want to.

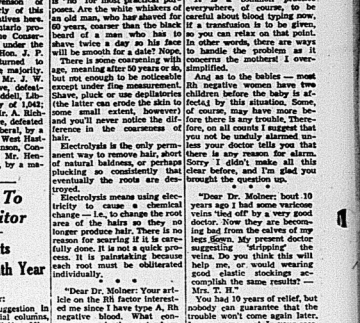
This writer this winter past had reason to take a motor trip from Canada down through the United States, down through Mexico as far south as Acapulco and back again, almost 10,000 miles. Certainly the driving conditions were encountered — cold, snow, rain, intense heat, rough country, mountain roads where sustained speeds of 30 miles an hour were necessary, and fantastic mountainous roads where for hours on end speeds higher than 15 miles an hour were impossible.

This trip was taken in a large North American automobile, carrying a large and heavy load of luggage. This car was powered by a large engine, and it performed to the limit of its ability. It met every task asked of it without a flinch, groan or complaint. The car never gave a second's trouble, and it arrived back in Brockville in just about as smoothly as the day it left. If anyone can show us a small car, carrying a load of three, with a 50 horsepower engine, capably carrying such a load at sustained speed, over that many miles, we'd be the first to buy it. But there ain't no such animal.

* * *

If a car buyer wants a car to transport one woman a block. For one point of butter, he doesn't need much car or much engine. But if he wants a car that will do a man's job for thousands of miles under tough conditions, then the big North American car is his baby. And the money is well spent.

We are here to defend the North American automobile.



Trade Program Facing Bitter House Debate

WASHINGTON (AP)—President Eisenhower's reciprocal trade program goes before the House of Representatives today with its chances of survival a toss-up.

As the House prepared for two days of general debate, the bitterest floor battle in the 24-year history of the act was in prospect.

Eisenhower has asked a five-year extension of the program after it expires June 30, along with authority to lower U. S. tariffs another 25 per cent in return for trade concessions by other countries to the United States.

This marked the 11th time the trade agreements act has come up for extension.

The showdown will not come until Wednesday when the House has scheduled final voting.

When it was last extended two years ago, the program escaped sudden death in the House by a single vote.

Screen Writer Says Charge Is Ridiculous

VIENNA (AP) — Hollywood screen writer Peter Viertel said Sunday the charge that he enticed actress Deborah Kerr is "absurd and ridiculous."

The charge was brought in London Saturday by the British-born actress' husband, Anthony Bartley.

Viertel and Miss Kerr are working on a film here. In a brief statement issued by the press agent for their movie company, the 32-year-old writer declared:

"These charges are so ridiculous and absurd that no comment is required."

Reporters seeking Viertel for further comment were told the writer had left Vienna. Miss Kerr also was unavailable for comment.

Viertel's statement came on the heels of Bartley's filing of a writ charging enticement against Viertel. He said he acted "to preserve and safeguard my marriage and to protect my children."

Earlier Bartley applied to have the two children made wards of the British court to prevent them from being taken out of the country.

Should Preach More About Hell States Graham

SAN FRANCISCO (AP)—With more preaching about hell, evangelist Billy Graham declares, there might be less hell in the community.

Hell is an unpopular subject "but that doesn't mean we should ignore it," Graham told a Cow Palace audience of 16,200 on Sunday.

He described hell as a place where the punishment of a just God is meted out to the wicked, not a sadist's torture chamber.

But hell is an extension of the private hells men make for themselves on earth when they live wrongly, and will be "a place of pangs, torment and craving lusts that cannot be satisfied."

Graham said he believed in hell because the concept is necessary to restrain sin among men and to separate the wicked from the good.

Ottawa Store Clerk Might Solve Tangle on Polish Treasures Now at Capital

OTTAWA (CP) — The conscience of a clerk in a delicatessen store here holds the key to one of the most thorny political and diplomatic problems confronting the Canadian government.

A word from 70-year-old Josef Polkowski would go a long way toward untangling the government from the dilemma of the Polish treasures — and all their ramifications involving two Polish governments, the Roman Catholic Church and relations between Ottawa and Quebec's Premier Duplessis.

The treasures, Poland's equivalent of the British crown jewels and classified in the world as $5,000,000 or more, were shipped to Canada for safekeeping early in the Second World War by the Polish government-in-exile, set up in London after the Germans invaded Poland.

JOINT CUSTODIANS

Mr. Polkowski, then an archivist on the staff of the Polish state museum, and the late Dr. Stanislaw Swiezawski, head of the museum's curator, were made custodians of the treasures.

The treasures, originally concentrated at the Dominion Experimental Farm in Ottawa, now are divided between a vault in the Bank of Montreal's main Ottawa office and vaults of the Quebec provincial museum in Quebec City.

When Canada recognized the Warsaw government of the communist Poles in 1945, Dr. Waclaw Babinski, minister accredited to the London Polish government-in-exile—who died last year in Ottawa—apparently persuaded Premier Duplessis to become a Canadian custodian of the Quebec City treasures.

Last year, Mr. Duplessis said the Warsaw government commission will ever be made with the contemptible government of Poland for their return."

Regular diplomatic representations have been made by the communist government for their return, the most recent occurring last year.

DIPLOMATIC PROBLEM

The Canadian government, however, has no direct jurisdiction over the valuables, which date back to the 12th century, because they are private objects in Ottawa and Quebec City fall under provincial property law. Only Mr. Duplessis is empowered to give diplomatic good offices, at home and abroad, for negotiations and that the federal cabinet is actively considering the problem of helping Poland recover the treasures without ruffling domestic politics.

It would likely mean a change of mind by Mr. Polkowski, a short, gentle-mannered scholar, not to be found any weekday behind a delicatessen counter on downtown Musgrove Street. That might serve as a lead to Mr. Duplessis, also.

Mr. Polkowski, who says freely that the treasures belong to the Polish people and should be restored to them, points to the fact he was covered with responsibility in 1940 by a Polish government in London. That government was recognized during the war by Canada.

But while Canada now recognizes the Red government in Warsaw, Mr. Polkowski still recognizes London.

"If the London government orders me to release the Ottawa treasures I will do so," he says.

But Mr. Polkowski may find himself in the position of having to demand from the exile government that he be authorized to return them to Poland.

FEAR DECLAY

That depends on the present security in the treasure vaults in Ottawa. They are contained in two huge trunks that haven't been opened for 12 years. There now is some fear that deterioration may have set in.

While that portion of the treasures in Quebec City rank boldest, including 12 Flemish tapestries, those in Ottawa hold Poland's greater interest.

Besides the jewels, the trunks in the bank vault contain the original score by Frederic Chopin of music familiar to concert-goers the world over, capped by the immortal second concerto in F minor for piano and orchestra.

There is also an original Gutenberg Bible, one of the first printed work in history; a collection of psalter, missals and parchment scrolls, including the 12th century Florient Psalter, earliest existant Polish script; and the Chronicle of Kasfubek-Gal, first historical chronicle of Polish history.

Twice a year Mr. Polkowski sees the Quebec treasures, as custodian accredited by the London government-in-exile, whose minister Premier Duplessis recognizes. He says they are in good shape.

LEGAL BARRIER

But he is denied access to the Bank of Montreal vault in Ottawa because he is only joint custodian with Dr. Swierz-Zaleski—the late Mr. Swiezawski's son—of the clerk's position is that Mr. Polkowski may enter the vault to inspect the treasures only in company with another custodian properly accredited by the Polish state museum.

Steps now are under way which may free Mr. Polkowski's conscience may help solve the dilemma. The Polish state museum is accreditting an official of its staff as custodian in succession to Dr. Swierz-Zaleski.

The new joint custodian and Mr. Polkowski this summer likely will open the trunks in the bank vault. If the treasures are found to be deteriorating — and Mr. Polkowski expresses particular fear about the Chopin manuscripts—it is not unlikely he will recommend that the treasures be returned to have corrective work started speedily by Polish experts.

Some fear about the treasures deteriorating also was expressed early last week by Opposition Leader Lester B. Pearson.

"Some of the treasures are perishable," he told a press conference. "It would be a tragedy if some of them deteriorated. I would like to see the matter settled satisfactorily to all concerned."

CHANGED CONDITIONS

Canada - state relations in Poland, where 98 per cent of the people are Roman Catholic, have improved since Premier Duplessis made his no-deal statement. So he, in fact, eventually be prevailed upon to change his stand.

Mr. Pearson, who as external affairs minister in the former Liberal government received Polish diplomatic representations on the treasures, said "if we consider that the situation in Poland has altered, then perhaps this may have a bearing on their return."

In the past, the Canadian government has suggested the treasure problem be settled in the courts, but the Communist Polish Government has rejected this avenue. So it boils down to diplomatic negotiations, concentrating primarily on the major treasures in Ottawa in the hope that if they can be pried loose then Premier Duplessis will follow suit.

Pakistan Angry As India Cuts Irrigation Water

LAHORE, Pakistan (Reuters) Five million acres of land are being idle in West Pakistan as the result of India's shutting off irrigation canal waters from the Sutlej and Indus Rivers, Prime Minister Malik Firoz Khan Noon said Saturday.

The two rivers, tributaries of the Indus, begin in India and flow into Pakistan.

Noon told reporters that India's action was designed to deprive Pakistan of its agriculture and historic water capacity and will aggravate Pakistan's food situation.

An announcement from Karachi Friday said Noon had asked Indian Prime Minister Nehru to investigate and had also drawn the attention of the World Bank to the cut.

The World Bank is mediating between India and Pakistan in an argument over the distribution of the Indus basin canal waters.

$25,000 Grant For National Ballet of Canada

TORONTO — The Rockefeller Foundation has made a grant of $25,000 to the National Ballet of Canada, it was announced today by Mark Napier, president of the National Ballet Guild of Canada.

The grant is "toward the creation of new productions in ballet," and is available during the five-year period beginning May 1, 1958.

Prepayments on this grant will be made on a semi-annual basis upon "acceptance of a budget for the program of the ballet during each fiscal year of the grant."

Mr. Napier said, "there is a very special satisfaction in knowing that the accomplishment and objectives of the Guild and the ballet company have earned the approval of a body as accomplished as the Rockefeller Foundation."

He said the company has just completed a coast - to - coast tour of Canada's two universities where "it was received with marked critical acclaim," as well as engagements in cities in Western Canada and Northwestern Ontario. On May 21 it began a three - week engagement in Mexico City's Palace of Fine Arts and the National Auditorium under a contract with the government of Mexico.

Mr. Napier said the company has commissioned several original ballets to be cast with choreography and music by Canadians. There have already performed not only in Canada but in New York, Washington and other major U. S. cities during the company's various international tours.

ARCTIC EXPLOITS EARN OFFICER McKEE TROPHY

The Trans-Canada (McKee) trophy for 1957 has been awarded to W/O J. G. Shoveler who is presently serving at air force headquarters in Ottawa. W/C Shoveler, seen above, won the award for his general contribution to the successful and accurate mapping of the Arctic when he was commanding No. 408 Squadron based at Rockcliffe. Calling on his vast northern experience and employing techniques developed by aquadron personnel under his direction, W/C Shoveler planned and executed this particularly difficult operation under extreme Arctic weather conditions. The Trophy, which dates to 1927, is presented each year for meritorious service in advancement of Canadian aviation.

Order Inquest Into Death of U.S. Student

LA SARRE, Que. (CP) — Provincial police scheduled an inquest today at which Dr Pierre Wolfe will testify whether John R. Bouck, 26-year-old American student, was killed by his own hand or by another's.

Dr. Valcourt, one of the QPF's top medicolegal experts, conducted an autopsy Sunday on Bouck, whose decomposed body was found in the bush near here a week later. Dr. Valcourt recalled April 19 from his graduate engineering studies at Massachusetts Institute of Technology, Cambridge, Mas.

A 30-man search party, led by his father, George and brother, Allen, found the body about a mile inside the bush with a bullet hole in the head and a .22 calibre rifle lying nearby.

Detective Marc Barbeau of provincial police said investigators were satisfied there was no foul play but the autopsy was ordered "to satisfy the family."

A local farmer reported he saw John park his convertible April 21 on a lonely road near this northwestern Quebec village, 185 miles south of James Bay, and wander into the bush.

Russian Denies Trying to Buy Secret Papers

WASHINGTON (AP) — Soviet Ambassador Mikhail Menshikov says a junior Russian diplomat denies trying to buy American military secrets. All Russians in the United States, Menshikov says, are forbidden to do anything like that.

Menshikov told a television panel show Sunday that Nikolai Kurochkin, the Soviet Embassy's third secretary, has denied state department charges that he sought to purchase secret military documents from Charles T. Beaumet, an American magazine writer.

"And I have no reason not to believe him," Menshikov said.

Kurochkin was ordered Saturday to leave the United States on grounds he paid hundreds of dollars for army manuals and other materials and tried to get secret documents. He is expected to start for Russia later this week.

NO CLASSIFIED MATTER

Beaumet, a 25-year-old magazine writer living in nearby Arlington, Va., said he never gave any classified information to the Russian. Beaumet said he published nothing but open non-secret material, part of which "was already in the papers." For this, Beaumet said, he received $435 over a period of months, starting last year.

In an interview Saturday night, Beaumet said he met Kurochkin last year after he went to the Russian Embassy seeking material for a story on the making of stockings in Russia. At the time, Beaumet said, he was doing freelance work for a textile industry publication.

Later, Beaumet said, Kurochkin invited him to a party at the Russian Embassy and that subsequently he got the material he wanted from Moscow.

About five months later, Beaumet said, he lunched with the Russian and he said suggested they collaborate on some articles for Soviet publications.

One night, Beaumet said, two federal agents came to his apartment and questioned him about his contacts with Kurochkin. From then on, Beaumet said, "every it ebmenaralled.M said, "every time he called me, I called them."

Pigeon Racing

The Quinte Racing Pigeon Club held its seventh race of the season on Saturday with 14 birds starting out on the 218-mile route from Cosgrave.

Only four birds made it back before dark, the winners leaving at 7.30 a.m. and arriving home around three o'clock Saturday afternoon.

First place went to a bird owned by Tom Woodcock while another of his entries came in fourth. The second and third place pigeons were those of R. Burton. Burton's were the only birds qualifying by arriving back before the deadline.

The next meet is a Central Ontario Federation race for yearlings only and will be held from Gegama next Saturday, June 14th. Pigeons from Kingston; Belleville; Plainfield; Trenton; Cobourg; Port Hope; Peterborough; Lakefield; Oshawa and Bowmanville will take part.

ANOTHER ZENITH FIRST!

SUN-POWERED EYEGLASS HEARING AIDS!

SOLARIS is the name . . . because this amazing new eyeglass hearing aid is powered by the sun's rays into useful electrical energy. Again, Zenith puts modern scientific progress to work for better hearing . . . this time harnessing the sun's energy, using the same principle being used to transmit messages from the Vanguard satellite 40 outer space.

SOLARIS not only operates on free "sun power" . . . it also stores up reserve power when sufficient sun rays are available, for use anytime, anywhere, in either mercury or nickel-cadmium batteries. SOLARIS will always operate at full power on both batteries alone.

SOLARIS is available only through Zenith Hearing Aid dealers. Be first to see and wear this space-setting addition to the Zenith line of Quality Hearing Aids . . . a type for every electronically correctable hearing loss.

ADVANTAGES OF ZENITH QUALITY

- 10-Day Money Back Guarantee
- 1-Year Warranty (Quality Proof)
- 5-Year Protective Service Plan
- Sensible Prices; from $50 + Compensor, Zenith Trained Dealers.

ENGAGEMENT NOTICE

Mr. and Mrs. Clifford Hillman R.R. 1 Belleville, announce the engagement of their only daughter, Lois Ann, to Gerard Joseph O'Brien, son of Mr. and Mrs. Herbert O'Brien of Prince Edward Island. Wedding to take place on June 28 at 9 a.m. in the Church of St. Michael the Archangel, Belleville.

Mr. and Mrs. Leo Maggs and Mr. and Mrs. Gordon Dunscombe Mr. and Mrs. Frank Maggs, all of Toronto, were in the city on Saturday attending the golden wedding celebration of Mr. and Mrs. George Ellarby, 64 St. Charles St.

Mr. and Mrs. Ross Robinson, of Northport, were Sunday guests of relatives in the city.

Mr. and Mrs. Warren Pitt, MacDonald Avenue, have left for Winnipeg, Manitoba, where they will attend the Shriners Bowser wedding on June 14th.

Mr. M. J. Shappee, 11 Grove Street, is enjoying a visit with his daughter and son-in-law, Mr. and Mrs. Portage La Prairie, and Mrs. I. W. Ebbett, of Gimli, Manitoba.

CHILDREN ENTERTAINED

The Evening Auxiliary of the WMS of St. Andrew's Church assisted by the CGIT, entertained the Presbyterian children of the Ontario School for the Deaf on Friday afternoon followed by a supper in the Sunday School basement.

Mrs. E. Craighead and the Rev. R. MacLean conducted the children in a sing-song and a story of the church and the newly renovated Sunday School. The children enjoyed a candy hunt and several other lively games. Under the Friday afternoon were Mrs. W. Richardson, assisted by Mesdames Sheffield and Cumming. Also assisting were the children and their teachers, Misses Burnside and MacDonald.

Weddings

CARTER — CARLISLE

On Saturday, May 24, a pretty wedding was solemnized at the home of the bride, when Miss Marion Carlisle, of Stirling, daughter of the late Mr. and Mrs. William Carlisle, became the bride of Charles Carter, of Harold, the late son of Mrs. M. Knight and the late Mr. W. Carter. The Reverend J. Cousins, of Kingston, officiated. The wedding music was rendered by Mrs. Albert Carlisle, of Frankford, sister-in-law of the bride.

Given in marriage by her brother, Mr. Ernest Carlisle, the bride was charming in her gown of turquoise blue crystalette. She carried a white Bible.

She was attended by her sister, Mrs. Roy Neal, of Belleville, wearing a gown of coral lace over taffeta, and carrying a nosegay of white chrysanthemums.

Mr. Donald Walker, of Harold, Ontario, attended the bridegroom.

The reception was held at the bride's home, where Mrs. bride's sister, wearing blue taffeta with white and white accessories, corsage of white carnations, received the guests.

For her travelling to Toronto and western Ontario, the bride chose a dress in honey-beige colored crepe with matching accessories, and corsage of rose-bud-of-town guests will be at home at Harold.

Mr. and Mrs. Carter will reside on the groom's farm, 5th concession of Rawdon.

LOGUE — ROPER

Bethel Chapel, Belleville, was the setting on Saturday, May 24th, at 2:30 p.m. for a pretty wedding when Mr. William E. Belch, united in marriage, Annette Iris Roper, of Belleville, daughter of Mr. and Mrs. Frederick Alfred Roper, to Lieut. Arthur Logue, of Point Anne, son of Mrs. John Logue, and the late Mr. Logue. The white standards of white, Shasta daisies and mauve shaded gladioli and a white Gothic archway topped by a white wedding bell formed the entrance to the guest pews.

Miss Noreen Brooks sang during the ceremony. "The Wedding Prayer", and the "Wedding Song," during the signing of the register, accompanied by Mr. William Connor, guest organist, who also provided the wedding music.

Given in marriage by her father, Mr. Francis Alfred Roper, the bride was lovely in her bridal gown of white nylon net over peau de sole, featuring a fitted bodice, nylon sleeves and sheath-like sleeves, lily-pointed over the wrists. The graceful, bouffant skirt, appliqued with hand-clipped lace and iridescent sequins was accentuated in a chapel train. She wore a draped pillbox of silk organza adorned with the French roses and fingertip veil of silk tulle, and carried a crescent bouquet of pale-yellow roses and trailing English ivy. A single strand of pearls, the gift of her bridegroom, completed her ensemble.

Miss Shirley Melbourne, (Helen) sister of the bride, was matron of honor. She wore a floor-length Wright, bridesmaid. Little Diane Logue was flower girl for the bride, and was also bridesmaid, were gowned alike in floor-length gowns of shades of turquoise silk taffeta, in waltz-length at the front and back. They wore matchin' pillbox hats and carried crescent-shaped bouquets of white Shasta daisies and English ivy. Their flower girl, wore a short, bouffant frock of turquoise organza and carried a nosegay of roses and Shasta daisies.

Mr. Leo Logue, of Brockville, brother of the bridegroom, was groomsman. Ushers, Charles Roper, of Belleville, brother of the bride, and Mr. Ronald Whyte, of Kingston, brother-in-law of the bridegroom, ushered the guests.

The reception was held in the Belleville Armouries, where the bride's table was appointed with white damask a three-tier wedding cake, centred with pale yellow roses, and misted about the base with Shasta daisies, tulle, white tapers in silver holders completed the arrangement.

Mrs. Roper, mother of the bride, received, wearing pale, turquoise lace sheath dress with matching lace hat and beige accessories, and corsage of pink, Sweetheart roses. She was assisted by the bridegroom's mother, attired in navy and white flowered silk with navy and white hat and corsage of white roses.

For the wedding trip to the eastern coast, Boston, and Cape Cod, the bride chose a beige linen suit with matching accessories, with a brown flowered silk with tangerine hat and gloves and beige accessories, with a corsage of gardenias and ivy. Upon their return, Mr. and Mrs. Logue will reside at Point Anne.

Guests attended from Belleville; Brockville; Whitby; Toronto; Kingston; Stirling; Northport; Milford; Trenton and Oshawa; Trentch and Point Anne.

Previous to her marriage, the bride was honored guest at a miscellaneous shower held at the home of Mrs. C. Arnott, Charles Street, when Miss Murray Arnott and Miss June Backus as co-hostesses; by the graduating class, 1958, of Belleville General Hospital, of which the bride is a graduate, was at a presentation for the young couple given by the Bethel Chapel assembly, and presented by the nurses of the 3rd floor of Belleville General Hospital.

WOODCOCK — WILLIAMS

TWEED — St. Columbus' Anglican Church, Montreal, was the scene of a lovely May wedding recently when Joyce Ann, daughter of Mr. and Mrs. George Williams, Tweed, became the bride of Bruce Garnet Woodcock, eldest son of Mr. and Mrs. O. Woodcock, Tweed.

The church was beautifully decorated with baskets of white gladioli for the ceremony. Mr. Gordon Wylie, of Montreal, presided at the organ.

Given in marriage by her father, the bride was gowned in a full-length creation of white nylon net over taffeta. Fitted bodice and bouffant skirt designed with Alencon lace inserts. The fitted bodice featured an Alencon lace yoke. Her finger-tip veil of tulle illusion fell from a coronet of pearls, and her only jewellery was a necklace, the gift of the groom. She carried a semi-cascade bouquet with white orchid centre bordered with pink feathered carnations and baby's breath.

Miss Marion of honor, Mrs. Beverly Wighton, and bridesmaids Miss Patricia Arrour and Miss Norma Allin, wore identical gowns of periwinkle blue silk organza over taffeta, with matching flower hats. The matron of honor carried a bouquet of yellow carnations, while the bridesmaids' colonial bouquets were of yellow carnations and blue sweet peas.

Master Karma Wighton was a dainty flower girl in floor-length frock of yellow silk organza over taffeta, and yellow coronet She carried a basket of sweetpeas.

The groomsman was Kenneth MacNeil, while Messrs. D. McMullen and H. Stevenson were the ushers.

Following the ceremony, the wedding guests were received at Chalet Bar-B-Q by the bride's mother, in beige lace with light brown accessories and corsage of Johanna Hill roses. She was assisted by the bridegroom's mother, in beige rayon and linen mesh, with beige and bronze accessories and corsage of Johanna Hill roses.

For the wedding trip to Thousand Acres Ranch, Sicney Creek near York, in the Adirondacks the bride donned a Tweed suit, white hat and black accessories, with white orchid corsage. Mr. and Mrs. Woodcock will make their home in Montreal, P.Q.

Mr. and Mrs. Geo. Ellarby Happily Wed 50 Years

A quiet hotel dinner party marked the 50th wedding anniversary Saturday for Mr. and Mrs. George Ellarby, 64 St. Charles Street, as they were the honored guests at their two children.

Both natives of England, the couple were married at Hull back in 1908 and came to Canada in 1912, in 1930 they have lived in Belleville where for many years, Mr. Ellarby was caretaker at the Canadian Bank of Commerce.

The wedding at service pension officer with the Canadian Legion, Mr. Ellarby is a veteran of World War I, having served in the Royal Army Medical Corps of Salonika in the Eastern Mediteranean area.

"I rose to the rank of corporal," Mr. Ellarby smiles, "and was known as a medical orderly."

A well known figure around the Belleville Armouries, he served for 16 years with the Argyll Light Infantry as medical officer's assistant.

Now at 73, Mr. and Mrs. Ellarby agree that they have had a good life.

"I have done a little bit of almost everything," the 50-year bridegroom notes.

10th, at one time in England he served as a lay preacher and also sold insurance. When he came to Canada he tried farming in the Moira area for a few years, then decided life on the farm was not for him

The couple attend church at the Salvation Army Citadel in Belleville.

Congratulatory messages from a wide host of friends poured into the Ellarby home on Saturday, among them a telegram from Prime Minister John Diefenbaker and a card from Grills M.P. for Hastings South.

Mr. and Mrs. Ellarby live with their daughter, Mrs. Bill Hazzard. They have a son, George Hatfield Ellarby, of Belleville, and two grandchildren, Shirley Hazzard and Frederick George Ellarby.

Peron's Girl Friend Weds In Buenos Aires

BUENOS AIRES (AP) — Nelly Rivas, shapely teen - ager who was wooed by dictator Juan Peron, was married Friday to a clerk in the United States embassy here. He is an Argentine.

Nelly, now 19, popped suddenly into the news in 1953 when Peron was kicked out as dictator. Letters found among Peron's papers indicated a romance between the two.

She was only 13—the daughter of a poor Argentine living near the presidential palace—when Peron first spotted her. He took her into the palace and lavished gifts and jewels on her that once belonged to his late wife, Eva.

The groom is Carlos Ramil, 24, who works in the accounting department of the U.S. embassy.

Catholic Women Elect Officers

HAMILTON (CP) — Mrs. H. J. White of Guelph was elected president of the Hamilton diocesan council of the Catholic Women's League of Canada at its annual convention Sunday.

Other officers: Mrs. R. J. Eilinghausen, Owen Sound, first vice president; Irene Hindelang, Hamilton, second vice-president. Mrs. H. A. Lippert, Kitchener, third vice president; Mrs. Earle Stephens, Guelph, secretary.

The 1959 convention was awarded to St. Mary's subdiocesan, Alichenar.

ACTRESS EXPECTS CHILD

HOLLYWOOD (AP) — Actor Rory Calhoun and his wife, actress Lita Baron, expect their second child in December. Married 10 years, they have a 15-month daughter, Cindy.

Wife Preserves

Gay, inexpensive, home-made curtains and a small dab to pep for the added closet they will have when in a desk drawer or utility room.

Women's Activities

HOLLOWAY WMS

The June meeting of the Holloway St. W. M. S. was held in the church rooms and presided over by the president, Mrs. T. F. Townsend. After a cordial welcome, a poem by Edgar Guest, "Divinity of Seeds" was read and prayer offered.

The reports were read and approved, and the meetings during July and August were cancelled.

Mrs. F. Scott reported four cards having been sent to the ill and bereaved with four replies received and read.

Mrs. Jamieson urged the ladies to stress the Missionary Book Shelf in their summer reading and announced the new study: "Christian Concerns of North American Neighbors".

Final plans for the "Blossom Tea" were made.

Mrs. M. B. Weese reported 50 calls had been made during the months of May. She said each W. M. S. member should be a community friendship caller reaching out the hand of friendship to all, and take as the motto, "Worship, Witness, Work and Win".

Mrs. Grills reported a fine donation to the Manse from the Presbyterial executive lunch.

Mrs. W. Phillips reported 50 fees paid and that the Easter thankoffering was $124. The fall rally was also discussed; being held in Cenotaney Church.

Mrs. Rouf and her group had charge of the devotional which was based on the theme. "The Bible and Prayer." Reading prayers of adoration and asking for guidance in daily living that one might be able to discern secret sins and worship and in the giving one's life in His service.

The meditations on the Scripture were read by Mrs. Coleman, Mrs. Weese and Mrs. Pidgeon. Prayers were taken from the writings of Dr. Denial G. Bidous, and the Rev. Geo. Pidgeon. "Each day one is filled with affairs of every day living that we have neglected our Bible, the source of the strength we need for living a Christ-like life. There is no substitute for the Bible in our devotions. Through its pages we "Level" before Him in the soul. The way it supplies all our needs grows more wonderful as the years go by." Every believer in Christ must have a time set apart in the morning to commune with God and reflection on His Word."

Mrs. Rouf and her group served dainty sandwiches during the social time.

MELROSE W.M.S.

MELROSE — The June meeting of the Melrose Women's Missionary Society was held at the home of Mrs. John Milligan on Wednesday with an attendance of 15.

Mrs. Charles Bates, Sr. presided over the meeting and conducted the worship service.

The business meeting was conducted and included "thankyou" notes read and sent to the sick and to the bereaved. Mrs. Demille read a letter received from Mrs. F. K. Hambly, president of Women's International Union of Canada, concerning the World Day of Prayer, 1958. Mrs. MacFarlane, supply secretary, reported on the sale that had been shipped. The Society also sent a Mail Delivery Wise Street United Church, in Belleville, when Miss Rogers, Mrs. Jordery, a missionary education convener.

The July meeting will be held in the church with Mrs. J. Milligan as devotional convener on the subject, "The Bible and Prayer."

Mrs. R. MacFarlane gave a most interesting program on "Understanding Each Other." Three panelists, Mrs E. Embury, Mrs. P. Johnson and Mrs. C. Osborn, with the leader, Mrs. MacFarlane, gave a short dialogue which presented many different points of view on the subject.

Following this introduction, the members took part in an open discussion bringing out many points of interest on one's understanding of others.

Mrs. Demille gave a reading, "The Secret of Power and Peace of Us" and Mrs. J. Milligan one on "Promise and Reality for Immigrants."

A social time was spent when the hostess served refreshments.

ALL SET TO TAKE "THE PLUNGE"

Although it looks like the latest thing in diving belle, this is a new fashion in wedding dresses. Designed by Heinz Centergaard, the fashion king of Berlin, "Memories of Calro," has a balloon skirt and a matched, pleated veil of French lace with a "porthole" to show the bride's face.

Three Brothers To Be Married At Same Time

MONTREAL (CP) — Because of a dream, the brothers Maurice, Raymond and Roger Perreault will take brides in a triple wedding June 14 in Notre-Dame-de-Grace Church.

The dream was that of the mother of the bridegrooms-to-be, Mrs. J. Rene Perreault. One night last year she dreamed her three sons would b married in one ceremony.

The brothers became engaged at different times but when Maurice learned of his mother's dream he decided to see if it would become real.

First, he had to get his brothers to agree. Then he had to get the fiancees to agree. They did, although Maurice thought they might have some difficulty because, he said, a bride wants to be the centre of attraction at her own wedding—without any other brides.

Then there was the matter of getting a hall big enough for more than 200 guests and relatives at the reception. That was arranged.

Maurice's fiancee is Madeleine Turgeon; Raymond is Suzanne Bissonnette, and Roger is Andree Santerre.

Contact Club Holds Season's Last Meeting

The Contact Club of Christ Church held its closing get-together of the spring season which took the form of a pot luck supper. Guests were: Archdeacon and Mrs. J. R. Creegan and the Reverend and Mrs. Everett Fisher.

Following supper, Helen McCormick thanked the members who had all worked to make the club coffee party and bazaar the success that it was, and called on conveners Mary Fletcher and Doris Stewart for their reports which were most encouraging. Club treasurer Molly Kerr gave the financial report. The sum of $200 was voted to be paid to the church wardens towards the cost of draperies in the new hall.

Before closing the evening, Nadine Thorne presented a cup and saucer to Frances Anderson on behalf of the club members as a memento of her association with the Contact Club. Frances is leaving the city to take up residence in Montreal, and will be greatly missed. Club activities will be suspended during the summer.

Corbyville Scouts, Guides Enjoy Ball Game

The school grounds of No. 9 Thurlow public school, took on a colorful scene last Friday evening when the 1st Corbyville Scout troop joined the 1st Carmel Guides in a lively ball game. Jack Stan Kerr, scout master, was the umpire.

When the game was called because of darkness all present gathered around the camp-fire to toast wieners and marshmallows and drink Coco-Cola donated by the local company.

Following the wiener roast, the Scouts and Guides spent a social hour together in the school where candy and cookies were served which were made by the guides. As parents arriving for their sons and daughters joined in the fun, the dance it proved added to the gala festivities.

Scoutmaster Stan Kerr expressed his thanks and suggested more such social evenings and invited the Guides to Camporee in the fall.

Special thanks the boys for coming and making the evening a happy and enjoyable occasion.

GOOD MANNERS

By Mrs. Beeckman

TODAY'S COURTESY TIP TO GRADUATES-TO-BE

When a graduate sends a ready-made card with a printed "thank you for your graduation present" on it, don't you wonder what that diploma stands for? Doesn't it be a graduate know how to write a polite thank-you note? Should be learned-

A CORRECT FORM FOR "REGRET" OF FORMAL RECEPTION INVITATION

Dear Mrs. Beeckman:

My husband and I have just received two formal invitations to large church weddings and receptions. We will, unfortunately, not be able to accept these invitations. Will you please tell me how to write the "regret" to these invitations? — T. M.

This is a correct form for the regret . . . written on the first formal double-sheet letter-paper or note-paper, a n d spaced carefully, similar to the spacing of the invitation:

Mr. and Mrs. Arthur Mills regret that they are unable to accept

the very kind invitation of Mr. and Mrs. Clark

for

Tuesday, the first of July

Note 1: With special politeness, when you "regret" the invitation, refer to the invitation as "the very kind invitation."

Note 2: In a regret it is not necessary to repeat the hour.

"I WISH YOU GREAT HAPPINESS"

Dear Mrs. Beeckman:

I am very self-conscious, and I never can think of the right thing to say at the right moment. I have been to a few weddings and receptions, but now it so happens that there are two next weeks. I'll be going to several, and I'd like to have you tell me one short "greeting" I could say to the bride or the groom as I pass along the line. Something that would be appropriate whether I knew them well or not so well. And the shorter, the better, please. — Grateful Reader

"I wish you great happiness." How about these 5 words? A perfect wish, I think, and always appropriate. And they have a natural warmth and graciousness. Try saying this "wish" a few times (perhaps before a mirror, to get you used to saying them), and you'll find, I do believe, that it is a very pleasant and easy-to-say combination of words.

SAME FORM OF NAME FOR WIDOW AS FOR MARRIED WOMAN

Dear Mrs. Beeckman:

What form of name should I use in addressing an envelope to a widow? — G. A.

Use the same form of name you would use correctly in addressing an envelope to a married woman . . . Mrs. John Blake.

CORRECT TO INCLUDE NAME OF CHURCH IN ANNOUNCEMENTS

Dear Mrs. Beeckman:

My fiance and I are to be married in September, in the church to which we both belong and which we have both been very active workers for several years. Te wedding will be very small and simple, and because of circumstances we will not be able to have a reception. But we both have many relatives and friends, some living nearby and some at a distance, some even in Europe, and so we plan to send formal announcements of our marriage. On these we had thought of including the name of our church, in which the marriage will take place. But neither of us has ever seen this done, and in none of the sample announcements I've collected is the name of the church included. Is it ever correct?

— Anne

Yes, indeed it is entirely correct to include the name of the church in which the ceremony was performed, and in your case it would be particularly meaningful and personal.

The name of the church comes after the date:

on Tuesday, the ninth of September

Nineteen hundred and fifty-eight

New-Line Accessories

BY GRACE THORNCLIFFE

The current fabric gloves are more ornamental, more pretty and practical than ever. As proof here is a glove of double-woven cotton in beige or bright gold tone with charming open — work detail at the side and cuff.

To go with the chemise dress we have a beige calf handbag with a deep, long silhouette. The self strap is placed low in the manner of the new dress belt line.

Fabric and leather get together in a smart summer pump. Beige linen is set off by white leather in the heel and in the underlay at the perforations. Two white leather straps cross the vamp.

Sack, Chemise Will Be With Us This Fall

By JOSEPH MacSWEEN
Canadian Press Staff Writer

NEW YORK (CP) — Husbands, take heart. You still carry some weight where sack styles are concerned.

This was one husban I's conclusion Wednesday after looking in on two fashion shows for fall in the heart of New York.

The sack and the chemise will be with us for fall, but in modified form and you can bet the modification results from male likes and gowls.

Frederic Peter, commercial counsellor to the French embassy, took note of this in introducing a show of haute couture knitwear by Tricosa of Paris at the Sheraton-Astor:

"These are chemises that even husbands will like."

The styles, while generally loose, follow the contour of the figure more than those now seen on the streets.

Another feature is the "roving waistline," which may be anywhere from just below the bosom to way down there. One model showed how the waistline could be changed merely by loosening her belt and moving it about. But there WAS a waistline.

Hannah Troy of Seventh Avenue is proud of her "Josephine" collection which, she said, "has the look that drove Napoleon wild —and we've got our own emperors to think about."

Miss Troy disapproves of the extreme sack, settling instead for the "no-I'm-not-pregnant look." On the other hand she believes that just a hint of the female figure has more impact than something "plastered on."

RAWDON T.P.U.

RAWDON — Mr. and Mrs. Burton Morton and Mildred entertained Rawdon Young People's Union at their home at Wellmans on Thursday evening.

The president, Miss Joyce Reid, conducted the worship service. Miss Jean Tompkin read the Bible lesson and David Potts the prayer. Miss Mildred Morton was in charge of the meditation story.

Misses Gail Jetts and Raye David contributed a vocal duet and Miss Eleanor Smith conducted a Bible quiz.

Plans were made to have a wiener roast at Mrs. J. Morrison's cottage, Oak Lake, on the evening of June 23, and this will conclude the meetings until autumn. The group also made plans for ball practice.

The program included a vocal duet by Misses Janet and Jean Tompkins; a reading by Raeburn Scott who, assisted by Miss Mildred Morton, conducted the sing-song.

The president expressed thanks for the hospitality. The service closed with a hymn and the Wellmans girls served refreshments.

SUNBEAM M.B.

Mount Pleasant Rawdon Sunbeam Mission Band convened in the church hall Sunday, morning with an attendance of 22.

The meeting was presided over by the president, Pauline Johnson. A report was given by Fred McAdam, and the Bible lesson was read by Carol Sharpe. Mrs. Harry McAdam outlined the chapter from Kenli entitled, "The Good Teacher."

The offering was gathered by Larry Jeffs and Jimmie Scott and was dedicated, after which a children's hymn was sung.

Piano solos were rendered by Shirley Potts, Barbara Williams and Diane McAdam. Selections were sung by Larry Jeffs from Howard Jeffs. A vocal solo was sung by Bruce Cooney. Vocal duets were given by Judy Cooney and Gail Scott; and Carol Sharpe and Jean Sharpe. Gail Jeffs read "What Color Is Your June?" as assigned by Viola Pratt in "Journeying With the Year."

The next meeting will be held July 9 at the church hall with the W.M.S. as the hostess group.

THE FAMILY COUNCIL

EDITOR'S NOTE: The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a woman's editor and two writers. Each article is a summary of an actual case history. The Council reports on problems that have been dealt with by responsible agencies and counsellors.

Claire F. — His children are after his money.

Donald F.' — Maybe I want to fool myself.

* * *

Claire F. — I'm my husband's second wife, so maybe I have no right to talk about the relation ship between him and his children, but it really gets my goat!

When I married Don three years ago, the children would have nothing to do with him — never a phone call, never a greeting card or a note telling him what was going on with them. A few months ago he inherited quite a bit of money, and like a fool he called up his children and told them about it.

Now we are besieged by telephone calls and "friendly" visits. It chills me to the bone to think the children could act like that and Don should be fool enough to fall for it.

* * *

Donald F. — Maybe I'm fooling myself, but I guess I just want to be fooled. I'm tickled to see the children and my grandchildren after our long separation. I like to think they really wanted to see me for myself, but I think they are trying to make the first gesture.

When my wife and I separated some ten years ago there was a lot of bitterness, and the kids turned against me. I guess I gave them a pretty raw deal and I don't entirely blame them for the way they acted.

After their mother died I wanted to let the children know they still had a parent, but I was afraid of what their reaction would be. I waited and found the opportunity.

* * *

The Council: Claire's feeling that she may have no right to interfere in the relationship between a parent and his children is on the right track.

She cannot understand all the undercurrents of this relationship, and she is not in a position to judge the children's real motives. It is quite possible these children had some residue of love for their father and welcomed the opportunity to renew the relationship.

When their mother died these children felt completely bereft and possibly their feeling toward their father was exceptionally bitter at that time. But when the wounds had a chance to heal and they matured further in their own experience of life, they may have come to realize they were in no position to judge their parents' relationship.

They may have had the urge to have contact with their father, but found it difficult to bridge the chasm. Donald is not necessarily feeling himself about this.

On the other hand, possibly Don welcomes the opportunity to t e his children make use of him simply because he would like to make up for his past behavior. Surely he is entitled to seek some explanation in this manner.

If Claire meddles in these delicate matters, she runs the risk of exposing herself to the same kind of accusation she is making against the children — that of being more concerned about the money than about Donald.

If she values her husband's happiness, she will not poison the pleasure he has found with h i s children.

BARONESS HAS CHILD

LAUSANNE, Switzerland (AP) Baroness Heinrich Thyssen, 26-year-old former London fashion model, gave birth today to a 6½-pound girl named Francesca Anna. The former Fiona Campbell-Walter, daughter of a British admiral, and Thyssen, 49-year-old heir to a German Ruhr industrial empire, were married in September, 1956.

Women's Activities

SHANNONVILLE W. M. S.

The monthly meeting of the W. M. S. of Shannonville United Church was held at the home of Mrs. Frank Doxtader on the afternoon of June 5th with 22 members, visitors, and three children present. The president, Mrs. Charles Wood, welcomed all and read a verse.

Mrs. Lorne Lazier, group leader, had in charge. The theme for the month was "Christian Giving".

Mrs. Robertson led in a prayer of thanksgiving. Mrs. Lazier read the Scripture lesson from Matthew 6, and Mrs. Doxtator gave a reading.

The president conducted a contest. Mrs. Orval Stratton and Mrs. William Ross were the winners.

Mrs. Ross gave a reading showing how missionary money is divided to help the different projects of missionary work.

Mrs. Lazier offered prayer and thanked her group for their help. The president thanked Mrs. Lazier for her good work as group leader for the last two meetings.

Mrs. Wood took charge of the business. A card of thanks was read from the Pitts family and a letter of invitation to a missionary conference at Holloway Street United Church, Picton, on the evening of June 6th.

Mrs. Damon Hinchey read about the use of discarded nylons by the women of Japan and offered any on hand. The bale to be sent this month. Any good, clean, used clothing is acceptable.

Mrs. Ross gave the treasurer's report.

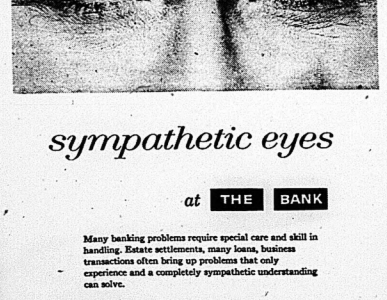
The president thanked the hostess for opening her home for the meeting.

Mrs. Doxtator, assisted by Mrs. Lazier and her group served refreshments.

Next meeting the 1st Thursday in September.

BACKS ICELAND

REYKJAVIK, Iceland (CP)— Russia has formally backed Iceland's decision to extend its offshore fishing limits to 12 miles, the extension—strongly opposed by Britain—was backed by Russia when its ambassador, Pavel Firmeshin, called on Icelandic Foreign Minister Gudmundur Gudmundson Thursday.



sympathetic eyes

at THE BANK

Many banking problems require special care and skill in handling. Estate settlements, many loans, business transactions often bring up problems that only experience and a completely sympathetic understanding can solve.

We believe that you will find the intelligent reasoning and the friendly, helpful advice you need at any Toronto-Dominion branch. The Manager and his staff will be pleased to discuss your banking problems— no matter how large or small, or whether you are an old customer or a new one. Why not drop in and talk it over.

When Press Gals Meet

by Mary Moore

Try to imagine press club women of all ages, heights, shapes and opinions described in Huron College, the Anglican Men's Residence at the University of Western Ontario in London, temporarily vacant for the few days between winter and summer students.

The occasion was an Ont.-Que. Regional Conference of the Canadian Women's Press Club and the London Branch was host. Their idea of hilarity is in a democratic mash. To see those gals wandering around the masculine corridors with toilet case and towel in hand, in transparent dusters or trailing peignoirs, and meeting face on in the shower room with plastic rain hoods for shower caps — well it was worth the trouble of travel and price of admission! Hilarious and unforgettable.

The menus, of course, were carefully planned by the menu conveneer and London's best chefs. They included roast chicken with tarragon sauce at a dinner at which the London Free Press was host, and roast chicken with sage and plum sauce at a Sunday luncheon at which the Spectator Beacon Herald and St. Thomas Times-Journal were hosts.

It is these two sauces that I want to talk about today for they were so delicious and so easy to make and down the tables. I shall add too that at a luncheon, courtesy of the City of London, the scalloped potatoes with ham were perfection itself, and I would give my eye teeth (I think I still have them) to have watched the cooks at Huron College when they boiled orange potatoes for over one hundred guests.

ORANGE GLAZE AND SAUCE FOR ROAST DUCKLING:

When roasting ducks begin to brown baste every 15 or 20 minutes with ½ cup orange juice to which a little grated rind has been added. When done, drain off all but 1 tablespoon of fat in pan. To this and the drippings add ½ cup cold water and cornstarch well. Strain and add to 1 cup orange juice and ½ cup very finely shredded rind which has been parboiled 5 minutes, ¼ cup currant jelly, ¼ cup light brown sugar. Thicken with

Dinner Menus

by Mary Moore

MONDAY

Fricassee of Beef Liver with Tomato, Spanish Onion and Green Pepper; Mashed Turnip with Potato; Asparagus; Celery Hearts; Custard Pears with Gingersnaps; Coffee.

SPICED PLUM SAUCE:

To be served with Roast Chicken.

Simmer one 20-oz. can of red or purple plums with 2 sticks of cinnamon and 6 whole cloves 20 minutes, covered. Force through strainer. Measure 2 cups or bring up to 2 cups by adding hot water. Mix together 1 teaspoon cornstarch and 1 tablespoon cold water and stir in until thick and cook 10 minutes in double boiler to remove raw starch taste. This sauce must be of this pouring consistency. Pass at table. Delicious with any fowl, and we like it with lamb. If the color is not a rich red add red liquid coloring.

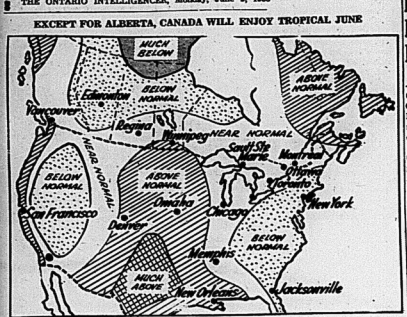
EXCEPT FOR ATLANTIC, CANADA WILL ENJOY TROPICAL JUNE



No unseasonable heat waves are likely this month as the weatherman foresees near-normal temperatures across the southern section of Canada. The exception is Alberta, which, like northern Canada, will suffer below-normal climate.

Agatha Christie, World's Most Prolific Author of Whodunits, Does Not Find Writing Easy

LONDON (AP)—"People think writing is easy for me," sighed Agatha Christie, one of the world's most prolific authors of whodunits. "It isn't. It's murder."

Out of the vile subject of murder, of course, the gentle Mrs. Christie has earned a fortune. She has truly made crime pay.

Asked how large an income she reaps from nearly 60 mystories, novels and plays, her backer Peter Saunders replied: "Something astronomical. Out of all belief."

PLAY SETS RECORD

Her detective stories have been published in many lands. Millions of people have read them. Millions are reading them and presumably unborn millions will read them.

Two years ago she sold the movie rights of Witness for the Prosecution to Hollywood for $325,000.

With its 2,239th consecutive curtain last month her detective story The Mousetrap set a continuous performance record for a British play, beating Chu Chin Chow of the 1920s.

At one time last year she had three plays showing simultaneously at three London theatres.

"For years," said Mrs. Christie, "I used to go home and think, 'one day they'll find out. I'm no writer at all.'

"Only now am beginning to believe I'm not so bad and it's a little late."

IN LATE 90s

Mrs. Christie does not like to talk about her age. Who's Who skips the subject. Dates in earlier record books and magazines show she is now 67 or 68.

She was born Agatha Mary Clarissa Miller in Torquay, England, and her father was an American, Frederick Alvah Miller of New York.

She married Col. Archibald Christie in 1914. They had one daughter. The marriage ended in divorce in 1928.

In 1930 she married the eminent archaeologist, Max Edgar Lucien Mallowan, whom she met in Ur, Iraq.

Mrs. Christie—she prefers this professional moniker to Miss Christie—wants to be called Mrs. Mallowan in private life.

STUDIED SINGING

She did not embark in life's bustling stream as a writer. During the First World War she was a volunteer ambulance driver in France. She had received professional training as a prescription chemist and in the vastly dissimilar business of an opera singer.

Fairly early in life, however, her English mother and a friend of the family, the author Eden Phillpotts, encouraged her to write.

Her first effort was a thriller, The Mysterious Affair at Styles. It failed to thrill several publishers to whom it was submitted. The fact that it didn't remains one of the monumental bad guesses in the tricky business of publishing books.

One firm—Collins—liked her origie. I whodunit, though. And they've kept on liking her subsequent works.

Although extremely prolific, Agatha Christie's total of nearly 60 works is far behind Edgar Wallace's staggering list of 200.

OWNS EIGHT HOUSES

Mrs. Christie is rich. Big rich. She owns eight houses, preferring to live at Greenway House on a Devon Hill overlooking the silver Dart.

A tall, big - boned, tweedy woman, Mrs. Christie resembles many of the victims knocked off in her murder stories.

She has a fine, sensitive nose, a powerful chin, a soft voice and gray-waved white hair.

She loathes publicity, despises posing for photographers and refuses to make public speeches.

She attributes her shyness to childhood but staunchly believes that authors should be read, not seen or interviewed. She dislikes big parties and she neither smokes nor drinks.

"I tried them both just to be sociable, but I never managed them, so now I never touch them."

LIKES FOOD

"I like food very much," she added, "and cooking is one of my hobbies." Others are reading, travelling and swimming.

A book takes from two to eight months.

All of her tales are not detective stories. Under the name of Mary Westmacott she has penned several straight novels. The whodunit, however, is really her love.

Gentle by nature, she even carries it into her dark plots.

"I prefer poison," she once said. "It's a nice tidy death. Shooting is more trouble."

Mrs. Christie doesn't like sordid stories and is convinced she couldn't write them if she tried.

For her the mystery is the thing. Her characters attract no great sympathy and her drama doesn't harrow. It's all so orderly.

ENJOYS OTHERS' STORIES

Mrs. Christie writes for money but she derives much pleasure from it, too, when she's finished the effort.

She even likes to read other writers' whodunits.

"I can usually solve the plot when I'm about half way through. I keep on, though."

Mrs. Christie's own thoughts about her work should encourage discouraged would-be authors:

"I've never written a book that I haven't abandoned in dust half-way through."

Housewife Sues Mining Bodies For Million

URANIUM CITY, Sask. (CP) —A housewife has filed a $1,000,000 statement of claim in Court of Queen's Bench against Frobisher Limited, a Toronto mining corporation, and other companies and individuals.

Mrs. Evelyn Oak of Uranium City alleges that fraudulent and perjured evidence was given and facts were suppressed in a Queen's Bench trial in 1956 which upheld Frobisher's control of mineral claims on Stevart Island in the uranium-rich Beaverlodge area.

Mrs. Oak said her husband, Alvar Oak, and his three partners, gave James Harquail of Toronto a written option on Sunday, June 26, 1955, to purchase 37 mineral claims. She alleges the transaction was contrary to the Lord's Day Act. The next day, Mrs. Oak says, she recorded 18 of the claims in her own name.

Three days later Oak and his partners gave Canadian Pipelines and Petroleums Limited of Calgary an option to purchase the 37 claims for $200,000 and 10 per cent development interest. Mrs. Oak said her consent for her portion of the claims was not obtained.

Later, Harquail registered a caveat against the 37 claims on the basis of his agreement with the four partners. On July 20, 1956, Frobisher, contending that Harquail was its agent, commenced action in Queen's Bench Court in Regina against the four partners and Canadian Pipelines and Petroleums. The court upheld Frobisher's control of the claims.

Mrs. Oak, a Swedish-born trapper and prospector, contends that she Harquail caveat and the Frobisher injunction have tied up the claims for the last three years, preventing development. She says the claims might have represented a fortune if they had been developed earlier.

Mrs. Oak claims a Frobisher geologist, a free-lance geologist and a Uranium City bank manager contributed to a conspiracy to defraud her by giving false evidence at the 1956 trial in support of the Frobisher claims.

Blackleg Can Be Prevented

TORONTO — Blackleg, a disease of calves and young cattle, is troublesome in many parts of the country during the pasture season. The disease is spread by soil-borne organism which is capable of resisting extreme heat and freezing temperatures.

Blackleg is an acute disease that usually ends in death within 48 hours after the onset of symptoms. Affected animals tend to stand apart from the herd and are lame when forced to move. In the final stages the sick animals lie flat on the ground and breathe with a great deal of difficulty. Blackleg usually affects calves under a year old, but occasionally, older animals are involved in outbreaks of the disease.

Because of the similiarity of this disease to anthrax, which may be fatal to man, a veterinarian should be consulted for diagnosis and to carry out control measures. Dead animals should be burned or buried deeply in quicklime. According to the Ontario Veterinary College, a regular program of vaccination of young stock should be carried out on farms where there is history of blackleg.

CLOSEUP FOR VISITOR

NIAGARA FALLS, N.Y. (AP)— An Indonesian police commissioner on a tour to observe police operations watched the handling of a traffic accident at close range Friday. R. Salmet Solkardi was riding in a Niagara County sheriff's car when it and another car collided. The other driver was given a summons for passing a stop sign. No one was hurt.

Albury

ALBURY — Mr. and Mrs. Hugh Weese, Mr. and Mrs. S. C. Peck and Paulette spent Thursday evening with Mr. and Mrs. Mac Allen and Mr. and Mrs. Ronald Crook on the occasion of Ronald's birthday.

A number attended the music festival at Albury Church on Friday evening with S.S. 2, 3 and 4 taking part, with Mrs. Reilly, the music teacher, in charge. The Rev. J. Kippen acted as chairman, giving much credit to teacher and pupils.

Douglas Peck was among the boys who were treated to a trip to Toronto on Friday afternoon and Saturday by The Telegram.

Miss Diane Bonter and friend of Toronto, spent the weekend with her parents, Mr. and Mrs. Harold Bonter.

A number attended the opening ceremonies for the Purina feed mill at Whitby on Saturday. Everyone enjoyed the barbecue chicken dinner.

Nearly 30 ladies gathered at the home of Mrs. Allan Weese and Mrs. Robert Weese as co-hostess to honor Miss Diane Bonter before her marriage in July. Diane received beautiful gifts and thanked everyone. Refreshments were served.

CHALKED WALLS, FACE JAIL

NEWMARKET (CP) — Four teen-age boys who marked a public school's walls with chalk will spend seven days in jail because their parents won't pay $30 fines. Magistrate Hollinsky Friday sentenced the four to seven days or $30 for defacing the school building.

Inco Metals at work in Canada

To help insure the purity of the milk you drink, the tanks on most modern dairy trucks are made of stainless steel containing about 8% nickel. The stainless steel for these tanks is manufactured right here in Canada from nickel supplied by Inco. In Sudbury, Ontario, Inco's nickel mine, mill and smelt the nickel-bearing ore. Then it goes to Inco's Port Colborne plant for refining. The refined nickel is sold to a Canadian steel company for the production of stainless steel. And Canadian fabricators use this nickel-containing stainless steel in the manufacture of dairy tank trucks and many other products.

There's INCO NICKEL in modern stainless steel dairy tank trucks... *and it helps keep your milk pure*

STAINLESS STEEL is a modern miracle metal. It resists rust and corrosion. It won't stain or tarnish. It has a bright, shiny surface that is easy to keep clean.

No wonder so many modern hou wives want stainless steel sinks in their kit ens... stainless steel tableware in their dining rooms. Architects have used stainless steel for years to brighten and beautify the interiors of the buildings they design... and now they're using it for the exterior walls of buildings. Food processing industries depend on it to help keep their products pure.

Take the dairy industry, for example. Modern farms and dairies are now using stainless steel equipment for handling and processing milk. The milk seldom touches anything but stainless steel from milking to bottling time. Even the tanks on the huge trucks that haul milk from the farm to the dairy are made with stainless steel to protect the milk from contamination.

These dairy tank trucks are manufactured in Canada. The stainless steel that goes into them is also produced in Canada. Most of the stainless steel used in Canada for dairy equipment contains Inco Nickel. Another example of the way Inco metals serve the Canadian industries that serve you.

FRANKFORD

Big Building Projects Take Shape in Village

FRANKFORD — If present indications count for anything, 1958 village will be in for one of the most time record building spur since 1953.

Business property under construction includes an insurance office for A. W. Wright being built on King Street between the residences of J. M. Dafoe and Earl Baker. It will be ready soon.

Frankford Building Supplies on South Trent Street (the old Fountaine Press) is having a big addition built on the rear of the property and the building will now extend to King St. filling in the entire lot between King and Trent.

New homes being built include one for the Rev. Spurrell on River Rd. south of his son, Paul. Earl Hewison, on Victoria Street; Russell Patrick on North Trent Street; Bedrick Cap on North Trent Street; Sam Bartman, on Scott Street, and Lands Reilly, on Scott Street.

Among the change and remodelling jobs is an extensive bit of work being done on a barn on Mrs. Mulvihill's property. Mr. Harry Bearns has been making many changes to his home on Trent Street S.

Several Win Prizes at Festival Of Sacred Praise

FRANKFORD —Last Monday morning the annual Festival of Sacred Praise, under the auspices of the board of St. Paul's United Church, Stirling, and the managing committee, began a two-day session of adjudications with Dr. Stanley Osborne, music director of the Toronto Conservatory of Music, Toronto, as adjudicator.

Prize winners from Frankford were: Class 13 — solo, girls under 14 years, silver medallist, Bonnie Row; Class 45 — boys' choir, St. Frankford Public School choir, winner of the new trophy presented by Mrs. H. Keefer of Trenton.

Class 12 — public school choir, 3rd, Frankford Public.

Class 16 — girls' teenage ensemble, Frankford Public was the only entry and received 78 marks.

Class 17 — girls' double trio, 3rd, Frankford Public School.

Class No. 20 — girls' or boys' duet, under 14, Judy Whitmore and Jean Caldwell.

Class No. 21 — contralto solo, 2nd, Margaret Sine.

Class 31 — contralto solo, 2nd, Wanda Martin, winner of the Mr. and girls' under 8 class Joan Shannon.

Frankford Sunday School was runner-up in the Scripture classes.

C.A.'s Hold Musical Night

FRANKFORD — Frankford Unit Group C.A.'s held their meeting Friday evening.

The president Carl Andrew, was in charge of the service and welcomed everyone.

Mrs. F. Stevens led in prayer and Miss Ronda Payne rendered a piano solo, "He's Got the Whole World in His Hands." Miss Gail Walker Sang, "It's In My Heart."

Mr. and Mrs. C. Andrews sang the Trinity Hymn.

Miss Carolyn Reichert conducted a sword drill. The girls' title, Miss Barbara Clarke, Miss Wannamaker and Miss Patrick, rendered, "Stand Up In the Need of Prayer."

Evangelist Jim Pierce played a trumpet solo, "O, What A Day," and Carl Andrews read the Scripture, Hebrews 12. Mrs. Doug Flood and Miss Connie Elliott favored with a vocal duet, "Blessed Jesus Hold Your Hand." A time of prayer closed the service.

FLYING MAMMALS

Canada has seven different species of bats, the only mammals that possess wings.

PRINGLE AND COOPER

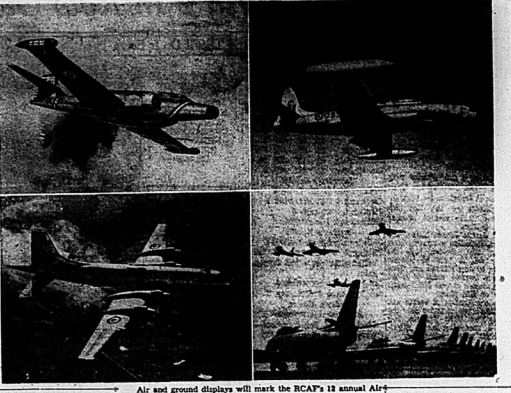
RCAF ON DISPLAY



Air and ground displays will mark the RCAF's 12 annual Air Force Day when some 22 stations across Canada hold "open house" June 14. Aircraft shown here will be among the feature performers in the airborne exhibitions. Star of the show, at top left, is the CF-100 "Canuck" interceptor, the all-weather fighter which guards the aerial approaches to North America. Beside it is the T-33 Silver Star, the jet on which Canadian and NATO personnel train up to modern flying standards. The Argus, bottom left, a newcomer on the scene, will appear at a number of stations. This big submarine hunter-killer, to be flown by Maritime Air Command, is labelled the best of its type in the world today. The familiar Sabre jets which appear here at bottom right, will again play an exciting role in the aerial displays. (RCAF Photos.)

Receiving Home Of Salvation Army Welcome

TORONTO (CP)—The receiving home run by the Salvation Army on Sherbourne Street here provides emergency shelter for stranded girls, abandoning wives many women in distress. Since it opened last February more than 100 women have spent at least one night at the centre.

It is presided over by Maj. Mary Wiseman, of Wat-, N.S., and Captain Florence Hill, who came from Montreal, and has temporary accommodations for 15 women. They go for various reasons. Some arrive in the middle of the night after being found by police wandering the streets in desperation.

Youngest visitor was a baby only a few weeks old, brought by its mother to stay while the Salvation Army sought her missing husband. Although the shelter is mainly for temporary visitors, it also has semi - permanent residents who will eventually be housed in an adjoining home. These, who may stay as long as a year, usually are youngsters released by the courts to the care of the Salvation Army.

EXPERT HELP

The routine is strict, but is aimed at fitting the visitors for work and life outside the supervision of the organization. They rise at 7 a.m., breakfast in a briskly - decorated dining hall and have 20 minutes in prayers led by a Salvation Army officer before doing their housework.

Then girls who are seeking employment go out, while others stay to help with the cooking or laundry work. Afternoons are free to go out if they wish, and they are permitted outside four evenings a week, but must be back by 10 p.m.

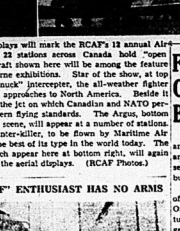
Major White is always available to counsel the visitors. She keeps in touch with the Salvation Army's own employment agency and with the city welfare and other agencies. She has been in the Salvation Army for 28 years, doing social work in Hamilton, London, Ottawa, Saint John, Halifax and Sydney, N.S.

Captain Hill became an officer in the Salvation Army 18 years ago, and has done field work in many Canadian communities— Winnipeg, Fiji, Australia, Indian Head, Yorkton, Watrous, Maple Creek and Regina in Saskatchewan; Calgary, Vermilion, Grande Prairie in Alberta and at Port Arthur and London, Ont.

GET BIRTHDAY HOLIDAY

NEW YORK (AP)—Birthdays should be happier than ever for 15,000 employees of about 2,000 Manhattan apartment houses. Their new contract, agreed on Friday, calls for days off for birthdays. Some 21,000 employees of commercial buildings have a similar clause in their pact.

"DO-IT-YOURSELF" ENTHUSIAST HAS NO ARMS



Besides being an artist, Athol Thompson is a "do-it-yourself" enthusiast, although he has no arms. Pictured painting the outside of his house in Victoria, Australia, Mr. Thompson grips the brush in his teeth, both for house and picture painting. Mr. Thompson also moves his own ladder with his teeth.

ROSLIN

W.I. Hears Report of Guelph Officers' Meet

ROSLIN — The June meeting of the Women's Institute was held on Thursday evening at the home of Mrs. Ben Seale with 23 present, Mrs. Ben Seale, president, in the chair. Mrs. Chisholm presiding.

It was decided not to have a short course this year; three members were named to arrange exhibit for Belleville Fair, and final plans were made for the district annual to be held at Roslin on June 13th.

Members were asked to bring their best month on how to celebrate the 50th anniversary of the founding of the Roslin Branch; an invitation was received from Canniston to attend a "rose tea" and bazaar June 18th in the town Hall. Dates for the W. I. holiday at Guelph are July 14th to 18th.

GUEST SPEAKER

The president, Mrs. Chisholm, introduced the guest speaker Mrs. Thompson, of Moira, who had attended the Officers' Conference at Guelph, recently. She gave a most interesting and informative report. This year's theme was, "The Challenge of Tomorrow."

The leader, Mrs. F. Gray, conducted the program and gave a paper on the motto, "It is Good to Pray for Crops, But Keep on Hoeing."

Mrs. W. White gave the topic, "Why the Farmer Needs an Education."

A reading, "The Deserted Parlor" by Mrs. Woodward; a reading, "Music on the Farm" by Mrs. F. Meeks, and "Love Letters" by Mrs. D. Sills, and a poem, "I'm Glad I Live in a Country Lane" by Miss H. Wilson.

The ladies conducted a contest. Refreshments were served by the hostess and her assistants and a social time enjoyed.

Fire Hazards On Farms Can Be Reduced

TORONTO — Carelessness and a of knowledge of fire hazards around farm buildings causes many of the fires to farm buildings each year.

To help decrease the number of fires to farm buildings, the Ontario Department of Agriculture makes a number of suggestions to farmers:

1. Never erect a new building in line with prevailing winds and other buildings. If all buildings are in a line, a fire in the end building with the wind blowing in the wrong direction can destroy all of them. To guard the farmstead against total loss, never locate buildings closer together than 150 feet.

2. All wood farm buildings should have fire proof roofs of metal or some other fire-resistant material to guard them from flying sparks from burning rubbish or chimney fires.

3. Hay chutes and stairways should be kept closed. They act much like chimneys in the event of a fire. A solid floor above a fire slows down the fire, and the minutes thus saved may mean the difference between partial and total loss.

4 Since the barn is usually the largest building on the farmstead, it should have lightning protection. Most farms in Ontario have this equipment, but it is not maintained. Poor or broken ground conductors give lightning the chance it needs to start a fire.

Remember that lightning never strikes twice in the same place — is seldom gets a second chance!

Ontario Department of Agriculture Circular 236, "Safety Around Farm Buildings", contains much information on this important subject. It is available at the office of the Agricultural representative.

Roslin

ROSLIN — The Woman's Auxiliary held its June meeting on Friday evening at the home of Mrs. William Bates.

Mr. and Mrs. Harry Sills left last week for a three weeks' holiday with his brother in Alberta.

ISLAND PEAK

Mount Victoria, with an altitude of 7,485 feet, is the highest point on Vancouver Island.

FRANKFORD

Residential Tax 61 Mills, Business 66

FRANKFORD — The village council has set the tax rate at 61 mills on residential property (down 4 mills from last year) and 66 mills on business property which is a half mill less than in 1957.

Citizens who have been mentally bracing themselves for a big increase this year can take a sigh of relief.

Complete figures on the budget are not available at this time but it is hoped provision has been made from a bit of dust laying on King Street.

Point Anne

POINT ANNE — Mr. and Mrs. Earl Snider and grandchildren, Shyrl and Cindy, Consecon, spent Sunday with Mr. and Mrs. Floyd Henderson.

Mr. and Mrs. Dennis Loch and Gary, Front Road, were Sunday guests of Mr. and Mrs. Milton Akey.

Mr. and Mrs. Jack Andrews and children spent Sunday afternoon with Mr. and Mrs. Wesley Reid.

Mr. Reggie Cox has returned home from the Belleville General Hospital and is improving nicely.

Little Bruce Callaghan has returned home from the Hospital for Sick Children, Toronto, and his condition is satisfactory.

Sorry to report Mr. Frank Macdonald and Mr. Stanley Whitehead, both in the Belleville General Hospital. Their many friends wish for them a speedy recovery.

The weekly euchre club was held at the home of Mrs. Floyd Henderson. Winners, Mrs. Sally Lloyd, Pearl Secretariat; low, Mrs. Agnes Whalen. After euchre Mrs. Henderson served refreshments.

Congratulations to Mr. and Mrs. Ray Nugler (nee Diana Whitehead), who were married on Saturday in St. John's Anglican Church, Point Anne.

Frankford

FRANKFORD — Mrs. W. V. Simmons and son, Reg, were Sunday guests of the Rev. and Mrs. W. L. Simmons, of Napanee.

Mr. Jason and Tommy, motored to Oak Lawn, Illinois, spent Thursday and visited his niece, Mrs. Mary Patrick and family.

Mr. George Reith, of Toronto, was the guest of Mr. and Mrs. Earl Rogers and family.

Mr. and Mrs. Ralph McMullen and family have left the village and taken up residence in Batawa.

Mr. and Mrs. Stanley Jackson, of Niagara Falls, New York, were Saturday guests of Mr. and Mrs. E. Curtis.

Harold Stickle, past president and secretary-elect of the Frankford Lions Club, is district secretary of a new Scout district organized at the Presqu'ile Camping and Training Centre. The district includes Frankford; Wooler; Batawa; Carrying Place; Colborne; Brighton village, and Brighton township.

BARN DESTROYED

Thursday afternoon a barn belonging to Mr. Charles Bonter in Sidney township was struck by lightning, and destroyed by the resulting fire. The fire department made a fast run to the blaze, but the building partly filled with straw, was a total loss before they were able to get to it. Mr. Bowman, who is entered lives on Mill St. in the village.

A social was passed Monday night at the meeting of the Frankford council naming a new police constable to succeed Constable Ewing: chairman — Carmen Mikel; members — Roy Moran, and Reeve George Spencer.

THE ONTARIO INTELLIGENCER, Monday, June 9, 1958

SUMMERTIME COUNTERPART OF SNOWBLOWER

To keep grass seed along Ontario highways from blowing away and to help it germinate the summertime counterpart of the winter snowblower, a "strawblower" is bordering the roads with golden-colored straw. The blower can consume as high as 50 bales of straw in ten minutes. The straw is treated with bitumels (tar) so it will not blow off the seeded shoulders of the road. This one is operating near Orillia.

Wellington

CAUGHT IN THE ACT

While his neighbors watched from a window, an unidentified man leaps from the roof of the house in which he lived in Norrkoping, Sweden. After wrecking his apartment, the man climbed up on the roof and threatened to stab himself with a knife before leaping. When he finally did jump, police and firemen were on hand to catch him in a net. Unhurt, he was taken to a hospital.

WELLINGTON — Mr. and Mrs. Lewis McFaul entertained at dinner Saturday evening. The guests were Mrs. Armstrong of Belleville and Mr. Kent, inspector of the H. J. McFarland Company.

Mr. and Mrs. Allan Noble and Mr. Morley Noble of Kitchener spent a weekend guests of Mr. and Mrs. Harry Wright. Sunday evening dinner guests at the same home were Mr. and Mrs. Harry Thompson and son, of Belleville, Mr. and Mrs. Wright entertained at a cookinite party on Saturday evening in honor of Mrs. Wright's birthday. Mrs. Foster Jackson and Mrs. R Brown assisted the hostess.

Mr. and Mrs. Clare Boyle and family, Trenton, were weekend guests of Mrs. Tom Boyle.

Miss Jennie Stringer and Mrs. Henry Stringer, of Houlter are also Mrs. Jim Bronson and Mr. and Mrs. Alan Bronson and son David of Bancroft, were recent Sunday guests of Mr. and Mrs. Ben Bishop.

Mr. and Mrs. George Guernsey, accompanied by Mrs. Joe Jackson and Tommy, motored to Toronto on Saturday. Mrs. Guernsey will spend a week in Toronto with Mrs. Jackson. After wrecking his apartment, the man climbed up on the roof and threatened to stab himself with a knife before leaping. When he finally did jump, police and firemen were on hand to catch him in a net. Unhurt, he was taken to a hospital.

a strawberry, pie and ice cream social in the town hall on the evening of June 28th.

Miss Gloria Fleming of Marmora was the overnight guest of Miss Marilyn Sainsbury on Wednesday and attended the miscellaneous shower held for Miss Evelyn Campbell, at the Sainsbury home.

Red Sox Stretch Streak To Five; Dodgers Win 2 In Row Over Braves

Sport Slices

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, *Sports Editor*

His Worship Mayor Harvey McFarland looked affectionately over the group that dotted the spacious grounds at his well-appointed home in Picton on Saturday afternoon.

IKE HILDEBRAND

They were members of the McFarlands hockey club who proudly wear the name "Allan Cup Champions, 1957-58", and a number of special guests. Happily enjoying the afternoon was a troupe of youngsters around the 13-14 year age group, who were helping young Master McFarland celebrate his 13th birthday.

The Macs, immaculate in summer sports garb, appeared to be as much at home on a lawn with a tea cup as they are on the ice with a hockey stick. Only this time there were no penalties. Everybody stayed on the ice," so to speak, and with their lovely appareled ladies, enjoyed the fine hospitality of Mayor and

McFarland and his charming spouse.

The "host" fairly beamed his enjoyment at having "my boys" as he special guests. Personally saw to it that they lacked for nothing, even to bathing suits to frisk in the unheated pool—and as swimmers a lot of the Macs are good hockey players.

A number of outstanding guests were there, including officials from the counties of Hastings and Prince Edward, members of parliament, and prominent men from all walks of life and their ladies.

But the host's chief concern was "his boys," the Macs, who did themselves right royally from a social standpoint. They quaffed tea from delicate cups with all the grace of a sixteenth century boulevardier. They nibbled at dainty sandwiches with the ease of a courtier. They mingled with other guests with all the aplomb and freedom of social dilettantes.

"This is a sort of double affair." Mayor McFarland told press representatives. "I wanted to have my boys over here for a spring get-together and also to entertain some of Malcolm's friends at a birthday party. So we decided to kill one bird with two stones. Besides I wanted to meet the boys' wives and fiancees. Glad to here we are and I hope everybody is enjoying themselves.

Coach Ike Hildebrand and Mrs. Hildebrand, proud parents of "Allan, the Cup Winner Baby", were there from Peterborough, while receiving congratulations from team-mates and friends was the seven-day old bridal couple, Lionel and Mrs. Botley, fresh from their honeymoon, and beaming the part. Most of the rest of the Macs were there with their ladies. Russ Kowalchuk, Floyd Crawford, Barton Bradley, Bep Guidolin, Joe Lepine, Keith Montgomery, Minnie Menard and Jean Paul Parrets were unable to be present due to travelling jobs, or being at their distant homes.

It was a grand party. Host McFarland and Mrs. McFarland saw to it that their guests, some 100 all told, lacked for nothing. Aside from social amenities, the Macs enjoyed motion pictures of their hockey days. Flash Cup taken and shown by Keith MacDonald, played brilliards, swam, amused themselves with a huge electric train but in deference to well-creased trousers, refrained from cavorting on a volleyball and softball diamond. They left that sport to the younger element.

Malcolm, who was the recipient of a handsome power motorboat as a birthday present from brother Harvey, Junior, was a perfect host in the sense of regarded, also all told from Picton, the district, and Belleville. He was fairly swamped with gifts, one a handsome minia ure of the Allan Cup, complete with miniature engraved, also the names of the players and club officials. This was one of the youngster's prize possessions, and with the handsome motor craft was the cynosure of all eyes.

The youngsters had a complete afternoon. They, too, enjoyed the pictures, played softball and caverted for an hour or so in the heated water of the indoors swimming pool. When it came to refreshments they gave the Macs almost as stiff competition as did the Kelowna Packers on ice-latues. These youngsters did not back up a step from the well appointed tables. Nor did they have to come from behind to hold their own with their championship counterparts. Happy, healthy, hungry, they attacked the viands with gusto, then came back for more. And later Malcolm, like his father, saw that his personal guests lacked for nothing.

Refreshments were served on the terrace overlooking this beautiful part of the Bay of Quinte where it reaches into the ... of Picton. Tree-bordered shores rise gently from the water on both sides of the bay. Speeding power boats and lazy sailing craft completed a gourmet nautical picture. In the distance smoke from one of the McFarland manufacturing enterprises curled lazily in white spirals against the blue of a cloudless June sky. It was a perfect setting for a perfect party with a perfect background.

Manchester City Whips Hearts By 7-1 Score

TORONTO (CP) — The English League soccer club Manchester City trounced the Scottish champions Heart of Midlothian 7-1 Saturday night in an exhibition game at Varsity Stadium.

Three goals by inside left Joe Hayes and two each by inside right Colin Barlow and left winger Ray Sambrook made up Hearts' defence battled all night, the City scores. Left winger Johnny Crawford scored Hearts' lone reply.

There were about 23,000 fans in the stadium as the teams took the field for their third meeting in two weeks on their North American tours. Hearts easily won the earlier matches.

Sambrook scored early, the crowd with a brilliant passing and dribbling display. Following the game City's manager, Lew McDowall said it was Sambrook's best game since he was bought from Coventry City last year for $45,000. The lanky winger had the

Win Brace Over White Sox As Tribe Scalps Yanks Twice; Bums Set Attendance Record

THE ASSOCIATED PRESS

Does anybody still think the Dodgers made a mistake moving to Los Angeles?

Walter O'Malley is so busy these days carting money to the bank that he doesn't even have time to stop and count it. This was the week O'Malley hit the jackpot.

Within the last seven days Dodgers have pulled 810,151 into the Coliseum. This is 157,379 head of last year's record pace at Milwaukee when the Braves played 2,213,490 at home.

AIDED THE GIANTS

The Dodgers lent a helping hand to their old neighborhood enemies, the Giants. By beating Cincinnati 5-4 Monday the helped Giants stay in first place de-feating San Francisco 6-3 defeat by Cincinnati.

Los Angeles failed to climb out of the cellar, however, when Philadelphia edged St. Louis 4-3 in 13 innings after dropping the opener 6-5 in 10 innings. Harry Anderson's third homer of the day gave a man on in the 14th saved the Phils from a shutout.

Moe Drabowsky of Chicago pitched a one-hit shutout against Pittsburgh, striking out 10 with the help of homers by Ernie Banks and Walt Moryn. The only hit off him was a broken-bat single by Ted Kluszewski in the second inning. The second game of a scheduled doubleheader was called off because of rain and darkness after a half inning.

Johnny Podres gave up 11 hits in the Brooklyn before $7,122 at Los Angeles but it didn't matter. The Dodgers clubbed Lew Burdette, Corley and three successors for 13. Corley now is 9-5 for the year.

Birdie Tebbetts did some fancy juggling at San Francisco where his Cincinnati Redlegs finally pulled one out with three in the ninth.

WIN ON WALK

With the score tied at 3-3 and Steve Ridzik up with the bases loaded in the ninth, Tebbetts sent up Smoky Burgess as a pinch hitter. Marv Grissom hit Burgess on a scheduled ball, forcing in the tie-breaking run as Tebbetts charged to the mound to argue that it was a ball. Don Hoak's single added the extra two. Willie Mays hit his 12th of the second straight day as Brooks Lawrence sent the distance for his third victory.

Anderson hit a single, double and two homers in the Phils' game for the Phils but St. Louis won the Del Ennis-Solly Hemus fly after three walks in the 10th. Anderson took matters in his own hands in the second with a two-run homer. In the 14th after the Phils pulled even with a run in the eighth and two in the ninth.

Banks it his 17th homer of the season in the first off loser Ronnie Kline while Drabowsky was doing his job on the Pirates. In addition to Klu's single, three others reached base, one walked and two made it on errors.

On Saturday Los Angeles declared Milwaukee 5-2, San Francisco beat Cincinnati 7-3, Phila. and Pittsburgh downed Chicago 8-6 in 10 innings.

Russ Could Not 'Dig' Casey On Baseball

NEW YORK (AP) — Four Russian engineers appeared at Yankee Stadium Sunday to see a doubleheader between New York Yankees and Cleveland Indians — and promptly ran into language trouble.

Apparently they were unimpressed because left after an ... first game, — won 14-1 by the Indians, some of the regular customers also left after that one.

Before the game, the russians were taken on a tour by Yankee manager Casey Stengel -and he explained the game to them. This made for wondrous listening, for the Yank manager is a tough man to understand even in English.

The interpreter gave up, and the russians simply kept smiling and nodding to the flood of Stengelese.

It turned out that the Russian language is short of some items. lations for baseball terms, so that made the job of explaining it even more difficult. For example there is a dropped fly. The word for that is "podlipka." For home runs, loaded bases and the like-no dice, so the Russians were left in the dark.

Boston Red Sox finally seem to be making their move in the American League.

By taking a pair Sunday from Chicago—thus dumping the White Sox into a last-place tie with Detroit Tigers — the Red Sox stretched their modest winning streak to five.

With Jackie Jensen hitting two homers, including a two-run blast in the 10th, Boston took the opener 6-5. A pair of two-run homers by Jim Piersall an. Gene Stephens boosted them to a 4-1 sweep. Boston moved within eight games of first place.

This combination of events and Cleveland's two victories over the leading New York Yankees, 11- and 5-4, made the league standing a bit more respectable.

KANSAS CITY GAINS

Kansas City also picked up one game on the Yankees arc now trail by 7½ games splitting a ballgame. Hal Brown and George Zuverink teamed up to hand the athletics their first shutout of the year in the opener 4-0. Kansas City gained an even break, winning the second 2-1 with only five hits.

Despite home runs by Gus Zernial, Frank Bolling and Billy Goodman, Detroit dropped a twin-bill to Baltimore 7-6 and 5-4. Bob Turley picked up an even decision for Pedro Ramos.

The Red Sox are getting a reputation as come-from - behind-boys. They rallied in seven ... games against Chicago in their series sweep. Don Buddin, Dick Gernert and Jensen hit all the homers off Billy Pierce before Turley again connected with one on in the 10th.

OUT-HIT BY CHICAGO

Boston had only five hits while Chicago had 19 in the final, including five by Billy Goodman. Leo Kiely was the winner. Bubba Phillips, the third baseman, suffered a foot fracture and will be out for three or four weeks.

Piersall and Stephens, Ted Williams' replacement, did the heavy work while Jensen shelved Chicago to six hits in the second game to hand a seventh defeat on Dick Donovan.

Hooky Colavito was the big man for the Indians with a double, triple and homer in an 11-hit attack in the second game with the Yanks.

Johnny Kucks, knocked out in the first inning, became a two-time loser when Russ Nixon hit a three-run off him in the seventh inning of the second game. Phillips also had a two-run homer in that second cut-fest.

LARGEST YANKEE CROWD

Ray Narleski and Dick Tomanek were the Indian winners before 40,903, the largest crowd of the season at Yankee Stadium. Among other Yankee misdeeds, Mickey Mantle drove in all but two of the three - base error that opened the door for Cleveland to score five times in the eighth and put the game out in the third inning of the opener.

The Orioles' Brown made his first appearance since April 23 and it was a winner. He shut out Detroit 2-0 and Kansas City defeated Baltimore 5-2.

NEW OUTBOARD MARK

SEATTLE (AP) — Skipping his tiny craft over the glassflat surface of Lake Washington at an average of 107.821 miles an hour, Hugh Entrop Saturday claimed the world outboard motorboat speed record.

Entrop became the second man ever to travel faster than 100 miles an hour in an outboard. The other was Massimo Leto di Priolo of Italy, who set the recognized record of 100.3 miles an hour in 1956.

Dramatic Finish

Ibbotson Wins Feature Mile At B.C. Centennial Games

By PETER BUCKLEY

Canadian Press Staff Writer

VANCOUVER (CP) — Derk Ibbotson of England has confirmed reports he plans to ease out of mile competition and concentrate on three-mile events.

"I'll be specializing in the three miles from the British Empire Games," he said Saturday after winning the featured mile at the British Columbia Centennial Games here. The games are at Cardiff, Wales, this summer.

Reports from London had indicated the 26-year-old Ibbotson man was thinking of abandoning the shorter distance.

His victory over Merv Lincoln was measured almost solely in chest expansion. Ibbotson's time of 4:05.6, one-tenth of a second faster than Lincoln's, reflected a hotly paced stretch contest that saw the Englishman burt himself across the finish an inch or two ahead of Lincoln.

BRITISH LEAVE

Ibbotson left Sunday by plane for Montreal and then by ship for the British team. It was understood they will spend a few days at Banff and Calgary.

The mile, like the rest of the meet, was hit by the poorest type of track weather. Rain Friday night and early Saturday made the track at Empire Stadium very sloppy.

Ibbotson said he was "skidding at the corner" while Lincoln maintained: "you couldn't get much footing on the track."

There had been prospects of a close race over the recognized world record of 3:58 held by John Landy of Australia. Ibbotson ran the mile in 4:02.2 last year but it has not been recognized because he was barred.

FOLES TRIUMPH

A four-man Polish team, the first Iron Curtain track entry to run in Canada, captured three of the seven invitational events.

The Polish contingent went 'to a 28-year-old Polish army officer, Zdzislaw Kryszkowiak, in the Canadian record time of 13:34.8.

Zbigniew Makomaski won Friday's 880-yard contest and Stanlan Foik took the 220 - yard sprint Saturday despite a pulled leg muscle suffered when a ran sixth in the 100-yard dash the previous day.

Keither Gardner of Jamaica, key man in the university of Nebraska relay entry, won the

Terry Tobacco of Cumberland, B.C. won the 400 while the six-mile marathon went to Bill Gil-

On the Tracks

INGLEWOOD, Calif. (AP) Round Table, carrying 133 pounds for the first time in his career, got back on the winning trail Saturday with a close victory in the $53,500 Argonaut handicap.

Odds-on-favorite Round Table drove up in the stretch to beat the pace-setting How Now by more than a head. Seaneen, Irish four-year-old who upset Round Table in the Californian three weeks ago, was third in the field of six.

The time for the mile was 1:34 3-5.

Round Table enriched his owner, Travis M. Kerr of Oklahoma, by $30,000, and boosted his lifetime earnings to $1,056,964.

Connie Smythe's Caledon Beau Won't Horse Around Of Historic Queen's Plate

Maple Leafs' Bossman Treats Horses Same as Puckchasers; White Apache Finished 2nd

TORONTO (CP)—Conn Smythe built seven world professional hockey championship teams by driving his players to hard work. He has applied the same winning techniques to his horses.

"If ever you're going to have a horse that will prove to be any thing, he must be able to stand some tough treatment," a jubilant Smythe said Saturday after his three-year-old Caledon Beau won the 90th running of the $35,000-added Queen's Plate. Men have spent fortunes trying to win this greatest of all Canadian races and Smythe did it on his first try.

And Caledon Beau, bred by Smythe, proved his pedigree. It was a brown colt's first race in eight-days, something that most Canadian owners wouldn't dream of doing. On the Queen's County Fair Saturday gave the Toronto sportsmen a pocketful of money.

The "tough treatment" the boss of Toronto Maple Leafs of the National Hockey League talked about was Caledon Beau's losing effort in a mile race a week ago Saturday, followed by a two-mile exercise jaunt the following day and his first - place finish in the 1 1-16-mile Plate Trial just 48 hours later.

FAVORITE BEATEN

That, said the chalk-eaters, was too tough for a three-year-old. It was probably this reasoning that prompted the biggest crowd ever to attend a thoroughbred racing crowd of 29,386 at suburban New Woodbine Park to install Caledon Beau the favorite and Willie Morrissey of Toronto, as favorite for the 1¼-mile gallop over a fast track. Caledon Beau breezed home a five-length winner over long-shot White Apache and another five lengths over third-place Stole the Ring who, according to Jockey Johnny Longden, "became tired on me."

Caledon Beau's time of 2:04 1-5 was nearly two seconds slower than the Plate record of 2:02 3-5 established by Lyford Cay last year. But it was faster than the Calumet Stable's Tim Tam, sterling in its Kentucky Derby triumph a couple of weeks ago. Tim Tam went the 1¼-mile distance over a muddy track in 2:05 flat.

There still may be two kinds of horses around who say that Stole Ring can take Smythe's pride and this argument likely will be settled later this month. The $10,000 Prince of Wales stakes over nine furlongs is scheduled for the New Woodbine track and Caledon Beau and Stole the Ring are likely starters.

DEVELOPED COUGH

Stole the Ring has an impressive record. She won all five starts as a two-year-old, was winner Friday night for the Plate but developed a cough May 28 and didn't finish Saturday's day.

Fourteen horses from an original starting list of 203 a year ago last December, met the starter's gun before a fashionable crowd who played a merry tune on the tote with an all-time-high single-day mutuels of $1,974,037 for the eight-race card. It was the second biggest day Jay in Canada racing history; the first was made on this day a year ago when 26,705 fans bet $1,038,-

There wasn't much doubt of Caledon Beau's superiority when the leaders hit the far turn. The Smythe colt was lying third behind the pace-setting Stole the Ring and Bill Beasley's Happy Harry when jockey Al Coy applied the whip to Caledon Beau. The colt charged along the rail, went into a small lead, shook off a brief challenge by Stole the Ring and romped home alone.

$36,235 PLUS GUINEAS

His payoff was $7.20, $4 and $2.90 — Smythe collected a gross purse of $26,295. White Apache collected $12.60 and $5.30 and Stole the Ring $3.30. Smythe accepted the gold cup from Governor-General Massey and he will receive the Queen's 50 guineas in a week or less.

Immediately after the race the Ontario Jockey Club cabled the result to the Queen and, by tradition, the winning owner receives the guineas from the Queen's privy purse.

"I wish it was the Stanley Cup," said Smythe as he filled his cup aloft following the race. (The Stanley Cup is the NHL's top prize and Smythe's Maple Leafs finished last in the league last season).

Coy said later in the jockey's room Caledon Beau could have gone to the front at any stage of the race but he had been instructed to lay off the early pace.

Caledon Beau, owned and bred by Conn Smythe of Toronto, gallops home more than 10 lengths in front to win the Queen's Plate at New Woodbine Park in Toronto. The winner was ridden by Al Coy. (CP Photo).

Breaks Canadian Record at Track Meet

By RON ANDREWS
Canadian Press Staff Writer

ORILLIA (CP)—George Shepherd of the University of Western Ontario had never run in the 440-yard hurdles race before Saturday but he found it so much to his liking at the Ontario men and women's senior track and field championship that he broke the Canadian record.

The 20-year-old athlete won the event, his first of two victories, in 53.8 seconds, knocking three-tenths of a second off the former mark held by Montreal's Keith Holmes, who established it at the 1954 British Empire Games at Vancouver.

Shepherd was the only competitor able to break a Canadian mark as Tecumseh's East York Track Club dominated the meet, winning eight of the 28 events. Two other Ontario records were broken during the day.

SELECTION TRIALS LATER

Shepherd followed up with a victory in the 440 - yard race, winning it in 49.4 seconds, fourtenths of a second off the provincial record. He will join most of the other runners at Saskatoon later this month when the trials for selection of Canada's B.E. Games team are held.

East York athletes, led by Jeff Engle and Mrs. Jackie MacDonald Gilling, compiled 69 points to beat second - place Hamilton Olympic club which finished with 45. In third place was the Richmond Hill Track Club, sponsors of the meet, with 34 points, three more than Toronto Olym. Club.

The race for team honors was tight until Mrs. Gilling pulled her club ahead with wins in the discus and shot put.

Engel won the 100-yard dash in 10.1 seconds and the 220-yard race in 22.7 seconds.

TORONTO CUP WINS

Toronto policeman Stan Raike, a veteran athlete in the shot put and discus, and Richard Rau of Hamilton Olympic Club, with running broad jump and hop, step and jump wins, shared individual honors among the men with Engel and Shepherd.

The expected assault on the record break didn't materialize, some sprinters finding the cinder track rather loose.

Dick Carmichael of the RCAF's Trenton station set a record in the men's three-mile run with a time of 14:36.2. The old record was 14:45.8, Marion Munroe, 16-year-old athlete from Richmond Hill track club, set the other record in the women's 60-yard dash, winning it in 7.2 seconds, one-tenth of a second better than the old mark.

Gord Dickson of Hamilton Olympic was the busiest athlete. He won the javelin event, finished third in the three-mile run and fourth in the mile for a total of 19 miles run under a hot sun.

Miss Munroe and Pat Cole of Hamilton Olympic were the stars of the women's events, each winning two races and finishing second to another as well as running in the 440-yard relay, won by Hamilton Olympic with Richmond Hill second.

Jovial Joe Carr of Ireland Wins British Amateur Cup

ST. ANDREWS, Scotland (CP)—Jovial Joe Carr of Ireland, striking calmly and often brilliantly, won the British amateur golf title Saturday.

Alan Thirwell of England 1 and 2.

Carr, a Dublin haberdasher who practised putts every morning before breakfast for the last year, dropped a 75-foot green shot on the 30th hole to put the match on ice.

The win was the second for Carr, 36. He took the title in 1953 and has played on six British Walker Cup teams.

ALWAYS AHEAD

Going into the afternoon round 1-up, Carr never lost the lead. He built it to a 3-up advantage, then watched Thirwell, a 29-year-old Newcastle radio man, whittle it down to 1-up.

Thirwell lost on his putting. He missed a two-footer, an eight-footer and a three - footer and three others just over the eight-foot mark.

Carr, meanwhile, sharpened his eye and hand at the match progressed over the Old Course. He began chipping dead to the pin, getting every bit of mileage out of his ancient and rusty putter despite stiff winds off the North Sea.

Leafs Blank Columbus 5-0; Royals Split

By THE ASSOCIATED PRESS

Many a team in the International League has gone all out to score runs. But rarely do you see a team try to give away runs to the extent where the umpires threatened to forfeit the game.

Such occurred in the Toronto Maple Leaf-Columbus Jets second game Sunday after the Maple Leafs blanked the Jets in the opener 5-0.

With a curfew time of 7 p.m. in sight and the Jets in front 5-0 in the fourth, the Maple Leafs let every thing hit on the ground trickle through for hits. They had hopes of stalling long enough for the curfew to arrive before the last of the fifth.

When Mike Goliat fumbled, then kicked Spook Jacobs' grounder in the fourth, umpire Augie Guglielmo threatened to forfeit the game to the Jets. The game continued and the Jets lost 8-0 when the game was called after six innings. It will be completed at a later date.

Miami Marlins and Rochester Red Wings swapped shutouts. The Marlins won 2-0 in the opener and the Red Wings the slightcap 1-0. Montreal Royals split a pair with Richmond Virginians, winning 4-3 in 10 innings and then losing 3-1. Buffalo Bisons edged Havana Sugar Kings 4-3 in a game cut short by rain.

Leaders in Homers Bats Over .300 With Jaw Broken

BALTIMORE (AP) — Husky slugger Bob Cerv appears to be headed for the best year of his baseball career—but he can't afford to go around shouting about it.

If he opens his mouth too vigorously, he might break the wires that have held his broken jaw in place since May 17.

Because of that sinking job, the Kansas City Athletics outfielder has missed only three games, his average has stayed above the .300 and he remains at the top of the league in home runs.

Cerv was batting .364 and had notched 11 home runs when he broke his jaw in a collision with Detroit Tigers catcher Red Wilson. Bob was hustling for home, trying to score on a bunt, when his face slammed into Wilson's shoulder.

EATS THROUGH STRAW

The next day a plastic surgeon worked for an hour in wiring the jaw rigidly in place. Then, on May 22, the left-hitting Cerv went back to work, mumbling through his teeth, eating through a straw, taking whiffs of oxygen between innings — and hitting home runs.

His average had dropped to .303 through Saturday's play but added four home runs for a total of 15 and 15 runs batted in for a total of 49.

One major difficulty is breathing. He does it mostly through his teeth and nose during a hard trip on the basepaths—and then he gets winded.

SOLIDLY WIRED

Although Bob has the muscle power to break the wires, there apparently is little chance that he'll open his mouth wide enough. accident. Physicians said it would take a blow at least as hard as Cerv's collision to open Cerv's mouth.

The only time his mouth has been open since May 18 was one night during his sleep when he groaned probably dreaming of a tough steak—and broke two wires. Those were damaged.

Bob's jaw is scheduled for unwiring June 16.

Cavan Wins Belmont Stakes Tim Tam Has Fractured Leg

NEW YORK (AP) — Tim Tam, Calumet Farm's Kentucky Derby and Preakness winner who suffered a bone break and lost the $100,000 - added Belmont Stakes Saturday, may be retired from racing.

That was the opinion today as the flashy son of Tom Fool rested in his barn at Belmont Park, awaiting a final decision by trainer Jimmy Jones and owner Mrs. Gene Markey who is in Europe.

In any event, the colt, beaten by six lengths by Irish-bred Cavan in the 1½-mile race, won't be seen on a racetrack for some months. Jones said x-rays of Tim Tam's right front leg disclosed a break between the ankle and hoof.

Calumet was seeking its third triple crown.

Tim Tam and Cavan, owned by Joseph E. O'Connell of Boston, moved together on the final bend. Just as they turned into the home stretch, Tim Tam slackened speed and Cavan drew away and won easily.

GETS BIG PAYOFF

Cavan, ridden by Pete Anderson, paid $11.80 and collected $73,440 from the $114,000 purse. Tim Tam, who had won two other $100,000 races in addition to the Derby, has weakened the Flamingo and Florida derby was a $50-$20 favorite. He picked up $22,920 for finishing second. He now has earned $467,460.

Ismael Valenzuela, who rode Tim Tam, said the injury probably occurred at the top of the stretch, about a quarter - mile from home.

Jones had planned to send Tim Tam to Chicago for the $100,000 Arlington Classic at a mile July 26 and later the American Derby.

Tim Tam pulled up lame. It was the second straight year that a foreign - bred horse whipped Americans in the rugged classic at Belmont. Gallant Man, foaled in England but raised in Ireland where Cavan was born, won the Belmont a year ago.

Yesterday's Stars

By THE ASSOCIATED PRESS

Batting: Harry Anderson, Phillies—hit two-run homer n 14th inning to beat St. Louis in second game 6-4 after his single, double and triple drove in three runs in first game, won by St. Louis 6-5.

Pitching: Moe Drabowsky, Cincinnati — out Pittsburgh with one hit—Ted Kluszewski's broken - up single in second inning—for 4-0 victory.

Champions Set Marks for Other Golfers

EDMONTON (CP) — Stan Leonard matched men's par and Betty Stanhope was two strokes under women's regulation figures Saturday as the two golf champions set the marks for other Canadian golfers to shoot for in national golf weekend competition.

Leonard, Canadian Professional Golfers' Association Champion from Vancouver, toured the Mayfair Golf and Country Club course in 70 strokes. Miss Stanhope, Edmontonian who holds the Canadian women's open and closed title, fired a 78.

Golfers across the country who pay $1 towards financing a junior golfers' development program can pit their skill over 18 holes against the champions on any golf course. If their score is no less than the champions' gross, they get an "I beat the champion" card from the Royal Canadian Golf Association.

Two junior champions who played with Leonard and Miss Stanhope didn't win their cards. Judy Darling, 15-year-old Edmonton women's junior champion from Montreal, came in with an 84 while 17-year-old Bill Wakeham of Victoria, national junior men's champion, had a 79.

COMING FROM BEHIND

England's Derek Ibbotson (right), unofficially clocked at 3:57.2 for the mile, moves up from behind Merv Lincoln of Australia to win the British Columbia centennial games mile run in 4:04.4 on a muddy track at Vancouver Saturday. Lincoln placed second. (AP Wirephoto.)

Sleepy Dawe Tosses Four-Hitter As Cobourg Blanks Trenton Jrs. 8-0

Cobourg Merchants, tightened their grip on second place in the Belleville and District softball league on Saturday night by downing the last-and Trenton Legion Juniors 8-0.

Jim "Sleepy" Dawe chalked up the shutout for his third victory of the season while his mates exploded for seven runs in the bottom of the eighth frame to wrap it up They scored the first run in the fourth frame.

It was the second shutout in the loop this season and both have been recorded by Cobourg.

Dawe got off to his usual start, allowing three hits in the first three frames, but from then on he was untouchable. He ended up with a four-hitter, allowing a two-out single in the ninth. He struck out twelve over the distance while issuing four free passes.

Ron Wannamaker hurled for Trenton, giving up 14 hits with half of these coming in the big eighth-inning rally. He spaced the other seven safeties and pulled out of trouble on several occasions in earlier innings. Wannamaker whiffed seven and walked only one, this an intentional pass to Dawe in the eighth.

Dawes' single, a double by Brian Hart and a couple of errors gave Cobourg their fourth-frame marker.

Trenton's best scoring chances came in the first and third frames on a single and walk in each inning, but they were unable to chase a runner all the way.

Cobourg struck hard and fast in the eighth to salt away their fourth victory of the year. Dick Turpin, who singled twice during the rally, started it with his first base knock. Pete Boncardo and Leo O'Brien followed with the same. That was walked, Jim Hart singled, then Brian Hart, Red Alexander and Turpin again added one-base blows to make it 8-0.

Every man in the Merchant lineup collected at least one hit with Brian Hart and Dick Turpin leading the way with three each. Pete Boncardo claimed two, while O'Brien, Dawe, Jim Hart, Scotty McSporran, Alexander and Jack Bevan each bagged one safety.

The four Trenton singles were divided among Leroy Wannamaker, Bill Moxam, Roger Drake and Howard Cole.

Lineups:

Trenton — Austin, Drake, Alexander, L. Wannamaker, Burns, Moxam, H. Cole, D. Cole, Williams, R. Wannamaker.

Cobourg — Turpin, Boncardo, O'Brien, Dawe, J. Hart, McSporran, B. Hart, Alexander, Bevan.

Umpires: Woody Reid (P) and Paul Johns.

Harness Racing

MONTREAL (CP) — Bay State Pat, an eight-year-old gelding with Francois Lefoeuf at the reins, won the $5,000 stake race with $1,450 added at Blue Bonnets Raceway Sunday.

Owned by Jacques Beaudoin of Montreal, Bay State Pat easily held the lead against nine of the best pacers in the country and won in 2:08.

Ontario horses won three events on the 10-race card: Madam Dip, Bonnets from Brampton, Sundown Borders from Toronto and Fast Buck, another Brampton entry. Horses from Ontario had better luck Saturday, taking five races. The winners were Helen Stout from Pembroke; Major's Corporal, Morrisburg; Peggy Chief C, Essex; Mr. Flynn, Wallacetown, and Shramrock Bonnie, Selbyville.

Dutchies Win Over Hamilton

HULL, Que. (CP) — Baroness Atom, a six-year-old sorrel mare from Pembroke, paced the mile in 2:08 to win the feature event at Connaught Park Saturday night.

A former trotter, Baroness Atom has yet to be defeated in the pacing having won all four starts this year.

Driven by Carl Baker, she went to the top at the quarter of the eighth race and was never seriously threatened by Sally Sue, owned and driven by Dr. John Findley of Arnprior, second all the way. Dusty Brook C. from Brockville finished third.

Ontario horses won eight of the nine races on the card, losing out only to a Montreal-owned steed in the second race.

Red Salt H. from Hagersville, captured the first event, a mile, D pace. Mr. Wolf from Hanover won the third, a D trot; June Chips II, Walkerton, the fourth, a D pace; Joscelle Beauty Brooke, H. Mansfield, the fifth, another D race.

Hard Red from Brantford captured the sixth, a D pace. The seventh, a mile trot, went to Effective St. Charles from Morrisburg and Princess Guy Abbie from Lakefield was the winner of the last event, a pace.

Hogan Seeks U.S. Open Title

TULSA, Okla. (AP) — The United States Open golf championship goes up for grabs at Southern Hills this week and the experts say the man who beats Ben Hogan can have it.

Hogan, now 45 and clinging to fading golf glory, has a burning desire to become the first man ever to win the Open five times. He was bitterly disappointed last year when a suddenly-lame back kept him from participating.

Many golfers think this is Ben's year to make it five—even though he has virtually retired from competition and admits that his golf, particularly the putting, isn't what it used to be. He has devoted months of tailoring his game to fit the Southern Hills' course and has visited it several times for practice.

SWEAD GIVES CHANCE

If Hogan isn't the man 'o beat, it may be Sam Snead, who never has won the Open and who sees his chance fading a bit more each year. Snead's booming shots are well suited to the 6,907-yard par-70 course if he can make his putter behave.

Dissenting experts can point to almost any one of two or three dozen golfers who have shown they have the ability to win. The 155 who will go to the first tee Thursday are the survivors of a record entry of 2,116. The qualifiers had to be good even to get into the tournament.

The field includes nine former champions, three of whom had to qualify regionally, many of the best performers on the professional tour, and challengers from Australia, South Africa, Canada and Mexico.

The last five individual winners don't have to qualify. Hogan won in 1948, 1950, 1951 and 1953. Last year's winner was Dick Mayer.

Canada's only qualifier, Jerry Magee of Toronto, had rounds of 74 and 76 for a total of 147 in the pre-tourney elimination at Detroit last Monday.

Toronto amateur Gene Coghill has a chance to play if any of the four qualifiers from western New York state should not be able to compete. Coghill became a fourth alternate when he posted scores of 73-78—151 at Rochester, N.Y.

Snead Takes Dallas Open

DALLAS (AP) — Sam Snead, the old hatter from White Sulphur Springs, W.Va., caught the leaders in the stretch Sunday and then won a four-way playoff for $3,500 first money in the $35,000 Dallas Open.

Snead, who has captured more tournaments than anybody else in golf history — 100 was reported as champion of the Dallas Open when it appeared it was far out of his reach.

Winding up with a one-under par 69, Snead tied young John McMullin of Palm Oaks, Calif., the leader for three rounds; Julius Boros, from Mid Pines, N.C., and youthful Gary Player, the golf star shotmaker from South Africa. All had 272 for 72 holes.

Then, in a sudden death play-off for second place, Snead birdied the first hole with a 15-foot putt and stuck $3,-000 first money in his pocket.

Lopata Unhurt By Pitched Ball

ST. LOUIS (AP) — Catcher Sal Lopata of Philadelphia Phillies was hit on the head by a pitched ball Sunday, but apparently suffered no serious injury.

He was reported resting comfortably in hospital. Lopata was hit by a ball thrown by Cardinal pitcher Larry Jackson. It was carried from the field unconscious but soon showed no fracture.

Lopata was the second Philly hit by Jackson in the third inning. Rip Repulski was hit but not hurt.

Dutchies Win Over Hamilton

By THE CANADIAN PRESS

Joe Lazin is one pitcher who knows how to take care of himself in the Intercounty League.

While eight teams in the Senior Intercounty Baseball League were batting out 96 hits Saturday, Lazin spaced the 11 he gave up well enough to give Kitchener-Waterloo Dutchmen a 13-3 victory over Hamilton Beavers.

It was the 29-year-old right-hander's third straight victory.

He limited the Beavers to two runs in the fifth, when he already had a 5-0 lead, and a single each in the eighth.

Meanwhile the Dutchies pounded three Hamilton pitchers for 14 hits including a homer by Nick Rutchie and triple and double by Joe Bourek. The victory was Kitchener's seventh in eight games and moved them within a half-game of unbeaten Oakville Oaks, idle during the weekend.

OTHER GAMES

In other games Saturday, London Majors defeated St. Thomas Elgins 6-3, Galt Terriers beat Listowel Legionaires 10-7 and Guelph Merchants whipped Brantford Red Sox 14-0 in a game postponed for Thursday.

Astrological Forecast

By CARROLL RIGHTER

Tuesday, June 10

Aries (March 21 to April 19) — Is today for thinking in terms of self, where you are headed and how to most quickly get there. Make concrete plans, then dash out and have a fine time tuning up your system at favorite sports that also help mental stature.

Taurus (April 20 to May 20) — Your own secret affairs are best kept to you but for all to know about, but do not offer any information until you have carefully discussed the pros and cons with closest tie. Tonight, have a nice, restful evening at own fireside.

Gemini (May 7 to June 21) — Today is the time to give evidence of devotion and admiration to others. This will lead to closer proximity with one among your circle of friends who desires to combine efforts with you in some important enterprise. Success is certain.

Moon children (June 21 to July 21) — Civic and mundane matters are what will bring the highest success and satisfaction for you this day. Also, it will be possible to get the attention of a Bigwig who will take you under his or her wing and can climb ladder of success quickly.

Leo (July 22 to Aug. 21) — Here is a day in which to step out of dull — doldrum existence and into the marvelous world of latest inventions, fashions, etc., where you will be expressly fit for the exciting new world of things. Be alert and take the right steps.

VIRGO (Aug. 22 to Sept. 23) — Many opportunities are available to you now to make all your connections pay bigger dividends than heretofore. Do not play a lone hand any longer. Co-operate with the right persons and get into the real swing of things. Succeed.

Libra (Sept. 23 to Oct. 23) — Have you been too busy with home chores and ties that you are neglecting the associates who mean your greater security and increased prestige? Give attention to these right now.

SCORPIO (Oct. 23 to Nov. 21) — The planetary forces are with you, so work with a vim and a vengeance that will make this a memorable day in your life. However, be sure not to utilize more power than is necessary, or you turn out poor work, have accidents.

Sagittarius (Nov. 23 to Dec. 21) — If attuned properly astrologically, you will arise feeling that all is well with the world and capable of much creative activity. Make time, too, to show affection to others who deserve it. Be less restrained.

Capricorn (Dec. 22 to Jan. 20) — It is possible to get started on an upward, but first it is necessary to put all immediate affairs in order, at home and elsewhere. P. M. fine aspects for gaining through emotional outlets to a remarkable degree.

Aquarius (Jan. 21 to Feb. 19) — Here is a splendid day for being out in the world of activity and making wonderful things happen for you and to you. First read your newspaper, then turn about merrily to heart's content in an orderly fashion according to plan.

Pisces (Feb. 20 to March 20) — If you but decide to plunge wisely without fear, your finances can skyrocket today by setting ideas to work. Also show appreciation for any good suggestions given you, and you make it worthwhile for friends who help you to grow.

If your child is born today ... The remarkable child born today will have a most active and constructive mind. And so varied a number of good plans are formed early in life that it will be difficult to pick the best vocation for your progeny. But yours is the duty to inculcate thoroughness. A fine horoscope for a champion in sports, the executive secretary, or any field where both brawn and brawn of real breadth are requisite.
